Good morning Steve,

The Grainger Foundation just made a donation of $40,000 to the Food Bank of Eastern Michigan which is actively serving the Flint community. We do not usually share this type of information with our customers but thought this may be of interest to you.

Thanks,
Brent

Hello All,
I wanted to take a moment to thank you again for supporting our grant recommendation for the Food Bank of Eastern Michigan. Jake Dean and I had the honor today to present a $40,000 check on behalf of "The Grainger Foundation" . Food Bank, Kevin Hammer and Cathy Blankenship were very appreciative and excited to use the money towards their warehouse equipment. As Jodi mentioned at the NSSM, with all of the water they are moving their equipment is taking a major beating. By sharing part of your fund allocation we were able to make a huge impact. Jake and I were given a tour of the facility and it is evident the great work they do for the local community and surrounding areas. Thanks again for your support! Please feel free to share with your teams to let them know how their location played a part in making this donation happen.

Kathy

Good morning Steve,

This is still going on and is it worse? How is your inventory? Please remember that you have part of the original order stored at one of my stores. That represents 5k faucet filters that you have already purchased and we can deliver at your request.

Hope all is well buddy!

Stephen

Attached is the subject document executed by Home Depot to support your emergency needs regarding the state of emergency for the Flint area. Once executed by the State please pass us a copy for our files.

Also, maybe in the next change notice we can put the 'installations' clarifications

Thanks

Subject: Food Category Team Plan

Hello,

Back on December 30th I had sent out the updated category plan. I had requested that all of you take a look at the plan and either give me feedback on recommended changes or if you were fine with the plan, I was looking for you to print, sign and date next to your name on the signature page and send that to me. I wanted your feedback by Friday January 15th. So far I have received only two responses with signatures.

If you could please take a look at this and get back with me it would be greatly appreciated as I would like to get this phase of the project closed out and move on to the ongoing phase of this project which is to continue working through the recommendations. Thanks.

Subject: RE: Water Service for Flint Branch Office, Michigan Department of State.

Kim,
We'll honor the pricing below which I be is the MDEQ contract.
I would suggest 5 bottles of Drinking (distilled) water to start than refilling as needed every 28 days.
people on average would use 3-4 per 28 day. There is a $7 refundable per bottle deposit.
Cooler rental would be $6 per month.
First delivery would be:
5 bottles Distill water @ $3.95 = $19.75
5 bottle Deposit @$7.00 = 35.00 Total $54.75
Regular refills should be no more than $19.75 plus $6 cooler rental so $25.75 per month
If you agree that I can have a Customer Service rep call you for the Delivery address and payment info.
We can set-up Friday

Subject: Water Service for Flint Branch Office, Michigan Department of State.

Good Morning Art,
We are hoping to set up service utilizing State of Michigan Contract 071B4300122. Initially we would set up service using a credit card and later move it over to a Purchase Order.
The office is located at 408 S. Saginaw St, Flint, MI 48502. We have 6 employees there and would like to get the cold water model of dispenser.

The pricing we are looking at on the contract is below, can you provide a cost estimate and description of service (weekly, bi-weekly, monthly) and typical volumes for a staff of 6 employees?

Thank you,

Kim Metzger, MDOS Purchasing Manger
(517) 373-2571

DTMB Header 1022.15

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.

H2O

Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

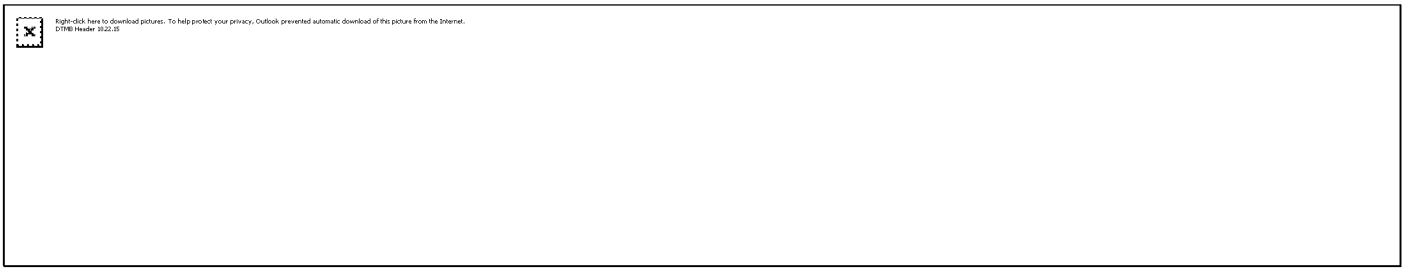
Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,



David

Subject: The Gov. Snyder's Budget Proposal

Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

Chris/Jeanette,

My questions only pertain to Home Depot and the procurement of water filters, bottled water, and supplies needed for repairs. I'm trying to sort out the confusion that David from Home Depot and I have regarding the procurement of these items and the processing of payments. We need to finalize a fluid process for this so that we can avoid further confusion. I want to do everything I can to help, but I first need to understand the current process so I can direct what I have control over to the right people. I don't want there to be a disruption in the incoming flow of these items.

1. What is the current process for ordering these items? David from Home Depot is currently getting calls from a minimum of 4 different people.
2. What is FEMA's role in procuring these items? Apparently a FEMA rep called Brita directly to order filters. Home Depot has cornered the market on all filters from Brita and PUR, so it is suggested that we continue to work directly with David from Home Depot.
3. If FEMA does take over the ordering of filters, water, and supplies, will they agree to work with Home Depot and who is the contact person that could work directly with David from Home Depot?
4. Will FEMA be creating contracts directly with manufacturers or will they utilize current contracted vendors?
5. If FEMA takes over, will they be paying invoices directly?
6. What happens when FEMA leaves in 3 months?
7. Who is responsible for entering Home Depot receipts into the MySimms tracking system so that David from Home Depot can send these receipts to that person directly? I have attached the receipts that I have received from Home Depot.
8. Right now Home Depot invoices are sent out monthly because of the 60 day terms in the contract. However, we currently have over $10,000,000 in outstanding invoices. We had gotten CitiBank to increase our credit limit to $10,000,000 last week. We requested CitiBank to increase the credit line to $20,000,000, but that has not yet been approved by CitiBank. To keep the credit line open we need to turn around these invoices much quicker. Citi has an EFT program that a State designee could log into and pull invoices from immediately to get them paid. Who would be the person that Citi could set up an account with so that they could log in and download invoices for quicker processing?
9. LARA recently purchased items from Home Depot for plumbing supplies. Moving forward, if LARA is to procure any more items through Home Depot can they work directly with David from Home Depot so as to not cause any more delays?

That is all I have at this point. Thanks for any feedback.

Kim - Will do.

Steve - can you please let Kim know which DHHS employees were present at the last Home Depot meeting, and copy her on emails relative to invoices in the future? Thank you for this and all of your hard work.

On Jan 24, 2016, at 9:08 PM, Stephen, Kimberly (DHHS) <STEPHENK@michigan.gov> wrote:
Thank you for the reply tonight. I am not expecting assistance in formulating a response to MSP but rather wanted to make you aware of the request to avoid duplicate reporting. There are many people involved and it is very confusing as to who is responsible for what. The more we can keep the lines of communications open the better. Please include DHHS in any meeting on Home Depot invoice payments since we will be ultimately responsible. We can talk in more detail on Monday.

Kim

To clarify, DTMB Procurement is not in a position to track usage and spend, so we are unable to assist in your response to MSP. Please work with Jeanette and Chris. The SEOC has asked everyone to track receipts and enter them into MySims software.

Buyer Steve Rigg is involved to the extent that Home Depot is asking questions about unpaid invoices, and Steve facilitated getting invoice copies and a meeting set up. The State is running close to its account credit limit with Home Depot and needs invoices cleared for payment.

We are still seeking clarification on the new FEMA process, and anticipate more information next week.

I'm happy to talk more on Monday, but thought you may also need an immediate response.

Please call my cell for any emergency requests, instead of or in addition to email.

Subject: FW: Flint Issue Questions from DTMB Procurement

Hi Sharon,

Would it be possible for Rebecca to include me in her communication on this important matter? It is not clear to me from the e-mail below if she is still seeking clarification on this issue or if I should contact to Jeanette Doll and Chris Christensen myself to obtain answers.

We have received the following request from State Police for information:

From: MSP-seocfgc
Sent: Wednesday, January 20, 2016 4:23 PM
To: Kangas, Susan (DHHS) <KangasS1@michigan.gov>
Subject: Costs for City of Flint

Hi Susan:

Richard Thelen gave me your name as his financial point of contact at DHHS. The immediate need is information on the costs incurred by DHHS for water, water filters, and replacement cartridges. FEMA has asked for this information – even if some of the figures are an estimate – so they have a ballpark idea.

If you could get some numbers to me tomorrow, I’d appreciate it. Please include all of your costs related to Flint, including those that were paid for with the special appropriation that you received in October. I will be providing some guidance on how costs should be tracked for state disaster assistance and possible federal assistance.

If you have any questions, please let me know.

Thanks,
Penny Burger

Hi Steve, in the very beginning October I would send 319 to budget to process and order products from Home Depot.

As product begin getting scarce I began working directly with David as to what we needed vs what was available etc. then I would complete the PO but budget always knew what was coming.

When SEOC and got involved Richard or Brian would ask me to order products to maintain consistency and to continue working with David.

I also have a financial specialist Jeff Sanford who works with me and prepares the 319 for processing for all the filter orders.

He received all of the invoices from Home Depot for the product that we received under our existing POs. He will go through and consolidate the product received with our tracking spreadsheet and signed 319s. Once That is completed he can create a payment voucher for Home Depot to get paid.

I also just got a message from David that he has 12,000 Brita filters available. He needs direction as to what we want.

I am not approving any orders at this time per directions that FEMA is now ordering.

I'm am available to do whatever is needed.

Chris/Jeanette,

My questions only pertain to Home Depot and the procurement of water filters, bottled water, and supplies needed for repairs. I'm trying to sort out the confusion that David from Home Depot and I have regarding the procurement of these items and the processing of payments. We need to finalize a fluid process for this so that we can avoid further confusion. I want to do everything I can to help, but I first need to understand the current process so I can direct what I have control over to the right people. I don't want there to be a disruption in the incoming flow of these items.

1. What is the current process for ordering these items? David from Home Depot is currently getting calls from a minimum of 4 different people.

2. Response: Sheryl had been the lead until EOC came on board.

3. What is FEMA's role in procuring these items? Apparently a FEMA rep called Brita directly to order filters. Home Depot has cornered the market on all filters from Brita and PUR, so it is suggested that we continue to work directly with David from Home Depot.

4. Response: I agree

5. If FEMA does take over the ordering of filters, water, and supplies, will they agree to work with Home Depot and who is the contact person that could work directly with David from Home Depot?

6. Will FEMA be creating contracts directly with manufacturers or will they utilize current contracted vendors?
7. If FEMA takes over, will they be paying invoices directly or will that continue to be done by the State?
8. What happens when FEMA leaves in 3 months? Good question

9. Who is responsible for entering Home Depot receipts into the MySimms tracking system so that David from Home Depot can send these receipts to that person directly? I have attached the receipts that I have received from Home Depot.
10. Right now Home Depot invoices are sent out monthly because of the 60 day terms in the contract. However, we currently have over $10,000,000 in outstanding invoices. We had

gotten CitiBank to increase our credit limit to $10,000,000 last week. We requested CitiBank to increase the credit line to $20,000,000, but that has not yet been approved by CitiBank. To keep the credit line open we need to turn around these invoices much quicker. Citi has an EFT program that a State designee could log into and pull invoices from immediately to get them paid. Who would be the person that Citi could set up an account with so that they could log in and download invoices for quicker processing?
11. LARA recently purchased items from Home Depot for plumbing supplies. Moving forward, if LARA is to procure any more items through Home Depot can they work directly with David from Home Depot so as to not cause any more delays?

That is all I have at this point. Thanks for any feedback.

Awesome! Jeff Sanford is the right person to be working on the invoices. He and I had several conversations on Friday and will continue to work together on the reconciliation.

Appreciate the FEMA the update. It it so very helpful. Do we know where the FEMA filters are being delivered and if/how the receipt of the filters is being tracked? I assume that DHHS will at some point will receive a billing for 25% of the FEMA filter bill so I want to ensure we are tracking receipt of the product. Do we have any confirmation on how the financial reimbursement to FEMA will work? If you are are not the correct person to answer these questions, please point me in the right direction.

Kim,

There wasn't an actual meeting with Home Depot and DHHS. Last week on Thursday I sent all the receipts and invoices from Home Depot to Jeff Sanford at DHHS. I got Jeff connected with David Khanuja from Home Depot and they have been working through those invoices and Jeff is consolidating that information.

FEMA – FYI. I have been informed from Home Depot that someone from FEMA ordered approximately $330,000 worth of filters last week and approximately another $1,000,000 worth of filters on Saturday night.

*See agenda below

Requested By:
DTMB Executive Staff

Location:
Ottawa Building
Upper Level – Conference Room 4
611 W. Ottawa Street
Lansing, MI 48933

Call-in: 866-390-1828
Access code: 1842654

Security:
Please have your State Employee ID showing at all times.

Parking:
Metered parking is available along Ottawa and Pine street.

Briefing:
In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to produce, by a certain date, any documents containing certain search terms. In this meeting we will review instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Agenda
1) Kickoff – Brom Stibitz, Chief Deputy Director
2) Why you are here – Jean Ingersoll, Interim Chief of Staff
3) What you need to do (February 22, 2016 deadline) – Jean
4) What will be done for you – Jean
5) What's next – Jean
6) Public Information Reminder – Caleb Buhs, Public Information Officer
7) Questions and Answers - Group

STATE OF MICHIGAN

RICK SNYDER
GOVERNOR

DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET
LANSING

DAVID B. BEHEN
DIRECTOR

February 18, 2016

TO: All DTMB Custodians of Correspondence Related to Flint

FROM: Jean Ingersoll, Interim Chief of Staff to David B. Behen, Director and CIO

SUBJECT: Flint Document Production – Search Terms and Guidance

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. **As a custodian, you are required to produce any documents containing the search terms listed below, no later than Monday, February 22, 2016.** This memorandum contains detailed instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Microsoft 365 – Outlook (*includes emails, calendar items) and OneDrive*

DTMB staff will centrally coordinate the Microsoft 365 search for all of DTMB's custodians. Therefore, DTMB's custodians *do not need to independently search any of their Microsoft 365 applications* for the search terms listed below.

Network Drives

Similar to the approach outlined above, DTMB staff will centrally coordinate the network drive search effort for all DTMB custodians. Custodians do *not* need to independently conduct a network drive search for the search terms below.

Non-Network Drives – *includes hard drives, desktop, and thumb/flash drives*

For all non-network drive types, ***each custodian will need to search every search term listed below in every non-network format, and move all relevant/related documents in to a network drive for collection. In order to move items to the network, you must be connected to the network.***

Start by conducting the search of all non-network drives, filling out the attached search term checklist as you go. If you need guidance as to how to perform this search, a step-by-step guide is included below in Appendix 1.

All relevant/responsive items that are produced as a result of your search need to be moved to a network drive. You can move your relevant/related documents to a network drive in whatever format the document is currently in. After the February 22, 2016, deadline, DTMB staff will access the network drives to collect the files.

Paper Files

Review all applicable paper files. Scan any relevant/related documents, and save them to a network drive, as described above. If this is not possible, you may provide hard copies of documents to Jean Ingersoll in the Director's Office. These documents must be received in the Director's Office by February 22, 2016, and will not be returned to you.

Home Computer

Any relevant e-mails or other documents on a personal computer also are subject to this request. Please check your personal computer for any e-mails or other documents relating to this search. If you discover any relevant/related documents, please include the phrase "personal computer" in the file name, and save them to the aforementioned network drive.

Conclusion

Thank you for your cooperation in complying with this request. Should you have any questions, please contact Jean Ingersoll at 1-8844.

Attachments

- FOIA Checklist
- Attachment 1 – Search Guidance

Search Term Checklist

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to search and copy all items that you identify to a DTMB network drive, as described above.

Please complete your search no later than close of business on Monday, February 22, 2016. Relevant/related items from the past 10 years should be included.

You should search for *each term exactly as it is shown below, and include quotation marks around each separate word.* For example, "Legionnaire", "Legionella", or "Flint" would all go into search fields. After you complete a search term, check the box beside the term.

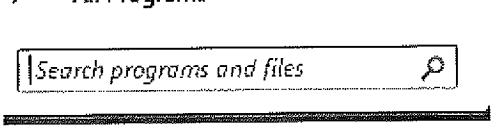
Search Terms:

- ☐ "Legionnaire"
- ☐ "Legionella"
- ☐ "boil water order" & "Flint"
- ☐ "coli" & "Flint"
- ☐ "bacteria" & "Flint"
- ☐ "microb" & "Flint"
- ☐ "TTHM" & "Flint"
- ☐ "Lead" & "Flint"
- ☐ "emergency" & "Flint"
- ☐ "Karegnondi"
- ☐ "Genesee County Health Department"
- ☐ "Flint" & "utilities"
- ☐ "Lead and Copper Rule"
- ☐ "Detroit Water and Sewerage Department" & "Flint"
- ☐ "DWSD" & "Flint"
- ☐ "Flint River"
- ☐ "Pb" & "water"
- ☐ "KWA"
- ☐ "Flint" & "water"

Search conducted on the email account of: _____

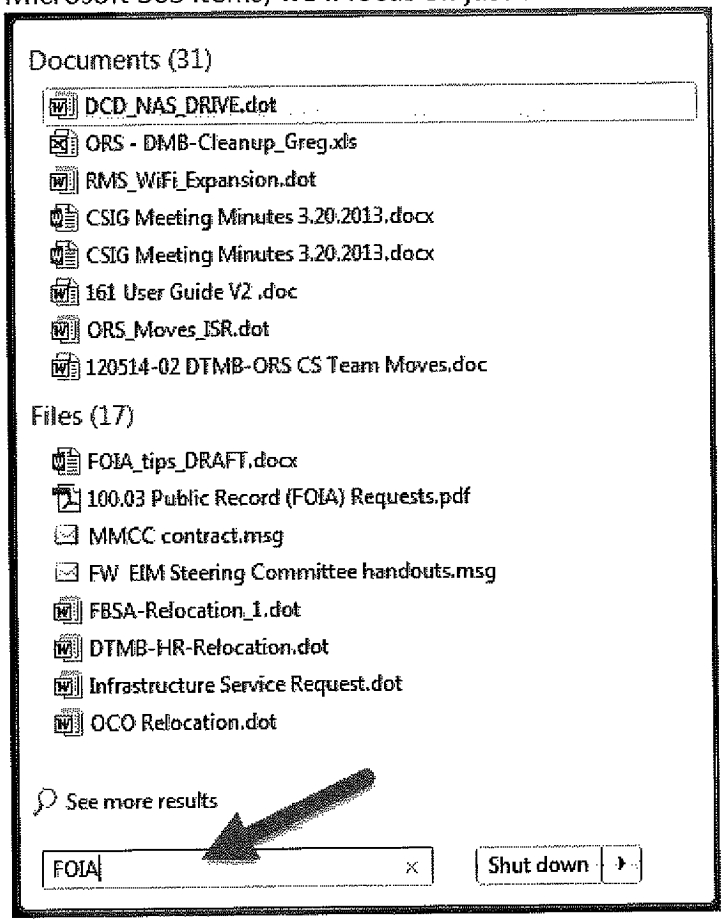
By (your name): _____

Date completed: _____



Please return this completed Checklist to DTMB Director's Office staff by Monday, February 22, 2016, at DTMB@michigan.gov, or Directors Office, Cass Building, Second Floor

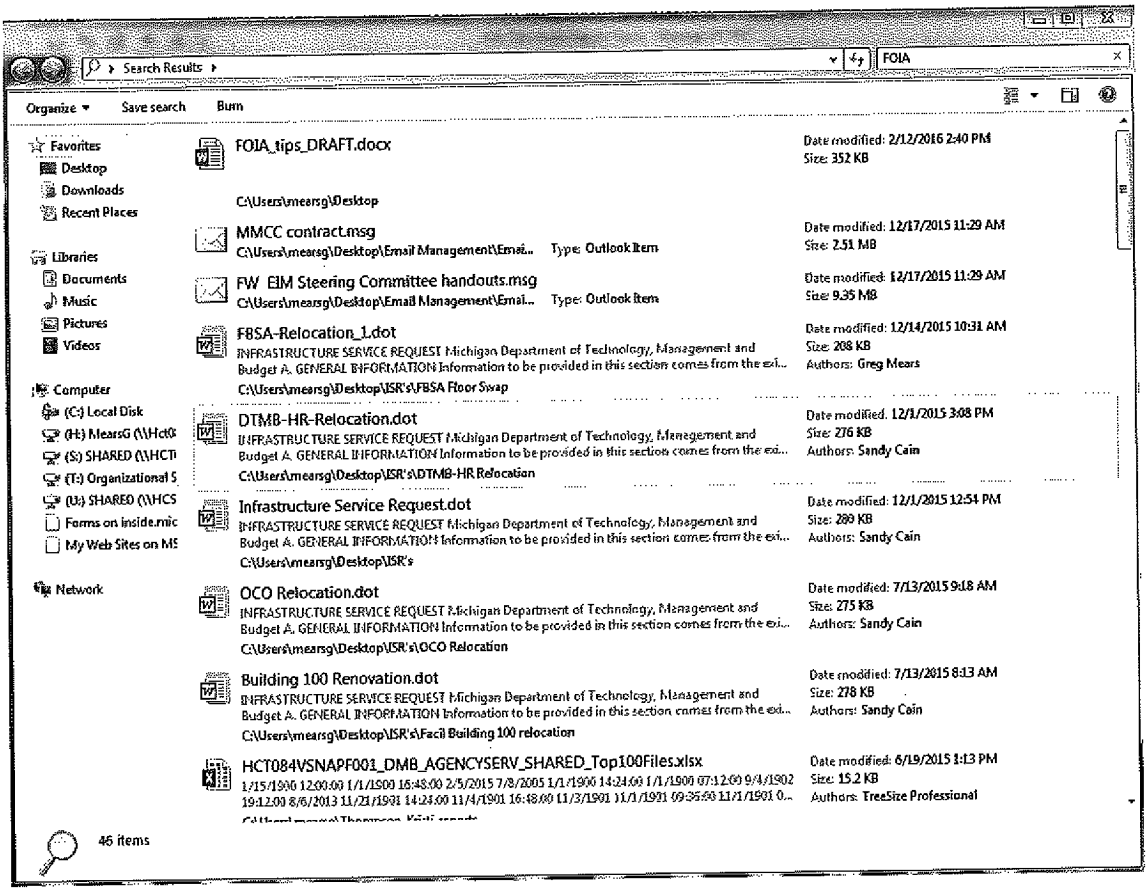
APPENDIX 1 – Search Guidance



Regardless of what version of Windows you're using, each of them has a search feature built in called "Windows Explorer," you see it every time you open up a folder on a network drive, or on your own computer.

Using the search function in windows 7

Since the majority of DTMB is on Windows 7, the examples below are on that operating system. If you click on windows Start button, you'll see the search box right next to it



This example searches for the word FOIA. As you can see, the search yielded numerous documents including emails. Since DTMB is centrally collecting relevant emails and other Microsoft 365 items, we'll focus on just the documents.

You need to open each document to make sure that it's relevant. In this instance, the search brought up a DTMB Move form, but only because it has the word FOIA in the form.
You'll notice that the words "See more results" appears at the bottom of the list. This means that the search turned up a lot more documents than what can easily be displayed. You must

click on the link to open Windows Explorer and reveal a comprehensive list, along with their locations.

As you can see from this example the search found 46 items. We can now select them all using the "Ctrl-A method", and copy them to a network drive.

To: Zinn, Brent (Brent.Zinn@grainger.com)
Subject: water filters

Brent,

I'm now just reading emails regarding the need for water filters for faucets in the Flint area. Rebecca said she contacted our Grainger rep, but didn't actually identify who she talked to. Checking to see if you are aware of the filters that are needed in the Flint area. Give me a call. Thanks.

DHHS might go with a voucher option which would allow residents to go to the store and pick up these filters. Could these filters be delivered to all Flint stores and made available through a voucher type option? Let me know. Thanks.

Good afternoon Steve,

The Brita faucet mounted filter would be $17.47 each. We have 35,000 available immediately. Our delivery time would be 1-2 days, but depending on when we process, may be able to get next day for you.

We also offer replacement filters, which are sold in a 2 pack and those would be $24.87.

Please let me know how we can help!

Good morning Steve,

I have attached an option for the Faucet mounted filtration system. This unit will meet the NSF/ANSI 53 standard. As noted we have 10,000 available and currently working on pricing and shipping times now. Please review this option as we feel this units would best fit the need.

Thank you,

Yes, they are looking for faucet mounted filters. How quickly could the 10,000 be shipped and how long to get the other 15,000? Can you send me the specs/item code so that I know what you are talking about? Also, what would be the quoted price on the quantity of these filters? Thanks.

Steve-

We currently have 10k (Brita) available now that meet those specs./standards. Getting the remainder would not be a problem, lets us know who we need to contact to move forward.

Hi Steve,

Are we looking for faucet mounted filters meeting that standard?

Thank you,

Subject: water filters

Hello Steve
Thanks for your time this morning. we are looking forward to the meeting next week. I called a few folks from the team to see if they heard about the water filter request. Tom spoke with Rebecca last night and she was going to send him an email of the specs needed for the filters. He didn't receive the email yet. Can you send us the information so we can work on this for you? Let me know if you need anything else. Thanks!

Subject: RE: URGENT water pitchers

Farah,

The Zero Water pitcher is the only water pitcher on the market that meets the NSF standard for lead removal and Home Depot has verified that. Zero Water's website is even advertising this claim and that they "Stand With Flint" on their water filter needs. https://www.zerowater.com/

Attachments: Brita FF-100 and SAFF-100 NSF-ANSI 53 Certification 2015-09-30.pdf

Confirmation from Home Depot is Brita Model #SAFF-100 for the faucet filter and the pitcher they are supplying is the ZeroWater ZD-013D (8-cup). Both units are certified for lead reduction.

The filter capacity of the Brita is 100 gallons and the filter capacity of the ZeroWater water pitcher is only 15 gallons before needing replacement.

Attached are the specs for the Brita filter and the link below shows the claim for lead reduction for the ZeroWater pitcher.

Brita Faucet Filtration System SAFF-100	FR-200	100(1)	.58	2,4-D Reduction Asbestos Reduction Alachlor Reduction Atrazine Reduction Benzene Reduction Carbofuran Reduction Carbon Tetrachloride Reduction Chlordane Reduction Chlorobenzene Reduction

				Endrin Reduction Ethylbenzene Reduction Lead Reduction Lindane Reduction Methoxychlor Reduction O-Dichlorobenzene Reduction Simazine Reduction Styrene Reduction Tetrachloroethylene Reduction Toluene Reduction Toxaphene Reduction Trichloroethylene Reduction Trihalomethanes (TTHM) Reduction Turbidity Reduction VOC Reduction
Brita® Faucet Filtration System FF-100[2] [3] [Pb]	FR-200	100(1)	.58	2,4-D Reduction Asbestos Reduction Alachlor Reduction Atrazine Reduction Carbofuran Reduction Chlordane Reduction Cyst Reduction O-Dichlorobenzene Reduction Lead Reduction Lindane Reduction Methoxychlor Reduction Monochlorobenzene Reduction Styrene Reduction Trichloroethylene Reduction Toxaphene Reduction Turbidity Reduction Benzene Reduction Carbon Tetrachloride Reduction Endrin Reduction Ethylbenzene Reduction Simazine Reduction Tetrachloroethylene Reduction Toluene Reduction VOC Reduction Trihalomethanes (TTHM) Reduction

(1) Claims of capacity or rated service cycle are not applicable for mechanical filtration.
[2] Model available in white, chrome, and black.
[3] As of production code beginning P52120.
[Pb] Product also evaluated and determined to possess weighted average lead content of <=0.25% and complies with lead content requirements for "lead free" plumbing as defined by California, Vermont, Maryland, and Louisiana state laws and the U.S. Safe Drinking Water Act.

NOTE: All replacement elements are components.

The category of VOC (Volatile Organic Chemical) includes a number of chemicals that are both man-made and naturally occurring. Water from wells and utilities may contain some of these contaminants. Some VOCs are pesticides, herbicides, or insecticides that seep into the ground water after application. Other VOCs enter the water supply through industrial or other waste disposal. This category also includes total trihalomethanes, which are a by-product of chlorination.

A VOC reduction claim by the manufacturer means the system reduces the concentration of all of the following contaminants:

alachlor
atrazine
benzene
carbofuran
carbon tetrachloride
chlorobenzene
chloropicrin
2,4-D
dibromochloropropane (DBCP)
o-dichlorobenzene
p-dichlorobenzene
1,2-dichloroethane
1,1-dichloroethylene
cis-1,2-dichloroethylene
trans-1,2-dichloroethylene
1,2-dichloropropane
cis-1,3-dichloropropylene
dinoseb
endrin
ethylbenzene
ethylene dibromide (EDB)
haloacetonitriles
  bromochloroacetonitrile
  dibromoacetonitrile
  dichloroacetonitrile
  trichloroacetonitrile
haloketones
  1,1-dichloro-2-propanone
  1,1,1-trichloro-2-propanone
heptachlor
heptachlor epoxide
hexachlorobutadiene
hexachlorocyclopentadiene
lindane
methoxychlor
pentachlorophenol
simazine
styrene
1,1,2,2-tetrachloroethane
tetrachloroethylene
toluene
2,4,5-TP(silvex)
tribromoacetic acid
1,2,4-trichlorobenzene
1,1,1-trichloroethane
1,1,2-trichloroethane
trichloroethylene
trihalomethanes (TTHM)
  bromodichloromethane
  bromoform
  chlorodibromomethane
  chloroform
xylenes

Facility : Shenzhen, China

	Replacement	Service Cycle	Flow Rate

Chris,

The replacement filters for the ZeroWater pitcher come in a pack of two and will be $29.97. No model number yet. Dave is still waiting to hear back on quantity available from manufacturer.

Dave is telling me that he has not heard back from DHHS about ordering the 9,000 replacement filters for the Brita faucet filter.

Chris,

ZeroWater has 1000 2-packs of sku 488-733 available right now for the water pitcher. These were priced at $29.97 for each 2-pack.

By next Wednesday they can have another 2,000 ready to ship.

They also have some larger multipacks that are used for internet fulfillment (they come in brown boxes and no retail packaging). No skus are set up for any of these yet and Dave is working on getting me pricing.

They have:

1500: 4 packs
1800: 8 packs
800: 12 packs

Additionally they have 1000 4 packs in Retail Packaging.

Confirmation from Home Depot is Brita Model #SAFF-100 for the faucet filter and the pitcher they are supplying is the ZeroWater ZD-013D (8-cup). Both units are certified for lead reduction.

The filter capacity of the Brita is 100 gallons and the filter capacity of the ZeroWater water pitcher is only 15 gallons before needing replacement.

Attached are the specs for the Brita filter and the link below shows the claim for lead reduction for the ZeroWater pitcher.

I talked to him a little over a week ago and they said that a case of water would cost $4. This contract is currently set up for DEQ only, but maybe you could work out a fund transfer with them. However, if you are collecting money you could probably just write them a check and reference the contract number. Hope this helps.

David,

After talking to someone who was in the meeting this morning, it doesn't sound like they are going to flood the market. Sounds like they are going to continue to go with the two distribution points. That is all I have at this time, so until I hear anything further we'll just stand by. It sounds like the Mayor of Flint is coming to Lansing tomorrow, so they need to have a plan of action by tomorrow.

Thanks Steve. I shared the information and should know if additional filters/cartridges are needed as the day progresses. I've requested they notify me ASAP. With the door-to-door visits we may see the current quantities dwindle quickly. DEQ is currently conducting the water testing at their laboratory (just over 600 of 45,000 facilities in the area), so we have a lot more to go!

Genesee County and the SEOC are working on plans now. Sorry for the late response – I kept getting interrupted and just realized the message hadn't been sent!

Jeanette,

Just an FYI. Dan Montag from EcoSmart reached out to me yesterday about how they could help the city of Flint with their water filtration systems. Below is his message to me.

After reading the quote from Chris Kelenske in Gongwer about one of the goals is to ensure that every source of drinking water in Flint has a filter, I thought that this might be a good company to think about because of what they can provide as far as filtration systems for homes, schools, hospitals, etc.

Let me know if you need me to follow up with this company for you.

Subject: EcoSmarte Scalable water filtration supply via Home Depot vendor contract

Good afternoon Steve,

Per our conversation, I have reached out to Kelly Mayhall the Midwest Regional Vice President of Home Depot (734-855-1300 X429) re: the supply of a scalable filtration system: she was out of the office this afternoon and is going to get back me via phone later today or tomorrow morning.

EcoSmarte has the necessary infrastructure Michigan to support the supply chain per the following:
-Ecosmarte Michigan, West Olive, MI (www.ecosmartemichigan.com) - local distributor
-Meg Service, West Bloomfield, MI (www.megservice.com) - installation subcontractor
-National Testing Laboratories, Ypsilanti, MI (www.ntllabs.com) - EPA rated water testing laboratory

EcoSmarte's filtration systems are scalable from single family homes to apartment buildings to schools to restaurants to hospitals, etc. We're in the process of putting some materials which will provide an overview of the filtration method and scalability, which we are overnighting to you.

FYI - EcoSmarte will also provide an EcoSmarte filtration system and complete water analysis (before/after) at no charge via the National Testing Laboratory in Ypsilanti, MI; the testing turn-around is ~24 hrs. post filter installation.

I'll get back to you as soon as I speak to Ms. Mayhall.

Best Rgds.

Daniel Montag

Jeanette,

According to David from Home Depot, they can get water by the truckload and on an ongoing basis. 1,596 cases (38,304 bottles) per truck at $3.47 per case ($5,538.12 per truck).

We'll just need to let him know when and where to deliver. Let me know. Thanks.

Ok buddy,

There are 1,596 cases of water per truckload. Each case has a cost of $3.47. We can set up ongoing deliveries at your requested intervals. If you would like per day or per week or twice a week. This would be your choice. Please let me know what you require.

Subject: Home Depot contract updated

Hello,

This morning we are adding $30,000,000 to the Home Depot contract under an Emergency change notice so there won't be any delays in the cutting of PO's in the future.

I had Home Depot increase our credit limit to $10,000,000. However, I'm suggesting that we process payments on receipts as soon as they come in so that we can keep this credit line open. By the end of today we will have approximately $6,000,000 worth of receipts unless some have been paid off already. I just don't want anything to hold up purchases.

As you get receipts for anything purchased under the Home Depot contract related to City of Flint, please send me a copy so I can keep track of actual purchases. I'm going to need this later. Thank you.

Rochelle,

Although we still have a long way to go with the emergency situation in Flint, I just want to thank Home Depot, and especially David Khanuja, for helping me and the State of Michigan support the ongoing efforts in the City of Flint. Supplying every resident with a faucet filter, replacement cartridge, and bottled water was a top priority this week, and David and his support staff have played a crucial role in helping procure the supplies necessary to support this effort. I can't thank David and the Home Depot team enough. Thank you.

Thanks Kim. I completely understand being busy with the Flint emergency. I manage the Home Depot contract and every filter, replacement cartridge, and bottled water has been going through this contract and it is all I have been working on since last Tuesday.

Hi Steve:

The DMVA is working on the Flint Emergency Water Crisis and I have almost 300 soldiers deployed. I will try very hard to get the plan reviewed before Friday, but I cannot promise. I will be out of the office all next week on vacation returning on February 2nd. I will be able to address this that week upon return :o)

Thank You,

Subject: Food Category Team Plan

Hello,

Back on December 30th I had sent out the updated category plan. I had requested that all of you take a look at the plan and either give me feedback on recommended changes or if you were fine with the plan, I was looking for you to print, sign and date next to your name on the signature page and send that to me. I wanted your feedback by Friday January 15th. So far I have received only two responses with signatures.

If you could please take a look at this and get back with me it would be greatly appreciated as I would like to get this phase of the project closed out and move on to the ongoing phase of this project which is to continue working through the recommendations. Thanks.

You are welcome!

I've attached the receipts for all purchases made last week on the DHHS account [redacted].

The actual invoices show more detail but unfortunately we are note able to email those. If you have a fax I can send them to you that way.

Thanks!

Good Afternoon Cari-

I just got off the phone with the Regional Pro Manager (LB Willis).

He is trying to assist the state with expediting their pay on the $10mm in outstanding invoices.

Is it possible to get a copy of the invoices from last week emailed to me?

From: Whitten, Mark [GCB-RS]

To: Leavitt, Cari [GCB-OT]
Cc: Turner, Charles C [GCB-OT]; Russell, Christopher B [GCB-RS]
Subject: FW: increase of dynamic credit line

Cari-

Hope all is well.

The State of Michigan has been making some significant purchases over the past week.

Is it possible to expedite the invoicing?

Do you have a point of contact?

As you can see from below, the request is being made from the PAR to generate the invoices so the State can start the pay process.

It appears the state has been notified of the quick invoicing.

Cc: Whitten, Mark [GCB-RS]; Russell, Christopher B [GCB-RS]
Subject: Re: increase of dynamic credit line

So in the pipeline right now, I have another 2,000,000, this number consistently increases as demand increases. We have asked the State to quick pay invoices. Unfortunately, in the world of the State, quick pay can mean 2 weeks or so. That being said, we need Citi's help for not only credit line, but to generate invoices immediately for the State to pay.

Thanks,

To: 'Highline'
Subject: FW: increase of dynamic credit line

Good Afternoon,
I am attaching a request for a significant increase for the State of Michigan. [redacted] Tech and Budgeting has an emergency situation with the city of Flint, MI.
The water system is contaminated with lead. The City has an immediate need for screw on filters and replacement filters.
The order they want to place on Monday (tomorrow)will be close to $1 million dollars.

I believe the current credit line is approximately $900m. They are looking to double their line.

Requesting the increase is Steve Rigg - buyer for commodities (see email string)

From: Rigg, Steve (DTMB)
Sent: Friday, January 22, 2016 1:20 PM
To: Warren, Linda (DNR)
Subject: RE: propane contracts

Thank you. Sorry for delayed response. Most of my time for the past two weeks has been working through with the Home Depot contract and getting filters and water for Flint.

I know it will be difficult if we have to switch vendors at some locations, but I have to get this bid out this year (at least propane). I am going to request that propane be extended through September 30 so we can have an Oct 1 start date. My other thought is to extend propane to 9/30/2017 and exercise the option year end extend the fuel contracts to 9/30/2017. This will give us all time to do a true assessment of everything fuel. This is also going to be a category team that you can be on with me ☺

Subject: RE: propane contracts

Hi Steve,

Sorry for the late response; these three jobs are overwhelming me! LOL

I believe a lot of the tanks are *not* owned by PRD, but set free as part of the propane contracts. I know the Rifle River supervisor told me that he hates changing companies due to the swap out of the tanks and losing propane in the tank that gets hauled away. Up at PJ Hoeft SP this summer, they had to have a tank set on a new cabin for rental and it was a tank dropped by our vendor.

I would guess there might be a few parks or field offices under PRD that might own them, but I would have to take a survey to see for sure. The other divisions would be involved, too, i.e., Fisheries has hatcheries, Wildlife Div has some field office locations along with OLF that hosts the big district offices & field office locations.

Good luck young man and let me know if you need further info from our division. Smiles...Linda

Subject: RE: propane contracts

I have a request into all vendors, and I am currently working on putting together total usage of every location throughout the State for both propane and other fuels for FY15. I would like to rebid everything at once and then have a start date of October 1st 2016. There aren't any options years left on the propane contracts, so I would have to extend those. I would then exercise a partial option year for all the fuel contracts as they expire in mid August.

Do you recall any issues with propane tanks being swapped out when the current contracts were put in place? I think most diesel and gas tanks are owned by the state (correct me if I'm wrong), but propane is mostly vendor owned. I would really like to get this done this year as fuel costs are low and it has been a mild winter so far, so I think this makes for a perfect storm to get better pricing. The current fuel contracts are so confusing that I think it would be best to do this the same time as the propane and then be done with it.

I don't know how tank swaps would work and maybe the outgoing company refunds the current cost of propane in the outgoing tank.

Thanks for the info.

Subject: RE: propane contracts

Good Morning Steve,

Happy 2016! Well I heard from some supervisors & accounting staff and ALL were positive which is a good thing! They all are in love with the low prices right now and some were torn between just extending and some

said go for a rebid. The only negative thing they could think of is rebidding and possibly going through the hassle of switching companies, tanks, and losing some propane in a tank that might go back to the previous contractor. I don't consider that a negative comment, but just what change can possibly bring.

One comment that I wanted to cut & paste for you was from our Baraga Field Office/State Park as they are involved with getting their propane now from Wisconsin. Here is what Kelly reported:

Linda – The current AmeriGas (propane) contract has actually been working very well for us here in Baraga. We were a little concerned when the local offices closed and the servicing office moved to Eagle River, Wisconsin, but it has surprisingly not been an issue. In fact, to give a compliment, they actually called us last week to check our propane level before the holiday and came delivered to us and a few other state offices locally. It was a nice change, usually our vendors don't call us or plan our deliveries. The invoices have been prompt and correct. Their drivers are friendly and deliveries are timely. But, if we can get a better price, that is always good too! Happy Holidays!

I'm guessing whatever is easiest for you Steve on whether you decide to extend them or rebid. We are good with whatever.

One thing that does keep coming on these contracts is the fact that they always expire in the middle of a fiscal year causing everyone a lot of work. Folks have to put in a new field requisition for the new fiscal year commencing 10/1 and they might only be able to issue it for 3-5 months because of the contract expiring. They get a purchase order for that short period of time then if the contract gets an extension, they have to do an Advice of Change in MAIN to request the PO be updated to take them to 09/30. So lots of double work for the field staff, our buyers amending PO's plus our vendors receiving a second PO in the same fiscal year. Just saying…..Thanks Steve, Linda

Even though the gasoline and diesel fuel contracts don't expire until August, and they still have 1 option year left, I don't think anyone would be upset if we rebid these out as well. With that said, when you send out the request for information to your staff, could you please have them give us feedback on all the gas and diesel contracts as well? Thanks.

Morning Steve,

I can answer number one, but I would like to solicit the field statewide on 2-4 as I know in the past Steve I've had complaints on delivery with Gary Oil, etc. Since I've personally never used them (lucky with natural gas at Clare & Wilson), I would like to also seek their input on what I might be missing.

Let me do some surveying and get this back to you by January 1st if that works? A lot of accounting staff are on reduced hours plus most folks (supervisors, etc) are taking annual leave with

all the holidays. Does the 1st of the year work for you with responses or should I red flag it and get what I can get from those available?

Thanks Steve! Linda

Linda,

I need to bid out propane here in the very near future and I would like your input as you will know way better than I what works for the DNR. Here are my questions. Chime in on anything else you would like to see different in the new contracts.

1. Would it be better to bid this out and have it in place before the park season or extend the contracts 6 months and do it in the fall?
2. What issues do the parks have now with the current contracts?
3. Any current vendor issues that need to be addressed?
4. Anything missed in the last bid that should be in this one?

Thanks for any input.

Cc: Burger, Penelope (MSP) <BurgerP@michigan.gov>
Subject: RE: Flint Issue Questions from DTMB Procurement

I will do what I can to address some of these questions.

1) Since FEMA arrived on-site in the SEOC, they have been procuring the water resources made available through the federal emergency declaration; water, faucet filters, replacement cartridges, filtered pitchers and water testing kits. If going through an established state contract gets a better price, that is how they are ordering items. If they have a better deal or resource, that is what they do.
2) All resources are being delivered to the warehouse located at 4315 N. Clio Road in Flint. Michigan Department of Corrections has warehouse management staff in place to manage the warehouse operations. Receipt of all resources, regardless of who ordered them, is being checked in to the warehouse with packaging slips and I have copies of the FEMA order form as well. We don't do anything special with FEMA purchased resources.
3) The State of Michigan has a 25% match requirement for the FEMA dollars spent. DHHS will not get a bill for 25% of anything from FEMA. I work directly with FEMA on the finances through EMHSD as the State Financial Officer, and at this point we have FEMA assistance for 90 days. We are nowhere close to getting a bill from FEMA yet and that is something that I will take care of working with the State Budget Office as needed. I have never sent a bill for match to another state agency.
4) At this point in time, we only have a federal declaration of emergency that brings FEMA procured resources for 90 days beginning on the date of declaration, which was January 16, 2016. We don't have any other federal awards that would allow for reimbursement of items purchased before the federal declaration. We have a few requests out at the federal level, but it is a long process and there are no guarantees. Our guarantee is that FEMA will buy water and filters for 90 days.

What I need from state agency financial staff are current expenditures for costs for their own agency on a weekly basis so I can update the State Director here in the SEOC. Costs need to be directly related to the emergency, such as staff overtime in the SEOC or in the field responding to the event, contracts required for response, purchases for items necessary for use in the emergency response – water, filters, computers for field teams, etc, and fuel for vehicles. This is not an exhaustive list, but gives you the main items. And we have processes in place here in the SEOC for requesting resources to ensure that all items purchased are approved by SEOC command.

I hope this has answered some questions. The biggest assistance a state agency can provide from a financial aspect is weekly updated reports. If you still have questions, please let me know.

Awesome! Jeff Sanford is the right person to be working on the invoices. He and I had several conversations on Friday and will continue to work together on the reconciliation.

Appreciate the FEMA the update. It it so very helpful. Do we know where the FEMA filters are being delivered and if/how the receipt of the filters is being tracked? I assume that DHHS will at some point will receive a billing for 25% of the FEMA filter bill so I want to ensure we are tracking receipt of the product. Do we have any confirmation on how the financial reimbursement to FEMA will work? If you are are not the correct person to answer these questions, please point me in the right direction.

MSP. Please work with Jeanette and Chris. The SEOC has asked everyone to track receipts and enter them into MySims software.

Buyer Steve Rigg is involved to the extent that Home Depot is asking questions about unpaid invoices, and Steve facilitated getting invoice copies and a meeting set up. The State is running close to its account credit limit with Home Depot and needs invoices cleared for payment.

We are still seeking clarification on the new FEMA process, and anticipate more information next week.

I'm happy to talk more on Monday, but thought you may also need an immediate response.

Please call my cell for any emergency requests, instead of or in addition to email.

Hi Steve, in the very beginning October I would send 319 to budget to process and order products from Home Depot.

As product begin getting scarce I began working directly with David as to what we needed vs what was available etc. then I would complete the PO but budget always knew what was coming.

When SEOC and got involved Richard or Brian would ask me to order products to maintain consistency and to continue working with David.

I also have a financial specialist Jeff Sanford who works with me and prepares the 319 for processing for all the filter orders.

He received all of the invoices from Home Depot for the product that we received under our existing POs. He will go through and consolidate the product received with our tracking spreadsheet and signed 319s. Once That is completed he can create a payment voucher for Home Depot to get paid.

I also just got a message from David that he has 12,000 Brita filters available. He needs direction as to what we want.

I am not approving any orders at this time per directions that FEMA is now ordering.

I'm am available to do whatever is needed.

On Jan 21, 2016, at 11:36 AM, Rigg, Steve (DTMB) <RiggS@michigan.gov> wrote:

Chris/Jeanette,

My questions only pertain to Home Depot and the procurement of water filters, bottled water, and supplies needed for repairs. I'm trying to sort out the confusion that David from Home Depot and I have regarding the procurement of these items and the processing of payments. We need to finalize a fluid process for this so that we can avoid further confusion. I want to do everything I can to help, but I first need to understand the current process so I can direct what I have control over to the right people. I don't want there to be a disruption in the incoming flow of these items.

1. What is the current process for ordering these items? David from Home Depot is currently getting calls from a minimum of 4 different people.

2. Response: Sheryl had been the lead until EOC came on board.

3. What is FEMA's role in procuring these items? Apparently a FEMA rep called Brita directly to order filters. Home Depot has

cornered the market on all filters from Brita and PUR, so it is suggested that we continue to work directly with David from Home Depot.

4. Response: I agree

5. If FEMA does take over the ordering of filters, water, and supplies, will they agree to work with Home Depot and who is the contact person that could work directly with David from Home Depot?

6. Will FEMA be creating contracts directly with manufacturers or will they utilize current contracted vendors?
7. If FEMA takes over, will they be paying invoices directly or will that continue to be done by the State?
8. What happens when FEMA leaves in 3 months? Good question

9. Who is responsible for entering Home Depot receipts into the MySimms tracking system so that David from Home Depot can send these receipts to that person directly? I have attached the receipts that I have received from Home Depot.
10. Right now Home Depot invoices are sent out monthly because of the 60 day terms in the contract. However, we

currently have over $10,000,000 in outstanding invoices. We had gotten CitiBank to increase our credit limit to $10,000,000 last week. We requested CitiBank to increase the credit line to $20,000,000, but that has not yet been approved by CitiBank. To keep the credit line open we need to turn around these invoices much quicker. Citi has an EFT program that a State designee could log into and pull invoices from immediately to get them paid. Who would be the person that Citi could set up an account with so that they could log in and download invoices for quicker processing?

11. LARA recently purchased items from Home Depot for plumbing supplies. Moving forward, if LARA is to procure any more items through Home Depot can they work directly with David from Home Depot so as to not cause any more delays?

That is all I have at this point. Thanks for any feedback.

Awesome! Jeff Sanford is the right person to be working on the invoices. He and I had several conversations on Friday and will continue to work together on the reconciliation.

Appreciate the FEMA the update. It it so very helpful. Do we know where the FEMA filters are being delivered and if/how the receipt of the filters is being tracked? I assume that DHHS will at some point will receive a billing for 25% of the FEMA filter bill so I want to ensure we are tracking receipt of the product. Do we have any confirmation on how the financial reimbursement to FEMA will work? If you are are not the correct person to answer these questions, please point me in the right direction.

Kim,

There wasn't an actual meeting with Home Depot and DHHS. Last week on Thursday I sent all the receipts and invoices from Home Depot to Jeff Sanford at DHHS. I got Jeff connected with David Khanuja from Home Depot and they have been working through those invoices and Jeff is consolidating that information.

FEMA – FYI. I have been informed from Home Depot that someone from FEMA ordered approximately $330,000 worth of filters last week and approximately another $1,000,000 worth of filters on Saturday night.

To clarify, DTMB Procurement is not in a position to track usage and spend, so we are unable to assist in your response to MSP. Please work with Jeanette and Chris. The SEOC has asked everyone to track receipts and enter them into MySims software.

Buyer Steve Rigg is involved to the extent that Home Depot is asking questions about unpaid invoices, and Steve facilitated getting invoice copies and a meeting set up. The State is running close to its account credit limit with Home Depot and needs invoices cleared for payment.

We are still seeking clarification on the new FEMA process, and anticipate more information next week.

I'm happy to talk more on Monday, but thought you may also need an immediate response.

Please call my cell for any emergency requests, instead of or in addition to email.

We have received the following request from State Police for information:

From: MSP-seocfgc
Sent: Wednesday, January 20, 2016 4:23 PM
To: Kangas, Susan (DHHS) <KangasS1@michigan.gov>
Subject: Costs for City of Flint

Hi Susan:

Richard Thelen gave me your name as his financial point of contact at DHHS. The immediate need is information on the costs incurred by DHHS for water, water filters, and replacement cartridges. FEMA has asked for this information – even if some of the figures are an estimate – so they have a ballpark idea.

If you could get some numbers to me tomorrow, I'd appreciate it. Please include all of your costs related to Flint, including those that were paid for with the special appropriation that you received in October. I will be providing some guidance on how costs should be tracked for state disaster assistance and possible federal assistance.

If you have any questions, please let me know.

Thanks,

Hi Steve, in the very beginning October I would send 319 to budget to process and order products from Home Depot.

As product begin getting scarce I began working directly with David as to what we needed vs what was available etc. then I would complete the PO but budget always knew what was coming.

When SEOC and got involved Richard or Brian would ask me to order products to maintain consistency and to continue working with David.

I also have a financial specialist Jeff Sanford who works with me and prepares the 319 for processing for all the filter orders.

He received all of the invoices from Home Depot for the product that we received under our existing POs. He will go through and consolidate the product received with our tracking spreadsheet and signed 319s. Once That is completed he can create a payment voucher for Home Depot to get paid.

I also just got a message from David that he has 12,000 Brita filters available. He needs direction as to what we want.

I am not approving any orders at this time per directions that FEMA is now ordering.

I'm am available to do whatever is needed.

Chris/Jeanette,

My questions only pertain to Home Depot and the procurement of water filters, bottled water, and supplies needed for repairs. I'm trying to sort out the confusion that David from Home Depot and I have regarding the procurement of these items and the processing of payments. We need to finalize a fluid process for this so that we can avoid further confusion. I want to do everything I can to help, but I first need to understand the current process so I can direct what I have control over to the right people. I don't want there to be a disruption in the incoming flow of these items.

1. What is the current process for ordering these items? David from Home Depot is currently getting calls from a minimum of 4 different people.

2. Response: Sheryl had been the lead until EOC came on board.

3. What is FEMA's role in procuring these items? Apparently a FEMA rep called Brita directly to order

filters. Home Depot has cornered the market on all filters from Brita and PUR, so it is suggested that we continue to work directly with David from Home Depot.

4. Response: I agree

5. If FEMA does take over the ordering of filters, water, and supplies, will they agree to work with Home Depot and who is the contact person that could work directly with David from Home Depot?

6. Will FEMA be creating contracts directly with manufacturers or will they utilize current contracted vendors?
7. If FEMA takes over, will they be paying invoices directly or will that continue to be done by the State?
8. What happens when FEMA leaves in 3 months? Good question

9. Who is responsible for entering Home Depot receipts into the MySimms tracking system so that David from Home Depot can send these receipts to that person directly? I have attached the receipts that I have received from Home Depot.
10. Right now Home Depot invoices are sent out monthly because of the 60 day terms in the

contract. However, we currently have over $10,000,000 in outstanding invoices. We had gotten CitiBank to increase our credit limit to $10,000,000 last week. We requested CitiBank to increase the credit line to $20,000,000, but that has not yet been approved by CitiBank. To keep the credit line open we need to turn around these invoices much quicker. Citi has an EFT program that a State designee could log into and pull invoices from immediately to get them paid. Who would be the person that Citi could set up an account with so that they could log in and download invoices for quicker processing?

11. LARA recently purchased items from Home Depot for plumbing supplies. Moving forward, if LARA is to procure any more items through Home Depot can they work directly with David from Home Depot so as to not cause any more delays?

That is all I have at this point. Thanks for any feedback.

Cc: Burger, Penelope (MSP) <BurgerP@michigan.gov>
Subject: RE: Flint Issue Questions from DTMB Procurement

I will do what I can to address some of these questions.

1) Since FEMA arrived on-site in the SEOC, they have been procuring the water resources made available through the federal emergency declaration; water, faucet filters, replacement cartridges, filtered pitchers and water testing kits. If going through an established state contract gets a better price, that is how they are ordering items. If they have a better deal or resource, that is what they do.
2) All resources are being delivered to the warehouse located at 4315 N. Clio Road in Flint. Michigan Department of Corrections has warehouse management staff in place to manage the warehouse operations. Receipt of all resources, regardless of who ordered them, is being checked in to the warehouse with packaging slips and I have copies of the FEMA order form as well. We don't do anything special with FEMA purchased resources.
3) The State of Michigan has a 25% match requirement for the FEMA dollars spent. DHHS will not get a bill for 25% of anything from FEMA. I work directly with FEMA on the finances through EMHSD as the State Financial Officer, and at this point we have FEMA assistance for 90 days. We are nowhere close to getting a bill from FEMA yet and that is something that I will take care of working with the State Budget Office as needed. I have never sent a bill for match to another state agency.
4) At this point in time, we only have a federal declaration of emergency that brings FEMA procured resources for 90 days beginning on the date of declaration, which was January 16, 2016. We don't have any other federal awards that would allow for reimbursement of items purchased before the federal declaration. We have a few requests out at the federal level, but it is a long process and there are no guarantees. Our guarantee is that FEMA will buy water and filters for 90 days.

What I need from state agency financial staff are current expenditures for costs for their own agency on a weekly basis so I can update the State Director here in the SEOC. Costs need to be directly related to the emergency, such as staff overtime in the SEOC or in the field responding to the event, contracts required for response, purchases for items necessary for use in the emergency response – water, filters, computers for field teams, etc, and fuel for vehicles. This is not an exhaustive list, but gives you the main items. And we have processes in place here in the SEOC for requesting resources to ensure that all items purchased are approved by SEOC command.

I hope this has answered some questions. The biggest assistance a state agency can provide from a financial aspect is weekly updated reports. If you still have questions, please let me know.

Subject: Flint water pipe question.

Hi Steve,

We work with a recycling company called Violia that can serve as the recycling company. For the lead issues in flint. I was wondering if you knew who I should speak with in Flint. If you had any contact for the people that might be working on this. Is this more of a federal contract or local?

Any help would be great.

James,

If you are able, can you provide the days and the hours over the next few days which you would need coverage? We have the ball rolling, and Joel plans on being there tomorrow where we can recap. I realize that things are pretty chaotic right now for you.

James,

I am working on jumping through the hoops for this, but it would be wise to plan on other staff at this point. Long term we will make sure that Steven Cross and Joel Lock are not exempt from overtime so that as emergency staffing needs arise it won't be a problem for the future.

Subject: FW: Joel Locke - Overtime

Hi James,
I just found out that my overtime eligibility classification code is "y" (Exempt), and will need approval. I wanted to let you know I am willing to work the hours that you requested if I can get OT pay. As you will see from the policy rules in the pdf, I have my doubt the steps that need to take place for me to receive overtime would be in place that quickly. Josh wanted me to let you know about this and find out how you want to proceed?

Please let me know ASAP.
Thanks,
Joel

Subject: Joel Locke - Overtime

Hi Josh –

I recently spoke with Joel about the need for OT due to the Flint Water Crisis. Please see DTMB Policy 200.12 that discusses Overtime and Compensatory Time. Since Joel is not eligible for OT, an exception will have to be made in order for him to enter his time into DCDS. Please see the bottom of page 2 of the policy that outlines the steps that need to be taken. The memo needs to be sent to Amy Miller (MCSC) and she will forward it to Civil Service for authorization.

Here is the policy:
http://inside.michigan.gov/dtmb/wr/psp/Documents/200.12%20Overtime%20and%20Compensatory%20Time.pdf

STATE OF MICHIGAN

RICK SNYDER
GOVERNOR

DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET
LANSING

DAVID B. BEHEN
DIRECTOR

February 2, 2016

TO: State of Michigan Procurement Leadership

FROM: DTMB Procurement

SUBJECT: Genesee County Water Emergency Response - Purchasing Guidance

Thank you to all who are working to support the State of Michigan's Genesee County, City of Flint water emergency response.

Given the complexity and variety of the needs of this emergency effort, the purchasing support required is complex as well. Purchasing protocols have some differences under this declared state of emergency, and meticulous tracking of expenditures is imperative.

The Michigan State Police (MSP) is the lead agency overseeing the situation and managing the State Emergency Operations Center (SEOC). Flint related purchases must first be routed through the appropriate SEOC contact (see attached for an agency roster) to include the SEOC State Director. This is required for all Flint- related purchases without exception. The SEOC financial team is responsible for tracking all expenditures in connection with the emergency efforts.

Each agency is responsible for its own purchasing transactions. This includes p-card transactions and purchase orders, the tracking of all such transactions, and reporting of those transactions to the appropriate SEOC representative. Failure to properly inform the SEOC financial team of any transaction may result in a forfeiture of any potential reimbursement anticipated by the agency.

Agency purchasing managers are responsible to supply their agency's SEOC representative with a 24/7 phone number for agency purchasing staff support and request that the SEOC representative involves them in every purchase. (Note: SEOC hours are 8 am to 8 pm, seven days a week at this time.)

Emergency Purchasing Procedure:
Public Act 431 of 1984 provides an exception to competitive bidding during a state of emergency. However, responsible purchasing procedures are still the expectation for all procurement professionals (agency purchasing staff).

In addition to the notification and reporting expectations set forth above, transactions should be conducted and/or overseen by procurement professionals, with rare exception, in accordance with the following:

- Each agency makes their own determination when an emergency purchase order is required, and is then responsible for the supporting documentation
- Utilize existing State contracts where possible. Contact DTMB Procurement for help negotiating bulk rates or expedited shipments if needed, and for any concerns related to availability of funds on a contract

- Obtain three quotes whenever reasonably practicable
- Post bids online to the extent practicable
- Please escalate any questions to DTMB Procurement before executing a buy
- DTMB Procurement will assist any agency upon request to address supply chain issues (e.g. working with a national supplier to ensure a high volume supply of water filters are available)
- DTMB-Financial Services is not responsible for issuing emergency purchase orders on behalf of agencies with the exception of information technology related goods and services
- Maintain documentation supporting all transactions. Establish internal protocols to support this such as a single spreadsheet to track agency-wide transactions. Report your agency's expenses to the SEOC Finance team via your SEOC representative.

Questions, concerns, or comments should be directed to:

Primary Contact:
Rebecca Cook, Commodities Division Director
Cookr6@michigan.gov
Cell: 517-930-4015

SEOC FOIA Plan FINAL.DOCX

The department has been directed to prov ide copies of all records in our possession related to the Flint water matter to the Governor's office. You are receiving this email because you have been identified as an individual who may have records that must be produced. If there are any department members who you think may be in possession of records related to Flint water, please forward this message to those members.

Records include memos, handwritten notes, emails and attachments, and text messages in your possession, regardless of who produced the record. Be sure when you search your email messages that you look in your inbox, sent box, and trash. In preparation for the production, you must estimate the number of records you have in your possession and provide that estimate to Ms. Lori Hinkley no later than **2:00 PM on Friday, February 12, 2016**.

You must then provide a copy of each record in your possession to the Legislative and Legal Resources Section no later than close of business on **Thursday, February 18, 2016**.

Members who work at Headquarters must provide paper copies to F/Lt. Chris Hawkins in the Office of the Director. Members who work at the State Secondary Complex must provide a paper copies Ms. Lori Hinkley. Ms. Hinkley is located on the second floor of the new Headquarters building. Department members who work outside of these worksites may send copies of records in their possession via e-mail to MSP-FOIAProject@michigan.gov.

In addition to this initial production of records, the department is required to provide copies of newly created records on an ongoing basis. Until further notice, copies of all newly created records shall be forwarded to MSP-FOIAProject@michigan.gov.

REMINDER: Public records can only be disposed of consistent with an approved retention schedule. As it applies to emails and text messages related to the Flint water matter, please use the retention schedule in place for general correspondence which is **two years**. Please save all emails and text messages for at least two years. Prior to expiration of the two year period you will have an opportunity to re-evaluate the content of the messages to determine if an additional retention period is necessary. If you have issues with accommodating emails based on your mailbox size, please archive them. Do not print and file them as the metadata must be retained as well.

If you have any questions with these instructions, please contact Ms. Lori Hinkley.

Capt. Greg Zarotney

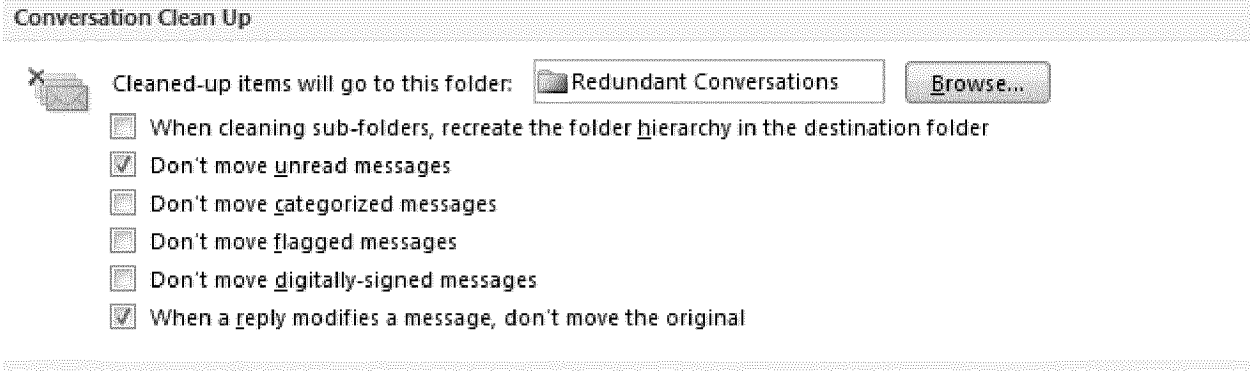
SEOC FOIA Print Plan
Tips for Printing

Print Plan – Thru Friday, February 19



- When printing emails/documents, make sure to **change your default printer** to the following printer:
  - EOC_F1COMM_RI3054 on EOC084M1OAPF502 (located in the Communications Room)
  - Additional helpful hints for each document type below
- SEOC IT staff will set up to "Print to Hold" for each PC in the SEOC.
- Be sure to print/copy all documents **Single Sided**.
- Advise the SEOC Operations Section Chief prior to printing. **Do not interrupt someone else's print job.** The SEOC Operations Section Chief will ensure coordinated printing efforts.
- When at the printer, select Print > Select your agency name > Select All > Print.
- Test printing a couple of emails before printing out a large quantity.
- Once all items have been printed/copied, give all to Oralya Garza or Jodie Frese (daily staff) located just outside Governor's Conference Room A in the SEOC. **Do not go direct to FOIA Unit staff working in the conference room.** They will reach out if they have any questions.
- Make sure to clip or rubber band your information to keep separate from others information being turned in.
- Sources: Emails, Documents, S drive, Desktop, Cell phone/text messages, Copies of handwritten notes, DCDS, Invoices, Photos
- SEOC IT Staff will be responsible for printing all documentation from MI CIMS.
- For any IT issues, contact IT Staff in the SEOC. This is usually Jaclyn Barcroft or Rich Law. GIS staff should be contacted only if both of them are unavailable.

How to Recover Deleted Emails

- In Outlook, select the Folder Tab.
- On the top, select Recover Deleted Items.
- Recover any items pertinent to the Flint Water response.
- You may need to select various folders on the left side in order to recover everything possible.

How to Clean up Redundant Email Conversations

- In Outlook, click on the File tab.
- Click Options.
- Click Mail.
- Under the Conversation Clean Up section, change the location where conversations will go. Select Browse. Click on "Cabinet" in the list. Select "New Folder" and name it "Redundant Conversations." Ensure the options are identical to the below:

- In Outlook, on the Home tab, in the Delete group, click Clean Up.
- Select Clean Up Folder. Click Clean Up Folder.

SEOC FOIA Print Plan
Tips for Printing

Tips for Printing Emails

- For State Agency SEOC personnel, **only** print emails from your SEOC email address.
- Print emails by selecting **up to 100 at a time** (select one, hold shift, click on the last one).
    - Select the File Tab > Print > Click Print Options button > Select Memo Style and Check Box for "Print Attached Files" (bottom left corner of pop up) > Select Print
- Attachments will not show up in the preview, but will print out with the emails

Tips for Printing Documents from Desktop, S Drive, My Documents (wherever files are saved)

- Make sure documents are formatted correctly for printing prior to moving to the next steps (Excel files tend to be the most troublesome).
- Sort documents in folders by "Type".
- Highlight "like" file types (Adobe Acrobat Document, Microsoft Excel Worksheet, etc.).
- Right click, select Print.

Tips for Printing Text Messages

- Android
- iPhone

Email – After All Your Files are Printed

- Send a CC to the following email address when sending items from the SEOC:
    - MSP-FOIAProject@michigan.gov
    - For State Agency SEOC personnel, **only** CC emails from your SEOC email address
- Send all documents created to the same email address

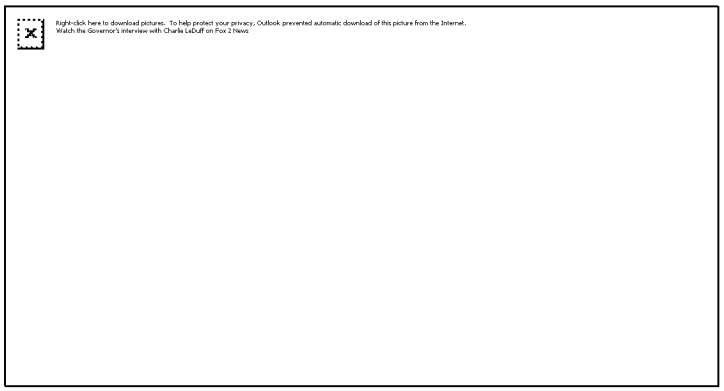
How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

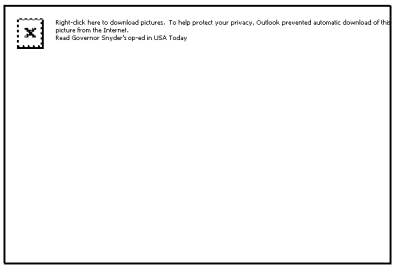


"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.

Governor Snyder with Charlie LeDuff on Fox 2 Detroit

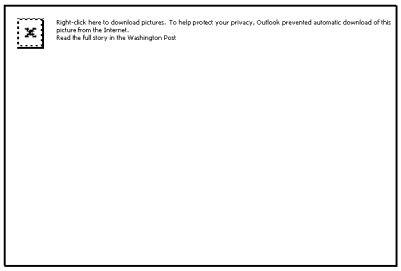
"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



Governor in USA Today: "I will fix this, and I mean it."

"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

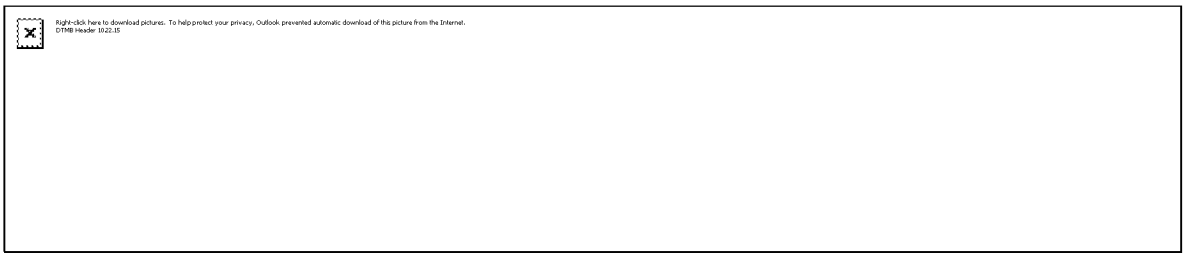
Subject: Flint Volunteer Efforts

Dear State Employees,

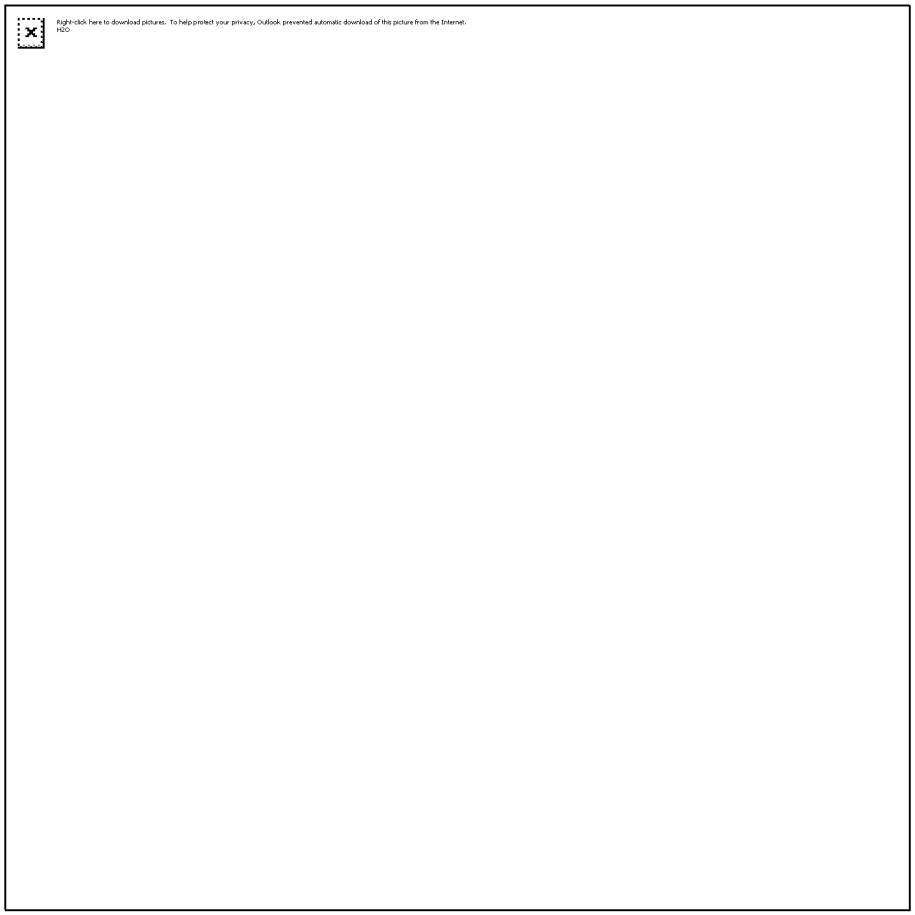
Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.



For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.



Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

To: Ross, Josh (DTMB)
Subject: Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.

Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

Kettering University
1700 University Avenue • Flint, Michigan 48504-6214

Monday, January 18, 2016

To: The Kettering Community of Parents of our Students and our Alumni

Subject: Kettering Campus Water Update

I know that you value the excellence of the education we provide, but I expect as alumni or parents of students currently enrolled at our great University that you are concerned about the barrage of news about Flint's water supply. I am a proud parent of a Kettering student, and my family and I reside in Flint, so I understand deeply and very personally how you might be feeling about the situation as reported in the media.

Last week, I sent a detailed Kettering Water Update letter to our campus and to our students. Because I know (from direct experience!) that students may not always communicate promptly with their parents on even important issues, I thought I would take a moment to update you and our alumni directly on this issue, because I know it is a subject of concern.

Unfortunately, as is often the case in public crises, a great deal of misinformation about the water supply in Flint is being reported as fact. Just as distressingly, though, a great deal of important information that we do have about the situation is also *not* being reported.

Kettering campus water is safe, and our faculty, staff, students, and campus residents are **not** being exposed to contaminated water on campus. We are, and have been even before the current crisis emerged, committed to ongoing testing of our water to ensure the safety of the campus water supply. Moreover, the entire water supply of Flint has not been contaminated with lead; although some sections of the city have experienced problems, some severe, other sections have not.

All of us deplore that any single person has been exposed to unsafe levels of lead in the water; however, many, many people living in Flint have not been exposed to water containing elevated levels of lead in their residences or places of business. To date:

- Roughly 2% of all individuals tested in Flint have shown elevated blood lead levels.[1]
- Twenty-three (23) children younger than age six tested in Flint show elevated blood levels of lead.[2]
    - Children under the age of 5-6 are the most vulnerable population with respect to the long-term health effects of lead; in the U.S., 535,000 children under the age of 5 have elevated blood lead levels high enough to damage their health.[3]
- A total of 43 of 2182 of people tested in Flint show elevated blood levels of lead.[4]

I also want to clarify that *the water from the Flint River that was used as the city's water source from April 2014 through October 2015 was not contaminated with lead.* The contamination, where it occurred, was due primarily to interactions between treated river water and lead supply

[1] http://www.michigan.gov/documents/deq/Flint_Blood_Testing_Report_December_23_509464_7.pdf
[2] http://www.mlive.com/lansing-news/index.ssf/2016/01/43_flint_residents_identified.html
[3] http://www.cdc.gov/nceh/lead/infographic.htm
[4] ibid.

lines in the distribution system, particularly in lead lines connecting individual houses to local water mains. This is not a global problem with the water, but a problem with how that water - after treatment - interacted with some pipes and other elements of the city's distribution system. This interaction was often (considerably) different - even house-by-house on a single block.

In this letter I want to outline for you what we know about the nature of the contamination of the Flint system, how the university has responded to it, what we have done and are doing on an ongoing basis to ensure the integrity and safety of drinking water on the campus, and how we are working to ensure that those in the campus community who live off-campus in private housing have access to appropriate information, tests, and filters to ensure and monitor the safety of their private supplies.

Because I want to document what I write, I am also including footnotes that will lead you, if you are interested, to the sources of my information, something I learned to do as a faculty member and still highly value. We are committed to deploying every resource at our disposal to continue to ensure the safety of our entire campus community and our visitors. We value your input, and I hope that as members of the Kettering Community and of this great University that the information presented in this letter is helpful to you. If you have questions, comments, or thoughts on this issue we welcome you to send them to us at water@kettering.edu.

Introduction

Inflated lead levels have been detected in the water supply in a number of areas in the city of Flint, and these have received significant medical, political, and media attention over the last three months. The State of Michigan officially declared a state of emergency in Flint on January 6, 2016,[5] and the Federal Government followed on January 16, 2016.[6] Federal, state and local officials have now engaged and are taking more aggressive corrective action to address this situation and the public health crisis that has resulted from it. Proudly, many in the Kettering Community have taken a very active role in helping those families and children in Flint impacted by this health crisis since its beginning last year.

The levels of lead found in some areas of Flint are gravely upsetting, but I want again to stress that the problem of lead contamination in public and private drinking water supplies is not present in all of Flint. Unfortunately, this distinction has been absent from much of the reporting on this subject in the media. Reports often imply that the water was tainted at the source (i.e. the Flint River), or that contamination of the water is uniform across the entire distribution system and that every house and business has been equally affected.

I also think it important for us to recognize that this problem is widespread and in fact is not isolated to Flint.[7] For example, I am sad to report, drinking water supply contamination, in some cases at levels far worse than have been found in Flint, has been found in Washington D.C., Seattle, Baltimore, Philadelphia, and Los Angeles among other cities and areas of the country.[8] In Michigan, elevated blood-lead levels have been found in an even higher percentage of children

[7] http://www.cdc.gov/nceh/lead/leadinwater/

[8] ibid., http://www.cdc.gov/mmwr/preview/mmwrhtml/mm5312a6.htm, http://www.washingtonpost.com/wp-dyn/content/article/2009/08/03/AR2009080303003.html, and http://www.yaleseas.com/watersymposium/pdfs/EdwardsLeadPaper.pdf

than Flint is experiencing in sections of Jackson, Detroit, Grand Rapids, Saginaw, Holland, and a number of other cities.[9]

The Nature of the Problem

First, the nature and cause of the contamination are reasonably well understood at this point. In brief:

- Historically, the Flint water system used and distributed treated water from Detroit Water Authority. It did so until April 2014, when it switched to treating water from the Flint River in an existing Flint water treatment plant.
- The "raw" river water to which the city switched in April 2014 was not contaminated with lead.
- The water within *some* sections of the distribution network was, however, contaminated *after* the water left the treatment plant by the leaching of metals such as lead, iron, and copper from lead service lines and lines containing lead solder.

After the switch to river water, the City failed to treat the water for corrosivity by managing its chemistry,[10] which lead to the erosion (and release) of lead-bearing pipe scale in supply lines[11] and lead/copper galvanic corrosion of lead solder and lead copper joints in the distribution system.[12] Because raw water quality varies across the US, federal law requires all municipal water systems to have a corrosion control plan to address this possibility; this regulation is known as the Lead and Copper Rule.[13] Flint unfortunately did not have such a plan in place when it switched the water source to the River.

Here I want to stress that the lack of corrosion control did not, in and of itself, make the water unsafe. What it did do, however, is increase the potential for the water to react chemically with certain types of plumbing systems, and in doing so leach lead and other metals (if they were present) from those systems.

And if this isn't enough complexity, the City (out of what I'm sure were benign motives) used a relatively high level of chlorine to treat the river water to prevent bacterial growth in the supply. The unanticipated consequence of this choice, combined with a lack of activated charcoal filtration in the treatment process, led to the subsequent production of elevated levels of trihalomethanes (which are disinfection by-products of water chlorination) in the water, but these were present primarily in areas of the system where the water pooled or moved through the system slowly.

In October of last year, Flint switched its water source back to Detroit Water Authority. It took approximately 3-4 weeks for the Detroit source water to replace fully all of the water in the distribution system. In December, Flint also began introducing additional corrosion control

---

[10] Specifically the chloride-to-sulfate mass ratio in the treated water, which can be influenced by salt entering the source river from runoff or changes in the way that organics are removed in the treatment process. This is typically adjusted by adding lime or orthophosphates in the treatment process, see http://www.waterrf.org/publicreportlibrary/4088.pdf

[11] http://pubs.acs.org/doi/pdfplus/10.1021/es101328u?src=recsys&

[13] http://www.epa.gov/dwreginfo/lead-and-copper-rule and http://www.ecfr.gov/cgi-bin/text-idx?SID=531617f923c3de2cbf5d12ae4663f56d&mc=true&node=sp40.23.141.i&rgn=div6

additives to the water supply.[14] It did this expecting that the addition of these additives will, over time, help to rebuild the protective scale on the inside of the parts of the distribution system where it has been damaged.

Not All Areas of Flint were Impacted Equally

The specific mechanisms that gave rise to the contamination of the system mean that **not all areas of the system were equally impacted**. Portions of the system that do not contain lead service lines or lead solder were not as greatly impacted as those that do. Older parts of the system, especially sections built in the 1940's through the 1960's[15] that have not been upgraded since their construction are disproportionately vulnerable.[16] Other areas are far less so.

As a consequence, **the presence of lead contamination in the water supply was not uniform across the entire municipal water system, and not all areas of the city or all resident supplies were equally affected by it**. [17]

- The amount of lead that leached into a given part of the system depended upon a variety of factors, including the age of the system in the area, the specifics of its construction (e.g. are lead service lines present), and the time that water typically spends in that part of the system between treatment and use.
    - The levels of lead contamination measured in the water drawn from a particular source point depends upon the characteristics of the infrastructure through which the water passed, and how long it took to do so. **This is why water drawn in some houses on a single block might show measurable lead contamination, while others did not.**[18]
- For the same reason, as I noted earlier, only a percentage of Flint residents have been exposed to water containing elevated levels of lead in their residences or places of business.[19]

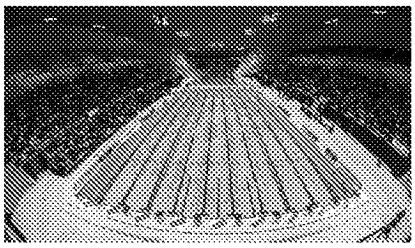
Kettering's Campus Water Supply and Our Approach to Ensuring its Safety

The municipal water infrastructure that supplies Kettering is relatively modern, the flow-rates of water through the system are high, and we do not have lead-copper transitions in the main supply lines, as do many residences in some areas of the city. All of these factors reduce the chance of contamination in our supply. Even so, the University has taken a number of proactive steps to ensure that the campus drinking and cooking water supplies are free from contamination, a number of which have been described in previous communications to the campus on this issue. These include:

[14] https://www.cityofflint.com/2016/01/16/flint-city-leaders-county-state-officials-announce-relief-effort-expansion/
[15] In the early part of the last century, many municipal codes *required* the use of lead pipes when connecting homes and businesses to municipal water mains but most codes banned the use of lead pipes by the early 1970's. Chicago, for example, continued to require them as recently as 1986, see: *EPA warns modernizing water system may boost levels of lead*, Chicago Tribune, September 25, 2013. Some major U.S. cities still have 100% piping bringing water from the utilities to homes and businesses, see: https://www.safeplumbing.org/health-safety/lead-in-plumbing.
[16] http://nepis.epa.gov/Exe/ZyPDF.cgi?Dockey=20001R4V.txt
[17] For an example see: http://www.michigan.gov/documents/deq/Copy_of_deq-fw-Flint-Home-Owner-Data-Sept-3-thru_Nov-5-15_505529_7_505579_7.pdf
[18] ibid.
[19] ibid.

- Since early 2015 (after the switch to river water but before lead contamination was suspected), the University has been engaged in recurring testing of all drinking and food service water distribution points on campus using an independent, certified laboratory (Brighton Analytical, LLC). We will continue to test all drinking and food service water distribution points (and there are almost 100 of these) indefinitely.
- We also similarly test incoming water from our (six) Flint Municipal Water system input supply lines.
- All food service water source lines are flushed for a minimum of five minutes prior to use each morning, and only cold water is used, consistent with EPA guidelines.[20]
- We use NSF/ANSI 53 certified filters on all drinking water supplies on campus; these filters are certified to remove lead and trihalomethanes in addition to a wide variety of other contaminants and suspended solids. You may find details on the NSF/ANSI 53 certification standard at nsf.org and on the websites of manufacturers that produce filters conforming to this standard. There are 31 specific performance criteria that fall under Standard 53.
- All of our filters are maintained and replaced at the intervals recommended by their respective manufacturers.
- To be conservative, we shut off all water fountains on campus where the filters for that fountain were located at a significant physical distance from the fountain itself (usually because of space restrictions in the fountain cabinet).

  We did this as a precautionary measure, since it is possible for lead (if, for example lead solder was used in its supply line) to be produced through the interaction of water with plumbing in the supply line *after* it has been filtered *if* that water is allowed to sit undisturbed for a protracted time in the supply line (such as when a water fountain is used very rarely).



We do not test the water used in toilets, bathroom vanities, or showers, **but we do test the sources from which they draw water** (i.e. the input supply lines to campus). **Human skin does not absorb lead in water**, so bathing, washing, or showering is safe even using water containing lead over the EPA's action level.[21] [22] Adults may safely use unfiltered water for brushing their teeth.[23]

In addition, we continue to make improvements to our local system to improve convenience and ensure safety. One of the most visible of these is the replacement of many of our water fountains across campus with hydration stations; this project in fact began a number of years ago. All of our hydration stations are monitored and contain integral NSF/ANSI 53 water filtration systems.

How are Lead Levels in Water Specified and Interpreted?

The concentration of a metal, like lead, in water is often measured in parts per billion, usually denoted **ppb**. A concentration in water of 1 ppb represents one gram, or three one-hundredths of an ounce (3/100 ounce), of a substance in 260,000 *gallons* of water. One ppb is also three seconds

[20] EPA 810-F-93-001
[21] http://www.cdc.gov/nceh/lead/tips/water.htm
[22] http://www.michigan.gov/deq/0,4561,7-135-3313_3675_73946-372051--,00.html
[23] http://www.michigan.gov/documents/deq/2015-10-21_-_Lead_-_Flint_Water_FINAL_504265_7.pdf

out of 100 years. **Ten parts per billion (10 ppb) is the equivalent of approximately one teaspoon of water in an Olympic-sized swimming pool.**

The EPA has set an action level for lead in drinking water supplies at 15 ppb. In other words, if drinking water contains lead below this level, EPA regulations state that no action is required.[24]

For reference, the EPA permits faucets to be sold in the U.S. that leach 10 ppb or less of lead into water during a 19-day test.[25] Studies conducted by the EPA have found that the geometric mean of lead levels in drinking water systems in the US is 2.8 ppb.[26]

Results of Our Ongoing Testing

- As of the date of our last test series and over the past many months, we have tested the water drawn from the six input lines to campus a total of 15 times and all tests have resulted in a measured level of "ND" (for "None Detected"), with only three, single-test exceptions. In these three exceptions:
    - One detection was at 1 ppb, one was at 5 ppb, and the other was at 7 ppb. All of these are significantly lower than the EPA's allowable limit for lead of 15 ppb.[27]
    - These were single point-in-time detections; **later repeat testing of the same distribution points detected no lead**.
- **No lead has ever been detected in any water source used for food preparation.**
- As of the date of our last test series and over the past many months, all drinking water distribution points (e.g. water fountains) on campus have consistently tested "ND" (for "None Detected") for lead, with only six, single-test exceptions in well over one-hundred tests conducted. In these six exceptions:
    - All detections were at levels of less than 5 ppb (1,4,5,2,3 and 2 ppb respectively); all are significantly under the EPA's allowable action limit for lead of 15 ppb.[28]
    - These were single point-in-time detections; **later repeat testing of the same distribution points detected no lead**.

Access to Test Data

We make all results of these tests public. You may always find our latest test results along with other information related to the state of water in Flint at http://www.kettering.edu/water. We will continue to update the test reports on this site as we receive them.

[24] http://www.cdc.gov/nceh/lead/tips/water.htm
[25] https://www.safeplumbing.org/health-safety/lead-in-plumbing
[26] Levin R, Schock MR, Marcus AH. Exposure to lead in U.S. drinking water. In: *Proceedings of the 23rd Annual Conference on Trace Substances in Environmental Health.* Cincinnati, OH, US Environmental Protection Agency, 1989.
[27] http://www.cdc.gov/nceh/lead/tips/water.htm
[28] ibid.

On this same webpage, you will also find a link to PDF copies of the certified assay reports provided to us by our independent laboratory.

We have encouraged our students to speak with their parents or guardians about this issue, and to share with them all communications they receive from us. Copies of all of our communications to students on this matter may also always be found at http://www.kettering.edu/water.

More Information

If you have further concerns, I encourage you to read the Centers for Disease Control website on lead contamination of water at http://www.cdc.gov/nceh/lead/leadinwater/ and http://www.cdc.gov/nceh/lead/tips/water.htm as well as the citations in this letter. Additional information is also available on our website at http://www.kettering.edu/water.

If you have technical questions about the campus water supply, they may be directed to Nadine Thor, Director of Auxiliary Services, at nthor@kettering.edu. Questions from students or their families of a more general nature should be directed to Dean Betsy Homsher, Dean of Students, at bhomsher@kettering.edu.

We will of course continue to update the campus as this situation evolves.

Members of the Kettering Community that Live off Campus in Impacted Areas

We have encouraged our students, faculty and staff who live off campus within Flint city limits to use bottled water, to test their water (which also supports the city's data collection and analysis efforts), and to use appropriate water filtration in drinking water sources until notified otherwise by civil authorities.[29]

In the interim, **free bottles of water, water filters, replacement cartridges, and home water testing kits are widely available to all Flint residents.**[30] There are multiple distribution points for these around the city, and the University maintains a supply of filters in the Office of Student Life for students otherwise unable to obtain them.

Information on the city's distribution of all of these items to residents may be found at www.michigan.gov/deq. Students residing off campus needing assistance in acquiring water, test kits, and/or faucet filters have been encouraged to contact the Office of Student Life at (810) 762-9871.

A Note on Water Clarity

You may see pictures of bottles of rusty or cloudy water in articles on water safety; the same has been true of the reporting surrounding the water crisis in Flint.

The presence of suspended rust in water can turn it orange, red, brown or yellow. The presence of rust in water is not an indication of the presence of lead or other contaminants in the water, nor does it necessarily indicate that the water is unsafe to drink.[31] In water, lead is colorless, odorless, and tasteless,[32] and the presence of rust in water does not indicate the presence of lead, bacteria, or other substances.

---

[31] http://www.quincyma.gov/CityOfQuincy_Content/documents/RustyWaterFactSheet.pdf
[32] http://extension.psu.edu/natural-resources/water/drinking-water/water-testing/pollutants/lead-in-drinking-water

> *On its own, rust in water is not a sign of harmful bacteria or lead. In fact, the limits set by the Environmental Protection Agency (EPA) for iron in drinking water are based on aesthetics (taste, odor, color), not safety concerns.*[33]

Trapped air (in the form of small bubbles) in the water can also turn it cloudy or milky. Water pipelines are pressurized systems, so any air introduced into the system can remain trapped until the water leaves a faucet. This cloudiness is not indicator of water quality.

The NSF/ANSI 53 water filtration systems we use on campus for all drinking water remove suspended particulates including the iron that can discolor water (known as "turbidity reduction").

Legionella

It has very recently been reported[34] that there were an unusually high number of cases of Legionnaire's Disease seen in Genesee County in 2014-2015.[35] It has also been suggested in the media that this increase related in some way to the switch in the Flint water supply. Roughly half of the cases identified are in individuals who live outside of the city and the Flint municipal water service zone,[36] and a possible causal link between the two has absolutely not been established.

We have no evidence of any member of the University community having contracted Legionnaire's Disease.

Legionnaire's Disease is not contracted by drinking water containing *Legionella* nor is it transmitted between individuals. It is not contagious.

Legionnaire's Disease is a form of pneumonia caused by the bacteria *Legionella pneumophila*, and it is treatable with several classes of antibiotics.[37] It has an incubation period of two to ten days. *Legionella* do not survive in water above 140 °F (60 °C). *Legionella* are normally found in rivers, lakes, and streams,[38] and they are normally present in the water systems of large buildings and even in a percentage of residential water systems.[39]

Legionnaire's Disease is primarily contracted by heavy smokers, immunocompromised individuals, and individuals with chronic lung disease[40] through the aspiration of water or the inhalation of water mist contaminated with the *Legionella* bacteria.[41] Even after exposure to *Legionella* most people do not become sick.

Cooling towers for large buildings are frequently cited as potential breeding ground for *Legionella* bacteria if they are not regularly maintained and disinfected.[42] **The University has for many years routinely monitored and disinfected all cooling towers on campus.**

As part of a proactive effort, though, we have also begun ongoing and recurring testing of our water for the presence of *Legionella.* We will take appropriate action (which we will report) if elevated levels of the bacteria are detected in campus water supplies in the future. We will of

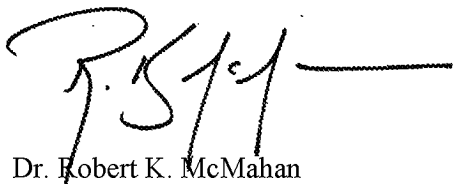
course publish the results of these tests on http://www.kettering.edu/water when they become available.

Federal Emergency Declaration

On January 16, 2016 and at the request of the state of Michigan, President Obama signed an emergency declaration the purpose of which is to make Federal aid available to the city in support of current filter and water distribution efforts to impacted persons in the city.[43] Substantively, this declaration simply mobilizes the Federal Emergency Management Agency (FEMA) to assist in these efforts and also makes certain federal funds available to the city for the purpose of supporting these activities. As stated in the order, it "is to provide water, water filters, water filter cartridges, water test kits, and other necessary related items for a period of no more than 90 days."[44]

A Kettering Professor (from the Beginning) and Our Students have been and will continue to be Part of the Solution

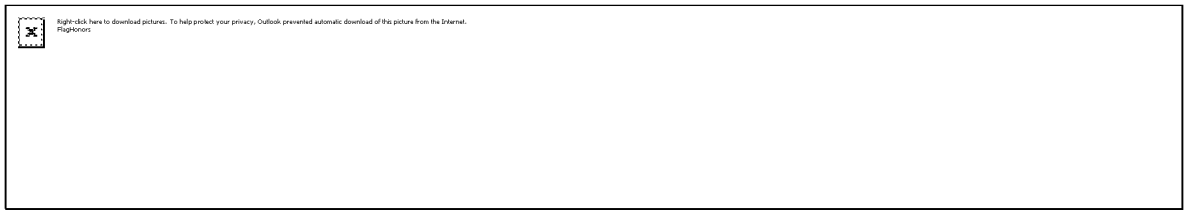


Last year, Kettering's Mechanical Engineering Professor Laura Sullivan was asked to co-chair Flint's Technical Water Advisory Board and was recently appointed by Mayor Karen Weaver to the Karegnondi Water Authority. This is important work, and through it she makes all of us in the greater Kettering family a key part of the solution. I want to take this opportunity to recognize her and to thank her for her service to Flint and the University.

Our students are some of the most creative in the world, and so we have been and are continuing to organize ways for our students, often in teams, to solve some of the challenging and unforeseen problems that have arisen in the distribution and installation of filters in affected areas of Flint. These efforts not only take advantage of the expertise and ingenuity of our students but they are also consistent with Kettering's ongoing commitment to Flint. We will make information on these efforts available on http://www.kettering.edu/water as it becomes available.

Please know that we are deploying every resource at our disposal to ensure the safety of our entire campus community and our visitors, and we will continue to work with federal, state, and local officials to help create long-term solutions to these problems. We value your input, and I hope that as valued members of the Kettering Community and of this great University that this letter has been helpful to you. If you have questions, comments, or thoughts on this issue or the University's response to it please send them to us at water@kettering.edu.

Thank you.



Warmest Regards,

Dr. Robert K. McMahan
President

Sent: Friday, January 29, 2016 9:55 AM
To: Ross, Josh (DTMB)
Subject: Thank you for your service

THANK YOU!

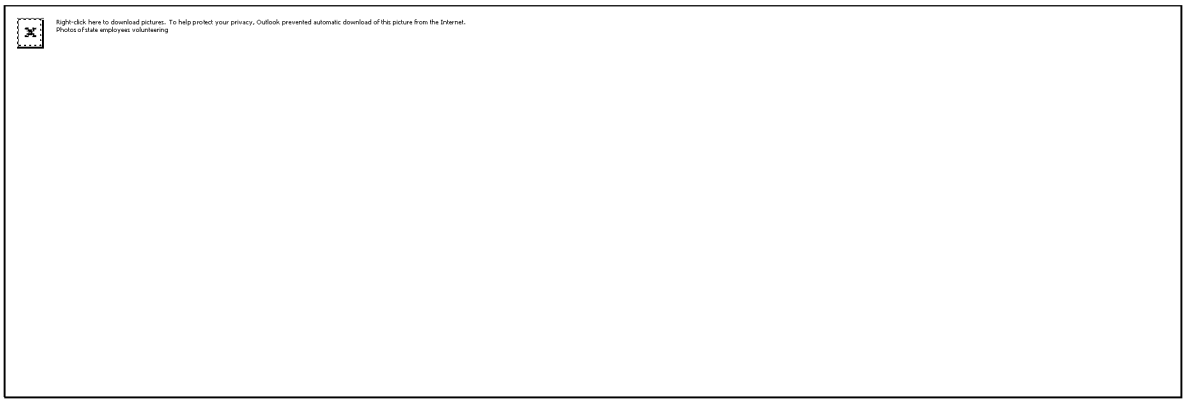
Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.



For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

Subject: Flint

Cindy and I discussed this last night. It was in MIRS today.

Suspended DEQ Official Received Bonus 4 Months Ago

The leader of the state's drinking water office who was first reassigned -- then later suspended -- in connection with her office's handling of the Flint water crisis had been approved for a one-time performance bonus of $2,652 in September 2015.

Liane Shekter **SMITH** was chief of the Office of Drinking Water and Municipal Assistance within the Michigan Department of Environmental Quality (DEQ), before being reassigned Oct. 19 after the DEQ admitted it made a mistake in how it handled overseeing Flint's switch to the Flint River (See "DEQ Takes Blame On Flint Water; Ananich Unforgiving," 10/19/15).

And last week, Smith was one of two DEQ employees suspended by the administration pending a Civil Service investigation, *MIRS* has confirmed.

But on Sept. 13, 2015, Smith was approved for a performance bonus worth $2,652 that was paid out in a lump sum, the Office of the State Employer (OSE) confirmed today. The amount awarded to Smith was based on 2 percent of her base pay, said Kurt **WEISS**, spokesperson for the OSE.

Former DEQ Director Dan **WYANT** had authority to approve any performance bonuses prior to processing, Weiss said. Wyant resigned in December (See "Wyant Resigns As Task Force Slams MDEQ Over Flint Water Contamination," 12/29/15).

It's not clear what rationale was given for awarding the performance bonus to Smith. State officials didn't address that question when asked.

Last week, Gov. Rick **SNYDER** announced two DEQ employees would be suspended due to "pending questions regarding employee actions related to water testing in Flint" (See "Snyder Suspends Two MDEQ Employees, Hires Crisis Comms Firms," 1/22/16).

The two employees were not named, and the state has declined to release the names. But multiple sources have confirmed it was Smith and fellow DEQ official Stephen **BUSCH** who were suspended.

Plus, the *Detroit Free Press* first pointed out this week an organizational chart dated Jan. 18 for the DEQ drinking water office was missing the names of both Smith and Busch.

While not their members, SEIU Local 517M Director Liza Estlund **OLSON** today raised concerns with how the state has handled the DEQ employees' suspensions. She also questioned why the state would award a performance bonus to an employee and then later suspend that person.

"If somebody has been given a pay-for-performance increase and then is told their work is so bad they're being let go by the state of Michigan, again it sends up a red flag as to whether there's really due process happening, and if these people are just being used as scapegoats for the Governor to point a finger and try to keep it away from his doorstep," Olson said.

The other suspended DEQ official, Busch, had received some scrutiny for an email he sent to the U.S. Environmental Protection Agency (EPA) in February 2015, in which he informed them that Flint had a corrosion control program in place for its water (See "DEQ, Flint Focused On Different Health Issue With Flint Water," 1/21/16).

But that wasn't the case, and the DEQ clarified that Flint was undergoing a procedure to evaluate whether a corrosion control program was needed for its water, which the DEQ acknowledged later should've been implemented from the very beginning.

Busch didn't receive any sort of performance bonus in September because his employee classification doesn't allow for such bonuses, Weiss said.

The man who first replaced Smith atop the drinking water office for the interim, DEQ Chief Deputy Director Jim **SYGO**, also received a performance bonus payment worth $5,837 on Sept. 13.

Sygo is listed as DEQ Chief Deputy Director as of Jan. 22, but Mary Ann **DOLEHANTY** is listed as the interim head of the drinking water office, according to an organizational chart posted on the DEQ website.

The DEQ -- and in particular the drinking water office -- have been singled out by the Governor, the Office of the Auditor General and others for its role in the Flint water crisis, mainly for not requiring corrosion control on the river water from when it was first used as Flint's water source beginning in April 2014.

Snyder, in his announcement of the suspended DEQ employees, went so far as to say that "some DEQ actions lacked common sense."

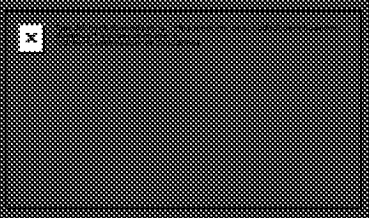
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.



Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly 65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking,

and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

We spoke with Staff Sgt. Thomas Vega about the critical resources they're providing to Flint families every day. He also encouraged residents to pick up and return their water testing kits to Flint fire stations. Test results will be posted online at www.mi.gov/flintwater. **Click here to watch the video.**

Take Action for Clean Water!

Dear Josh,

Right-click here to download pictures. To help protect your privacy, Outlook prevented automatic download of this picture from the Internet.

With the water crisis in Flint continuing, we urgently need your help.

Some of the most marginalized communities in Michigan have not received sufficient access to information and clean water. Because the State's response has been inadequate, we are organizing our own communities.

We're going to be launching two canvasses this weekend from St. Michael's Church in Flint. We will send bilingual canvassers to the city's low-income residents and people living in public housing.

Here's how you can help:

Saturday, February 6

Canvass – 2:00 p.m.
Data Entry volunteers – 5:00 p.m.
St. Michael's Church
609 E 5th Ave. Flint, MI 48503

Following a community meeting at 12:30pm on Saturday, we will

collecting their stories, and getting local leaders involved.We need volunteers to help canvass from 2pm - 5:30pm, and data entry help beginning around 5pm. Please bring a laptop if you would like to help with data entry.

Sunday, February 7

Canvass – 2:00 p.m.
Data Entry volunteers – 5:00 p.m.
St. Michael's Church
609 E 5th Ave, Flint, MI 48503

We will be launching a Sunday afternoon canvass from St. Michael's at 2pm - 5:30pm. As with Saturday, we will be entering data beginning around 5pm. Again, please bring a laptop.

On Sunday, we will be offering rides from our Lansing and Ann Arbor offices, leaving at 12:30:

Ann Arbor office:
320 Miller Ave. #180
Ann Arbor, MI 48103

Lansing office:
2722 Michigan Ave., Suite 201
Lansing, MI 48912

A coalition of local organizations is working hard to get a regular schedule of canvassing up and running, so we will have more opportunities to help soon! Thanks for all of the support.

We look forward to seeing you there!

For Clean Water,
Nic Clark, Michigan Director

VIDEO: What Governor Snyder's FY17 budget means for Michigan

Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.

This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of

Michigan's families. Click here to learn more about the top 6 takeaways from the Governor's FY 2017 state budget.

Click a tweet to tweet it out:

VIDEO: How volunteers are helping Flint

Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

Good Afternoon,

My name is Joshua Ross, and all of the content related to the Flint Water Initiative are in the form of email. There are 86 total, most of them are short and have only to do with scheduling. I have compiled them all together and can send them before February 18, 2016.

Joshua L. Ross
Geodata Manager
Michigan Department of Technology, Management & Budget
Center for Shared Solutions
(517) 241-8840
rossj@michigan.gov

The department has been directed to provide copies of all records in our possession related to the Flint water matter to the Governor's office. You are receiving this email because you have been identified as an individual who may have records that must be produced. If there are any department members who you think may be in possession of records related to Flint water, please forward this message to those members.

Records include memos, handwritten notes, emails and attachments, and text messages in your possession, regardless of who produced the record. Be sure when you search your email messages that you look in your inbox, sent box, and trash. In preparation for the production, you must estimate the number of records you have in your possession and provide that estimate to Ms. Lori Hinkley no later than **2:00 PM on Friday, February 12, 2016**.

You must then provide a copy of each record in your possession to the Legislative and Legal Resources Section no later than close of business on **Thursday, February 18, 2016**.

Members who work at Headquarters must provide paper copies to F/Lt. Chris Hawkins in the Office of the Director. Members who work at the State Secondary Complex must provide a paper copies Ms. Lori Hinkley. Ms. Hinkley is located on the second floor of the new Headquarters building. Department members who work outside of these worksites may send copies of records in their possession via e-mail to MSP-FOIAProject@michigan.gov.

In addition to this initial production of records, the department is required to provide copies of newly created records on an ongoing basis. Until further notice, copies of all newly created records shall be forwarded to MSP-FOIAProject@michigan.gov.

REMINDER: Public records can only be disposed of consistent with an approved retention schedule. As it applies to emails and text messages related to the Flint water matter, please use the retention schedule in place for general correspondence which is **two years**. Please save all emails and text messages for at least two years. Prior to expiration of the two year period you will have an opportunity to re-evaluate the content of the messages to determine if an additional retention period is necessary. If you have issues with accommodating emails based on your mailbox size, please archive them. Do not print and file them as the metadata must be retained as well.

If you have any questions with these instructions, please contact Ms. Lori Hinkley.

Hi Josh:

First and foremost, I hope all is well at your end and that your involvement in the recent Flint water issue is going as well as can be expected given the situation you and yours are up against. Our thoughts are with you.

On a MGFEE support business note, I do need to bring the attached and below to your attention in hopes that you might be able to help in terms of squaring this matter away. Mr. Breen is understandably wanting this invoice settled and, after my having "waved off" our legal/contracts folks in preference to you and I resolving this, I'm hoping that you might be able to help.

Again, thanks very much Josh and I do hope things are calming down a bit at your end. If there is anything I can do to help at this end, by all means let me know.

Ralph

Hi Josh:

This is the billings issue that that we briefly discussed yesterday pertaining to Michigan's rejection of a John McMahon T&M invoice. I've attached the scanned invoice as well as Mr. Breen's original e-mail to us (below).

Thanks for your help Josh…

City of Flint Warns of Potential Health Risks Caused by the City's Drinking Water

The city says there's been too much disinfection byproduct in Flint's water system recently, something that -- over many years could cause liver, kidney or central nervous system problems and an increased risk of cancer.

The notice from the city says Flint water is safe to drink but warns that those with a severely compromised immune system, who have an infant or who are elderly may be at increased risk and should seek advice about drinking water from their health care provider.

For others, there is no need to boil water or take other actions, the notice says.

It is recommended that licensed child care providers and licensed adult foster care and homes for the aged providers seek medical advice or use bottle water when serving individuals at increased risk as outlined above.

For more information, go to to the city's website at http://cityofflint.com.

SUBJECT: Request for Overtime Eligibility

Good Afternoon Amy Miller,

I would like to formally request overtime eligibility for the following two staff members:

Joel Locke – Department Analyst 11
Steven Cross – Department Analyst 11

The necessity for this eligibility is due to the required support of the Michigan State Police State Emergency Operations Center. Specifically, the State Police has a need for mapping backup support due to the Flint Water Crisis.

Please let me know if there are additional steps to be taken on my part and how we can expedite this process as quickly as possible. Your attention in this matter is appreciated.

Subject: RE: Joel Locke - Overtime

James,

I am working on jumping through the hoops for this, but it would be wise to plan on other staff at this point. Long term we will make sure that Steven Cross and Joel Lock are not exempt from overtime so that as emergency staffing needs arise it won't be a problem for the future.

Hi James,
I just found out that my overtime eligibility classification code is "y" (Exempt), and will need approval. I wanted to let you know I am willing to work the hours that you requested if I can get OT pay. As you will see from the policy rules in the pdf, I have my doubt the steps that need to take place for me to receive overtime would be in place that quickly. Josh wanted me to let you know about this and find out how you want to proceed?

Please let me know ASAP.
Thanks,
Joel

Subject: Joel Locke - Overtime

Hi Josh –

I recently spoke with Joel about the need for OT due to the Flint Water Crisis. Please see DTMB Policy 200.12 that discusses Overtime and Compensatory Time. Since Joel is not eligible for OT, an exception will have to be made in order for him to enter his time into DCDS. Please see the bottom of page 2 of the policy that outlines the steps that need to be taken. The memo needs to be sent to Amy Miller (MCSC) and she will forward it to Civil Service for authorization.

Here is the policy:
http://inside.michigan.gov/dtmb/wr/psp/Documents/200.12%20Overtime%20and%20Compensatory%20Time.pdf

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized.

Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

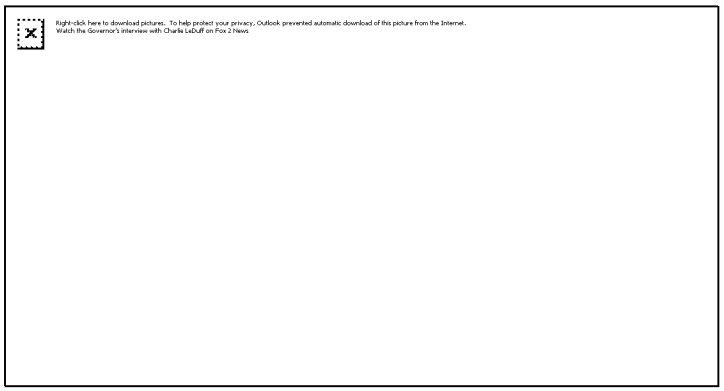
How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

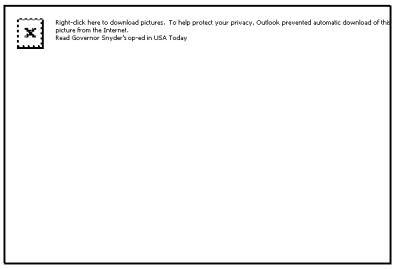


"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.

Governor Snyder with Charlie LeDuff on Fox 2 Detroit

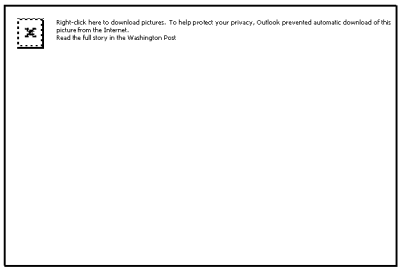
"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



Governor in USA Today: "I will fix this, and I mean it."

"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

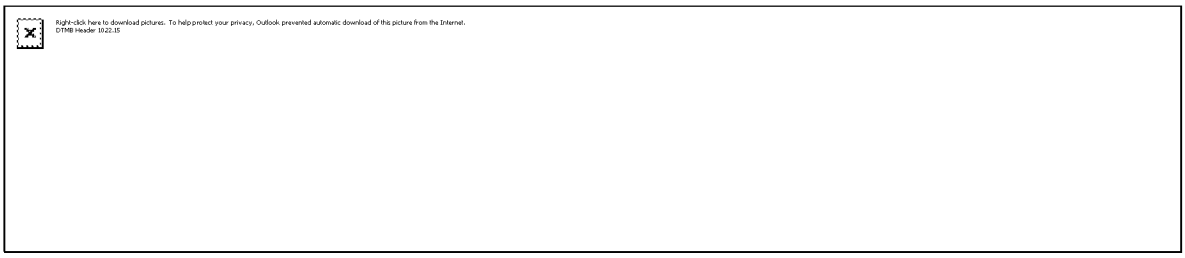
Subject: Flint Volunteer Efforts

Dear State Employees,

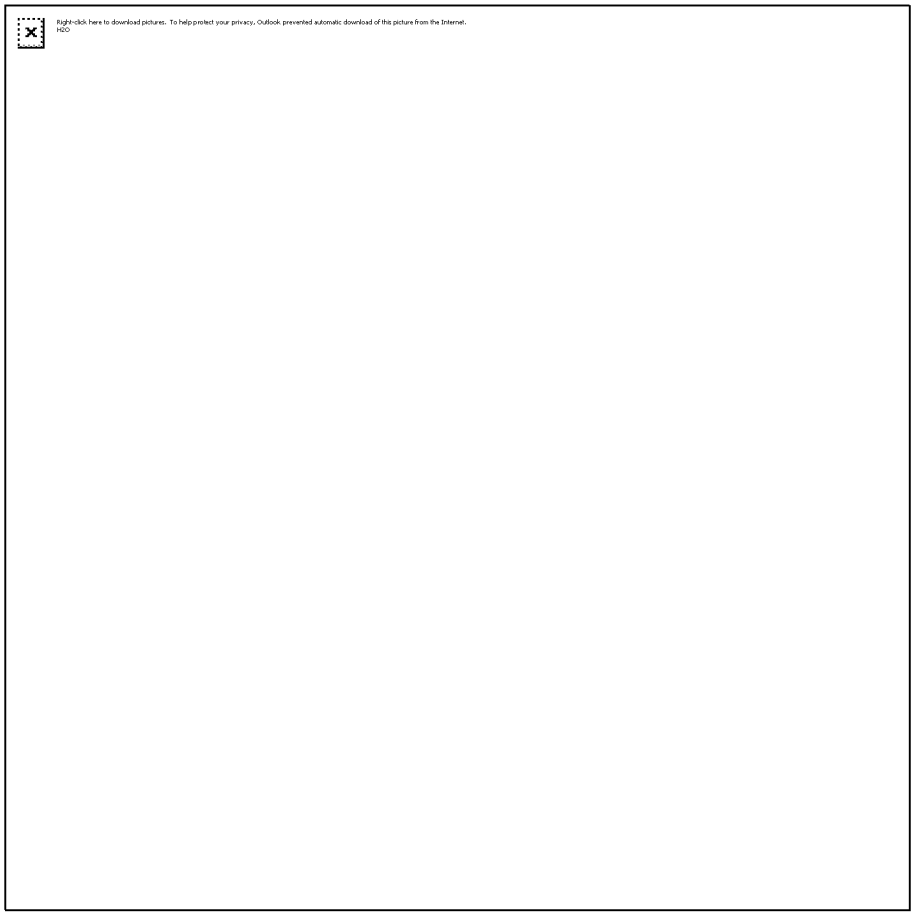
Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.



For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.



Sincerely, Mike Zimmer
Office of Good Government Director

Subject: Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.

Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

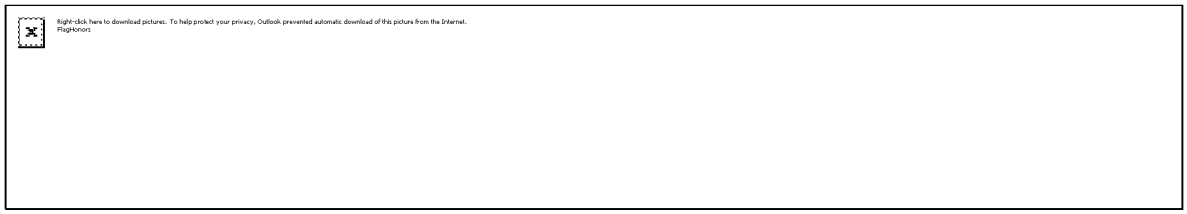
Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,



David

Subject: Thank you for your service

THANK YOU!

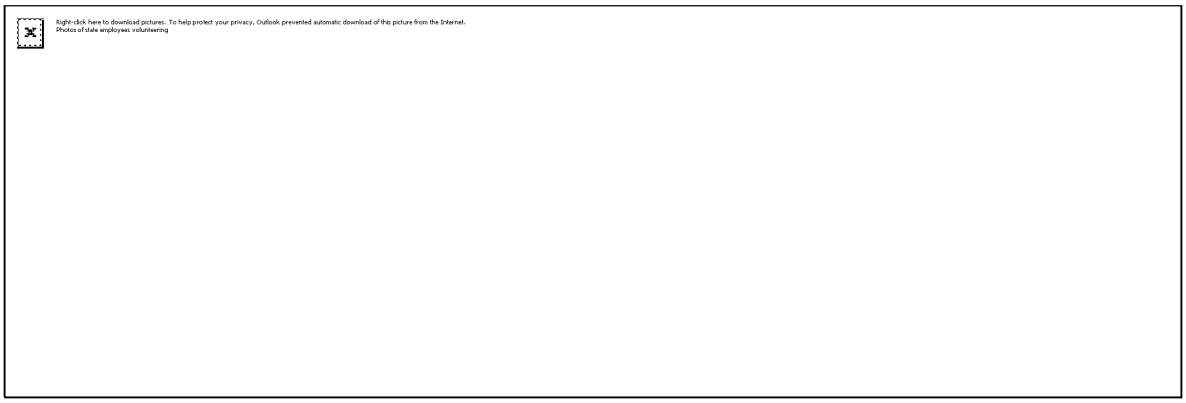
Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.



For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

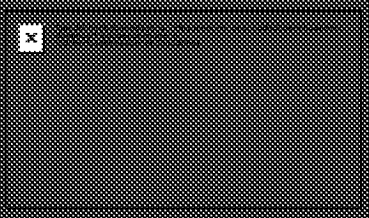
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.



Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly 65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking,

and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

We spoke with Staff Sgt. Thomas Vega about the critical resources they're providing to Flint families every day. He also encouraged residents to pick up and return their water testing kits to Flint fire stations. Test results will be posted online at www.mi.gov/flintwater. **Click here to watch the video.**

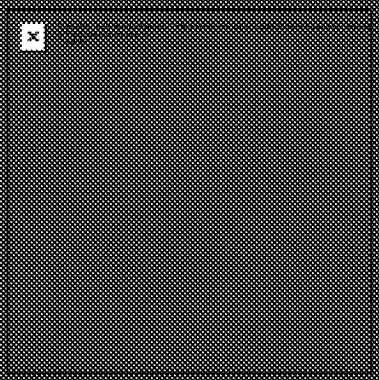
VIDEO: What Governor Snyder's FY17 budget means for Michigan

Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.



This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of Michigan's families. Click here to learn more about the top 6 takeaways from the

Governor's FY 2017 state budget.

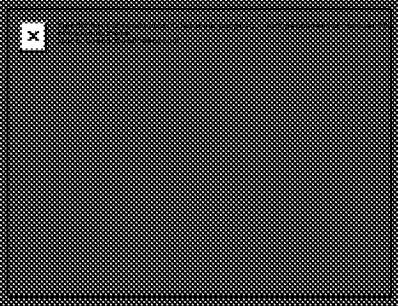
VIDEO: How volunteers are helping Flint



Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

Click here to watch the video and learn more about how the Food Bank of Eastern Michigan is helping Flint's families.

LISTEN IN: Governor Snyder's tele-town hall with Flint residents

Governor Snyder hosted his third town hall with Flint residents on Thursday, Feb. 11, answering their questions directly. *Click here to listen to the call.*

1. *May 9, WDAM 7 Laurel* – (Mississippi) **Coal train derails in Covington County.** Nearly two dozen coal cars from a Canadian National freight train derailed outside Collins, Mississippi, May 9. The accident involved a train headed south with a total of about 105 cars, all filled with coal. An undetermined amount of coal was spilled. Some rails and one small bridge were damaged. Authorities said the cause of the derailment was under investigation. Officials said it would take about 3 days to clean up the site and make repairs.

2. *May 9, Associated Press* – (Colorado) **Colo. officials issue order against Lone Pine Gas.** Colorado health officials issued a new cease-and-desist order to Lone Pine Gas Inc. May 8, alleging violations of the Colorado Water Quality Control Act. The company has oil and natural gas wells about 10 miles west of Walden in Jackson County. It has a permit to discharge treated produced water into Spring Gulch Creek, but the new cease-and-desist order said the company was discharging copper and iron at levels above what is allowed under its permit. The order warns of fines of up to $10,000 per day for water-quality violations. Lone Pine Gas has 30 days to respond to the order. It received a similar notice of violation in 2010, also from the water quality control division of the State health department, ordering it to stop polluting the creek. The company was still allowed to operate while it worked to meet conditions of its discharge permit.

3. *May 10, Baton Rouge Advocate* – (Louisiana) **Plant chemical release injures 3.** A power failure at Westlake Chemical's Geismar complex in Ascension Parish, Louisiana, triggered a chemical release May 9 that sent three contract workers to a hospital. The workers were treated for inhalation injuries and released. The employees were pouring concrete when the incident occurred, said the director of Ascension Parish's Office of Homeland Security and Emergency Preparedness. He said an undetermined amount of polyvinyl chloride was released. The cause of the power outage has not been determined, a Louisiana State Police spokesman said, but State police and HAZMAT teams were on site. Less than 2 hours after the incident, Westlake announced the vinyl chloride monomer unit at its Geismar complex, damaged by a fire

in late March, was safely repaired and restarted.

4. *May 10, Associated Press* – (Louisiana) **Fiery flare from chemical plant cause accident.** State environmental regulators said fire and smoke flaring up at the Shell chemical plant in Norco, Louisiana, May 8, were the result of a heater unit failure that forced a shutdown of a portion of the plant. The eruption was visible from 25 miles away May 8. A Louisiana Department of Environmental Quality (DEQ) spokeswoman said fence line monitoring at ground level by Shell officials May 8 and additional monitoring May 9 by DEQ indicated no elevated levels of chemicals in the air. The New Orleans Times-Picayune reported company officials said several chemicals, including benzene, ethylene, hydrogen sulfide, nitrogen oxide, and propylene were released. However, a Shell Norco spokeswoman said there was no danger to the community. She said inclement weather caused the plant's mechanical problems.

5. *May 9, U.S. Environmental Protection Agency* – (National) **EPA promotes safer alternatives to nonylphenol ethoxylates.** May 9, the U.S. Environmental Protection Agency (EPA) released the final report on alternatives to nonylphenol ethoxylates (NPEs) through the Design for the Environment (DfE) Alternatives Assessment Program. NPEs are widely used surfactants with a range of industrial applications and are commonly found in consumer products, such as laundry detergents. When released into the environment, they can be persistent and highly toxic to aquatic organisms. The report identifies eight safer alternatives to NPEs that meet EPA's criteria for safer surfactants. It provides information on the availability of safer alternatives, DfE's hazard evaluation method for surfactants, and the progress being made in adopting safer surfactants. Using rigorous hazard-based criteria, EPA evaluated hundreds of chemicals for their biodegradability and their potential effects to aquatic organisms.

6. *May 9, Freeport Journal-Standard* – (Illinois) **Galena foundry badly damaged in fire.** Firefighters spent about 7 hours battling a substantial fire at Westwick Foundry in Galena, Illinois, May 8. The building, which served as a metal casting factory, was

originally built in the mid-1800s and there have been sections added on over the decades. The fire started near the grinding room and spread quickly due to wooden patterns in the foundry's storage area. The section which caught fire was a complete loss according to the Galena fire chief, but the rest of the buildings in the complex were saved.

Defense Industrial Base Sector

8. *May 9, San Jose Mercury News* – (California) **Silicon Valley engineer convicted in Marvell trade secrets case.** A Silicon Valley engineer accused of stealing trade secrets from Marvell Technology was convicted of 5 felony charges in a case that has been unfolding in federal court in San Jose, California, for more than 6 years. In a decision made public May 8, a U.S. district judge convicted the man of five counts related to the trade secrets theft but cleared him of four other charges. The man is scheduled to be sentenced in August. He faces up to 10 years in federal prison. A grand jury indicted the man in 2005, charging him with exploiting his position as an engineer with Netgear, a Marvell customer, to gain access to Marvell's tech secrets. During trial, prosecutors alleged he downloaded a host of confidential materials from Marvell onto his laptop when he moved from Netgear to Marvell rival Broadcom in 2005. The man, prosecutors alleged in court papers, went on a "downloading spree of proprietary and trade secret materials from Marvell's Extranet that had no legitimate explanation." The collection of tech secrets was found on the man's computer when FBI agents raided his Belmont home in June 2005.

Banking and Finance Sector

10. *May 10, Norfolk Virginian-Pilot* – (Virginia) **Ex-VP of Bank of the Commonwealth admits to fraud.** A former vice president at Virginia's Bank of the Commonwealth pleaded guilty May 9 to a fraud charge as part of the government's investigation of wrongdoing at the failed bank. The defendant served as the bank's commercial loan officer. He admitted participating in a $5 million fraud involving loans to Tivest Development & Construction for two construction projects that ultimately failed. A vice president at Tivest faces a similar charge. Federal authorities are investigating the role that wrongdoing by top executives of Bank of the Commonwealth played in the bank's failure, according to court filings. The investigation also led to charges against two developers. Court records allege they obtained more than $40 million in fraudulent loans from the bank for dozens of commercial and residential properties. The defendant's lawyer said his client did not benefit financially in the scheme. To keep his job, he did as the top executives instructed him to do in approving millions of dollars in questionable loans, the lawyer said. The bank closed in 2011 amid losses totaling more than $260 million.

11. *May 10, U.S. Securities and Exchange Commission* – (National; International) **SEC charges Scotland-based firm for improperly boosting hedge fund client at expense of U.S. fund investors.** The U.S. Securities and Exchange Commission (SEC) May 10 charged a Scotland-based fund management group for fraudulently using one of its U.S. fund clients to rescue another client, a China-focused hedge fund struggling in the midst of the global financial crisis. Martin Currie agreed to pay about $14 million to the SEC and the United Kingdom's Financial Services Authority to settle the charges it steered a U.S. publicly traded fund called The China Fund Inc. into an investment to bolster the hedge fund. Martin Currie directly alleviated the hedge fund's liquidity problems by deciding to use the China Fund in a bond transaction that reduced the hedge fund's exposure. In response to the hedge fund's problems, Martin Currie used the China Fund to purchase $22.8 million in convertible bonds from a subsidiary of Jackin International, a Chinese company in which Martin Currie held $10 million of unlisted illiquid bonds. The subsidiary instantly lent $10 million of the proceeds to Jackin, which in turn redeemed $10 million in otherwise-illiquid bonds held by the troubled hedge fund. The bond transaction closed in April 2009. According to the SEC's order, Martin Currie officials were aware the China Fund's involvement presented a direct conflict of interest. In April 2011, the China Fund sold its bond

investment in the Jackin subsidiary for a loss of $11.5 million.

13. *May 9, WBRZ 2 Baton Rouge* – (Louisiana; Mississippi) **Suspect connected to multiple bank robberies.** Detectives with the Baton Rouge Police and the East Baton Rouge Sheriff's Office (EBRSO) in Louisiana have arrested a man in connection with a string of bank robberies around the area, WBRZ 2 Baton Rouge reported May 9. Authorities arrested the suspect in suspicion of 3 bank robberies and a bank burglary, all committed over the past 3 months. An EBRSO spokesperson said deputies pulled the suspect's vehicle over and saw strands of a red wig inside. Surveillance video from one of the bank robberies showed the robber wearing a red wig. Detectives linked the suspect to bank robberies March 21, April 29 and 30, and May 7. They also linked him to an attempted bank robbery April 27. The spokesperson said the suspect is also on parole for robbery in Jackson, Mississippi.
Source: http://www1.wbrz.com/news/suspect-connected-to-multiple-bank-robberies/

14. *May 9, Federal Bureau of Investigation* – (Oregon) **Former Key Bank branch manager guilty of identity theft, bank fraud.** A former manager of a Key Bank branch in Springfield, Oregon, pleaded guilty to identity theft and bank fraud in federal court May 9. He admitted that in January 2007, while serving as a bank manager and with the intent to deceive Key Bank, he used a Social Security number of a previous Key Bank account holder to open up a bank account at Key Bank without their authorization. He also admitted that in May 2007, he transferred the names, dates of birth, and Social Security numbers of 2,937 present or previous account holders of Key Bank to his personal e-mail account. He admitted he transferred this data without authorization, intending to use it for his personal financial gain. As a result of his conduct, Key Bank incurred $44,937.66 in expenses, including credit monitoring services to affected account holders. The defendant agreed to pay restitution in that amount to Key Bank.
Source: http://www.loansafe.org/former-key-bank-branch-manager-guilty-of-identity-theft-bank-fraud

15. *May 9, Agence France-Presse* – (International) **Canada busts international bank card fraud ring.** Canadian police said May 9 they broke up an international fraud ring that drained some $100 million from the accounts of unsuspecting bank card holders.

Authorities arrested 45 people in a series of raids by members of the Royal Canadian Mounted Police, mostly in the Montreal, Quebec region, but also in Ottawa, Ontario, and Vancouver, British Columbia, a police spokesperson said. Arrests warrants were issued for 61 people, all but one of whom were Canadian citizens, according to police. Authorities said the network was active in Britain, Australia, New Zealand, Malaysia, and Tunisia. The fraudsters divided their labors among various members, with some specializing in filming and modifying ATM machines. Other units of the crime ring specialized in stealing PIN numbers or hacking into computer terminals in stores, while other cells forged counterfeit cards for illegal withdrawals. In some cases, they modified point-of-sale machines from businesses and restaurants, rigging them using Bluetooth technology to read the credit and debit card information contained on the computer processors of the devices. They then transferred the information onto blank debit and credit cards, which they later tapped to drain the rightful bank customers' bank accounts. The suspects face charges of racketeering, fraud, making counterfeit cards, and identify theft.

Transportation Sector

16. *May 10, Trucking Info* – (National) **Safety Board highlights dangers of hose-chemical incompatibility.** The National Transportation Safety Board (NTSB) asked the Department of Transportation to warn trucking companies about the dangers of not using the right hoses for the right chemicals, after determining the use of a cargo hose assembly that was not chemically compatible with anhydrous ammonia caused a fatal 2009 accident, Trucking Info reported May 10. A cargo transfer hose ruptured July 15, 2009, shortly after transfer of anhydrous ammonia began from a Werner Transportation cargo tank truck to a storage tank at the Tanner Industries facility in Swansea, South Carolina. NTSB investigators determined the probable cause of the accident was Werner's use of a cargo hose assembly designed for liquefied petroleum gas (LPG) transfer only and was not chemically compatible with anhydrous ammonia. As a result of the investigation, the NTSB issued a joint recommendation to the DOT's Federal Motor Carrier Safety Administration and Pipeline and Hazardous Materials Safety Administration to "jointly issue a safety advisory bulletin to inform cargo tank motor vehicle owners and operators, registered inspectors of these vehicles, and transfer facility operators about the circumstances of this accident and actions needed to prevent the occurrence of a similar accident."

17. *May 9, Associated Press* – (Ohio) **3-truck crash blocks bridge on major Ohio highway.** State troopers said three tractor-trailers collided and significantly damaged a highway overpass in eastern Ohio, blocking westbound traffic near the intersection of

two busy interstates, the Associated Press reported May 9. The collision happened May 7 on Interstate 70 near Cambridge, just west of where the highway links to Interstate 77. The crash significantly damaged the concrete sides of the bridge. Officials rerouted traffic north around the I-70 bridge before reopening one of its two lanes during morning rush hour May 8.

18. *May 9, KESQ 3 Palm Springs* – (California) **Palm Springs streets reopened after bomb scare.** South Civic Center Drive was shut down for 3 hours May 9 as a HAZMAT team detonated a device resembling a pipe bomb on the front lawn of the Palm Springs Police Department in California, May 9. A police spokesman said someone found the device near the Palm Springs Country Club. The Riverside County Sheriff's Department Hazardous Device Team will help determine if the device was active and where it came from.

19. *May 10, Food Safety News* – (National; International) **More frozen tuna from India recalled due to Salmonella risk.** The company in India that supplied the yellowfin tuna implicated in the multistate outbreak of Salmonella infections linked to sushi recalled 22-pound cases of frozen tuna strips because they may also be contaminated with Salmonella. In a news release May 9, Moon Fishery said the U.S. Food and Drug Administration (FDA) isolated Salmonella in a sample of tuna strips that had not yet been distributed. As a cautionary measure, it agreed to recall frozen tuna strips that had already been shipped, although it said none of those shipments "is from the suspect lot sampled by the FDA." The recalled tuna strips were shipped to four wholesalers in Georgia, Massachusetts, New Jersey, and New York. Moon India said distribution of its tuna was suspended while the FDA continued its investigation. As of May 2, 258 people infected with Salmonella Bareilly or Salmonella Nichanga were reported from 24 states and Washington, D.C., according to the Centers for Disease Control and Prevention (CDC). The CDC said frozen yellowfin tuna, called Nakaochi Scrape, imported from India was the likely source. Many of those sickened reported eating sushi — in particular "spicy tuna sushi" — in the week before they became ill. Moon Marine USA Corp. of Cupertino, California, recalled 58,828 pounds of Nakaochi Scrape.

20. *May 10, Nashville Tennessean* – (Tennessee) **Ammonia leak at Lebanon food distributor prompts evacuation.** An ammonia leak at a food distributor in Lebanon, Tennessee, May 10 required about 30 night shift employees to be evacuated for several hours. Crews responded to the leak at Performance Food Group distribution center, the Wilson County Emergency Management Agency director said. The leak did not elevate to dangerous levels. Employees were allowed to return about 3 hours after they were evacuated.

21. *May 9, Carlisle Sentinel* – (Pennsylvania) **Second trailer loaded with beer stolen in Carlisle.** A second trailer loaded with beer was noticed stolen in Carlisle, Pennsylvania, May 7. Carlisle police said a trailer was found stolen from Allen Distribution. The trailer was reportedly loaded with 1,800 cases of Corona beer and was taken between May 4-7. A second trailer was noticed stolen at the same time and was taken from the same lot. That trailer was also loaded with Corona, with a total of 1,350 cases.
Source: http://cumberlink.com/news/local/crime-and-courts/second-trailer-loaded-with-beer-stolen-in-carlisle/article_c16a2f64-99d2-11e1-9c2e-0019bb2963f4.html

22. *May 9, Brazil Times* – (Indiana) **Late freeze damages state's winter wheat crop.** A late-April freeze damaged some of northern Indiana's early progressing winter wheat crop, leaving growers to decide whether to let the crop yield or tear it up altogether, the Brazil Times reported May 9. While most of the crop survived near-freezing nighttime temperatures in April, it was the last freeze of the month that occurred while wheat was close to heading that caused the most damage. The most severe freeze damage to wheat comes when the crop is in growth stages between boot and flowering. The crop was in the boot to heading stages when the last freeze hit — prime time for problems.
Source: http://www.thebraziltimes.com/story/1847260.html

23. *May 8, Riverside Press-Enterprise* – (California) **Avocado-killing pest identified at UCR.** A University of California, Riverside researcher identified an Asian beetle that damaged avocado trees in the Los Angeles area, the Riverside Press-Enterprise reported May 8. The plant pathologist determined the beetle, called the tea shot hole borer, and the fungus it carries, fusarium, were the same ones that damaged commercial avocado groves in Israel. It was unclear how widespread the infestation was or how big a threat it might pose to California growers, he said. There is no known treatment for either the beetle or the fungus. Avocados are grown commercially in the hills near Temecula and in San Diego County. In 2010, Riverside County's crop was valued at $24 million. San Bernardino County growers raised about $1 million worth in 2010. An official with West Pak Avocado Inc. in Temecula said it is not possible to assess the threat yet. "It's not like wiping out the avocado," the plant pathologist said. "But it's causing severe damage."

Water Sector

24. *May 10, Associated Press* – (Virginia) **Chesapeake to pay state fine for 2 spills of partially treated drinking water.** Chesapeake, Virginia, will pay more than $7,700 in environmental fines for 2 spills of partially treated drinking water from a treatment plant, the Associated Press reported May 10. The city agreed to pay the fines under a proposed settlement with the Virginia Department of Environmental Quality. The water resources administrator said the water spills did not involve chemicals or other pollutants, but they were a violation of the city's permit. The spills occurred in April and July 2010. An unknown amount of partially treated water reached the Elizabeth River.
Source: http://www.therepublic.com/view/story/f78aac328e634812bf45a0f3f41236dd/VA--Water-Spill-Fine/

25. *May 10, WSAU 550 AM Wausau* – (Wisconsin) **Heavy rains cause sewage overflows.** Eighteen communities in east central Wisconsin reported sewage overflows or related problems as the result of heavy rains between May 3 and May 6. In Ripon, officials said more than 2 million gallons of partially treated wastewater were spilled into Silver Creek May 3. The city told the State department of natural resources it was trying to prevent flooding at its sewage treatment plant due to heavy flows. In Denmark, near Green Bay, about 150,000 gallons of partially treated sewage was pumped into Denmark Creek during 3 hours of overflows. The community had 1.8 inches of rain the previous 24 hours. Kewaunee said 150,000 gallons of sewage flowed into the Kewaunee River to prevent basement backups. Berlin reported 2 sanitary sewer overflows on a day when it recorded more than 4 inches of rain. Parts of east central Wisconsin had 4-and-a-half inches of rain May 3. Fond du Lac said it had one overflow incident May 6 when another big thunderstorm hit.

26. *May 10, MLive.com* – (Michigan) **Massive water leak, theft contribute to Flint water rate increases, officials say.** For more than a year, a massive break in a Flint, Michigan water main leaked millions of gallons of water underground before workers were able to detect and fix it, officials said May 10. Flint leaders estimated the recently repaired break cost more than $800,000 in lost water, not including the cost of repairs. In addition, the city estimated that more than 30 percent of the water it buys from Detroit is never billed for by Flint. Leaks, stolen water, and water to fight the city's high rate of structure fires are all included in the unmetered category. Flint's development and infrastructure director said there is no way to quantify how much

unmetered water is stolen, but he said his office has received numerous photos of cut meters as well as allegations of residents bypassing water meters or businesses stealing from hydrants. City officials list the water losses as one of many contributors to the 25 percent water and sewer rate increase that has angered Flint residents. The rate increase is expected to go into effect in June and follows two double-digit rate hikes in 2011. The cause of the massive water main break was still being investigated.

27. *May 9, U.S. Environmental Protection Agency* – (California) **EPA adds South Gate Industrial Facilities to list of nation's worst toxic sites.** The U.S. Environmental Protection Agency (EPA) added two new sites, the Southern Avenue Industrial Area site and Jervis B. Webb Co., to the Superfund National Priorities List in Los Angeles County, the EPA reported May 9. Both are former industrial facilities located in South Gate. In 2011, EPA proposed to add both sites to the list due to soil and groundwater contamination. Volatile organic compounds, including elevated levels of trichloroethylene (TCE) were confirmed in the soils and groundwater at the sites. About 1 million people are severely impacted by industrial activities and goods movement in the area. TCE contamination in the groundwater at Southern Avenue Industrial Area and Jervis B. Webb Co. was found at levels up to 17,000 parts per billion (ppb) and 35,000 ppb, respectively. The federal Maximum Contaminant Level for TCE in drinking water is 5 ppb. Although the drinking water supply wells immediately downgradient of the sites are located in a deeper aquifer and are not currently contaminated, because the aquifers are connected, there is the potential that drinking water wells may become contaminated. There are at least 35 drinking water wells within 4 miles of the site, serving about 226,000 people.

Public Health and Healthcare Sector

28. *May 10, Associated Press* – (National) **Report: Suspect billings at 2,600 drugstores.** May 10, the Associated Press reported that Medicare paid $5.6 billion to 2,600 pharmacies with questionable billings, including a Kansas drugstore that submitted more than 1,000 prescriptions each for 2 patients in just 1 year, government investigators found. A new report by the inspector general of the Health and Human Services department found the corner drugstore vulnerable to fraud, partly because Medicare does not require the private insurers that deliver prescription benefits to seniors to report suspicious billing patterns. The analysis broke new ground by scrutinizing every claim submitted by the nation's 59,000 retail pharmacies during 2009 — more than 1 billion prescriptions. Investigators were able to reveal contrasts between normal business practices and potential criminal behavior. "The findings call

for a strong response to improve (program) oversight," the report said. In written comments, a Medicare administrator said the agency mostly agrees with the inspector general's call to action.

29. *May 10, Los Angeles City News Service* – (California) **Northridge woman among 70 arrested in 'pill mill' raid.** Nearly 70 people, including physicians, were detained after local, State, and federal investigators raided a Los Angeles clinic suspected of selling prescriptions for the addictive painkiller Oxycodone, authorities said May 10. The raid on the Roscoe Van Nuys Medical Clinic was carried out by the Health Authority Law Enforcement Taskforce and involved personnel from the sheriff's department, the California Department of Justice, FBI, Drug Enforcement Administration, Internal Revenue Service, and Department of Health and Human Services, an official from the Los Angeles County Sheriff Major Crimes Bureau said. Patients and employees were detained and two of the patients were arrested for outstanding warrants during the raid. The clinic's manager was arrested on suspicion of conspiracy to commit a felony and conspiracy to furnish unlawful pharmaceuticals after authorities served a warrant at her home. The clinic, which authorities describe as a "pill mill" where addicts and dealers pay hundreds of dollars for prescriptions without being examined by a doctor, was searched and shut down in 2011, but it reopened with different doctors and was again operating illegally.

30. *May 9, WMTW 8 Poland Spring* – (Maine) **Patient records found in VA waste bin.** "Simple human error" led an employee of the Maine Veteran's Administration Medical Center in Togus to toss the medical records of a "small number" of patients into an office trash can instead of a recycling bin designated for shredding. The associate director of the Togus facility said May 8 that the mistake was discovered April 11 when an employee found the documents in an office trash can. The employee contacted a supervisor, who then sequestered the medical center's trash truck that takes items to the landfill. The trash truck was driven to the landfill, emptied, and employees sorted through the truck's contents to make sure no other records were there. The search turned up no additional records, and the documents found in the office waste bin were shredded as is standard practice to protect patient privacy.

31. *May 9, Windsor Locks-East Windsor Patch* – (Connecticut) **Man charged with starting fire at East Windsor health care facility.** A man was charged with arson after starting a fire May 8 that caused Kettle Brook Care Center in East Windsor, Connecticut, to be evacuated while fire departments put out the fire. Police and fire investigators determined the fire was started by igniting a cardboard box full of clothes. The man stated he started the fire because he did not like being there, police said. The fire was put out quickly because of a sprinkler system, but the south wing of the third floor suffered smoke damage and 22 residents were evacuated from the floor. Because

of water damage, 24 residents from the second floor also had to be evacuated. Emergency personnel spent about 4 hours on the scene moving residents around after the fire. Six rooms were damaged and deemed uninhabitable.

32. *May 10, Associated Press* – (North Carolina) **Personal information on North Carolina Charlotte students and faculty exposed.** The University of North Carolina Charlotte said bank account numbers and Social Security numbers of more than 350,000 students and faculty were accidentally exposed in a computer security breach. The university released results of a study May 9 after the breach was discovered by staff members in February. The university said part of the problem was improper access settings that made the electronic data accessible on the Internet. The information from the school's general system was exposed for about 3 months, and information from the engineering college was exposed for more than 10 years. State and federal officials continued to investigate how the breach occurred.

33. *May 9, Fort Worth Star-Telegram* – (Texas) **Richland Hills second-grader brings loaded pistol to school.** A second-grader who brought a loaded .22-caliber handgun to Richland Elementary School in Richland Hills, Texas, May 9 was caught when he dropped the gun on the floor of a classroom, officials said. "Other students saw the handgun and reported the gun to the teacher," police said in a news release. "The teacher then took the gun and student to the office where police were called." The student told officers the gun belonged to his mother's boyfriend, and he took it the night before. The student said he did not know why he brought the gun to school, according to the news release. Richland Hills police may pursue charges against the mother and the boyfriend for allowing the child to have access to the gun. The gun was found at "the end of the day," said a Birdville school district spokesman.

34. *May 9, Greeley Tribune* – (Colorado) **Whooping cough outbreak: Seven confirmed cases at University middle school.** The number of confirmed cases of whooping cough at University middle school in Greeley, Colorado, climbed to seven, including one teacher, leading school officials to ban all students who are not immunized from the building, the Greeley Tribune reported May 9. The school nurse said the number of confirmed cases continues to rise, and health department officials made several recommendations to the school to get the outbreak of the pertussis infection under

control. "The school sent home three letters Wednesday to different groups of students based on Weld County Department of Public Health and Environment's findings," said University Schools' director. One letter went to the parents of middle school athletes on the track team, which is where the health department believes the cases originated. Source: http://www.greeleytribune.com/article/20120509/NEWS/705099959/1007&parentprofile=1025

35. *May 9, CBS News* – (Missouri) **U.S. Senator gets security boost after threat.** A U.S. Senator from Missouri will receive increased security protection following a recent threat to her safety, the St. Louis County prosecuting attorney confirmed to CBS News May 9. The Senator was threatened by an activist at a rally event the week of April 30, according to the St. Louis Post-Dispatch. The county prosecuting attorney said the Kirkwood Police Department enacted "enhanced" security in the area where the Senator lives. The incident prompted the U.S. Capitol Police to contact the Kirkwood Police Department and the Senator's office, which led to the increased measures. Source: http://www.cbsnews.com/8301-503544_162-57430931-503544/mccaskill-gets-security-boost-after-threat/

36. *May 9, Miami Herald* – (North Carolina; International) **North Miami Marine arrested on tax-related fraud charges.** A U.S. Marine from north Miami was arrested May 8 on charges of selling the stolen identities of dozens of fellow soldiers in Afghanistan to a Broward County, Florida woman recently convicted of filing false income-tax returns in their names. The man was arrested at Camp LeJeune in North Carolina by agents for the FBI and the Naval Criminal Investigative Service (NCIS). Based at Camp Leatherneck in Afghanistan, the Marine used his mobile device to send text messages and e-mails to the woman with the names of other Marines in December 2011 and January, according to a criminal complaint. When NCIS agents searched his quarters at Camp Leatherneck, they seized a list containing the names and Social Security numbers of 44 U.S. Marines, according to the criminal complaint. Of those, 21 were on lists found by FBI agents in the woman's residence when they arrested her in February. Source: http://www.miamiherald.com/2012/05/08/2789799/a-north-miami-marine-arrested.html

Emergency Services Sector

37. *May 10, Knoxville News Sentinel* – (Tennessee) **Sheriff: Roane firefighter admits nine arson fires.** A longtime member of Knoxville, Tennessee's South Roane County Volunteer Fire Department confessed to starting a fire in the bedroom of the duplex he rented and to eight other arsons since 2010, the Knoxville News Sentinel reported May 10. At one time an assistant chief with the fire department, he was booted from the squad and faces potential criminal charges. All of the arsons occurred within the 100-square-mile area served by the volunteer fire department, and he either responded as a

firefighter or was nearby each time. Evidence of arson was found at the duplex fire, and the sheriff's office and an insurance investigator interviewed the former assistant chief and "found him to be responsible for the fire," said a news release from the sheriff's office.
Source: http://www.knoxnews.com/news/2012/may/10/sheriff-roane-firefighter-admits-nine-arson/

38. *May 10, Buffalo News* – (New York) **New 911 system to aid speed.** The Buffalo News reported May 10 a new 9-1-1 system that is being rolled out in Erie County, New York, over the next 12 months will speed the transfer of emergency cell phone calls to a local police or fire department. And for the first time, dispatchers at local emergency call centers outside the county's call center in Buffalo will see a map that can pinpoint the location of wireless callers as they move. Officials hoped that would mean officers and emergency responders throughout the county would get information more quickly as they respond to emergencies such as a heart attack or car crash. The $8 million project has been in the works for 3 years and will be paid for primarily through Homeland Security grants.
Source: http://www.buffalonews.com/city/communities/erie-county/article850086.ece

39. *May 9, WMTW 8 Poland Spring* – (Maine) **York County radio jamming stops.** The person responsible for jamming emergency radio transmissions in Maine's York County has apparently stopped, WMTW 8 Poland Spring reported May 9. The assistant chief of Lebanon's rescue department said the last interruption occurred April 22 when his transmissions were blocked as he responded to an emergency, delaying ambulance response. He said he immediately contacted the Federal Communications Commission (FCC) to try to track the source of the disruptions. The FCC said it has zero tolerance to emergency band jamming, which is against federal law and can draw steep fines. The assistant chief told the Portland Press Herald the jamming "stopped immediately." Transmissions were also jammed in North Berwick, Acton, Shapleigh, and Limerick in the past several months. The jamming was still under investigation.

40. *May 9, WJBK 2 Detroit* – (Michigan) **Detroit police officer finds powder in envelope.** May 9, an officer in Detroit's Schaefer police station opened an envelope sent through the U.S. Post Office and came into contact with a cloud of smoke. Police described the substance as a fine granulated powder. The station was immediately shut down. Detroit police and fire, as well as Homeland Security, set a perimeter and transported prisoners while three people were quarantined inside. Two police officers and one civilian were exposed to the powdery substance. Police said it was not a chemical weapon, so there were no immediate signs of irritation to the skin, eyes, or mouth, but it could not immediately be ruled out as a biological toxin.
Source: http://www.myfoxdetroit.com/dpp/news/local/detroit-police-officer-finds-powder-in-envelope-20120509-ms

41. *May 9, Redding Record-Searchlight* – (California) **Sewage problems close services at Redding Police Department.** Services like fingerprinting and property release

information were unavailable May 9 at the Redding, California Police Department due to a sewage problem at police headquarters, the agency announced. For the fourth time in the past 18 months, sewage has backed up at the department, flooding parts of the aging structure. The Redding police captain said plumbers are trying to figure out whether the sewage backup is due to a clogged line or whether the line broke. Areas where officers process evidence and test narcotics have had to be cleared out because of effluent contamination on the floor.

42. *May 7, Inland Valley Daily Bulletin* – (California) **Driver hospitalized after crashing into parked firetruck in Rialto.** A driver was injured May 7 when she hit a parked fire truck that was tending to a traffic collision in San Bernardino County, California. County firefighters were on scene of a two-vehicle traffic collision that was blocking 2 lanes of freeway in Rialto. The fire engine had its lights activated and was parked at an angle at the rear of the collision to block the vehicles from oncoming traffic. An unidentified female driver hit the right rear of the fire engine. Her vehicle became lodged under the engine and firefighters had to use the Jaws of Life to free her. She was transported to a local hospital with serious injuries. "In this incident, it's a good thing we were parked where we were at," a San Bernardino County Fire Department public information officer said. "That most likely saved the other people from being struck." This crash is the second incident in less than a month where a driver has struck a fire engine already on scene of a collision, she said.

Information Technology Sector

43. *May 10, IDG News Service* – (International) **Twitter blog post says company leaked no user data.** None of the recently leaked Twitter logins and passwords came from within the company, according to a message posted on Twitter's Japanese blog May 10. "We have confirmed that no one's information has been leaked from Twitter," the blog said, after apologizing to users for their concerns. The comments came after 58,978 login and password combinations were published May 7 to Pastebin, a Web site designed to share programming code but often used by hackers to show off stolen data. The company already said much of the account information posted was duplicates, unmatched log-in credentials, and spam accounts. In its Japanese blog posting, Twitter said account data was likely leaked from a different site, and it sent password reset requests to users on the list. It also warned users to avoid "fishing" Web sites, which try to con log-in information out of unwary users, and to use strong passwords that are unique for separate sites.

http://www.computerworld.com/s/article/9227040/Twitter_blog_post_says_company_leaked_no_user_data

44. *May 10, H Security* – (International) **Apple closes numerous holes in Mac OS X and Safari.** With the 10.7.4 Mac OS X Lion update and security update 2012-002 for 10.6, Apple closed numerous critical vulnerabilities in Mac OS X and its components. The most prominent fix in this update stops Lion from storing plain text passwords. Due to a mistake in the previous update, Lion stored the passwords of users who mounted their home/user directory from a network volume in the system log unencrypted and readable by anyone with administrative or physical access. Those who continued to use the first version of the FileVault encryption after upgrading from Snow Leopard to Lion were also affected. Further vulnerabilities were fixed in components such as the LoginUIFramework, where a race condition allowed guest users of Lion to log in as another user without having to enter a password. Apple also closed a hole in the HFS filesystem that allowed Lion systems to be infected with malicious code by mounting a specially crafted disk image. Curl is now protected against problems such as the "BEAST" attacks on encrypted connections. One fix, specifically for Mac OS X 10.6, Snow Leopard, is for the Samba server which, if active, allowed remote attackers to inject malicious code into a system without providing any valid access credentials. The Samba server is not a user in Mac OS X 10.7. Apple also released a security update for its Safari browser for Mac OS X and Windows.
Source: http://www.h-online.com/security/news/item/Apple-closes-numerous-holes-in-Mac-OS-X-and-Safari-1572174.html

45. *May 10, H Security* – (International) **Critical vulnerability in vBSEO patched.** The developers of the vBSEO extension to the vBulletin forum software closed a critical vulnerability in their plugin. The vBSEO plugin adds search engine optimization (SEO) functionality to the vBulletin core code. The vulnerability — a SQL injection flaw that allows attackers to execute commands and manipulate the contents of the forum's database — comes only a short time after the developers patched another flaw, which was recently misused to attack online forums en masse. Affected users can download the patched versions of 3.3.x, 3.5.x, and 3.6.0 from the download area of the vBSEO Web site. The vBSEO forum also provides instructions on how to close the security hole manually. Since an exploit was already found in the wild, users should update their installations immediately.
Source: http://www.h-online.com/security/news/item/Critical-vulnerability-in-vBSEO-patched-1572141.html

46. *May 9, Infosecurity* – (International) **Research uncovers IRC bot malware for Android.** McAfee Labs researchers discovered Android malware that acts as an Internet relay channel (IRC) bot. The Android malware, which masquerades as the Madden NFL 2012 video game, has three embedded modules that perform various malicious activities, explained a researcher with McAfee Labs. The main component is a dropper that installs a set of other components — a rooting exploit, IRC bot, and SMS trojan — onto the compromised Android device. The researcher warned that if the user of a compromised Android device receives a message from his/her bank using a two-way authentication code, that message along with the mobile number is sent to the remote attacker, who can use it to compromise bank transactions.
Source: http://www.infosecurity-magazine.com/view/25673/research-uncovers-irc-bot-malware-for-android/

47. *May 9, Network World* – (National) **Security of industrial control systems questioned at DHS conference.** Operators of America's power, water, and manufacturing facilities use industrial control systems (ICS) to manage them. However, the security of these systems, increasingly linked with Microsoft Windows and the Internet, is now under intense scrutiny because of growing awareness that they could be attacked and cause massive disruptions. Industrial facility operators are making efforts to follow security procedures, such as using vulnerability-assessment scanning tools to check for needed patches in Windows. However, ICS environments present special problems, said managers who spoke on the topic at a conference organized by the DHS. Currently, energy and manufacturing facilities are being openly warned by DHS and its Industrial Control Systems Computer Emergency Response Team that they are being targeted by attackers who will often try to infiltrate business networks, often through spear phishing attacks against employees, in order to also gain information about ICS operations.

48. *May 9, National Journal* – (International) **ICANN sets target date for re-opening database.** The Internet Corporation for Assigned Names and Numbers (ICANN), the group that runs the Internet's address system said it is aiming to re-open the application process for those seeking to launch a new domain name by May 22. If it meets this goal, ICANN said the application process would remain open for 5 business days, not counting Memorial Day, and would close May 30. ICANN shut down its application database in April after discovering a glitch that exposed some information about applicants. The group denied its system was hit by a cyberattack. ICANN said it took the database offline to find out what caused the problem and to ensure it would not happen again. The week of April 30, ICANN said that of the 1,268 registered users and 95,000 file attachments in the applications system, about 455 might have been viewed by another applicant. An ICANN spokesman said the group is trying to review all the relevant data before re-opening the application process. It launched its program in January allowing for the introduction of almost any new top-level domain name to compete with the 22 existing generic domain names. The application process for the program was originally scheduled to close April 12. ICANN eventually suspended the application process after discovering the database problem.

49. *May 10, Detroit Observer and Eccentric* – (Michigan) **Bed bug treatment forces evacuation of apartments.** Residents of an apartment building in Garden City, Michigan, were evacuated and the Wayne County HAZMAT team called out after several people experienced reactions to chemicals used by an exterminator hired by a tenant to treat a bed bug problem, the Detroit Observer and Eccentric reported May 10. According to the Garden City fire chief, tenants were not told about the extermination and the tenant who had been told by the exterminator not to open the door to the apartment for 3 hours, opened it after only 30-45 minutes. A mail carrier in the building experienced queasiness and trouble breathing, and a woman from the building experienced a more severe reaction that included vomiting, and was taken to a hospital.

50. *May 9, Montana Standard* – (Montana) **Two vehicles set on fire at Butte dealership.** Vehicles at a Butte, Montana dealership were set on fire May 9. Two vehicles were set on fire and a third fire was attempted on another vehicle in the rear lot of Brooks Hanna Ford. Butte police and firefighters responded to the scene after receiving a 9-1-1 call. Windows were broken out of the vehicles and some type of accelerant was used to start the fires inside the cars, according to police.

51. *May 9, Charleston Gazette* – (West Virginia) **Super 8 motel in Dunbar shutting down for meth contamination.** The Super 8 motel in Dunbar, West Virginia, shut down temporarily while crews checked for methamphetamine contamination, the Charleston Gazette reported May 9. The State program coordinator for the Clandestine Drug Laboratory Rehabilitation Program said a meth lab was discovered at the motel several weeks ago and motel staff asked to have adjoining rooms tested for meth contamination. Tests showed additional contamination, so the rest of the motel was being tested as a precaution. The program coordinator said the motel should reopen in about a week.

52. *May 9, KTVT 11 Fort Worth* – (Texas) **FBI takes lead in white powder investigation after 9th found.** May 9, the FBI took lead of the investigation into 9 white powder scares in 2 days in north Texas cities. The latest suspicious package was found at the Mi Escuelita Preschool in Dallas. This marks the seventh Headstart school in 2 days

targeted with envelopes containing a "white powdery" substance. An employee of the Mi Escuelita Headstart school opened the mail May 9 when she noticed a white substance spill out of one of the envelopes. Employees said the envelope did not have a return address. Dallas police secured the scene while Plano's HAZMAT team was called in to handle the envelope. Officials evacuated the building where the envelope was opened, including a classroom with 18 children. Schools in Mesquite, Garland, and Irving received similar suspicious mailings. Two other locations, including a church, also received envelopes. All of them were determined to be non-hazardous.

53. *May 8, KGUN 9 Tucson* – (Arizona) **Wildfire burning near Parker Canyon Lake.** The School Canyon Fire near Parker Canyon, Arizona, rushed to 7,700 acres by May 8 — 1,200 acres in the United States, the rest on the Mexican side of the border. The U.S. Forest Service rushed to attack the fire with aircraft and firefighters on the ground. Two large helicopters were involved in the response, along with four heavy air tankers, two small air tankers, and two planes to help guide and coordinate the drops. By May 9, the Cochise County Sheriff's Office said the fire was 75 percent contained and crews were working on hot spots and mop up. The Parker Canyon Lake campground was evacuated as a precaution, but no structures were damaged. It is now a base camp for the firefighters. Investigators said the fire was human-caused.
Source: http://www.kgun9.com/news/local/150725565.html?hpt=us_bn7

54. *May 8, Associated Press* – (Arizona) **State, feds impose fire bans in So. Arizona.** State and federal land managers imposed bans on open fires and other activities across much of southeastern Arizona because of high fire danger. Orders from the federal Bureau of Land Management and the Arizona State forester took effect May 7. They ban fires outside developed campgrounds, smoking outside a building or vehicle, welding, and off-road driving. The orders cover BLM-managed federal lands in Pima, Pinal, Cochise, Santa Cruz, Graham, Greenlee, Apache, and Navajo counties, and parts of Gila County. A severe fire season in the southwestern United States was predicted because of an ongoing drought. Exceptionally hot and dry weather has already led to numerous wildfires in southeastern Arizona. The largest consumed more than 1,000 acres.

Dams Sector

55. *May 10, Times of Northwest Indiana* – (Indiana) **Work on Little Cal levee system continues.** The Little Calumet River Basin Development Commission focused on maintenance and getting the final phases of a flood protection project near Gary, Indiana, completed at a meeting May 9. Pumps and gauges along the Little Calumet River are working properly and the U.S. Army Corps of Engineers said trees within 15 feet of the levee system have been removed. Crews planned to establish turf from the Northcote Bridge to Columbia Avenue in Munster, May 10. An earlier inspection by the Corps found a portion of the berm from Northcote to Columbia Avenue is too wide, so crews planned to make reductions. The executive director told the commission they were working with officials from Lake Station and Hobart as part of the panel's commitment to examine flooding issues in the entire Lake County watershed. The commission authorized the director to request bids for large repair projects in Gary where a portion of the levee system is now considered deficient.
Source: http://www.nwitimes.com/news/local/lake/work-on-little-cal-levee-system-continues/article_5a7cc5a6-7fe2-5825-8d58-663e7d161025.html

56. *May 10, Nashville Tennessean* – (Tennessee; Kentucky) **Priest Lake levels dip to lowest ever for spring.** The warm, dry spring has taken its toll on the Cumberland River Basin in Tennessee. J. Percy Priest Lake was 3.7 feet below normal, its lowest level ever for this time of year, the U.S. Army Corps of Engineers reported, and Lake Barkley in Kentucky was 2.8 feet below normal, the Nashville Tennessean reported May 10. The low lake levels mean less water flows downstream into the Cumberland River, which could cause problems for power generation, water treatment, and river navigation, experts said. It also could harm fish and means boaters during the summer of 2012 should be on the lookout for hazards. The low levels at J. Percy Priest Lake stopped power generation at the dam, said the Corps' chief of hydrology and hydraulics in Nashville. The Corps reduced the flow of water out of the lake to a minimum, about 20 cubic feet of water per second. The Nashville area has had 14.3 inches of rain in 2012, more than 3 inches below normal. Less water means water temperatures rise more quickly, reducing oxygen levels and making the environment more harsh for fish and other wildlife. The higher temperatures also mean more treatment is needed before the water becomes drinkable. For instance, more severe drought conditions in 2007 and 2008 resulted in interruptions to water service along with odor problems at water treatment facilities.

1. *August 3, Portland Press Herald* – (Maine) **J&S Oil faces federal sanctions, fine over oil spill.** J&S Oil in Manchester, Maine, faces federal sanctions, including a potential fine of up to $177,500, as the result of a March incident in which some 1,500 gallons of oil spilled onto the ground and spread to a neighboring property and drainage ditches. August 2, the Environmental Protection Agency (EPA) said it filed a complaint against the family- and employee-owned business. The company, which has offices in Manchester and Winslow, is accused of failing to maintain and fully implement an oil spill prevention plan, failing to provide secondary containment to prevent such spills from spreading, failing to maintain adequate training records, and failing to provide adequate security.

2. *August 2, Associated Press* – (California) **Gas pipe ruptures near site of 2010 Calif. blast.** More than a dozen homes were evacuated August 1 after a 2-inch plastic gas pipe ruptured in the San Bernandino, California suburb where a pipeline explosion killed eight people in 2010. The distribution main line burst when a private contractor working for the city of San Bruno struck the pipe with a backhoe. Pacific Gas & Electric crews were on-scene and stopped the gas flow in less than half an hour, a spokeswoman said. She added the line was not fitted with excess flow valves, which are designed to trip automatically when there is a break in a distribution line, the narrow-diameter pipes that serve individual homes and businesses.

3. *August 1, Reuters* – (Wisconsin; Illinois; International) **Canada's Enbridge says has repaired oil line after leak.** August 1, Enbridge Inc said it completed repairs on a ruptured pipeline from Canada that was shut for 5 days following an oil leak in rural Wisconsin. The leak was not particularly large, but it came at a sensitive time for the Canadian firm, which has suffered a series of leaks in recent years and is embarking on a massive expansion program. Earlier August 1, Enbridge said it submitted a plan to U.S. regulators seeking permission to restart the pipeline, though it was unclear how long it would take to get approval. July 31, the U.S. Department of Transportation Pipeline and Hazardous Materials Safety Administration issued a so-called corrective action order that blocked Enbridge from resuming operations on the pipeline, which carries light crude to Chicago-area refineries, until certain conditions were met.

4. *August 1, Associated Press* – (Virginia) **Hopewell chemical plant fined, agrees to improve pollution controls under agreement with US.** A Hopewell, Virginia chemical plant agreed to pay a $175,000 fine for alleged air pollution violations, the Associated Press reported August 1. Under the agreement with federal officials, Hercules Inc. also agreed to add $200,000 in pollution controls. The Richmond Times-Dispatch reported the plant did not adequately limit emissions of chemical pollutants and it had an inadequate system for detecting leaks. The primary chemical was methanol, which can cause blurred vision, dizziness, and other problems.

5. *August 2, U.S. Department of Labor* – (Illinois) **U.S. Department of Labor's OSHA cites A. Finkl and Sons in Chicago for 26 safety violations, including failing to maintain cranes.** The U.S. Department of Labor's Occupational Safety and Health Administration (OSHA) issued a news release August 2 citing specialty metal forgings producer A. Finkl & Sons Co. with 26 safety violations at the company's Chicago facility, including 2 willful violations that involved failing to provide fall protection around open pits and rectify multiple hazards found in crane inspections. Proposed penalties totaled $352,700. OSHA initiated an inspection after receiving a complaint alleging that cranes used in the facility were in disrepair, including having malfunctioning hoisting brakes, and that powered industrial trucks were being operated by untrained workers. Specifically, the willful violations were due to failing to ensure open pits were guarded by standard railings and/or covers to protect employees from falling in, and failing to correct deficiencies identified by crane inspections such as missing bolts, inoperable radio controls, and problems with bridges, trolleys, and main hoist brakes. Twenty-two serious violations, one repeat violation, and one other-than-serious violation were also cited.

6. *August 2, U.S. Consumer Product Safety Commission* – (National) **Sears recalls Kenmore dehumidifiers due to fire and burn hazards.** The U.S. Consumer Product Safety Commission, in cooperation with Sears and Kmart, August 2 announced a voluntary recall of about 795,000 Kenmore dehumidifiers. Consumers should stop using recalled products immediately unless otherwise instructed. The dehumidifiers can overheat, smoke, melt, and catch on fire, posing fire and burn hazards to consumers. Sears received 107 reports of incidents, with more than $7 million in property damage and 3 reports of smoke inhalation injuries. The dehumidifiers were sold at Sears and Kmart stores nationwide and Sears.com and Kmart.com from 2003 to 2009.

8. *August 3, Bloomberg News* – (National) **Bristol-Myers insider arrest followed probe of deal.** A U.S. Securities and Exchange Commission (SEC) probe, prompted by suspicious circumstances surrounding Gilead Sciences Inc.'s announcement that it was buying Pharmasset Inc. for $11 billion, resulted in the arrest of a Bristol-Myers Squibb Co. executive August 2. The man was charged with making $311,361 in illegal profit by buying stock options in three pharmaceutical companies targeted for acquisition. The SEC is continuing its probe, and the Department of Justice also joined the investigation. The executive held high-level jobs including executive director of pensions and savings investments and assistant treasurer for capital markets. He helped the New York-based drugmaker evaluate whether to buy targeted companies, according to the FBI arrest complaint. As he conducted due diligence on pension and savings plans of those companies, he bought options in all three based on insider information. The chief of the SEC's Market Abuse Unit said the SEC is concerned about the "apparent epidemic of insider trading involving the securities of pharmaceutical and healthcare companies."

Source: http://www.businessweek.com/news/2012-08-03/bristol-myers-insider-arrest-followed-probe-of-deal#p1

9. *August 2, The Register* – (National) **New target for 419 fraudsters: Struggling 'weak' banks.** Desperate banks have become the target for so-called 419 advance-fee fraud scams, The Register reported August 2. Banks on the Federal Deposit Insurance Corporation's (FDIC) Problem Bank List have been targeted as they might be prepared to take the risk because poor profits and earnings outlooks that deter traditional investors, the Problem Bank List blog warned. The FDIC issued an alert saying it became aware of individuals or purported investment advisers approaching weak institutions in attempts to defraud them by claiming access to funds for recapitalization. The scheme requires banks to pay fees in advance, and, once paid, the parties involved failed to conduct due diligence or actively pursue the proposed investment.
Source: http://www.theregister.co.uk/2012/08/02/struggling_us_banks_warned_over_419_scams/

10. *August 2, Associated Press* – (National) **IRS missing billions in ID theft.** The Internal Revenue Service (IRS) may have delivered more than $5 billion in refund checks to identity thieves who filed fraudulent tax returns for 2011, Treasury Department investigators said August 2. They estimated another $21 billion could make its way to ID thieves' pockets over the next 5 years. The IRS detected far fewer fraudulent tax refund claims than actually occur, a government audit stated. Although the IRS detected about 940,000 fraudulent returns for 2011 claiming $6.5 billion in refunds, there were potentially another 1.5 million undetected cases of thieves seeking refunds after assuming the identity of a dead person, child, or someone else who normally would not file a tax return. Topping the list of concerns was the IRS's lack of timely access to third-party information it needs to verify returns and root out fraud. Due to the gap between when taxpayers can start filing returns and when employers and financial institutions are required to submit withholding and income documents to taxpayers, the IRS often issues refunds before it can confirm the information on the returns. Of the 1.5 million undetected cases of potential fraud, 1.2 million used direct deposits.

Transportation Sector

11. *August 3, Associated Press* – (West Virginia) **Coal train derails in southern W.Va. town.** Crews cleaned up the scene of a bridge collapse and coal train derailment in a Raleigh, West Virginia, August 2. WVNS 59 Lewisburg quoted CSX officials as saying the train had 4 locomotives and 75 freight cars carrying coal, and 6 of those cars derailed. The bridge on which the train was traveling collapsed and coal spilled into a creek below. Crews worked for several hours to clean up the creek and roadway.

12. *August 2, Chicago Tribune* – (Illinois) **Survivor of fatal Megabus crash 'just woke up to screaming'.** One person was killed and dozens of others were injured when a double-decker Megabus bound from Chicago smashed into a concrete pillar of an overpass on Interstate 55 August 2, State police said. The bus, with about 64 passengers listed on the manifest, apparently blew a tire and skidded into the center pillar near Litchfield, Illinois, about 60 miles north of St. Louis, shutting down I-55 in both directions between the Carlinville and Litchfield exits. As many as half the people on the southbound bus were injured, according to a State Police captain. Four to five of the injured were trapped and had to be extricated, including one who later died, he said. Thirty ambulances and five medical helicopters responded.
Source: http://articles.chicagotribune.com/2012-08-02/news/chi-megabus-from-chicago-crashes-into-i55-overpass-20120802_1_fatal-megabus-crash-southbound-bus-double-decker-bus

13. *August 2, Chicago Sun-Times* – (Illinois) **O'Hare closes terminal for two hours because of 'suspicious item'.** The Chicago Sun-Times reported August 2 that the Transportation Safety Administration (TSA) ordered the upper-level doors closed at Terminal 2 after finding a "suspicious item," said a spokeswoman for the Chicago Department of Aviation. Chicago Police determined the item to not be a threat, and screening operations resumed about 2 hours later, a TSA spokesman said in a statement. A TSA canine team alerted agents to the item and Chicago Police established a safety perimeter that impacted security checkpoint operations in Terminal 2, the spokesman said. The doors were secured and security checkpoints were closed, but the terminal was not evacuated. Passengers were re-directed to Terminal 1 for security screenings and deplaning, a Department of Aviation spokesman said. July 30, a bomb threat temporarily closed San Antonio International Airport. A TSA spokesman said it was too soon to speculate on any possible relationship between the incidents.
Source: http://www.suntimes.com/news/metro/14188613-418/tsa-closes-ohare-terminal-because-of-suspicious-item.html

14. *August 2, Associated Press* – (Washington, D.C.) **FAA: 3 jets over DC never on collision course.** None of the commuter jets that flew too close together near Washington, D.C., July 31, were ever on course to collide head-on with the others, federal officials said August 2. During a news conference, the U.S. Transportation Secretary strongly disputed media reports characterizing what happened near Ronald Reagan Washington National Airport as a near-miss. "At no point were the three aircraft on a head-to-head course. They were not on a collision course," said an administrator of the Federal Aviation Administration (FAA). However, the FAA said in a statement that it "is investigating the incident and will take appropriate action to address the miscommunication." The National Transportation Safety Board said it was also reviewing what happened. The jet problem occurred July 31 after a miscommunication between a manager at Potomac Consolidated Terminal Radar Approach Control and two traffic management coordinators at the airport, the administrator said. The exact nature of the miscommunication was not immediately

clear, but there was apparently a failure on both ends to follow standard procedure.
Source: http://www.krmg.com/ap/ap/business/faa-3-jets-near-dc-were-never-on-collision-course/nP87c/

15. *July 30, Boston Globe* – (Massachusetts) **MBTA hosting controlled gas, particle testing this week.** Scientists fanned out through the Massachusetts Bay Transportation Authority (MBTA) the week of July 30 to release and trace the movement of nontoxic, odorless gases and particles in a federal experiment to simulate and understand how contaminants might move through the subway in a chemical or biological terrorist attack. The research expands on previous studies of subway airflow in Boston in 2009 and 2010, with the tests this time examining not just how gases and particles move underground, but also how they might flow out of subway tunnels and stations to city streets, said a program manager for DHS' Science and Technology Directorate. Near the site of their release, the plumes of gas and particles may appear as a fine mist, but otherwise they will be invisible and harmless to riders as they flow through the subway system, officials said. The testing, which began July 30 and will continue through the end of the week, is being done at off-peak hours and should not disrupt commuters.

Agriculture and Food Sector

17. *August 3, Syngenta* – (National) **Stinkbugs continue to plague soybeans across the U.S.** Various stinkbug species are spreading quickly throughout the United States, Syngenta reported August 3. Growers as far apart as Louisiana and Nebraska say 25 to 35 stinkbugs are being reported per 100 sweeps, putting the health and yield of soybean plants in jeopardy. Soybean fields can quickly become the feeding ground for many different species of stinkbugs; the most common and damaging species include the green, the southern green, and the red-banded species, all of which continue to be found across the United States. In addition to the traditional species, a new stinkbug known as the brown marmorated stinkbug is being reported in various States across the country, and it is already a serious pest in vegetables and farm crops in the mid-Atlantic region.

When stinkbugs invade a field, they remove fluids from soybean plants by feeding on the stems, foliage, blooms, and, most importantly, the developing pods and beans, causing significant damage to the quality of the soybeans and ultimately to the yield. Source: http://www.agprofessional.com/news/Stinkbugs-continue-to-plague-soybeans-across-the-US-164623026.html

18. *August 2, U.S. Department of Agriculture* – (National) **Small drought assistance and more disaster counties.** The U.S. Agriculture Secretary announced two new pieces of disaster assistance for farmers and ranchers impacted by the nation's worsening drought, the U.S. Department of Agriculture (USDA) announced August 2. First, he is expanding emergency haying and grazing on approximately 3.8 million acres of conservation land to bring greater relief to livestock producers dealing with shortages of hay and pastureland. Second, the Secretary announced that crop insurance companies agreed to provide a short grace period for farmers on insurance premiums in 2012. As a result, farming families now have an extra 30 days to make payments without incurring interest penalties on unpaid premiums. August 1, the Secretary signed disaster designations for an additional 218 counties in 12 States as primary natural disaster areas due to damage and losses caused by drought and excessive heat. Source: http://www.agprofessional.com/news/Vilsack-announces-new-drought-assistance-164602406.html

19. *August 2, U.S. Food and Drug Administration* – (National) **Burch Equipment LLC expands cantaloupe recall due to possible health risk.** Burch Equipment LLC, of North Carolina, expanded their cantaloupe recall initiated July 28, the U.S. Food and Drug Administration (FDA) reported August 2. The firm voluntarily recalled 13,888 cases of whole Athena variety cantaloupes and 581 bins of Athena variety cantaloupes due to the potential for being contaminated with Listeria monocytogenes. Melons affected by this recall total 188,902. The whole Athena variety cantaloupes were shipped between July 15-27 and distributed to retail stores operating in Florida, Georgia, Illinois, Maryland, North Carolina, New Jersey, New York, Pennsylvania, South Carolina, and Virginia. The FDA and the North Carolina Department of Agriculture were working with Burch Equipment LLC following a random sample of an Athena variety cantaloupe testing positive for Listeria monocytogenes. The recall expansion was based on unsanitary conditions found at the cantaloupe packing shed during FDA's ongoing inspection that may allow for contamination of cantaloupes with Listeria monocytogenes.

20. *August 2, U.S. Department of Agriculture Food Safety and Inspection Service* – (National) **Wisconsin firm recalls frozen bacon cheeseburger patties that may contain foreign materials.** Kenosha Beef International, Ltd., a Kenosha, Wisconsin establishment, recalled approximately 37,600 pounds of frozen bacon cheeseburger patties because they may contain foreign materials — pieces of gasket material, the U.S. Department of Agriculture's Food Safety and Inspection Service (FSIS) announced August 2. The products subject to recall include 2 pound cartons containing six patties of Sam's Choice Fireside Gourmet Black Angus Beef Patties Bacon and Aged Cheddar. All products were produced June 11. The products were distributed in

Indiana, Maine, North Carolina, Ohio, Pennsylvania, South Carolina, and Wisconsin. FSIS was alerted to the problem by the firm after the company received a consumer complaint.

Water Sector

21. *August 2, Deer Park - North Babylon Patch* – (New York) **Sewer study finds extensions could cost more than $2 billion.** The Suffolk County Department of Public Works (DPW) in New York released more findings from its Southwest Sewer District Expansion Feasibility Study, including the revelation the project could cost more than $2 billion without grants or outside funding, the Deer Park - North Babylon Patch reported August 2. The expansion of the sewer district would affect areas including Deer Park, North Babylon, West Babylon, West Islip, and Wyandanch. A July 31 meeting, the second in 2012 focused on the study, found the areas in most need, called "Tier 1" by officials, would account for nearly 53 percent of the overall estimated cost for the system expansion at an estimated $1.106 billion. The tier included mostly areas from North Babylon and Wyandanch, the costliest being an area bordering the two areas at an estimated $235 million. For the entire area in question to be added to the Southwest Sewer District, the DPW would have to run pipes throughout the entire area able to support roughly 12 to 16 million gallons per day. Tier 1 alone would use up 5.9 to 7.9 million gallons a day out of that total. The Bergan Point Sewage Facility is currently being expanded in preparation for a potential district expansion. Officials also released an estimated timetable if the project was given the go-ahead later in 2012. For areas in the top Tier 1, the entire process from legal processes to completion of construction would take until May 2021.

22. *August 2, Visalia Times-Delta / Tulare Advance-Register* – (California) **Tulare County ends closure of the Kings River.** Public health officials in Tulare County, California, began removing signs warning people to stay out of the Kings River after determining August 2 that it was safe to swim there following a sewage spill earlier in the week of June 30. "What happened is mid afternoon we got results from the lab â€ ¦ and we can confirm at this time the levels [of bacteria] are under the threshold they have to be for recreational water," said a Tulare County Health and Human Services Agency (HHSA) spokeswoman. HHSA officials banned recreational activities in the river, which runs along the county's northwest border, after untreated sewage traveling through pipes to the City of Reedley Wastewater Treatment Plant backed up July 30 and flowed out a manhole at city park. Sewage, which included urine and fecal matter, flowed into the Kings River, about 150-200 feet from the manhole. The Kings River flows west along the borders of Tulare and Fresno counties, and into Kings County. Reedley officials said a computer software glitch caused the entire plant to shut down after hours — along with an alarm system to notify employees of the problem — and the backup of

raw sewage was not stopped until after people arrived for work July 31.

23. *August 1, WCVB 5 Boston* – (Massachusetts) **Boston Water and Sewer Commission warns of possible customer info leak.** Boston Water and Sewer Commission officials said customer information could have been leaked due to a missing hard drive, WCVB 5 Boston reported August 1. Officials said contractor Aclara Technologies notified them that a hard drive that could contain the Commission's water and sewer account information was missing. Aclara was using the information to update the Commission's remote meter reading system, according to a Commission news release. At most, the missing hard drive contains customer names, addresses, phone numbers, account and meter numbers, and other information that is otherwise publicly available, according to the release. The hard drive did not contain any Social Security numbers, financial data, or state license or identification numbers, officials said. Officials said it was unlikely the missing hard drive would lead to any misuse of customers' personal information.

24. *August 3, Jeffersonville News and Tribune* – (Indiana) **Investigation into health facility break-in continues.** A safe containing personal and financial information belonging to patients of Kindred Transitional Care and Rehabilitation in Sellersburg, Indiana, was stolen during a break-in at the facility between June 1 and June 4, according to a statement released by Kindred officials. The safe contained tapes listing patients' information, including Social Security numbers, diagnosis, dates of birth, home addresses, insurance numbers, dates of care, medications provided, and bank account numbers. A Clark County Sheriff's Department spokesperson said it did not appear there was any forced entry made into the office where the safe was located, but drawers in the room did appear to be have been forcefully opened. He said deputies monitored the compromised names to see if the suspect or suspects would attempt to steal any of patients identities, but it appeared no attempts were made.

25. *August 2, Dallas Morning News* – (Texas) **Structural damage temporarily closes parking garage at Dallas County criminal courthouse.** One of the parking garages used by those going to the Frank Crowley criminal courthouse just outside downtown

Dallas temporarily closed. A Dallas County spokeswoman said the garage closed July 31 and was "expected to be closed the entire [week of August 6]." The garage has structural problems that also led to its partial closure in April 2011. Engineers were working on correcting "structural problems with the shoring." In the meantime, the spokeswoman said the county is asking people to consider using public transportation or getting a ride to the courthouse or postponing any business they have there.

26. *July 31, Associated Press* – (South Dakota) **SD college student pleads guilty to making threats.** A South Dakota college student accused of threatening to shoot people on campus and burn down a dean's house said he never intended to harm anyone. He appeared in court July 30 and pleaded guilty to making a terroristic threat at the South Dakota School of Mines and Technology. Under terms of the plea agreement, prosecutors recommended local jail time and probation, along with a psychological evaluation. The decision on punishment rests with the judge, who could impose up to 5 years in prison and a $10,000 fine. Authorities said the student left a letter at the student union April 17 containing the threats and that he signed it BTK, the signature of a Kansas serial killer.

27. *July 30, KOIN 6 Portland* – (Oregon) **Pesticide leak prompts hazmat callout at Ore. Water Science Center.** A chemical leak at a building in downtown Portland, Oregon, lead to a HAZMAT response July 30. Portland Fire & Rescue (PF&R) reported that the spill occurred at the U.S. Geological Water Science Center. According to PF&R, a person was combining 30 pesticide chemicals together in a "mixing vessel" when an unknown amount leaked onto the person's hand and into the air. The area around the spill was evacuated as a precaution. It was determined only one person was exposed to the chemicals. That person was "decontaminated" by a PF&R hazmat crew before being transported to a local hospital for evaluation. Several hours later, crews were still working to clean up the spill.

28. *August 3, New England Cable News* – (Vermont) **Vt. man crushes police cars with family tractor.** A man is accused of single-handedly leaving a path of destruction at one police station in Orleans County, Vermont. The suspect will be in Orleans County criminal court August 3, charged with crushing cars under a tractor. Police said the man took his family's farm tractor and ran over seven police cars in the Orleans County sheriff's department parking lot August 2. The suspect was allegedly seeking revenge after being arrested for resisting arrest after being caught with marijuana earlier. The man faces seven counts of unlawful mischief, as well as leaving the scene of an

accident, among other charges. He is being held on $15,000 bail.

29. *August 3, Chicago Tribune* – (Illinois) **Jail officer accused of punching suspect.** A veteran correctional officer at the Cook County Jail in Chicago was charged with official misconduct after a security camera caught him punching a detainee in the face in an unprovoked attack in June, authorities said August 2. The victim was knocked to the floor and needed stitches for a cut to the inside of his mouth, authorities said. The officer, a 12-year veteran, turned himself in August 2 and was released on $10,000 bond. According to prosecutors, the victim left the bullpen in the jail's Division 5 receiving area to obtain a phone number from property of his that was already inventoried. He stopped at a desk where the correctional officer was stationed to ask him where the property was kept. As the victim walked away, he told him to return to the bullpen, issuing a verbal warning, prosecutors said. As he stepped from his desk, the victim turned around and started to walk back toward the bullpen, prosecutors said. However, the officer struck him in the face, knocking the victim to the floor, and bloodying his mouth, they allege.

30. *August 3, Clare County Review* – (Michigan) **Clare County 911 server issues becoming serious.** The 9-1-1 service in Clare County, Michigan, has had issues as the area's 9-1-1 Central Dispatch has been increasingly suffering from network problems with their computers over the past 3 months. The Central Dispatch director and IT director spoke to the Clare County Board of Commissioners on the issue August 1 during its Committee of the Whole meeting. They believe the issues stem from a software issue in the network's server. The IT director added that while they have alternatives, process is slower and the outages need to be dealt with. The Central Dispatch director said most of the outages have been occurring for several hours during the early morning. He added that when the network becomes disrupted, it becomes impossible for dispatchers to track the locations of emergency responders, for police to run the license plates of anyone pulled over, or for the system to be used to switch traffic lights to green to allow emergency vehicles a faster route to those in trouble.

33. *August 3, Help Net Security* – (International) **Google Play updates developer policies to tackle rogue apps.** Unlike Apple, Google never instituted a vetting process for the applications submitted to its Android app store, Google Play. Instead, the company relies on Bouncer — an automated app scanning service that analyzes apps by running them on Google's cloud infrastructure and simulating how they will run on an Android device — to catch and ban malicious apps and developers. Recently, however, Bouncer has been unable to detect a number of bad apps. As a result, Google announced it will tighten its app developer policies in an effort to crack down on rogue and potentially malicious apps that proliferate on Google Play.

34. *August 2, The H* – (International) **Opera 12 update closes important security holes.** The first maintenance update to version 12 of the Opera Web browser was released closing four important security holes. The first of these is rated as critical by the company and affects all supported platforms. According to Opera, certain URL constructs can cause its browser to allocate the incorrect amount of memory for storing the address; this can be exploited by an attacker to overwrite unrelated memory with malicious data, possibly leading to the execution of arbitrary code. Opera 12.01 addresses two high-severity errors that could lead to cross-site scripting (XSS) attacks when handling certain DOM elements and HTML characters. A third high-risk problem fixed may result in downloading and executing a malicious file; this is done by tricking a victim into clicking a hidden dialog box or by entering a specific keyboard sequence. Versions up to and including 12.0 are affected; upgrading to 12.01 corrects these problems.

35. *August 2, Dark Reading* – (International) **Scope of APTs more widespread than thought.** A researcher discovered some 200 different families of custom malware used to spy and steal intellectual property, with hundreds of attackers in just two groups out

of Shanghai and Beijing, suggesting cyberespionage malware and activity is far more prolific than imagined. The researcher, the director of malware research at Dell Secureworks, also identified a private security firm located in Asia — not in China — that is waging a targeted attack against another country's military operations, as well as spying on U.S. and European companies and its own country's journalists. He declined to provide details on the firm or its country of origin, but confirmed it is based in a nation friendly with the United States. The company has its own malware and is using spear-phishing and backdoors in its cyberespionage operations.

37. *August 1, Dark Reading* – (International) **Hacking Oracle database indexes.** One of the world's top database security researchers disclosed an Oracle database security blind spot at Black Hat USA the week of July 23. He demonstrated how manipulating code and permissions within Oracle indexes can lead to privilege escalation. The highlight of the talk was what the researcher called a zero-day vulnerability, but which some other security researchers believe may have been discreetly patched by Oracle in its July 2012 quarterly Critical Path Update for Oracle 11g revision 2 databases only. According to the chief technology officer of Application Security Inc., the attack and vulnerability described in the talk closely resembles many Oracle vulnerabilities found today.

Communications Sector

38. *August 3, V3.co.uk* – (National) **Massive phishing scam hits AT&T customers.** Websense detected a massive phishing campaign targeting AT&T customers, sending in-excess of 200,000 fake emails masquerading as billing information. The phishing emails, pretending to be from the American communication services provider, were discovered by Websense August 2. The fake emails look to scam consumers containing bogus claims that they owe AT&T hundreds of dollars. The email also reportedly houses a malicious link that lets the scams author's infect victims' machines. "Clicking on the link in the bogus message sends the user to a compromised web server that redirects the browser to a Blackhole exploit kit. As a result, malware is downloaded onto the computer that is currently not detected by most anti-virus products, according to VirusTotal," read Websense's blog.

39. *August 2, Philadelphia Inquirer* – (National) **Glitch in the nation's new weather alert system.** The nation's new weather alert system experienced an error August 2. The frightening "Severe alert! Flash flood warning" messages caught the attention of mobile-phone users across the Philadelphia region. The issue was that most of the people who received the warnings were in no danger whatsoever. Some of the areas warned were far removed from the areas endangered. August 2, flood warnings were issued for selected portions of Philadelphia, Bucks, Chester, and Montgomery Counties in Pennsylvania. Beamed from cell towers, however, the alerts they triggered lapped well beyond the targeted areas and into places unaffected by local weather. A standard free feature on many mobile devices sold approximately within the last year, the system began operation in April to carry alerts for assorted natural and unnatural disasters. The weather-alert piece came online in June. The alerts — for floods, tornadoes or hurricanes — are announced by special ringtones or vibrations. August 2, mobile users were told to "check local media."

40. *August 3, WVIR 29 Charlottesville* – (Virginia) **Walmart evacuated as police investigate suspicious package.** The Walmart in Albemarle County, Virginia, was investigated by police August 3. A spokesman with the Albemarle County Police Department said there was a man in Walmart carrying suspicious packages. Early reports indicated a man who wore a gas mask and carried packages was seen in the store. Staff called police and they evacuated the premises. Police arrived within minutes. The man was detained by police. There was an K9 explosives unit on the scene. The contents of the packages were still unknown into the afternoon. Virginia State Police and the Virginia State Police Bureau of Criminal Investigation were called

to the scene. Police sent a bomb robot into the store. The Walmart was still evacuated in the afternoon. The PetSmart in Hollymead Town Center were also briefly evacuated.
Source: http://www.nbc29.com/story/19189083/walmart-evacuation

41. *August 3, Jersey Journal* – (New Jersey) **Secaucus Walmart evacuated second time in week after bomb threat phoned in.** For the second time in 4 days, someone phoned a bomb threat into the Walmart at the Mill Creek Mall in Secaucus, New Jersey, August 2. The store was evacuated for nearly an hour after the manager's office received a phone call that mentioned an explosive device in the store, a police spokesman said. Secaucus police and firefighters searched the store and found no explosive. More than 700 people were evacuated from the store after a bomb threat was phoned in July 30.
Source: http://www.nj.com/jjournal-news/index.ssf/2012/08/secaucus_walmart_evacuated_sec.html

42. *August 3, KKTV 11 Colorado Springs* – (Colorado) **Local Walmart re-open after police check out bomb threat.** A Walmart store in Fountain, Colorado, re-opened August 2 after police responded to a potential bomb threat that closed the store for about 3 hours. A man called the store and said that there were bottles inside that might explode. Bomb sniffing dogs went inside the store but were unable to find any suspicious devices.

46. *August 2, Whidbey News-Times* – (Washington) **E. Coli prompts swimming closure at Cranberry Lake.** Island County Public Health announced the closure of the west side of Cranberry Lake at Deception Pass State Park in Washington August 2. The swim beach will be posted with red-colored swimming advisory signs due to persistently elevated levels of E. Coli bacteria, a news release from the Island County Public Health Department stated. Due to the increased risk of illness, people were advised to avoid swimming, wading, or water play where water could be swallowed or get into the mouth, nose, or eyes. The swimming advisory will remain in effect until water quality improves. Island County Public Health announced they will continue to monitor water conditions at Cranberry Lake in the coming weeks to determine when the water will be free of bacteria.

47. *August 3, Idaho Mountain Express* – (Idaho) **Halstead Fire nears 10,000 acres.** A lightning-caused wildfire northwest of Stanley, Idaho, jumped from 50 to nearly 10,000 acres over the course of a few days, the U.S. Forest Service reported August 2. The Halstead Fire, located near Highway 21, started July 27 when a lightning strike ignited a ridge between Beaver Creek and Marsh Creek, a tributary of the Middle Fork of the Salmon River. Fire crews were removed from the scene over the weekend of July 28 due to the extremely hot and active nature of the fire, but returned to work July 30. A spokeswoman for the Salmon-Challis National Forest stated in a press release August 2 that the fire reached 9,626 acres. The scout camp, as well as national forest campgrounds at Beaver Creek, Beaver Creek Spur, Lola Creek, Lola Camp Spur A, Marsh Creek Transfer, and Josephus Lake were closed. All access to the Cape Horn, Seafoam Bubble, and the Pinyon Peak roads were closed. Trails in the area — including the Halstead Trail, the Roughneck Trail, the Marsh Creek Trail, and the Middle Fork Trail from the trailhead to the junction with Fall Creek Trail were closed.

Dams Sector

48. *August 3, MLive.com; Associated Press* – (Michigan) **Flint's Hamilton Dam 'unsatisfactory,' says most recent state inspection.** As the State of Michigan carries out an emergency drawdown at the deteriorating Corunna Dam in Shiawassee County,

a plan for repairs of Flint's crumbling Hamilton Dam was at a standstill, MLive.com and the Associated Press reported August 3. Not only is the city-owned Hamilton Dam in "unsatisfactory" condition — the lowest ranking given in State inspection reports — but it is also classified as a "high hazard" dam, meaning there is a chance of fatalities and significant impact on infrastructure if the dam were to fail, officials said. To minimize such damage, the city has been under a State mandate since 2008 to lower the water level until repairs can be made to the dam. However, a lack of funding for what is likely to be extensive repair work has stymied progress on a plan to replace or repair the structure in recent years. The Flint Public Information Officer said August 2 that there were no budgeted projects for the dam in Flint emergency manager's plans, other than maintenance for normal operations. An official with the State Department of Environmental Quality said the water level restriction has lessened the immediate threat to the surrounding area. The U.S. Army Corps of Engineers classified the dam as "high hazard" in 1980 because of its setting in an urban area on a university's campus. It is required to be inspected every 3 years under State law.

49. *August 2, New Orleans Times-Picayune* – (Louisiana) **Corps making $1.5 billion in levee upgrades in Plaquemines Parish.** The U.S. Army Corps of Engineers finalized an agreement August 2 with Plaquemines Parish, Louisiana, for $1.5 billion in upgrades to nearly 60 miles of levees, including 20 miles of a parish-built levee that will be raised and brought into the federal system. The Plaquemines Parish President said raising the parish's back levee on the West Bank from Oakville to south of St. Jude will strengthen a weak link in the parish's storm-surge protection system. Corps officials said the back levee will be raised from an average height of about 3 feet to 9 feet. The project also includes improvements to segments of existing federal levees totaling 37 miles. Those levees extend from Phoenix to Bohemia on the east bank and from St. Jude to Venice on the West Bank. The work is expected to begin in a few months and should be completed by 2018.

Energy Sector

1. August 3, Portland Press Herald – (Maine) J&S Oil faces federal sanctions, fine over oil spill. J&S Oil in Manchester, Maine, faces federal sanctions, including a potential fine of up to $177,500, as the result of a March incident in which some 1,500 gallons of oil spilled onto the ground and spread to a neighboring property and drainage ditches. August 2, the Environmental Protection Agency (EPA) said it filed a complaint against the family- and employee-owned business. The company, which has offices in Manchester and Winslow, is accused of failing to maintain and fully implement an oil spill prevention plan, failing to provide secondary containment to prevent such spills from spreading, failing to maintain adequate training records, and failing to provide adequate security. 2. August 2, Associated Press – (California) Gas pipe ruptures near site of 2010 Calif. blast. More than a dozen homes were evacuated August 1 after a 2-inch plastic gas pipe ruptured in the San Bernandino, California suburb where a pipeline explosion killed eight people in 2010. The distribution main line burst when a private contractor working for the city of San Bruno struck the pipe with a backhoe. Pacific Gas & Electric crews were on-scene and stopped the gas flow in less than half an hour, a spokeswoman said. She added the line was not fitted with excess flow valves, which are designed to trip automatically when there is a break in a distribution line, the narrow-diameter pipes that serve individual homes and businesses. Source: http://muscatinejournal.com/news/national/gas-pipe-ruptures-near-site-of-califblast/ article_4a8edb25-154b-5236-aba9-dd4110931983.html

3. August 1, Reuters – (Wisconsin; Illinois; International) Canada's Enbridge says has repaired oil line after leak. August 1, Enbridge Inc said it completed repairs on a ruptured pipeline from Canada that was shut for 5 days following an oil leak in rural Wisconsin. The leak was not particularly large, but it came at a sensitive time for the Canadian firm, which has suffered a series of leaks in recent years and is embarking on a massive expansion program. Earlier August 1, Enbridge said it submitted a plan to U.S. regulators seeking permission to restart the pipeline, though it was unclear how long it would take to get approval. July 31, the U.S. Department of Transportation Pipeline and Hazardous Materials Safety Administration issued a so-called corrective action order that blocked Enbridge from resuming operations on the pipeline, which carries light crude to Chicago-area refineries, until certain conditions were met. Chemical Industry Sector

4. August 1, Associated Press – (Virginia) Hopewell chemical plant fined, agrees to improve pollution controls under agreement with US. A Hopewell, Virginia chemical plant agreed to pay a $175,000 fine for alleged air pollution violations, the Associated Press reported August 1. Under the agreement with federal officials, Hercules Inc. also agreed to add $200,000 in pollution controls. The Richmond Times- Dispatch reported the plant did not adequately limit emissions of chemical pollutants and it had an inadequate system for detecting leaks. The primary chemical was methanol, which can cause blurred vision, dizziness, and other problems. 5. August 2, U.S. Department of Labor – (Illinois) U.S. Department of Labor's OSHA cites A. Finkl and Sons in Chicago for 26 safety violations, including failing to maintain cranes. The U.S. Department of Labor's Occupational Safety and Health Administration (OSHA) issued a news release August 2 citing specialty metal forgings producer A. Finkl & Sons Co. with 26 safety violations at the company's Chicago facility, including 2 willful violations that involved failing to provide fall protection around open pits and rectify multiple hazards found in crane inspections. Proposed penalties totaled $352,700. OSHA initiated an inspection after receiving a complaint alleging that cranes used in the facility were in disrepair, including having malfunctioning hoisting brakes, and that powered industrial trucks were being operated by untrained workers. Specifically, the willful violations were due to failing to ensure open pits were guarded by standard railings and/or covers to protect employees from falling in, and failing to correct deficiencies identified by crane inspections such as missing bolts, inoperable radio controls, and problems with bridges, trolleys, and main hoist brakes. Twenty-two serious violations, one repeat violation, and one other-thanserious violation were also cited. 6. August 2, U.S. Consumer Product Safety Commission – (National) Sears recalls Kenmore dehumidifiers due to fire and burn hazards. The U.S. Consumer Product Safety Commission, in cooperation with Sears and Kmart, August 2 announced a voluntary recall of about 795,000 Kenmore dehumidifiers. Consumers should stop using recalled products immediately unless otherwise instructed. The dehumidifiers can overheat, smoke, melt, and catch on fire, posing fire and burn hazards to consumers. Sears received 107 reports of incidents, with more than $7 million in property damage and 3 reports of smoke inhalation injuries. The dehumidifiers were sold at Sears and Kmart stores nationwide and Sears.com and Kmart.com from 2003 to 2009. Source: http://www.cpsc.gov/cpscpub/prerel/prhtml12/12240.html

7. August 2, Milwaukee Journal Sentinel – (Wisconsin) 2 die in shooting at northwest side manufacturing plant. A shooting inside a Trans-Coil International (TCI) manufacturing plant in Milwaukee left two men dead August 2, police said. A supervisor was shot multiple times by a employee who then shot himself. A handgun was recovered at the scene. WISN 12 Milwaukee reported that third-shift workers arriving at TCI were told the plant was closed for the night and would remain closed August 3. Source: http://www.jsonline.com/news/milwaukee/2-die-in-shooting-at-northwest-sidemanufacturing- plant-9u6bqk7-164836596.html

Banking and Finance Sector

8. August 3, Bloomberg News – (National) Bristol-Myers insider arrest followed probe of deal. A U.S. Securities and Exchange Commission (SEC) probe, prompted by suspicious circumstances surrounding Gilead Sciences Inc.'s announcement that it was buying Pharmasset Inc. for $11 billion, resulted in the arrest of a Bristol-Myers Squibb Co. executive August 2. The man was charged with making $311,361 in illegal profit by buying stock options in three pharmaceutical companies targeted for acquisition. The SEC is continuing its probe, and the Department of Justice also joined the investigation. The executive held high-level jobs including executive director of pensions and savings investments and assistant treasurer for capital markets. He helped the New York-based drugmaker evaluate whether to buy targeted companies, according to the FBI arrest complaint. As he conducted due diligence on pension and savings plans of those companies, he bought options in all three based on insider information. The chief of the SEC's Market Abuse Unit said the SEC is concerned about the "apparent epidemic of insider trading involving the securities of pharmaceutical and healthcare companies." Source: http://www.businessweek.com/news/2012-08-03/bristol-myers-insider-arrestfollowed- probe-of-deal#p1

9. August 2, The Register – (National) New target for 419 fraudsters: Struggling 'weak' banks. Desperate banks have become the target for so-called 419 advance-fee fraud scams, The Register reported August 2. Banks on the Federal Deposit Insurance Corporation's (FDIC) Problem Bank List have been targeted as they might be prepared to take the risk

because poor profits and earnings outlooks that deter traditional investors, the Problem Bank List blog warned. The FDIC issued an alert saying it became aware of individuals or purported investment advisers approaching weak institutions in attempts to defraud them by claiming access to funds for recapitalization. The scheme requires banks to pay fees in advance, and, once paid, the parties involved failed to conduct due diligence or actively pursue the proposed investment. Source: http://www.theregister.co.uk/2012/08/02/struggling_us_banks_warned_over_419_scam s/

10. August 2, Associated Press – (National) IRS missing billions in ID theft. The Internal Revenue Service (IRS) may have delivered more than $5 billion in refund checks to identity thieves who filed fraudulent tax returns for 2011, Treasury Department investigators said August 2. They estimated another $21 billion could make its way to ID thieves' pockets over the next 5 years. The IRS detected far fewer fraudulent tax refund claims than actually occur, a government audit stated. Although the IRS detected about 940,000 fraudulent returns for 2011 claiming $6.5 billion in refunds, there were potentially another 1.5 million undetected cases of thieves seeking refunds after assuming the identity of a dead person, child, or someone else who normally would not file a tax return. Topping the list of concerns was the IRS's lack of timely access to third-party information it needs to verify returns and root out fraud. Due to the gap between when taxpayers can start filing returns and when employers and financial institutions are required to submit withholding and income documents to taxpayers, the IRS often issues refunds before it can confirm the information on the returns. Of the 1.5 million undetected cases of potential fraud, 1.2 million used direct deposits. Transportation Sector

11. August 3, Associated Press – (West Virginia) Coal train derails in southern W.Va. town. Crews cleaned up the scene of a bridge collapse and coal train derailment in a Raleigh, West Virginia, August 2. WVNS 59 Lewisburg quoted CSX officials as saying the train had 4 locomotives and 75 freight cars carrying coal, and 6 of those cars derailed. The bridge on which the train was traveling collapsed and coal spilled into a creek below. Crews worked for several hours to clean up the creek and roadway. Source: http://www.mariettatimes.com/page/content.detail/id/248572/Coal-trainderails- in-southern-W-Va--town-.html?isap=1&nav=5019

12. August 2, Chicago Tribune – (Illinois) Survivor of fatal Megabus crash 'just wok up to screaming'. One person was killed and dozens of others were injured when a double-decker Megabus bound from Chicago smashed into a concrete pillar of an overpass on Interstate 55 August 2, State police said. The bus, with about 64 passen listed on the manifest, apparently blew a tire and skidded into the center pillar near Litchfield, Illinois, about 60 miles north of St. Louis, shutting down I-55 in both directions between the Carlinville and Litchfield exits. As many as half the people o the southbound bus were injured, according to a State Police captain. Four to five of injured were trapped and had to be extricated, including one who later died, he said. Thirty ambulances and five medical helicopters responded. Source: http://articles.chicagotribune.com/2012-08-02/news/chi-megabus-fromchicago- crashes-into-i55-overpass-20120802_1_fatal-megabus-crash-southbound-b double-decker-bus

13. August 2, Chicago Sun-Times – (Illinois) O'Hare closes terminal for two hours because of 'suspicious item'. The Chicago Sun-Times reported August 2 that the Transportation Safety Administration (TSA) ordered the upper-level doors closed at Terminal 2 after finding a "suspicious item," said a spokeswoman for the Chicago Department of Aviation. Chicago Police determined the item to not be a threat, and screening operations resumed about 2 hours later, a TSA spokesman said in a statement. A TSA canine team alerted agents to the item and Chicago Police established a safety perimeter that impacted security checkpoint operations in Termi 2, the spokesman said. The doors were secured and security checkpoints were close but the terminal was not evacuated. Passengers were re-directed to Terminal 1 for security screenings and deplaning, a Department of Aviation spokesman said. July bomb threat temporarily closed San Antonio International Airport. A TSA spokesm said it was too soon to speculate on any possible relationship between the incidents. Source: http://www.suntimes.com/news/metro/14188613-418/tsa-closes-ohareterminal- because-of-suspicious-item.html

14. August 2, Associated Press – (Washington, D.C.) FAA: 3 jets over DC never on collision course. None of the commuter jets that flew too close together near Washington, D.C., July 31, were ever on course to collide head-on with the others, federal officials said August 2. During a news conference, the U.S. Transportation Secretary strongly disputed media reports characterizing what happened near Ronal Reagan Washington National Airport as a near-miss. "At no point were the three aircraft on a head-to-head course. They were not on a collision course," said an administrator of the Federal Aviation Administration (FAA). However, the FAA sai a statement that it "is investigating the incident and will take appropriate action to address the miscommunication." The National Transportation Safety Board said it also reviewing what happened. The jet problem occurred July 31 after a miscommunication between a manager at Potomac Consolidated Terminal Radar Approach Control and two traffic management coordinators at the airport, the administrator said. The exact nature of the miscommunication was not immediately e gers n the usnal d, 30, a an d d in was clear, but there was apparently a failure on both ends to follow standard procedure. Source: http://www.krmg.com/ap/ap/business/faa-3-jets-near-dc-were-never-oncollision- course/nP87c/ 15. July 30, Boston Globe – (Massachusetts) MBTA hosting controlled gas, particle testing this week. Scientists fanned out through the Massachusetts Bay Transportation Authority (MBTA) the week of July 30 to release and trace the movement of nontoxic, odorless gases and particles in a federal experiment to simulate and understand how contaminants might move through the subway in a chemical or biological terrorist attack. The research expands on previous studies of subway airflow in Boston in 2009 and 2010, with the tests this time examining not just how gases and particles move underground, but also how they might flow out of subway tunnels and stations to city streets, said a program manager for DHS' Science and Technology Directorate. Near the site of their release, the plumes of gas and particles may appear as a fine mist, but otherwise they will be invisible and harmless to riders as they flow through the subway system, officials said. The testing, which began July 30 and will continue through the end of the week, is being done at off-peak hours and should not disrupt commuters. Source: http://www.boston.com/metrodesk/2012/07/30/mbta-hosting-controlled-gasparticle-testing-this-week/hiW1sdHyfnBNwYTWlk90mJ/story.html

Postal and Shipping Sector

16. August 2, Northwest Indiana Times – (Indiana) Police investigate suspicious package after blast in Dyer. Indiana's Porter County Bomb Squad investigated a baseball-sized ball wrapped in electrical tape after a homeowner's mailbox was blown off August 2. Police evacuated the family from the house and cordoned off the street to wait for the bomb squad. U.S. Postal Service investigators were also called to the house and said the mailman did not arrive at the street prior to the incident. Source: http://www.nwitimes.com/news/local/lake/dyer/dyer-police-investigatesuspicious-package/article_73e77587-009e-5a6f-9d7e-2b26ca348620.html

Agriculture and Food Sector

17. August 3, Syngenta – (National) Stinkbugs continue to plague soybeans across the U.S. Various stinkbug species are spreading quickly throughout the United States, Syngenta reported August 3. Growers as far apart as Louisiana and Nebraska say 25 to 35 stinkbugs are being reported per 100 sweeps, putting the health and yield of soybean plants in jeopardy. Soybean fields can quickly become the feeding ground for many different species of stinkbugs; the most common and damaging species include the green, the southern green, and the red-banded species, all of which continue to be found across the United States. In addition to the traditional species, a new stinkbug known as the brown marmorated stinkbug is being reported in various States across the country, and it is already a serious pest in vegetables and farm crops in the mid-Atlantic region. When stinkbugs invade a field, they remove fluids from soybean plants by feeding on the stems, foliage, blooms, and, most importantly, the developing pods and beans, causing significant damage to the quality of the soybeans and ultimately to the yield. Source: http://www.agprofessional.com/news/Stinkbugs-continue-to-plague-soybeansacross- the-US-164623026.html

18. August 2, U.S. Department of Agriculture – (National) Small drought assistance and more disaster counties. The U.S. Agriculture Secretary announced two new pieces of disaster assistance for farmers and ranchers impacted by the nation's worsening drought, the U.S. Department of Agriculture (USDA) announced August 2. First, he is expanding emergency haying and grazing on approximately 3.8 million acres of conservation land to bring greater relief to livestock producers dealing with shortages of hay and pastureland. Second, the Secretary announced that crop insurance

companies agreed to provide a short grace period for farmers on insurance premiums in 2012. As a result, farming families now have an extra 30 days to make payments without incurring interest penalties on unpaid premiums. August 1, the Secretary signed disaster designations for an additional 218 counties in 12 States as primary natural disaster areas due to damage and losses caused by drought and excessive heat. Source: http://www.agprofessional.com/news/Vilsack-announces-new-droughtassistance- 164602406.html

19. August 2, U.S. Food and Drug Administration – (National) Burch Equipment LLC expands cantaloupe recall due to possible health risk. Burch Equipment LLC, of North Carolina, expanded their cantaloupe recall initiated July 28, the U.S. Food and Drug Administration (FDA) reported August 2. The firm voluntarily recalled 13,888 cases of whole Athena variety cantaloupes and 581 bins of Athena variety cantaloupes due to the potential for being contaminated with Listeria monocytogenes. Melons affected by this recall total 188,902. The whole Athena variety cantaloupes were shipped between July 15-27 and distributed to retail stores operating in Florida, Georgia, Illinois, Maryland, North Carolina, New Jersey, New York, Pennsylvania, South Carolina, and Virginia. The FDA and the North Carolina Department of Agriculture were working with Burch Equipment LLC following a random sample of an Athena variety cantaloupe testing positive for Listeria monocytogenes. The recall expansion was based on unsanitary conditions found at the cantaloupe packing shed during FDA's ongoing inspection that may allow for contamination of cantaloupes with Listeria monocytogenes. Source: http://www.fda.gov/Safety/Recalls/ucm314213.htm

20. August 2, U.S. Department of Agriculture Food Safety and Inspection Service – (National) Wisconsin firm recalls frozen bacon cheeseburger patties that may contain foreign materials. Kenosha Beef International, Ltd., a Kenosha, Wisconsin establishment, recalled approximately 37,600 pounds of frozen bacon cheeseburger patties because they may contain foreign materials — pieces of gasket material, the U.S. Department of Agriculture's Food Safety and Inspection Service (FSIS) announced August 2. The products subject to recall include 2 pound cartons containing six patties of Sam's Choice Fireside Gourmet Black Angus Beef Patties Bacon and Aged Cheddar. All products were produced June 11. The products were distributed in Indiana, Maine, North Carolina, Ohio, Pennsylvania, South Carolina, and Wisconsin. FSIS was alerted to the problem by the firm after the company received a consumer complaint. Source: http://www.fsis.usda.gov/News_&_Events/Recall_052_2012_Release/index.asp

Water Sector

21. August 2, Deer Park - North Babylon Patch – (New York) Sewer study finds extensions could cost more than $2 billion. The Suffolk County Department of Public Works (DPW) in New York released more findings from its Southwest Sewer District Expansion Feasibility Study, including the revelation the project could cost more than $2 billion without grants or outside funding, the Deer Park - North Babylon Patch reported August 2. The expansion of the sewer district would affect areas including Deer Park, North Babylon, West Babylon, West Islip, and Wyandanch. A July 31 meeting, the second in 2012 focused on the study, found the areas in most need, called "Tier 1" by officials, would account for nearly 53 percent of the overall estimated cost for the system expansion at an estimated $1.106 billion. The tier included mostly areas from North Babylon and Wyandanch, the costliest being an area bordering the two areas at an estimated $235 million. For the entire area in question to be added to the Southwest Sewer District, the DPW would have to run pipes throughout the entire area able to support roughly 12 to 16 million gallons per day. Tier 1 alone would use up 5.9 to 7.9 million gallons a day out of that total. The Bergan Point Sewage Facility is currently being expanded in preparation for a potential district expansion. Officials also released an estimated timetable if the project was given the go-ahead later in 2012. For areas in the top Tier 1, the entire process from legal processes to completion of construction would take until May 2021. Source: http://deerpark-northbabylon.patch.com/articles/sewer-study-finds-extensionscould- cost-more-than-2-billion

22. August 2, Visalia Times-Delta / Tulare Advance-Register – (California) Tulare County ends closure of the Kings River. Public health officials in Tulare County, California, began removing signs warning people to stay out of the Kings River after determining August 2 that it was safe to swim there following a sewage spill earlier in the week of June 30. "What happened is mid afternoon we got results from the lab â€ ¦ and we can confirm at this time the levels [of bacteria] are under the threshold they have to be for recreational water," said a Tulare County Health and Human Services Agency (HHSA) spokeswoman. HHSA officials banned recreational activities in the river, which runs along the county's northwest

border, after untreated sewage traveling through pipes to the City of Reedley Wastewater Treatment Plant backed up July 30 and flowed out a manhole at city park. Sewage, which included urine and fecal matter, flowed into the Kings River, about 150-200 feet from the manhole. The Kings River flows west along the borders of Tulare and Fresno counties, and into Kings County. Reedley officials said a computer software glitch caused the entire plant to shut down after hours — along with an alarm system to notify employees of the problem — and the backup of raw sewage was not stopped until after people arrived for work July 31. Source: http://www.visaliatimesdelta.com/article/20120803/NEWS01/308030014/Tulare- County-ends-closure-Kings-River?odyssey=tab|topnews|text|Frontpage

23. August 1, WCVB 5 Boston – (Massachusetts) Boston Water and Sewer Commission warns of possible customer info leak. Boston Water and Sewer Commission officials said customer information could have been leaked due to a missing hard drive, WCVB 5 Boston reported August 1. Officials said contractor Aclara Technologies notified them that a hard drive that could contain the Commission's water and sewer account information was missing. Aclara was using the information to update the Commission's remote meter reading system, according to a Commission news release. At most, the missing hard drive contains customer names, addresses, phone numbers, account and meter numbers, and other information that is otherwise publicly available, according to the release. The hard drive did not contain any Social Security numbers, financial data, or state license or identification numbers, officials said. Officials said it was unlikely the missing hard drive would lead to any misuse of customers' personal information. Source: http://www.wcvb.com/news/local/metro/Boston-Water-and-Sewer- Commission-warns-of-possible-customer-info-leak/-/11971628/15934996/-/13h6y0z/- /index.html

Public Health and Healthcare Sector

24. August 3, Jeffersonville News and Tribune – (Indiana) Investigation into health facility break-in continues. A safe containing personal and financial information belonging to patients of Kindred Transitional Care and Rehabilitation in Sellersburg, Indiana, was stolen during a break-in at the facility between June 1 and June 4, according to a statement released by Kindred officials. The safe contained tapes listing patients' information, including Social Security numbers, diagnosis, dates of birth, home addresses, insurance numbers, dates of care, medications provided, and bank account numbers. A Clark County Sheriff's Department spokesperson said it did not appear there was any forced entry made into the office where the safe was located, but drawers in the room did appear to be have been forcefully opened. He said deputies monitored the compromised names to see if the suspect or suspects would attempt to steal any of patients identities, but it appeared no attempts were made. Source: http://newsandtribune.com/local/x1402344936/Investigation-into-healthfacility- break-in-continues

25. August 2, Dallas Morning News – (Texas) Structural damage temporarily closes parking garage at Dallas County criminal courthouse. One of the parking garages used by those going to the Frank Crowley criminal courthouse just outside downtown Dallas temporarily closed. A Dallas County spokeswoman said the garage closed July 31 and was "expected to be closed the entire [week of August 6]." The garage has structural problems that also led to its partial closure in April 2011. Engineers were working on correcting "structural problems with the shoring." In the meantime, the spokeswoman said the county is asking people to consider using public transportation or getting a ride to the courthouse or postponing any business they have there. Source: http://crimeblog.dallasnews.com/2012/08/structural-damage-temporarilycloses- parking-garage-at-dallas-county-criminal-courthouse.html/ 26. July 31, Associated Press – (South Dakota) SD college student pleads guilty to making threats. A South Dakota college student accused of threatening to shoot people on campus and burn down a dean's house said he never intended to harm anyone. He appeared in court July 30 and pleaded guilty to making a terroristic threat at the South Dakota School of Mines and Technology. Under terms of the plea agreement, prosecutors recommended local jail time and probation, along with a psychological evaluation. The decision on punishment rests with the judge, who could impose up to 5 years in prison and a $10,000 fine. Authorities said the student left a letter at the student union April 17 containing the threats and that he signed it BTK, the signature of a Kansas serial killer. Source: http://www.sfgate.com/news/article/SD-college-student-pleads-guilty-tomaking- threats-3749735.php 27. July 30, KOIN 6 Portland – (Oregon) Pesticide leak prompts hazmat

callout at Ore. Water Science Center. A chemical leak at a building in downtown Portland, Oregon, lead to a HAZMAT response July 30. Portland Fire & Rescue (PF&R) reported that the spill occurred at the U.S. Geological Water Science Center. According to PF&R, a person was combining 30 pesticide chemicals together in a "mixing vessel" when an unknown amount leaked onto the person's hand and into the air. The area around the spill was evacuated as a precaution. It was determined only one person was exposed to the chemicals. That person was "decontaminated" by a PF&R hazmat crew before being transported to a local hospital for evaluation. Several hours later, crews were still working to clean up the spill. Emergency Services Sector

28. August 3, New England Cable News – (Vermont) Vt. man crushes police cars with family tractor. A man is accused of single-handedly leaving a path of destruction at one police station in Orleans County, Vermont. The suspect will be in Orleans County criminal court August 3, charged with crushing cars under a tractor. Police said the man took his family's farm tractor and ran over seven police cars in the Orleans County sheriff's department parking lot August 2. The suspect was allegedly seeking revenge after being arrested for resisting arrest after being caught with marijuana earlier. The man faces seven counts of unlawful mischief, as well as leaving the scene of an accident, among other charges. He is being held on $15,000 bail. Source: http://www.necn.com/08/03/12/Vt-man-crushes-police-cars-with-familyt/landing.html?blockID=750725&feedID=4753

29. August 3, Chicago Tribune – (Illinois) Jail officer accused of punching suspect. A veteran correctional officer at the Cook County Jail in Chicago was charged with official misconduct after a security camera caught him punching a detainee in the face in an unprovoked attack in June, authorities said August 2. The victim was knocked to the floor and needed stitches for a cut to the inside of his mouth, authorities said. The officer, a 12-year veteran, turned himself in August 2 and was released on $10,000 bond. According to prosecutors, the victim left the bullpen in the jail's Division 5 receiving area to obtain a phone number from property of his that was already inventoried. He stopped at a desk where the correctional officer was stationed to ask him where the property was kept. As the victim walked away, he told him to return to the bullpen, issuing a verbal warning, prosecutors said. As he stepped from his desk, the victim turned around and started to walk back toward the bullpen, prosecutors said. However, the officer struck him in the face, knocking the victim to the floor, and bloodying his mouth, they allege. 30. August 3, Clare County Review – (Michigan) Clare County 911 server issues becoming serious. The 9-1-1 service in Clare County, Michigan, has had issues as the area's 9-1-1 Central Dispatch has been increasingly suffering from network problems with their computers over the past 3 months. The Central Dispatch director and IT director spoke to the Clare County Board of Commissioners on the issue August 1 during its Committee of the Whole meeting. They believe the issues stem from a software issue in the network's server. The IT director added that while they have alternatives, process is slower and the outages need to be dealt with. The Central Dispatch director said most of the outages have been occurring for several hours during the early morning. He added that when the network becomes disrupted, it becomes impossible for dispatchers to track the locations of emergency responders, for police to run the license plates of anyone pulled over, or for the system to be used to switch traffic lights to green to allow emergency vehicles a faster route to those in trouble. Source: http://www.clarecountyreview.com/2012/08/clare-county-911-server-issuesbecoming- serious/

31. August 2, Associated Press – (Michigan) Car theft suspect crashed into police building. WLUC 6 Marquette reported a man crashed into a garage door at the Gladstone Public Safety Department building in Michigan's Upper Peninsula August 1. The car was reported stolen from a construction site. Officers restrained the man and he was taken to a hospital. The Delta County prosecutor's office is expected to review the case. Charges are being sought for larceny of a vehicle, malicious destruction of police property, resisting officers, and driving under the influence of drugs. 32. August 2, Austin American-Statesman – (Texas) Staffing shortage idle more prison beds. Four additional dorms housing 320 convicts are being closed at a large maximum-security South Texas prison because of a continuing shortage of staff at the lockup, officials confirmed August 2. The move marks the largest such temporary closure of portions of a State prison in well over a decade, even during previous staffing stages that forced dorms at several prisons to be shut for many months. A spokesman for the Texas Department of Criminal Justice said the convicts will be transferred from the Connally Unit in Kenedy, about 55 miles southeast of San Antonio, to other State prisons in coming weeks. Information Technology Sector

33. August 3, Help Net Security – (International) Google Play updates developer policies to tackle rogue apps. Unlike Apple, Google never instituted a vetting process for the applications submitted to its Android app store, Google Play. Instead, the company relies on Bouncer — an automated app scanning service that analyzes apps by running them on Google's cloud infrastructure and simulating how they will run on an Android device — to catch and ban malicious apps and developers. Recently, however, Bouncer has been unable to detect a number of bad apps. As a result, Google announced it will tighten its app developer policies in an effort to crack down on rogue and potentially malicious apps that proliferate on Google Play. Source: http://www.net-security.org/secworld.php?id=13368&utm

34. August 2, The H – (International) Opera 12 update closes important security holes. The first maintenance update to version 12 of the Opera Web browser was released closing four important security holes. The first of these is rated as critical by the company and affects all supported platforms. According to Opera, certain URL constructs can cause its browser to allocate the incorrect amount of memory for storing the address; this can be exploited by an attacker to overwrite unrelated memory with malicious data, possibly leading to the execution of arbitrary code. Opera 12.01 addresses two high-severity errors that could lead to cross-site scripting (XSS) attacks when handling certain DOM elements and HTML characters. A third high-risk problem fixed may result in downloading and executing a malicious file; this is done by tricking a victim into clicking a hidden dialog box or by entering a specific keyboard sequence. Versions up to and including 12.0 are affected; upgrading to 12.01 corrects these problems. Source: http://www.h-online.com/security/news/item/Opera-12-update-closesimportant- security-holes-1659121.html

35. August 2, Dark Reading – (International) Scope of APTs more widespread than thought. A researcher discovered some 200 different families of custom malware used to spy and steal intellectual property, with hundreds of attackers in just two groups out of Shanghai and Beijing, suggesting cyberespionage malware and activity is far more prolific than imagined. The researcher, the director of malware research at Dell Secureworks, also identified a private security firm located in Asia — not in China — that is waging a targeted attack against another country's military operations, as well as spying on U.S. and European companies and its own country's journalists. He declined to provide details on the firm or its country of origin, but confirmed it is based in a nation friendly with the United States. The company has its own malware and is using spear-phishing and backdoors in its cyberespionage operations. Source: http://www.darkreading.com/threat-intelligence/167901121/security/attacksbreaches/ 240004827/

36. August 2, SC Magazine UK – (International) Olympics hit by SEO poisoning, as black hat hackers change tactics. Poisoning of Olympic-related search engine results has appeared, but big names and events are not the obvious targets, according to the director of product marketing EMEA at Blue Coat. Black hat hackers changed their tactics to target lesser known athletes and celebrities and moved away from big events. He told SC Magazine that while search engine optimization (SEO) poisoning is still the primary vector for spreading malware, there has been a move away from poisoning the results of big events to hitting more mundane targets. Source: http://www.scmagazineuk.com/olympics-hit-by-seo-poisoining-as-black-hathackers- change-tactics/article/253088/

37. August 1, Dark Reading – (International) Hacking Oracle database indexes. One of the world's top database security researchers disclosed an Oracle database security blind spot at Black Hat USA the week of July 23. He demonstrated how manipulating code and permissions within Oracle indexes can lead to privilege escalation. The highlight of the talk was what the researcher called a zero-day vulnerability, but which some other security researchers believe may have been

discreetly patched by Oracle in its July 2012 quarterly Critical Path Update for Oracle 11g revision 2 databases only. According to the chief technology officer of Application Security Inc., the attack and vulnerability described in the talk closely resembles many Oracle vulnerabilities found today. Communications Sector

38. August 3, V3.co.uk – (National) Massive phishing scam hits AT&T customers. Websense detected a massive phishing campaign targeting AT&T customers, sending in-excess of 200,000 fake emails masquerading as billing information. The phishing emails, pretending to be from the American communication services provider, were discovered by Websense August 2. The fake emails look to scam consumers containing bogus claims that they owe AT&T hundreds of dollars. The email also reportedly houses a malicious link that lets the scams author's infect victims' machines. "Clicking on the link in the bogus message sends the user to a compromised web server that redirects the browser to a Blackhole exploit kit. As a result, malware is downloaded onto the computer that is currently not detected by most anti-virus products, according to VirusTotal," read Websense's blog. Source: http://www.v3.co.uk/v3-uk/news/2196588/massive-phishing-scam-hits-at-tcustomers

39. August 2, Philadelphia Inquirer – (National) Glitch in the nation's new weather alert system. The nation's new weather alert system experienced an error August 2. The frightening "Severe alert! Flash flood warning" messages caught the attention of mobile-phone users across the Philadelphia region. The issue was that most of the people who received the warnings were in no danger whatsoever. Some of the areas warned were far removed from the areas endangered. August 2, flood warnings were issued for selected portions of Philadelphia, Bucks, Chester, and Montgomery Counties in Pennsylvania. Beamed from cell towers, however, the alerts they triggered lapped well beyond the targeted areas and into places unaffected by local weather. A standard free feature on many mobile devices sold approximately within the last year, the system began operation in April to carry alerts for assorted natural and unnatural disasters. The weather-alert piece came online in June. The alerts — for floods, tornadoes or hurricanes — are announced by special ringtones or vibrations. August 2, mobile users were told to "check local media." Source: http://articles.philly.com/2012-08-02/news/33001824_1_alert-system-floodwarnings- weather-alert

Commercial Facilities Sector

40. August 3, WVIR 29 Charlottesville – (Virginia) Walmart evacuated as police investigate suspicious package. The Walmart in Albemarle County, Virginia, was investigated by police August 3. A spokesman with the Albemarle County Police Department said there was a man in Walmart carrying suspicious packages. Early reports indicated a man who wore a gas mask and carried packages was seen in the store. Staff called police and they evacuated the premises. Police arrived within minutes. The man was detained by police. There was an K9 explosives unit on the scene. The contents of the packages were still unknown into the afternoon. Virginia State Police and the Virginia State Police Bureau of Criminal Investigation were called to the scene. Police sent a bomb robot into the store. The Walmart was still evacuated in the afternoon. The PetSmart in Hollymead Town Center were also briefly evacuated. Source: http://www.nbc29.com/story/19189083/walmart-evacuation

41. August 3, Jersey Journal – (New Jersey) Secaucus Walmart evacuated second time in week after bomb threat phoned in. For the second time in 4 days, someone phoned a bomb threat into the Walmart at the Mill Creek Mall in Secaucus, New Jersey, August 2. The store was evacuated for nearly an hour after the manager's office received a phone call that mentioned an explosive device in the store, a police spokesman said. Secaucus police and firefighters searched the store

and found no explosive. More than 700 people were evacuated from the store after a bomb threat was phoned in July 30. Source: http://www.nj.com/jjournalnews/ index.ssf/2012/08/secaucus_walmart_evacuated_sec.html

42. August 3, KKTV 11 Colorado Springs – (Colorado) Local Walmart re-open after police check out bomb threat. A Walmart store in Fountain, Colorado, re-opened August 2 after police responded to a potential bomb threat that closed the store for about 3 hours. A man called the store and said that there were bottles inside that might explode. Bomb sniffing dogs went inside the store but were unable to find any suspicious devices. Source: http://www.kktv.com/news/headlines/Local-Walmart-Evacuated-Police-Check- Out-Bomb-Threat-164834266.html

43. August 3, Syracuse Post-Standard – (New York) Investigators looking for cause of Munnsville Hotel fire. A fire damaged the Munnsville Hotel apartment building in Munnsville, New York, leaving residents homeless and keeping firefighters on the scene for about 6 hours August 3. The fire was under investigation, but was not considered suspicious. The county's fire coordinator said he did not believe the building could be saved given the damage caused by fire and water. Source: http://www.syracuse.com/news/index.ssf/2012/08/investigators_looking_for_caus.html

44. August 3, Ardmore Daily Ardmoreite – (Oklahoma) Afternoon fire claims warehouse in Healdton. An investigation was underway into the circumstances of a fire that destroyed the warehouse of the Healdton Family Center in Healdton, Oklahoma. Six area fire departments responded to the fire called in August 2. The Healdton fire chief said the warehouse was enveloped by the fire when departments arrived at the scene. Firefighters contained the fire to the warehouse, leaving a lumber store and the family center undamaged. The warehouse owner said the building contained furniture, mattresses, insulation, and other items, which were lost. Source: http://www.ardmoreite.com/news/x2095088149/Afternoon-fire-claimswarehouse- in-Healdton

45. August 3, Pittsburgh Post-Gazette – (Pennsylvania) Market Square reopens after Pittsburgh bomb squad detonates suitcase. Pittsburgh police reopened Market Square after the bomb squad detonated a suspicious package there August 3. Police evacuated the square and roped it off. A police officer at Market Square said the bo squad found a suitcase that may have had a wire sticking out. A member of the bo squad in a protective suit put a plate on the suitcase to X-ray it, then returned to the squad's truck to view the images. Later, the bomb squad detonated the suitcase wit small, controlled explosion and planned to examine its contents. Source: http://old.post-gazette.com/pg/12216/1251375-53.stm

46. August 2, Whidbey News-Times – (Washington) E. Coli prompts swimming closu at Cranberry Lake. Island County Public Health announced the closure of the we side of Cranberry Lake at Deception Pass State Park in Washington August 2. The swim beach will be posted with red-colored swimming advisory signs due to persistently elevated levels of E. Coli bacteria, a news release from the Island Coun Public Health Department stated. Due to the increased risk of illness, people were advised to avoid swimming, wading, or water play where water could be swallowe get into the mouth, nose, or eyes. The swimming advisory will remain in effect unti water quality improves. Island County Public Health announced they will continue monitor water conditions at Cranberry Lake in the coming weeks to determine whe the water will be free of bacteria. National Monuments and Icons Sector

47. August 3, Idaho Mountain Express – (Idaho) Halstead Fire nears 10,000 acres. A lightning-caused wildfire northwest of Stanley, Idaho, jumped from 50 to nearly 10,000 acres over the course of a few days, the U.S. Forest Service reported August 2. The Halstead Fire, located near Highway 21, started July 27 when a lightning strike ignited a ridge between Beaver Creek and Marsh Creek, a tributary of the Middle Fork of the Salmon River. Fire crews were removed from the scene over the weekend of July 28 due to the extremely hot and active nature of the fire, but returned to work July 30. A spokeswoman for the Salmon-Challis National Forest stated in a press release August 2 that the fire reached 9,626 acres. The scout camp, as well as national forest campgrounds at Beaver Creek, Beaver Creek Spur, Lola Creek, Lola Camp Spur A, Marsh Creek Transfer, and Josephus Lake were closed. All access to the Cape Horn, Seafoam Bubble, and the Pinyon Peak roads were closed. Trails in the area — including the Halstead Trail, the Roughneck Trail, the Marsh Creek Trail, and

the Middle Fork Trail from the trailhead to the junction with Fall Creek Trail were closed. Source: http://www.mtexpress.com/index2.php?ID=2005143236

Dams Sector

48. August 3, MLive.com; Associated Press – (Michigan) Flint's Hamilton Dam 'unsatisfactory,' says most recent state inspection. As the State of Michigan carries out an emergency drawdown at the deteriorating Corunna Dam in Shiawassee County, a plan for repairs of Flint's crumbling Hamilton Dam was at a standstill, MLive.com and the Associated Press reported August 3. Not only is the city-owned Hamilton Dam in "unsatisfactory" condition — the lowest ranking given in State inspection reports — but it is also classified as a "high hazard" dam, meaning there is a chance of fatalities and significant impact on infrastructure if the dam were to fail, officials said. To minimize such damage, the city has been under a State mandate since 2008 to lower the water level until repairs can be made to the dam. However, a lack of funding for what is likely to be extensive repair work has stymied progress on a plan to replace or repair the structure in recent years. The Flint Public Information Officer said August 2 that there were no budgeted projects for the dam in Flint emergency manager's plans, other than maintenance for normal operations. An official with the State Department of Environmental Quality said the water level restriction has lessened the immediate threat to the surrounding area. The U.S. Army Corps of Engineers classified the dam as "high hazard" in 1980 because of its setting in an urban area on a university's campus. It is required to be inspected every 3 years under State law. Source: http://www.mlive.com/news/flint/index.ssf/2012/08/dam_safety_flints_hamilton_dam. html

49. August 2, New Orleans Times-Picayune – (Louisiana) Corps making $1.5 billion in levee upgrades in Plaquemines Parish. The U.S. Army Corps of Engineers finalized an agreement August 2 with Plaquemines Parish, Louisiana, for $1.5 billion in upgrades to nearly 60 miles of levees, including 20 miles of a parish-built levee that will be raised and brought into the federal system. The Plaquemines Parish President said raising the parish's back levee on the West Bank from Oakville to south of St. Jude will strengthen a weak link in the parish's storm-surge protection system. Corps officials said the back levee will be raised from an average height of about 3 feet to 9 feet. The project also includes improvements to segments of existing federal levees totaling 37 miles. Those levees extend from Phoenix to Bohemia on the east bank and from St. Jude to Venice on the West Bank. The work is expected to begin in a few months and should be completed by 2018. Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

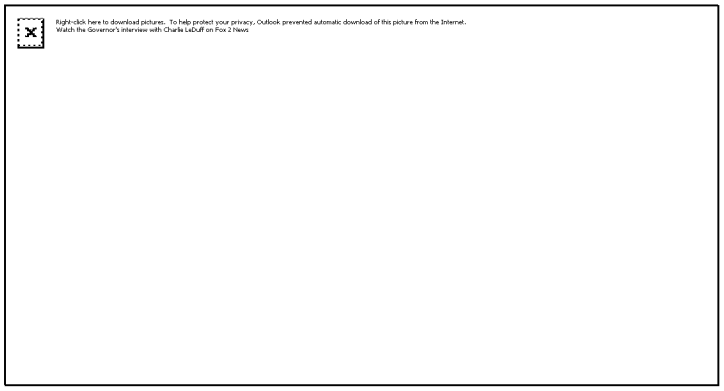
How we are fixing the Flint water crsis

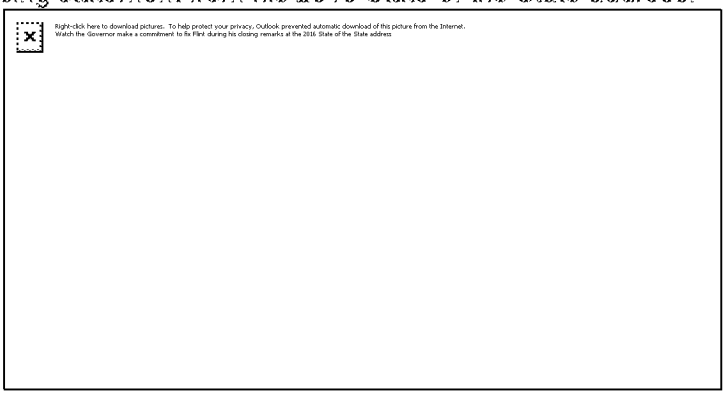
Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe



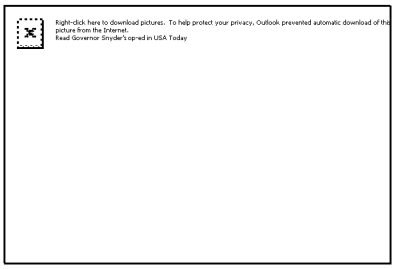
"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.

Governor Snyder with Charlie LeDuff on Fox 2 Detroit



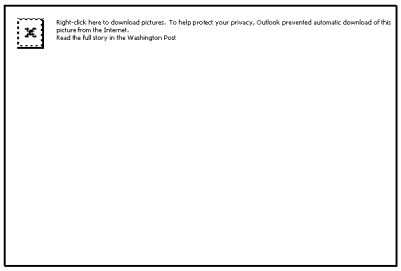
"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm came from people who worked for me, and I feel responsible for that. But I am committed

to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



Governor in USA Today: "I will fix this, and I mean it."

"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

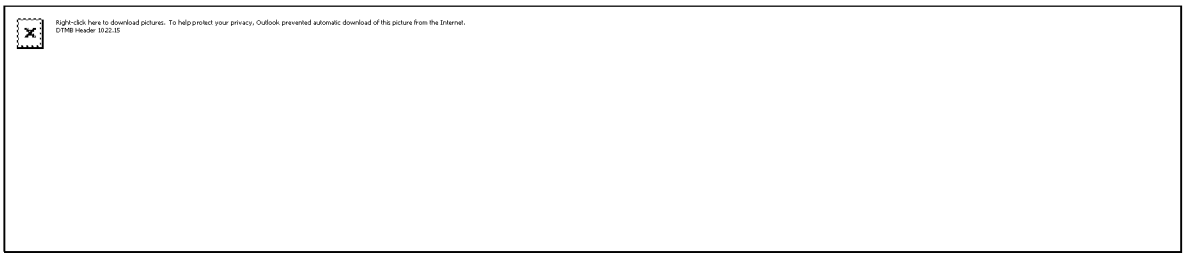
Subject: Flint Volunteer Efforts

Dear State Employees,

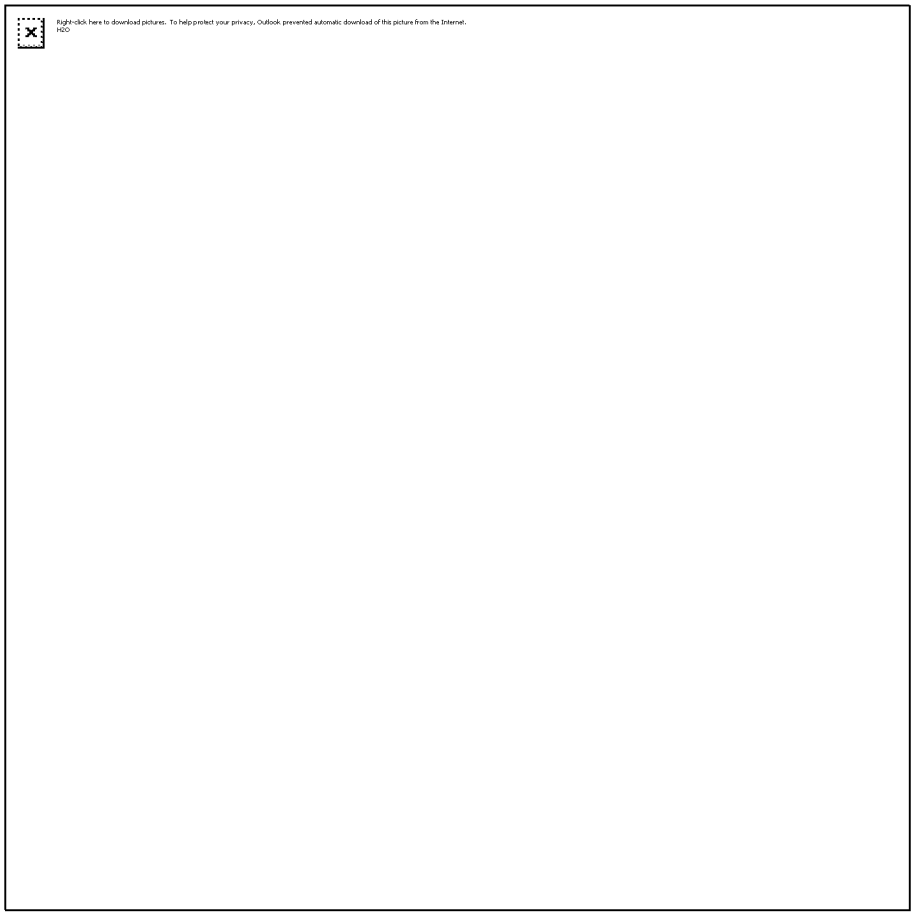
Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.



For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.



Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

Subject: Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.

Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

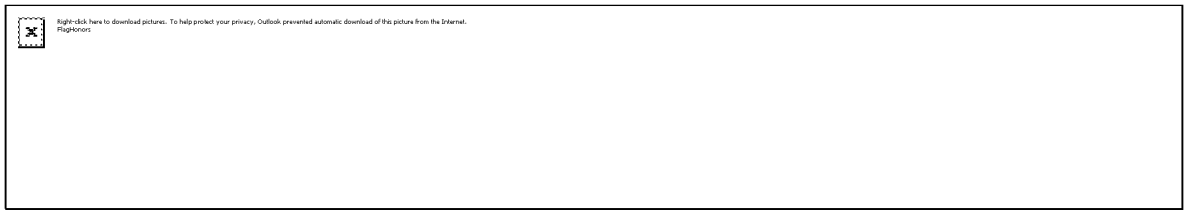
Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,



David

Subject: Thank you for your service

THANK YOU!

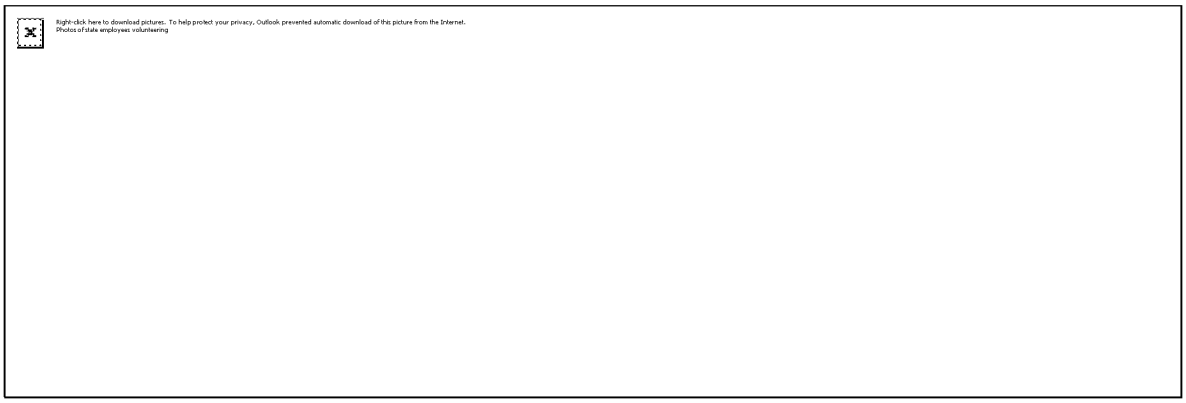
Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.



For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

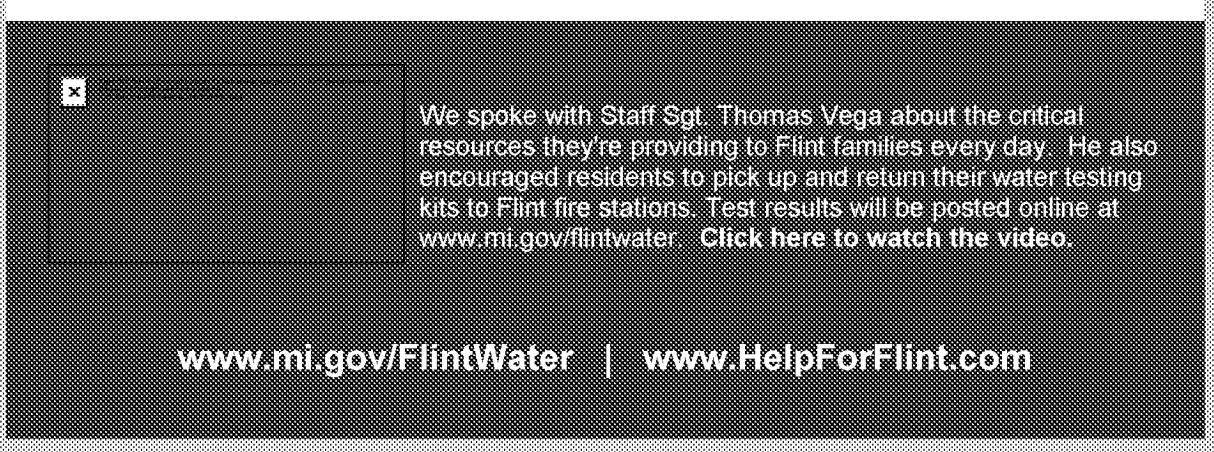
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.



Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

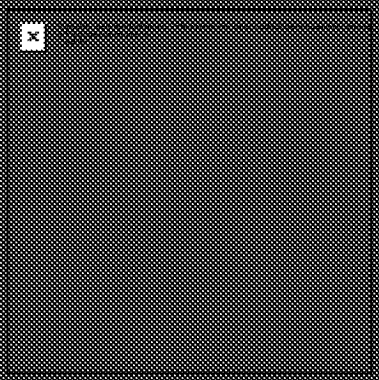
VIDEO: What Governor Snyder's FY17 budget means for Michigan

Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.



This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of Michigan's families. Click here to learn more about the top 6 takeaways from the

Governor's FY 2017 state budget.

ASSA ABLOY acquires ADAEZ Pro Line of wire free door openers

Monroe, NC, February 12 - ASSA ABLOY has successfully completed the acquisition of the ADAEZ Pro line of specialty door operators from EDMIT Industries. The ADAEZ Pro line offers unique benefits for rigorous institutional and commercial applications.

The ADAEZ Pro line comprises two heavy-duty low energy operators, both for high traffic environments. The ADAEZ Pro offers a Regenerative Power System that charges an onboard battery pack, eliminating the need for wired electrical power in high use applications. The Pro ships standard with an integral RF receiver and wireless push buttons that make install a breeze. More

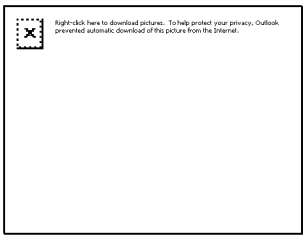
Two Baltimore city companies, Think and PivotPoint, partner to take-on cyber risk

Baltimore, MD, February 4 - Think Systems and PivotPoint Risk Analytics have teamed up to provide a combined offering to companies who are serious about addressing cyber risk.

Jeff Welch, Gerald Caponera, and John Hill.

Think has become an authorized reseller of PivotPoint's CyVaR, a new cyber risk analysis application that analyzes a company's risks in terms of their financial impact. Think provides information technology expertise and executive project control, something they call Bare Knuckled Project Management (BKPM). Now, company executives can see their cyber risk as potential financial impacts on their business, prioritize risk mitigation... More

General Services Administration selects CertiPath's TrustMonitor Platform



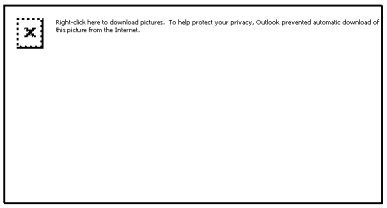
Reston, VA, February 10 - Driven by the ever-intensifying need for identity security, demand for Public Key Infrastructure (PKI) based credentials has never been higher. While increased reliance on high assurance identity credentials is a major benefit to physical and online security, it shines a light on the resiliency and accuracy of the trust network that underpins the credentials.

CertiPath's TrustMonitor ensures this resiliency by tracking the health and well-being of the federated trust infrastructure used to validate the Internet's highest assurance transactions. GSA is leveraging TrustMonitor to ensure the health of its own identity issuance

systems, and the health of the other participants in the federal trust fabric. Chi Hickey, Director of Testing and Procurement, Identity Assurance and Trusted Access Division, Office of... More

Chemring Group appoints Steven F. Cummings (Col, USA-Ret) Vice President

Dulles, VA, February 10 - Chemring Group announced the appointment of Steven F. Cummings (Colonel, USA-Ret) as Vice President Global Business Development and Strategy. In this new role, Mr. Cummings will be responsible for developing growth strategies that include all of Chemring's business segments.



Steven F. Cummings

In coordination with his non-US counterpart, David McDonald, VP, Global Business Development and Strategy, Mr. Cummings will be responsible for business development initiatives of major sales efforts that support broad Chemring Group objectives. These will include international strategies, offset programs, and research and development investments. More

Certified Security Solutions Inc. Announces Technology Integration Agreement with SAP

Cleveland, OH, February 10 - Certified Security Solutions (CSS) Inc., a global leader in secure digital identity and access solutions, announced it will work together with SAP to integrate CSS' large-scale public key infrastructure (PKI)-based certificate management security solution with SAP HANA® Cloud Platform for the Internet of Things.

As a result of the integration, organizations will be able to use CSS' Verdetto IoT Identity Platform together with SAP HANA Cloud Platform for the Internet of Things. Using the CSS solution will provide these organizations with a secure and scalable cloud-based solution that creates and manages digital identities for device authentication, data encryption, and secure communication. Bensalem, PA, February 5 - Since the announcement of "Filters for Flint", ZeroWater is thankful to have surpassed over $40,000 in donations of both pitchers and filters to the residents of Flint, Michigan. The first shipment of ZeroWater's NSF certified lead reduction pitchers and filters has already been delivered and the second shipment is on its way.

"We are extremely proud our "Filters for Flint" program has been such a success. Getting clean water to Flint residents is why this program was created and thanks to our loyal supporters we are doing just that," stated Doug Kellam, CEO of ZeroWater. "We are committed to being a part of the immediate solution as long as Flint needs us." More

VIDEO: How volunteers are helping Flint

Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

Subject: The Gov. Snyder's Budget Proposal

Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

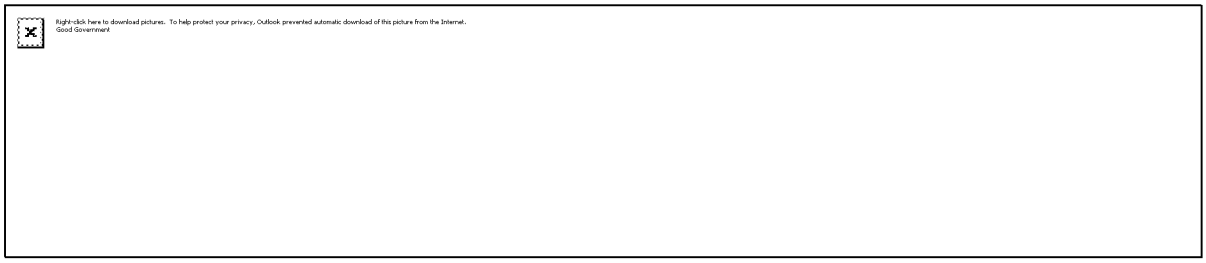
To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.



This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

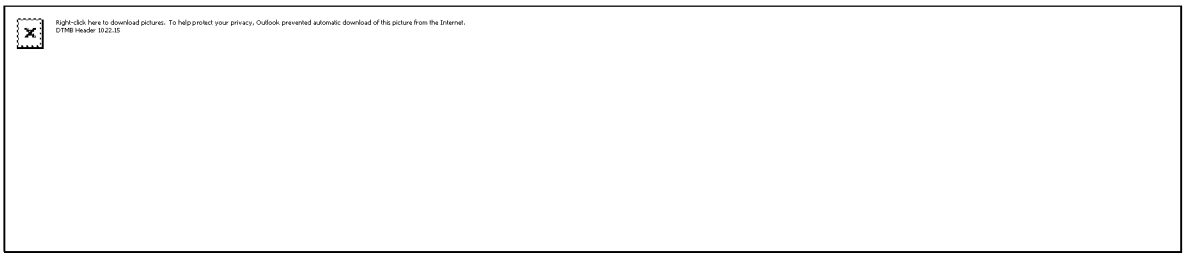
Subject: Flint Volunteer Efforts

Dear State Employees,

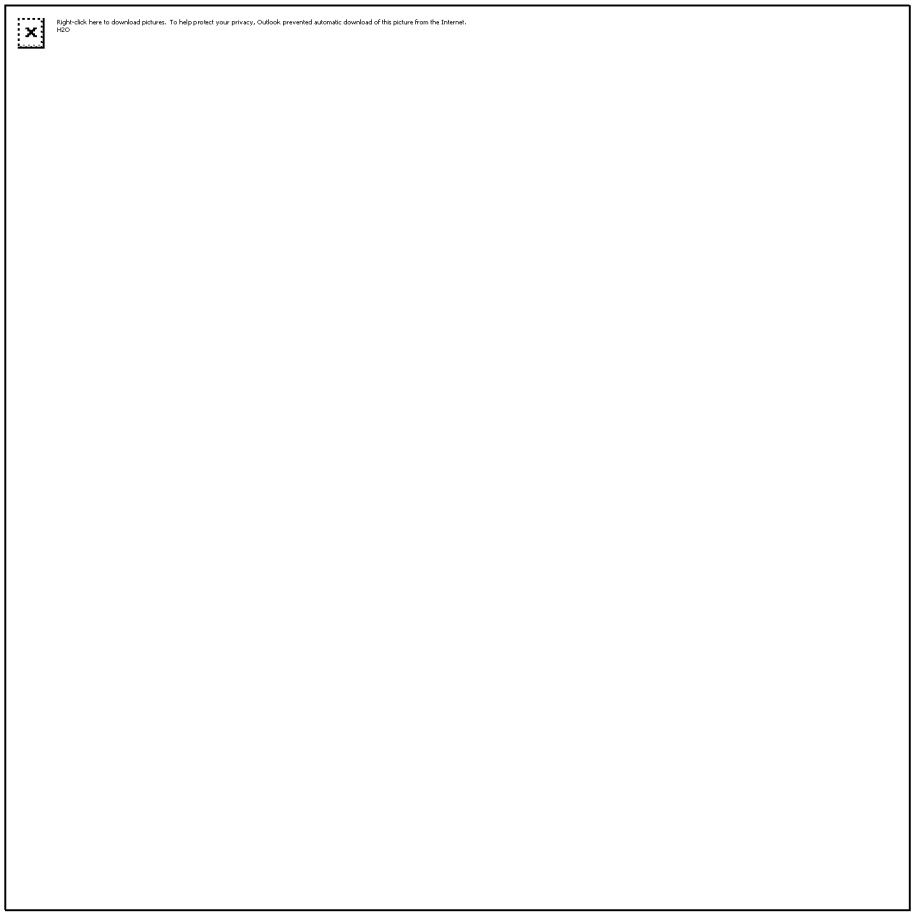
Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.



For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.



Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

Subject: Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.

Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

DTMB Header 1022.15

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.

Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

Summary of Department of Environmental Quality (DEQ) Actions
In Response to the
EPA Emergency Administrative Order
Updated: 02/01/2016 0930

EXECUTIVE SUMMARY:

The EPA Emergency Administrative Order contains 15 overall items to be addressed by DEQ. The status of each of the 15 items has been categorized into ongoing, completed, completed & ongoing, and not completed. The current status of the items is as follows: 7 items are ongoing; 2 items have been completed; 5 items have been completed and are ongoing; and 1 item has not yet been completed. To date, all deadlines imposed in the EPA Order have been met and work continues on several items that require an ongoing effort.

DETAILED INFORMATION:

EPA Order Due Date: 01/21/2016

- **Item 55: "Shall cooperate with EPA for conducting sampling and other diagnostic activities"**
  - The Testing/Sampling Group has been assigned this task.
    - *It is an ongoing process.*
- **Item 60: "Shall not switch water supplies until plans have been submitted and approved"**
  - The Public Health Group has been assigned to this task and they have received an agreement to comply from the City of Flint.
    - *This task has been completed.*

EPA Order Due Date: 01/22/2016

- **Item 50: "Intent to Comply Letter"**
  - The Administrative Group was assigned this task.
    - *This task was completed on 01/22/2016.*

EPA Order Due Date: 01/26/2016

- **Item 51: "Public Website posting all reports, plans, weekly status reports on progress, except Personally Identifying Information (PII)"**
  - The Administrative Group was assigned this task. The information that is currently available has been posted on the website and will be updated as more results become available.
    - *This is an ongoing task.*
  - A representative from the Administrative Group will be working with SEOC to add an EPA Order section.
    - *This is an ongoing task.*

EPA Order Due Date: 01/28/2016

- **Item 63: "Shall engage a panel of experts to advise and make public recommendations to the city on steps needed to mitigate the imminent and substantial endangerment to the health of persons and general operation of the city's PWS to comply with SDWA & NPDWRs"**
    - The Administrative Group has been assigned to this task. A panel of experts had a meeting in Flint on 01/27/2016 at 3:00 p.m.
        - This is an ongoing task.

EPA Order Due Date: 01/31/2016

- **Item 52: "Is progress being made with corrosion control in the City? Respond to EPA Flint Task Force"**
    - The Public Health Group has been assigned to this task. The City of Flint is being asked to provide data.
        - *This task has been completed.*
    - EPA agreed on the dosing level for orthophosphate (01/27/2016).
        - *This task has been completed.*
    - Next step: Conduct weekly status calls with Flint Water Treatment Plant.
        - *This task is completed and is ongoing.*
    - Review Monthly Operational Reports to ensure corrosion control treatment is appropriately maintained.
        - *Task is completed and ongoing.*
    - December Monthly Operations Submitted with Dosages (1st week of January). Data expected from City on 01/29/2016.
        - *Task has been completed.*
- **Item 53:**
    - **A. "Water Quality parameter measurements in distribution system"**
        - The Public Health Group has been assigned to this task.
        - Ensure City conducts/provides WQP data as required and that during their weekly status call, they discuss WQP trends/concerns.
            - *Task is completed and ongoing. (A Monthly Operations Report has been sent to the DEQ by the City of Flint).*
    - **B. "All lead in water testing results for the city since January 2013 including those not used for LCR compliance"**
        - The Public Health Group has been assigned to this task.
            - *Task is completed and ongoing.*
        - Provide any lead results in DEQ files for monitoring since Jan 2013 (target 01/29/2016) to the Administrative Group so that they can vet and send to those who maintain the website.

        - *Task is completed and ongoing. (Residential test results have been posted on the web. Compliance data is being vetted by DEQ staff).*
    - Ensure ongoing monitoring results continue to be provided/posted to website.
        - *This task is ongoing.*
- **C. "Identification of areas by zip code in the city with elevated blood levels"**
    - The Administrative Group has been assigned to coordinate with DHHS.
        - *Ongoing process.*

- **Item 54:**
    - **A. "Existing inventory of homes with lead service lines in Excel or similar format"**
        - The Infrastructure Group and DNR GIS is assigned to the task of compiling this data. Would like to obtain a list of billing addresses that receive Flint Water to aid in mapping.
            - *This task has been completed.*
    - **B. "Addresses of homes that have had water service interruptions or street disturbances (e.g. water main breaks, etc.) within last year"**
        - This task has been assigned to the Infrastructure and Public Health Groups.
            - *This task has been completed.*
        - The Infrastructure and Public Health Groups called the City on 1/29/2016 to get update on status.
            - *This task has been completed.*
    - **C. "Addresses of currently unoccupied homes"**
        - This task has been assigned to the Infrastructure and Public Health Groups. MDEQ is working with the City of Flint Department of Public Works to acquire the data and map these locations. The information for this is not for public dissemination due to safety reasons.
            - *This is an ongoing task.*

- **Item 69:**
    - **A. "Any agent, consultant or contractor used for carrying out this order shall also abide by record retention restrictions under this order"**
        - This task has been assigned to the Administrative Group. The recommended action is to comply with order and provide instruction. Assistant Attorney General (AAG) procured a Document Unit Leader.
            - *This is an ongoing task.*
        - All agents or contractors will be required to comply with the Retention Schedule of the EPA Order.
            - *This task is ongoing.*
        - Identify record retention elements and provide direction to all personnel, agents, or contractors that are or may become involved with the Flint water incident. Also prepare a Documentation Unit Leader task list and identify resource(s) needed to fill the position. This was assign to the Assistant Attorney General.
            - *This task has been completed.*

- **B. "Any agent, consultant or contractor used for carrying out this order shall also abide by record retention restrictions under this order"**
  - This task has been assigned to the Legal Team and the Administrative Group. The Document Unit Leader will work with The AAG and Administrative Group to produce a letter.
    - *This task is ongoing.*
  - It is recommended that a letter should be drafted from DEQ to the City of Flint.
    - *This task is ongoing.*

EPA Order Due Date: 02/04/2016

- **Item 59: "City shall submit to DEQ the following items listed below:"**
  - **A. "Submit a plan and schedule to MDEQ for designated optimal corrosion control and water quality parameters and water monitoring plans"**
    - The Public Health Group has been assigned to this task.
    - Confirm with City that they will have plans completed and submitted by 02/04/2016.
  - **B. "Submit a sampling plan for daily monitoring submitted in a weekly report"**
    - The Public Health Group and Infrastructure Group have been assigned to this task.
    - Confirm with the City that they will have plans completed and submitted by 02/04/2016.
  - **C. "Submit an operations plan for the corrosion control equipment submitted in weekly format including monitoring, calibration, verification and daily monitoring of finished water corrosion control parameters"**
    - The Public Health Group have been assigned to this task.
    - Confirm with the City that they will have plans completed and submitted by 02/04/2016.

EPA Order Due Date: 02/05/2016

- **Item 61: "City must demonstrate and MDEQ must ensure the city has necessary capable and qualified personnel to perform duties in PWS"**
  - The Public Health Group has been assigned to this task.
    - *This is an ongoing task.*
  - MDEQ to get list of all operators employed at the treatment plant and validate that they are properly certified. MDEQ will provide appropriate targeted training for Flint operations staff.

EPA Order Due Date: 02/20/2016

- **Item 62: "City will document and share steps to develop and implement a distribution system water quality optimization plan to MDEQ"**
    - The Public Health Group has been assigned to this in coordination with the City of Flint.
        - *This is an ongoing task.*
    - Establish a realistic due date. MDEQ to contact national drinking water organization currently working on the distribution system optimization plan framework.
    - City to submit proposal by 02/20/2016 to MDEQ and EPA for review/evaluation of the proposal.

EPA Order Due Date: Monthly

- **Item 57: "Shall maintain chlorine residual in the distribution system in accordance to SDW and National Primary Drinking Water Regulations (NPDWR)"**
    - The Public Health Group has been assigned to this task.
        - *This has been completed and ongoing.*
    - Regulatory requirements are already in place for residual chlorine. The City is required to monitor chlorine regularly and report on Monthly Operating Reports.
    - Review Chlorine residual levels in weekly status calls.
- **Item 58: "City shall continue to add corrosion inhibitors at sufficient levels"**
    - The Public Health Group has been assigned to this task.
        - *This is an ongoing task.*
- **Item 68: "Preserve records and data for six years"**
    - The Administrative Group and the Legal Team have been assigned to this.
        - *This is an ongoing task.*
    - To ensure consistency, retain all records following General Schedule #5, specifically GS5.10. When contacted regarding disposal, all records will be put on a litigation hold for one additional year and not destroyed. Training will be conducted by DTMB Record Center to all DEQ staff to ensure consistency and understanding.
        - *This will be an ongoing task.*

EPA Order Due Date: 01/21/2022

- **Item 68: "After six years must notify EPA 60 calendar days prior to destruction of any data pertaining to this order"**
    - The Administrative Group and the Legal Team have been assigned to this task.
    - To ensure consistency, retain all records following General Schedule #5, specifically GS5.10. When contacted regarding disposal, all records will be put on a litigation hold for one additional

year and not destroyed. U.S. EPA will be notified when the additional one-year litigation hold is put in place.

- *This is an ongoing task.*

Summary of Department of Environmental Quality (DEQ) Actions
In Response to the
EPA Emergency Administrative Order
Updated: 01/31/2016 1335

Executive Summary:

The EPA Emergency Administrative Order contains 15 overall items to be addressed by DEQ. The status of each of the 15 items has been categorized into ongoing, completed, completed & ongoing, and not completed. The current status of the items is as follows: 7 items are ongoing; 2 items have been completed; 5 items have been completed and are ongoing; and 1 item has not yet been completed. To date, all deadlines imposed in the EPA Order have been met and work continues on several items that require an ongoing effort.

Detailed Information:

EPA Order Due Date: 01/21/2016

- **Item 55: "Shall cooperate with EPA for conducting sampling and other diagnostic activities"**
  - The Testing/Sampling Group has been assigned this task.
    - *It is an ongoing process.*
- **Item 60: "Shall not switch water supplies until plans have been submitted and approved"**
  - The Public Health Group has been assigned to this task and they have received an agreement.
    - *This task has been completed.*

EPA Order Due Date: 01/22/2016

- **Item 50: "Intent to Comply Letter"**
  - The Administrative Group was assigned this task.
    - *This task was completed on 01/22/2016.*

EPA Order Due Date: 01/26/2016

- **Item 51: "Public Website posting all reports, plans, weekly status reports on progress, except Personally Identifying Information (PII)"**
  - The Administrative Group was assigned this task. The currently available information has been posted on the website and will be updated as more results become available.
    - *This is an ongoing task.*
  - A representative from the Administrative Group will be working with SEOC to add an EPA order section.
    - *This is an ongoing task.*

EPA Order Due Date: 01/28/2016

- **Item 63: "Shall engage a panel of experts to advise and make public recommendations to the city on steps needed to mitigate the imminent and substantial endangerment to the health of persons and general operation of the city's PWS to comply with SDWA & NPDWRs"**
    - The Administrative Group has been assigned to this task. A panel of experts had a meeting in Flint on 01/27/2016 at 3:00 p.m.
        - This is an ongoing task.

EPA Order Due Date: 01/31/2016

- **Item 52: "Is progress being made with corrosion control in the City? Respond to EPA Flint Task Force"**
    - The Public Health Group has been assigned to this task. The City of Flint is being asked to provide data.
        - *This task has been completed.*
    - EPA agreed on the dosing level for orthophosphate (01/27/2016).
        - *This task has been completed.*
    - Next step: Conduct weekly status calls with Flint Water Treatment Plant.
        - *This task has been completed.*
    - Review Monthly Operational Reports to ensure corrosion control treatment is appropriately maintained.
        - *Task is completed and ongoing.*
    - December Monthly Operations Submitted with Dosages (1st week of January). Data expected from City on 01/29/2016.
        - *Task has been completed.*
- **Item 53:**
    - **A. "Water Quality parameter measurements in distribution system"**
        - The Public Health Group has been assigned to this task.
        - Ensure City conducts/provides WQP data as required and that during their weekly status call, they discuss WQP trends/concerns.
            - *Task is completed and ongoing. (A Monthly Operations Report has been sent to the DEQ by the City of Flint).*
    - **B. "All lead in water testing results for the city since January 2013 including those not used for LCR compliance"**
        - The Public Health Group has been assigned to this task.
            - *Task is completed and Ongoing.*

        - Provide to the Administrative Group so that they can vet and send to those who maintain website any lead results in DEQ files for monitoring since Jan 2013 (target 01/29/2016).
            - *Task is completed and Ongoing. (Residential test results have been posted on the web. Compliance data is being vetted by DEQ staff).*
        - Ensure ongoing monitoring results continue to be provided/posted to website.
            - *This task is ongoing.*
    - **C. "Identification of areas by zip code in the city with elevated blood levels"**
        - The Administrative Group has been assigned to coordinate with DHHS.
            - *Ongoing process.*
- **Item 54:**
    - **A. "Existing inventory of homes with lead service lines in Excel or similar format"**
        - The Infrastructure Group and DNR GIS is assigned to this task or compiling this data. Would like to obtain a list of billing addresses that receive Flint Water to aid in mapping.
            - *This task has been completed.*
    - **B. "Addresses of homes that have had water service interruptions or street disturbances (e.g. water main breaks, etc.) within last year"**
        - This task has been assigned to the Infrastructure and Public Health Groups.
            - *This task has been completed.*
        - The Infrastructure and Public Health Groups will call the City on 1/29/2016 to get update on status.
            - *This task has been completed.*
    - **C. "Addresses of currently unoccupied homes"**
        - This task has been assigned to the Infrastructure and Public Health Groups. MDEQ is working with the City of Flint Department of Public Works to acquire the data and map these locations. Would like to obtain information as to where water is turned off. State Emergency Operations Center (SEOC) will contact MSP. The information for this is not for public dissemination due to safety reasons.
            - *This is an ongoing task.*
- **Item 69:**
    - **A. "Any agent, consultant or contractor used for carrying out this order shall also abide by record retention restrictions under this order"**
        - This task has been assigned to the Administrative Group. The recommended action is to comply with order and provide instruction. Assistant Attorney General (AAG) procured a Document Unit Leader.
            - *This is an ongoing task.*
        - All agents or contractors will be required to comply with the Retention Schedule of the EPA Order.
            - *This task is ongoing.*

        - Identify record retention elements and provide direction to all personnel, agents, or contractors that are or may become, involved with the Flint water incident. Also need to prepare a Documentation Unit Leader task list and identify resource(s) needed to fill the position.

          This was assign to the Assistant Attorney General.
            - *This task has been completed.*
    - **B. "Any agent, consultant or contractor used for carrying out this order shall also abide by record retention restrictions under this order"**
        - This task has been assigned to the Legal Team and the Administrative Group. The DOCUL will work with The AAG and Administrative Group to produce letter.
            - *This task is ongoing.*
        - It is recommended that a letter should be drafted from DEQ to the City of Flint.
            - *This task is ongoing.*

EPA Order Due Date: 02/04/2016

- **Item 59: "City shall submit to DEQ the following items listed below:"**
    - **A. "Submit a plan and schedule to MDEQ for designated optimal corrosion control and water quality parameters and water monitoring plans"**
        - The Public Health Group has been assigned to this task.
        - Confirm with City that they will have plans completed and submitted by 02/04/2016.
    - **B. "Submit a sampling plan for daily monitoring submitted in a weekly report"**
        - The Public Health Group and Infrastructure Group have been assigned to this task.
        - Confirm with the City that they will have plans completed and submitted by 02/04/2016.
    - **C. "Submit an operations plan for the corrosion control equipment submitted in weekly format including monitoring, calibration, verification and daily monitoring of finished water corrosion control parameters"**
        - The Public Health Group have been assigned to this task.
        - Confirm with the City that they will have plans completed and submitted by 02/04/2016.

EPA Order Due Date: 02/05/2016

- **Item 61: "City must demonstrate and MDEQ must ensure the city has necessary capable and qualified personnel to perform duties in PWS"**
    - The Public Health Group has been assigned to this task.
        - *This is an ongoing task.*
    - MDEQ to get list of all operators employed at treatment plant and validate that they are properly certified, and to provide appropriate targeted training for Flint operations staff.

EPA Order Due Date: 02/20/2016

- **Item 62: "City will document and share steps to develop and implement a distribution system water quality optimization plan to MDEQ"**
    - The Public Health Group has been assigned to this, in coordination with the City of Flint.
        - *This is an ongoing task.*
    - Establish realistic due date. MDEQ to contact national drinking water organization currently working on distribution system optimization plan framework.
    - City to submit proposal by 02/20/2016 to MDEQ and EPA to review/evaluate proposal.

EPA Order Due Date: Monthly

- **Item 57: "Shall maintain chlorine residual in the distribution system in accordance to SDW and National Primary Drinking Water Regulations (NPDWR)"**
    - The Public Health Group has been assigned to this task.
        - *This has been completed and ongoing.*
    - Regulatory requirements already in place for residual chlorine. City is required to monitor chlorine regularly and report on Monthly Operating Reports.
    - Review Chlorine residual levels in weekly status calls.
- **Item 58: "City shall continue to add corrosion inhibitors at sufficient levels"**
    - The Public Health Group has been assigned to this task.
        - *This is an ongoing task.*
- **Item 68: "Preserve records and data for six years"**
    - The Administrative Group and the Legal Team have been assigned to this.
        - *This is an ongoing task.*
    - To ensure consistency, retain all records following General Schedule #5, specifically GS5.10. When contacted regarding disposal, all records will be put on a litigation hold for one additional year, and not destroyed. Training will be conducted by DTMB Record Center to all DEQ staff to ensure consistency and understanding.
        - *This will be an ongoing task.*

EPA Order Due Date: 01/21/2022

- **Item 68: "After six years must notify EPA 60 calendar days prior to destruction of any data pertaining to this order"**
    - The Administrative Group and the Legal Team have been assigned to this task.
    - To ensure consistency, retain all records following General Schedule #5, specifically GS5.10. When contacted regarding disposal, all records will be put on a litigation hold for one additional

year, and not destroyed. U.S. EPA will be notified when the additional one-year litigation hold is put in place.

- *This is an ongoing task.*

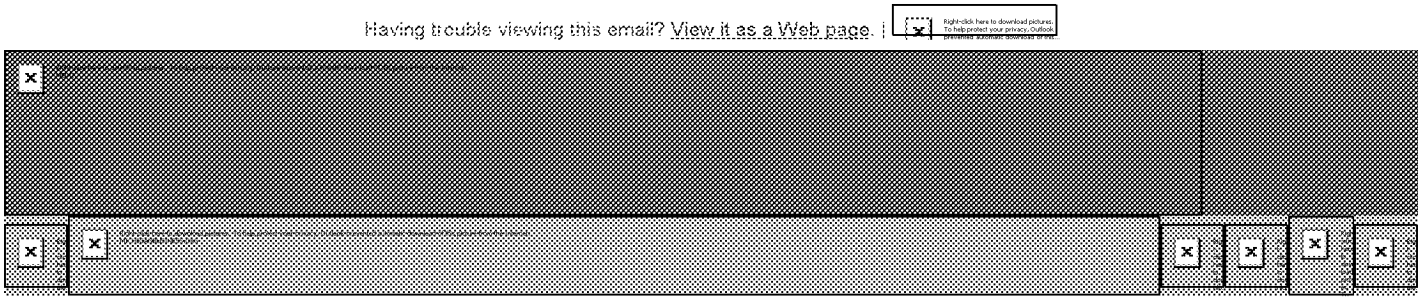
Subject: Welcome to the SharePoint group: Flint Water Response ECC Team for site: Flint Water Response Team

Welcome to the 'Flint Water Response ECC Team' SharePoint group. Tiernan, Gerald (DEQ) (SOM\tiernang) has added you to the 'Flint Water Response ECC Team' group for this SharePoint site.

As a member of this SharePoint group, you can:
* Participate in the SharePoint site at: http://inside.michigan.gov/sites/deq/Flint_Water_Response
* View the group home page at:
http://inside.michigan.gov/sites/deq/Flint_Water_Response/_layouts/people.aspx?MembershipGroupId=3243

What is a SharePoint site?



A SharePoint site is a Web site that provides a central storage and collaboration space for documents, information, and ideas. A SharePoint site is a tool for collaboration, just like a telephone is a tool for communication, or a meeting is a tool for decision making. A SharePoint site helps groups of people (whether work teams or social groups) share information and work together. For example, a SharePoint site can help you:

* Coordinate projects, calendars, and schedules.
* Discuss ideas and review documents or proposals.
* Share information and keep in touch with other people.

SharePoint sites are dynamic and interactive -- members of the site can contribute their own ideas and content as well as comment on or contribute to other people's.

Value for Money Government Group Report

MiStat Review
Feb-16

Mission: The Value for Money Government group supports and enables effective and efficient state operations while protecting state assets through diverse partnerships.

Vision: We will make the State of Michigan one of the most innovative, efficient and responsive governments in the world.

Activities that support dashboard measures

	Prior	Current	Progress
Credit Rating	Moody's: Aa2 (positive) (2014) S&P: AA- (stable) (2014) Fitch: AA (stable) (2014)	Moody's: Aa1 (stable) (2015) S&P: AA- (positive) (2015) Fitch: AA (stable) (2015)	= = =
Government Debt Burden Per Capita	$785 (2013)	$758 (2014)	👍
State Government Operating Cost as a Percentage of State Gross Domestic Product	14.9% (2012)	14.6% (2013)	👍
State and Local Government Operating Cost as a Percentage of State Gross Domestic Product	21.40% (2012)	20.70% (2013)	👍
Access to State Government – Number of Online Services	271	276	👍

👍 Performance improving = Performance staying about the same 👎 Performance declining

Issue 5 - **Department of Technology Management and Budget**

- **MiPage:** DTMB is working to identify and promote opportunities for high value mobile conversions and MILogin candidates. Current conversion projects include: TAMC for MDOT, Fishing Tournaments application for DNR, Wildfire application for DNR, and a mapping project for MEDC. DTMB is offering conversion services, and we is also soliciting responses for a pre-qualified vendor list to help agencies with the mobile conversions if they would prefer to work with an outside vendor. Thus far, 18 responses have been received to the pre-qualified vendor RFP. We anticipate finalizing this list by the end of March, 2016. A new MiPage release was available in the app stores the week of January 25th, and additional releases are planned for spring (5/29/2016) and summer (8/28/2016).
- **Cyber:** Michigan continues to face over 12 million cyber attempts per day. Recently, so-called hacktivist groups have targeted the state in response to the Flint water crisis. The City of Flint and Hurley Hospital in Flint have been targeted as well. Since this threat was announced, DTMB has worked organized a cross-lateral team of experts to ensure that we are able to respond as quickly as possible to potential threats. Specifically, DTMB has been working with MSP, the National Guard, the City of Flint, IBM, and other private sector partners.
- **CAR:** DHHS is moving from the Capitol View Building to 333 W. Grand Ave 1st - 5th floors. Phase #1 begins May 20, 2016, phase #2 follows starting on June 3, 2016, and phase #3 is slated to begin June 10, 2016. Crime Victim Services and Developmental Disabilities Council will be moving to Grand Tower 11th floor and Lewis Cass garden level. Details about Aging & Adult Services Agency and the Business Integration Center are being developed. MSP moves from 333 W. Grand Ave. to 7150 Harris Dr. Diamondale. Phase #1 was planned to begin December 11, 2015, phase #2 is planned for March 11, 2016, phase #3a Aril 1-7, 2016, phase #3b April 8, 2016, and phase #3c April 15, 2016.
- **Operational Excellence & RPM Reviews:** DTMB has examined root cause(s) for IT projects that over budget and anticipated timeline. Automation of inefficient business processes was found to be a root cause of these issues. In order to develop the best solution possible and stay within budget, DTMB and the Office of Good Government will work with agencies to ensure that the underlying process business has been reviewed and optimized before commencing work.

Issue 2 - **Michigan Gaming Control Board**

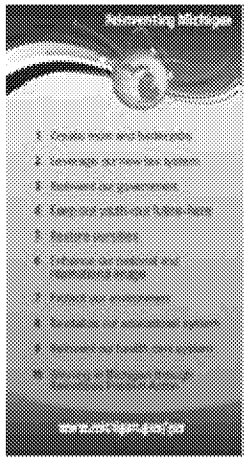
- **Commercial Casinos**:
  - Total revenue for calendar year 2015 was $1.38 billion, up 3.3% compared to calendar year 2014
  - Taxes- $174.3 million paid to the City of Detroit and $111.5 million paid to the State in 2015.
- **Non-Gaming Suppliers- Board Resolution 2015-01:**
  - Increased the thresholds for non-disclosure from $15,000 to $50,000 per casino
    - 24% decrease in the number of vendor exemptions in 2015
  - Increased the thresholds for a vendor exemption from $300,000 per casino ($600,000 total) to $400,000 per casino ($1,200,000 total)
    - 20% decrease non-gaming license requests for low-volume suppliers in 2015
    - 50% decrease in processing time for exemption applications (42 to 21 days)
- **Millionaire Parties (MP):**
  - In 2015 the number of suppliers and locations have remained relatively static compared to 2014
    - Current number of locations is 50; Current number of suppliers is 33
  - In 2015 there was a slight decrease in the number of event days
    - Total event days in 2015 was 10,146 compared to 10,508 in 2014
  - 70 indictments in 2015 and 2016 involving 10 defendants issued by the Attorney General's (AG) Office as a result of AG, MGCB investigations
- **Horse Racing:**
  - 90 total race days scheduled in calendar year 2016
    - 60 days of harness racing at Northville Downs; 30 days of thoroughbred racing at Hazel Park
  - Numerous meetings have been held with the various stakeholders to try to reach a compromise on legislation that would help the industry
- **Daily Fantasy Sports (DFS):**
  - 11 states have declared DFS illegal
    - 10 states have introduced legislation to legalize, or tax and regulate DFS, including Michigan (SB 0459)
  - MGCB board members are asking for information on DFS

Issue 3 - **Lottery**

- Fiscal Year 2015 was a record year with gross sales at approximately $2.771 billion (a 6.8% increase from last year) and a contribution to the school aid fund of approximately $795 million (a 7.2% increase from last year).
- **iLottery:** program continues to grow. Average net-win (bets minus prizes) over the last eight weeks was approximately $580,000 per week (a 28.9% increase from the weekly average reported last July). Sales of draw-games (Classic Lotto 47, Fantasy 5, Mega Millions, and Powerball) have started this month.
- **Pilot program:** Charitable Gaming Division is pilot testing a new charity-ticket dispensing machine for use by licensed nonprofit organizations. The pilot consists of 57 machines at 20 different locations. Average daily revenue from charity-ticket sales per machine is close to $100 a day, which is statutorily divided 60% to the licensed nonprofit organizations and 40% to the Charitable Gaming Division (and subsequently to the general fund). Total revenue from tickets sold through these dispensers to date is approximately $1.3 million (with roughly $530,000 going to Charitable Gaming).

Issue 4 - **Office of Children's Ombudsman**

- Case backlog reduction from approximately 85 down to 3 (3 cases related to an employee performance improvement plan currently underway)
- In the testing stages of the CRM case management database- Go-live scheduled for the first week of February
- New investigators have been trained and are closing cases within established timeframes
- Office and staff efficiency optimization
    - Relocation/space optimization
    - Cohesion
    - Consistency
    - Fiscally prudent
- Leadership principles applied- teamwork/accountability/communication



Issue 1 - **State Budget Office**

- **SIGMA:** The re-planning for Phase 1.5 and Phase 2 is complete and the re-baseline of Project SIGMA was approved by the Project Executives, Governing Board Co-Chairs and Executive Sponsor. Agency work related to re-planning is complete. Weekly project health checkpoints have been completed to review schedules and status prior to Agencies generating their 4UP reports. Agencies have attended the majority of the Functional Design Showcases which highlight key design decisions and business processes associated with functionality being implemented in Phase 2. The presentation for End to End Processes is scheduled for week of February 1st with Security and Workflow being addressed in March.

Issue 6 - **Treasury**

- **MTO Optimization Deliverables by Release November 2, 2015:**
    - Over the next 4 months:
        - Implement a single password, this has been one of the biggest pain points for the user community (Completing via Release 1)
        - Reduce the number of steps needed for authentication (Completing via Release 1)
        - Rebranding MTO to make improvements to the look and feel (Completing via Release 1)
    - Over the next 4 to 6 months, additional improvements will be implemented, such as:
        - Increased functionality for password resets (Completing via Release 1)
        - Inactivity alert before expiration (Completing via Release 1)
        - Continued improvements to MTO look so the user feels that they are in a single site from start to finish (Completing via Release 2, 3, n)
    - Over the next 7 to 16 months:
        - Auto-population functionality (Completing via Release 3)
        - Improved delegation process (Completing via Release 1)
        - Delivery of email confirmations after returns are submitted (Completing via Release 1)

** Release 1 (January 11, 2016); Release 2 (April 2, 2016) and Release 3 (December 2016)

Value for Money Government Group Report

MiStat Review
Feb-16

Mission: The Value for Money Government group supports and enables effective and efficient state operations while protecting state assets through diverse partnerships.

Vision: We will make the State of Michigan one of the most innovative, efficient and responsive governments in the world.

Activities that support dashboard measures

Top Issues Briefing Report (2 Pages)

Issue 1 - **Department of Technology Management and Budget**

- **MiPage:** We are working to identify and promote opportunities for high value mobile conversions and MILogin candidates. Current conversion projects include: TAMC for MDOT, Fishing Tournaments application for DNR, Wildfire application for DNR, and a mapping project for MEDC. DTMB is offering conversion services, and we is also soliciting responses for a pre-qualified vendor list to help agencies with the mobile conversions if they would prefer to work with an outside vendor. Thus far, 18 responses have been received to the pre-qualified vendor RFP. We anticipate finalizing this list by the end of March, 2016. A new MiPage release was available in the app stores the week of January 25th, and additional releases are planned for spring (5/29/2016) and summer (8/28/2016).
- [redacted]
- **CAR:** MSP moves to GOB started in November 2015 and will be completed in March 2016. DHHS moves from Capital View to MSP Headquarters building are scheduled for May of 2016 - June 2016. Project is on schedule and within budget. MSP moves from downtown Lansing to Secondary Complex started in December 2015 and are to be completed in April 2016.
- **Operational Excellence & RPM Reviews:** DTMB has examined root cause(s) for IT projects that over budget and anticipated timeline. Automation of inefficient business processes was found to be a root cause of these issues. In order to develop the best solution possible and stay within budget, DTMB and the Office of Good Government

Issue 2 - **Michigan Gaming Control Board**

- **Commercial Casinos**:
  - Total revenue for calendar year 2015 was $1.38 billion, up 3.3% compared to calendar year 2014
  - Taxes- $174.3 million paid to the City of Detroit and $111.5 million paid to the State in 2015.
- **Non-Gaming Suppliers- Board Resolution 2015-01:**
  - Increased the thresholds for non-disclosure from $15,000 to $50,000 per casino
    - 24% decrease in the number of vendor exemptions in 2015
  - Increased the thresholds for a vendor exemption from $300,000 per casino ($600,000 total) to $400,000 per casino ($1,200,000 total)
    - 20% decrease non-gaming license requests for low-volume suppliers in 2015
    - 50% decrease in processing time for exemption applications (42 to 21 days)
- **Millionaire Parties (MP):**
  - In 2015 the number of suppliers and locations have remained relatively static compared to 2014
    - Current number of locations is 50; Current number of suppliers is 33
  - In 2015 there was a slight decrease in the number of event days
    - Total event days in 2015 was 10,146 compared to 10,508 in 2014
  - 70 indictments in 2015 and 2016 involving 10 defendants issued by the Attorney General's (AG) Office as a result of AG, MGCB investigations
- **Horse Racing:**
  - 90 total race days scheduled in calendar year 2016
    - 60 days of harness racing at Northville Downs; 30 days of thoroughbred racing at Hazel Park
  - Numerous meetings have been held with the various stakeholders to try to reach a compromise on legislation that would help the industry
- **Daily Fantasy Sports (DFS):**
  - 11 states have declared DFS illegal
    - 10 states have introduced legislation to legalize, or tax and regulate DFS, including Michigan (SB 0459)
  - MGCB board members are asking for information on DFS

Issue 3 - **Lottery**

- Fiscal Year 2015 was a record year with gross sales at approximately $2.771 billion (a 6.8% increase from last year) and a contribution to the school aid fund of approximately $795 million (a 7.2% increase from last year).
- **iLottery:** iLottery: The program continues to grow. Average net-win (bets minus prizes) over the last eight weeks was approximately $580,000 per week (a 28.9% increase from the weekly average reported last July). Internet sales of draw-games (Classic Lotto 47, Fantasy 5, Mega Millions, and Powerball) have started this month. We intend to increase marketing of the iLottery program, including a local Super Bowl commercial that will appear in various Michigan markets.
- **Pilot program:** Charitable Gaming Division is pilot testing a new charity-ticket dispensing machine for use by licensed nonprofit organizations. The pilot consists of 57 machines at 20 different locations. Average daily revenue from charity-ticket sales per machine is close to $100 a day, which is statutorily divided 60% to the licensed nonprofit organizations and 40% to the Charitable Gaming Division (and subsequently to the general fund). Total revenue from tickets sold through these dispensers to date is approximately $1.3 million (with roughly $530,000 going to Charitable Gaming).

Issue 4 - **Office of Children's Ombudsman**

- Case backlog reduction from approximately 85 down to 3 (3 cases related to an employee performance improvement plan currently underway)
- In the testing stages of the CRM case management database- Go-live scheduled for the first week of February
- New investigators have been trained and are closing cases within established timeframes
- Office and staff efficiency optimization
    - Relocation/space optimization
    - Cohesion
    - Consistency
    - Fiscally prudent
- Leadership principles applied- teamwork/accountability/communication

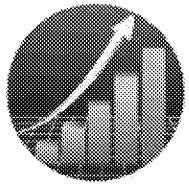
Issue 5 - **State Budget Office**

- **SIGMA:** The re-planning for Phase 1.5 and Phase 2 is complete and the re-baseline of Project SIGMA was approved by the Project Executives, Governing Board Co-Chairs and Executive Sponsor. Agency work related to re-planning is complete. Weekly project health checkpoints have been completed to review schedules and status prior to Agencies generating their 4UP reports. Agencies have attended the majority of the Functional Design Showcases which highlight key design decisions and business processes associated with functionality being implemented in Phase 2. The presentation for End to End Processes is scheduled for week of February 1st with Security and Workflow being addressed in March.

Issue 6 - **Treasury**

- **Treasury and DTMB partnered to update Michigan Treasury Online (MTO) to improve customer experience and addressed many of them common issues by implementing the following on January 11, 2016:**
    - MBOS was eliminated. MTO users will no longer need to access MBOS in order to submit Sales, Use, and Withholding tax returns and payments or make changes to your Business Registration information.
    - Taxpayers will experience a simplified log-in- process. Only one username and password is required to enter the site, file a return, and make a payment.
    - Reduction in the steps to create a user profile and create a new business relationship.
    - Authorized users now have the ability to self-delegate to a business
    - A Fast File now option is available, allows for immediate access to file and pay your tax returns without creating a business relationship.
    - January 2016 - 67% of taxpayers surveyed were either mostly satisfied very satisfied with MTO.

Please find attached updated MTO optimization deliverable document.



Issue 6 - **Treasury *continued***

- **Department progress report on Operational Excellence 2015 projects.**
    - We started with a list of over 20 projects to improve customer service and the efficiency of the department.
    - Some of our accomplishments:
        - Tax Processing: IIT department will process all returns in the year that they were submitted for the first time in the year they were received.
        - Audits: timeline reduced by an average of 35% for Sales and Use tax audits.
        - Tax Hearings: timeline has been reduced from 18 months to 12 months. On target to reach 6 months by end of summer.
        - Escheats: worked with external group to develop, recommend and adopt legislation to streamline escheats process
        - POA: Implemented a one pager Power of Attorney form; created a workflow with Section 8 requests.

Power point attached with more detail

Department has begun our 2016 projects.

- SAP: Strategic plan to fix and finish SAP
- Call Center process improvements
- Document processing: identify/eliminate delays in processing returns that require additional information from the taxpayer
- Roll out Employment Engagement Operational Excellence: hiring, training, leadership and internal communications
- Improve the internal/external Legislative process: better bill analysis, bill positions and move from reactive to forward thinking
- Local Government: Dashboards/Early Warning systems for local governments and schools

Date Approved: 1/12/2016

Metric ID	Metric	Status	Progress	Target	Current	Previous	Frequency	Metric Definition
DTMB Goal 1: Develop Trusted Partnerships with our Customers								
CIP 3	EXECUTE IT - Percentage of SOM employees completing IT Security Awareness training 1	Green		75%	78%	73%	Quarterly	This measure provides the percentage of state employees that have completed IT awareness training.
CSC 3	EXECUTE IT - Percentage of calls resolved by first level agents within the DTMB Client Service Center	Yellow		85.0%	64.2%	65.4%	Monthly	This metric represents the percentage of the number of incidents resolved by First Level agents, divided by all calls received through the CSC. Any incident that is pushed out to another support level (Desktop Support, Level 2 IT support, Vendor support, etc.) is, by definition, not resolved at Level 1 and thus not included in the numerator.
E-Mich 3	GOV DASHBOARD/EXECUTE IT - Number of citizen facing online services	Yellow	=	316	276 Services	276 Services	Monthly	The target is to develop 40 new citizen facing online services per fiscal year. The number is reported monthly, and tracks the cumulative total. FY2016 started with 276 services, the goal is to have 316 citizen facing online services by 9/30/16.
FBSA 1	EXECUTIVE SPACE PLAN - Satisfaction Survey Scores to measure Customer experience during the CAR Project	Green		3.75	4.56 Overall Mean Score: CAR Project	4.60	Monthly	Target Metrics: Green = >3.75 - Yellow = 3.0 - 3.74 - Red = <2.99 The Capital Area Reconfiguration (CAR) Project involves the reorganization of 7 State of Michigan Agencies between 6 Lansing Area Locations including more than 1,730 employees. The project is intended to create efficiencies of operations and use of State owned Buildings. The Satisfaction Survey will measure/track the Customer experience and level of satisfaction by Milestone Event/Location/Group. This will include documentation of milestones for Newsletters, Site Website and Scheduled Events. Reporting will be provided by Milestone/Location as well as status to overall CAR Project.
OPM 1 / GG1	CHANGE MANAGEMENT - Percentage of State of Michigan employees that are satisfied with DTMB services overall (biennial survey)	Yellow	=	65%	56%	New Metric	Every Other Year	In April of 2015, DTMB administered a customer satisfaction survey to all State of Michigan employees asking them a series of questions to rate DTMB overall and to provide feedback on individual services. This metrics shows the percentage of respondents that agree or strong agree with the statement 'overall, I am satisfied with the services I receive from DTMB'.
DTMB Goal 2: Achieve a Culture of Excellence and Accountability								
CFO 1	Percentage of Programs operating within approved spend plans	Green	=	100%	100%	100%	Quarterly	Percentage of Programs operating within approved spend plans. New metric - will begin reporting in FY2016. Quarterly Percentage of programs that are operating within the established spend plans that have been approved by Exec. Management Team, using the process established, to define and set program spend plans.
CTO 1	EXECUTE IT - Strategic Network Upgrade Meets Life Cycle Requirements	Yellow		100%	86%	75%	Quarterly	Strategic Network Upgrade: Project to remediate enterprise network issues, specifically number of devices replaced or upgraded to meet life cycle requirements.
OPM 3	CHANGE MANAGEMENT - Percent of DTMB Strategic Plan objectives on schedule	Green	=	90%	95%	95%	Monthly	The DTMB Strategic Plan is located at http://michigan.gov/documents/dtmb/DTMBStrategicPlan2014_461748_7.pdf. Implementation plans have been created by DTMB Senior Management Team members for each of the 20 objectives. This metrics measures the number of tasks that are on schedule (marked with a green status) or completed, divided by the total number of tasks. A green status indicates the major milestones are on schedule.
FBSA 2	Executive Space Plan - Percentage of CAR Project Milestones achieving budget and schedule adherence.	Green	=	100%	100%	100%	Monthly	The Capital Area Reconfiguration (CAR) Project involves the reorganization of 7 State of Michigan Agencies between 6 Lansing area locations including more than 1,730 employees. The project is intended to create efficiencies of operations and use of State owned buildings. The project schedule and budget will be tracked by milestone event/segment and overall CAR project. This will include documentation of/against original scope/schedule and any approved scope changes that impacted budget/schedule. Reporting will be provided by milestone/segment as well as status to overall CAR project.
ORS1	Retirement System Cost Per Member	Green		$ 61.98	$ 55.69 FY 2014	$ 54.71	FY Annually	Measures the cost per member, in dollars, to administer the retirement system in comparison to our peers. Our cost per member will be lower than 75% of the retirement systems in our peers group.
DTMB Goal 3: Value, Engage and Empower Employees								
Civil Service 1	UPDATE TALENT - Percentage of DTMB Managers that have completed 16 hours of leadership training	Red	=	95%	70%	70%	CY Annually	DTMB Strategic Objective 3.1: Provide leadership and professional development opportunities. DTMB Managers are part of Civil Service Group 3, Group 4, and the Senior Executive Service. Most recently all managers were required to take Crucial Conversations.
OPM 4	CHANGE MANAGEMENT - Percentage of DTMB employees participating in the annual employee engagement survey	Green		90%	88% March 2015	72%	Every Other Year	The percentage of DTMB employee who participated in the annual State Employee Engagement survey in September.
OPM 5 / GG2	CHANGE MANAGEMENT - Percentage of "Champion" employees in DTMB (biennial survey)	Green		67%	59% March 2015	52%	Every Other Year	The percentage of DTMB employees who are engaged and likely to stay, as measured by the annual State Employee Engagement survey in September.
DTMB Goal 4: Lead, Innovate and Deliver Solutions								
CS 7	EXECUTE IT - Percentage of IT Investment Fund Portfolio projects completed on time and on budget against baseline	Green	=	90%	91.3	91.3	Monthly	This metric tracks project status for those projects included in the $63 million of additional IT funding allocated to DTMB.
E-Mich 2	Number of mobile applications, web and downloadable, developed for the State of Michigan	Red		80	39	38	Monthly	This metric measures the total number of mobile applications, web and downloadable, for the State of Michigan. This metric includes mobile applications developed for citizens and workers. The target is to develop 40 new applications per fiscal year. The number is reported monthly, and tracks the cumulative total for the fiscal year.
Procurement A 12	EXECUTE PROCUREMENT - Progress Toward Procurement Improvement Plan Best In Class Characteristics	Green		100.0%	121.4%	117.8%	Quarterly	This metric identifies the percentage of objectives targeted for completion in 2015. This is the second of a five year plan to achieve green status for 16 Best in Class characteristics.
GG Goal 4: Operational Excellence								
OE-1	Project Completion			100	In	New	CY Annually	Agencies track progress in identifying impediments, executing action plans,

					Process	Metric		establishing internal metrics and establishing external metrics. Overall project completion of impediments, action plans, internal metrics and external metrics, This measure will be unnecessary after 100% completion is achieved.
OE-2	Employee Performance Feedback			100	In Process	New Metric	Quarterly	Individual performance feedback will be provided bi-weekly to every employee based on established work assignments and expectations. Agencies will maintain a schedule that can be tracked. This measure will be used indefinitely.
Good Government								
GG-3	The percentage of completed or on track department level employee engagement action plans	Green	=	100%	100%	100%	Quarterly	Percentage of department level employee engagement action plans that are completed by Senior Level Management. (Employee Engagement Action Plans reported in MiResults.)
GG-4	Good Government coin recognition program meeting four best practices.	Green	=	100%	100%	100%	Quarterly	Departmental coin recognition programs should meet the following 4 criteria; 3-5 recognition actions per quarter, Awards distributed among all levels, Award events photographed/documented, Staff made aware of recognition events. (1=25%, 2=50%, 3=75% and 4=100%)
GG-5	The percentage of completed or on track process improvement projects.			100%	In Process	New Metric	Quarterly	Percentage of process improvement projects completed or on track. (Process improvement projects may focus on enhancing value for the customer, eliminating waste, standardizing best practices and improving service delivery.)
GG-6	Percentage Improvement in customer process time			50%	In Process	New Metric	Quarterly	The metric applies to completed, OGG approved process improvement initiatives.(Process improvement projects may focus on enhancing value for the customer, eliminating waste, standardizing best practices and improving service delivery.)

[1] The status color for this metric reflects breaking points at 60% to 70% of the established target value.

Customer/Constituent								
1	Sales-Hold times for retailer calls	Green		15	12	15	Monthly	Retailers utilize the Call Center when they have questions or problems. Shorter wait times reflect positively on the Bureau. Target is maximum seconds on hold.
2	Sales-Number of retailer calls abandoned	Green	=	5.0%	2.3%	2.3%	Monthly	Retailers utilize the Call Center when they have questions or problems. We wish to consistently handle their issues and have a low percentage of abandoned calls. Goal is to remain below target.
3	Sales-Market penetration by $1 and $2 price point	Green		100.00%	98.75%	99.51%	Monthly	Penetration by instant game price point insures that retailer has necessary product inventory for customer satisfaction and to maximize sales. Participation measured as a percent of retailers that carry product to total number of retailers.
3b	Sales-Market penetration by $3 price point	Green		98.00%	95.02%	95.48%	Monthly	Penetration by price point insures that retailer has necessary product inventory for customer satisfaction and to maximize sales.
4	Sales-Market penetration by $5 price point	Green		98.00%	99.43%	99.48%	Monthly	Penetration by instant game price point insures that retailer has necessary product inventory for customer satisfaction and to maximize sales. Participation measured as a percent of retailers that carry product to total number of retailers.
5	Sales-Market penetration by $10 price point	Green		90.00%	99.29%	99.35%	Monthly	Penetration by instant game price point insures that retailer has necessary product inventory for customer satisfaction and to maximize sales. Participation measured as a percent of retailers that carry product to total number of retailers.
6	Sales-Market penetration by $20 price point	Green		80.00%	93.84%	94.63%	Monthly	Penetration by instant game price point insures that retailer has necessary product inventory for customer satisfaction and to maximize sales. Participation measured as a percent of retailers that carry product to total number of retailers.
10	CG-Increase Bingo, Raffle, and Charity Game Ticket Inspections	Green		10.00%	10.00%	8.00%	Monthly	Decrease fraudulent activity and identify profitability issues. Measured as a percentage increase in the number of inspections compared to the same period for the prior fiscal year.
11	CG-Increase Training Attendance	Green	=	10.00%	10.00%	10.00%	Monthly	Provide organizations with a better understanding to prevent loss of proceeds. Measured as a percentage increase compared to the same period for the prior fiscal year.
12	Dig-Acquire mobile app downloads	Green		20000	21142	15572	Monthly	Lottery Mobile App increases player engagement in new channels of media. This measure counts the number of mobile phone owners that install Lottery mobile app onto their mobile phone. Goal is to be at or above 20,000 downloads per month.
13	Sec-Timely communication and resolution to complaints and claims	Green		100%	100%	97%	Monthly	Integrity and player confidence is critical to the Lottery. Timely communication and resolution to complaints and claims ensures that these issues are satisfied. Goal is to make first contact with claimant within 7 business days. Measured as a percentage of total claimants contacted in 7 days.
14	PR-Timely communication and resolution to complaints and claims	Green	=	100.0%	100%	100%	Monthly	Integrity and player confidence is critical to the Lottery. Timely communication and resolution to complaints and claims ensures that these issues are satisfied. Goal is to make first response to customers email within 3 business days. Measured as a percentage of total emails responded to in 3 days.
15	PR-Increase Lottery related Press Releases	Green		5	32	22	Monthly	Increases public awareness. Provides information about Michigan Lottery games, retailers and winners to public, retailers, media and other Lotteries. Increases player confidence and integrity of our games and mission. Goal is to release 5 or more articles per month.
16	Sales-Market Penetration by $30 Price Point	Green		80.00%	94.08%	93.85%	Monthly	Penetration by price point insures that retailer has necessary product inventory for customer satisfaction and to maximize sales.
Financial								
1	Adm- Maximize Return to the School Aid Fund	Red		4.56%	-4.43%	-13.65%	Monthly	Year to date amount transferred from the Lottery to the School Aid Fund for the current fiscal year. Measured monthly as a percent increase compared to the same period for the prior fiscal year.
2	Adm-Maximize Sales	Green		4.91%	6.55%	2.60%	Monthly	Year to date Lottery sales total for the current fiscal year. Measured monthly as a percent increase compared to the same period for the prior fiscal year.
6	Mkt-Increase value added (or bonused) media	Green		13.00%	13%	24.00%	Monthly	Free media or bonus buy media allows the lottery to receive more media for dollars spent. Measured as a percentage of all TV and radio buys.
7	Mkt-Maximize digital advertising exposure	Green		65%	69%	68%	Monthly	This metric measures the viewability of desktop display ads. Desktop display ads are considered viewable if 50% of their pixels are in view for a minimum of one second and for desktop video that standard is 50% for 2 seconds. For larger desktop ad units, 30% of pixels must be in view for 1 second to be considered a Viewable ad. This metric ensures that the Lottery is receiving the most effective inventory and that ads are being viewed.
8	Mkt-Increase instant ticket transaction amount	Green		$3.14	$3.78	$4.13	Monthly	This measurement is the average amount spent on an instant ticket purchase transaction. It reflects the degree to which players are purchasing higher price tickets, which drives sales growth.

9	Adm-Control Operational Costs	Green		0.85%	0.82%	0.83%	Monthly	Focusing on operational efficiecies increase return to the School Aid Fund. This measure includes all Lottery operating costs such as salary, wages, benefits, travel, leases, utilities, equipment, supplies, and other miscellaneous operating costs. Measure is YTD operating costs as a percent of YTD Lottery ticket sales. Goal is to remain below target.
Internal Business Process								
2	Adm-Unqualified audit opinion for every semi-annual audit	Green	=	100%	100%	100%	Twice a Year	Sends a message to the Governor, Legislature, and public that the Lottery is run with integrity. Measured as a percent of audits receiving unqualified audit opinion.
3	Adm-Prepare Comprehensive Annual Financial Report (CAFR) to meet GFOA requirements for their Certificate of Achievement for Excellence in Financial Reporting	Green	=	100%	100%	100%	FY Annually	This award is only for those CAFRs with the highest standards in government accounting and financial reporting, and indicates integrity and transparency in financial reporting. Measured as percentage of CAFR's that have received certificate.
4	IT Sec-Maintain the security and integrity of lottery transactions through effective IT security access controls	Green	=	90%	90%	90%	Monthly	System oversight of Lottery gaming system transactions through the Internal Control System (ICS). Measurable through daily monitoring of system logs and enforcement of security policies. Controllable through authorizing access to transaction systems through request forms and verification of who accessed what from logs out of the firewalls, transaction servers, and the access control server. Measured as a percent of access problems discovered (e.g., violations and other issues).
6	CG-Improve Charitable Gaming license processing time.	Green	=	7	5	5	Quarterly	Streamline efficiencies in processing applications and licenses by further utilization of technology and software (i.e. HP Trim implementation.) These systems will provide the ability to process applications at a much faster pace. It will allow us to expand enterprise wide to enable us to reach a larger group to provide awareness and information to our customers. It will give CG the ability to allow electronic payment to significantly cut processing time and operating costs, i.e. less incoming mail, eliminate processing of hard copy checks, less data entry, quick licensing turn around time. Measured as the average number of days to process an application. Goal is to remain below target.
9	Sec-Processing security checks for Lottery retailer licensing applications within 3 business days.	Green	=	100%	100%	100%	Monthly	All Lottery retailer licensing applicants are subject to a security check by Lottery Security. Efficient processing of these applications helps potential new retailers become operational and begin selling tickets. Measured as a percent of applications processed in 3 days.
Good Government								
1	Dig-Percentage improvement in customer perception			1%	1%		CY Annually	Reporting starts 9/30/16 Agency selected target customer group. [Customer Perception is rated through existing or newly launched customer polling tools.]
2	Adm-Increase the percentage of Lottery Champions by 10%	Green		77%	71%	61%	FY Annually	Lottery's 2015 Employee Engagement Survey categorized 71% of our employees as Champions. The characteristics of these employees include a strong identification with organization objectives, a high level of loyalty to the organization, and a high level of willingness to cooperate and motivate colleagues. The Lottery's 2016 Champions goal is set at 77%. Data will be updated when the next annual survey results are available.
3	Adm-The percentage of completed department level employee engagement action plans	Yellow		100%	75%		Quarterly	Reporting starts 1/1/16 Percentage of department level employee engagement action plans that are completed or on track. [Employee Engagement Action Plans reported in MiResults]

Yellow	👎	80%	73%	80%	Twice a Year	Post project customer surveys to evaluate satisfaction with the OIAS engagement if it contributed toward improving department operations. Current status represents six months ending Sept. 30, 2015.
CS-2	Issue W-2s and 1099s in advance of IRS deadlines	Green	=	100%	100%	100%	CY Annually	Current = TY 2014
CS-4	Continue expanding MI School Data portal to include new tools, reports, and metrics.	Green	=	3	3	5	Quarterly	A new report is defined as a snapshot or trend report for a new dataset not previously reported. A substantial enhancement includes adding one or more new metrics or dimensions to an existing report. Current = data as of 9/30/2015.
Expertise & Commitment								
EC-1	Develop a professional development plan for each SBO employee	Green	👍	100.0%	97.5%	96.9%	Quarterly	
EC-2	Improve employee skills by implementing provisions of each employee's professional development plan	Yellow	=	80.0%	tbd	tbd	Twice a Year	Professional development activity include formal training, documented mentoring, public speaking; including legislative testimony, job shadowing, etc.
Innovation & Leadership								
IL-1	Improve long-term financial planning by adding additional years to planning horizon	Green	👍	10	10	9	FY Annually	Current = Data as of 9/30/2015
Operational Efficiency								
OE-1	Reduce costs by increasing the percentage of payments processed via electronic funds transfer.	Green	👍	100.0%	90.4%	89.9%	Quarterly	Current = Q4 FY2015
OE-2	Reduce operating costs by increasing the percentage of payments processed via recurring payments functionality.	Green	👎	25%	19.8%	20.3%	Quarterly	Current = Q4 FY2015
OE-3	Improve accuracy and reduce costs by increaing the percentage of payroll and expense reimbursements that do not require adjustment	Green	=	99%	99.37%	99.5%	Quarterly	Current = Q4 FY2015
OE-4	Average number of days between data collection and public reporting.	Green	👍	60	56.75	57.1	Quarterly	The goal is to reduce the number of days between the close of a data collection, loading it into the longitudinal data system (LDS), creating extracts for the portal,transmitting refreshed data for current reports to the MI School Data site, and making refreshed data available in preview or to the public. Current = data as of 9/30/2015.
Shared Services								
SS-1	Implement additional specific accounting consolidation, standarization, streamlining or centralization that increase cumulative savings by $250,000+	Green	=	$12550.0	$12408.1	$12408.1	Quarterly	$ in thousands / Current = Q4 FY2015
Good Government								
GG-1	Percentage improvement in customer perception			25%	TBD	TBD	CY Annually	Agency selected target customer group. [Customer Perception is rated through existing or newly launched customer polling tools.]
GG-2	The percentage of champions identified in employee survey	Green	=	70%	61%	50%	CY Annually	The % of champions identified in the statewide survey of state employees measuring employee engagement.
GG-3	The percentage of completed or on track department level employee engagement action plans	Green	👍	100%	100%	0%	Quarterly	Percentage of department level employee engagement action plans that are completed by managers 17 level and above. [Employee Engagement Action Plans reported in MiResults.]
GG-4	Good Government coin recognition program meeting four best practices.	Green	👍	100%	100%	0%	Quarterly	Departmental coin recognition programs should meet the following 4 criteria; • 3-5 recognition actions per quarter • Awards distributed among all levels • Award events photographed/documented • Staff made aware of recognition events
GG-5	The percentage of completed or on track process improvement projects			100%	TBD	TBD	Quarterly	Percentage of process improvement projects completed or on track. [Process improvement projects may focus on enhancing value for the customer, eliminating waste, standardizing best practices and improving service delivery.]

GG-6	Percentage Improvement in customer process time			50%	TBD	TBD	Quarterly	The metric applies to completed, OGG approved process improvement initiatives. [Process time is defined as the time the customer engages the agency to receive a final approval, service, product, or response.]

MiScorecard Performance Summary

Business Unit: Department of Treasury
Executive/Director Name: Nick Khouri
Reporting Period: Dec 2015

Green	>90% of target
Yellow	>= 75% - 90% of target
Red	<75% of target
Date Approved:	1/11/2016

Metric ID	Metric	Status	Progress	Target	Current	Previous	Frequency	Metric Definition
Customer/Constituent								
C-1	Percent of taxpayers entering <24 month IA's via web 1	Red	=	50%	0%	0%	Quarterly	New metric created 9/16/2015 - The percentage of taxpayers entering into an IA under 24 months via web vs. mail.
C-3	Percent of web payments received 2	Yellow	👎	65.00%	29.85%	33.56%	Monthly	New Metric 9/16/2015 - The percentage of payment received via web
C-4	Telephone Call Quality Assurance Measures - Office of Collections.	Green	=	100.0%	96.0%	96.0%	Monthly	To provide quality information and customer service on telephone calls. Staff are measured on several key criteria which helps determine where overall training may be needed to ensure a high quality of service.
C-5	Number of Material Security Breaches	Green	=	0	0	0	Monthly	Maintain and protect confidential information obtained through departmental programs.
C-7	Move distressed communities to fiscal solvency and stable self-governance	Green	👍	4	4	N/A	FY Annually	EM exit, RTAB meetings from monthly to bi-monthly to quarterly, dissolving RTAB, successful termination of consent agreements.
C-8	Average speed of answer for SUW calls.	Red	👎	7.00	15.13	13.11	Monthly	Improve overall customer satisfaction by providing timely response to customer phone calls, measured in average time in minutes spent on hold before speaking with a Treasury Customer Service Representative. New metric as of 10-7-15.
C-9	Abandoned rate - number of calls on hold that choose to hang up instead of waiting for a Treasury Customer Service Representative to answer.	Red	👎	10.00%	22.74%	20.94%	Monthly	Improve customer satisfaction by providing timely responses to customer phone calls measured by the number of people not willing to wait on hold for a Treasury Customer Service Representative. New metric as of 10-7-15.
C-10	Issue 10 substantive Revenue Administrative Bulletins (RABs) annually.	Green	👍	10	12 (CY2015)	2 (CY 2014)	CY Annually	Improve communication to taxpayer/practitioner community by issuing a minimum of 10 substantive Revenue Administrative Bulletins (RABs) annually.
Internal Business Process								
P-1	Percent of Tax Exemption Certificates Processed	Green	=	100%	100%	100%	CY Annually	This metric measures the percent of tax exemption certificates that are processed each year.
P-3	Inspections of Tobacco Retailers	Green	👎	470	596	627	Quarterly	This measures the number of administrative inspections of tobacco retailers and licensees by Michigan State Police and Department of Treasury enforcement personnel each quarter.
P-4	IT Projects on Time and Within Budget	Green	👎	85%	81%	87%	Quarterly	Track IT projects with respect to budget and completion time to ensure the Department meets legal/statutory requirements.
P-5	Percentage of Discovery project letters sent YTD compared to letters sent LYTD 3	Green	👎	80%	64%	99%	Quarterly	Number of inquiry letters sent affects Discovery project results. Green is 80% or higher, yellow is 75% to 80%, and red is anything less than 75%.
P-6	Average number of days to complete audit	Red	👎	275	354	346	Monthly	Monthly rolling average of days to complete audit (amalgamated for various tax types)
P-7	Average Quality Assurance (QA) error percentage on audits	Green	=	5%	3%	3%	Monthly	Monthly - average Quality Assurance (QA) error percentage
P-8	Conduct Audit of Minimum Assessing Requirements (AMAR) reviews	Green		20.0%	20.0%	0.0%	FY Annually	Ensure fair, uniform and accurate assessments statewide by conducting Audit of Minimum Assessing Requirements (AMAR) reviews in the local units within 20% of the State's 83 counties annually. Maintain a five year cycle of reviews throughout the state. New metric 9/29/2015.
P-9	Timely Processing of Individual Income Tax filing exceptions.	Green	👎	20000	20500	21000	Monthly	All current year Individual Income Tax filings, successfully captured into the IIT computer system and "flagged" as exceptions are reviewed and processed in the calendar year received. Target will fluctuate monthly depending on volume of returns received. New Metric as of 10-7-15.
P-11	Total active Dockets older than 18 months.	Green	👍	0	1	193	Quarterly	Dockets older than 18 months that need resolution. Does not include dockets in abeyance. New Metric as of October 1, 2015.
P-12	Open Dockets less than 6 months old.	Red	👍	100%	55.6%	23.24%	Quarterly	Regularly complete informal conference requests within 6 months; make process more robust. Does not include dockets in abeyance. New metric as of October 1, 2015.
Financial								
F-1	Accurate Revenue Estimating.	Green	👍	3.0%	.8%	1.7%	CY Annually	Estimate revenues within 3% of actual. The accuracy of the metric impacts the state budget process.
F-3	State Credit Rating (Fitch)	Yellow	=	AAA	AA	AA	FY Annually	Ensure the state receives the best credit rating possible. A better credit rating allows the state to borrow money at the most competitive rates available. Ensures the financial position of the state provides a climate for business investment and citizen confidence.
F-4	MPSERS Quarterly rolling 1 year average return	Red	👎	8.0%	2.6%	6.2%	Quarterly	Actual investment rate of return on pension fund assets for the Michigan Public School Employees' Retirement System vs. Actuarial Target Rate
F-4.1	MPSERS Quarterly rolling 5 year average return	Green	👎	8.0%	10.0%	12.1%	Quarterly	Actual investment rate of return on pension fund assets for the Michigan Public School Employees' Retirement System vs. Actuarial Target Rate
F-5	School Districts Serviced Under State Aid Note (Semi-Annual August Borrowing)	Green	👍	300	251	264	FY Annually	Provides access to short term loans for school districts. This metric goal is to reduce the number of school districts who need access to short term loans. Measured by the number of borrowings. Some school districts borrow more than once a year.

F-6	Tax Audits Completed	Green		550	536	463	Quarterly	Tax audits ensure that tax revenues due and owing to the state are collected.
F-7	Number of liens filed <$6,000	Green		6600	4454	3058	Quarterly	New metric 9/16/2015 - The number of liens filed under $6,000
Learning and Growth								
L-1	Improve Internal Communication Through Web	Green	=	100%	100%	100%	Monthly	Regularly update the Treasury Intranet home page to ensure staff have access to current information. This measures the percentage of time the web is updated at least monthly.
Good Government								
GG1	Percentage improvement in customer perception			TBD	N/A	N/A	CY Annually	Agency selected target customer group. [Customer Perception is rated through existing or newly launched customer polling tools.]
GG2	The percentage of champions identified in employee survey	Green	=	53%	49% 2015 Survey	49%	CY Annually	The % of champions identified in the statewide survey of state employees measuring employee engagement .
GG3	The percentage of completed or on track department level employee engagement action plans.	Green	=	100%	100%	100%	Quarterly	Percentage of department level employee engagement action plans that are completed by managers 17 level and above. [Employee Engagement Action Plans reported in MiResults.]
GG4	Good Government coin recognition program meeting four_best practices.	Green	=	100%	100%	100%	Quarterly	Departmental coin recognition programs should meet the following 4 criteria; - 3-5 recognition actions per quarter - Awards distributed among all levels - Award events photographed/documented - Staff made aware of recognition events
GG5	The percentage of completed of on track process improvement projects.	Green	=	100%	100%	100%	Quarterly	Percentage of process improvement projects completed or on track. [Process improvement projects may focus on enhancing value for the customer, eliminating waste, standardizing best practices and improving service delivery.]
GG6	Percentage Improvement in customer process time.			TBD	N/A	N/A	Quarterly	The metric applies to completed, OGG approved process improvement initiatives. [Process time is defined as the time the customer engages the agency to receive a final approval, service, product, or response.]

[1] The status color for this metric reflects breaking points at 20% to 75% of the established target value.

[2] The status color for this metric reflects breaking points at 45% to 75% of the established target value.

[3] The status color for this metric reflects breaking points at 75% to 80% of the established target value.

Michigan Department of Treasury

Improving Operations - Progress Report

Summary

- 2015 was the year we began a journey to improve Treasury operations and how we interact with taxpayers
- It started by defining our collective aspirations, strategy and near-term tactics
- Much was accomplished during the second half of the year – from improved income tax processing to a new streamlined audit process
- But we have just started. The Department is building on what was learned in 2015 to create further improvements in 2016

2015 was the year Treasury developed a new aspiration and strategic plan

Our Aspiration

Michigan Treasury will become the best operated Treasury department in the United States and the State's thought leader on all tax and revenue issues.

Best Operated has 3 building Blocks

- Engaged Employees
- Culture of Taxpayer Service
- Continuous Improvement

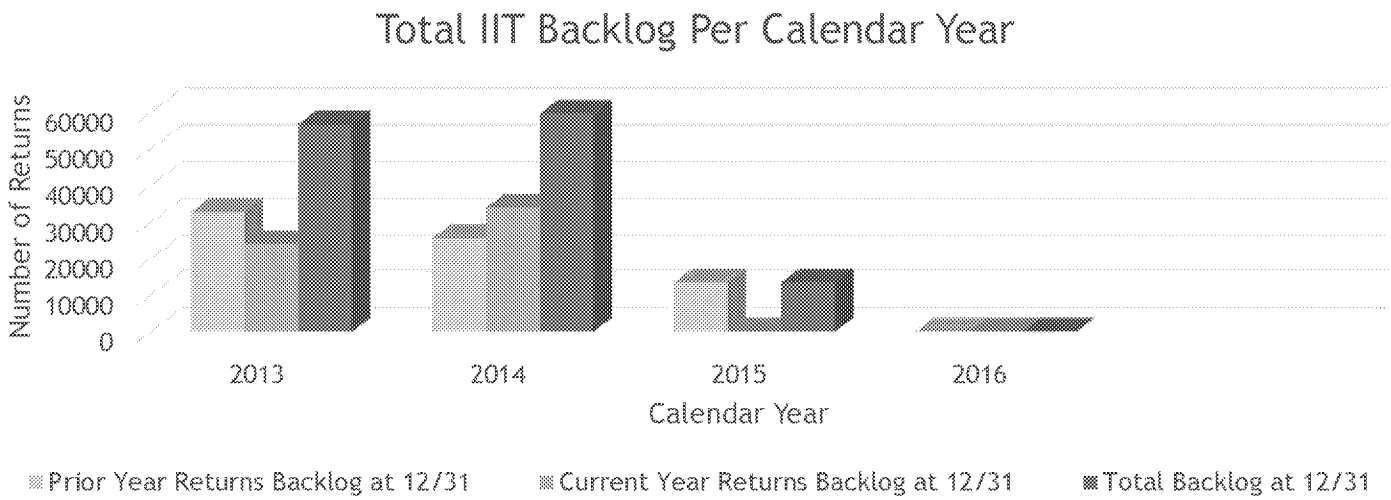
Underlying our work are 5 key values

1. In all we do – always ask "what is the impact on Taxpayer"?

2. Fair and efficient administration of tax system – not maximum revenue collection at all costs

3. Be metric driven

4. Think outside our department to find innovative solutions



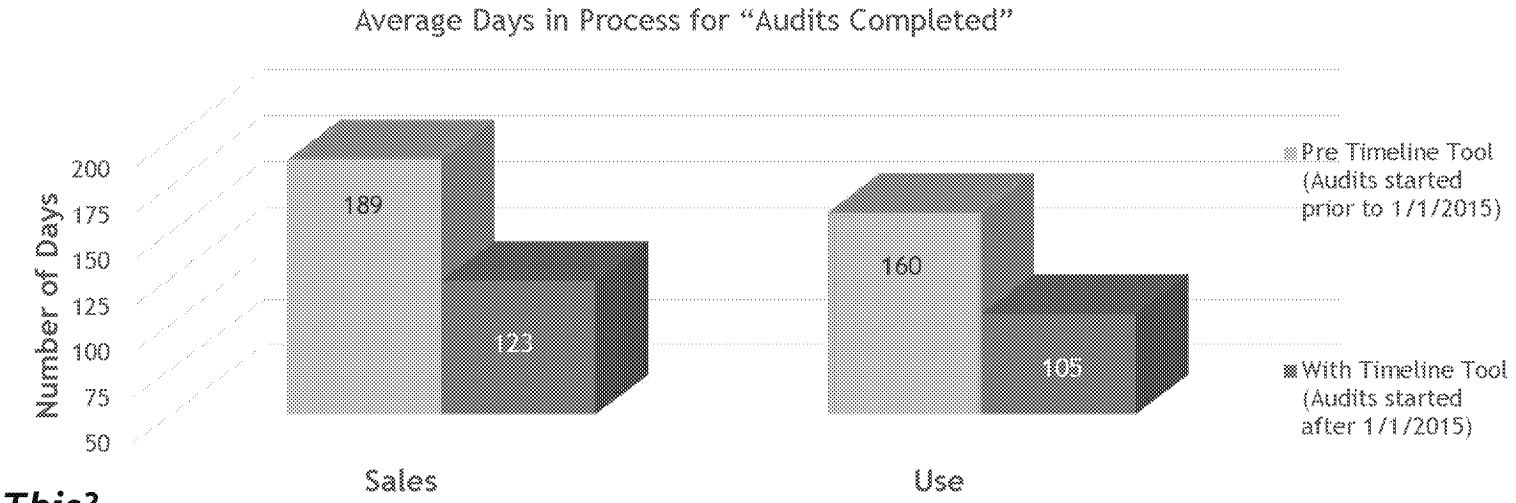
5. Communicate and celebrate success

We started with a list of over 20 projects to improve the efficiency of the Department

- Individual Income Tax Processing
- Audit
- Tax Hearings
- Communications
- Liens
- Power of Attorney
- Systems
- Documentation Backlog
- Escheats Audits

Individual Income Tax Processing (IIT)

- **Issue:** Returns were not consistently processed in year filed, and backlogs continued to grow.
- **Metric:** All current year IIT returns are processed in the same year received.

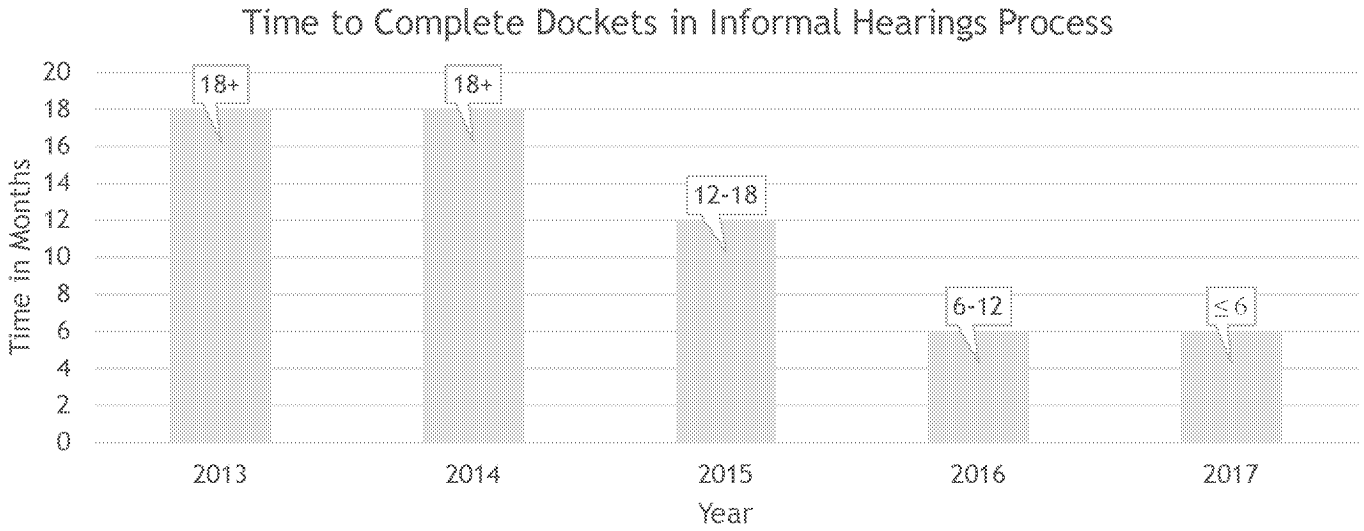


How Did We Do This?

- ✓ Streamlined work instructions for staff to complete returns with average 38% efficiency gain.
- ✓ Increased accountability.
- ✓ Prioritized backlogs and ensured work sent to appropriate skill level staff.

Audit

- **Issue:** Audits can take more than a year to complete.
- **Metric:** Ensure quality and efficient audits by reducing the average length of Sales and Use tax audits by 35% of prior year audit period.



How Did We Do This?

- ✓ New audit timeline tool
- ✓ Increased accountability
- ✓ Pre-audit conferences to set mutually agreed upon timelines
- ✓ Pilot – more focused audits

Tax Hearings

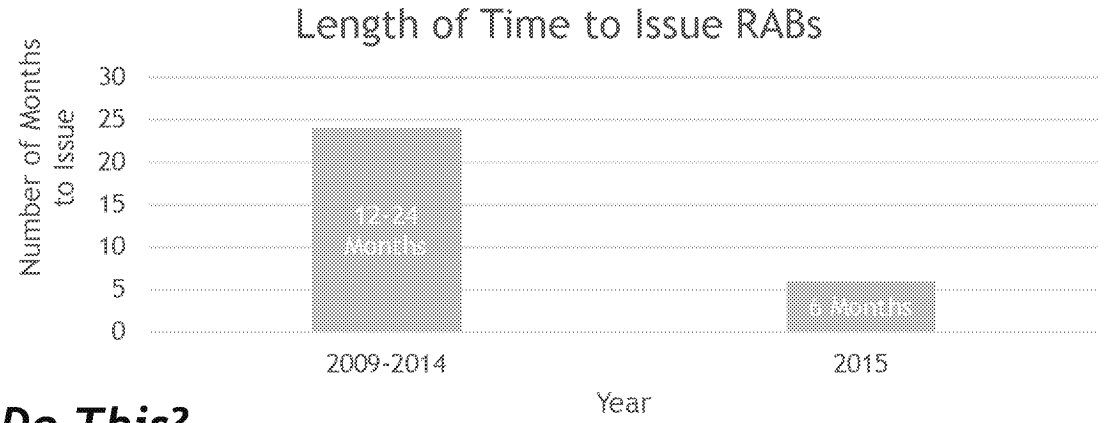
- **Issue:** Informal hearings can take up to two years.
- **Metric:** Reduce timeline for hearings to less than 6 months by Jan. 1st, 2017.

How did we do this?

- Set clear deadlines and increased staff accountability.
- Worked with internal tax areas to clear old accounts.
- Determined that internal review by audit staff was redundant and could be eliminated.

Power Of Attorney (POA)

- **Issue:** Form for requesting POA and Section 8* was unclear, and taxpayers were often asked to resend forms due to lack of internal process to share forms across areas.
- **Metric:** Improve POA/Section 8 form and create process for sharing among all Treasury areas.



How Did We Do This?

- Implemented one page, user friendly form that includes POA and Section 8 (available 11/2/15).
- Developed internal and external training to ensure form and requirements were understood by all.
- Created manual workflow to comply with Section 8 requests and began tracking number of requests.

- *Note* - Section 8 refers to the taxpayer's request that copies of all documents related to a specific dispute be given to their authorized representative*

Taxpayer Communications

- **Issue:** The Department did not consistently provide timely guidance to taxpayers on how Treasury will interpret tax laws - few Revenue Administrative Bulletins (RABs) were issued and could take more than a year to publish
- **Metrics:** Minimum of 10 new or updated RABs will be issued annually.

How Did We Do This?

- ✓ Set goal to minimum of 10 new or revised RABs issued annually.
- ✓ Created timelines and reporting tool to ensure RABs are issued within 6 months.
- ✓ Increased accountability for all staff timelines.

Escheats Audits

- **Issue:** Unclaimed Property audits could take years to complete.
- **Metric:** Implement new streamlined audit procedures, with target of 18 months to complete audit

How did we do this?

- ✓ Work group of external stakeholders and Treasury staff issued recommendations for improving escheats process on 7/2/15
- ✓ Workgroups recommendations to streamline escheats process were used to create legislation
- ✓ Legislation was signed by the Governor on 12/22/15 and became PA 242 of 2015

System Improvements

Michigan Treasury Online (MTO) Enhancements

In June 2015 Treasury made a commitment to fix the Sales/Use/Withholding automated taxpayer system. The enhanced system was launched on January 11, 2016.

- Taxpayers will need just one username and password to enter MTO, file a return and make a payment and can reset their own username and password.

- Added "Fast File Now" feature to allow immediate filing access and reduced the number of user steps in the process.

This is the first of many upgrades in 2016 to Treasury's operating systems.

Last year was just the start, we have developed a plan to build on our success in 2016

I. Call Center process improvement

II. Identifying / eliminating delays in processing returns that require additional taxpayer information

III. Move to a paperless environment – limit snail mail

IV. Single sign-on / password for employees

V. Fix SAP

VI. Develop robust employee engagement plan

VII. Better use of metrics as a management and accountability tool

MTO Optimization Deliverables by Release November 2, 2015

--- A Review of the 'Governor Memo' ---

Over the next 4 months:

- Implement a single password, this has been one of the biggest pain points for the user community (Completing via Release 1)
- Reduce the number of steps needed for authentication (Completing via Release 1)
- Rebranding MTO to make improvements to the look and feel (Completing via Release 1)

Over the next 4 to 6 months, additional improvements will be implemented, such as:

- Increased functionality for password resets (Completing via Release 1)
- Inactivity alert before expiration (Completing via Release 1)
- Continued improvements to MTO look so the user feels that they are in a single site from start to finish (Completing via Release 2, 3, n)

Over the next 7 to 16 months:

- Auto-population functionality (Completing via Release 3)
- Improved delegation process (Completing via Release 1)
- Delivery of email confirmations after returns are submitted (Completing via Release 1)

** Release 1 (January 11, 2016); Release 2 (April 2, 2016) and Release 3 (December 2016)

Project Name: SBO - Project SIGMA

Updates to IMS	12/15/2015	1/15/2016	1/8/2016	Completed

Key Executive Issues

No Key Executive Issues Identified

Key Executive Risks

- 1 - SIGMA will introduce a significant amount of change: current manual processes will be automated, consolidation of 60+ systems into 1, changes in accounting policies, a new chart of accounts, as well as a migration to managed services.
- 2 - There is a large amount of effort required from a few key Agencies: number of systems being replaced, number of Agency specific interfaces, legacy modifications required and the number of other Agency initiatives.
- 3 - There may be a shortage in State IT and business staff required for the interface, conversion, legacy system and all business modifications needed to keep Project SIGMA on track.
- 4 - The Project SIGMA schedule has concurrent work that cannot be eliminated. If the resource plan does not support the amount of concurrent work required, the Project SIGMA schedule could be compromised.
- 5 - Scope control will be essential to remain on schedule. If rigorous scope control processes are not adhered to, including both Core Team and Agencies, the Project SIGMA schedule could be compromised.
- 6 –Agencies have technical work that Project SIGMA is dependent upon being successfully completed. If the work is not completed on schedule, the start of End-to-End Testing could be compromised putting the entire project implementation at risk.
- 7 - The CGI 3.11 software release has several downstream project schedule dependencies. If the CGI 3.11 software has quality issues, the overall Project SIGMA schedule could be jeopardized.
- 8 - Clarity and agreement on Cost Accounting and reporting needs in Agencies is critical to the success of Project SIGMA. If the scope is not clearly understood and adhered to, the overall timeline could be jeopardized.

Current Activity Status

01/22/16: Re-planning for Phase 1.5 and Phase 2 is complete and the re-baseline of Project SIGMA was approved by the Project Executives, Governing Board Co-Chairs and Executive Sponsor. The PCO is in the process of updating the IMS as needed and updating Key Milestones in Changepoint with the re-baselined dates.

Major Project Accomplishments

- Completed Chart of Accounts Design - Phase 2
- Published SIGMA Interface Templates - Phase 2
- Published Assets & Inventory Data Conversion Templates - Phase 2

Project Name: SBO - Project SIGMA
Project Status: Green

Project Manager: Ruth Schwartz

Current Activity Status

Agency work re-planning is complete; the PCO has updated the Integrated Master Schedule (IMS) with all 20 Agency Technical Schedule (ATS) iteration 4 that met requirements and were in alignment with key design, development and testing activities associated with the Phase 2 timeline extension. The PCO continues to conduct weekly project health checkpoints to review schedules and status prior to Agencies generating their 4UP reports.

Agencies have attended the majority of the Functional Design Showcases which highlight key design decisions and business processes associated with functionality being implemented in Phase 2. The presentation for End to End Processes is scheduled for next week with Security and Workflow being addressed in March. Agency support continues with COA mapping and data collection and load (initial sampling) via Cost Accounting Workshops.

Project Budget/Cost

Initial Budgeted Cost	Latest Revision Budgeted Cost	Actual Cost To Date
$152,413,600.00	$175,259,031.00	$46,545,009.00

Total Approved ITIF Budget (FY13-18) : $175,259,031.00

Total Hours as of 12/15/2015 : 423,142

Major Project Accomplishments

- Completed Comprehensive Design - Phase 2
- Published Cost Accounting Data Conversion Templates - Phase 2
- Completed Chart of Accounts Configuration - Phase 2
- Published Vendor/Customer Data Conversion Templates - Phase 2
- Published AR Data Conversion Templates - Phase 2

Next Steps

- Agency Confirmation - Systems Replaced/Modifications
- Update Key Milestones with Re-Baselined Dates

Subject: FOIA Request From the Detroit Free Press Re: Flint Water
Location: DTMB Cass Innovation Room

Start: Fri 2/5/2016 3:30 PM
End: Fri 2/5/2016 4:00 PM

Recurrence: (none)

Meeting Status: Meeting organizer

Organizer: Trakul, Pamela (DTMB)
Required Attendees: Trakul, Pamela (DTMB); Stibitz, Brom (DTMB); Buhs, Caleb (DTMB); Buckberry, Gary (DTMB); Christensen, Chris (DTMB); Turnquist, Michael (DTMB); Brownlee, Jeff (DTMB)
Optional Attendees: Knapp, Kathy (DTMB); Gonzalez, Tonyia (DTMB); Fortino, Diane (DTMB); Calahan, Heather (DTMB); Wellman, Jeff (DTMB); Bliss, Mike (DTMB); Sweeney, Matthew (DTMB); Martin, Tamara (DTMB)
Resources: DTMB Cass Innovation Room

Request for Public Record

To: FOIA Coordinators via email

I am a person as defined under Michigan FOIA. Please accept this correspondence as a request pursuant to the Michigan Freedom of Information Act (FOIA) Michigan Compiled Laws §15.231 to §15.246 *et seq.*, the Michigan Constitution and common law, and the U.S. Constitution, for certain public documents hereinafter specified.

Date of Request: 2/4/16 **Time:** 4:40 p.m. via email

Person Requesting Record: Matthew Dolan Phone: 313-223-4743

Mailing address: Detroit Free Press

160 W. Fort Street

Detroit, MI 48226

Email Address: msdolan@freepress.com **Fax:** n/a

Delivery Specifications:

Please select the quickest form to be able to view the documents:

∟**Email:** to requestor at the email address above if possible, and if not please mail to the address above.

∟**In-office Inspection:** Please contact me with an acceptable contact, time, and date when I may appear for inspection and possible scanning of documents.

∟**Pick- up:** Please contact me with an acceptable contact, time, and date when I may pick up the documents.

Auditor or Attorney: _____ Contact: _____

Media Specification: Paper Copies or Email attachment less than 20 MB, CD-ROM or DVD, unless certain records are not available in computer format, in which case response by fax or in-person viewing is preferred

Records requested: The records and documents I am requesting are all those relating to:

Copies of the documents, including but not limited to emails already requested by and provided to Progress Michigan or those associated with the organization related to any and all discussion of Flint's water supply, including but not limited to contaminant such as lead and copper in the water as well as any and all discussion of Legionnaire's disease in Genesee County, Mich.

For the purposes of this request, the term "**you**" or "**your**" refers to public body generating or maintaining the public records requested in this request, and to which this request is directed, whether that be an agency, municipality, office, county, or any other entity subject to disclosure under this act; the term "**records**" refers to all documents, regardless of physical form (including without limitation papers, reports, notes of telephone conversations, telephone call messages, studies, proposals, indices, letters, messages, faxes, minutes, logs, journal entries, calendars, and computer-based or computer-generated materials including e-mail, or any other documentation of any kind of any and all kind) of or belonging to any department, agency, service area, board or other subdivision of the public body. "Records" shall include drafts of records to the extent permitted by law; The term "**email**" includes any electronic message and any attachment to any such message, and specifically includes emails sent or received by an officer, agent, or employee using an email address other than that person's official government issued email address if sent or received while on duty, using a government computer, in a government building, sent or received using a government contact list, or other using any other government resource.

Michigan law requires you to respond to this request not more than five (5) days from your receipt of this request, but you are asked to expedite this request if possible. If this request is sent by fax or email, the time to comply begins the day after the faxed request is sent to you. If your agency does not maintain these public records, please let my designated auditor know who does, and include the proper custodian's name and address. If this fax request does not go directly to the office of the FOIA coordinator, you must deliver it there immediately. If you deny any part of this request, please indicate the name and position of the person too who an appeal should be directed prior to instituting suit, so that needless litigation in which costs, damages, and attorney fee may be taxed against you might be avoided.

Take notice of the penalties and consequences for failure to comply with this request: Willful violation of FOIA by refusing to disclose or delaying in disclosing or providing copies of a public record, may result in the court awarding in addition to any actual or compensatory damages, award punitive damages in the amount of $500 to the person seeking the right to inspect or receive a copy of a public record. Reasonable attorneys' fees, costs, and disbursements" will be awarded to any person who prevails in an action to compel disclosure under MCLA § 15.240. If the requesting person only prevails in part, "the court may, in its discretion, award all or an appropriate portion of reasonable attorneys' fees, costs, and disbursements.

Because of the civic educational purpose of this request, I request a fee waiver and ask that you determine that a waiver or reduction of the fee is in the public interest because furnishing copies of the public record can be considered as primarily benefiting the general public." MCLA § 15.234(l)

I agree to pay any reasonable search, copying, and postage fees of not more than $2.00. If the cost would be greater than this amount, Please immediately contact me by telephone or email if you anticipate that the costs will exceed this amount, so as not to cause delay in the prompt disclosure of the records requested. I may appear in person to inspect the documents on scan them using my portable equipment. Please provide a receipt indicating the charges for each document. The Michigan FOIA law provides that, "A fee shall not be charged for the cost of search, examination, review, and the deletion and separation of exempt from nonexempt information as provided in section 14 unless failure to charge a fee would result in unreasonably high costs to the public body because of the nature of the request in the particular instance, and the public body specifically identifies the nature of these unreasonably high costs. MCLA § 15.234(3).

If the documents I have requested are not subject to disclosure in their entirety, I request that you release all nonexempt portions of the documents that may be segregated and all parts of the documents that can be rendered disclosable by redaction without fee. If you determine that any of the requested documents fall within a statutory exemption, I request that you exercise your discretion to disclose those materials because of the overriding public concern about the improper use of government email systems and resources to further political agendas. As to any portion of the documents that you withhold, please state with specificity the legal and factual basis for withholding such portion. To the extent that you are unable to produce copies of or otherwise make available all records requested within the time frame provided, please notify my auditor in writing and provide me with those records that are available within the prescribed time frame and the remainder of the records on a "rolling" basis as they become available for production.

I appreciate your anticipated prompt cooperation and will expect your response within 5 days, as required by the act. If you need further explanation of the details or the nature or scope of this request, please feel free to call me or my designated auditor or attorney specified above using the contact information provided.

Subject: Volunteer Opportunity in Flint

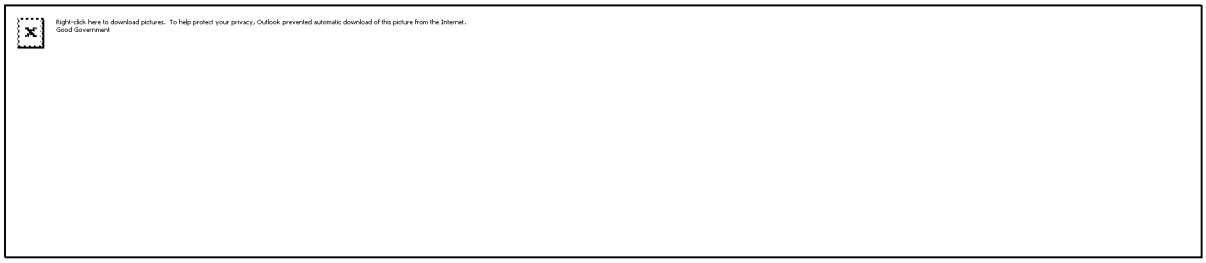
The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G



Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

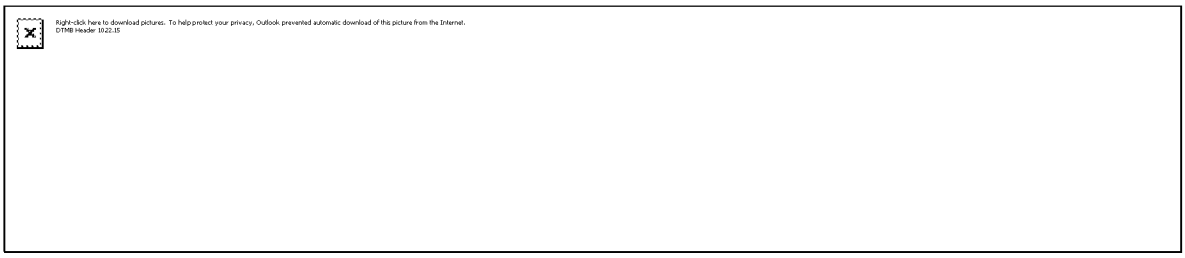
Subject: Flint Volunteer Efforts

Dear State Employees,

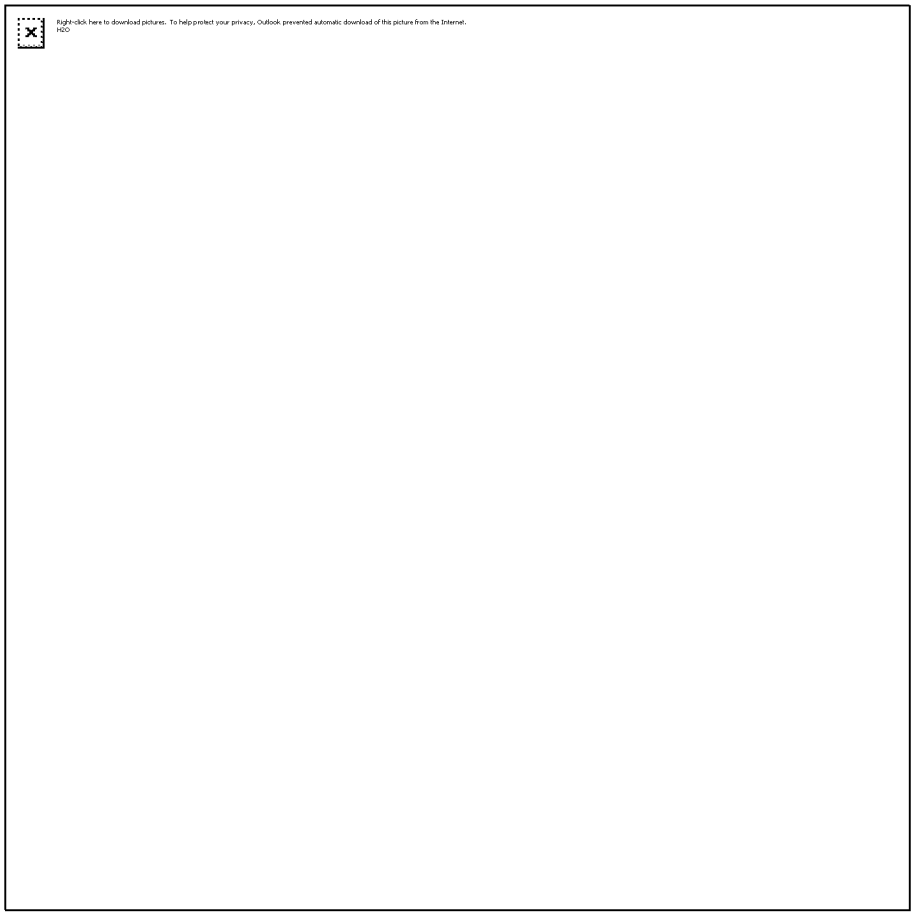
Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.



For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.



Sincerely, Mike Zimmer
Office of Good Government Director
Dept. of Licensing and Regulatory Affairs Director

Subject: Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.

Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

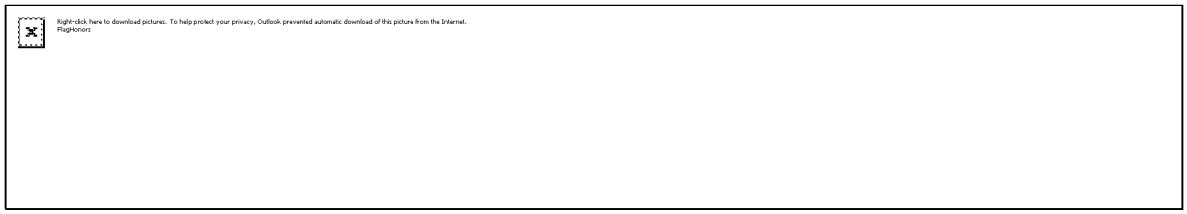
Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,



David

Subject: Thank you for your service

THANK YOU!

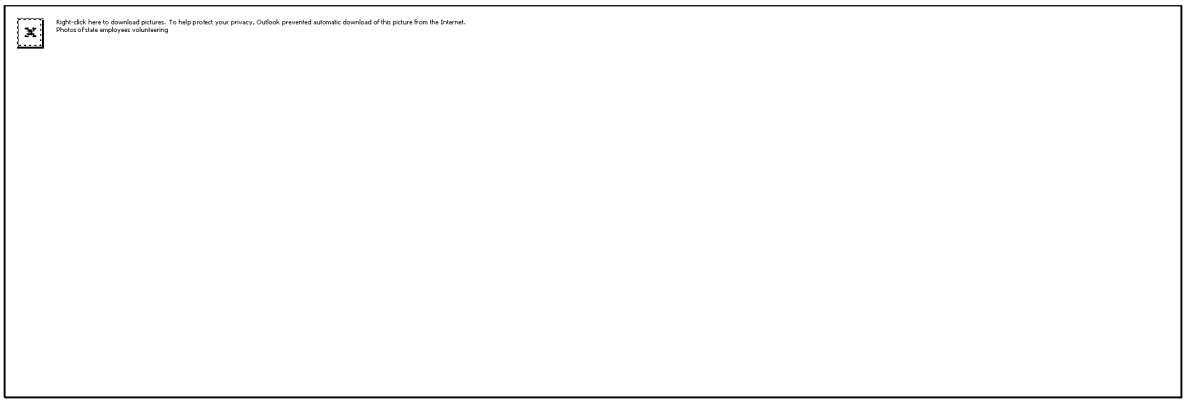
Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

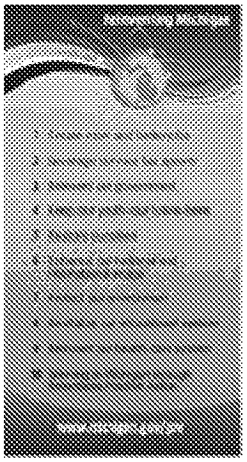
Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.



For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,



Governor Rick Snyder

Top Issues Briefing Report (2 Pages)

Issue 1 - **Department of Technology Management and Budget**

- **MiPage:** We are working to identify and promote opportunities for high value mobile conversions and MILogin candidates. Current conversion projects include: TAMC for MDOT, Fishing Tournaments application for DNR, Wildfire application for DNR, and a mapping project for MEDC. DTMB is offering conversion services, and we is also soliciting responses for a pre-qualified vendor list to help agencies with the mobile conversions if they would prefer to work with an outside vendor. Thus far, 18 responses have been received to the pre-qualified vendor RFP. We anticipate finalizing this list by the end of March, 2016. A new MiPage release was available in the app stores the week of January 25th, and additional releases are planned for spring (5/29/2016) and summer (8/28/2016).
- **Cyber:** Michigan continues to face over 12 million cyber attempts per day. Recently, so-called hacktivist groups have targeted the state in response to the Flint water crisis. The City of Flint and Hurley Hospital in Flint have been targeted as well. Since this threat was announced, we have worked to organize a cross-lateral team of experts to ensure that we are able to respond as quickly as possible to potential threats. Specifically, DTMB has been working with MSP, the National Guard, the City of Flint, IBM, and other private sector partners.
- **CAR:** MSP moves to GOB started in November 2015 and will be completed in March 2016. DHHS moves from Capital View to MSP Headquarters building are scheduled for May of 2016 - June 2016. Project is on schedule and within budget. MSP moves from downtown Lansing to Secondary Complex started in December 2015 and are to be completed in April 2016.
- **Operational Excellence & RPM Reviews:** DTMB has examined root cause(s) for IT projects that over budget and anticipated timeline. Automation of inefficient business processes was found to be a root cause of these issues. In order to develop the best solution possible and stay within budget, DTMB and the Office of Good Government

Issue 2 - **Michigan Gaming Control Board**

- **Commercial Casinos**:
  - Total revenue for calendar year 2015 was $1.38 billion, up 3.3% compared to calendar year 2014
  - Taxes- $174.3 million paid to the City of Detroit and $111.5 million paid to the State in 2015.
- **Non-Gaming Suppliers- Board Resolution 2015-01:**
  - Increased the thresholds for non-disclosure from $15,000 to $50,000 per casino
    - 24% decrease in the number of vendor exemptions in 2015
  - Increased the thresholds for a vendor exemption from $300,000 per casino ($600,000 total) to $400,000 per casino ($1,200,000 total)
    - 20% decrease non-gaming license requests for low-volume suppliers in 2015
    - 50% decrease in processing time for exemption applications (42 to 21 days)
- **Millionaire Parties (MP):**
  - In 2015 the number of suppliers and locations have remained relatively static compared to 2014
    - Current number of locations is 50; Current number of suppliers is 33
  - In 2015 there was a slight decrease in the number of event days
    - Total event days in 2015 was 10,146 compared to 10,508 in 2014
  - 70 indictments in 2015 and 2016 involving 10 defendants issued by the Attorney General's (AG) Office as a result of AG, MGCB investigations
- **Horse Racing:**
  - 90 total race days scheduled in calendar year 2016
    - 60 days of harness racing at Northville Downs; 30 days of thoroughbred racing at Hazel Park
  - Numerous meetings have been held with the various stakeholders to try to reach a compromise on legislation that would help the industry
- **Daily Fantasy Sports (DFS):**
  - 11 states have declared DFS illegal
    - 10 states have introduced legislation to legalize, or tax and regulate DFS, including Michigan (SB 0459)
  - MGCB board members are asking for information on DFS

Issue 3 - **Lottery**

- Fiscal Year 2015 was a record year with gross sales at approximately $2.771 billion (a 6.8% increase from last year) and a contribution to the school aid fund of approximately $795 million (a 7.2% increase from last year).
- **iLottery:** iLottery: The program continues to grow. Average net-win (bets minus prizes) over the last eight weeks was approximately $580,000 per week (a 28.9% increase from the weekly average reported last July). Internet sales of draw-games (Classic Lotto 47, Fantasy 5, Mega Millions, and Powerball) have started this month. We intend to increase marketing of the iLottery program, including a local Super Bowl commercial that will appear in various Michigan markets.
- **Pilot program:** Charitable Gaming Division is pilot testing a new charity-ticket dispensing machine for use by licensed nonprofit organizations. The pilot consists of 57 machines at 20 different locations. Average daily revenue from charity-ticket sales per machine is close to $100 a day, which is statutorily divided 60% to the licensed nonprofit organizations and 40% to the Charitable Gaming Division (and subsequently to the general fund). Total revenue from tickets sold through these dispensers to date is approximately $1.3 million (with roughly $530,000 going to Charitable Gaming).

Issue 4 - **Office of Children's Ombudsman**

- Case backlog reduction from approximately 85 down to 3 (3 cases related to an employee performance improvement plan currently underway)
- In the testing stages of the CRM case management database- Go-live scheduled for the first week of February
- New investigators have been trained and are closing cases within established timeframes
- Office and staff efficiency optimization
    - Relocation/space optimization
    - Cohesion
    - Consistency
    - Fiscally prudent
- Leadership principles applied- teamwork/accountability/communication

Issue 5 - **State Budget Office**

- **SIGMA:** The re-planning for Phase 1.5 and Phase 2 is complete and the re-baseline of Project SIGMA was approved by the Project Executives, Governing Board Co-Chairs and Executive Sponsor. Agency work related to re-planning is complete. Weekly project health checkpoints have been completed to review schedules and status prior to Agencies generating their 4UP reports. Agencies have attended the majority of the Functional Design Showcases which highlight key design decisions and business processes associated with functionality being implemented in Phase 2. The presentation for End to End Processes is scheduled for week of February 1st with Security and Workflow being addressed in March.

Issue 6 - **Treasury**

- **Treasury and DTMB partnered to update Michigan Treasury Online (MTO) to improve customer experience and addressed many of them common issues by implementing the following on January 11, 2016:**
    - MBOS was eliminated. MTO users will no longer need to access MBOS in order to submit Sales, Use, and Withholding tax returns and payments or make changes to your Business Registration information.
    - Taxpayers will experience a simplified log-in- process. Only one username and password is required to enter the site, file a return, and make a payment.
    - Reduction in the steps to create a user profile and create a new business relationship.
    - Authorized users now have the ability to self-delegate to a business
    - A Fast File now option is available, allows for immediate access to file and pay your tax returns without creating a business relationship.
    - January 2016 - 67% of taxpayers surveyed were either mostly satisfied very satisfied with MTO.

Please find attached updated MTO optimization deliverable document.

Issue 6 - **Treasury *continued***

- **Department progress report on Operational Excellence 2015 projects.**
    - We started with a list of over 20 projects to improve customer service and the efficiency of the department.
    - Some of our accomplishments:
        - Tax Processing: IIT department will process all returns in the year that they were submitted for the first time in the year they were received.
        - Audits: timeline reduced by an average of 35% for Sales and Use tax audits.
        - Tax Hearings: timeline has been reduced from 18 months to 12 months. On target to reach 6 months by end of summer.
        - Escheats: worked with external group to develop, recommend and adopt legislation to streamline escheats process
        - POA: Implemented a one pager Power of Attorney form; created a workflow with Section 8 requests.

Power point attached with more detail

Department has begun our 2016 projects.

- SAP: Strategic plan to fix and finish SAP
- Call Center process improvements
- Document processing: identify/eliminate delays in processing returns that require additional information from the taxpayer
- Roll out Employment Engagement Operational Excellence: hiring, training, leadership and internal communications
- Improve the internal/external Legislative process: better bill analysis, bill positions and move from reactive to forward thinking
- Local Government: Dashboards/Early Warning systems for local governments and schools

Metric ID	Metric	Status	Progress	Target	Current	Previous	Frequency	Metric Definition
DTMB Goal 1: Develop Trusted Partnerships with our Customers								
CIP 3	EXECUTE IT - Percentage of SOM employees completing IT Security Awareness training 1	Green	👍	75%	78%	73%	Quarterly	This measure provides the percentage of state employees that have completed IT awareness training.
CSC 3	EXECUTE IT - Percentage of calls resolved by first level agents within the DTMB Client Service Center	Yellow	👎	85.0%	64.2%	65.4%	Monthly	This metric represents the percentage of the number of incidents resolved by First Level agents, divided by all calls received through the CSC. Any incident that is pushed out to another support level (Desktop Support, Level 2 IT support, Vendor support, etc.) is, by definition, not resolved at Level 1 and thus not included in the numerator.
E-Mich 3	GOV DASHBOARD/EXECUTE IT - Number of citizen facing online services	Yellow	=	316	276 Services	276 Services	Monthly	The target is to develop 40 new citizen facing online services per fiscal year. The number is reported monthly, and tracks the cumulative total. FY2016 started with 276 services, the goal is to have 316 citizen facing online services by 9/30/16.
FBSA 1	EXECUTIVE SPACE PLAN - Satisfaction Survey Scores to measure Customer experience during the CAR Project	Green	👎	3.75	4.56 Overall Mean Score: CAR Project	4.60	Monthly	Target Metrics: Green = >3.75 - Yellow = 3.0 - 3.74 - Red = <2.99 The Capital Area Reconfiguration (CAR) Project involves the reorganization of 7 State of Michigan Agencies between 6 Lansing Area Locations including more than 1,730 employees. The project is intended to create efficiencies of operations and use of State owned Buildings. The Satisfaction Survey will measure/track the Customer experience and level of satisfaction by Milestone Event/Location/Group. This will include documentation of milestones for Newsletters, Site Website and Scheduled Events. Reporting will be provided by Milestone/Location as well as status to overall CAR Project.
OPM 1 / GG1	CHANGE MANAGEMENT - Percentage of State of Michigan employees that are satisfied with DTMB services overall (biennial survey)	Yellow	=	65%	56%	New Metric	Every Other Year	In April of 2015, DTMB administered a customer satisfaction survey to all State of Michigan employees asking them a series of questions to rate DTMB overall and to provide feedback on individual services. This metrics shows the percentage of respondents that agree or strong agree with the statement 'overall, I am satisfied with the services I receive from DTMB'.
DTMB Goal 2: Achieve a Culture of Excellence and Accountability								
CFO 1	Percentage of Programs operating within approved spend plans	Green	=	100%	100%	100%	Quarterly	Percentage of Programs operating within approved spend plans. New metric - will begin reporting in FY2016. Quarterly Percentage of programs that are operating within the established spend plans that have been approved by Exec. Management Team, using the process established, to define and set program spend plans.
CTO 1	EXECUTE IT - Strategic Network Upgrade Meets Life Cycle Requirements	Yellow	👍	100%	86%	75%	Quarterly	Strategic Network Upgrade: Project to remediate enterprise network issues, specifically number of devices replaced or upgraded to meet life cycle requirements.
OPM 3	CHANGE MANAGEMENT - Percent of DTMB Strategic Plan objectives on schedule	Green	=	90%	95%	95%	Monthly	The DTMB Strategic Plan is located at http://michigan.gov/documents/dtmb/DTMBStrategicPlan2014_461748_7.pdf. Implementation plans have been created by DTMB Senior Management Team members for each of the 20 objectives. This metrics measures the number of tasks that are on schedule (marked with a green status) or completed, divided by the total number of tasks. A green status indicates the major milestones are on schedule.
FBSA 2	Executive Space Plan - Percentage of CAR Project Milestones achieving budget and schedule adherence.	Green	=	100%	100%	100%	Monthly	The Capital Area Reconfiguration (CAR) Project involves the reorganization of 7 State of Michigan Agencies between 6 Lansing area locations including more than 1,730 employees. The project is intended to create efficiencies of operations and use of State owned buildings. The project schedule and budget will be tracked by milestone event/segment and overall CAR project. This will include documentation of/against original scope/schedule and any approved scope changes that impacted budget/schedule. Reporting will be provided by milestone/segment as well as status to overall CAR project.
ORS1	Retirement System Cost Per Member	Green	👍	$ 61.98	$ 55.69 FY 2014	$ 54.71	FY Annually	Measures the cost per member, in dollars, to administer the retirement system in comparison to our peers. Our cost per member will be lower than 75% of the retirement systems in our peers group.
DTMB Goal 3: Value, Engage and Empower Employees								
Civil Service 1	UPDATE TALENT - Percentage of DTMB Managers that have completed 16 hours of leadership training	Red	=	95%	70%	70%	CY Annually	DTMB Strategic Objective 3.1: Provide leadership and professional development opportunities. DTMB Managers are part of Civil Service Group 3, Group 4, and the Senior Executive Service. Most recently all managers were required to take Crucial Conversations.
OPM 4	CHANGE MANAGEMENT - Percentage of DTMB employees participating in the annual employee engagement survey	Green	👍	90%	88% March 2015	72%	Every Other Year	The percentage of DTMB employee who participated in the annual State Employee Engagement survey in September.
OPM 5 / GG2	CHANGE MANAGEMENT - Percentage of "Champion" employees in DTMB (biennial survey)	Green	👍	67%	59% March 2015	52%	Every Other Year	The percentage of DTMB employees who are engaged and likely to stay, as measured by the annual State Employee Engagement survey in September.
DTMB Goal 4: Lead, Innovate and Deliver Solutions								
CS 7	EXECUTE IT - Percentage of IT Investment Fund Portfolio projects completed on time and on budget against baseline	Green	=	90%	91.3	91.3	Monthly	This metric tracks project status for those projects included in the $63 million of additional IT funding allocated to DTMB.
E-Mich 2	Number of mobile applications, web and downloadable, developed for the State of Michigan	Red	👍	80	39	38	Monthly	This metric measures the total number of mobile applications, web and downloadable, for the State of Michigan. This metric includes mobile applications developed for citizens and workers. The target is to develop 40 new applications per fiscal year. The number is reported monthly, and tracks the cumulative total for the fiscal year.
Procurement A 12	EXECUTE PROCUREMENT - Progress Toward Procurement Improvement Plan Best In Class Characteristics	Green	👍	100.0%	121.4%	117.8%	Quarterly	This metric identifies the percentage of objectives targeted for completion in 2015. This is the second of a five year plan to achieve green status for 16 Best in Class characteristics.
CG Goal 4: Operational Excellence								
OE-1	Project Completion			100	In	New	CY Annually	Agencies track progress in identifying impediments, executing action plans,

					Process	Metric		establishing internal metrics and establishing external metrics. Overall project completion of impediments, action plans, internal metrics and external metrics, This measure will be unnecessary after 100% completion is achieved.
OE-2	Employee Performance Feedback			100	In Process	New Metric	Quarterly	Individual performance feedback will be provided bi-weekly to every employee based on established work assignments and expectations. Agencies will maintain a schedule that can be tracked. This measure will be used indefinitely.
Good Government								
GG-3	The percentage of completed or on track department level employee engagement action plans	Green	=	100%	100%	100%	Quarterly	Percentage of department level employee engagement action plans that are completed by Senior Level Management. (Employee Engagement Action Plans reported in MiResults.)

Customer/Constituent								
1	Sales-Hold times for retailer calls	Green	↓	15	12	15	Monthly	Retailers utilize the Call Center when they have questions or problems. Shorter wait times reflect positively on the Bureau. Target is maximum seconds on hold.
2	Sales-Number of retailer calls abandoned	Green	=	5.0%	2.3%	2.3%	Monthly	Retailers utilize the Call Center when they have questions or problems. We wish to consistently handle their issues and have a low percentage of abandoned calls. Goal is to remain below target.
3	Sales-Market penetration by $1 and $2 price point	Green	↑	100.00%	98.75%	99.51%	Monthly	Penetration by instant game price point insures that retailer has necessary product inventory for customer satisfaction and to maximize sales. Participation measured as a percent of retailers that carry product to total number of retailers.
3b	Sales-Market penetration by $3 price point	Green	↑	98.00%	95.02%	95.48%	Monthly	Penetration by price point insures that retailer has necessary product inventory for customer satisfaction and to maximize sales.
4	Sales-Market penetration by $5 price point	Green	↑	98.00%	99.43%	99.48%	Monthly	Penetration by instant game price point insures that retailer has necessary product inventory for customer satisfaction and to maximize sales. Participation measured as a percent of retailers that carry product to total number of retailers.
5	Sales-Market penetration by $10 price point	Green	↑	90.00%	99.29%	99.35%	Monthly	Penetration by instant game price point insures that retailer has necessary product inventory for customer satisfaction and to maximize sales. Participation measured as a percent of retailers that carry product to total number of retailers.
6	Sales-Market penetration by $20 price point	Green	↑	80.00%	93.84%	94.63%	Monthly	Penetration by instant game price point insures that retailer has necessary product inventory for customer satisfaction and to maximize sales. Participation measured as a percent of retailers that carry product to total number of retailers.
10	CG-Increase Bingo, Raffle, and Charity Game Ticket Inspections	Green	↓	10.00%	10.00%	8.00%	Monthly	Decrease fraudulent activity and identify profitability issues. Measured as a percentage increase in the number of inspections compared to the same period for the prior fiscal year.
11	CG-Increase Training Attendance	Green	=	10.00%	10.00%	10.00%	Monthly	Provide organizations with a better understanding to prevent loss of proceeds. Measured as a percentage increase compared to the same period for the prior fiscal year.
12	Dig-Acquire mobile app downloads	Green	↓	20000	21142	15572	Monthly	Lottery Mobile App increases player engagement in new channels of media. This measure counts the number of mobile phone owners that install Lottery mobile app onto their mobile phone. Goal is to be at or above 20,000 downloads per month.
13	Sec-Timely communication and resolution to complaints and claims	Green	↓	100%	100%	97%	Monthly	Integrity and player confidence is critical to the Lottery. Timely communication and resolution to complaints and claims ensures that these issues are satisfied. Goal is to make first contact with claimant within 7 business days. Measured as a percentage of total claimants contacted in 7 days.
14	PR-Timely communication and resolution to complaints and claims	Green	=	100.0%	100%	100%	Monthly	Integrity and player confidence is critical to the Lottery. Timely communication and resolution to complaints and claims ensures that these issues are satisfied. Goal is to make first response to customers email within 3 business days. Measured as a percentage of total emails responded to in 3 days.
15	PR-Increase Lottery related Press Releases	Green	↓	5	32	22	Monthly	Increases public awareness. Provides information about Michigan Lottery games, retailers and winners to public, retailers, media and other Lotteries. Increases player confidence and integrity of our games and mission. Goal is to release 5 or more articles per month.
16	Sales-Market Penetration by $30 Price Point	Green	↓	80.00%	94.08%	93.85%	Monthly	Penetration by price point insures that retailer has necessary product inventory for customer satisfaction and to maximize sales.
Financial								
1	Adm- Maximize Return to the School Aid Fund	Red	↓	4.56%	-4.43%	-13.65%	Monthly	Year to date amount transferred from the Lottery to the School Aid Fund for the current fiscal year. Measured monthly as a percent increase compared to the same period for the prior fiscal year.
2	Adm-Maximize Sales	Green	↓	4.91%	6.55%	2.60%	Monthly	Year to date Lottery sales total for the current fiscal year. Measured monthly as a percent increase compared to the same period for the prior fiscal year.
6	Mkt-Increase value added (or bonused) media	Green	↑	13.00%	13%	24.00%	Monthly	Free media or bonus buy media allows the lottery to receive more media for dollars spent. Measured as a percentage of all TV and radio buys.
7	Mkt-Maximize digital advertising exposure	Green	↓	65%	69%	68%	Monthly	This metric measures the viewability of desktop display ads. Desktop display ads are considered viewable if 50% of their pixels are in view for a minimum of one second and for desktop video that standard is 50% for 2 seconds. For larger desktop ad units, 30% of pixels must be in view for 1 second to be considered a Viewable ad. This metric ensures that the Lottery is receiving the most effective inventory and that ads are being viewed.
8	Mkt-Increase instant ticket transaction amount	Green	↑	$3.14	$3.78	$4.13	Monthly	This measurement is the average amount spent on an instant ticket purchase transaction. It reflects the degree to which players are purchasing higher price tickets, which drives sales growth.

9	Adm-Control Operational Costs	Green		0.85%	0.82%	0.83%	Monthly	Focusing on operational efficiecies increase return to the School Aid Fund. This measure includes all Lottery operating costs such as salary, wages, benefits, travel, leases, utilities, equipment, supplies, and other miscellaneous operating costs. Measure is YTD operating costs as a percent of YTD Lottery ticket sales. Goal is to remain below target.
Internal Business Process								
2	Adm-Unqualified audit opinion for every semi-annual audit	Green	=	100%	100%	100%	Twice a Year	Sends a message to the Governor, Legislature, and public that the Lottery is run with integrity. Measured as a percent of audits receiving unqualified audit opinion.
3	Adm-Prepare Comprehensive Annual Financial Report (CAFR) to meet GFOA requirements for their Certificate of Achievement for Excellence in Financial Reporting	Green	=	100%	100%	100%	FY Annually	This award is only for those CAFRs with the highest standards in government accounting and financial reporting, and indicates integrity and transparency in financial reporting. Measured as percentage of CAFR's that have received certificate.
4	IT Sec-Maintain the security and integrity of lottery transactions through effective IT security access controls	Green	=	90%	90%	90%	Monthly	System oversight of Lottery gaming system transactions through the Internal Control System (ICS). Measurable through daily monitoring of system logs and enforcement of security policies. Controllable through authorizing access to transaction systems through request forms and verification of who accessed what from logs out of the firewalls, transaction servers, and the access control server. Measured as a percent of access problems discovered (e.g., violations and other issues).
6	CG-Improve Charitable Gaming license processing time.	Green	=	7	5	5	Quarterly	Streamline efficiencies in processing applications and licenses by further utilization of technology and software (i.e. HP Trim implementation.) These systems will provide the ability to process applications at a much faster pace. It will allow us to expand enterprise wide to enable us to reach a larger group to provide awareness and information to our customers. It will give CG the ability to allow electronic payment to significantly cut processing time and operating costs, i.e. less incoming mail, eliminate processing of hard copy checks, less data entry, quick licensing turn around time. Measured as the average number of days to process an application. Goal is to remain below target.
9	Sec-Processing security checks for Lottery retailer licensing applications within 3 business days.	Green	=	100%	100%	100%	Monthly	All Lottery retailer licensing applicants are subject to a security check by Lottery Security. Efficient processing of these applications helps potential new retailers become operational and begin selling tickets. Measured as a percent of applications processed in 3 days.
Good Government								
1	Dig-Percentage improvement in customer perception			1%	1%		CY Annually	Reporting starts 9/30/16 Agency selected target customer group. [Customer Perception is rated through existing or newly launched customer polling tools.]
2	Adm-Increase the percentage of Lottery Champions by 10%	Green		77%	71%	61%	FY Annually	Lottery's 2015 Employee Engagement Survey categorized 71% of our employees as Champions. The characteristics of these employees include a strong identification with organization objectives, a high level of loyalty to the organization, and a high level of willingness to cooperate and motivate colleagues. The Lottery's 2016 Champions goal is set at 77%. Data will be updated when the next annual survey results are available.

Customer/Constituent								
C-1	Reduce processing time on Professional Development Fund reimbursement requests submitted by non-exclusively represented employees.	Green	👍	100%	100%	94.9	Monthly	The Professional Development Funds encourage non-exclusively represented employees to further expand their knowledge and expertise in areas related to their employment responsibilities. Providing improved reimbursement time is intended to promote higher utilization of the Funds thereby increasing the State's and each individual's ability to deliver high quality services. OSE will process and enter, in MiTES, 100% of all complete Professional Development Fund (PDF) requests within 10 business days of receipt of a complete PDF request, as appropriate.
Financial								
C-2	Provide timely response to Annual Leave Donation requests submitted by employees facing financial hardship due to prolonged illness or serious injury.	Green	=	100%	100%	100%	Monthly	The Annual Leave Donation program assists non-exclusively represented and most exclusively represented employees facing financial hardship due to prolonged illness or serious injury of themselves or eligible family members by making available annual leave donated by other employees. OSE reviews all requests for compliance with program criteria and forwards approved requests to DTMB or the department, as applicable, for transfer of the annual leave hours. OSE will make a determination on 100% of all Annual Leave Donation requests within 3 business days of receipt of a complete request and forward for further processing.

Accountability & Performance								
AP-1	Identify potential budget problems by reviewing and analyzing agency expenditure trends on a qtrly basis	Green	=	100.0%	100.0%	100.0%	Quarterly	Current = Data as of the end of Q3 FY2015
AP-2	Reduce the number of Executive Budget revisions needed due to errors or omissions in the original submission	Green	👍	0	0	1	FY Annually	Current = Revisions related to FY2016 budget
AP-3	Improve the accuracy of the budget process by reducing difference between budgeted and actual Medicaid costs to no more than +/- 2.0%	Red	👎	+/- 2.0%	-5.5%	2.7%	FY Annually	Current = Final FY2014 data compared to projected FY2014 Consensus Medicaid expenditures included in the enacted DCH appropriations bill.
AP-4	Improve accuracy of the budget process by reducing difference between budgeted and actual DHS caseload cost to no more than +/- 2.0%	Green	👍	+/- 2.0%	-2.31%	-4.2%	FY Annually	Current = Final FY2014 data compared to projected FY2014 consensus caseload costs included in the enacted DHS appropriations bill.
AP-5	Improve accuracy of the budget process by reducing difference between estimated and actual K-12 pupil counts to no more than +/- 1.0%	Green	👍	+/- 1.0%	0.52%	0.36%	FY Annually	Current = Actual pupil count for most recently completed school year compared to consensus pupil estimate included in the enacted School Aid Budget
Customer Service Excellence								
CS-1	Increase the number of statewide reporting templates/guidelines for agency use in complying with required legislative reports	Green	=	6	6	6	Quarterly	Current = Out-of-state travel report; yr-end lapse estimates; transparency website; restricted revenue report; FTE report; spending plans
CS-3 Shared	Agencies satisfied or very satisfied with OIAS engagements.	Yellow	👎	80%	73%	80%	Twice a Year	Post project customer surveys to evaluate satisfaction with the OIAS engagement if it contributed toward improving department operations. Current status represents six months ending Sept. 30, 2015.
CS-2	Issue W-2s and 1099s in advance of IRS deadlines	Green	=	100%	100%	100%	CY Annually	Current = TY 2014
CS-4	Continue expanding MI School Data portal to include new tools, reports, and metrics.	Green	=	3	3	5	Quarterly	A new report is defined as a snapshot or trend report for a new dataset not previously reported. A substantial enhancement includes adding one or more new metrics or dimensions to an existing report. Current = data as of 9/30/2015.
Expertise & Commitment								
EC-1	Develop a professional development plan for each SBO employee	Green	👍	100.0%	97.5%	96.9%	Quarterly	
EC-2	Improve employee skills by implementing provisions of each employee's professional development plan	Yellow	=	80.0%	tbd	tbd	Twice a Year	Professional development activity include formal training, documented mentoring, public speaking; including legislative testimony, job shadowing, etc.
Innovation & Leadership								
IL-1	Improve long-term financial planning by adding additional years to planning horizon	Green	👍	10	10	9	FY Annually	Current = Data as of 9/30/2015
Operational Efficiency								
OE-1	Reduce costs by increasing the percentage of payments processed via electronic funds transfer.	Green	👍	100.0%	90.4%	89.9%	Quarterly	Current = Q4 FY2015
OE-2	Reduce operating costs by increasing the percentage of payments processed via recurring payments functionality.	Green	👎	25%	19.8%	20.3%	Quarterly	Current = Q4 FY2015
OE-3	Improve accuracy and reduce costs by increaing the percentage of payroll and expense reimbursements that do not require adjustment	Green	=	99%	99.37%	99.5%	Quarterly	Current = Q4 FY2015
OE-4	Average number of days between data collection and public reporting.	Green	👍	60	56.75	57.1	Quarterly	The goal is to reduce the number of days between the close of a data collection, loading it into the longitudinal data system (LDS), creating extracts for the portal,transmitting refreshed data for current reports to the MI School Data site, and making refreshed data available in preview or to the public. Current = data as of 9/30/2015.
Shared Services								
SS-1	Implement additional specific accounting consolidation, standarization, streamlining or centralization that increase cumulative savings by $250,000+	Green	=	$12550.0	$12408.1	$12408.1	Quarterly	$ in thousands / Current = Q4 FY2015
Good Government								
GG-1	Percentage improvement in customer perception			25%	TBD	TBD	CY Annually	Agency selected target customer group. [Customer Perception is rated through existing or newly launched customer polling tools.]
GG-2	The percentage of champions identified in employee survey	Green	=	70%	61%	50%	CY Annually	The % of champions identified in the statewide survey of state employees measuring employee engagement.
GG-3	The percentage of completed or on track department level employee engagement action plans	Green	👍	100%	100%	0%	Quarterly	Percentage of department level employee engagement action plans that are completed by managers 17 level and above. [Employee Engagement Action Plans reported in MiResults.]
GG-4	Good Government coin recognition program meeting four best practices.	Green	👍	100%	100%	0%	Quarterly	Departmental coin recognition programs should meet the following 4 criteria; • 3-5 recognition actions per quarter • Awards distributed among all levels • Award events photographed/documented • Staff made aware of recognition events
GG-5	The percentage of completed or on track process improvement projects			100%	TBD	TBD	Quarterly	Percentage of process improvement projects completed or on track. [Process improvement projects may focus on enhancing value for the customer, eliminating waste, standardizing best practices and improving service delivery.]

GG-6	Percentage Improvement in customer process time			50%	TBD	TBD	Quarterly	The metric applies to completed, OGG approved process improvement initiatives. [Process time is defined as the time the customer engages the agency to receive a final approval, service, product, or response.]

MiScorecard Performance Summary

Metric ID	Metric	Status	Direction	Target	Current	Previous	Frequency	Metric Definition
Customer/Constituent								
C-1	Percent of taxpayers entering <24 month IA's via web 1	Red	=	50%	0%	0%	Quarterly	New metric created 9/16/2015 - The percentage of taxpayers entering into an IA under 24 months via web vs. mail.
C-3	Percent of web payments received 2	Yellow	↓	65.00%	29.85%	33.56%	Monthly	New Metric 9/16/2015 - The percentage of payment received via web
C-4	Telephone Call Quality Assurance Measures - Office of Collections.	Green	=	100.0%	96.0%	96.0%	Monthly	To provide quality information and customer service on telephone calls. Staff are measured on several key criteria which helps determine where overall training may be needed to ensure a high quality of service.
C-5	Number of Material Security Breaches	Green	=	0	0	0	Monthly	Maintain and protect confidential information obtained through departmental programs.
C-7	Move distressed communities to fiscal solvency and stable self-governance	Green	↑	4	4	N/A	FY Annually	EM exit, RTAB meetings from monthly to bi-monthly to quarterly, dissolving RTAB, successful termination of consent agreements.
C-8	Average speed of answer for SUW calls.	Red	↓	7.00	15.13	13.11	Monthly	Improve overall customer satisfaction by providing timely response to customer phone calls, measured in average time in minutes spent on hold before speaking with a Treasury Customer Service Representative. New metric as of 10-7-15.
C-9	Abandoned rate - number of calls on hold that choose to hang up instead of waiting for a Treasury Customer Service Representative to answer.	Red	↓	10.00%	22.74%	20.94%	Monthly	Improve customer satisfaction by providing timely responses to customer phone calls measured by the number of people not willing to wait on hold for a Treasury Customer Service Representative. New metric as of 10-7-15.
C-10	Issue 10 substantive Revenue Administrative Bulletins (RABs) annually.	Green	↑	10	12 (CY2015)	2 (CY 2014)	CY Annually	Improve communication to taxpayer/practitioner community by issuing a minimum of 10 substantive Revenue Administrative Bulletins (RABs) annually.
Internal Business Process								
P-1	Percent of Tax Exemption Certificates Processed	Green	=	100%	100%	100%	CY Annually	This metric measures the percent of tax exemption certificates that are processed each year.
P-3	Inspections of Tobacco Retailers	Green	↓	470	596	627	Quarterly	This measures the number of administrative inspections of tobacco retailers and licensees by Michigan State Police and Department of Treasury enforcement personnel each quarter.
P-4	IT Projects on Time and Within Budget	Green	↓	85%	81%	87%	Quarterly	Track IT projects with respect to budget and completion time to ensure the Department meets legal/statutory requirements.
P-5	Percentage of Discovery project letters sent YTD compared to letters sent LYTD 3	Green	↓	80%	64%	99%	Quarterly	Number of inquiry letters sent affects Discovery project results. Green is 80% or higher, yellow is 75% to 80%, and red is anything less than 75%.
P-6	Average number of days to complete audit	Red	↓	275	354	346	Monthly	Monthly rolling average of days to complete audit (amalgamated for various tax types)
P-7	Average Quality Assurance (QA) error percentage on audits	Green	=	5%	3%	3%	Monthly	Monthly - average Quality Assurance (QA) error percentage
P-8	Conduct Audit of Minimum Assessing Requirements (AMAR) reviews	Green		20.0%	20.0%	0.0%	FY Annually	Ensure fair, uniform and accurate assessments statewide by conducting Audit of Minimum Assessing Requirements (AMAR) reviews in the local units within 20% of the State's 83 counties annually. Maintain a five year cycle of reviews throughout the state. New metric 9/29/2015.
P-9	Timely Processing of Individual Income Tax filing exceptions.	Green	↓	20000	20500	21000	Monthly	All current year Individual Income Tax filings, successfully captured into the IIT computer system and "flagged" as exceptions are reviewed and processed in the calendar year received. Target will fluctuate monthly depending on volume of returns received. New Metric as of 10-7-15.
P-11	Total active Dockets older than 18 months.	Green	↑	0	1	193	Quarterly	Dockets older than 18 months that need resolution. Does not include dockets in abeyance. New Metric as of October 1, 2015.
P-12	Open Dockets less than 6 months old.	Red	↑	100%	55.6%	23.24%	Quarterly	Regularly complete informal conference requests within 6 months; make process more robust. Does not include dockets in abeyance. New metric as of October 1, 2015.
Financial								
F-1	Accurate Revenue Estimating.	Green	↑	3.0%	.8%	1.7%	CY Annually	Estimate revenues within 3% of actual. The accuracy of the metric impacts the state budget process.
F-3	State Credit Rating (Fitch)	Yellow	=	AAA	AA	AA	FY Annually	Ensure the state receives the best credit rating possible. A better credit rating allows the state to borrow money at the most competitive rates available. Ensures the financial position of the state provides a climate for business investment and citizen confidence.
F-4	MPSERS Quarterly rolling 1 year average return	Red	↓	8.0%	2.6%	6.2%	Quarterly	Actual investment rate of return on pension fund assets for the Michigan Public School Employees' Retirement System vs. Actuarial Target Rate
F-4.1	MPSERS Quarterly rolling 5 year average return	Green	↓	8.0%	10.0%	12.1%	Quarterly	Actual investment rate of return on pension fund assets for the Michigan Public School Employees' Retirement System vs. Actuarial Target Rate
F-5	School Districts Serviced Under State Aid Note (Semi-Annual August Borrowing)	Green	↑	300	251	264	FY Annually	Provides access to short term loans for school districts. This metric goal is to reduce the number of school districts who need access to short term loans. Measured by the number of borrowings. Some school districts borrow more than once a year.

F-6	Tax Audits Completed	Green		550	536	463	Quarterly	Tax audits ensure that tax revenues due and owing to the state are collected.
F-7	Number of liens filed <$6,000	Green		6600	4454	3058	Quarterly	New metric 9/16/2015 - The number of liens filed under $6,000
Learning and Growth								
L-1	Improve Internal Communication Through Web	Green	=	100%	100%	100%	Monthly	Regularly update the Treasury Intranet home page to ensure staff have access to current information. This measures the percentage of time the web is updated at least monthly.
Good Government								
GG1	Percentage improvement in customer perception			TBD	N/A	N/A	CY Annually	Agency selected target customer group. [Customer Perception is rated through existing or newly launched customer polling tools.]
GG2	The percentage of champions identified in employee survey	Green	=	53%	49% 2015 Survey	49%	CY Annually	The % of champions identified in the statewide survey of state employees measuring employee engagement .
GG3	The percentage of completed or on track department level employee engagement action plans.	Green	=	100%	100%	100%	Quarterly	Percentage of department level employee engagement action plans that are completed by managers 17 level and above. [Employee Engagement Action Plans reported in MiResults.]
GG4	Good Government coin recognition program meeting four_best practices.	Green	=	100%	100%	100%	Quarterly	Departmental coin recognition programs should meet the following 4 criteria; - 3-5 recognition actions per quarter - Awards distributed among all levels - Award events photographed/documented - Staff made aware of recognition events
GG5	The percentage of completed of on track process improvement projects.	Green	=	100%	100%	100%	Quarterly	Percentage of process improvement projects completed or on track. [Process improvement projects may focus on enhancing value for the customer, eliminating waste, standardizing best practices and improving service delivery.]
GG6	Percentage Improvement in customer process time.			TBD	N/A	N/A	Quarterly	The metric applies to completed, OGG approved process improvement initiatives. [Process time is defined as the time the customer engages the agency to receive a final approval, service, product, or response.]

[1] The status color for this metric reflects breaking points at 20% to 75% of the established target value.

[2] The status color for this metric reflects breaking points at 45% to 75% of the established target value.

[3] The status color for this metric reflects breaking points at 75% to 80% of the established target value.

Michigan Department of Treasury

Improving Operations - Progress Report

Summary

- 2015 was the year we began a journey to improve Treasury operations and how we interact with taxpayers
- It started by defining our collective aspirations, strategy and near-term tactics
- Much was accomplished during the second half of the year – from improved income tax processing to a new streamlined audit process
- But we have just started. The Department is building on what was learned in 2015 to create further improvements in 2016

2015 was the year Treasury developed a new aspiration and strategic plan

Our Aspiration

Michigan Treasury will become the best operated Treasury department in the United States and the State's thought leader on all tax and revenue issues.

Best Operated has 3 building Blocks

- Engaged Employees
- Culture of Taxpayer Service
- Continuous Improvement

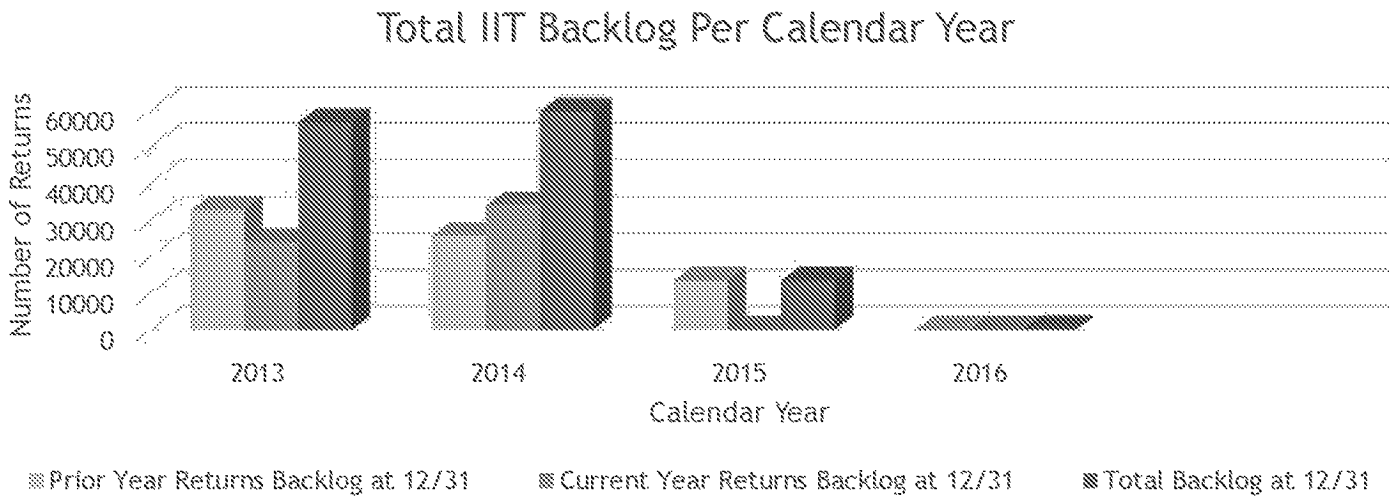
Underlying our work are 5 key values

1. In all we do – always ask “what is the impact on Taxpayer”?

2. Fair and efficient administration of tax system – not maximum revenue collection at all costs

3. Be metric driven

4. Think outside our department to find innovative solutions



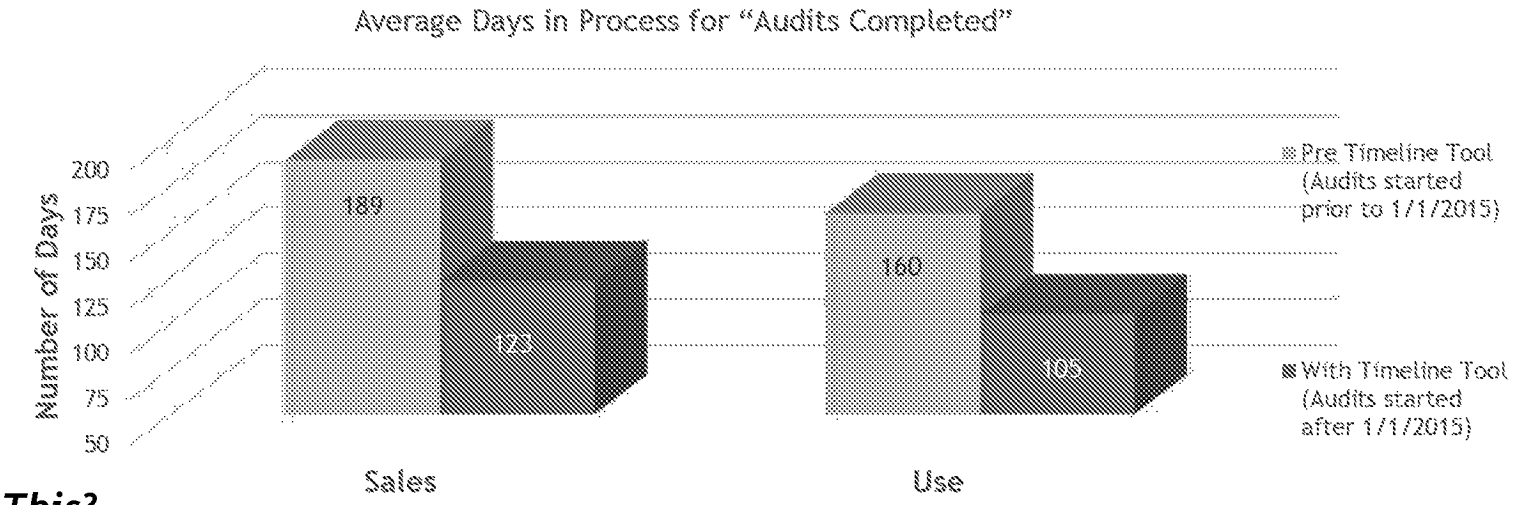
5. Communicate and celebrate success

We started with a list of over 20 projects to improve the efficiency of the Department

- Individual Income Tax Processing
- Audit
- Tax Hearings
- Communications
- Liens
- Power of Attorney
- Systems
- Documentation Backlog
- Escheats Audits

Individual Income Tax Processing (IIT)

- **Issue:** Returns were not consistently processed in year filed, and backlogs continued to grow.
- **Metric:** All current year IIT returns are processed in the same year received.

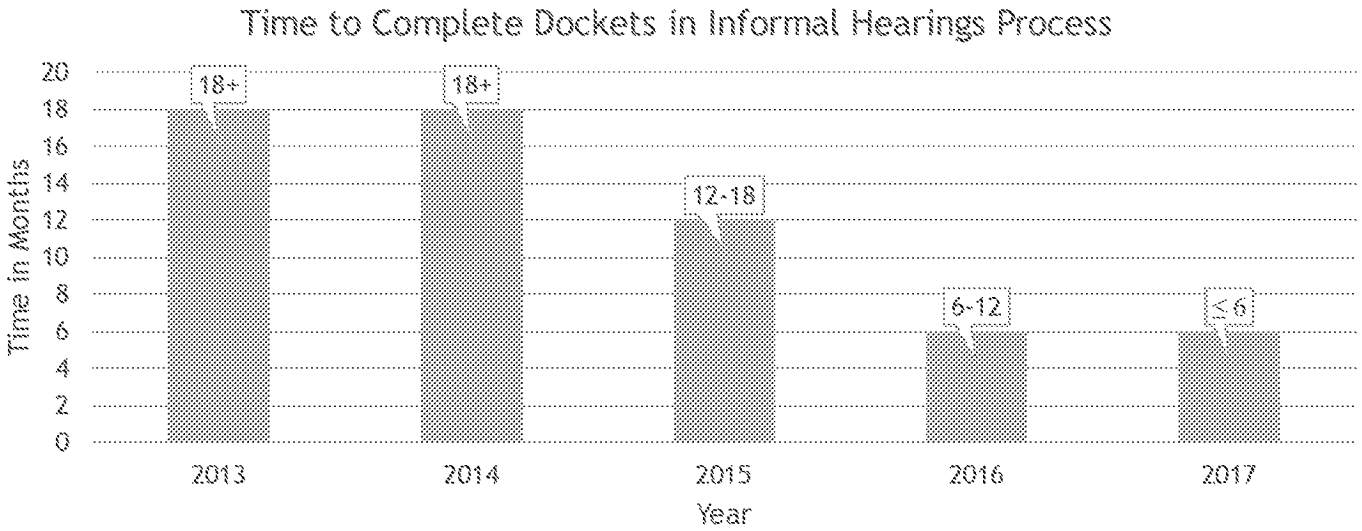


How Did We Do This?

- ✓ Streamlined work instructions for staff to complete returns with average 38% efficiency gain.
- ✓ Increased accountability.
- ✓ Prioritized backlogs and ensured work sent to appropriate skill level staff.

Audit

- **Issue:** Audits can take more than a year to complete.
- **Metric:** Ensure quality and efficient audits by reducing the average length of Sales and Use tax audits by 35% of prior year audit period.



How Did We Do This?

- ✓ New audit timeline tool
- ✓ Increased accountability
- ✓ Pre-audit conferences to set mutually agreed upon timelines
- ✓ Pilot – more focused audits

Tax Hearings

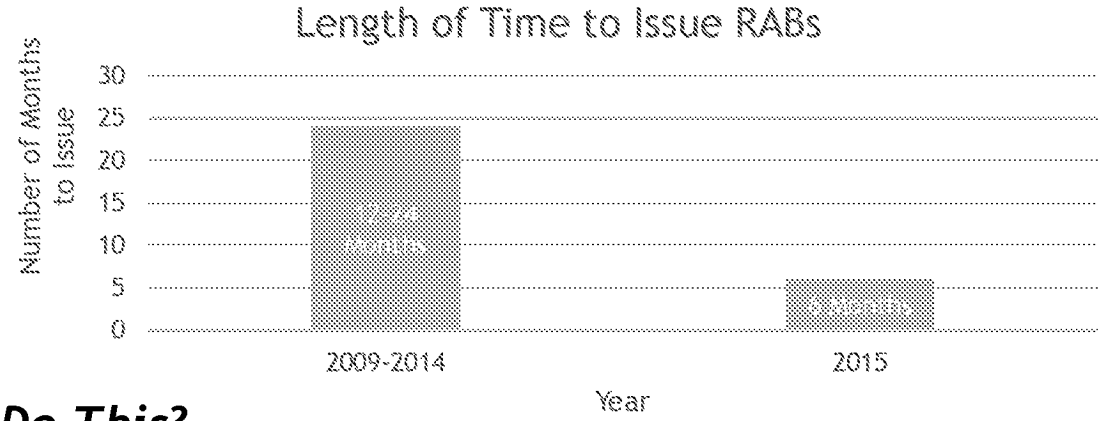
- **Issue:** Informal hearings can take up to two years.
- **Metric:** Reduce timeline for hearings to less than 6 months by Jan. 1st, 2017.

How did we do this?

- Set clear deadlines and increased staff accountability.
- Worked with internal tax areas to clear old accounts.
- Determined that internal review by audit staff was redundant and could be eliminated.

Power Of Attorney (POA)

- **Issue:** Form for requesting POA and Section 8* was unclear, and taxpayers were often asked to resend forms due to lack of internal process to share forms across areas.
- **Metric:** Improve POA/Section 8 form and create process for sharing among all Treasury areas.



How Did We Do This?

- Implemented one page, user friendly form that includes POA and Section 8 (available 11/2/15).
- Developed internal and external training to ensure form and requirements were understood by all.
- Created manual workflow to comply with Section 8 requests and began tracking number of requests.

- *Note* - Section 8 refers to the taxpayer's request that copies of all documents related to a specific dispute be given to their authorized representative*

Taxpayer Communications

- **Issue:** The Department did not consistently provide timely guidance to taxpayers on how Treasury will interpret tax laws - few Revenue Administrative Bulletins (RABs) were issued and could take more than a year to publish
- **Metrics:** Minimum of 10 new or updated RABs will be issued annually.

How Did We Do This?

- ✓ Set goal to minimum of 10 new or revised RABs issued annually.
- ✓ Created timelines and reporting tool to ensure RABs are issued within 6 months.
- ✓ Increased accountability for all staff timelines.

Escheats Audits

- **Issue:** Unclaimed Property audits could take years to complete.
- **Metric:** Implement new streamlined audit procedures, with target of 18 months to complete audit

How did we do this?

- ✓ Work group of external stakeholders and Treasury staff issued recommendations for improving escheats process on 7/2/15
- ✓ Workgroups recommendations to streamline escheats process were used to create legislation
- ✓ Legislation was signed by the Governor on 12/22/15 and became PA 242 of 2015

System Improvements

Michigan Treasury Online (MTO) Enhancements

In June 2015 Treasury made a commitment to fix the Sales/Use/Withholding automated taxpayer system. The enhanced system was launched on January 11, 2016.

- Taxpayers will need just one username and password to enter MTO, file a return and make a payment and can reset their own username and password.

- Added "Fast File Now" feature to allow immediate filing access and reduced the number of user steps in the process.

This is the first of many upgrades in 2016 to Treasury's operating systems.

Last year was just the start, we have developed a plan to build on our success in 2016

I. Call Center process improvement

II. Identifying / eliminating delays in processing returns that require additional taxpayer information

III. Move to a paperless environment – limit snail mail

IV. Single sign-on / password for employees

V. Fix SAP

VI. Develop robust employee engagement plan

VII. Better use of metrics as a management and accountability tool

MTO Optimization Deliverables by Release November 2, 2015

---- A Review of the 'Governor Memo' ----

Over the next 4 months:

- Implement a single password, this has been one of the biggest pain points for the user community (Completing via Release 1)
- Reduce the number of steps needed for authentication (Completing via Release 1)
- Rebranding MTO to make improvements to the look and feel (Completing via Release 1)

Over the next 4 to 6 months, additional improvements will be implemented, such as:

- Increased functionality for password resets (Completing via Release 1)
- Inactivity alert before expiration (Completing via Release 1)
- Continued improvements to MTO look so the user feels that they are in a single site from start to finish (Completing via Release 2, 3, n)

Over the next 7 to 16 months:

- Auto-population functionality (Completing via Release 3)
- Improved delegation process (Completing via Release 1)
- Delivery of email confirmations after returns are submitted (Completing via Release 1)

** Release 1 (January 11, 2016); Release 2 (April 2, 2016) and Release 3 (December 2016)

Updates to IMS	12/15/2015	1/15/2016	1/8/2016	Completed

Key Executive Issues

No Key Executive Issues Identified

Key Executive Risks

- 1 - SIGMA will introduce a significant amount of change: current manual processes will be automated, consolidation of 60+ systems into 1, changes in accounting policies, a new chart of accounts, as well as a migration to managed services.
- 2 - There is a large amount of effort required from a few key Agencies: number of systems being replaced, number of Agency specific interfaces, legacy modifications required and the number of other Agency initiatives.
- 3 - There may be a shortage in State IT and business staff required for the interface, conversion, legacy system and all business modifications needed to keep Project SIGMA on track.
- 4 - The Project SIGMA schedule has concurrent work that cannot be eliminated. If the resource plan does not support the amount of concurrent work required, the Project SIGMA schedule could be compromised.
- 5 - Scope control will be essential to remain on schedule. If rigorous scope control processes are not adhered to, including both Core Team and Agencies, the Project SIGMA schedule could be compromised.
- 6 –Agencies have technical work that Project SIGMA is dependent upon being successfully completed. If the work is not completed on schedule, the start of End-to-End Testing could be compromised putting the entire project implementation at risk.
- 7 - The CGI 3.11 software release has several downstream project schedule dependencies. If the CGI 3.11 software has quality issues, the overall Project SIGMA schedule could be jeopardized.
- 8 - Clarity and agreement on Cost Accounting and reporting needs in Agencies is critical to the success of Project SIGMA. If the scope is not clearly understood and adhered to, the overall timeline could be jeopardized.

Current Activity Status

01/22/16: Re-planning for Phase 1.5 and Phase 2 is complete and the re-baseline of Project SIGMA was approved by the Project Executives, Governing Board Co-Chairs and Executive Sponsor. The PCO is in the process of updating the IMS as needed and updating Key Milestones in Changepoint with the re-baselined dates.

Major Project Accomplishments

- Completed Chart of Accounts Design - Phase 2
- Published SIGMA Interface Templates - Phase 2
- Published Assets & Inventory Data Conversion Templates - Phase 2

Project Name: SBO - Project SIGMA
Project Status: Green

Project Manager: Ruth Schwartz

Current Activity Status

Agency work re-planning is complete; the PCO has updated the integrated Master Schedule (IMS) with all 20 Agency Technical Schedule (ATS) iteration 4 that met requirements and were in alignment with key design, development and testing activities associated with the Phase 2 timeline extension. The PCO continues to conduct weekly project health checkpoints to review schedules and status prior to Agencies generating their 4UP reports.

Agencies have attended the majority of the Functional Design Showcases which highlight key design decisions and business processes associated with functionality being implemented in Phase 2. The presentation for End to End Processes is scheduled for next week with Security and Workflow being addressed in March. Agency support continues with COA mapping and data collection and load (initial sampling) via Cost Accounting Workshops.

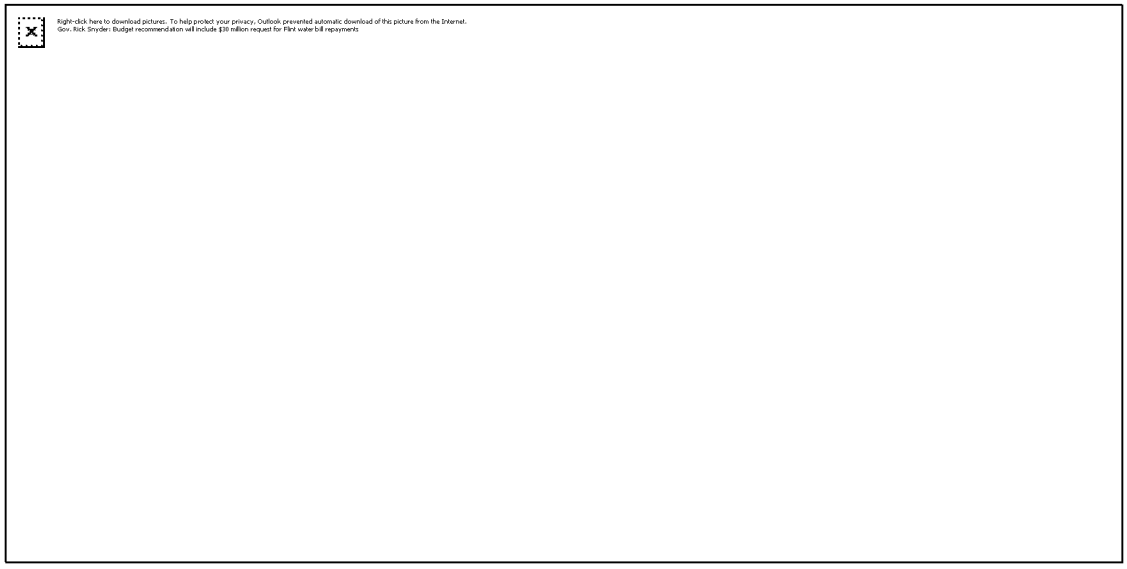
Project Budget/Cost

Initial Budgeted Cost	Latest Revision Budgeted Cost	Actual Cost To Date
$152,413,600.00	$175,259,031.00	$46,545,009.00

Total Approved ITIF Budget (FY13-18) : $175,259,031.00

Total Hours as of 12/15/2015 : 423,142

Major Project Accomplishments



- Completed Comprehensive Design - Phase 2
- Published Cost Accounting Data Conversion Templates - Phase 2
- Completed Chart of Accounts Configuration - Phase 2
- Published Vendor/Customer Data Conversion Templates - Phase 2
- Published AR Data Conversion Templates - Phase 2

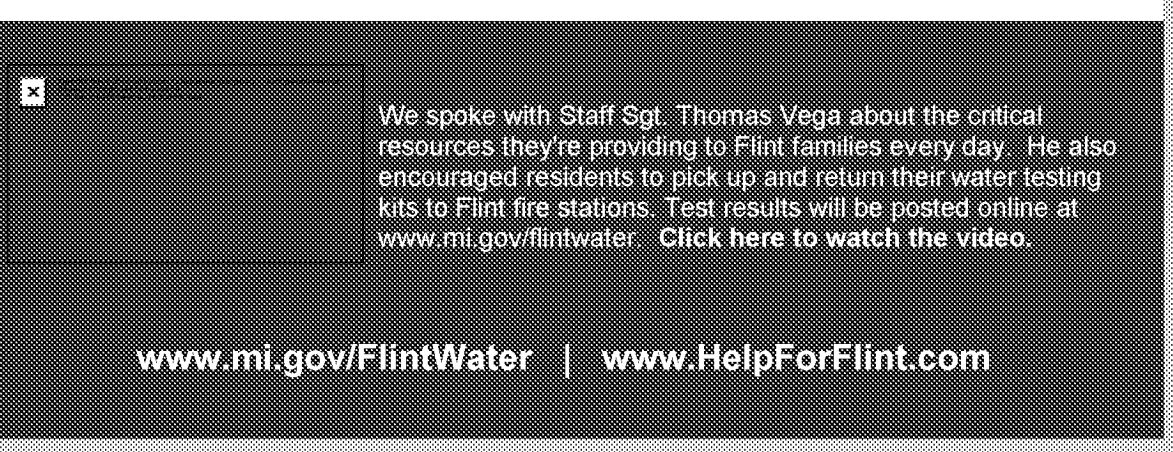
Next Steps

- Agency Confirmation - Systems Replaced/Modifications
- Update Key Milestones with Re-Baselined Dates

From: Governor's Office <governorsoffice@govsubscriptions.michigan.gov>
Sent: Wednesday, February 03, 2016 6:17 PM
To: Trakul, Pamela (DTMB)
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.



Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

Pam,

Can you please include Travis Weber with the Governor's legal staff if he is available? No need to reschedule if he isn't.

Thanks!

Gary

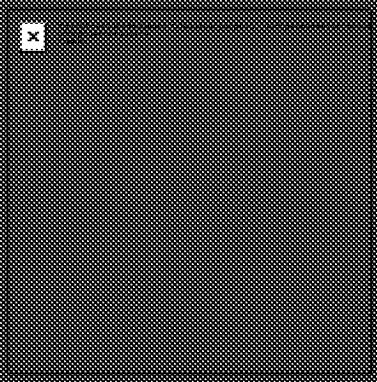
VIDEO: What Governor Snyder's FY17 budget means for Michigan

Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.



This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of

Michigan's families. Click here to learn more about the top 6 takeaways from the Governor's FY 2017 state budget.

Click a tweet to tweet it out:

The #MIBudget @OneToughNerd proposed yesterday makes key investments to strengthen Michigan for all families --> www.mi.gov/MIBudget

--> @OneToughNerd's #MIBudget includes $72 million a year for Detroit Public Schools. It is time to act now -- > www.mi.gov/MIBudget

--> @onetoughnerd's significant investment in #Flint families is the right thing to do. #FlintFWD #MIBudget www.mi.gov/MIBudget

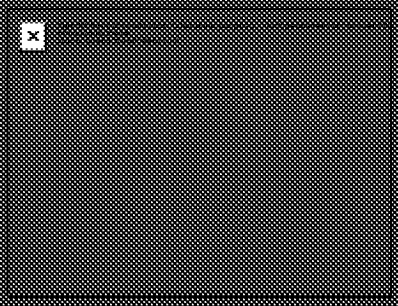
Subject: VIDEO: Volunteering in Flint

HOME | BLOG | CONTACTS | FACEBOOK | TWITTER | INSTAGRAM

VIDEO: How volunteers are helping Flint



Volunteers at the Food Bank of Eastern Michigan are working hard to collect donations in order to help the families of Flint. Last Thursday, Governor Snyder visited with the many dedicated volunteers and helped sort cans of food.

Good nutrition is critically important for Flint's children. Foods that are high in calcium, vitamin C, and iron can help limit the effects of lead exposure. To donate or volunteer at the Food Bank of Eastern Michigan, visit www.fbem.org.

From: DTMB Director and CIO David Behen <dtmb@govsubscriptions.michigan.gov>
Sent: Wednesday, February 17, 2016 10:10 AM
To: Trakul, Pamela (DTMB)
Subject: The Gov. Snyder's Budget Proposal

Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

Please note the attached document has been updated. Please discard the previous version. A paper copy will be provided to you at the meeting.

-----Original Appointment-----
From: Longanbach, Janelle (DTMB) **On Behalf Of** DTMB-Directors-Office
Sent: Wednesday, February 17, 2016 1:21 PM
Subject: Mandatory Meeting - DTMB Custodians of Correspondence Related to Flint
When: Thursday, February 18, 2016 2:00 PM-3:00 PM (UTC-05:00) Eastern Time (US & Canada).
Where: Ottawa Builidng - Upper Level – Conference Room 4 OR Call-in: 866-390-1828 access code: 1842654

Please note this meeting can be attended in person or via conference call-in. Location and Dial in information are provided below.

<< File: All DTMB Custodians of Correspondence Related to Flint.pdf >>
***This attachment was updated 2/18/16**

*See agenda below

Requested By:
DTMB Executive Staff

Location:
Ottawa Building
Upper Level – Conference Room 4
611 W. Ottawa Street
Lansing, MI 48933

Call-in: 866-390-1828
Access code: 1842654

Security:
Please have your State Employee ID showing at all times.

Parking:
Metered parking is available along Ottawa and Pine street.

Briefing:
In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to produce, by a certain date, any documents containing certain search terms. In this meeting we will review instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Agenda

1. Kickoff – Brom Stibitz, Chief Deputy Director
2. Why you are here – Jean Ingersoll, Interim Chief of Staff
3. What you need to do (February 22, 2016 deadline) – Jean
4. What will be done for you – Jean
5. What's next – Jean
6. Public Information Reminder – Caleb Buhs, Public Information Officer
7. Questions and Answers - Group

STATE OF MICHIGAN

RICK SNYDER
GOVERNOR

DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET
LANSING

DAVID B. BEHEN
DIRECTOR

February 18, 2016

TO: All DTMB Custodians of Correspondence Related to Flint

FROM: Jean Ingersoll, Interim Chief of Staff to David B. Behen, Director and CIO

SUBJECT: Flint Document Production – Search Terms and Guidance

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. **As a custodian, you are required to produce any documents containing the search terms listed below, no later than Monday, February 22, 2016.** This memorandum contains detailed instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Microsoft 365 – Outlook (*includes emails, calendar items) and OneDrive*

DTMB staff will centrally coordinate the Microsoft 365 search for all of DTMB's custodians. Therefore, DTMB's custodians *do not need to independently search any of their Microsoft 365 applications* for the search terms listed below.

Network Drives

Similar to the approach outlined above, DTMB staff will centrally coordinate the network drive search effort for all DTMB custodians. Custodians do *not* need to independently conduct a network drive search for the search terms below.

Non-Network Drives – *includes hard drives, desktop, and thumb/flash drives*

For all non-network drive types, ***each custodian will need to search every search term listed below in every non-network format, and move all relevant/related documents in to a network drive for collection. In order to move items to the network, you must be connected to the network.***

Start by conducting the search of all non-network drives, filling out the attached search term checklist as you go. If you need guidance as to how to perform this search, a step-by-step guide is included below in Appendix 1.

All relevant/responsive items that are produced as a result of your search need to be moved to a network drive. You can move your relevant/related documents to a network drive in whatever format the document is currently in. After the February 22, 2016, deadline, DTMB staff will access the network drives to collect the files.

Paper Files

Review all applicable paper files. Scan any relevant/related documents, and save them to a network drive, as described above. If this is not possible, you may provide hard copies of documents to Jean Ingersoll in the Director's Office. These documents must be received in the Director's Office by February 22, 2016, and will not be returned to you.

Home Computer

Any relevant e-mails or other documents on a personal computer also are subject to this request. Please check your personal computer for any e-mails or other documents relating to this search. If you discover any relevant/related documents, please include the phrase "personal computer" in the file name, and save them to the aforementioned network drive.

Conclusion

Thank you for your cooperation in complying with this request. Should you have any questions, please contact Jean Ingersoll at 1-8844.

Attachments

- FOIA Checklist
- Attachment 1 – Search Guidance

Search Term Checklist

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to search and copy all items that you identify to a DTMB network drive, as described above.

Please complete your search no later than close of business on Monday, February 22, 2016. Relevant/related items from the past 10 years should be included.

You should search for *each term exactly as it is shown below, and include quotation marks around each separate word.* For example, "Legionnaire", "Legionella", or "Flint" would all go into search fields. After you complete a search term, check the box beside the term.

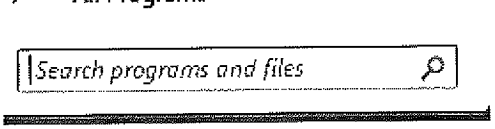
Search Terms:

- ☐ "Legionnaire"
- ☐ "Legionella"
- ☐ "boil water order" & "Flint"
- ☐ "coli" & "Flint"
- ☐ "bacteria" & "Flint"
- ☐ "microb" & "Flint"
- ☐ "TTHM" & "Flint"
- ☐ "Lead" & "Flint"
- ☐ "emergency" & "Flint"
- ☐ "Karegnondi"
- ☐ "Genesee County Health Department"
- ☐ "Flint" & "utilities"
- ☐ "Lead and Copper Rule"
- ☐ "Detroit Water and Sewerage Department" & "Flint"
- ☐ "DWSD" & "Flint"
- ☐ "Flint River"
- ☐ "Pb" & "water"
- ☐ "KWA"
- ☐ "Flint" & "water"

Search conducted on the email account of: _____

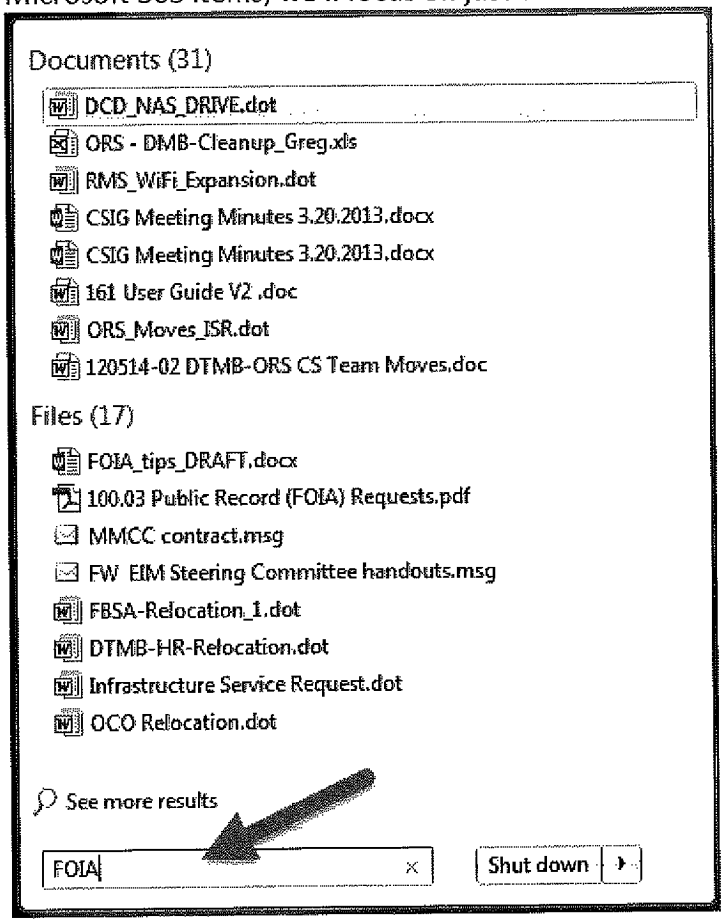
By (your name): _____

Date completed: _____



Please return this completed Checklist to DTMB Director's Office staff by Monday, February 22, 2016, at DTMB@michigan.gov, or Directors Office, Cass Building, Second Floor

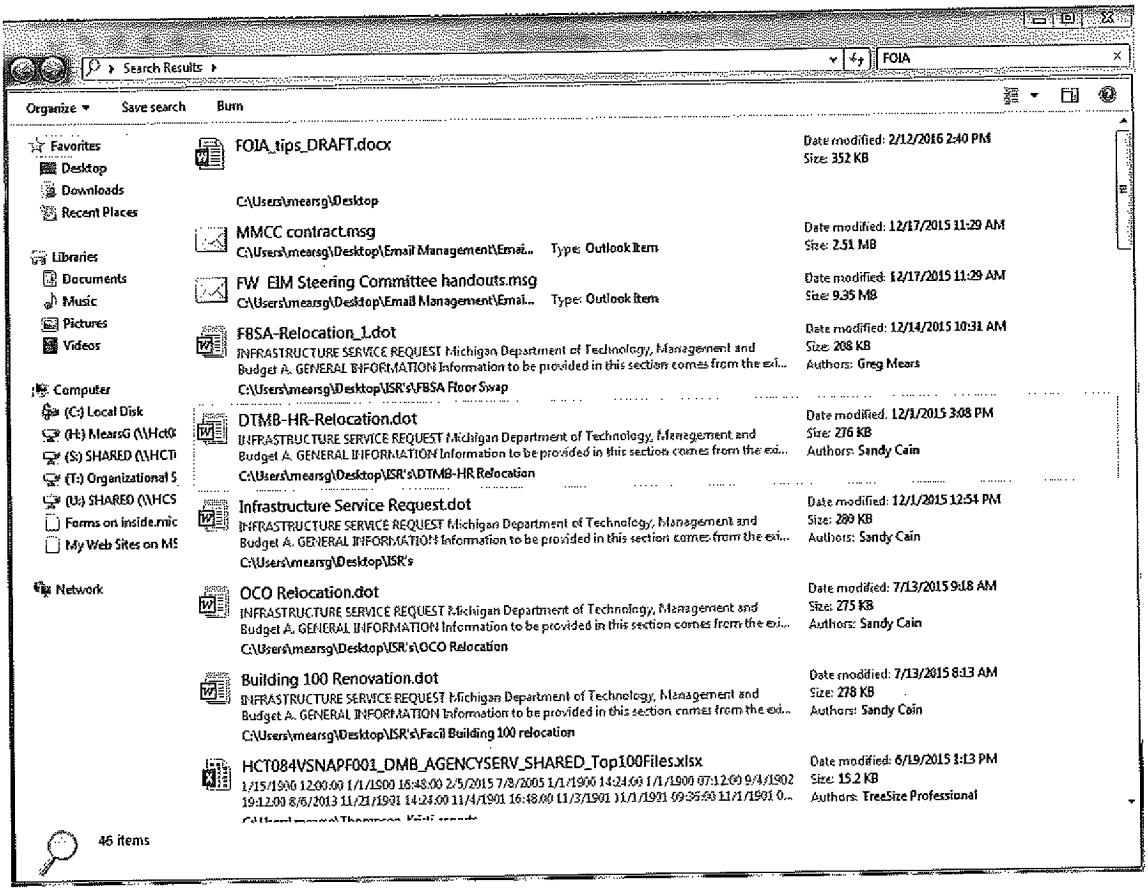
APPENDIX 1 – Search Guidance



Regardless of what version of Windows you're using, each of them has a search feature built in called "Windows Explorer," you see it every time you open up a folder on a network drive, or on your own computer.

Using the search function in windows 7

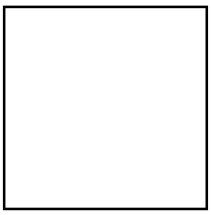
Since the majority of DTMB is on Windows 7, the examples below are on that operating system. If you click on windows Start button, you'll see the search box right next to it



This example searches for the word FOIA. As you can see, the search yielded numerous documents including emails. Since DTMB is centrally collecting relevant emails and other Microsoft 365 items, we'll focus on just the documents.

You need to open each document to make sure that it's relevant. In this instance, the search brought up a DTMB Move form, but only because it has the word FOIA in the form.
You'll notice that the words "See more results" appears at the bottom of the list. This means that the search turned up a lot more documents than what can easily be displayed. You must

click on the link to open Windows Explorer and reveal a comprehensive list, along with their locations.



As you can see from this example the search found 46 items. We can now select them all using the "Ctrl-A method", and copy them to a network drive.

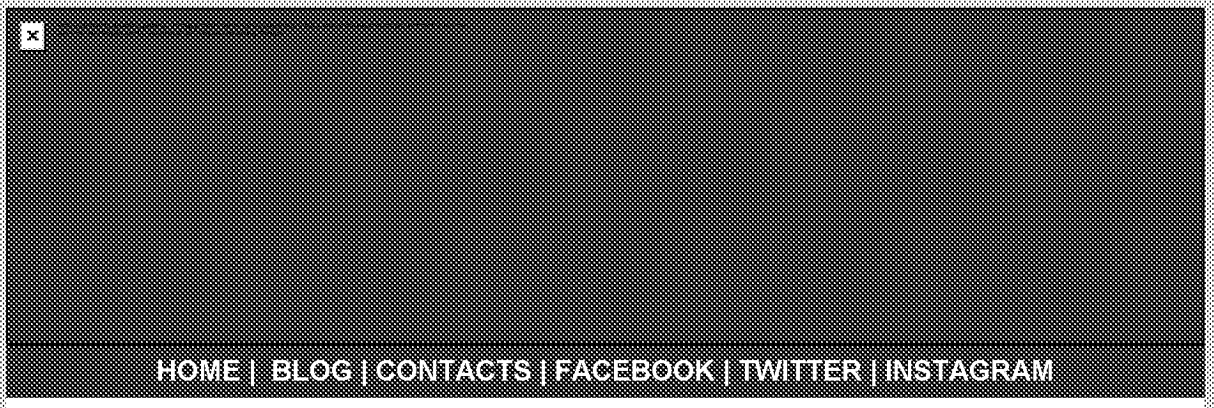
Governor Rick Snyder's critics, hoping to find a damaging email he sent regarding what he knew and what he did about Flint water, likely came away disappointed from reading almost 300 pages of emails he sent and received on the topic in 2014 and 2015. In fact, most of the emails - which the governor's office made public Wednesday, despite his office's exemption from the Freedom of Information Act - show the governor saying little, often forwarding emails to staff without comment, making a few suggestions regarding an upcoming public event or in some cases signaling he needed better information than what a member of his staff provided in an email. Mr. Snyder did not release emails that his Executive Office staff sent and received on Flint in which he was not the sender or recipient. Democrats sharply criticized that decision. "One of the things I had to think through ... is they also sort of had the perspective that they were under that umbrella and shield personally themselves because they're part of the Executive Office," Mr. Snyder told WDET-FM's "Detroit Today" of why he limited the release to himself. "If you go back to this discussion, it was mostly a discussion of me as the elected official, is there some smoking gun or some other issue to indicate I knew about the lead problem and I didn't do something about it." Mr. Snyder said he is talking to Lt. Governor Brian Calley about a broader review of the state's transparency laws. And Angela Wittrock, spokesperson for Senate Minority Leader Jim Ananich (D-Flint), was incredulous that Mr. Snyder did not receive any email September 24, the day that Doctor Mona Hanna-Attisha announced she had found rising blood lead levels in Flint children. There were some clear themes that emerged from the documents. What Mr. Snyder received from staff was far more illuminating than what he sent. The most obvious storyline coming from the emails is the implosion at the Department of Environmental Quality. But another interesting dynamic is documents involving Flint's decision to leave the Detroit water system in favor of joining the new Karegnondi Water Authority that would build a new pipeline to Lake Huron. The documents undermine both Mr. Snyder's attempt to cast that decision as purely local in nature and Democrats' efforts to pin the blame for the move on the emergency manager Mr. Snyder appointed to run Flint. In fact, the documents show that decision was agreed upon at several levels of the government. Of course, in some ways the debate is irrelevant. It was not the decision to join the new pipeline that directly caused lead to get into the drinking water at some locations in Flint, it was the decision to switch to the Flint River as an interim water source until the new pipeline was complete without corrosion control treatment. There was little new light shed on the dynamics of how the decision to switch to the river was made. And on the topic of the lack of corrosion control treatment, the documents reiterate what Mr. Snyder's task force already has said: the DEQ's decision not to require the city to use corrosion control treatment was the most important moment in what caused lead to leach from service lines into some locations' drinking water. A November 16, 2015, document marked "privileged attorney-client communication" poses a series of questions, one of which was "Did the DEQ require the city to have corrosion control in place when it switched to the Flint River as its source of drinking water?" The answer was unequivocal: No. Under state regulations, Flint could demonstrate it was practicing "optimal corrosion control" by showing through two tests at six-month intervals that the system was in the 90th percentile in each monitoring period lower than the sum of the lead in the source and the practical limit for lead of 5 parts per billion. With the source at 0, Flint needed to stay at 5 parts per billion or less. Once the city exceeded that level in the second period, the DEQ sent it a letter August 17, 2015, ordering it to install corrosion control treatment. The problem was that lead levels in specific locations were much higher than the 90th percentile. Up until mid-October, the DEQ had defended its application of the rule. On October 18, then-DEQ Director Dan Wyant sent an email to Mr. Snyder and other top staff changing the department's tune. "I believe we now made a mistake," he wrote. "For communities with a population above 50,000, optimized corrosion control should have been required from the beginning. Because of what I have learned, I will be announcing a change in leadership in our drinking water program." It is in the November 16, 2015, privileged attorney-client communication where one can see why Mr. Snyder has vented about the DEQ taking too technical an approach. There is a section marked "Questions Raised Regarding the DEQ's Actions." One question asks what the department's response was to the U.S. Environmental Protection Agency's inquiry in February 2015 about the implementation of optimized corrosion control treatment by the city. The response is that the DEQ told the EPA the city was complying with the federal lead-copper rule and the lead level was below the actionable threshold of 15 parts per billion. "It should be noted that once treatment is designated as optimal, there is no requirement in the (lead-copper rule) that lead results be lower than they were before treatment was installed," the answer says in something of an aside. "The 90th percentile only needs to be lower than the action level in the (lead-copper rule)." Another question goes to one of the topics that has left outside observers wondering. When General Motors announced it would terminate water service from the city because city water was corroding its equipment, should that have been a sign that there were water quality concerns. The answer in the document: no. "The level of chlorides in the water treated by the city was not a human health or aesthetic concern," was the response. Finally, on December 28, 2015, Mr. Snyder received an email from his incoming chief of staff, Jarrod Agen, advising him of preliminary recommendations from the task force he appointed to look into what went wrong that "suggest profound change at the DEQ and openly criticize Director Wyant. If this is the path that the task force is on, it is best to make changes at DEQ sooner rather than later. That likely means accepting Dan's resignation. It also means moving up the termination of the three DEQ (personnel) previously planned for (January) 4 to tomorrow." Mr. Wyant did indeed resign the next day. However, administration officials have said while other personnel changes are coming to the department, they have not occurred yet. Snyder press secretary Dave Murray was not able to immediately answer whether those employees had been terminated or who they were. The email that seemed to cause the biggest stir Wednesday was one dated September 25, 2015, from Mr. Snyder's then-chief of staff, Dennis Muchmore, to the governor. In that email, a few days before the state conceded it



wrongly concluded the water was safe throughout the city, Mr. Muchmore says, "I can't figure out why the state is responsible except that Dillon did make the ultimate decision so we're not able to avoid the subject." What Mr. Muchmore was revealing was that former Treasurer Andy Dillon gave the final sign-off to the decision for Flint to join the Karegnondi Water Authority. Many Democrats hammered at this email as the only one that mattered in the batch, showing that it was the Snyder administration that started the chain of dominos falling. However, other documents show that it was a multilayered decision. While Flint's city council did approve the switch, as has been widely known, Democrats have downplayed the vote as meaningless because the city's emergency manager held all the power. But there is a news release included in the documents from the Genesee County drain commissioner praising the council's vote, noting he had "made a vote by council a condition of Flint joining the KWA so the residents would have their say." One theme that emerged was that Mr. Muchmore is not a fan of U.S. Rep. Dan Kildee (D-Flint). "Kildee is engaged in his normal press hound routine, which is unfortunate because he's really a smart, talented guy who needs to roll up his sleeves," he wrote in an email to Mr. Snyder and other senior staff on September 26, 2015. This email also hinted at frustration Mr. Muchmore felt toward the city and those warning of lead levels, in contrast to the July email he sent to Health and Human Services Director Nick Lyon asserting that the state was "blowing off" residents' concerns. "Now we have the anti everything group turning to the lead content which is a concern for everyone, but DEQ and DHHS and EPA can't find evidence of a major change," he wrote. "Of course, some of the Flint people respond by looking for someone to blame instead of working to reduce anxiety. We can't tolerate increased lead levels in any event, but it's really the city's water system that needs to deal with it." It was at this time that the state was still in full denial mode as Virginia Tech researcher Marc Edwards and Doctor Mona Hanna-Attisha made public data showing dangerous lead levels in some residents' water and rising blood lead levels in children. Geralyn Lasher, DHHS deputy director for external relations and communications, signaled in a September 25 email to Mr. Muchmore and other top staff, which Mr. Muchmore later forwarded to Mr. Snyder, that DHHS did not see Ms. Hanna-Attisha's blood lead level data as credible. "MDHHS epidemiologists continue to review the 'data' provided by a Hurley hospital physician that showed an increase in lead activity following the change in water supply," she wrote and went on to say why DHHS believed their data was more accurate. In the lead-up to the dramatic October news conference in Flint in which Mr. Snyder would acknowledge the state was wrong, he was keenly interested in the details, especially on the question of whether to switch the city back to the Detroit system. "We need Treasury to work with Dan (Wyant) and Flint on a clear side by side comparison of the health benefits and costs of (the Detroit system) vs. a more optimized Flint system," he wrote to Mr. Muchmore and Mr. Agen. "Also, we need to look at what financing mechanisms are available to Flint to pay for any higher cost actions. Please get people working on these two issues ASAP." On October 6, Mr. Snyder expressed some disappointment that he had not been told in advance that DHHS would start giving out water filters that day. "This should have come internally with more detail," he wrote. "I had press questions last night." In another instance, Mr. Snyder's liaison to Flint on the water crisis, Harvey Hollins, told Mr. Snyder and top staff that the filters a private donor provided to the Concerned Pastors group had been distributed September 4 to more than 1,500 households with the supply gone in four hours and 200 people still waiting for a filter. Mr. Snyder wanted to know more. "Factually accurate update, but how did it go over with the residents?" he asked. Mr. Hollins replied it "went over extremely well." Then there were the randomly interesting emails, such as one from November 25, 2014, where Department of Treasury lobbyist Howard Ryan told Dick Posthumus, Mr. Snyder's head of legislative affairs, that he was "being told" Mr. Snyder had agreed to allow Flint to have a vote to raise its city income tax from 1 to 1.5 percent. Mr. Posthumus then asked Mr. Snyder if he had told anybody he would support such a bill. There is no response from Mr. Snyder, but a December 3 email from one of Mr. Snyder's legislative lobbyists, Sally Durfee, signals that Mr. Snyder did support it. But she mentions the need to convince Rep. Jeff Farrington (R-Utica), the House Tax Policy Committee chair. "Farrington, chair of House Taxation, said he would take up this bill over his dead body," she wrote. "Then he said he would take up if you asked directly. You are having lunch with him today - can you just mention the importance of getting this bill done before we adjourn?" Mr. Snyder did not respond via email. The bill was never taken up. - See more at: http://www.gongwer.com/programming/news.cfm?article_ID=550120101#sthash.6hEwt6Ta.dpuf

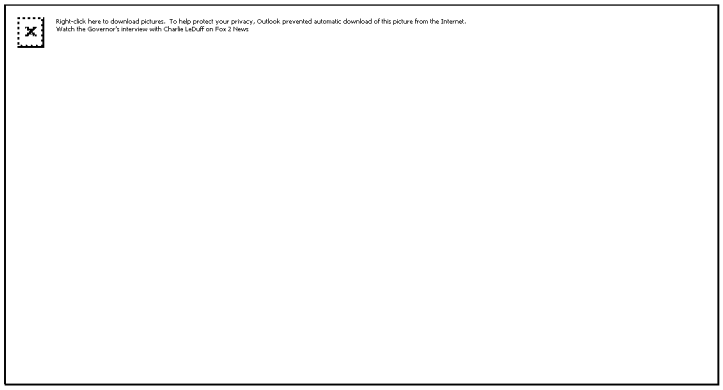
How we are fixing the Flint water crsis

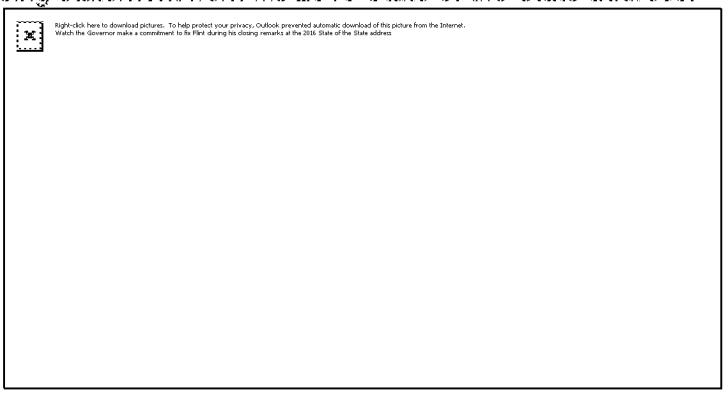
Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe



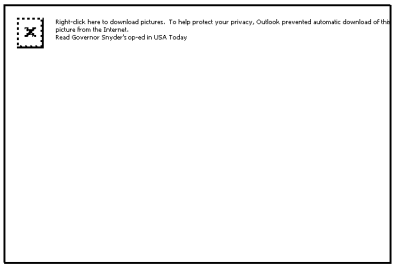
"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water

crisis on Morning Joe.



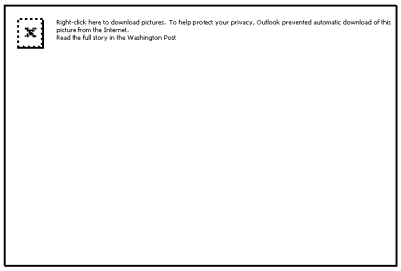
Governor Snyder with Charlie LeDuff on Fox 2 Detroit

"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



Governor in USA Today: "I will fix this, and I mean it."

"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

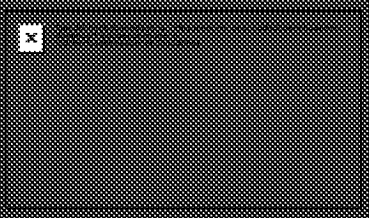
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.



Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly 65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking,

and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

We spoke with Staff Sgt. Thomas Vega about the critical resources they're providing to Flint families every day. He also encouraged residents to pick up and return their water testing kits to Flint fire stations. Test results will be posted online at www.mi.gov/flintwater. **Click here to watch the video.**

Lynda Dykema is the contact for questions on Virginia Tech/Hurley data.

Sent from my iPhone

On Sep 28, 2015, at 7:52 AM, Lyon, Nick (DCH) <LyonN2@michigan.gov> wrote:

> Director Wyant and I agreed this morning to establish a team to look at the recommendations below in preparation for a joint press conference later this week. I did modify one and remove one from his

original email. He was suggesting an outside public health advisor. I think it's appropriate that this be our CME so I changed that piece. I volunteered Geralyn, Elizabeth, and Dr. Wells to serve on the team.

The areas where we need more attention are as follows:

1) I need an analysis of the Virginia Tech/Hurley data and their conclusions. I would like to make a strong statement with a demonstration of proof that the lead blood levels seen are not out of the ordinary and are attributable to seasonal fluctuations. Geralyn is working on this for me but she needs someone in public health who can work directly with her on immediate concerns/questions. Sue – Please get her a name immediately.
2) I need an understanding of what WIC will pay for and when. We are hearing that the USDA is indicating that premade formula can be provided. Internal WIC staff don't seem to be saying the same things. And there may also be a supply issue. Elizabeth is following up for me on this.
3) Elizabeth will also follow up with Terry Beuer to see what FNS will pay for on the food assistance side, or if there are other programs that may cover water or premade formula.
4) I think we did a good job getting the local public health department involved and I ask that we work in concert with him. The recommendation is that they be included in the press event this week.

We need immediate action on these. I have a follow up phone call early this afternoon. I also ask that any requests coming from the team be treated with great urgency. The expectation is that we will get on top of this and provide leadership on the issue.

Nick

Subject: Proposed Press Conference on Flint Drinking Water

Per the ongoing issues in Flint concerning their drinking water, I would offer the following recommendations. Let's discuss.

Recommendation

Press Conference in Flint – Wednesday, Thursday or Friday.

Participants

Mayor of Flint
Dan Wyant – Michigan Department of Environmental Quality
Nick Lyon – Department of Community Health
Susan Hedman – Region 5 Administrator or EPA
Harvey Hollins – Governor's office
Local Public Health Department

Announcement

Federal – State – Local action plan to address Flint Drinking Water

1. Governor Snyder names Dr. Eden Wells (DHHS Chief Medical Executive) as Flint drinking water Public Health Advisor.

2. All Flint schools water will immediately be tested to ensure that drinking water is safe.

3. Advisories will be disseminated recommending citizens flush your cold water pipes, use only water from the cold water tap for drinking, cooking and especially for making baby formula.

4. Implementation of fully optimized corrosion controls in the Flint drinking water system.

5. Expanded water testing of at risk properties.

6. Offer water testing at no cost to Flint residents to assure water is safe.

7. Convene a safe drinking water " Technical Review Advisory" to ensure best technology, practices and science is being utilized, including EPA's expertise and assistance from their Office of Research and Development.

8. Offer bottled water and premixed formula if test results indicate high levels of lead.

Dan Wyant, Director
Department of Environmental Quality
517-284-6700 (New Number)

INTERNET ACCESS EXCEPTION REQUEST

Michigan Department of Technology, Management and Budget

1. Request Date
9/28/2015

2a. Requestor Last Name	b. First Name	3. Requestor Title
Dykema	Linda	Division Director

4. Agency / Office / Division / Section / Unit
Environmental Health Division

5. Contact Name	6. Telephone Number
Linda Dykema	517-335-8566

7. Email Address
dykemal@michigan.gov

8. Office Location *(include Building Name, Suite, Street, City, State and Zip)*
Capitol View Building, 4th floor office 406, 201 Townsend St., Lansing MI 48913

9. Source Computer IP Address *(must be static)*	10. Computer Type *(e.g., laptop, desktop, etc.)*
10.255.10.62	laptop

11. Reason for Exception

Access to the Virginia Tech Flint Drinking Water Study site is urgently needed to respond to requests from MDHHS Director and Governor's office.

12. URL's for Exception

www.flintwaterstudy.org

13. Agency Deputy Director or CSP Representative Signature — Date

DTMB-0099 (Rev. 11/19/2014)

DISTRIBUTION:
FAX to MiSOC (517) 373-8955

Internet Exception Process for Internet Access

INSTRUCTIONS:

When: Effective January 15, 2005 (Updated 11/19/2014)

End-user:

- Receives a "Content blocked by your organization" message when attempting to access a website that has been blocked by policy. If this block is in error or interferes with State business that must be conducted, end-user must go through the Exception Process described below.
- If the End-User receives some other error when attempting to access a known valid website then DTMB End User Support needs to investigate the cause of the error prior to further action, contact the Help Desk at 517-241-9700 to open a ticket for end user support. The end user support technician may advise you to complete the DTMB-99 process.
- Questions may be addressed by phone to DTMB MiSOC @ 517-335-1722.

Exception Process:

- Requestor fills out DTMB-0099, Internet Access Exception Request retrieved from website: http://inside.michigan.gov/dtmb/wr/Forms/Internet%20Access%20Exception%20Request.dot
- Request date
- Requestor name is the user who will be accessing the exception website(s)
- Agency / Office / Division / Section / Unit
- Contact name for questions
- Contact phone number
- Contact email address
- Office location
- Source computer IP address (computer that will access the exempted website) must have a static IP address assigned (i.e. not DHCP)
- Computer type
- Reason for exception request (Justification)
- URL(s) for website(s) for requested exception must be complete URL (e.g. http://www.exceptionurl.com/)
- The form MUST be signed by either your agency deputy director (or higher) or your agency Customer Service Partnership (CSP) representative. You can find your representative on SharePoint here: http://inside.michigan.gov/sites/dtmb/CSP/Shared%20Documents/CSP%20Membership%20List%20-June%2015%202015.pdf

Request Process

- Requestor has Agency Deputy Director or MITEC representative sign DTMB-0099 exception or no action will be taken on the exception request
- Requestor faxes the signed DTMB-0099 to DTMB Michigan Security Operations Center at: 517-373-8955
- DTMB MiSOC implements the exception to allow approved Internet access
- DTMB MiSOC updates ticket as resolved and requestor is notified via automated email

Subject: RE: ACTION REQUIRED: FW: Proposed Press Conference on Flint Drinking Water

Hi Gailene,

Was a DTMB-99 been filled out, signed and submitted? Either way, flintwaterstudy.org is on a server that is also serving up malware. Opening this up is a risk to the State of Michigan network.

Also (Larry), the ticket is INC000005733948.

Subject: RE: Proposed Press Conference on Flint Drinking Water
Importance: High

I contacted the DTMB help desk re my inability to access the VA Tech study web site. The problem is on our end. Trying to remotely remedy the situation did not work, so a ticket has been submitted and I was asked to also submit the attached form, which requires the signature of a deputy director or higher. Since Sue Moran is not in the office, I'll need this kicked up the chain as appropriate for a signature. Thanks

Subject: Proposed Press Conference on Flint Drinking Water

Per the ongoing issues in Flint concerning their drinking water, I would offer the following recommendations. Let's discuss.

Recommendation

Press Conference in Flint – Wednesday, Thursday or Friday.

Participants

Mayor of Flint
Dan Wyant – Michigan Department of Environmental Quality
Nick Lyon – Department of Community Health
Susan Hedman – Region 5 Administrator or EPA
Harvey Hollins – Governor's office
Local Public Health Department

Announcement

Federal – State – Local action plan to address Flint Drinking Water

1. Governor Snyder names Dr. Eden Wells (DHHS Chief Medical Executive) as Flint drinking water Public Health Advisor.

2. All Flint schools water will immediately be tested to ensure that drinking water is safe.

3. Advisories will be disseminated recommending citizens flush your cold water pipes, use only water from the cold water tap for drinking, cooking and especially for making baby formula.

4. Implementation of fully optimized corrosion controls in the Flint drinking water system.

5. Expanded water testing of at risk properties.

6. Offer water testing at no cost to Flint residents to assure water is safe.

7. Convene a safe drinking water " Technical Review Advisory" to ensure best technology, practices and science is being utilized, including EPA's expertise and assistance from their Office of Research and Development.

8. Offer bottled water and premixed formula if test results indicate high levels of lead.

Dan Wyant, Director

Department of Environmental Quality

Subject: Proposed Press Conference on Flint Drinking Water

Per the ongoing issues in Flint concerning their drinking water, I would offer the following recommendations. Let's discuss.

Recommendation

Press Conference in Flint – Wednesday, Thursday or Friday.

Participants

Mayor of Flint
Dan Wyant – Michigan Department of Environmental Quality
Nick Lyon – Department of Community Health
Susan Hedman – Region 5 Administrator or EPA
Harvey Hollins – Governor's office
Local Public Health Department

Announcement

Federal – State – Local action plan to address Flint Drinking Water

1. Governor Snyder names Dr. Eden Wells (DHHS Chief Medical Executive) as Flint drinking water Public Health Advisor.

2. All Flint schools water will immediately be tested to ensure that drinking water is safe.

3. Advisories will be disseminated recommending citizens flush your cold water pipes, use only water from the cold water tap for drinking, cooking and especially for making baby formula.

4. Implementation of fully optimized corrosion controls in the Flint drinking water system.

5. Expanded water testing of at risk properties.

6. Offer water testing at no cost to Flint residents to assure water is safe.

7. Convene a safe drinking water " Technical Review Advisory" to ensure best technology, practices and science is being utilized, including EPA's expertise and assistance from their Office of Research and Development.

8. Offer bottled water and premixed formula if test results indicate high levels of lead.

Dan Wyant, Director
Department of Environmental Quality

> Director Wyant and I agreed this morning to establish a team to look at the recommendations below in preparation for a joint press conference later this week. I did modify one and remove one from his original email. He was suggesting an outside public health advisor. I think it's appropriate that this be our CME so I changed that piece. I volunteered Geralyn, Elizabeth, and Dr. Wells to serve on the team.

The areas where we need more attention are as follows:

1) I need an analysis of the Virginia Tech/Hurley data and their conclusions. I would like to make a strong statement with a demonstration of proof that the lead blood levels seen are not out of the ordinary and are attributable to seasonal fluctuations. Geralyn is working on this for me but she needs someone in public health who can work directly with her on immediate concerns/questions. Sue – Please get her a name immediately.
2) I need an understanding of what WIC will pay for and when. We are hearing that the USDA is indicating that premade formula can be provided. Internal WIC staff don't seem to be saying the same things. And there may also be a supply issue. Elizabeth is following up for me on this.
3) Elizabeth will also follow up with Terry Beuer to see what FNS will pay for on the food assistance side, or if there are other programs that may cover water or premade formula.
4) I think we did a good job getting the local public health department involved and I ask that we work in concert with him. The recommendation is that they be included in the press event this week.

We need immediate action on these. I have a follow up phone call early this afternoon. I also ask that any requests coming from the team be treated with great urgency. The expectation is that we will get on top of this and provide leadership on the issue.

Subject: Proposed Press Conference on Flint Drinking Water

Per the ongoing issues in Flint concerning their drinking water, I would offer the following recommendations. Let's discuss.

Recommendation

Press Conference in Flint – Wednesday, Thursday or Friday.

Participants

Mayor of Flint
Dan Wyant – Michigan Department of Environmental Quality
Nick Lyon – Department of Community Health
Susan Hedman – Region 5 Administrator or EPA
Harvey Hollins – Governor's office
Local Public Health Department

Announcement

Federal – State – Local action plan to address Flint Drinking Water

1. Governor Snyder names Dr. Eden Wells (DHHS Chief Medical Executive) as Flint drinking water Public Health Advisor.

2. All Flint schools water will immediately be tested to ensure that drinking water is safe.

3. Advisories will be disseminated recommending citizens flush your cold water pipes, use only water from the cold water tap for drinking, cooking and especially for making baby formula.

4. Implementation of fully optimized corrosion controls in the Flint drinking water system.

5. Expanded water testing of at risk properties.

6. Offer water testing at no cost to Flint residents to assure water is safe.

7. Convene a safe drinking water " Technical Review Advisory" to ensure best technology, practices and science is being utilized, including EPA's expertise and assistance from their Office of Research and Development.

8. Offer bottled water and premixed formula if test results indicate high levels of lead.

Dan Wyant, Director
Department of Environmental Quality

Subject: Proposed Press Conference on Flint Drinking Water

Per the ongoing issues in Flint concerning their drinking water, I would offer the following recommendations. Let's discuss.

Recommendation

Press Conference in Flint – Wednesday, Thursday or Friday.

Participants

Mayor of Flint
Dan Wyant – Michigan Department of Environmental Quality
Nick Lyon – Department of Community Health
Susan Hedman – Region 5 Administrator or EPA
Harvey Hollins – Governor's office
Local Public Health Department

Announcement

Federal – State – Local action plan to address Flint Drinking Water

1. Governor Snyder names Dr. Eden Wells (DHHS Chief Medical Executive) as Flint drinking water Public Health Advisor.

2. All Flint schools water will immediately be tested to ensure that drinking water is safe.

3. Advisories will be disseminated recommending citizens flush your cold water pipes, use only water from the cold water tap for drinking, cooking and especially for making baby formula.

4. Implementation of fully optimized corrosion controls in the Flint drinking water system.

5. Expanded water testing of at risk properties.

6. Offer water testing at no cost to Flint residents to assure water is safe.

7. Convene a safe drinking water " Technical Review Advisory" to ensure best technology, practices and science is being utilized, including EPA's expertise and assistance from their Office of Research and Development.

8. Offer bottled water and premixed formula if test results indicate high levels of lead.

Dan Wyant, Director
Department of Environmental Quality

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

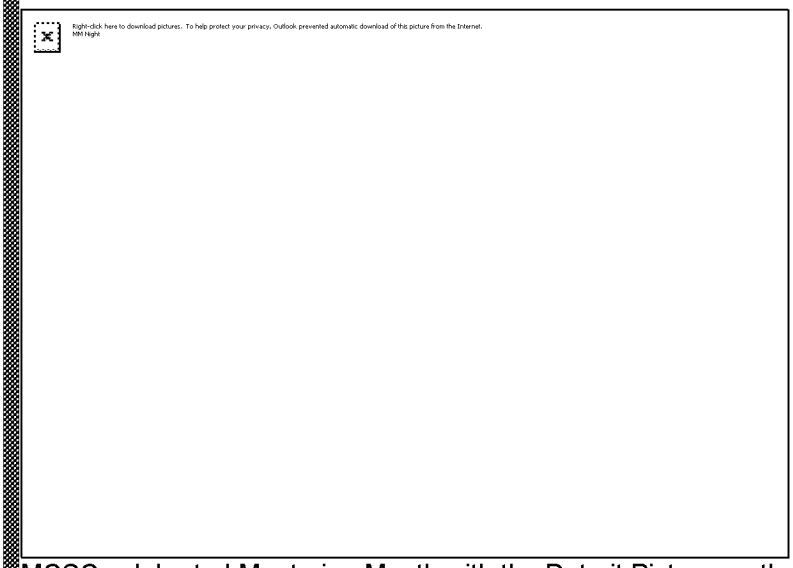
To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.



For more information on the state's response efforts, visit www.michigan.gov/flintwater.

Governor's Service Awards nominations now open

MCSC is now accepting nominations for the 2016 Governor's Service Awards. The form can now be filled out online. Nominate a volunteer, organization or national service program today!

Michigan's AmeriCorps

National service agency deploys AmeriCorps team to assist with Flint water emergency

The Corporation for National and Community Service (CNCS) announced it is deploying an AmeriCorps team to Flint, to support state and local efforts to protect the public health of residents facing challenges from increased lead levels in the Flint water supply.

"National service is all about getting things done to solve local problems, and we are committed to supporting Flint at this time of need," said Wendy Spencer, CEO of CNCS.

Funding Alerts

Scotts Miracle-Gro GRO1000 Grassroots Grants

The Scotts Miracle-Gro Company's GRO1000 Grassroots Grants help foster the development of gardens and green spaces in the United States. Grants of up to $1,500 are awarded to local communities throughout the country to help bring edible gardens, flower gardens and public green spaces to more neighborhoods.

Teacher Vision Grants

American Electric Power will combine your teaching talents and creativity with our resources and desire to help you make a difference in your students' lives. Available for teachers of pre-k through grade 12 with projects that have an academic focus and a goal to improve student achievement. Grants range from $100 to $500.

Kars4Kids Grants

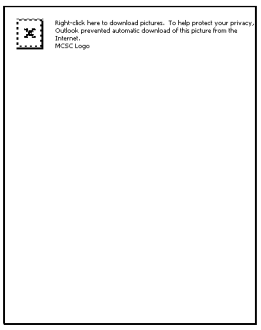
Kars4Kids is constantly on the lookout for like-minded charities which share our values and are working hard to make a difference

in the areas of education and youth development. Grants typically range from $500-$2,000, depending on mission alignment and availability of funds.

Walmart Foundation State Giving Program
Applications will be accepted for programs within the scope of one of the following focused giving areas: career opportunity, hunger and healthy eating or disaster preparedness. Grants range from $25,000 to $250,000.

National Arts and Humanities Youth Program Awards
The National Arts and Humanities Youth Program Awards, sponsored by the President's Committee on the Arts and the Humanities, recognizes excellence in after-school and out-of-school arts and humanities programs for underserved children and youth. Twelve winners will receive a $10,000 award and an invitation to accept their award at a White House ceremony.

Volunteer opportunities



Junior Achievement of Mid-Michigan
Junior Achievement offers programs to teach young people career and life skills. JA programs are five to seven sessions usually taught over the course of several weeks to students in K-12th grade.

Willow Farm Therapeutic Riding
Willow Farm Therapeutic Riding serves as a center for continual development, implementation and evaluation of a therapeutic riding program for children and young adults between the ages of 4 and 26, all of whom have a physician-diagnosed disability. Volunteer opportunities include sidewalkers and horse leaders.

Feeding America West Michigan
Feeding America West Michigan Food Bank provides food to 492,100 people in need each year. In one hour, volunteers can help distribute 150 meals.

About the MCSC

The Michigan Community Service Commission utilizes service as a strategy to address the state's most pressing issues and empowers volunteers to strengthen communities. In 2015-2016, the MCSC is granting more than $7 million in federal funds to local communities for volunteer programs and activities. The MCSC is funding 29 AmeriCorps programs and four My Brothers Keeper grantees. The Governor's Service Awards and Mentor Michigan are also premier programs of the MCSC. www.michigan.gov/volunteer

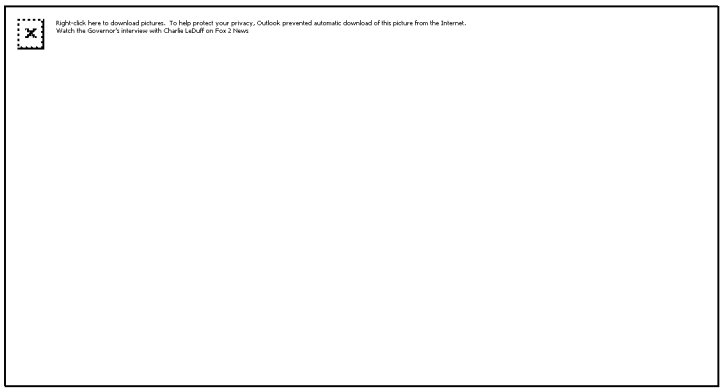
How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

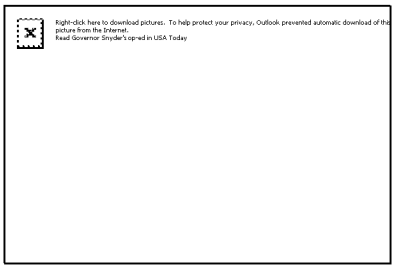


"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.

Governor Snyder with Charlie LeDuff on Fox 2 Detroit

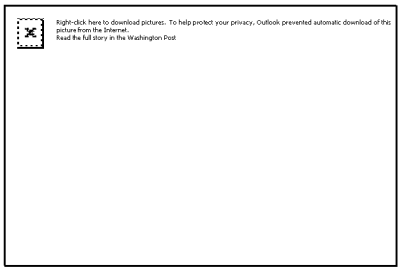
"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



Governor in USA Today: "I will fix this, and I mean it."

"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

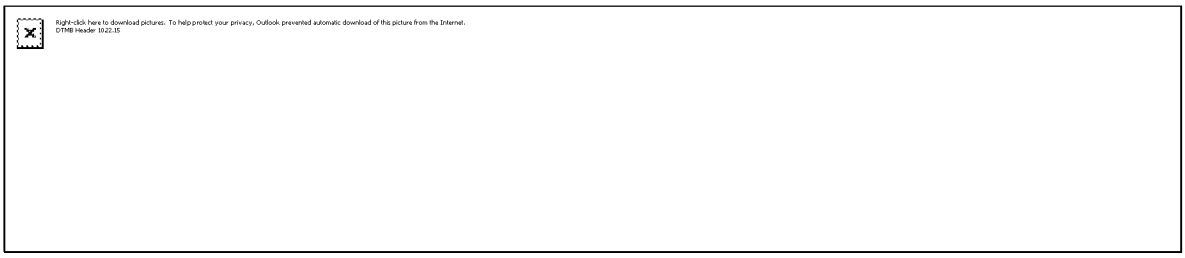
Subject: Flint Volunteer Efforts

Dear State Employees,

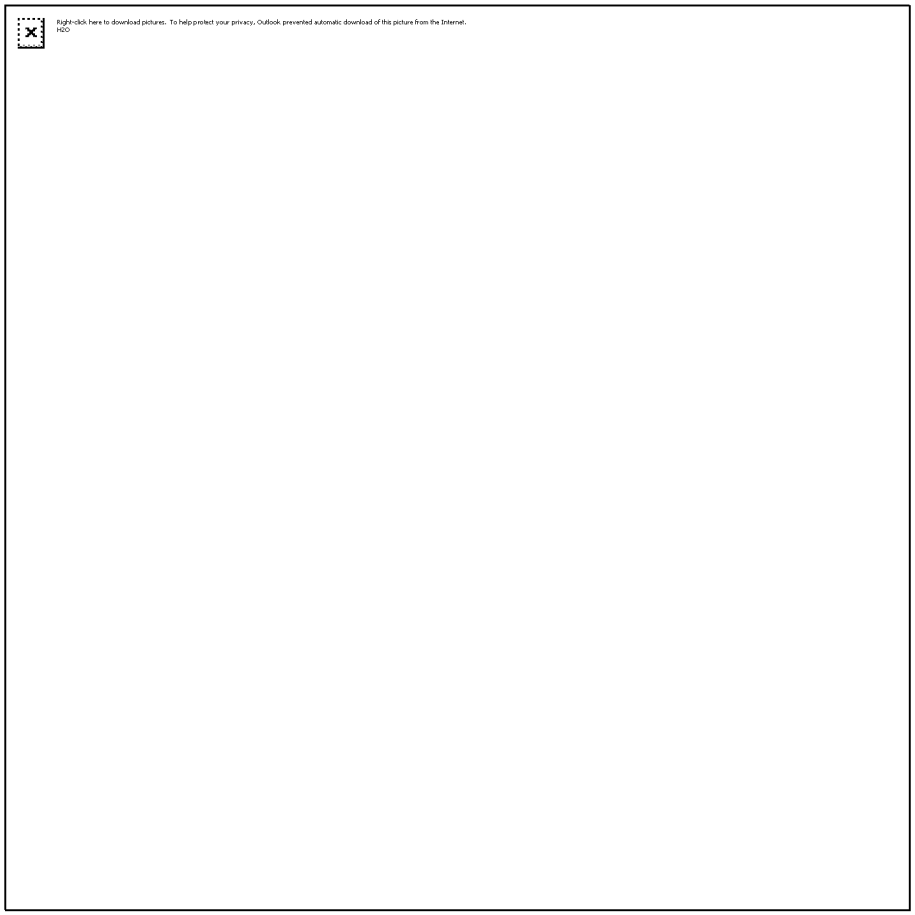
Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.



For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.



Sincerely, Mike Zimmer
Office of Good Government Director

Subject: Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.

Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

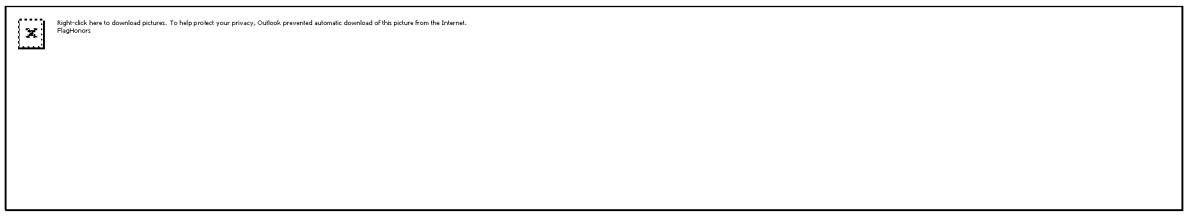
Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,



David

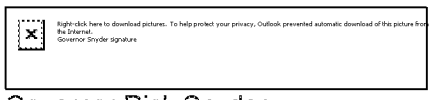
Subject: Thank you for your service

THANK YOU!

Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.



I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.

For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

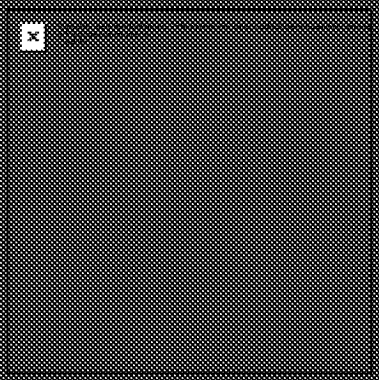
VIDEO: What Governor Snyder's FY17 budget means for Michigan

Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.



This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of Michigan's families. Click here to learn more about the top 6 takeaways from the

Governor's FY 2017 state budget.

From: DTMB Director and CIO David Behen <dtmb@govsubscriptions.michigan.gov>
Sent: Wednesday, February 17, 2016 10:10 AM
To: Trial, Larry (DTMB)
Subject: The Gov. Snyder's Budget Proposal

Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

Subject: Proposed Press Conference on Flint Drinking Water

Per the ongoing issues in Flint concerning their drinking water, I would offer the following recommendations. Let's discuss.

Recommendation

Press Conference in Flint – Wednesday, Thursday or Friday.

Participants

Mayor of Flint
Dan Wyant – Michigan Department of Environmental Quality
Nick Lyon – Department of Community Health
Susan Hedman – Region 5 Administrator or EPA
Harvey Hollins – Governor's office
Local Public Health Department

Announcement

Federal – State – Local action plan to address Flint Drinking Water

1. Governor Snyder names Dr. Eden Wells (DHHS Chief Medical Executive) as Flint drinking water Public Health Advisor.

2. All Flint schools water will immediately be tested to ensure that drinking water is safe.

3. Advisories will be disseminated recommending citizens flush your cold water pipes, use only water from the cold water tap for drinking, cooking and especially for making baby formula.

4. Implementation of fully optimized corrosion controls in the Flint drinking water system.

5. Expanded water testing of at risk properties.

6. Offer water testing at no cost to Flint residents to assure water is safe.

7. Convene a safe drinking water " Technical Review Advisory" to ensure best technology, practices and science is being utilized, including EPA's expertise and assistance from their Office of Research and Development.

8. Offer bottled water and premixed formula if test results indicate high levels of lead.

Hi Gailene,

Was a DTMB-99 been filled out, signed and submitted? Either way, flintwaterstudy.org is on a server that is also serving up malware. Opening this up is a risk to the State of Michigan network.

Also (Larry), the ticket is INC000005733948.

I contacted the DTMB help desk re my inability to access the VA Tech study web site. The problem is on our end. Trying to remotely remedy the situation did not work, so a ticket has been submitted and I was asked to also submit the attached form, which requires the signature of a deputy director or higher. Since Sue Moran is not in the office, I'll need this kicked up the chain as appropriate for a signature. Thanks

> Director Wyant and I agreed this morning to establish a team to look at the recommendations below in preparation for a joint press conference later this week. I did modify one and remove one from his original email. He was suggesting an outside public health advisor. I think it's appropriate that this be our CME so I changed that piece. I volunteered Geralyn, Elizabeth, and Dr. Wells to serve on the team.
>
> The areas where we need more attention are as follows:

1) I need an analysis of the Virginia Tech/Hurley data and their conclusions. I would like to make a strong statement with a demonstration of proof that the lead blood levels seen are not out of the ordinary and are attributable to seasonal fluctuations. Geralyn is working on this for me but she needs someone in public health who can work directly with her on immediate concerns/questions. Sue – Please get her a name immediately.
2) I need an understanding of what WIC will pay for and when. We are hearing that the USDA is indicating that premade formula can be provided. Internal WIC staff don't seem to be saying the same things. And there may also be a supply issue. Elizabeth is following up for me on this.
3) Elizabeth will also follow up with Terry Beuer to see what FNS will pay for on the food assistance side, or if there are other programs that may cover water or premade formula.
4) I think we did a good job getting the local public health department involved and I ask that we work in concert with him. The recommendation is that they be included in the press event this week.

We need immediate action on these. I have a follow up phone call early this afternoon. I also ask that any requests coming from the team be treated with great urgency. The expectation is that we will get on top of this and provide leadership on the issue.

Subject: Proposed Press Conference on Flint Drinking Water

Per the ongoing issues in Flint concerning their drinking water, I would offer the following recommendations. Let's discuss.

Recommendation

Press Conference in Flint – Wednesday, Thursday or Friday.

Participants

Mayor of Flint
Dan Wyant – Michigan Department of Environmental Quality
Nick Lyon – Department of Community Health
Susan Hedman – Region 5 Administrator or EPA
Harvey Hollins – Governor's office
Local Public Health Department

Announcement

Federal – State – Local action plan to address Flint Drinking Water

1. Governor Snyder names Dr. Eden Wells (DHHS Chief Medical Executive) as Flint drinking water Public Health Advisor.

2. All Flint schools water will immediately be tested to

ensure that drinking water is safe.

3. Advisories will be disseminated recommending citizens flush your cold water pipes, use only water from the cold water tap for drinking, cooking and especially for making baby formula.

4. Implementation of fully optimized corrosion controls in the Flint drinking water system.

5. Expanded water testing of at risk properties.

6. Offer water testing at no cost to Flint residents to assure water is safe.

7. Convene a safe drinking water " Technical Review Advisory" to ensure best technology, practices and science is being utilized, including EPA's expertise and assistance from their Office of Research and Development.

8. Offer bottled water and premixed formula if test results indicate high levels of lead.

Importance: High

Please note the attached document has been updated. Please discard the previous version. A paper copy will be provided to you at the meeting.

All DTMB Custodians of Co...

-----Original Appointment-----
From: Longanbach, Janelle (DTMB) **On Behalf Of** DTMB-Directors-Office
Sent: Wednesday, February 17, 2016 1:21 PM
Subject: Mandatory Meeting - DTMB Custodians of Correspondence Related to Flint
When: Thursday, February 18, 2016 2:00 PM-3:00 PM (UTC-05:00) Eastern Time (US & Canada).
Where: Ottawa Builidng - Upper Level – Conference Room 4 OR Call-in: 866-390-1828 access code: 1842654

Please note this meeting can be attended in person or via conference call-in. Location and Dial in information are provided below.

<< File: All DTMB Custodians of Correspondence Related to Flint.pdf >>
***This attachment was updated 2/18/16**

*See agenda below

Requested By:
DTMB Executive Staff

Location:
Ottawa Building
Upper Level – Conference Room 4
611 W. Ottawa Street
Lansing, MI 48933

Call-in: 866-390-1828
Access code: 1842654

Security:
Please have your State Employee ID showing at all times.

Parking:
Metered parking is available along Ottawa and Pine street.

Briefing:
In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to produce, by a certain date, any documents containing certain search terms. In this meeting we will review instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Agenda

1) Kickoff – Brom Stibitz, Chief Deputy Director
2) Why you are here – Jean Ingersoll, Interim Chief of Staff
3) What you need to do (February 22, 2016 deadline) – Jean
4) What will be done for you – Jean
5) What's next – Jean
6) Public Information Reminder – Caleb Buhs, Public Information Officer
7) Questions and Answers - Group

STATE OF MICHIGAN

RICK SNYDER
GOVERNOR

DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET
LANSING

DAVID B. BEHEN
DIRECTOR

February 18, 2016

TO: All DTMB Custodians of Correspondence Related to Flint

FROM: Jean Ingersoll, Interim Chief of Staff to David B. Behen, Director and CIO

SUBJECT: Flint Document Production – Search Terms and Guidance

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. **As a custodian, you are required to produce any documents containing the search terms listed below, no later than Monday, February 22, 2016.** This memorandum contains detailed instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Microsoft 365 – Outlook (*includes emails, calendar items) and OneDrive*

DTMB staff will centrally coordinate the Microsoft 365 search for all of DTMB's custodians. Therefore, DTMB's custodians *do not need to independently search any of their Microsoft 365 applications* for the search terms listed below.

Network Drives

Similar to the approach outlined above, DTMB staff will centrally coordinate the network drive search effort for all DTMB custodians. Custodians do *not* need to independently conduct a network drive search for the search terms below.

Non-Network Drives – *includes hard drives, desktop, and thumb/flash drives*

For all non-network drive types, ***each custodian will need to search every search term listed below in every non-network format, and move all relevant/related documents in to a network drive for collection. In order to move items to the network, you must be connected to the network.***

Start by conducting the search of all non-network drives, filling out the attached search term checklist as you go. If you need guidance as to how to perform this search, a step-by-step guide is included below in Appendix 1.

All relevant/responsive items that are produced as a result of your search need to be moved to a network drive. You can move your relevant/related documents to a network drive in whatever format the document is currently in. After the February 22, 2016, deadline, DTMB staff will access the network drives to collect the files.

Paper Files

Review all applicable paper files. Scan any relevant/related documents, and save them to a network drive, as described above. If this is not possible, you may provide hard copies of documents to Jean Ingersoll in the Director's Office. These documents must be received in the Director's Office by February 22, 2016, and will not be returned to you.

Home Computer

Any relevant e-mails or other documents on a personal computer also are subject to this request. Please check your personal computer for any e-mails or other documents relating to this search. If you discover any relevant/related documents, please include the phrase "personal computer" in the file name, and save them to the aforementioned network drive.

Conclusion

Thank you for your cooperation in complying with this request. Should you have any questions, please contact Jean Ingersoll at 1-8844.

Attachments

- FOIA Checklist
- Attachment 1 – Search Guidance

Search Term Checklist

In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to search and copy all items that you identify to a DTMB network drive, as described above.

Please complete your search no later than close of business on Monday, February 22, 2016. Relevant/related items from the past 10 years should be included.

You should search for *each term exactly as it is shown below, and include quotation marks around each separate word.* For example, "Legionnaire", "Legionella", or "Flint" would all go into search fields. After you complete a search term, check the box beside the term.

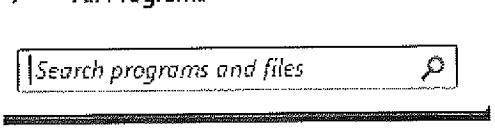
Search Terms:

- ☐ "Legionnaire"
- ☐ "Legionella"
- ☐ "boil water order" & "Flint"
- ☐ "coli" & "Flint"
- ☐ "bacteria" & "Flint"
- ☐ "microb" & "Flint"
- ☐ "TTHM" & "Flint"
- ☐ "Lead" & "Flint"
- ☐ "emergency" & "Flint"
- ☐ "Karegnondi"
- ☐ "Genesee County Health Department"
- ☐ "Flint" & "utilities"
- ☐ "Lead and Copper Rule"
- ☐ "Detroit Water and Sewerage Department" & "Flint"
- ☐ "DWSD" & "Flint"
- ☐ "Flint River"
- ☐ "Pb" & "water"
- ☐ "KWA"
- ☐ "Flint" & "water"

Search conducted on the email account of: _____

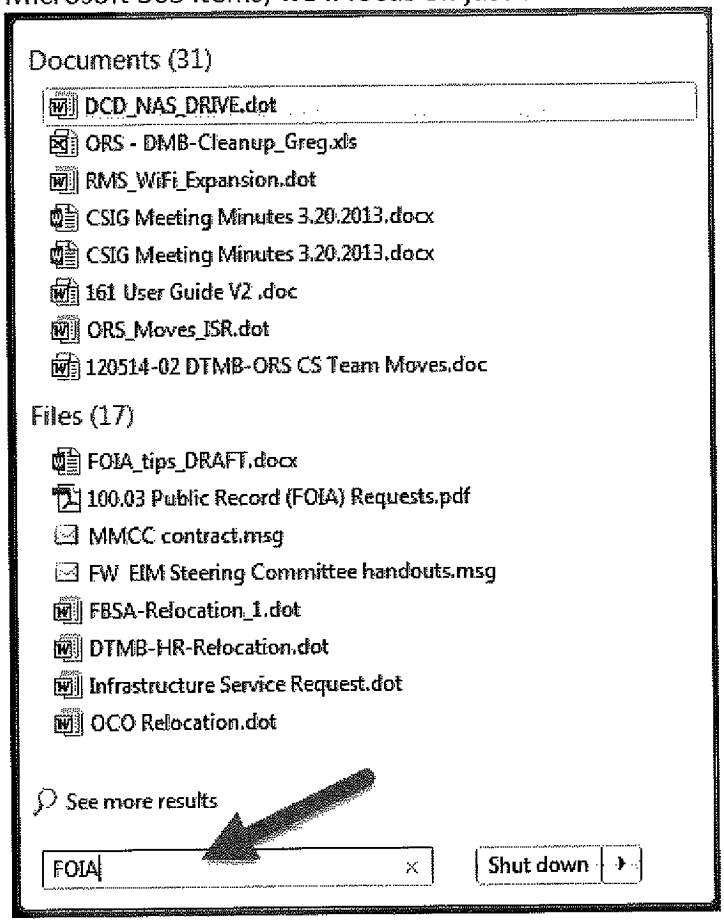
By (your name): _____

Date completed: _____



Please return this completed Checklist to DTMB Director's Office staff by Monday, February 22, 2016, at DTMB@michigan.gov, or Directors Office, Cass Building, Second Floor

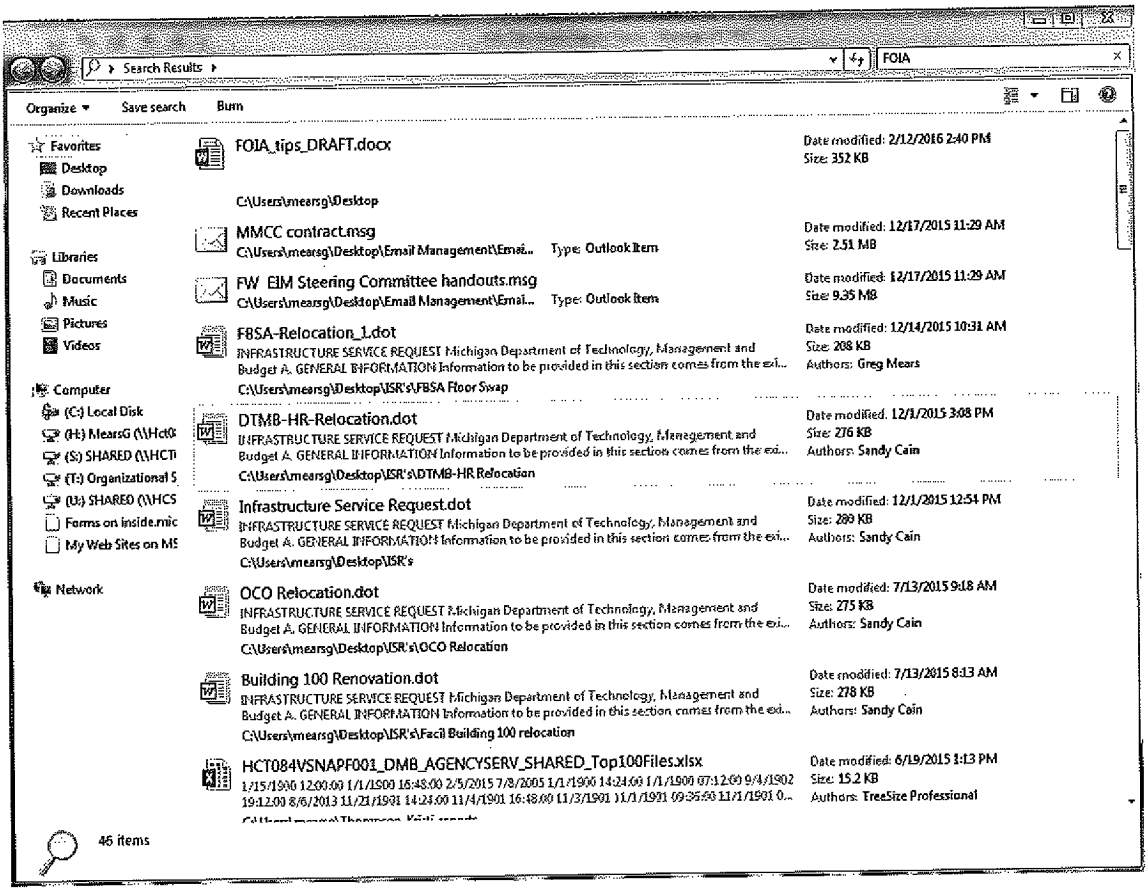
APPENDIX 1 – Search Guidance



Regardless of what version of Windows you're using, each of them has a search feature built in called "Windows Explorer," you see it every time you open up a folder on a network drive, or on your own computer.

Using the search function in windows 7

Since the majority of DTMB is on Windows 7, the examples below are on that operating system. If you click on windows Start button, you'll see the search box right next to it



This example searches for the word FOIA. As you can see, the search yielded numerous documents including emails. Since DTMB is centrally collecting relevant emails and other Microsoft 365 items, we'll focus on just the documents.

You need to open each document to make sure that it's relevant. In this instance, the search brought up a DTMB Move form, but only because it has the word FOIA in the form.
You'll notice that the words "See more results" appears at the bottom of the list. This means that the search turned up a lot more documents than what can easily be displayed. You must

click on the link to open Windows Explorer and reveal a comprehensive list, along with their locations.

As you can see from this example the search found 46 items. We can now select them all using the "Ctrl-A method", and copy them to a network drive.

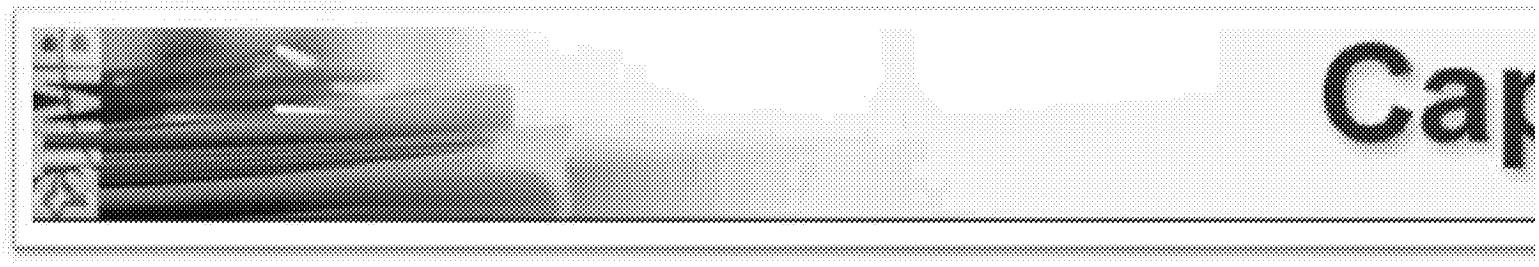
Subject: DTMB Capitol News 1/8/16

Happy New Year, Management Team!



Below is the first edition of a capitol update we plan to share with you on a bi-weekly basis. Knowing how busy you are, we hope these emails will be a convenient way to stay up to date on issues being discussed in the capitol related to DTMB and our customers.

Please note that while articles may be shortened for the sake of brevity, the content will not be altered, so it may contain opinions or quotes that DTMB does not necessarily endorse.

We're sending this initial update to the management team. Should there be anyone on your own team you think would benefit from being on the mailing list, please just respond with their email address. Suggestions or questions are welcomed as well.

Have a great weekend,

Matt

State's Servers Vulnerable, According To Audit

MIRS, 12/17/15

The security settings on 94 percent of State of Michigan's computer servers, the data warehouses for the state records, were not properly set, according to audit released today. The audit specifically examined a series of issues

related the UNIX servers, some of which contained systems that Auditor General Doug A. RINGLER's office dubbed "critical to state government operations" and "life threatening" to citizens if they were unavailable.

The audit included a review of the security configurations of 63 servers. Of those, 59 - or 94 percent - were found to have vulnerable security configurations.

The state's Department of Technology, Management and Budget was also cited for not fully establishing and implementing effective procedures to detect and remediate security vulnerabilities.

Of the servers reviewed by auditors, 47 percent had not had a vulnerability scan in over a month. When vulnerability scans were conducted at the request of auditors, the average number of "high risk exposures" for state servers was 77. One server had 420 security incidents auditors labeled "high risk."

Other findings of the audit included:

- Failure to apply operating system patches for servers in a timely fashion;

- Need to establish a strategy to ensure only supported UNIX operating system versions are installed on servers containing state applications. Unsupported versions were operational on approximately 30 of the state's UNIX servers;

- The state did not establish and implement proper controls over who could access UNIX operating systems;

- DTMB failed to fully establish a segregation of duties over the administration of the state's UNIX servers. The DTMB Agency Services Division had too much control over key processes, which increased the risk that controls designed to secure the state's information systems could be circumvented;

- DTMB didn't maintain accurate records of UNIX server information, which is necessary to maintain server security and to ensure the ready availability of information for critical business decisions.

Audit: Guns, Propane Tank Stored With State's IT Servers

MIRS, 12/18/15

For the second day in a row, the security and stability of the state's information technology systems have come under scrutiny from an audit.

Today, the Office of the Auditor General (OAG) released an unflattering look at the physical conditions of the places that contain the state's data systems. The auditors found loose restrictions in who had control to these places. They also flagged fire and water hazards with these rooms.

The findings from today's audit and one released Thursday were enough for the state to acknowledge that they "underscore the need for constant vigilance and improvement in the arena of cybersecurity," said Caleb BUHS, spokesperson for the Michigan Department of Technology, Management and Budget (DTMB).

The state keeps its computer servers and network equipment in various switch rooms and telecommunication rooms across the state. The OAG found that DTMB didn't implement controls to limit physical access to these places.

For instance, the OAG found former employees still had access to the state's hosting centers and switch rooms.

The OAG also scoped out the environmental conditions of these places and found they weren't being kept tidy, which has safety implications.

The auditors found some of these places weren't "reasonably free from dust, food and beverages," and even included pictures to show for it.

In some of these places, the auditors found everything from a propane tank to guns and holiday decorations.

On Thursday, the OAG released an audit critical of the security controls set on the state's servers.

Buhs said many of the concerns found in the audits were known potential vulnerabilities, with solutions that are in various stages of implementation.

Gov. Rick SNYDER has always talked up improving cybersecurity as a top priority for his administration, and Buhs said, "We have made strong gains in shoring up our IT resources during the Snyder administration and will continue to adjust our actions and plans as the technology world continues to evolve."

Buhs said one area of improvement the state is working on is a single sign-on system for state employees that will tighten access controls, known as MiLogin.

Michigan to Clamp Down on Privatized Prison Deals

Detroit Free Press, 1/7/16

The Michigan Department of Corrections, which was at the center of a recent controversy over problems with its former prison food contractor, is setting up a 30-person unit to monitor the department's private contracts for the supply of food, medical treatment and other services.

Though privatization is on the rise in state government, officials say the corrections department is the first state department to set up such a unit.

Critics say the full cost of contract monitoring, highlighted by MDOC's new 30-person unit, does not always get factored in when the state opts to replace state employees with private contractors in a bid to save money.

Department Director Heidi Washington told a House appropriations subcommittee on Oct. 29 that the department has contracted out a number of services in addition to the highly publicized food services contract, which was initially awarded to Philadelphia-based Aramark Correctional Services but after much controversy switched to Trinity Services Group of Florida. Those include certain health services, mental health services and pharmaceuticals, she said.

"We need to better coordinate our monitoring efforts" across all contracts, with uniform standards and training for staff who do the monitoring, Washington said. "We have some significant relationships with vendors."

All told, the department spent about $250 million last year on about 185 service contracts, including about 70 substance abuse contracts, more than a dozen sex offender related contracts and about a dozen prisoner re-entry contracts with community service agencies, spokesman Chris Gautz said.

Snyder Appoints Hollins To Oversee Flint Water Efforts

Gongwer, 12/17/15

Governor Rick Snyder, in response to preliminary recommendations from the Flint Water Advisory Task Force, appointed Harvey Hollins, the director of his Office of Urban Initiatives, to oversee efforts to resolve the water issues in the city.

"Harvey is well-versed in the issues and the challenges faced by our cities and will be effective in this role," Mr. Snyder said.

He said his administration would also work on an Internet dashboard to display progress made on the water issue.

The task force is still working on its final recommendations, but members said they issued the preliminary recommendations - in a letter dated December 7 but released Thursday - to get some of the changes in place more quickly.

"We felt it was imperative to make these initial recommendations to help address the water crisis in Flint instead of waiting until our final report is submitted," Task Force Co-Chair Chris Kolb said. "We appreciate the prompt acceptance of our request for action by the governor and see it as a step forward."

Co-Chair Ken Sikkema also said the initial review presented "a distributing situation."

"While the Task Force is far from done with our work, the initial review has presented a very disturbing situation that will require many actions to help those that have suffered," Mr. Sikkema said. "We saw no reason to wait until the final report to make these initial recommendations. We also anticipate that we will made additional recommendations prior to the final report."

Task force members said the departments of Environmental Quality and Health and Human Services needed to set goals for the various efforts underway in the city as well as contingency plans if those goals are not being met.

The task force called for a single person or entity to coordinate the efforts.

DPS debt payments mount to unsustainable levels

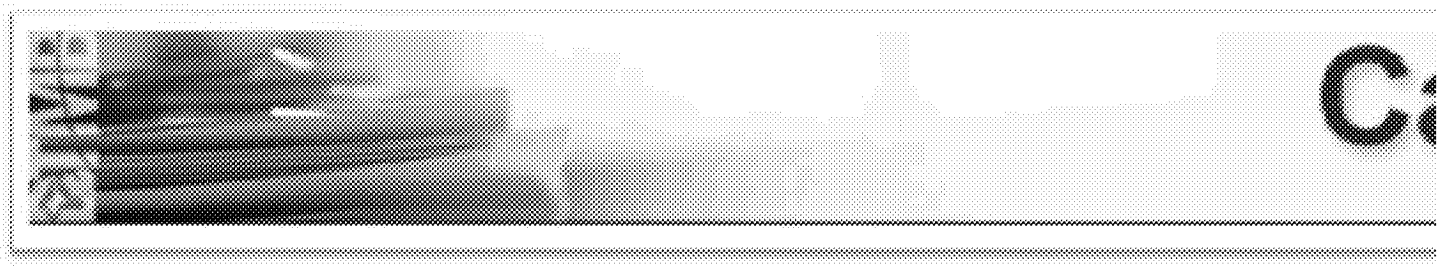
Detroit News, 1/4/16

The debt payments of Detroit Public Schools — already the highest of any school district in Michigan — are set to balloon in February to an amount nearly equal to the school district's payroll and benefits as the city school system teeters on the edge of insolvency.

Detroit Public Schools has to begin making monthly $26 million payments starting in less than a month to chip away at the $121 million borrowed this school year for cash flow purposes and $139.8 million for operating debts incurred in prior years. The city school system's total debt payments are 74 percent higher from last school year.

The debt costs continue to mount while Gov. Rick Snyder and the Legislature remain at odds over how to rescue Michigan's largest school district. A bankruptcy of the district could leave state taxpayers on the hook for at least $1.5 billion in DPS debt.

The school district's payroll and health care benefits are projected to cost $26.8 million in February — meaning the debt payments will be 97 percent of payroll. General fund operating debt payments that exceed 10 percent of payroll are "a major warning flag," municipal bond analyst Matt Fabian said.



"That's extremely high," said Fabian, managing director of Municipal Market Advisors in Concord, Massachusetts, who also followed the city of Detroit's bankruptcy case. "That's no longer, really, a normal school district. The school district has turned into a debt-servicing entity. It's making its own mission impossible."

As a result, the Detroit district won't have enough cash to pay any bills in four months.

Wayne Co. Weighs Moving Juvenile Court to New Center
How the State's Small Errors Cost You $213K

Snyder Pledges 'Not to Let You Down Again'

MIRS, 1/20/16 (condensed)

A contrite Gov. Rick SNYDER, his voice cracking at times over the dull roar of protestors outside the Capitol, pledged to fix Flint's lead-tainted water supply and to "not let you down again."

Snyder dedicated 18 minutes of this sixth State of the State message to the Flint water crisis -- his version of what had happened, what he's done to address it and his pledge to not let it happen again.

In an unprecedented move, the Governor vowed to release his 2014 and 2015 emails regarding Flint on Wednesday. He's asking the Legislature to sign off on $28 million for water filters, testing kits and immediate health services to the children of Flint. He released a public help website.

He's putting together a task force to look into public infrastructure needs in Flint and elsewhere in Michigan with aged water pipes, some made out of wood or cast iron.

All the while, more National Guard troops, state residents, the State Police and others have visited 21,000 homes with bottled waters and filters. Old fixtures are being replaced in schools, daycares and hospitals.

Nurse visits, adolescent health centers and environmental assessments are on the way.

"We will not stop working for the people of Flint until everyone has clean water every single day, no matter what," he said.

The pronouncement comes 113 days after Snyder said he was first briefed by his administration about the extent of the lead still contained in the city's water supply. Up until that point, Snyder said he was told by his Department of Environmental Quality (DEQ) that the lead levels in the water were within compliance levels. His Department of Health and Human Services (DHHS) told him elevated lead levels were "seasonal trends."

It wasn't until Virginia Tech's Marc EDWARDS and Dr. Mona Hanna ATTISHA came out with their studies on Flint's water and the lead level in people that the agencies took another look.

"Government failed you -- federal, state and local leaders -- by breaking the trust you placed in us," Snyder said. "I'm sorry most of all that I let you down . . .

"I know apologies won't make up for the mistakes that were made -- nothing will," he said. "But I take full responsibility to fix the problem so that it never happens again."

House Passes $28M Flint Water Spending Bill

MIRS, 1/20/16 (condensed)

The full House quickly passed the $28 million supplemental appropriation Gov. Rick SNYDER asked for in Tuesday's State of the State address.

The supplemental spending in HB 5220 is being described as a "first step" in addressing the issues confronting Flint residents after corrosive Flint River water that flowed through the city's aged water pipes caused lead leaching.

"I'm very delighted with my colleagues and allies of goodwill. Their moral compasses are pointed in the right direction," said Rep. Sheldon NEELEY (D-Flint).

Rep. Phil PHELPS (D-Flushing), who sponsored the measure, said there's a narrative circulating in the media that Gov. Rick SNYDER and his Republican colleagues aren't willing to help those residents impacted by the lead-laced water in Flint.

Based on what he's seen these past few weeks, the Republicans and Snyder are "doing everything they can to prove that narrative wrong." He thanked his colleagues for the quick pace in which the bill moved and said the Legislature will have the final say in setting the narrative to this issue.

"The narrative will be of overcoming adversity together," Phelps said.

The bill passed 106-0 with one member absent and 96 co-sponsors. House Appropriations Committee Chair Al PSCHOLKA (R-Stevensville) punctuated the bipartisan spirit of today's action with, "Let's stand with the people of Flint."

...

The $28 million supplemental ($22 million General Fund) brings the total state spending on Flint's water issue to $37 million. Another $9 million was approved late last year to switch Flint's water source from the Flint River back to the Detroit water system.

The spending items include:

- $2 million to support National Guard efforts in water support

- $935,000 to the Department of Education to support the hiring of additional school nurses, wrap-around services, providing early on and special education services. Funding may also be used for nutritional snacks for elementary students

- $17 million for the Department of Health and Human Services to cover the purchase of water filters and filter replacements, to provide nutrition support and community education and to support child and adolescent health centers

- $5.8 million to the Department of Environmental Quality to fund water system needs, to provide for lab and testing costs and to provide corrosion control procedures and an infrastructure integrity study using outside experts

The appropriation flows across a total of six departments. The funding will primarily go toward providing more bottled water, water filters, filter replacements and replacement of faucets and fixtures that may be contributing to the lead issue in Flint schools.

Of the appropriation, $2 million is going to the Department of Licensing and Regulatory Affairs for plumbing fixture replacement.

Gov Urges 'Great Haste' On DPS Bills; Legislative Leaders Not Setting Timelines

MIRS 1/20/16 (condensed)

In addition to Flint, Gov. Rick SNYDER has another potential crisis looming over his head as 2016 begins -- the financial future of Detroit Public Schools, which is set to run out of money this spring.

During his State of the State address, Snyder beseeched the Legislature to "move with great haste" in passing legislation to begin to tackle the debt incurred by DPS and help the children of the district achieve academic success.

"Now is the time to get something done . . . Let's address this decades long crisis now," he said.

Snyder said the best-case scenario is to avoid court intervention when dealing with DPS finances, urging timely passage of legislation that recently took shape in the Senate.

He also asked the Legislature to consider the implementation of the Detroit Education Commission that was recommended by the Coalition for the Future of Detroit Schoolchildren, which would in theory oversee both public and charter schools in the city.

That recommendation came with a grain of salt -- he acknowledged that many lawmakers so far have been cool to the idea.

...

The language would separate the DPS district into an "old" district to hold the debt until it's paid off and create the new Detroit Community Schools District. The bills would also create a newly elected board that would be on the November ballot in 2016 and then be seated in January 2017.

In the interim, the nine-member board would be appointed, with four selections made by Mayor Mike DUGGAN and five chosen by Gov. Rick SNYDER. That board would initially be in charge of choosing a superintendent for the district.

Also included in the legislation is language that would include the bottom 5 percent of schools into the state reform district. The schools would be put under the purview of the **School Reform Office**, but would not be taken out of the new community district.

...

After Hansen rolled out the bills, House and Senate Democrats came together in unified opposition to the plan just a few hours later.

Rep. Fred DURHAL III (D-Detroit) said the school district has been under state control for 20 years -- it was in a surplus for 20 years, and now it's in a deficit. He said he and his colleagues are willing to work to fix the issue, but at the end of the day it's up to Republicans to help come to an agreement.

"It's difficult when you talk about taking money from other school districts," he said. "That's what has individuals on the other side of the aisle kind of weary about DPS."

He noted that both sides have the potential to come together like the "Grand Bargain" for the city of Detroit.

"We can talk about the fiscal and money all day, but the kids did nothing to anyone and it's the kids that are suffering."

Wayne Co. Weighs Moving Juvenile Court to New Center

Detroit News 1/21/16

Wayne County is considering moving its juvenile court to the city's New Center area, officials said Thursday.

Deputy Wayne County Executive Richard Kaufman said the county is close to completing a deal with the state of Michigan to move the juvenile court to its **Cadillac Place building** on West Grand.

He told the county commission about plans to move the Lincoln Hall of Justice from East Forrest at northbound Interstate 75 during a committee of the whole meeting Thursday.

"At the end of the day, it will be a better facility, provide better security, parking and at less cost," he said.

Kaufman made the remarks during discussion of a proposal to revamp a settlement agreement between the county and the Third Circuit Court in a 2008 lawsuit the court filed against the county over funding of its operations in fiscal years 2008-09 and 2009-10. Juvenile court is part of Third Judicial Circuit Court of Michigan.

Under the proposal, a new settlement agreement would be put in place.

It calls for the county to consolidate the court's four locations — the Civil Division in the Coleman A Young Municipal Center, the Frank Murphy Hall of Justice in Greektown, Friend of the Court in the Penobscot Building and the Lincoln Hall of Justice — into either a single location or two campuses.

The single location option calls for the county to move all four of the court's divisions into a single, undetermined location.

In the two-campus option, which county officials appear to be leaning toward, officials plan to keep the court's criminal division at Frank Murphy and put the three remaining divisions into one location. The civil division will house the Family Divisions — domestic and juvenile, as well as the Friend of the Court — in the single location, which after Thursday's discussion appears likely to be Cadillac Place.

Court officials have signed off on the new settlement agreement at Cadillac Place, but it requires commission approval.

During the meeting, commissioners raised questions about why the administration hadn't informed them the county was negotiating with the state about moving the juvenile court or that it was negotiating with the circuit court on a new settlement agreement.

"When was the commission brought in on this? When did we first know about that this agreement was afoot?" asked Commissioner Tim Killeen, D-Detroit. "It seems to me with this kind of a thing ... there should have been some discussion ahead of here's a signed-sealed-delivered document and we have to vote either up or down on it."

Kaufman said the administration sent the proposal to the commission as soon as it and the court came to an agreement.

Commissioners voted unanimously to send the proposal to the full board for its approval. Commissioner Diane Webb, D-Livonia, was excused.

Kaufman said the Lincoln Hall of Justice building is in poor condition and has problems with its heating and cooling system and its elevators.

"It's a very needy, decrepit building," he said. "We need to find the Lincoln Hall of Justice a new home."

He said the county aims to wrap up negotiations with the state and have the court moved within a month or two. Once moved, the county would sell the building; hopefully, he said, within a year.

How the State's Small Errors Cost You $213K

Lansing State Journal, 1/14/16 (condensed)

LANSING – The government's small errors and minor negligence — and, perhaps, fraud by prisoners — cost Michigan taxpayers nearly $213,000 over the last three years.

Since January 2013, taxpayers have been charged nearly $62,000 for damaged vehicles (not all because of potholes), about $30,000 for broken, lost or stolen TVs, and about $12,000 for lost, damaged or stolen eyeglasses, according to a State Journal analysis of records of small claims against state government approved by the **State Administrative Board**.

The amounts approved by that board, which considers claims seeking less than $1,000 in damages, are barely a blip in the state's $54 billion annual budget. And they pale against the nearly $71 million in larger court judgments and settlements the state paid in 2014 alone.

But the small-claims awards – paid to ordinary Michiganders, to state employees, and to Michigan prisoners – highlight how common mishaps and mistakes are in a nearly 50,000-employee organization serving nearly 10 million constituents.

….

Claims are reviewed by both department officials and the attorney general's office before going to the Administrative Board for final review. The claims are paid out of the departments' budgets.

And the claims are not rubber-stamped. Less than half of the claimants get everything they ask for – on average, the board approves payments equal to about 80% of the amount people originally seek. About three in 10 requests are outright denied.

In 49 of the 1,727 claims considered since 2013, the board actually approved an amount higher than what the person asked for.

"If information is discovered during the review of the supporting documents by the (attorney general) or the board, then adjustments can be made up or down," **DTMB spokesman Caleb Buhs** said in an email to the State Journal.

Kerri,
The policy directs everyone to on the same review date across the department. Since the 8/31 review date falls after the cut off of July, their new date will be January 31, 2016. HR will be processing the new review date through an update in Civil Service, so it will be seamless to the employees.

Good Morning Susan --
Trish directed me your way -- regarding IPM.

The email we received this morning, speaks to a common review date for all employees being Feb 1 -- Jan 31st. For a few years now, two of our divisions have been on a common review date (9/1 -- 8/31). -- but not the dates listed in the email. BOD opted to not use a common review date schedule -- due to the number of staff in BOD, there were just too many due at one time and the supervisors didn't feel they could give the adequate attention needed to each one if done as a block at a time. Some supervisors have 15 direct reports.

Is this something we need to change in FBSA? If so, we will need some direction on how to go about getting HRMN changed for FBSA's 250+ staff.

Thank you Susan!

Hi Kerri,

With the new Performance Management Policy, DTMB's IPM Program has now been transitioned to HR. All questions regarding the new policy can be directed to Susan King for assistance.

Thank you!

~Trish

Subject: Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.

Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts, everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees

- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

1X1 BROM/MIKE

November 10, 2015

Discussion Items:

Action Items/Follow Up From October 15, 2015

I. **Mike**: Send a couple recommendations for a new MSP building name as well as the naming process document to Brom/David. You sent the naming process info. Will have to have further discussion on name options after the response received from DHHS yesterday.
II. **Mike**: Reach out to Nancy (cc Brom) after meeting with Tom. See if FBSA can assist with discussions with the Library staff on the use of conference rooms (talk to Tom about this).
III. **Brom**: Will touch base with DEQ/DNR/MDARD executives on Hollister moves and have them to work with Mike to move it forward.
IV. **Mike**: Schedule meeting with Mike/Bob/Brom/Randy on parking. Talk with the AG first, circle back with Brom Friday morning. I know the email was sent, but I'm not sure on the meeting.
V. **Mike**: Have one pager/memo on FM Systems on file (functionality, cost savings). Let me know if the document I sent to you needs additional work.
VI. **Mike**: Will send MiMove questions, copy Brom/Rod. **Response from Pam Kenney and team received on 11/2/15. Update meeting for 11/3/15 was postponed to allow for review of documents provided.**
VII. **Mike**: Any update since the summer on the Hamtramck/Flint/Inkster? **Will Doxie from RED will be following up on this.**
VIII. **Mike**: Pass along lessons learned, who makes the calls, etc. on Cass closure to Brom. Team meeting on Wednesday. Will update then.
IX. **Mike**: Have Dan compile his needs for health and safety assistance.
X. **Kelly**: Talk to Janelle: when is the meeting about business continuity (appointment sent yesterday)? Brom needs to talk to Mike and Chris before the meeting. The meeting to discuss Business Continuity is scheduled for 11/4 at 8:15 am. Jeanette, Chris C and Jeff P from OIP will attend in addition to our FBSA staff. Will update after Wednesdays meeting.

Standing Agenda Item:

- ✓ Upcoming RFP's:

Capitol Complex:

- ✓ CEPI Move
  - RED met with Tom Howell 2 weeks ago. There have been email correspondences since, addressing CEPI's questions relating to options provided.
    - Tom indicated he was o.k. staying in the Library. CEPI had some concerns which they have communicated to Brom.
    - RED responded back to Brom on those concerns.
  - Meeting with Tom and Mike– rescheduled for Tuesday, October 20th due to emergency appendectomy.

- Head Librarian expressed concern about the future of the building – library versus office space.
  - BOD shares same concern regarding future of the building as restrooms, HVAC, building controls, etc. would need to be modified and there is an expense to these types of changes.
- In addition, preliminary discussions/request from Education to move staff from leased space (1033 S. Washington) to Hannah. May move some IT staff out of Hannah (to where is to be determined).
- Notified on Friday, October 30, 2015 that partial approval of FY 2016 enterprise wide special maintenance allocations to accommodate DTMB's timing sensitivity related to Ad Board approval for the CAR project was approved.
- CEPI is to provide $100,000 for its permanent accommodations at the Library.
- FBSA staff have been meeting with Tom Howell and Trina Anderson to finalize request.
- FBSA staff pursing options regarding restrooms. Sensitivity around the architecture of the building would increase costs substantially.

✓ DTMB H/R, IT, OPM, EA Moves

- Overall concern is the availability of DTMB Mail and Delivery, Telecom and IT. Adding in additional moves along with CAR poses a concern to the availability of these resources.
- DTMB H/R: The design for space to move HR to Con Hall South Tower/Southwest Corner from the Hollister Building is complete.
  - Budget is also complete, but funding has not been identified.
  - FBSA received an email from H/R regarding a homeless man lying in front of the elevator at the Hollister Building. According to H/R, this was the second time this has occurred.
  - RED has contacted the Landlord regarding the issue and HR has been informed to contact the police.
  - The Landlord will also have someone check the lobby daily after the building opens at 5:45a.m.
  - FBSA has requested that HR keep us apprised of the situation and report any further issues to us. HR responded with appreciation of the action taken.
- DTMB OPM: The design for space to move OPM to Cass Building from Con Hall is complete.
  - OPM is requesting approval to veer from the typical office layout design.
  - Budget is also complete (using typical workstations), but funding has not been identified.
- DTMB IT: The design for space to move IT to Con Hall from Hollister is still pending due to the variation in the number of employees to be moved.
  - Budget is pending verification of the number of people to be moved.
  - The original number of staff to be moved started out at 50 and has moved up to as many as 108 with 24 vacant workstations.
  - The space an only accommodate a maximum of 96 employees (per code –HVAC, restrooms, egress, etc.).
- DTMB EA: The design for space to move EA to Mason is complete.
  - Budget is also complete and EA is covering their costs to move.

✓ Governor's Residence Project – Elliptical Garden Wall - Arch Wall – Brick Planters Project

- A final design sketch and cost estimate was provided to the Governor's Office on Friday, October 30th.
- ✓ Discussions have begun with BOD Grounds crew to do demolition in the next two weeks once the design and estimate has been approved.

Formatted

Formatted: Superscript

- BOD met with Marsha and Sarah Tuesday, October 13
- Close to agreeing on a design – a few tweaks are needed
- Marsha requested a cost estimate to review estimate and design with the First Lady.
- May have approval for demolition work yet this fall. Likely use BOD Grounds Crew for demolition and removal work.
- Remainder of work would be under contract and scheduled for the spring.

✓ CAR Project

- Notified on Friday, October 30, 2015 that partial approval of FY 2016 enterprise wide special maintenance allocations to accommodate DTMB's timing sensitivity related to Ad Board approval for the CAR project was approved.
-
- Programming for DHHS and MSP is complete
- Funding yet to be determined for:
  - ~~CEPI~~
  - DTMB HR
  - OPM
  - Agency Services/Hogan's Group
  - DNR/DEQ/AG: Jim met with them and discussed budget. Discussions ongoing with agencies and DTMB regarding funding. Hogan currently pays for all space in Hollister.
    - Agencies are looking into what they can contribute towards the moves.
- ~~Budget Review: FBSA worked with Greg DeCamp to finalize CAR Budget.~~
  - ~~Lisa Shoemaker passed the information on to Nancy Duncan on Tuesday, October 13th. Expect a decision from SBO soon.~~
- MSP CIJC will be moving the weekend of December 11th to the first floor B wing, which opens up the second floor of headquarters for the start of the Vital Records Vault.
- Schedule – (Preliminary):

DTMB FBSA from GOB to LTA	TBD
MSP CIJC from HQ to 1st Floor B wing GOB	December 11,2015
MSP SEOC moves	TBD
MSP 2nd Floor A & B wings GOB	February 5, 2016
MSP 3rd Floor A wing GOB	March 11, 2016
MSP 3rd Floor B wing GOB	March 25, 2016
DHHS 5th Floor 333 Grand	May 20, 2016
DHHS 3rd Floor 333 Grand	June 24, 2016
DHHS 2nd & 1st Floors 333 Grand	August 12, 2016

- ~~The Construction Manager contract was pulled off the October 13th Ad Board Agenda. A member is requesting additional information which DCD is providing.~~
  - ~~It is expected that this will be approved on a Special Agenda through Ad Board on Tuesday, October 20th.~~
  - ~~This one week delay will make an already very tight timeframe even tighter.~~
  - ~~Further delays at Ad Board will cause project delays.~~
- Resources (IT, Mail and Delivery, etc.) continue to be a concern. With an already tight schedule, working additional moves into the mix including Jim Hogan's group, HR, OPM, CEPI, etc. may become an issue.
- Move Management/300 Decisions has been working the agencies on newsletters, (MSP prefers their Public Affairs office handle all move communications. Mike to meet with them on 10/21 to discuss their concerns); parking concerns, moving a substantial number of files, retention schedules, etc.

- Mike and FBSA staff met with MSP, Shanon Banner, Tim Bolles, Kathleen Fay and Elain Keilen to discussion communications. MSP

Secondary Complex and Outstates:

- ✓ Cadillac Place
  - Have connected with both Mike and Mary Anna from Wayne County and they are still working on their programming.
  - They currently have all of the info needed from us.
  - The finance team has been looking into the option of being able to expend the up-front costs and then have Wayne County pay it off over a couple of years.
  - Finance has found prior precedence where DTMB was able to expend funds through the land sale account and then recover the costs in future years.
  - This precedence was allowed by OFM so we believe it would be possible to do so again for this project.
  - If we want to pursue, OFM needs from us, an estimated dollar amount and the proposed payoff timeline so Phil can take a proposal forward for support.
  - NOTE: Provided Terri Fitzpatrick – Boji Group the requested Occupancy/Lease Information.

- ✓ Cadillac Place Parking Update
  - Rental Agreement became effective on October 1, 2015. (Rental Agreement 10/1/15 through 9/30/2016).
  - DTMB Parking Office sent out a notice on October 7, 2015, to Cadillac Place tenants to fill these spaces.
  - DTMB RED will bid out these spaces and will work toward establishing these 100 spaces long term.

- ✓ Cadillac Place – Star Snack Update from your meeting today
  - Date Range: October 1, 1985 through December 31, 2015 – (30 years in this location).
  - August 10, 2009 – Tenant (Mr. Issam Jwad) requested an additional fourth and fifth five-year extension be added to the original lease.
  - December 22, 2010- Assistant Attorney General sent a letter on behalf of the State of Michigan denying the extension request and stated Star Snack's lease will expire December 31, 2015. (Five year cancellation notice).
  - September 29, 2015 – Real Estate reached out to the Services for Blind Persons to discuss a possibility of this Convenience store being permitted to stay in the building. They understood our concerns, but informed RED, since the Services for Blind Persons has been sued by an Operator at Cadillac Place due to Star Snack's presence, they would be reluctant to permit any exception to the Act, but would be willing to look at a proposal.
  - November 3, 2015 – FBSA representatives will be meeting with Ed Rodgers from the Services for Blind Persons management team.

- ✓ SEOC
  - Striving for substantial completion by mid-January, 2016.
    - Numerous weather delays and some construction material delivery issues are effecting the final completion schedule from end of December 2015 to mid-January 2016.
  - Project remains on budget.
  - The renovated areas of the GOB are ahead of schedule and are anticipating furniture installation to begin by late November.

- The steam shutdown was conducted on Saturday, October 24th, with the new steam piping connection being completed and connected.
- Chilled water connection took place on Saturday, November 7th.
- ~~SEOC Tour scheduled for David, Christian, Chad Laidlaw/CTO, Matt Bolger/MSP and Tony Katarsky/EMHSD on Tuesday 10/20 at 3:00 pm. I am attending.~~ Conducted multiple tours of the overall construction progress to both DTMB Leadership and Representative Potvin. Tours were held on October 20th and October 27th and were very positive. MSP was also in attendance at these tours and provided MSP operational information.

Real Estate and Leasing:

- ✓ CCC Lease –
  - Had a phone call with John Pirich and he is still hoping for an extension and removal of the cancellation clause. This all started when they had heard feedback that SOM was going to exit the lease. This jump started their taking care of improvements that had been delinquent.
  - Option 1: Leave current lease in place:
    - The Lessor has been providing improvements to the facility required under the current Lease, so additional improvements may not be necessary to improve satisfaction of tenants.
    - Under the current agreement, the Lease will terminate naturally in 2029 or can be cancelled through a simple cancellation provision in 2024.
    - The State likely will not need 185,000 square feet of space over the next ten years so the cancelation option should be preserved.
  - Option 2: Extend lease and request additional improvements to the building:
    - Based on our analysis, it is not in the State's interest to extend this Lease beyond the current term, considering the age of the building, recent space reductions and market conditions.
    - Under the Lessors proposal the State will add five years to the term, but the last ten years will be at a Legislative Cancellation clause, making it difficult to leave until 2034.
    - Under the Lessors proposal, the State will avoid $15 million in rent, but it will cost the State $30.9 million over the following ten years of a lease extension. The net cost of the extension is $15.9 million.
    - The intent of a Lease extension is typically to lock in a rate to hedge against future rent increases. In this case, the extension rate exceeds the predicted market, especially considering the building will approach 50 years old by the end of the lease.
    - The State will not likely need the entire 185,000 square feet in 10 years, let alone 20. The current lease is unusual in that the State leases the entire building instead of one lease per agency/program.
    - If implemented, the proposed extension will exceed recent precedent.

- ✓ Kalamazoo – DHHS Options –
  - Met with potential Alcott Street Lessor which is a private lessor (not the county/city).
  - They revised their site plan to push DHHS farther away from county services than planned and increase their rate slightly.
  - Evaluating with DHHS to determine if programmatically beneficial to move to this site.
  - State owned option still preferred but if state owned not viable a second lease site may be next best alternative.
  - Bob discussing with Kurt Warner.

- Scheduling a meeting with Tim Becker/DHHS to gain his feedback/wishes for whether it is worth approximately an extra $10/SF cost to be adjacent to the other County/City Health Services targeted for the Alcott site.

✓ Emergent/Bio Solutions Property:
- Rental agreement for land signed.
- Longer term lease in progress.
- Conveyance bill being discussed with Matt Sweeney.

Agency Collaboration/Projects:

✓ Furniture RFP (Will need to update at the end of the week – meeting scheduled for Friday and prelim info sent via email by Lisa yesterday)
- RFP was posted on Buy4Michigan on Thursday, October 1st.
- Tentative Bid Timeline (Contingent upon Plante Moran's availability, dates may change.)
  - Bid Posting 10-1-15
  - Pre-Proposal Bidder Phone Conference 10-9-15
  - Bidder Questions Due 10-30-15
  - Answers to Questions Published 11-9-15
  - Bids Due 11-30-15
  - Submit to Ad Board for Approval 5-17-16
  - Transition Period 5-20-16 to 7-29-16
  - New Contract Start Date 8-1-2016
- FBSA and Procurement finalized responses to the vendor questions.

✓ LTA Location – Potential FBSA Move (requested update from Tim Hall 11/3/15)
- Floorplan options/needs continue to be reviewed.
- FBSA met with Joyce and Kristi to discuss needs. Input provided from Kristi on October 1st. FBSA staff are following up to discuss further and determine financial responsibility for items that are specific to her program needs not covered in the BOA.
- ~~Team completed review of any and all options for space to determine if LTA is the best option. There are pockets of space in State owned buildings, but nothing that will accommodate the entire FBSA team of approximately 80 staff.~~
- ~~FBSA team worked with Phil/Greg/Lisa on validation of funding available. Budget information was passed on to Nancy Duncan on Tuesday, October 13th.~~
- Per email from Lisa Shoemaker on Friday, October 30th, funding for move has been approved.
- LTA estimate down to $5.7 with more work being done to sharpen that number. Looking for improvements on items that are not necessarily needed to move in.
- Timeline is getting very tight. FBSA will likely have to move twice.
- Upon confirmation of CAR Funds available, what is the process for approval for FBSA to move forward with plans to occupy/renovate LTA for permanent use?

✓ FM Systems (You mentioned you had connected with Troy on this – are you able to update or do you need me to connect with Troy?
- 9/21/2015 – Jarrod Barron, DTMB Buyer, asked FBSA to review the various proposals received from the various Governmental agencies whom utilize FM Systems.
- 9/22-25/2015 - Anne Brys, Julie Proux and Troy Bos all separately reviewed the proposals and selected the North Carolina State University proposal as the agreement to utilize for the State of Michigan. An e-mail recommendation was sent to DTMB Procurement to proceed on 9/25/2015.

Formatted

Formatted: Superscript

- 10/2/2015 – Additional meeting scheduled between FM Systems and BOD's Maintenance Engineering personnel to find a solution to the inventory aspect on work orders and determine how we can use the system to roll up these needed costs. A meeting is scheduled for October 26, 2015 with BOD and FM Systems.
- 10/8/2015 – Procurement connected the legal documents from NCSU to UNC to the State of North Carolina and is researching the laws of North Carolina's procurement rules and it is looking hopeful. In the interim, Procurement sent samples of several Statement of Work (SOW) documents for Troy to write a new FBSA SOW to ensure our needs will be addressed by the software contract.
- 10/29/2015 – FM Systems meeting with MDOT at the Van Wagoner building for demo.

✓ OIP Organizational Updates (Anything new here…? I don't know that there is other than talking to Keith about the justification for other parts of OIP)
- Met with Chris and Christian on 10/7.
- Mutual agreement to move the Parking and Customer service center over to FBSA.
- OIP would like to keep all things related to Security Systems and reviewing Repair.
  - Would still need some support from us for badging in some cases.
- Still reviewing Safety training, disaster recovery role held by Jeanette and synergy with Joel/Judy positions with Dan.
- OIP in the process of providing Mike names/responsibilities of each individual in OIP and suggested transfer to FBSA by individual programs. Planning to meet again in a few weeks.

✓ State Christmas Tree Search
- Tree selected ~~is coming~~ from Wakefield – 10 miles east of Ironwood and the Wisconsin border and successfully made the trip to Lansing on Saturday, October 31st. ~~.~~
- ~~Tree will arrive at the Capitol the morning of Saturday, October 31st.~~
- ~~Press Release: Yesterday, Wednesday, October 14th.~~
- Tree lighting will take place on Friday, November 20th as part of Silver Bells.

✓ MiMove Process Update
- Drafted a note for MiMove team from sponsors. ~~Rod and Brom's review to send to Pam and Team.~~
- Response was received on Monday, November 2, 2015.
- Currently reviewing the information.
- Meeting was originally scheduled for Tuesday, November 3rd however was postponed to allow for time to review information sent by team in response to sponsor inquiry.
- ~~Would like to send from all three as project sponsors if in agreement.~~
- ~~Meeting scheduled for Monday, October 26th. Attendees include Mike, Fran, Pam Kenney, Eric Swanson, Troy Spitzley, Jennifer Poirier, Kerri Droste.~~

✓ House Committee Appropriations Meeting (Can we just remove this since Brom was in attendance?)
- Scheduled for Wednesday, October 28th.
- Bob Burns will be attending to provide the update on the CAR project.
- I am scheduled to attend the Off-Site Tower Rescue Drill that David is attending. I indicated to Matt that I can attend to support Bob if critical. Reviewing needs with Matt, Greg DeCamp and Bob.

✓ DTMB Web Pages – External/Internal - Customer Service Liaison Position (12)
- ~~32 applicants – H/R screened down to 4 for internal review~~

Formatted: Superscript

Formatted: Superscript

- Rachel Brim being selected as the qualified candidate. Start date ~~to be determined~~set for pay period beginning 11/22/15.
- ~~MSP and GOB sites will be a priority.~~
- ~~Meeting with MSP Public Affairs Manager and Key Contact to work out details on adding our link to their page. Caleb offering assistance as well to connect with MSP.~~

✓ Building Closures (will update after meeting Wednesday)
- At approximately 3:30 p.m. on Monday, October 12th, the Cass building was closed due to a plumbing issue.
- The Building Closure process was followed (Building Closure Procedures Quick Reference attached).
- I was on-site and made some observations relating to notification process/approval, use of PA, Email Notifications, etc. A lessons learned meeting will be held with the key players to validate process and roles.
- Additional meetings will be held with OIP to ensure building closure documents, policies and procedures are up to date and current.
- Further training and communication on building closures will be communicated with staff.

✓ DTMB – "Ten Commandments" Discussion (Can we remove?) Developed and have been sent to Kelly)
- Have met with Team and requested 1 – 3 good examples from each Division.

✓ DHHS New Lab Review
- DHHS Lab tour feedback. DHHS Lobbying hard for a new facility. DEQ content.
- Option to expand, double the size of existing facility.
- P3 review document. Feedback from FBSA and Deb Roberts. (Attached)
- Next steps.

✓ Tower Rescue Scenario – Wednesday, October 28th (Can this be removed. I believe you said you had been in contact with David in Brom on the day's events but can update here if needed)
- David confirmed he can attend morning portion.
- Brom's availability for any/all?
- Agenda attached for review/reference. Highlighted sections are desirable for Executive attendance.

✓ DTMB Health and Safety
- ~~Sharon Ellis requested a meeting with Dan Morgan – Meeting was held on September 22nd. Placed Dan in an awkward position.~~
- ~~Sharon offered assistance from Judy and Joel.~~
- ~~Dan discussed a couple of ongoing program needs.~~
- ~~Sharon requested a written memo from Dan regarding the assistance Joel and Judy could provide.~~
- ~~Dan responded to Sharon via voicemail that we were looking at other options including utilizing BOD staff.~~
- Mike met with Sharon on Friday, October 23rd.
- Sharon was going to be scheduling a meeting (a meet and greet) for Mike to meet Joel and Judy. That meeting has not been scheduled at this point.

Additional Items you may want to include?
CEPI and MDE/Library?

Formatted: Superscript

Formatted: Superscript

Formatted: Normal, No bullets or numbering

On Call/O.T. Exception Requests and/or Henry email?
Anything regarding Op Ex?
State Veterans Home request from Lisa?
KPMG/HOK
Naming for 300 S. Grand/Input from Tim Becker?
Do you want to talk to Brom about changing FBSA's name?
Anything more to be discussed on the P3/Lab Review?
Update on Crucial Conversations? We believe all staff have taken or are scheduled however the next report to confirm will not be available from OPM until December 2nd.
Do you want to talk to Brom about NASFA?

1X1 BROM/MIKE

November 13, 2015

Discussion Items:

Action Items/Follow Up From October 15, 2015

I. **Mike**: Send a couple recommendations for a new MSP building name as well as the naming process document to Brom/David. You sent the naming process info. Will have to have further discussion on name options after the response received from DHHS yesterday.
II. **Mike**: Reach out to Nancy (cc Brom) after meeting with Tom. See if FBSA can assist with discussions with the Library staff on the use of conference rooms (talk to Tom about this).
III. **Brom**: Will touch base with DEQ/DNR/MDARD executives on Hollister moves and have them to work with Mike to move it forward.
IV. **Mike**: Schedule meeting with Mike/Bob/Brom/Randy on parking. Talk with the AG first, circle back with Brom Friday morning. I know the email was sent, but I'm not sure on the meeting.
V. **Mike**: Have one pager/memo on FM Systems on file (functionality, cost savings). Let me know if the document I sent to you needs additional work.
VI. **Mike**: Will send MiMove questions, copy Brom/Rod. **Response from Pam Kenney and team received on 11/2/15. Update meeting for 11/3/15 was postponed to allow for review of documents provided.**
VII. **Mike**: Any update since the summer on the Hamtramck/Flint/Inkster? **Will Doxie from RED will be following up on this.**
VIII. **Mike**: Pass along lessons learned, who makes the calls, etc. on Cass closure to Brom. Team meeting on Wednesday. Will update then.
IX. **Mike**: Have Dan compile his needs for health and safety assistance.
X. **Kelly**: Talk to Janelle: when is the meeting about business continuity (appointment sent yesterday)? Brom needs to talk to Mike and Chris before the meeting. The meeting to discuss Business Continuity is scheduled for 11/4 at 8:15 am. Jeanette, Chris C and Jeff P from OIP will attend in addition to our FBSA staff. Will update after Wednesdays meeting.

Standing Agenda Item:

- ✓ Upcoming RFP's:

Capitol Complex:

- ✓ CEPI Move
  - ~~RED met with Tom Howell 2 weeks ago. There have been email correspondences since, addressing CEPI's questions relating to options provided.~~
    - ~~Tom indicated he was o.k. staying in the Library. CEPI had some concerns which they have communicated to Brom.~~
    - ~~RED responded back to Brom on those concerns.~~
  - ~~Meeting with Tom and Mike– rescheduled for Tuesday, October 20th due to emergency appendectomy.~~

- ~~Head Librarian expressed concern about the future of the building – library versus office space.~~
  - ~~BOD shares same concern regarding future of the building as restrooms, HVAC, building controls, etc. would need to be modified and there is an expense to these types of changes.~~
- ~~In addition, preliminary discussions/request from Education to move staff from leased space (1033 S. Washington) to Hannah. May move some IT staff out of Hannah (to where is to be determined).~~
- Notified on Friday, October 30, 2015 that partial approval of FY 2016 enterprise wide special maintenance allocations to accommodate DTMB's timing sensitivity related to Ad Board approval for the CAR project was approved.
- CEPI is to provide $100,000 for its permanent accommodations at the Library.
- FBSA staff have been meeting with Tom Howell and Trina Anderson to finalize request.
- FBSA staff pursing options regarding restrooms. Sensitivity around the architecture of the building would increase costs substantially.
- Mike and RED team met with CEPI (Tom Howell and Trina Anderson) and MDE/Library.
- CEPI feels they have given enough over the past years and is sticking up for CEPI needs.
- CEPI's first choice: Hannah 1st Floor; Second choice: L shape on 3 at Library; Third choice: rectangle on 3 and dedicated conference space on 5 for them.
- Library will look into what effort it would be to move items to accommodate L shape and will look for financial support from us to do so.
- FBSA left it positive and communicated that we are doing our best and will further review all options.
- FBSA will review further and will circle back with each group to validate.

✓ DTMB H/R, IT, OPM, EA Moves
- Overall concern is the availability of DTMB Mail and Delivery, Telecom and IT. Adding in additional moves along with CAR poses a concern to the availability of these resources.
- DTMB H/R: The design for space to move HR to Con Hall South Tower/Southwest Corner from the Hollister Building is complete.
  - Budget is also complete, but funding has not been identified.
  - FBSA received an email from H/R regarding a homeless man lying in front of the elevator at the Hollister Building. According to H/R, this was the second time this has occurred.
  - RED has contacted the Landlord regarding the issue and HR has been informed to contact the police.
  - The Landlord will also have someone check the lobby daily after the building opens at 5:45a.m.
  - FBSA has requested that HR keep us apprised of the situation and report any further issues to us. HR responded with appreciation of the action taken.
- DTMB OPM: The design for space to move OPM to Cass Building from Con Hall is complete.
  - OPM is requesting approval to veer from the typical office layout design.
  - Budget is also complete (using typical workstations), but funding has not been identified.
- DTMB IT: The design for space to move IT to Con Hall from Hollister is still pending due to the variation in the number of employees to be moved.
  - Budget is pending verification of the number of people to be moved.
  - The original number of staff to be moved started out at 50 and has moved up to as many as 108 with 24 vacant workstations.

- The space an only accommodate a maximum of 96 employees (per code –HVAC, restrooms, egress, etc.).
- DTMB EA: The design for space to move EA to Mason is complete.
  - Budget is also complete and EA is covering their costs to move.

✓ Governor's Residence Project – Elliptical Garden Wall - Arch Wall – Brick Planters Project

- A final design sketch and cost estimate was provided to the Governor's Office on Friday, October 30th.
- Discussions have begun with BOD Grounds crew to do demolition in the next two weeks once the design and estimate has been approved.
- ~~BOD met with Marsha and Sarah Tuesday, October 13~~
- ~~Close to agreeing on a design – a few tweaks are needed~~
- ~~Marsha requested a cost estimate to review estimate and design with the First Lady.~~
- ~~May have approval for demolition work yet this fall. Likely use BOD Grounds Crew for demolition and removal work.~~
- ~~Remainder of work would be under contract and scheduled for the spring.~~

✓ CAR Project

- Notified on Friday, October 30, 2015 that partial approval of FY 2016 enterprise wide special maintenance allocations to accommodate DTMB's timing sensitivity related to Ad Board approval for the CAR project was approved.
-
- Programming for DHHS and MSP is complete
- Funding yet to be determined for:
  - ~~CEPI~~
  - DTMB HR
  - OPM
  - Agency Services/Hogan's Group
  - DNR/DEQ/AG: Jim met with them and discussed budget. Discussions ongoing with agencies and DTMB regarding funding. Hogan currently pays for all space in Hollister.
    - Agencies are looking into what they can contribute towards the moves.
- ~~Budget Review: FBSA worked with Greg DeCamp to finalize CAR Budget.~~
  - ~~Lisa Shoemaker passed the information on to Nancy Duncan on Tuesday, October 13th. Expect a decision from SBO soon.~~
- MSP CIJC will be moving the weekend of December 11th to the first floor B wing, which opens up the second floor of headquarters for the start of the Vital Records Vault.
- Schedule – (Preliminary):

DTMB FBSA from GOB to LTA	TBD
MSP CIJC from HQ to 1st Floor B wing GOB	December 11,2015
MSP SEOC moves	TBD
MSP 2nd Floor A & B wings GOB	February 5, 2016
MSP 3rd Floor A wing GOB	March 11, 2016
MSP 3rd Floor B wing GOB	March 25, 2016
DHHS 5th Floor 333 Grand	May 20, 2016
DHHS 3rd Floor 333 Grand	June 24, 2016
DHHS 2nd & 1st Floors 333 Grand	August 12, 2016

- ~~The Construction Manager contract was pulled off the October 13th Ad Board Agenda. A member is requesting additional information which DCD is providing.~~
  - ~~It is expected that this will be approved on a Special Agenda through Ad Board on Tuesday, October 20th.~~

- ~~This one week delay will make an already very tight timeframe even tighter.~~
- ~~Further delays at Ad Board will cause project delays.~~

- Resources (IT, Mail and Delivery, etc.) continue to be a concern. With an already tight schedule, working additional moves into the mix including Jim Hogan's group, HR, OPM, CEPI, etc. may become an issue.
- Move Management/300 Decisions has been working the agencies on newsletters, (MSP prefers their Public Affairs office handle all move communications. ~~Mike to meet with them on 10/21 to discuss their concerns); parking concerns, moving a substantial number of files, retention schedules, etc.~~
- Mike and FBSA staff met with MSP, Shanon Banner, Tim Bolles, Kathleen Fay and Elain Keilen to discussion communications. MSP insistent they maintain control of communications with their staff.

Secondary Complex and Outstates:

- ✓ Cadillac Place
  - Mike discussed with Eric Larson on October 26th and touched base with Wayne County.
  - Wayne County is doing their programming.
  - Eric indicated that the Wayne County sale of the Guardian Building to Dan Gilbert hit a bit of a lull. Gilbert purchase is contingent on a level of occupancy to make sense. Including wanting Wayne County to stay which keeps them from moving out to Cadillac Place. Eric is keeping tabs on progress.
  - Potential related item. We are going to assist DPS with a review of their current Fisher Building space. They have 120,000 sf and may not need that much but stuck in a bad deal there. New owners would like to get them out. We are going to try and perhaps help move them to Guardian which could allow Wayne County to leave and help the sale to Gilbert. We are waiting on a contact name for DPS.
  - Mike staying in contact with Wayne County. We also heard from the new owner of the Fisher today indicating he has a retail contact that needs 30,000 sf of street facing retail space and is connecting them with us.
  - Mike following up with Wayne County again this week and Eric is staying plugged in.
  - ~~Have connected with both Mike and Mary Anna from Wayne County and they are still working on their programming.~~
  - ~~They currently have all of the info needed from us.~~
  - ~~The finance team has been looking into the option of being able to expend the up-front costs and then have Wayne County pay it off over a couple of years.~~
  - ~~Finance has found prior precedence where DTMB was able to expend funds through the land sale account and then recover the costs in future years.~~
  - ~~This precedence was allowed by OFM so we believe it would be possible to do so again for this project.~~
  - ~~If we want to pursue, OFM needs from us, an estimated dollar amount and the proposed payoff timeline so Phil can take a proposal forward for support.~~
  - ~~NOTE: Provided Terri Fitzpatrick – Boji Group the requested Occupancy/Lease Information.~~

- ✓ Cadillac Place Parking Update
  - Rental Agreement became effective on October 1, 2015. (Rental Agreement 10/1/15 through 9/30/2016).
  - DTMB Parking Office sent out a notice on October 7, 2015, to Cadillac Place tenants to fill these spaces.
  - DTMB RED will bid out these spaces and will work toward establishing these 100 spaces long term.

- ✓ Cadillac Place – Star Snack and Overall Vending/Food Service
  - Mike met with Ed Rodgers, Mike Pemble, James Hull, Tamela Meek, Joe Pelle and Nick Rose on November 3, 2015.
  - Bureau of Services for Blind Persons (BSBP) standing behind the rule/law as non-negotiable.
  - Star Snack will have to cease operations 12/31/15 as will Subway when the lease comes due.
  - BSBP indicated that they are very interested in taking over the existing Star Snack space with another vendor to continue to provide the "Dollar Store" type products being sold. Out staff will work with them to set this up after Star Snack exits the end of December.
  - DTMB has not communicated this decision to Star Snack. Looking for input from Brom.
  - DTMB is charging BSBP the sf rate for the space that their vending machines are in.
    - We are doing an inventory on what those amounts are and will meet with BSBP to review.
    - This has been an issue for their placing additional machines in buildings.
    - Mike offered to waive that leasing of space if it means we will be able to have more vending machines on more floors and make the occupants happy.
    - DTMB is going to establish regular cadence meetings to see what we can do to increase the level of service and offerings in our buildings.
    - DTMB will support their efforts on our new Facility Web Pages, promoting their menus, specials and encouraging catering service and locations.
  - Overall a very positive meeting. Mike Pemble in particular was extremely pleased with the support we provided. History with DTMB had not been good and he didn't even know that we provided support on these items and said it was one of the best meetings he has ever had.
  - ~~Date Range: October 1, 1985 through December 31, 2015 – (30 years in this location).~~
  - ~~August 10, 2009 – Tenant (Mr. Issam Jwad) requested an additional fourth and fifth five-year extension be added to the original lease.~~
  - ~~December 22, 2010- Assistant Attorney General sent a letter on behalf of the State of Michigan denying the extension request and stated Star Snack's lease will expire December 31, 2015. (Five year cancellation notice).~~
  - ~~September 29, 2015 – Real Estate reached out to the Services for Blind Persons to discuss a possibility of this Convenience store being permitted to stay in the building. They understood our concerns, but informed RED, since the Services for Blind Persons has been sued by an Operator at Cadillac Place due to Star Snack's presence, they would be reluctant to permit any exception to the Act, but would be willing to look at a proposal.~~
  - ~~November 3, 2015 – FBSA representatives will be meeting with Ed Rodgers from the Services for Blind Persons management team.~~

- ✓ SEOC
  - Striving for substantial completion by mid-January, 2016.
    - Numerous weather delays and some construction material delivery issues are effecting the final completion schedule from end of December 2015 to mid-January 2016.
  - Project remains on budget.
  - The renovated areas of the GOB are ahead of schedule and are anticipating furniture installation to begin by late November.
  - The steam shutdown was conducted on Saturday, October 24th, with the new steam piping connection being completed and connected.

- Chilled water connection took place on Saturday, November 7th.
- ~~SEOC Tour scheduled for David, Christian, Chad Laidlaw/CTO, Matt Bolger/MSP and Tony Katarsky/EMHSD on Tuesday 10/20 at 3:00 pm. I am attending.~~ Conducted multiple tours of the overall construction progress to both DTMB Leadership and Representative Potvin. Tours were held on October 20th and October 27th and were very positive. MSP was also in attendance at these tours and provided MSP operational information.

Real Estate and Leasing:

- ✓ CCC Lease –
  - Had a phone call with John Pirich and he is still hoping for an extension and removal of the cancellation clause. This all started when they had heard feedback that SOM was going to exit the lease. This jump started their taking care of improvements that had been delinquent.
  - Option 1: Leave current lease in place:
    - The Lessor has been providing improvements to the facility required under the current Lease, so additional improvements may not be necessary to improve satisfaction of tenants.
    - Under the current agreement, the Lease will terminate naturally in 2029 or can be cancelled through a simple cancellation provision in 2024.
    - The State likely will not need 185,000 square feet of space over the next ten years so the cancelation option should be preserved.
  - Option 2: Extend lease and request additional improvements to the building:
    - Based on our analysis, it is not in the State's interest to extend this Lease beyond the current term, considering the age of the building, recent space reductions and market conditions.
    - Under the Lessors proposal the State will add five years to the term, but the last ten years will be at a Legislative Cancellation clause, making it difficult to leave until 2034.
    - Under the Lessors proposal, the State will avoid $15 million in rent, but it will cost the State $30.9 million over the following ten years of a lease extension. The net cost of the extension is $15.9 million.
    - The intent of a Lease extension is typically to lock in a rate to hedge against future rent increases. In this case, the extension rate exceeds the predicted market, especially considering the building will approach 50 years old by the end of the lease.
    - The State will not likely need the entire 185,000 square feet in 10 years, let alone 20. The current lease is unusual in that the State leases the entire building instead of one lease per agency/program.
    - If implemented, the proposed extension will exceed recent precedent.

- ✓ Kalamazoo – DHHS Options –
  - Met with potential Alcott Street Lessor which is a private lessor (not the county/city).
  - They revised their site plan to push DHHS farther away from county services than planned and increase their rate slightly.
  - Evaluating with DHHS to determine if programmatically beneficial to move to this site.
  - State owned option still preferred but if state owned not viable a second lease site may be next best alternative.
  - Bob discussing with Kurt Warner.

- Scheduling a meeting with Tim Becker/DHHS to gain his feedback/wishes for whether it is worth approximately an extra $10/SF cost to be adjacent to the other County/City Health Services targeted for the Alcott site.

✓ Emergent/Bio Solutions Property:
- Rental agreement for land signed.
- Longer term lease in progress.
- Conveyance bill being discussed with Matt Sweeney.

Agency Collaboration/Projects:

✓ Furniture RFP (Will need to update at the end of the week – meeting scheduled for Friday and prelim info sent via email by Lisa yesterday)
- RFP was posted on Buy4Michigan on Thursday, October 1st.
- Tentative Bid Timeline (Contingent upon Plante Moran's availability, dates may change.)

Bid Posting	10-1-15
Pre-Proposal Bidder Phone Conference	10-9-15
Bidder Questions Due	10-30-15
Answers to Questions Published	11-9-15
Bids Due	11-30-15
Submit to Ad Board for Approval	5-17-16
Transition Period	5-20-16 to 7-29-16
New Contract Start Date	8-1-2016

- FBSA and Procurement finalized responses to the vendor questions.

✓ LTA Location – Potential FBSA Move
- Floorplan essentially complete with agreements from all three divisions.
- FBSA staff met with Krisi Thompson on November 9th to discuss and coordinate solution that addresses needs and goals for work area.
- ~~Floorplan options/needs continue to be reviewed.~~
- ~~FBSA met with Joyce and Kristi to discuss needs. Input provided from Kristi on October 1st. FBSA staff are following up to discuss further and determine financial responsibility for items that are specific to her program needs not covered in the BOA.~~
- ~~Team completed review of any and all options for space to determine if LTA is the best option. There are pockets of space in State owned buildings, but nothing that will accommodate the entire FBSA team of approximately 80 staff.~~
- ~~FBSA team worked with Phil/Greg/Lisa on validation of funding available. Budget information was passed on to Nancy Duncan on Tuesday, October 13th.~~
- Per email from Lisa Shoemaker on Friday, October 30th, funding for move has been approved.
- LTA estimate down to $5.7 with more work being done to sharpen that number. Looking for improvements on items that are not necessarily needed to move in.
  - Reviewing potential work items such as exterior patio, landscaping as well as cabinetry and millwork interior items and furniture installation that may be able to be provided using internal DTMB resources.
  - Funding delays created a substantial challenge to the timeline and FBSA may have to move twice however, with funding resolved and approval of construction contracts expected soon we will be analyzing in detail all options available to avoid the time, expense and inconvenience of a double move.
  - This process will continue over the next 4-6 weeks as construction is released, material & equipment deliveries are confirmed, etc.

        - Construction contact work has been released for bidding and bids are expected to be received and under review within the next 2-3 weeks.
        - Real Estate design staff is finalizing office furniture designs and details.
    - ~~Timeline is getting very tight. FBSA will likely have to move twice.~~
    - ~~Upon confirmation of CAR Funds available, what is the process for approval for FBSA to move forward with plans to occupy/renovate LTA for permanent use?~~

- ✓ FM Systems (You mentioned you had connected with Troy on this – are you able to update or do you need me to connect with Troy?
    - 9/21/2015 – Jarrod Barron, DTMB Buyer, asked FBSA to review the various proposals received from the various Governmental agencies whom utilize FM Systems.
    - 9/22-25/2015 - Anne Brys, Julie Proux and Troy Bos all separately reviewed the proposals and selected the North Carolina State University proposal as the agreement to utilize for the State of Michigan. An e-mail recommendation was sent to DTMB Procurement to proceed on 9/25/2015.
    - 10/2/2015 – Additional meeting scheduled between FM Systems and BOD's Maintenance Engineering personnel to find a solution to the inventory aspect on work orders and determine how we can use the system to roll up these needed costs. A meeting is scheduled for October 26, 2015 with BOD and FM Systems.
    - 10/8/2015 – Procurement connected the legal documents from NCSU to UNC to the State of North Carolina and is researching the laws of North Carolina's procurement rules and it is looking hopeful. In the interim, Procurement sent samples of several Statement of Work (SOW) documents for Troy to write a new FBSA SOW to ensure our needs will be addressed by the software contract.
    - 10/29/2015 – FM Systems meeting with MDOT at the Van Wagoner building for demo.

- ✓ OIP Organizational Updates (Anything new here…? I don't know that there is other than talking to Keith about the justification for other parts of OIP)
    - Met with Chris and Christian on 10/7.
    - Mutual agreement to move the Parking and Customer service center over to FBSA.
    - OIP would like to keep all things related to Security Systems and reviewing Repair.
        - Would still need some support from us for badging in some cases.
    - Still reviewing Safety training, disaster recovery role held by Jeanette and synergy with Joel/Judy positions with Dan.
    - OIP in the process of providing Mike names/responsibilities of each individual in OIP and suggested transfer to FBSA by individual programs. Planning to meet again in a few weeks.

- ✓ State Christmas Tree Search
    - Tree selected ~~is coming~~ from Wakefield – 10 miles east of Ironwood and the Wisconsin border and successfully made the trip to Lansing on Saturday, October 31st. ~~.~~
    - ~~Tree will arrive at the Capitol the morning of Saturday, October 31st.~~
    - ~~Press Release: Yesterday, Wednesday, October 14th.~~
    - Tree lighting will take place on Friday, November 20th as part of Silver Bells.

- ✓ MiMove Process Update
    - Drafted a note for MiMove team from sponsors. ~~Rod and Brom's review to send to Pam and Team.~~
    - Response was received on Monday, November 2, 2015.
    - Currently reviewing the information.

- Meeting was originally scheduled for Tuesday, November 3rd however was postponed to allow for time to review information sent by team in response to sponsor inquiry.
- ~~Would like to send from all three as project sponsors if in agreement.~~
- ~~Meeting scheduled for Monday, October 26th. Attendees include Mike, Fran, Pam Kenney, Eric Swanson, Troy Spitzley, Jennifer Poirier, Kerri Droste.~~

✓ House Committee Appropriations Meeting (Can we just remove this since Brom was in attendance?)
- Scheduled for Wednesday, October 28th.
- Bob Burns will be attending to provide the update on the CAR project.
- I am scheduled to attend the Off-Site Tower Rescue Drill that David is attending. I indicated to Matt that I can attend to support Bob if critical. Reviewing needs with Matt, Greg DeCamp and Bob.

✓ DTMB Web Pages – External/Internal - Customer Service Liaison Position (12)
- ~~32 applicants – H/R screened down to 4 for internal review~~
- Rachel Brim being selected as the qualified candidate. Start date ~~to be determined~~set for pay period beginning 11/22/15.
- ~~MSP and GOB sites will be a priority.~~
- ~~Meeting with MSP Public Affairs Manager and Key Contact to work out details on adding our link to their page. Caleb offering assistance as well to connect with MSP.~~

✓ Building Closures (will update after meeting Wednesday)
- At approximately 3:30 p.m. on Monday, October 12th, the Cass building was closed due to a plumbing issue.
- The Building Closure process was followed (Building Closure Procedures Quick Reference attached).
- I was on-site and made some observations relating to notification process/approval, use of PA, Email Notifications, etc. A lessons learned meeting will be held with the key players to validate process and roles.
- Additional meetings will be held with OIP to ensure building closure documents, policies and procedures are up to date and current.
- Further training and communication on building closures will be communicated with staff.

✓ DTMB – "Ten Commandments" Discussion (Can we remove?) Developed and have been sent to Kelly)
- Have met with Team and requested 1 – 3 good examples from each Division.

✓ DHHS New Lab Review
- DHHS Lab tour feedback. DHHS Lobbying hard for a new facility. DEQ content.
- Option to expand, double the size of existing facility.
- P3 review document. Feedback from FBSA and Deb Roberts. (Attached)
- Next steps.

✓ Tower Rescue Scenario – Wednesday, October 28th (Can this be removed. I believe you said you had been in contact with David in Brom on the day's events but can update here if needed)
- David confirmed he can attend morning portion.
- Brom's availability for any/all?
- Agenda attached for review/reference. Highlighted sections are desirable for Executive attendance.

- ✓ DTMB Health and Safety
  - ~~Sharon Ellis requested a meeting with Dan Morgan – Meeting was held on September 22nd. Placed Dan in an awkward position.~~
  - ~~Sharon offered assistance from Judy and Joel.~~
  - ~~Dan discussed a couple of ongoing program needs.~~
  - ~~Sharon requested a written memo from Dan regarding the assistance Joel and Judy could provide.~~
  - ~~Dan responded to Sharon via voicemail that we were looking at other options including utilizing BOD staff.~~
  - Mike met with Sharon on Friday, October 23rd.
  - Sharon was going to be scheduling a meeting (a meet and greet) for Mike to meet Joel and Judy. That meeting has not been scheduled at this point.

Additional Items you may want to include?
CEPI and MDE/Library?
On Call/O.T. Exception Requests and/or Henry email?
Anything regarding Op Ex?
State Veterans Home request from Lisa?
KPMG/HOK
Naming for 300 S. Grand/Input from Tim Becker?
Do you want to talk to Brom about changing FBSA's name?
Anything more to be discussed on the P3/Lab Review?
Update on Crucial Conversations? We believe all staff have taken or are scheduled however the next report to confirm will not be available from OPM until December 2nd.
Do you want to talk to Brom about NASFA?

1X1 BROM/MIKE

November 13, 2015

Discussion Items:

Action Items/Follow Up From October 15, 2015

I. **Mike**: Send a couple recommendations for a new MSP building name as well as the naming process document to Brom/David. Tim Becker suggested "DHHS Central Office"
II. **Mike**: Reach out to Nancy (cc Brom) after meeting with Tom. See if FBSA can assist with discussions with the Library staff on the use of conference rooms (talk to Tom about this). (Status update below)
III. **Brom**: Will touch base with DEQ/DNR/MDARD executives on Hollister moves and have them to work with Mike to move it forward.
IV. **Mike**: Schedule meeting with Mike/Bob/Brom/Randy on parking. Talk with the AG first, circle back with Brom Friday morning. (Met with AG and city on Friday 11/5)
V. **Mike**: Have one pager/memo on FM Systems on file (functionality, cost savings). (Document prepared)
VI. **Mike**: Will send MiMove questions, copy Brom/Rod. (Response from Pam Kenney and team received on 11/2/15. OPM is working on scheduling the MiMove meeting for early December. See below).
VII. **Mike**: Any update since the summer on the Hamtramck/Flint/Inkster? Will Doxie from RED following up on this.
VIII. **Mike**: Pass along lessons learned, who makes the calls, etc. on Cass closure to Brom. (Update below).
IX. **Mike**: Have Dan compile his needs for health and safety assistance.
X. **Kelly**: Talk to Janelle: when is the meeting about business continuity (appointment sent yesterday)? Brom needs to talk to Mike and Chris before the meeting.

Standing Agenda Item:

- ✓ Upcoming RFP's:
  - FM Systems? (Update below)

Capitol Complex:

- ✓ CEPI Move
  - ~~RED met with Tom Howell 2 weeks ago. There have been email correspondences since, addressing CEPI's questions relating to options provided.~~
    - ~~Tom indicated he was o.k. staying in the Library. CEPI had some concerns which they have communicated to Brom.~~
    - ~~RED responded back to Brom on those concerns.~~
  - ~~Meeting with Tom and Mike– rescheduled for Tuesday, October 20th due to emergency appendectomy.~~
  - ~~Head Librarian expressed concern about the future of the building – library versus office space.~~

- ~~BOD shares same concern regarding future of the building as restrooms, HVAC, building controls, etc. would need to be modified and there is an expense to these types of changes.~~
- ~~In addition, preliminary discussions/request from Education to move staff from leased space (1033 S. Washington) to Hannah. May move some IT staff out of Hannah (to where is to be determined).~~
- Notified on Friday, October 30, 2015 that partial approval of FY 2016 enterprise wide special maintenance allocations to accommodate DTMB's timing sensitivity related to Ad Board approval for the CAR project was approved.
- CEPI is to provide $100,000 for its permanent accommodations at the Library.
- FBSA staff have been meeting with Tom Howell and Trina Anderson to finalize request.
- FBSA staff pursing options regarding restrooms. Sensitivity around the architecture of the building would increase costs substantially.
- Mike and RED team met with CEPI (Tom Howell and Trina Anderson) and MDE/Library on November 4th.
- CEPI feels they have given enough over the past years and is sticking up for CEPI needs.
- CEPI's first choice: Hannah 1st Floor; Second choice: L shape on 3 at Library; Third choice: rectangle on 3 and dedicated conference space on 5 for them.
- Library will look into what effort it would be to move items to accommodate L shape and will look for financial support from us to do so.
- FBSA left it positive and communicated that we are doing our best and will further review all options.
- FBSA will review further and will circle back with each group to validate.
- AS-MDOC has indicated to RED that they no longer want to move out of the Hannah Building to the Victor Building. When originally presented with this, AS-MDOC was onboard with it. This move needs to occur in order to keep CEPI in the Library (Education was happy with this agreement).

Comment [DK(1]: Troy Spitzley asked that I be sure you were aware of this.

- ✓ DTMB H/R, IT, OPM, EA Moves (no update per Troy Spitzley)
  - Overall concern is the availability of DTMB Mail and Delivery, Telecom and IT. Adding in additional moves along with CAR poses a concern to the availability of these resources.
  - DTMB H/R: The design for space to move HR to Con Hall South Tower/Southwest Corner from the Hollister Building is complete.
    - Budget is also complete, but funding has not been identified.
    - FBSA received an email from H/R regarding a homeless man lying in front of the elevator at the Hollister Building. According to H/R, this was the second time this has occurred.
    - RED has contacted the Landlord regarding the issue and HR has been informed to contact the police.
    - The Landlord will also have someone check the lobby daily after the building opens at 5:45a.m.
    - FBSA has requested that HR keep us apprised of the situation and report any further issues to us. HR responded with appreciation of the action taken.
  - DTMB OPM: The design for space to move OPM to Cass Building from Con Hall is complete.
    - OPM is requesting approval to veer from the typical office layout design.
    - Budget is also complete (using typical workstations), but funding has not been identified.
  - DTMB IT: The design for space to move IT to Con Hall from Hollister is still pending due to the variation in the number of employees to be moved.

- Budget is pending verification of the number of people to be moved.
- The original number of staff to be moved started out at 50 and has moved up to as many as 108 with 24 vacant workstations.
- The space an only accommodate a maximum of 96 employees (per code –HVAC, restrooms, egress, etc.).

- DTMB EA: The design for space to move EA to Mason is complete.
  - Budget is also complete and EA is covering their costs to move.

✓ Governor's Residence Project – Elliptical Garden Wall - Arch Wall – Brick Planters Project

- A final design sketch and cost estimate was provided to the Governor's Office on Friday, October 30th.
- Discussions have begun with BOD Grounds crew to do demolition in the next two weeks once the design and estimate has been approved.
- ~~BOD met with Marsha and Sarah Tuesday, October 13~~
- ~~Close to agreeing on a design – a few tweaks are needed~~
- ~~Marsha requested a cost estimate to review estimate and design with the First Lady.~~
- ~~May have approval for demolition work yet this fall. Likely use BOD Grounds Crew for demolition and removal work.~~
- ~~Remainder of work would be under contract and scheduled for the spring.~~

✓ CAR Project

- Notified on Friday, October 30, 2015 that partial approval of FY 2016 enterprise wide special maintenance allocations to accommodate DTMB's timing sensitivity related to Ad Board approval for the CAR project was approved.
-
- Programming for DHHS and MSP is complete
- Funding yet to be determined for:
  - ~~CEPI~~
  - DTMB HR
  - OPM
  - Agency Services/Hogan's Group
  - DNR/DEQ/AG: Jim met with them and discussed budget. Discussions ongoing with agencies and DTMB regarding funding. Hogan currently pays for all space in Hollister.
    - Agencies are looking into what they can contribute towards the moves.
- ~~Budget Review: FBSA worked with Greg DeCamp to finalize CAR Budget.~~
  - ~~Lisa Shoemaker passed the information on to Nancy Duncan on Tuesday, October 13th. Expect a decision from SBO soon.~~
- MSP CIJC will be moving the weekend of December 11th to the first floor B wing, which opens up the second floor of headquarters for the start of the Vital Records Vault.
- Schedule – (Preliminary):

DTMB FBSA from GOB to LTA	TBD
MSP CIJC from HQ to 1st Floor B wing GOB	December 11,2015
MSP SEOC moves	TBD
MSP 2nd Floor A & B wings GOB	February 5, 2016
MSP 3rd Floor A wing GOB	March 11, 2016
MSP 3rd Floor B wing GOB	March 25, 2016
DHHS 5th Floor 333 Grand	May 20, 2016
DHHS 3rd Floor 333 Grand	June 24, 2016
DHHS 2nd & 1st Floors 333 Grand	August 12, 2016

- ~~The Construction Manager contract was pulled off the October 13th Ad Board Agenda. A member is requesting additional information which DCD is providing.~~
  - ~~It is expected that this will be approved on a Special Agenda through Ad Board on Tuesday, October 20th.~~
  - ~~This one-week delay will make an already very tight timeframe even tighter.~~
  - ~~Further delays at Ad Board will cause project delays.~~
- Resources (IT, Mail and Delivery, etc.) continue to be a concern. With an already tight schedule, working additional moves into the mix including Jim Hogan's group, HR, OPM, CEPI, etc. may become an issue.
- Move Management/300 Decisions has been working the agencies on newsletters, (MSP prefers their Public Affairs office handle all move communications. ~~Mike to meet with them on 10/21 to discuss their concerns); parking concerns, moving a substantial number of files, retention schedules, etc.~~
- Mike and FBSA staff met with MSP, Shanon Banner, Tim Bolles, Kathleen Fay and Elain Keilen to discussion communications. MSP insistent they maintain control of communications with their staff.

Secondary Complex and Outstates:

- ✓ Cadillac Place
  - Mike discussed with Eric Larson on October 26th and touched base with Wayne County.
  - Wayne County is doing their programming.
  - Eric indicated that the Wayne County sale of the Guardian Building to Dan Gilbert hit a bit of a lull. Gilbert purchase is contingent on a level of occupancy to make sense. Including wanting Wayne County to stay which keeps them from moving out to Cadillac Place. Eric is keeping tabs on progress.
  - Potential related item. We are going to assist DPS with a review of their current Fisher Building space. They have 120,000 sf and may not need that much but stuck in a bad deal there. New owners would like to get them out. We are going to try and perhaps help move them to Guardian which could allow Wayne County to leave and help the sale to Gilbert. We are waiting on a contact name for DPS.
  - Mike staying in contact with Wayne County. We also heard from the new owner of the Fisher today indicating he has a retail contact that needs 30,000 sf of street facing retail space and is connecting them with us.
  - Mike following up with Wayne County again this week and Eric is staying plugged in.
  - ~~Have connected with both Mike and Mary Anna from Wayne County and they are still working on their programming.~~
  - ~~They currently have all of the info needed from us.~~
  - ~~The finance team has been looking into the option of being able to expend the up-front costs and then have Wayne County pay it off over a couple of years.~~
  - ~~Finance has found prior precedence where DTMB was able to expend funds through the land sale account and then recover the costs in future years.~~
  - ~~This precedence was allowed by OFM so we believe it would be possible to do so again for this project.~~
  - ~~If we want to pursue, OFM needs from us, an estimated dollar amount and the proposed payoff timeline so Phil can take a proposal forward for support.~~
  - ~~NOTE: Provided Terri Fitzpatrick – Boji Group the requested Occupancy/Lease Information.~~

- ✓ Cadillac Place Parking Update
  - Rental Agreement became effective on October 1, 2015. (Rental Agreement 10/1/15 through 9/30/2016).

- DTMB Parking Office sent out a notice on October 7, 2015, to Cadillac Place tenants to fill these spaces.
- DTMB RED will bid out these spaces and will work toward establishing these 100 spaces long term.

✓ Cadillac Place – Star Snack and Overall Vending/Food Service

- Mike met with Ed Rodgers, Mike Pemble, James Hull, Tamela Meek, Joe Pelle and Nick Rose on November 3, 2015.
- Bureau of Services for Blind Persons (BSBP) standing behind the rule/law as non-negotiable.
- Star Snack will have to cease operations 12/31/15 as will Subway when the lease comes due.
- BSBP indicated that they are very interested in taking over the existing Star Snack space with another vendor to continue to provide the "Dollar Store" type products being sold. Out staff will work with them to set this up after Star Snack exits the end of December.
- DTMB RED communicated this decision to Sam Jawad on November 5th. Sam voiced he would be calling BSBP to discuss. RED staff provided BSBP that they may be receiving a call from Mr. Jawad.
- DTMB is charging BSBP the sf rate for the space that their vending machines are in.
  - We are doing an inventory on what those amounts are and will meet with BSBP to review.
  - This has been an issue for their placing additional machines in buildings.
  - Mike offered to waive that leasing of space if it means we will be able to have more vending machines on more floors and make the occupants happy.
  - DTMB is going to establish regular cadence meetings to see what we can do to increase the level of service and offerings in our buildings.
  - DTMB will support their efforts on our new Facility Web Pages, promoting their menus, specials and encouraging catering service and locations.
- Overall a very positive meeting. Mike Pemble in particular was extremely pleased with the support we provided. History with DTMB had not been good and he didn't even know that we provided support on these items and said it was one of the best meetings he has ever had.
- ~~Date Range: October 1, 1985 through December 31, 2015 – (30 years in this location).~~
- ~~August 10, 2009 – Tenant (Mr. Issam Jwad) requested an additional fourth and fifth five-year extension be added to the original lease.~~
- ~~December 22, 2010- Assistant Attorney General sent a letter on behalf of the State of Michigan denying the extension request and stated Star Snack's lease will expire December 31, 2015. (Five year cancellation notice).~~
- ~~September 29, 2015 – Real Estate reached out to the Services for Blind Persons to discuss a possibility of this Convenience store being permitted to stay in the building. They understood our concerns, but informed RED, since the Services for Blind Persons has been sued by an Operator at Cadillac Place due to Star Snack's presence, they would be reluctant to permit any exception to the Act, but would be willing to look at a proposal.~~
- ~~November 3, 2015 – FBSA representatives will be meeting with Ed Rodgers from the Services for Blind Persons management team.~~

✓ SEOC

- Striving for substantial completion by mid-January, 2016.

- Numerous weather delays and some construction material delivery issues are effecting the final completion schedule from end of December 2015 to mid-January 2016.
- Project remains on budget.
- The renovated areas of the GOB are ahead of schedule and are anticipating furniture installation to begin by late November.
- The steam shutdown was conducted on Saturday, October 24th, with the new steam piping connection being completed and connected.
- Chilled water connection took place on Saturday, November 7th.
- ~~SEOC Tour scheduled for David, Christian, Chad Laidlaw/CTO, Matt Bolger/MSP and Tony Katarsky/EMHSD on Tuesday 10/20 at 3:00 pm. I am attending.~~ Conducted multiple tours of the overall construction progress to both DTMB Leadership and Representative Potvin. Tours were held on October 20th and October 27th and were very positive. MSP was also in attendance at these tours and provided MSP operational information.

Real Estate and Leasing:

- ✓ CCC Lease –
  - Brom spoke to John Pirich and informed him we will not be extending.
  - ~~Had a phone call with John Pirich and he is still hoping for an extension and removal of the cancellation clause. This all started when they had heard feedback that SOM was going to exit the lease. This jump started their taking care of improvements that had been delinquent.~~
  - ~~Option 1: Leave current lease in place:~~
    - ~~The Lessor has been providing improvements to the facility required under the current Lease, so additional improvements may not be necessary to improve satisfaction of tenants.~~
    - ~~Under the current agreement, the Lease will terminate naturally in 2029 or can be cancelled through a simple cancellation provision in 2024.~~
    - ~~The State likely will not need 185,000 square feet of space over the next ten years so the cancelation option should be preserved.~~
  - ~~Option 2: Extend lease and request additional improvements to the building:~~
    - ~~Based on our analysis, it is not in the State's interest to extend this Lease beyond the current term, considering the age of the building, recent space reductions and market conditions.~~
    - ~~Under the Lessors proposal the State will add five years to the term, but the last ten years will be at a Legislative Cancellation clause, making it difficult to leave until 2034.~~
    - ~~Under the Lessors proposal, the State will avoid $15 million in rent, but it will cost the State $30.9 million over the following ten years of a lease extension. The net cost of the extension is $15.9 million.~~
    - ~~The intent of a Lease extension is typically to lock in a rate to hedge against future rent increases. In this case, the extension rate exceeds the predicted market, especially considering the building will approach 50 years old by the end of the lease.~~
    - ~~The State will not likely need the entire 185,000 square feet in 10 years, let alone 20. The current lease is unusual in that the State leases the entire building instead of one lease per agency/program.~~
    - ~~If implemented, the proposed extension will exceed recent precedent.~~

- ✓ Kalamazoo – DHHS Options –

- Mike and Bob Burns meeting with Kurt Warner on November 19th.
- ~~Met with potential Alcott Street Lessor which is a private lessor (not the county/city).~~
- ~~They revised their site plan to push DHHS farther away from county services than planned and increase their rate slightly.~~
- ~~Evaluating with DHHS to determine if programmatically beneficial to move to this site.~~
- ~~State owned option still preferred but if state owned not viable a second lease site may be next best alternative.~~
- ~~Bob discussing with Kurt Warner.~~
- ~~Scheduling a meeting with Tim Becker/DHHS to gain his feedback/wishes for whether it is worth approximately an extra $10/SF cost to be adjacent to the other County/City Health Services targeted for the Alcott site.~~

✓ Emergent/Bio Solutions Property: (Bob reported no change on this. Do you still want to include?)
- Rental agreement for land signed.
- Longer term lease in progress.
- Conveyance bill being discussed with Matt Sweeney.
- RED continuing to work through the process.

Agency Collaboration/Projects:

✓ Furniture RFP
- RFP was posted on Buy4Michigan on Thursday, October 1st.
- Tentative Bid Timeline (Contingent upon Plante Moran's availability, dates may change.)

Bid Posting	10-1-15
Pre-Proposal Bidder Phone Conference	10-9-15
Bidder Questions Due	10-30-15
Answers to Questions Published	11-9-15
Bids Due	11-30-15
Submit to Ad Board for Approval	5-17-16
Transition Period	5-20-16 to 7-29-16
New Contract Start Date	8-1-2016

- FBSA and Procurement met to finalize responses to the vendor questions on Friday, November 6th.
- Some sections require feedback/response from Plant Moran and have been sent to them by Procurement for updating. Our staff is also finalizing responses on a few others.

✓ LTA Location – Potential FBSA Move
- ~~Floorplan options/needs continue to be reviewed.~~
- ~~FBSA met with Joyce and Kristi to discuss needs. Input provided from Kristi on October 1st. FBSA staff are following up to discuss further and determine financial responsibility for items that are specific to her program needs not covered in the BOA.~~
- ~~Team completed review of any and all options for space to determine if LTA is the best option. There are pockets of space in State owned buildings, but nothing that will accommodate the entire FBSA team of approximately 80 staff.~~
- ~~FBSA team worked with Phil/Greg/Lisa on validation of funding available. Budget information was passed on to Nancy Duncan on Tuesday, October 13th.~~
- Per email from Lisa Shoemaker on Friday, October 30th, funding for move has been approved.
- LTA estimate down to $5.7 with more work being done to sharpen that number. Looking for improvements on items that are not necessarily needed to move in.

- Reviewing potential work items such as exterior patio, landscaping as well as cabinetry and millwork interior items and furniture installation that may be able to be provided using internal DTMB resources.
- Funding delays created a substantial challenge to the timeline and FBSA may have to move twice however, with funding resolved and approval of construction contracts expected soon we will be analyzing in detail all options available to avoid the time, expense and inconvenience of a double move.
- This process will continue over the next 4-6 weeks as construction is released, material & equipment deliveries are confirmed, etc.
- Construction contact work has been released for bidding and bids are expected to be received and under review within the next 2-3 weeks.
- Real Estate design staff is finalizing office furniture designs and details.
- Tim Hall met with Krisi Thompson on November 9th to discuss and coordinate a solution that addresses needs and goals for work area.
- Additional follow up is needed to conclude a final approach but are making progress.

- ~~Timeline is getting very tight. FBSA will likely have to move twice.~~
- ~~Upon confirmation of CAR Funds available, what is the process for approval for FBSA to move forward with plans to occupy/renovate LTA for permanent use?~~

✓ FM Systems

- North Carolina State University was not being responsive to DTMB Procurement. We requested the SOM request a letter from the NC Purchasing authority granting us permission. DTMB Procurement responded that a letter allowing us to use NCSU contract is insufficient. We must document that the bidding community had reason to believe others might later leverage the contract.
  - Anne Brys and Laurie Westfall suggested FBSA look at some of the other contracts w/ the Buyer. Have been told most of them are Federal contracts through GSA and the State of Michigan will not accept their bids.
  - FBSA requested copies of the USGS contract previously provided by DTMB Procurement, but it might be a GSA contract not competitively bid. FBSA also started an evaluation of the Hennepin County RFP.
  - Troy did a web search and found some 2011-2012 North Carolina Purchasing Program transformational document links regarding "Sourcing" that discussed Statutory and Administrative Code policy changes that I forwarded to DTMB Procurement, along with contact information. Since the NCSU bid was from 2013, it should be okay if the proposals recommendations were implemented.
  - Back-up planning" Troy is requesting and will be reviewing other governmental bids, and have scheduled time beginning on Friday the 13th with Julie Proux (IT) to begin drafting an RFP just in case. A decision will be made in the next few weeks if we should move forward with a bid instead. That assumes we cannot move forward with leveraging some other entities contract.
  - ~~9/21/2015 – Jarrod Barron, DTMB Buyer, asked FBSA to review the various proposals received from the various Governmental agencies whom utilize FM Systems.~~
  - ~~9/22-25/2015 – Anne Brys, Julie Proux and Troy Bos all separately reviewed the proposals and selected the North Carolina State University proposal as the agreement to utilize for the State of Michigan. An e-mail recommendation was sent to DTMB Procurement to proceed on 9/25/2015.~~
  - ~~10/2/2015 – Additional meeting scheduled between FM Systems and BOD's Maintenance Engineering personnel to find a solution to the inventory aspect on~~

~~work orders and determine how we can use the system to roll up these needed costs. A meeting is scheduled for October 26, 2015 with BOD and FM Systems.~~
- ~~10/8/2015 – Procurement connected the legal documents from NCSU to UNC to the State of North Carolina and is researching the laws of North Carolina's procurement rules and it is looking hopeful. In the interim, Procurement sent samples of several Statement of Work (SOW) documents for Troy to write a new FBSA SOW to ensure our needs will be addressed by the software contract.~~
- ~~10/29/2015 – FM Systems meeting with MDOT at the Van Wagoner building for demo.~~

✓ OIP Organizational Updates (Anything new here…? I don't know that there is other than talking to Keith about the justification for other parts of OIP)
- Met with Chris and Christian on 10/7.
- Mutual agreement to move the Parking and Customer service center over to FBSA.
- OIP would like to keep all things related to Security Systems and reviewing Repair.
  - Would still need some support from us for badging in some cases.
- Still reviewing Safety training, disaster recovery role held by Jeanette and synergy with Joel/Judy positions with Dan.
- OIP in the process of providing Mike names/responsibilities of each individual in OIP and suggested transfer to FBSA by individual programs. Planning to meet again in a few weeks.

✓ State Christmas Tree Search (Can we remove?)
- Tree selected ~~is coming~~ from Wakefield – 10 miles east of Ironwood and the Wisconsin border and successfully made the trip to Lansing on Saturday, October 31st. ~~.~~
- ~~Tree will arrive at the Capitol the morning of Saturday, October 31st.~~
- ~~Press Release: Yesterday, Wednesday, October 14th.~~
- Tree lighting will take place on Friday, November 20th as part of Silver Bells.

✓ MiMove Process Update
- Drafted a note for MiMove team from sponsors. ~~Rod and Brom's review to send to Pam and Team.~~
- Response was received on Monday, November 2, 2015.
- Currently reviewing the information.
- Meeting was originally scheduled for Tuesday, November 3rd however was postponed to allow for time to review information sent by team in response to sponsor inquiry. Expected to be rescheduled in early December.
- ~~Would like to send from all three as project sponsors if in agreement.~~
- ~~Meeting scheduled for Monday, October 26th. Attendees include Mike, Fran, Pam Kenney, Eric Swanson, Troy Spitzley, Jennifer Poirier, Kerri Droste.~~

✓ House Committee Appropriations Meeting (Can we remove this since Brom was in attendance?)
- Scheduled for Wednesday, October 28th.
- Bob Burns will be attending to provide the update on the CAR project.
- I am scheduled to attend the Off-Site Tower Rescue Drill that David is attending. I indicated to Matt that I can attend to support Bob if critical. Reviewing needs with Matt, Greg DeCamp and Bob.

✓ DTMB Web Pages – External/Internal - Customer Service Liaison Position (12) (Can we remove?
- ~~32 applicants – H/R screened down to 4 for internal review~~

- Rachel Brim being selected as the qualified candidate. Start date ~~to be determined~~set for pay period beginning 11/22/15.
- ~~MSP and GOB sites will be a priority.~~
- ~~Meeting with MSP Public Affairs Manager and Key Contact to work out details on adding our link to their page. Caleb offering assistance as well to connect with MSP.~~

✓ Building Closures
- At approximately 3:30 p.m. on Monday, October 12th, the Cass building was closed due to a plumbing issue.
- The Building Closure process was followed (Building Closure Procedures Quick Reference attached).
- I was on-site and made some observations relating to notification process/approval, use of PA, Email Notifications, etc. A lessons learned meeting will be held with the key players to validate process and roles.
- Additional meetings will be held with OIP to ensure building closure documents, policies and procedures are up to date and current.
- Further training and communication on building closures will be communicated with staff.
- The meeting to discuss Business Continuity was held on Wednesday 11/4.
- Jeanette, Chris Christiansen (via phone) and Jeff Pratt from OIP participated in addition to our FBSA staff.
- Action items include updating all policies including the Ad Guide, BOD will be holding refresher training with Facilities Supervisors and Building Trades Supervisors on building closures including use of the PA system.
- Also discussed the need for a 'scripted announcement' to be kept near the PA systems in the buildings.
- The group discussed new monitor vests and monitor flags for volunteers work stations. Jeanette will look into options.

✓ DTMB – "Ten Commandments" Discussion (Can we remove?) Developed and have been sent to Kelly)
- Have met with Team and requested 1 – 3 good examples from each Division.

✓ DHHS New Lab Review (Kerri has printed email – will discuss with Mike)
- DHHS Lab tour feedback. DHHS Lobbying hard for a new facility. DEQ content.
- Option to expand, double the size of existing facility.
- P3 review document. Feedback from FBSA and Deb Roberts. (Attached)
- Next steps.

✓ Tower Rescue Scenario – Wednesday, October 28th (Can this be removed. I believe you said you had been in contact with David in Brom on the day's events but can update here if needed)
- David confirmed he can attend morning portion.
- Brom's availability for any/all?
- Agenda attached for review/reference. Highlighted sections are desirable for Executive attendance.

✓ DTMB Health and Safety
- ~~Sharon Ellis requested a meeting with Dan Morgan – Meeting was held on September 22nd. Placed Dan in an awkward position.~~
- ~~Sharon offered assistance from Judy and Joel.~~
- ~~Dan discussed a couple of ongoing program needs.~~

- ~~Sharon requested a written memo from Dan regarding the assistance Joel and Judy could provide.~~
- ~~Dan responded to Sharon via voicemail that we were looking at other options including utilizing BOD staff.~~
- Mike met with Sharon on Friday, October 23rd.
- Sharon was going to be scheduling a meeting (a meet and greet) for Mike to meet Joel and Judy. That meeting has not been scheduled at this point.

Additional Items you may want to include?

- On Call/O.T. Exception Requests and/or Henry email?
- Anything regarding Op Ex?
- State Veterans Home request from Lisa?
- KPMG/HOK
- Do you want to talk to Brom about changing FBSA's name?
- Update on Crucial Conversations? We believe all staff have taken or are scheduled however the next report to confirm will not be available from OPM until December 2nd.
- Do you want to talk to Brom about NASFA?

1X1 BROM/MIKE

December 16, 2015

Discussion Items:

Action Items/Follow Up From November 13, 2015

1) Confirm with QOL Agencies that they are ready to move ahead with Con Hall move/funding. (Jim/Bob) Update from Jim Clark 11/17: MDARD, DEQ, DNR do not think they should have to pay for anything – funding is yet to be determined. Design is complete and RED staff are sourcing product now (will be doing some refurbishing). 12/10: Jim Clark provided talking points and budget for Brom's meeting. Complete
2) Send Brom details/budget on the Governor's Residence project. (Send budget for project, anticipated cost and confirmation on $100K savings for self-perform by landscape Team &copy of plan) - Complete
3) DTMB HR – Timeline and budget needs – (Move to Con Hall) Design is complete. Funding is available for either H/R or OPM but not both. Move is not currently scheduled and due to timelines already in place for CAR, are anticipating move July 2016.
4) Look for an opportunity for a tour of SEOC once it is completed and before MSP takes ownership. Scheduled January 8, 2016 - 8:30a.m.
5) Ensure regular communications with Mary Balkema in Kalamazoo County. Meeting held on 12/14: Details……
6) Follow up on "informal" process for building closures. Group (OIP/BOD) met on 11/23/15 to discuss/update process. Discussed needs further in 1x1 with Keith. Group is working on edits/clarifications and will share once complete.
7) Send approvals for overtime and on-call exceptions. Submitted to HR on 11/16/15.
8) Floorplan for LTA – Sent to Brom.
9) NASFA – MT going to check on any others that make sense. Can we confirm who in DTMB Senior Management had the concerns and why? Concerns were from previous administration. Research pointing to NASFA as best option to connect with other State Government entities.
10) MT IPM – Brom was going to do. Double check on status Complete
11) MI Move – MT to send note to Rod and copy Brom on my thoughts for SPOC for IT Status?
12) Monitor Vests – Need to ping Jeanette on her decision for vest colors, new, etc. Jeanette Doll (OIP) working on vests, monitor to go kits and monitor flags.
13) Kalamazoo DHHS – Send Brom a note after Bob and I meet with Tim/DHHS on his thoughts for Kzoo. Also send Brom the latest site plan for Kzoo that shows the changes made locally and the new proposed SOM location. Meeting was held 12/7. Brom seemed to have the latest when he mentioned it at the Op Ex meeting–what do you want added here?
14) Generator – Joyce's Building – MT to reach out to "Chris Kalenski" (spelling of name unknown) at MSP for further detail on generator requirements. See Below

Standing Agenda Item(s):

- ✓ Upcoming RFP's:
  - FM Systems

- North Carolina State University was not being responsive to DTMB Procurement. We requested the SOM request a letter from the NC Purchasing authority granting us permission. DTMB Procurement responded that a letter allowing us to use NCSU contract is insufficient. We must document that the bidding community had reason to believe others might later leverage the contract.
- Anne Brys and Laurie Westfall suggested FBSA look at some of the other contracts w/ the Buyer. Have been told most of them are Federal contracts through GSA and the State of Michigan will not accept their bids.
- FBSA requested copies of the USGS contract previously provided by DTMB Procurement, but it might be a GSA contract not competitively bid. FBSA also started an evaluation of the Hennepin County RFP.
- Troy did a web search and found some 2011-2012 North Carolina Purchasing Program transformational document links regarding "Sourcing" that discussed Statutory and Administrative Code policy changes that I forwarded to DTMB Procurement, along with contact information. Since the NCSU bid was from 2013, it should be okay if the proposals recommendations were implemented.
- On November 30th, received word from Procurement that the State of Michigan could buy off the North Carolina contract.
- FBSA is working to compile the bid information to have ready for the March, 2016 Ad Board.
- Goal: FM Systems in place April 2016.

- Furniture
  - RFP was posted on Buy4Michigan on Thursday, October 1st.
  - Tentative Bid Timeline (Contingent upon Plante Moran's availability, dates may change.)

• Bid Posting	10-1-15
• Pre-Proposal Bidder Phone Conference	10-9-15
• Bidder Questions Due	10-30-15
• Answers to Questions Published	12-18-15
• Bids Due	1-8-16
• Submit to Ad Board for Approval	6-7-16
• Transition Period	6-10-16 to 8-31-16
• New Contract Start Date	9-1-16

  - FBSA and Procurement met to finalize responses to the vendor questions on Friday, November 6th.
  - Some sections require feedback/response from Plant Moran and have been sent to them by Procurement for updating. Our staff is also finalizing responses on a few others.
  - Dates/topics/touchpoints being identified for Plante Moran to provide new proposal on additional services.
  - Contracts extensions have been requested through iTRAC for Haworth, DBI and Kentwood.

Capitol Complex:

- ✓ Treasury – OPS Space (email)
  - Troy Spitzley (RED) has been working with Ann Luepnitz (Treasury).
  - There is no space available in OPS for swing space.
  - DTMB-CSC is also trying to find swing space while they renovate their space.

- RED has offered to help find swing space outside of OPS, but Treasury is not interested in that option.

✓ CEPI Move Mike to update – document due from Curt Myers to Mike 12/9/15)
- Revised floorplan provided to Tom/CEPI 12/9 by Curt Myers for review. Curt to provide update here…..
- Next steps: Curt to clarify budget (internally), finish draft plan and discuss with CEPI.
  - Library looking for $120,000 immediately to begin consolidating/moving materials. This cost is being reviewed as it includes purchasing new file cabinets, etc. Need to validate as necessary for current need or opportunity expense.
- Does Mike know/need to know about DTMB-IT supporting DOC – currently in Hannah first floor? (Kurt Burwald's group- had agreed to move. Now does not want to move). This group needs to move out of Hannah for the CEPI move to work. Space shown to group originally, was in Victor – that space is now gone.

✓ DTMB H/R, IT, OPM, EA Moves
- HR move to Con Hall: Design is complete. Funding is available for either H/R or OPM but not both. Move is not currently scheduled and due to timelines already in place for CAR, are anticipating move July 2016.

✓ Governor's Residence Project – Elliptical Garden Wall - Arch Wall – Brick Planters Project (do you want the schedule attached – sent to me in email 12/3/15?)
- A final design sketch and cost estimate was provided to the Governor's Office on Friday, October 30th.
- BOD Grounds crew is nearly complete with the demolition. By self-performing using the BOD Landscape crew we will **save the SOM almost $100K**
- Side Item: BOD Landscaping crew will re-install the brick pavers/wall at the new FBSA location for an outdoor seating/meeting area.
- A revised schedule has been provided (attached) that adds in the installation of a portion of the site storm water drainage system and a few days added to the site grading due to weather.
  - The site drainage system installation is needed to insure that the site drains properly in the spring as snow melts and rain begins.
- In communications from the DTMB Architect (Joel Gordon) and Marsha Quebbeman in the Governor's Office, it was requested that a representative from the Governor's Office participate in a meeting on January 8, 2016.
- The required pre-bid meeting is currently scheduled for January 25, 2016 with bids due February 3, 2016.

✓ CAR Project Kerri requested updated schedule from Jim)
- Notified on Friday, October 30, 2015 that partial approval of FY 2016 enterprise wide special maintenance allocations. This enabled FBSA to meet the timing for submittal to Ad Board and continued adherence to schedule.
- Programming for DHHS and MSP is complete
- Funding yet to be determined for:
  - DTMB HR
  - OPM
  - Agency Services/Hogan's Group

- DNR/DEQ/AG: Jim met with them and discussed budget. Discussions ongoing with agencies and DTMB regarding funding. Hogan currently pays for all space in Hollister.
    - Agencies are looking into what they can contribute towards the moves.
- MSP CIJC move this past weekend (December 11th) to the first floor B wing, which opens up the second floor of headquarters for the start of the Vital Records Vault. Twelve additional MSP FOIA staff, moved to the second floor GOB temporarily until permanent space on the third floor is available.
    - There was a firewall issue and were some minor furniture issues that were resolved quickly.
    - Cold vending was to be an available option for MSP on day 1 and was not. As of noon on Monday, communications were continuing with LARA Business Enterprise Program to get resolved.
    - Surveys will be sent out no later than Wednesday, December 16th with results available on or around December 23rd.
- Schedule – (Preliminary – revisions have not been vetted through the agencies yet):

MSP CIJC from HQ to 1st Floor B wing GOB	December 11,2015
DTMB FBSA from GOB 3rd to GOB 2nd	January 8, 2016
MSP SEOC moves	January 15, 2016
MSP 2nd Floor A & B wings GOB	March 11, 2016
MSP 3rd Floor A wing GOB	April 15, 2016
MSP 3rd Floor B wing GOB	April 15, 2016
DTMB FBSA from GOB 2nd to LTA	May, 2016
DHHS 2nd & 1st Floors 333 Grand	May 20, 2016
DHHS 5th Floor 333 Grand	June 3, 2016
DHHS 3rd Floor 333 Grand	June 10, 2016

- Resources (IT, Mail and Delivery, etc.) continue to be a concern. With an already tight schedule, working additional moves into the mix including Jim Hogan's group, HR, OPM, CEPI, etc. may become an issue.
- Move Management/300 Decisions has been working the agencies on newsletters, (MSP prefers their Public Affairs office handle all move communications.
- Mike and FBSA staff met with MSP, Shanon Banner, Tim Bolles, Kathleen Fay and Elaine Keilen to discussion communications. MSP insistent they maintain control of communications with their staff. We can support this as they have agreed to allow the post move surveys and will forward our Move Information to MSP for us after editing.

Secondary Complex and Outstates:

- ✓ Cadillac Place Mike to update or send Kerri status to update
    -

- ✓ SEOC
    - Due to an electrical equipment deliver issue, the move-in date for MSP has been agreed to by all parties and adjusted to January 19, 2016.
    - Project remains on budget.

Real Estate and Leasing:

- ✓ Kalamazoo – DHHS Options Is this item the same as the item under the action items from your last meeting?
    - The County decided to build its building without the assistance of Plaza Corp.
    - The site will be on Alcott but not on the previously proposed location with DHHS.

- Mike and Bob Burns meeting with Kurt Warner on November 19th to determine what's needed.
- On 12/3/15 Kurt Warner, DHHS communicated to FBSA that DHHS administration no longer is in support of locating MDHHS offices to a State owned building in Kalamazoo and therefore, were requesting that FBSA re-bid the lease for the Kalamazoo property.

Agency Collaboration/Projects:

✓ Generator Installation at VTS
- Mike reached out to Captain Chris Kelenske.
- Discussions are ongoing with MSP and VTS.
- FBSA to put together a scope of operations supporting all comments and provide to MSP for review/sign off. (Who is putting this write up together?) Also discussion around establishing "Micro-Grid" at the Secondary.

✓ LTA Location – FBSA Move
- Per email from Lisa Shoemaker on Friday, October 30th, funding for move has been approved. Initial $6.3 approved for FBSA but driving actuals down to allow for accommodation of other CAR needs as they arise. Working theme is to focus only on absolute needs and not wants for move in. Tight schedule as tied to exiting of GOB.
- LTA estimate down to $5.7 with more work being done to sharpen that number. Looking for improvements on items that are not necessarily needed to move in.
- Reviewing potential work items such as exterior patio, landscaping as well as cabinetry and millwork interior items and furniture installation that may be able to be provided using internal DTMB resources.
- Funding delays created a substantial challenge to the timeline.
  - FBSA will have to vacate 3rd floor GOB and move to the GOB 2nd floor temporarily. FBSA staff are planning to move to the temporary space on January 8, 2016.
- Additional follow up is needed to conclude a final approach but are making progress.
- Discussions continue with Joyce and Kristi Thompson to discuss and coordinate a solution that addresses needs and goals for the work are. Meeting scheduled for Tuesday, December 22, 2015.
  - Intent is to provide Kristi with sufficient space to support both Auto/IT Depot needs and maintain public safely within a fenced in area so that they do not mix with heavy equipment operations of BOD Landscape areas.
- FBSA continues to finalize workspace plans/layout.
- Goal to move from GOB to LTA early May, 2016.

✓ OIP Organizational Updates How much do you want to elaborate here?
- Mutual agreement to move the Parking and Customer service center over to FBSA.
- OIP would like to keep all things related to Security Systems and reviewing Repair.
  - Would still need some support from us for badging in some cases.
- Still reviewing Safety training, disaster recovery role held by Jeanette and synergy with Joel/Judy positions with Dan.
- OIP in the process of providing Mike names/responsibilities of each individual in OIP and suggested transfer to FBSA by individual programs. Planning to meet again in a few weeks.
- Further discussions are being postponed until after the first of the year per Chris' request.

✓ MiMove Process Update Mike preparing email – will update once email sent.

- Drafted a note for MiMove team from sponsors.
- Response was received on Monday, November 2, 2015. Focus of new position was IT focused only. I would support a single POC for IT as we had for the Mason Move, but not as the overall contact. SPOC for IT would make sense for all IT requests that come through with no FBSA need for support. Any request that comes in that requires FBSA action should then place the FBSA Team lead as the overall SPOC and request IT support through the IT dedicated SPOC. I can support this if the "green box" position is identified as an IT/phone focused SPOC and not an added and unnecessary layer.
- Meeting was originally scheduled for Tuesday, November 3rd however, was postponed to early January to allow Sponsors time to review the teams response to the Sponsors inquiry from 10/16/15. The team's response was sent to the Sponsors on 11/2/15.

✓ Building Closures / Life Safety Programs
- The meeting to discuss Business Continuity was held on Wednesday 11/4.
- Jeanette, Chris Christiansen (via phone) and Jeff Pratt from OIP participated in addition to our FBSA staff.
- Action items include updating all policies including the Ad Guide, BOD will be holding refresher training with Facilities Supervisors and Building Trades Supervisors on building closures including use of the PA system.
- Also discussed the need for a 'scripted announcement' to be kept near the PA systems in the buildings.
- The group discussed new monitor vests and monitor flags for volunteers work stations. Jeanette will look into options.
- Team of both OIP and BOD met on 11/23/15 to discuss/update process. Discussed needs further in 1x1 with Keith. Group is working on edits/clarifications and will share once complete.
- Jeanette Doll (OIP) working on monitor vests, monitor to go kits and monitor flags.

✓ DHHS New Lab Review Mike to update
- DHHS Lab tour feedback. DHHS Lobbying hard for a new facility. DEQ content.
- Option to expand, double the size of existing facility.
- P3 review document. Feedback from FBSA and Deb Roberts. (Attached)
- Meeting held 11/10 with P3 Team, DHHS, FBSA, Procurement, etc. Follow up items to include review of business case, finance options, procurement validation and review of expanding the existing laboratory as part of the business case and justification for P3 if there is one.
- We committed to supporting the P3 process if all questions/review/legislation items are validated and the P3 option is selected.

✓ Op Ex Meetings – Discussion on how Real Estate – FBSA Meetings are going Assume you want to leave on here as a touch point?

✓ FBSA Name Change: O.K to remove or did you want to update on suggestions?

✓ ENERGY STAR
- Six ENERGY STAR rated office buildings:
  - Lewis Cass Building
    - Wednesday, August 19
  - Constitution Hall
    - Thursday, December 10

- Lottery Building
  - Tuesday, December 15
- Flint & Saginaw State Office Buildings
  - Wednesday, December 16
- Traverse City
  - Monday, December 21

✓ Town Hall
- Presented at the December 11th Town Hall in Constitution Hall.
- Attended by third shift staff.

1X1 BROM/MIKE

December 16, 2015

Discussion Items:

Action Items/Follow Up From November 13, 2015

1) Confirm with QOL Agencies that they are ready to move ahead with Con Hall move/funding. (Jim/Bob) Update from Jim Clark 11/17: MDARD, DEQ, DNR do not think they should have to pay for anything – funding is yet to be determined. Design is complete and RED staff are sourcing product now (will be doing some refurbishing). 12/10: Jim Clark provided talking points and budget for Brom's meeting. Complete
2) Send Brom details/budget on the Governor's Residence project. (Send budget for project, anticipated cost and confirmation on $100K savings for self-perform by landscape Team &copy of plan) - Complete
3) DTMB HR – Timeline and budget needs – (Move to Con Hall) Design is complete. Funding is available for either H/R or OPM but not both. Move is not currently scheduled and due to timelines already in place for CAR, are anticipating move July 2016.
4) Look for an opportunity for a tour of SEOC once it is completed and before MSP takes ownership. Scheduled January 8, 2016 - 8:30a.m.
5) Ensure regular communications with Mary Balkema in Kalamazoo County. Meeting with Mary on 12/15 at 4:30 to review options.
6) Follow up on "informal" process for building closures. Group (OIP/BOD) met on 11/23/15 to discuss/update process. Discussed needs further in 1x1 with Keith. Group is working on edits/clarifications and will share once complete.
7) Send approvals for overtime and on-call exceptions. Submitted to HR on 11/16/15.
8) Floorplan for LTA – Sent working plan to Brom. Still going through programming.
9) NASFA – MT going to check on any others that make sense. Can we confirm who in DTMB Senior Management had the concerns and why? Concerns were from previous administration. Research pointing to NASFA as best option to connect with other State Government entities.
10) MT IPM – Brom was going to do. Double check on status Complete
11) MI Move – MT to send note to Rod and copy Brom on my thoughts for SPOC for IT See below
12) Monitor Vests – Need to ping Jeanette on her decision for vest colors, new, etc. Jeanette Doll (OIP) working on vests, monitor to go kits and monitor flags.
13) Kalamazoo DHHS – Send Brom a note after Bob and I meet with Tim/DHHS on his thoughts for Kzoo. Also send Brom the latest site plan for Kzoo that shows the changes made locally and the new proposed SOM location. See below
14) Generator – Joyce's Building – MT to reach out to "Chris Kalenski" (spelling of name unknown) at MSP for further detail on generator requirements. See below

Standing Agenda Item(s):

- ✓ Upcoming RFP's:
  - FM Systems

- On November 30th, received word from Procurement that the State of Michigan could buy off the North Carolina contract.
- FBSA is working to compile the bid information to have ready for the March, 2016 Ad Board.
- Goal: FM Systems in place April 2016.

- Furniture
  - RFP was posted on Buy4Michigan on Thursday, October 1st.
  - Tentative Bid Timeline (Contingent upon Plante Moran's availability, dates may change.)

• Bid Posting	10-1-15
• Pre-Proposal Bidder Phone Conference	10-9-15
• Bidder Questions Due	10-30-15
• Answers to Questions Published	12-18-15
• Bids Due	1-8-16
• Submit to Ad Board for Approval	6-7-16
• Transition Period	6-10-16 to 8-31-16
• New Contract Start Date	9-1-16

  - FBSA and Procurement met to finalize responses to the vendor questions on Friday, November 6th.
  - Some sections require feedback/response from Plant Moran and have been sent to them by Procurement for updating. Our staff is also finalizing responses on a few others.
  - Dates/topics/touchpoints being identified for Plante Moran to provide new proposal on additional services.
  - Contracts extensions have been requested through iTRAC for Haworth, DBI and Kentwood.

Capitol Complex:

- ✓ Treasury – OPS Space (email from Brom)
  - Troy Spitzley (RED) has been working with Ann Luepnitz (Treasury).
  - There is no space available in OPS for swing space.
  - DTMB-CSC is also trying to find swing space while they renovate their space.
  - RED has offered to help find swing space outside of OPS, but per Ann, Treasury is not interested in that option.
  - Troy has offered to provide other options to Treasury for swing space, however Ann is aware that it would need to be in leased space.
  - Per Ann, there is nothing further required from RED at this point.

- ✓ CEPI Move
  - On 12/10/15 Tom stated he wanted to take some time to review the proposal. Curt/Tom met on 12/14 to discuss and truly understand the details of the plan. The meeting went very well with all clarifications being answered and at this time there are not changes happening to the plan. They will continue to dive in a little deeper and look at how the individual teams will be arranged within the space. As for the Library, they are still uncertain as to where the book collections will end up. They have been receiving bids on new high-density microfilm cabinets and will provide an update as soon as possible. Right now the bids are right around $100K. They also noticed that the microfilm readers will have to be moved causing another delay. An initial start date has not been determined at this time.
  - Next steps: Curt to clarify budget (internally), finish draft plan and discuss with CEPI.

        - Library looking for $120,000 immediately to begin consolidating/moving materials. This cost is being reviewed as it includes purchasing new file cabinets, etc. Need to validate as necessary for current need or opportunity expense.
    - DTMB/IT (in support of Department of Corrections -Kirt Berwald's group) currently in Hannah Building:
        - Had agreed to move out of Hannah to Victor Building to make room for Education staff.
        - Education staff wants to move to Hannah from space on South Washington (and some Education staff already in Hannah were going to move within the building) to backfill the DTMB/IT space.
        - Kirt's group no longer wants to move and the space in Victor is no longer available. Other options can be presented to Kirt, but they are no longer agreeing to move. Several attempts have been made to further discuss this with Kirt, however he has been unresponsive. Next step is to elevate to James McFarlane.

✓ DTMB H/R, IT, OPM, EA Moves
- HR: Move to Con Hall - Design is complete. Funding is available for either H/R or OPM but not both. Due to timelines already in place for CAR, estimated move date is July 2016.
- IT: Waiting on funding decision.
- OPM: Met with Kelly Manning to review plan. She is in agreement. Funding decision is needed.
- EA: Moving to Mason next month/January 2016.

✓ CAR Project
- MSP CIJC move this past weekend (December 11th) to the first floor B wing, which opens up the second floor of headquarters for the start of the Vital Records Vault. Twelve additional MSP FOIA staff, moved to the second floor GOB temporarily until permanent space on the third floor is available.
    - There was a firewall issue and were some minor furniture issues that were resolved quickly.
    - Cold vending was to be an available option for MSP on day 1 and was not. As of noon on Monday, communications were continuing with LARA Business Enterprise Program to get resolved.
    - Surveys was sent out Tuesday, December 15th with results available on or around December 23rd.
- Schedule – (Preliminary – revisions have not been vetted through the agencies yet):
    - MSP CIJC from HQ to 1st Floor B wing GOB — December 11,2015
    - DTMB FBSA from GOB 3rd to GOB 2nd — January 8, 2016
    - MSP SEOC moves — January 15, 2016
    - MSP 2nd Floor A & B wings GOB — March 11, 2016
    - MSP 3rd Floor A wing GOB — April 15, 2016
    - MSP 3rd Floor B wing GOB — April 15, 2016
    - DTMB FBSA from GOB 2nd to LTA — May, 2016
    - DHHS 2nd & 1st Floors 333 Grand — May 20, 2016
    - DHHS 5th Floor 333 Grand — June 3, 2016
    - DHHS 3rd Floor 333 Grand — June 10, 2016
- Resources (IT, Mail and Delivery, etc.) continue to be a concern. With an already tight schedule, working additional moves into the mix including Jim Hogan's group, HR, OPM, CEPI, etc. may become an issue.

- Move Management/300 Decisions has been working the agencies on newsletters, (MSP prefers their Public Affairs office handle all move communications.

Secondary Complex and Outstates:

- ✓ Cadillac Place
  - Continuing conversation/review with Wayne County. We have provided all information necessary and they are completing their planning/programming.
  - Wayne County Deputy Chief Executive – Richard Kaufman toured location and likes and supports Cadillac Place move very much.
  - Keeping in contact with Eric Larson on City of Detroit activity which may impact Wayne County decision making.

- ✓ SEOC
  - Due to an electrical equipment deliver issue, the move-in date for MSP was moved back one week. This was reviewed by all parties and adjusted to January 19, 2016.
  - Scheduled tour on 1/8/16 with David and Brom.
  - Project remains on budget.

Real Estate and Leasing:

- ✓ Kalamazoo – DHHS Options
  - On 12/3/15 Kurt Warner, DHHS communicated to FBSA that DHHS administration no longer is in support of locating MDHHS offices to a State owned building in Kalamazoo and therefore, were requesting that FBSA re-bid the lease for the Kalamazoo property.
  - On 12/10/15 Bob, Mike, Matt and DHHS participated in conference call with Senator O'Brien and Calhoun County about the future of the sight.
  - DTMB provided a status update. If not State owned, would look at bidding out for lease again.
  - Will have to be bid out regardless due to problems with the proposal from the lessor (Plaza Corp) who was bidding the co-location sight on Alcott St. This is the sight that would be next to the county building on property owned by the city.
  - After bidding the sight was determined to be too small for the State's needs.
  - Discuss ways to combine the county building (being built by the county) with the State's building or building on other city property.
  - The city and county are going to explore different ways of financing a State owned or leased building with county bonds.

Agency Collaboration/Projects:

- ✓ Generator Installation at VTS
  - Mike met with Captain Chris Kelenske as provided by David and discussed/reviewed level of support needs as follows.
  - Target 48-72 Hours of Generator Support. 72 hour target as preferred but evaluate the additional cost. 48 hours is minimum.
  - Provide for the ability to fuel all vehicles for MSP Lansing Post and Headquarters – Also mentioned ability to support fueling for other Agencies in Tri-County area that would need support
  - Timeframe above contingent upon our ability to re-fuel from our suppliers if an event kept power out beyond that.
  - Wanted to determine a minimum number of gallons to keep on hand at all times, for example, never let the tank go lower than ½ empty. Need to determine usage per day now and extrapolate that over the period of time we could comfortably support between fuel supplier delivery schedule.

- He also wondered about whether back up power/support was necessary for the building so that Mechanics could function if needed.
- Discussions are ongoing with MSP and VTS.
- FBSA to put together a scope of operations supporting all comments and provide to MSP for review/sign off.
- Also discussion around establishing "Micro-Grid" at the Secondary where we create/provide our own utilities.
- We are putting together a one/two page narrative outlining specifications and costs for MSP to review.

✓ LTA Location – FBSA Move
- FBSA continues to finalize workspace plans/layout.
- FBSA will move to 2nd Floor – GOB in early January to accommodate MSP move schedule
- Current target date for move to LTA early May, 2016.
- Since we must move to 2nd floor GOB first, urgency is removed and we can accommodate more cost efficient schedule including self-performance to lower cost.

✓ OIP Organizational Updates
- Mutual agreement to move the following so far to FBSA:
  - Parking and Customer Service Center
  - Building evacuation plans
  - Monitor Training
  - Monitor Handbook Review / Updates
  - Building Monitor Check-in Form
  - Purchase of vests, flags and go-kits for program volunteers
- FBSA can absorb Parking/Customer Service Center under current structure
- Life Safety Programs would require resource – Recommend moving Jeanette Doll to FBSA to continue to support these programs but OIP wants to keep Business Resumption Programs that are also currently supported by her.
- OIP would like to keep all things related to Security Systems.
  - Would still need some support from us for badging in some cases.
- Still reviewing Safety training, disaster recovery role held by Jeanette and synergy with Joel/Judy positions with Dan.
- OIP in the process of providing Mike names/responsibilities of each individual in OIP and suggested transfer to FBSA by individual programs. Planning to meet again in a few weeks.
- Further discussions are being postponed until after the first of the year per Chris' request.

✓ MiMove Process Update
- Returned a note to MiMove Team on 12/15 indicating preference for IT SPOC support only. Per Op Ex and implementation of FM Systems, the SPOC position does not make sense for our Customers and Occupancy Planning/Strategy responsibilities for FBSA.
- Response was received on Monday, November 2, 2015. Focus of new position was IT focused only. I would support a single POC for IT as we had for the Mason Move, but not as the overall contact. SPOC for IT would make sense for all IT requests that come through with no FBSA need for support. Any request that comes in that requires FBSA action should then place the FBSA Team lead as the overall SPOC and request IT support through the IT dedicated SPOC. I can support this if the "green box" position is identified as an IT/phone focused SPOC and not an added and unnecessary layer.

- Meeting was originally scheduled for Tuesday, November 3rd however, was postponed to early January to allow Sponsors time to review the teams response to the Sponsors inquiry from 10/16/15. The team's response was sent to the Sponsors on 11/2/15.

✓ Building Closures
- Meeting held 12/11. Reviewed closure determination and communication options.

✓ DHHS New Lab Review
- FBSA preparing a complete review of Senate Bill 627 for review.

✓ Op Ex Meetings – Discussion on how Real Estate – FBSA Meetings are going

✓ ENERGY STAR – Appreciation Lunches
- Six ENERGY STAR rated office buildings:
  - Lewis Cass Building
    - Wednesday, August 19
  - Constitution Hall
    - Thursday, December 10
  - Lottery Building
    - Tuesday, December 15
  - Flint & Saginaw State Office Buildings
    - Wednesday, December 16
  - Traverse City
    - Monday, December 21

✓ Town Hall
- Presented at the December 11th Town Hall in Constitution Hall.
- Attended by third shift staff – IT Support Personnel.

1X1 BROM/MIKE

January 13, 2016

Discussion Items:

Action Items/Follow Up From December 16, 2015

1) Confirm with QOL Agencies that they are ready to move ahead with Con Hall move/funding. (Jim/Bob) Update from Jim Clark 11/17: MDARD, DEQ, DNR do not think they should have to pay for anything – funding is yet to be determined. Design is complete and RED staff are sourcing product now (will be doing some refurbishing). 12/10: Jim Clark provided talking points and budget for Brom's meeting. Complete Numbers updated. Still a questions on funding. Waiting from QOL on what if anything they will pay.
2) Send Brom details/budget on the Governor's Residence project. (Send budget for project, anticipated cost and confirmation on $100K savings for self-perform by landscape Team &copy of plan) - Complete
3) DTMB HR – Timeline and budget needs – (Move to Con Hall) Design is complete. Funding is available for either H/R or OPM but not both. Move is not currently scheduled and due to timelines already in place for CAR, are anticipating move July 2016. Still a question over budget (who is paying for what). Plans are complete. OPM plans are complete. With Kelly as interim Director, is OPM still going to move?
4) Look for an opportunity for a tour of SEOC once it is completed and before MSP takes ownership. Scheduled January 8, 2016 - 8:30a.m.
5) Ensure regular communications with Mary Balkema in Kalamazoo County. Meeting with Mary on 12/15 at 4:30 to review options.
6) Follow up on "informal" process for building closures. Group (OIP/BOD) met on 11/23/15 to discuss/update process. Discussed needs further in 1x1 with Keith. Group is working on edits/clarifications and will share once complete.
7) Send approvals for overtime and on-call exceptions. Submitted to HR on 11/16/15.
8) Floorplan for LTA – Sent working plan to Brom. Still going through programming.
9) NASFA – MT going to check on any others that make sense. Can we confirm who in DTMB Senior Management had the concerns and why? Concerns were from previous administration. Research pointing to NASFA as best option to connect with other State Government entities. 1/8/16: State of Michigan membership with NASFA processed and confirmed. NASFA will be notifying contacts and we will share this information with the agencies at our upcoming Customer Roundtable on February 9th.
10) MT IPM – Brom was going to do. Double check on status Complete
11) MI Move – MT to send note to Rod and copy Brom on my thoughts for SPOC for IT See below Meeting held on 1/5/16 with Sponsors and Team Leads. The MiMove Process Team requested a demo of FM Systems which FBSA will be coordinating. Likely to be February at the earliest at this point. Still working through some options.
12) Monitor Vests – Need to ping Jeanette on her decision for vest colors, new, etc. Jeanette Doll (OIP) working on vests, monitor to go kits and monitor flags. 1/8: Kerri requested status update from Jeanette
13) Kalamazoo DHHS – Send Brom a note after Bob and I meet with Tim/DHHS on his thoughts for Kzoo. Also send Brom the latest site plan for Kzoo that shows the changes made locally and the new proposed SOM location. See below

14) Generator – Joyce's Building – MT to reach out to "Chris Kalenski" (spelling of name unknown) at MSP for further detail on generator requirements. See below

Standing Agenda Item(s):

- ✓ Upcoming RFP's:
  - FM Systems Troy providing update
    - On November 30th, received word from Procurement that the State of Michigan could buy off the North Carolina contract.
    - FBSA is working to compile the bid information to have ready for the March, 2016 Ad Board.
    - Goal: FM Systems in place April 2016.

  - Furniture Requested update from Lisa Crozier-Green
    - RFP was posted on Buy4Michigan on Thursday, October 1st.
    - Tentative Bid Timeline (Contingent upon Plante Moran's availability, dates may change.)

• Bid Posting	10-1-15
• Pre-Proposal Bidder Phone Conference	10-9-15
• Bidder Questions Due	10-30-15
• Answers to Questions Published	12-18-15
• Bids Due	1-8-16
• Submit to Ad Board for Approval	6-7-16
• Transition Period	6-10-16 to 8-31-16
• New Contract Start Date	9-1-16

    - FBSA and Procurement met to finalize responses to the vendor questions ~~n Friday, November 6th.~~ prior to the holiday.
    - Some sections require feedback/response from Plant Moran and have been sent to them by Procurement for updating. Our staff is also finalizing responses on a few others.
    - Dates/topics/touchpoints being identified for Plante Moran to provide new proposal on additional services.
    - Contracts extensions have been requested through iTRAC for Haworth, DBI and Kentwood.

Capitol Complex:

- ✓ Treasury – OPS Space (email from Brom) Can this be removed?
  - Troy Spitzley (RED) has been working with Ann Luepnitz (Treasury).
  - There is no space available in OPS for swing space.
  - DTMB-CSC is also trying to find swing space while they renovate their space.
  - RED has offered to help find swing space outside of OPS, but per Ann, Treasury is not interested in that option.
  - Troy has offered to provide other options to Treasury for swing space, however Ann is aware that it would need to be in leased space.
  - Per Ann, there is nothing further required from RED at this point.

- ✓ CEPI Move
  - ~~On 12/10/15 Tom stated he wanted to take some time to review the proposal. Curt/Tom met on 12/14 to discuss and truly understand the details of the plan. The meeting went very well with all clarifications being answered and at this time there are not changes happening to the plan. They will continue to dive in a little deeper and look at how the individual teams will be arranged within the space. As for the Library, they~~

~~are still uncertain as to where the book collections will end up. They have been receiving bids on new high-density microfilm cabinets and will provide an update as soon as possible. Right now the bids are right around $100K. They also noticed that the microfilm readers will have to be moved causing another delay. An initial start date has not been determined at this time.~~

- Next steps: Curt and FBSA team working to clarify budget (internally)~~, finish draft plan and discuss with CEPI~~.
  - FBSA Staff have requested an estimate from the Contractor for the restrooms.
  - Library looking for $120,000 immediately to begin consolidating/moving materials. This cost is being reviewed as it includes purchasing new file cabinets, etc. Need to validate as necessary for current need or opportunity expense.
  - FBSA needs CEPI signoff so schedule can be created. Curt is following up with CEPI as they have had the draft plan for a couple of weeks.
  - Met with Nancy Duncan on 1/6/16 as a meet and greet. Committed to a schedule for review by her and John Roberts by 1/20/16.
- DTMB/IT (in support of Department of Corrections -Kirt Berwald's group) currently in Hannah Building: Update requested from Troy Spitzley
  - Had agreed to move out of Hannah to Victor Building to make room for Education staff.
  - Education staff wants to move to Hannah from space on South Washington (and some Education staff already in Hannah were going to move within the building) to backfill the DTMB/IT space.
  - Kirt's group no longer wants to move and the space in Victor is no longer available. Other options can be presented to Kirt, but they are no longer agreeing to move. Several attempts have been made to further discuss this with Kirt, however he has been unresponsive. Next step is to elevate to James McFarlane.

✓ DTMB H/R, IT, OPM, EA Moves Update requested from Jim Clark

- HR: Move to Con Hall - Design is complete. Funding is available for either H/R or OPM but not both. Due to timelines already in place for CAR, estimated move date is July 2016.
- IT: Waiting on funding decision.
- OPM: Met with Kelly Manning to review plan. She is in agreement. Funding decision is needed.
- EA: Moving to Mason next month/January 2016.

✓ CAR Project

- MSP CIJC moved ~~this past weekend~~ (December 11th) to the first floor B wing, which opens up the second floor of headquarters for the start of the Vital Records Vault. Twelve additional MSP FOIA staff, moved to the second floor GOB temporarily until permanent space on the third floor is available. Overall Mean Score: 4.52. Do you want to include the survey results as an attachment?
  - There was a firewall issue and were some minor furniture issues that were resolved quickly.
  - ~~Cold vending was to be an available option for MSP on day 1 and was not. As of noon on Monday, communications were continuing with LARA Business Enterprise Program to get resolved.~~
  - ~~Surveys was sent out Tuesday, December 15th with results available on or around December 23rd.~~
- Schedule ~~– (Preliminary – revisions have not been vetted through the agencies yet)~~:

- MSP CIJC from HQ to 1st Floor B wing GOB — December 11,2015
- DTMB FBSA from GOB 3rd to GOB 2nd — January ~~8~~11-13, 2016
- MSP SEOC moves — January ~~15~~29, 2016
- MSP 2nd Floor A & B wings GOB — March 11, 2016
- MSP 3rd Floor A wing GOB — April ~~15~~8, 2016
- MSP 3rd Floor B wing GOB — April 15, 2016
- DTMB FBSA from GOB 2nd to LTA — May, 2016
- DHHS 2nd & 1st Floors 333 Grand — May 20, 2016
- DHHS 5th Floor 333 Grand — June 3, 2016
- DHHS 3rd Floor 333 Grand — June 10, 2016

  - Resources (IT, Mail and Delivery, etc.) continue to be a concern. With an already tight schedule, working additional moves into the mix including Jim Hogan's group, HR, OPM, CEPI, etc. may become an issue.
  - Move Management/300 Decisions has been working the agencies on newsletters, (MSP prefers their Public Affairs office handle all move communications. Meetings are now underway with DHHS as well and information is being added to the website for 333 S. Grand.
  - Do you want to include anything on the various requested changes Jim is receiving from DHHS?

Secondary Complex and Outstates:

- ✓ Cadillac Place
  - Continuing conversation/review with Wayne County. We have provided all information necessary and they are completing their planning/programming.
  - Wayne County Deputy Chief Executive – Richard Kaufman toured location and likes and supports Cadillac Place move very much.
  - Keeping in contact with Eric Larson on City of Detroit activity which may impact Wayne County decision making.
  - Tour held on 1/6/16 with Court Administrators for the 3rd Circuit Court and the Juvenile Court Administrators (approximately 6 attended the tour).

- ✓ SEOC
  - ~~Due to an electrical equipment deliver issue, the move-in date for MSP was moved back one week. This was reviewed by all parties and adjusted to January 19, 2016.~~
  - ~~Scheduled T~~tour (coordinated by MSP) was held on 1/8/16~~ with David and Brom~~.
  - As communicated last week and Dave's report on 1/8/16, staff moves have been delayed to 1/29/16.
    - The permanent power installation took additional time and that in turn impacted the completion of the HVAC, building back-up systems and architectural system within the hardened building addition.
    - The Project Manager has met with the stake holders: MSP, MPSCS, DTMB IT and the Daniels/Christman Team and have reviewed/discussed in detail the new revised schedule. All parties are in agreement with the changes.
  - Project remains on budget.

Real Estate and Leasing:

- ✓ Kalamazoo – DHHS Options Will Doxie provided some info this morning when we are on the 2nd floor – do you have the info to update or do you want me to get with Will for an update?
  - On 12/3/15 Kurt Warner, DHHS communicated to FBSA that DHHS administration no longer is in support of locating MDHHS offices to a State owned building in Kalamazoo and therefore, were requesting that FBSA re-bid the lease for the Kalamazoo property.

- On 12/10/15 Bob, Mike, Matt and DHHS participated in conference call with Senator O'Brien and Calhoun County about the future of the sight.
- DTMB provided a status update. If not State owned, would look at bidding out for lease again.
- Will have to be bid out regardless due to problems with the proposal from the lessor (Plaza Corp) who was bidding the co-location sight on Alcott St. This is the sight that would be next to the county building on property owned by the city.
- After bidding the sight was determined to be too small for the State's needs.
- Discuss ways to combine the county building (being built by the county) with the State's building or building on other city property.
- The city and county are going to explore different ways of financing a State owned or leased building with county bonds.

Agency Collaboration/Projects:

✓ Generator Installation at VTS As you are aware, Ric is currently working on the revisions to the write up. What do you want included here?

- Mike met with Captain Chris Kelenske as provided by David and discussed/reviewed level of support needs as follows.
- Target 48-72 Hours of Generator Support. 72 hour target as preferred but evaluate the additional cost. 48 hours is minimum.
- Provide for the ability to fuel all vehicles for MSP Lansing Post and Headquarters – Also mentioned ability to support fueling for other Agencies in Tri-County area that would need support
- Timeframe above contingent upon our ability to re-fuel from our suppliers if an event kept power out beyond that.
- Wanted to determine a minimum number of gallons to keep on hand at all times, for example, never let the tank go lower than ½ empty. Need to determine usage per day now and extrapolate that over the period of time we could comfortably support between fuel supplier delivery schedule.
- He also wondered about whether back up power/support was necessary for the building so that Mechanics could function if needed.
- Discussions are ongoing with MSP and VTS.
- FBSA to put together a scope of operations supporting all comments and provide to MSP for review/sign off.
- Also discussion around establishing "Micro-Grid" at the Secondary where we create/provide our own utilities.
- We are putting together a one/two page narrative outlining specifications and costs for MSP to review.

✓ LTA Location – FBSA Move

- FBSA continues to finalize workspace plans/layout.
- FBSA will moved to 2nd Floor – GOB ~~in~~ this week~~early January to accommodate MSP move schedule~~
- Current target date for move to LTA early May, 2016.
- Since we must move to 2nd floor GOB first, urgency is removed and we can accommodate more cost efficient schedule including self-performance to lower cost.

✓ OIP Organizational Updates Anything new here? How much do you want removed?

- Mutual agreement to move the following so far to FBSA:
  - Parking and Customer Service Center
  - Building evacuation plans

        - Monitor Training
        - Monitor Handbook Review / Updates
        - Building Monitor Check-in Form
        - Purchase of vests, flags and go-kits for program volunteers
    - FBSA can absorb Parking/Customer Service Center under current structure
    - Life Safety Programs would require resource – Recommend moving Jeanette Doll to FBSA to continue to support these programs but OIP wants to keep Business Resumption Programs that are also currently supported by her.
    - OIP would like to keep all things related to Security Systems.
        - Would still need some support from us for badging in some cases.
    - Still reviewing Safety training, disaster recovery role held by Jeanette and synergy with Joel/Judy positions with Dan.
    - OIP in the process of providing Mike names/responsibilities of each individual in OIP and suggested transfer to FBSA by individual programs. Planning to meet again in a few weeks.
    - Further discussions are being postponed until after the first of the year per Chris' request.

✓ MiMove Process Update Can this be removed here since we have an update above from your action items from your last 1x1 with Brom and because he attended the meeting?
    - Returned a note to MiMove Team on 12/15 indicating preference for IT SPOC support only. Per Op Ex and implementation of FM Systems, the SPOC position does not make sense for our Customers and Occupancy Planning/Strategy responsibilities for FBSA.
    - Response was received on Monday, November 2, 2015. Focus of new position was IT focused only. I would support a single POC for IT as we had for the Mason Move, but not as the overall contact. SPOC for IT would make sense for all IT requests that come through with no FBSA need for support. Any request that comes in that requires FBSA action should then place the FBSA Team lead as the overall SPOC and request IT support through the IT dedicated SPOC. I can support this if the "green box" position is identified as an IT/phone focused SPOC and not an added and unnecessary layer.
    - Meeting was originally scheduled for Tuesday, November 3rd however, was postponed to early January to allow Sponsors time to review the teams response to the Sponsors inquiry from 10/16/15. The team's response was sent to the Sponsors on 11/2/15.

✓ Building Closures Remove?
    - Meeting held 12/11. Reviewed closure determination and communication options.

✓ DHHS New Lab Review This is complete right?
    - FBSA preparing a complete review of Senate Bill 627 for review.

✓ Op Ex Meetings – Discussion on how Real Estate – FBSA Meetings are going

✓ FBSA Frozen Positions (attachment) Can this be removed?

✓ ENERGY STAR – Appreciation Lunches Can this be removed?
    - Six ENERGY STAR rated office buildings:
        - Lewis Cass Building
            - Wednesday, August 19
        - Constitution Hall
            - Thursday, December 10
        - Lottery Building

        - Tuesday, December 15
    - Flint & Saginaw State Office Buildings
        - Wednesday, December 16
    - Traverse City
        - Monday, December 21

- ✓ Town Hall Can this be removed?
    - Presented at the December 11th Town Hall in Constitution Hall.
    - Attended by third shift staff – IT Support Personnel.

Items to Consider Adding:

1). Snow Removal Chain of Events
2). Detroit Public Schools email – Fisher Building
3). DHHS Parking Meeting (and our reach out to Helen Dennis regarding Lake Trust parking lot
4). Anything regarding the Capital Outlay Update from Greg? And or MSP Gun Range?
Brom's email from 1/8/16: Asking that we make sure to dust off our CAR plans to make sure we include all the groups that are still potential moves/those 'stranded'.
5). Anything on the renaming of MSP Headquarters (past and present)?
6). MDOT/Stairs Initiative Caleb sent?
7). Although Brom said we did not owe him a response on the email he received from Treasury regarding signage, did you want to touch base with him on where we hope to eventually be?
8). Anything on Grand Rapids security?
9). Detroit summer jobs email
10). IPM update – All due 1/15/16. Chance to toot your horn here – with over 250 employees – reaching 100%...VERY GOOD!!!!
11). Schedule another SEOC tour for David and Brom?
12). Anything needed regarding QDV?

1X1 BROM/MIKE

January 13, 2016

Discussion Items:

Action Items/Follow Up From December 16, 2015

1) Confirm with QOL Agencies that they are ready to move ahead with Con Hall move/funding. (Jim/Bob) Update from Jim Clark 11/17: MDARD, DEQ, DNR do not think they should have to pay for anything – funding is yet to be determined. Design is complete and RED staff are sourcing product now (will be doing some refurbishing). 12/10: Jim Clark provided talking points and budget for Brom's meeting. Complete Numbers updated. Still a questions on funding. Waiting from QOL on what if anything they will pay.
2) Send Brom details/budget on the Governor's Residence project. (Send budget for project, anticipated cost and confirmation on $100K savings for self-perform by landscape Team &copy of plan) - Complete
3) DTMB HR – Timeline and budget needs – (Move to Con Hall) Design is complete. Funding is available for either H/R or OPM but not both. Move is not currently scheduled and due to timelines already in place for CAR, are anticipating move July 2016. Still a question over budget (who is paying for what). Plans are complete. OPM plans are complete. With Kelly as interim Director, is OPM still going to move?
4) Look for an opportunity for a tour of SEOC once it is completed and before MSP takes ownership. Scheduled January 8, 2016 - 8:30a.m.
5) Ensure regular communications with Mary Balkema in Kalamazoo County. Meeting with Mary on 12/15 at 4:30 to review options.
6) Follow up on "informal" process for building closures. Group (OIP/BOD) met on 11/23/15 to discuss/update process. Discussed needs further in 1x1 with Keith. Group is working on edits/clarifications and will share once complete.
7) Send approvals for overtime and on-call exceptions. Submitted to HR on 11/16/15.
8) Floorplan for LTA – Sent working plan to Brom. Still going through programming.
9) NASFA – MT going to check on any others that make sense. Can we confirm who in DTMB Senior Management had the concerns and why? Concerns were from previous administration. Research pointing to NASFA as best option to connect with other State Government entities. 1/8/16: State of Michigan membership with NASFA processed and confirmed. NASFA will be notifying contacts and we will share this information with the agencies at our upcoming Customer Roundtable on February 9th.
10) MT IPM – Brom was going to do. Double check on status Complete
11) MI Move – MT to send note to Rod and copy Brom on my thoughts for SPOC for IT See below Meeting held on 1/5/16 with Sponsors and Team Leads. The MiMove Process Team requested a demo of FM Systems which FBSA will be coordinating. Likely to be February at the earliest at this point. Still working through some options.
12) Monitor Vests – Need to ping Jeanette on her decision for vest colors, new, etc. Jeanette Doll (OIP) working on vests, monitor to go kits and monitor flags. 1/8: Kerri requested status update from Jeanette
13) Kalamazoo DHHS – Send Brom a note after Bob and I meet with Tim/DHHS on his thoughts for Kzoo. Also send Brom the latest site plan for Kzoo that shows the changes made locally and the new proposed SOM location. See below

14) Generator – Joyce's Building – MT to reach out to "Chris Kalenski" (spelling of name unknown) at MSP for further detail on generator requirements. See below

Standing Agenda Item(s):

- ✓ Upcoming RFP's:
  - FM Systems
    - On November 30th, received word from Procurement that the State of Michigan could buy off the North Carolina contract.
    - FBSA is finalizing contract language with our DTMB Agency Services Project Manager and will be submitting all information requested by DTMB Procurement. DTMB Procurement will vet the material and work with the AG's Office for Terms and Conditions. The goal is still to make it to the State Administrative Board in March 2016. All information submitted to Procurement on Monday, January 11th.
    - ~~is working to compile the bid information to have ready for the March, 2016 Ad Board.~~
    - Goal: FM Systems to begin the implementation ~~in place~~ April 2016 within FBSA.
  - Furniture Requested update from Lisa Crozier-Green
    - RFP was posted on Buy4Michigan on Thursday, October 1st.
    - Tentative Bid Timeline (Contingent upon Plante Moran's availability, dates may change.)

• Bid Posting	10-1-15
• Pre-Proposal Bidder Phone Conference	10-9-15
• Bidder Questions Due	10-30-15
• Answers to Questions Published	12-18-15
• Bids Due	1-8-16
• Submit to Ad Board for Approval	6-7-16
• Transition Period	6-10-16 to 8-31-16
• New Contract Start Date	9-1-16

    - FBSA and Procurement met to finalize responses to the vendor questions ~~n Friday, November 6th~~ prior to the holiday.
    - Some sections require feedback/response from Plant Moran and have been sent to them by Procurement for updating. Our staff is also finalizing responses on a few others.
    - Dates/topics/touchpoints being identified for Plante Moran to provide new proposal on additional services.
    - Contracts extensions have been requested through iTRAC for Haworth, DBI and Kentwood.

Capitol Complex:

- ✓ Treasury – OPS Space (email from Brom) Can this be removed?
  - Troy Spitzley (RED) has been working with Ann Luepnitz (Treasury).
  - There is no space available in OPS for swing space.
  - DTMB-CSC is also trying to find swing space while they renovate their space.
  - RED has offered to help find swing space outside of OPS, but per Ann, Treasury is not interested in that option.
  - Troy has offered to provide other options to Treasury for swing space, however Ann is aware that it would need to be in leased space.
  - Per Ann, there is nothing further required from RED at this point.

- ✓ CEPI Move
  - ~~On 12/10/15 Tom stated he wanted to take some time to review the proposal. Curt/Tom met on 12/14 to discuss and truly understand the details of the plan. The meeting went very well with all clarifications being answered and at this time there are not changes happening to the plan. They will continue to dive in a little deeper and look at how the individual teams will be arranged within the space. As for the Library, they are still uncertain as to where the book collections will end up. They have been receiving bids on new high-density microfilm cabinets and will provide an update as soon as possible. Right now the bids are right around $100K. They also noticed that the microfilm readers will have to be moved causing another delay. An initial start date has not been determined at this time.~~
  - Next steps: Curt and FBSA team working to clarify budget (internally)~~, finish draft plan and discuss with CEPI~~.
    - FBSA Staff have requested an estimate from the Contractor for the restrooms.
    - Library looking for $120,000 immediately to begin consolidating/moving materials. This cost is being reviewed as it includes purchasing new file cabinets, etc. Need to validate as necessary for current need or opportunity expense.
    - FBSA needs CEPI signoff so schedule can be created. Curt is following up with CEPI as they have had the draft plan for a couple of weeks.
    - Met with Nancy Duncan on 1/6/16 as a meet and greet. Committed to a schedule for review by her and John Roberts by 1/20/16.
  - DTMB/IT (in support of Department of Corrections -Kirt Berwald's group) currently in Hannah Building: Update requested from Troy Spitzley
    - Had agreed to move out of Hannah to Victor Building to make room for Education staff.
    - Education staff wants to move to Hannah from space on South Washington (and some Education staff already in Hannah were going to move within the building) to backfill the DTMB/IT space.
    - Kirt's group no longer wants to move and the space in Victor is no longer available. Other options can be presented to Kirt, but they are no longer agreeing to move. Several attempts have been made to further discuss this with Kirt, however he has been unresponsive. Next step is to elevate to James McFarlane.

- ✓ DTMB H/R, IT, OPM, EA Moves Update requested from Jim Clark
  - HR: Move to Con Hall - Design is complete. Funding is available for either H/R or OPM but not both. Due to timelines already in place for CAR, estimated move date is July 2016.
  - IT: Waiting on funding decision.
  - OPM: Met with Kelly Manning to review plan. She is in agreement. Funding decision is needed.
  - EA: Moving to Mason next month/January 2016.

- ✓ CAR Project
  - MSP CIJC moved ~~this past weekend~~ (December 11th) to the first floor B wing, which opens up the second floor of headquarters for the start of the Vital Records Vault. Twelve additional MSP FOIA staff, moved to the second floor GOB temporarily until permanent space on the third floor is available. Overall Mean Score: 4.52. Do you want to include the survey results as an attachment?
    - There was a firewall issue and were some minor furniture issues that were resolved quickly.

- ~~Cold vending was to be an available option for MSP on day 1 and was not. As of noon on Monday, communications were continuing with LARA Business Enterprise Program to get resolved.~~
- ~~Surveys was sent out Tuesday, December 15th with results available on or around December 23rd.~~

- Schedule – ~~(Preliminary – revisions have not been vetted through the agencies yet)~~:

MSP CIJC from HQ to 1st Floor B wing GOB	December 11,2015
DTMB FBSA from GOB 3rd to GOB 2nd	January ~~8~~11-13, 2016
MSP SEOC moves	January ~~15~~29, 2016
MSP 2nd Floor A & B wings GOB	March 11, 2016
MSP 3rd Floor A wing GOB	April ~~15~~8, 2016
MSP 3rd Floor B wing GOB	April 15, 2016
DTMB FBSA from GOB 2nd to LTA	May, 2016
DHHS 2nd & 1st Floors 333 Grand	May 20, 2016
DHHS 5th Floor 333 Grand	June 3, 2016
DHHS 3rd Floor 333 Grand	June 10, 2016

- Resources (IT, Mail and Delivery, etc.) continue to be a concern. With an already tight schedule, working additional moves into the mix including Jim Hogan's group, HR, OPM, CEPI, etc. may become an issue.
- Move Management/300 Decisions has been working the agencies on newsletters, (MSP prefers their Public Affairs office handle all move communications. Meetings are now underway with DHHS as well and information is being added to the website for 333 S. Grand.
- Do you want to include anything on the various requested changes Jim is receiving from DHHS?

Secondary Complex and Outstates:

✓ Cadillac Place
- Continuing conversation/review with Wayne County. We have provided all information necessary and they are completing their planning/programming.
- Wayne County Deputy Chief Executive – Richard Kaufman toured location and likes and supports Cadillac Place move very much.
- Keeping in contact with Eric Larson on City of Detroit activity which may impact Wayne County decision making.
- Tour held on 1/6/16 with Court Administrators for the 3rd Circuit Court and the Juvenile Court Administrators (approximately 6 attended the tour).

✓ SEOC
- ~~Due to an electrical equipment deliver issue, the move-in date for MSP was moved back one week. This was reviewed by all parties and adjusted to January 19, 2016.~~
- ~~Scheduled T~~tour (coordinated by MSP) was held on 1/8/16 ~~with David and Brom~~.
- As communicated last week and Dave's report on 1/8/16, staff moves have been delayed to 1/29/16.
  - The permanent power installation took additional time and that in turn impacted the completion of the HVAC, building back-up systems and architectural system within the hardened building addition.
  - The Project Manager has met with the stake holders: MSP, MPSCS, DTMB IT and the Daniels/Christman Team and have reviewed/discussed in detail the new revised schedule. All parties are in agreement with the changes.
- Project remains on budget.

Real Estate and Leasing:

- ✓ Kalamazoo – DHHS Options Will Doxie provided some info this morning when we are on the 2nd floor – do you have the info to update or do you want me to get with Will for an update?
  - On 12/3/15 Kurt Warner, DHHS communicated to FBSA that DHHS administration no longer is in support of locating MDHHS offices to a State owned building in Kalamazoo and therefore, were requesting that FBSA re-bid the lease for the Kalamazoo property.
  - On 12/10/15 Bob, Mike, Matt and DHHS participated in conference call with Senator O'Brien and Calhoun County about the future of the sight.
  - DTMB provided a status update. If not State owned, would look at bidding out for lease again.
  - Will have to be bid out regardless due to problems with the proposal from the lessor (Plaza Corp) who was bidding the co-location sight on Alcott St. This is the sight that would be next to the county building on property owned by the city.
  - After bidding the sight was determined to be too small for the State's needs.
  - Discuss ways to combine the county building (being built by the county) with the State's building or building on other city property.
  - The city and county are going to explore different ways of financing a State owned or leased building with county bonds.

Agency Collaboration/Projects:

- ✓ Generator Installation at VTS As you are aware, Ric is currently working on the revisions to the write up. What do you want included here?
  - Mike met with Captain Chris Kelenske as provided by David and discussed/reviewed level of support needs as follows.
  - Target 48-72 Hours of Generator Support. 72 hour target as preferred but evaluate the additional cost. 48 hours is minimum.
  - Provide for the ability to fuel all vehicles for MSP Lansing Post and Headquarters – Also mentioned ability to support fueling for other Agencies in Tri-County area that would need support
  - Timeframe above contingent upon our ability to re-fuel from our suppliers if an event kept power out beyond that.
  - Wanted to determine a minimum number of gallons to keep on hand at all times, for example, never let the tank go lower than ½ empty. Need to determine usage per day now and extrapolate that over the period of time we could comfortably support between fuel supplier delivery schedule.
  - He also wondered about whether back up power/support was necessary for the building so that Mechanics could function if needed.
  - Discussions are ongoing with MSP and VTS.
  - FBSA to put together a scope of operations supporting all comments and provide to MSP for review/sign off.
  - Also discussion around establishing "Micro-Grid" at the Secondary where we create/provide our own utilities.
  - We are putting together a one/two page narrative outlining specifications and costs for MSP to review.

- ✓ LTA Location – FBSA Move
  - FBSA continues to finalize workspace plans/layout.
  - FBSA will moved to 2nd Floor – GOB ~~in this week~~early January to accommodate MSP move schedule
  - Current target date for move to LTA early May, 2016.

- Since we must move to 2nd floor GOB first, urgency is removed and we can accommodate more cost efficient schedule including self-performance to lower cost.

✓ OIP Organizational Updates Anything new here? How much do you want removed?
- Mutual agreement to move the following so far to FBSA:
  - Parking and Customer Service Center
  - Building evacuation plans
  - Monitor Training
  - Monitor Handbook Review / Updates
  - Building Monitor Check-in Form
  - Purchase of vests, flags and go-kits for program volunteers
- FBSA can absorb Parking/Customer Service Center under current structure
- Life Safety Programs would require resource – Recommend moving Jeanette Doll to FBSA to continue to support these programs but OIP wants to keep Business Resumption Programs that are also currently supported by her.
- OIP would like to keep all things related to Security Systems.
  - Would still need some support from us for badging in some cases.
- Still reviewing Safety training, disaster recovery role held by Jeanette and synergy with Joel/Judy positions with Dan.
- OIP in the process of providing Mike names/responsibilities of each individual in OIP and suggested transfer to FBSA by individual programs. Planning to meet again in a few weeks.
- Further discussions are being postponed until after the first of the year per Chris' request.

✓ MiMove Process Update Can this be removed here since we have an update above from your action items from your last 1x1 with Brom and because he attended the meeting?
- Returned a note to MiMove Team on 12/15 indicating preference for IT SPOC support only. Per Op Ex and implementation of FM Systems, the SPOC position does not make sense for our Customers and Occupancy Planning/Strategy responsibilities for FBSA.
- Response was received on Monday, November 2, 2015. Focus of new position was IT focused only. I would support a single POC for IT as we had for the Mason Move, but not as the overall contact. SPOC for IT would make sense for all IT requests that come through with no FBSA need for support. Any request that comes in that requires FBSA action should then place the FBSA Team lead as the overall SPOC and request IT support through the IT dedicated SPOC. I can support this if the "green box" position is identified as an IT/phone focused SPOC and not an added and unnecessary layer.
- Meeting was originally scheduled for Tuesday, November 3rd however, was postponed to early January to allow Sponsors time to review the teams response to the Sponsors inquiry from 10/16/15. The team's response was sent to the Sponsors on 11/2/15.

✓ Building Closures Remove?
- Meeting held 12/11. Reviewed closure determination and communication options.

✓ DHHS New Lab Review This is complete right?
- FBSA preparing a complete review of Senate Bill 627 for review.

✓ Op Ex Meetings – Discussion on how Real Estate – FBSA Meetings are going

✓ FBSA Frozen Positions (attachment) Can this be removed?

- ✓ ENERGY STAR – Appreciation Lunches Can this be removed?
  - Six ENERGY STAR rated office buildings:
    - Lewis Cass Building
      - Wednesday, August 19
    - Constitution Hall
      - Thursday, December 10
    - Lottery Building
      - Tuesday, December 15
    - Flint & Saginaw State Office Buildings
      - Wednesday, December 16
    - Traverse City
      - Monday, December 21

- ✓ Town Hall Can this be removed?
  - Presented at the December 11th Town Hall in Constitution Hall.
  - Attended by third shift staff – IT Support Personnel.

Items to Consider Adding:

1). Snow Removal Chain of Events
2). Detroit Public Schools email – Fisher Building
3). DHHS Parking Meeting (and our reach out to Helen Dennis regarding Lake Trust parking lot
4). Anything regarding the Capital Outlay Update from Greg? And or MSP Gun Range?
Brom's email from 1/8/16: Asking that we make sure to dust off our CAR plans to make sure we include all the groups that are still potential moves/those 'stranded'.
5). Anything on the renaming of MSP Headquarters (past and present)?
6). MDOT/Stairs Initiative Caleb sent?
7). Although Brom said we did not owe him a response on the email he received from Treasury regarding signage, did you want to touch base with him on where we hope to eventually be?
8). Anything on Grand Rapids security?
9). Detroit summer jobs email
10). IPM update – All due 1/15/16. Chance to toot your horn here – with over 250 employees – reaching 100%...VERY GOOD!!!!
11). Schedule another SEOC tour for David and Brom?
12). Anything needed regarding QDV?

1X1 BROM/MIKE

January 26, 2016

Discussion Items:

Action Items/Follow Up From January 13, 2016

1) Confirm with QOL Agencies that they are ready to move ahead with Con Hall move/funding. (Jim/Bob) Update from Jim Clark 11/17: MDARD, DEQ, DNR do not think they should have to pay for anything – funding is yet to be determined. Design is complete and RED staff are sourcing product now (will be doing some refurbishing). 12/10: Jim Clark provided talking points and budget for Brom's meeting. Complete Numbers updated. Questions remain on funding. Waiting from QOL on what if anything they will pay. Brom mentioned a potential to stage the timing of the moves into segments. (See attachments)
    a. This project affects 4 agencies outside of Agency Services and OPM:
        i. DNR
        ii. DTMB-Enterprise Architecture
        iii. DTMB-Financial Services
        iv. DTMB-HR
    b. Con Hall was re-stacked less than 5 years ago, to use product that does not match the building and office standards will negate the time, labor, planning and finances put into creating consistency within that building.
    c. In effort to reduce cost, Agency Services has agreed to use less desk phones.
    d. Agency Services has requested special items, like wardrobes, which would be considered non-essential to perform work tasks that add greatly to the cost.
    e. Diagram attached showing the amount of product that is new, refurbished and existing.
        i. Of what is purchases as new, a small percentage is essential to perform work tasks. About 90% of new are for non-essential items, such as wardrobes and mini shelves.
2) Look for an opportunity for a tour of SEOC once it is completed and before MSP takes ownership. Dave Sproul is out of the office this week, however Director Behen could walk through at any time if he wants to see the SEOC prior to move in. Dave Sproul will be available to walk Director Behen through anytime the first week of February (avoiding Monday, February 1st due to the move).
3) DTMB/IT Section: Mike had indicated that we could connect with James McFarlane on this. I would ask that Troy/Jim C review options and connect with him. Troy Spitzley connecting with James McFarlane.
4) Detroit Public Schools: Need to confirm with Jamie that she did set up a meeting with DPS regarding the Fisher Building space Meeting scheduled for 1/22. See update below.
5) Naming DHHS/MSP: Brom said we have verbal approval from Front Office on the name change and said yes, he is looking for someone on our team to put together the official process and request. Who should that be? See update below.
6) Internal Building Signage: Brom asked about internal signage to help people find conference rooms in buildings. He mentioned Con Hall as a tough one to find rooms. I told him that we would/are providing that info on our new web pages but would also review building by building whether directional signage? Or adding the conference

rooms to a map like we have on the walls already for evacuation routes would make sense. We should connect with BOD for some feedback. FBSA keeping this on radar.

Standing Agenda Item(s):

- ✓ Upcoming RFP's:
  - FM Systems
    - On November 30th, received word from Procurement that the State of Michigan could buy off the North Carolina contract.
    - FBSA is finalizing contract language with our DTMB Agency Services Project Manager and will be submitting all information requested by DTMB Procurement. DTMB Procurement will vet the material and work with the AG's Office for Terms and Conditions. The goal is still to make it to the State Administrative Board in March 2016. All information will be submitted to Procurement this week.
    - Implementation plan to be complete by mid-February, 2016.
    - Costs document will be completed after all FM Systems costs are available (sometime between February 19, – March 8, 2016).
    - Goal to include on the April 5, 2016 Ad Board.
    - Goal: FM Systems to begin the implementation April 2016 within FBSA.
    - Met with MDOT on January 21, 2016 to discuss timing of implementation and whether MDOT should utilize x3 or not in the interim. Laurie Westfall also in attendance and supportive of change to FM and the benefits of having a single system for SOM if possible.

  - Furniture
    - RFP was posted on Buy4Michigan on Thursday, October 1st.
    - Tentative Bid Timeline (Contingent upon Plante Moran's availability, dates may change.)
      - Bid Posting 10-1-15
      - Pre-Proposal Bidder Phone Conference 10-9-15
      - Bidder Questions Due 10-30-15
      - Answers to Questions Published 12-18-15
      - Bids Due 1-8-16
      - Submit to Ad Board for Approval 6-7-16
      - Transition Period 6-10-16 to 8-31-16
      - New Contract Start Date 9-1-16
    - Some sections require feedback/response from Plante Moran and have been sent to them by Procurement for updating.
    - Dates/topics/touchpoints being identified for Plante Moran to provide new proposal on additional services.
    - Currently working through to re-engage Plante Moran.
    - Contracts extensions have been requested through iTRAC for Haworth, DBI and Kentwood.

  - Carpet:
    - The RFP will be assembled by Enterprise Procurement with possible help from future JEC members across State Government.
    - At this point/first step is the group is educating themselves on the actual specifications that they want to see in the end product.

- Two meetings were held on Thursday, January 21, 2016 and representatives from seven State departments, including DTMB, attended.
  - FBSA representatives are Curt Myers and Bob Ruff.
- There are no future meetings scheduled at this point.

Capitol Complex:

- ✓ CEPI Move
  - Next steps: Curt and FBSA team working to clarify budget (internally).
    - FBSA Staff have requested an estimate from the Contractor for the restrooms.
    - Library looking for $80,000 (Curt came and saw me today and said the Library came down to $80K from the $120K and is checking on the procurement timing. Immediately to begin consolidating/moving materials. This cost is being reviewed as it includes purchasing new file cabinets, etc. Need to validate as necessary for current need or opportunity expense.
    - FBSA needs CEPI signoff so schedule can be created. Curt is following up with CEPI as they have had the draft plan for a couple of weeks.
    - Met with Nancy Duncan on 1/6/16 as a meet and greet. Committed to a schedule for review by her and John Roberts by 1/20/16.
    - Schedule submitted for review by Nancy Duncan and John Roberts on 1/20/2016.
  - DTMB/IT (in support of Department of Corrections -Kirt Berwald's group) currently in Hannah Building:
    - Had agreed to move out of Hannah to Victor Building to make room for Education staff.
    - Education staff wants to move to Hannah from space on South Washington (and some Education staff already in Hannah were going to move within the building) to backfill the DTMB/IT space.
    - Kirt's group no longer wants to move and the space in Victor is no longer available. Other options can be presented to Kirt, but they are no longer agreeing to move. Several attempts have been made to further discuss this with Kirt, however he has been unresponsive. Next step is to elevate to James McFarlane.
    - Troy Spitzley (RED) is in need of feedback and direction from us as to how to pursue next steps.
    - Troy in the process of putting all documentation together and will reach out to James McFarlane.

- ✓ DTMB H/R, IT, OPM, EA Moves
  - HR: Move to Con Hall - Design is complete. Funding is available for either H/R or OPM but not both. Due to timelines already in place for CAR, estimated move date is July 2016.
  - HR: Furniture has been confirmed. Move date confirmed for Wednesday, February 17, 2016.
  - IT: Waiting on funding decision.
  - OPM: Met with Kelly Manning to review plan. She is in agreement. Funding decision is needed. Is this move still a go given the change/Kelly Acting Director of OPM?
  - EA: Moving to Mason February 4, 2016.

- ✓ CAR Project
  - MSP CIJC moved (December 11th) to the first floor B wing, which opens up the second floor of headquarters for the start of the Vital Records Vault.
  - Twelve additional MSP FOIA staff, moved to the second floor GOB temporarily until permanent space on the third floor is available.
  - Overall Mean Score: 4.52.
    - The following was received from Jennifer Poirier (DTMB Infrastructure Specialist for MSP). Note this was initially communicated as a firewall issue.
      - There were no firewall issues.
      - When the phone system was purchased, DTMB had informed MSP that there was functionality that would have to be figured out after implementation. Therefore the phones were programed to ring at all desks while DTMB monitored the call traffic to determine what firewall rules needed to be implemented. This was discussed with MSP management and approved.
      - DTMB telecom submitted the Firewall rules once they determined what ports needed to be opened to allow the phone traffic.
      - DTMB telecom escalated the approval of the firewall rules with DTMB MCS approval. MCS approval is required before telecom can implement firewall rules.
      - Once Telecom had MCS approval, the firewall rules were implemented.
      - Once the firewall rules were implemented, the system was reconfigured with the call tree configuration requested by MSP.
  - Schedule

MSP CIJC from HQ to 1st Floor B wing GOB	December 11,2015
DTMB FBSA from GOB 3rd to GOB 2nd	January 11-13, 2016
MSP SEOC moves	January 29, 2016
MSP 2nd Floor A & B wings GOB	March 11, 2016
MSP 3rd Floor A wing GOB	April 8, 2016
MSP 3rd Floor B wing GOB	April 15, 2016
DTMB FBSA from GOB 2nd to LTA	May, 2016
DHHS 2nd & 1st Floors 333 Grand	May 20, 2016
DHHS 5th Floor 333 Grand	June 3, 2016
DHHS 3rd Floor 333 Grand	June 10, 2016

  - Resources (IT, Mail and Delivery, etc.) continue to be a concern. With an already tight schedule, working additional moves into the mix including Jim Hogan's group, HR, OPM, CEPI, etc. may become an issue.
  - Move Management/300 Decisions has been working the agencies on newsletters, (MSP prefers their Public Affairs office handle all move communications). Meetings are now underway with DHHS as well and information is being added to the website for 333 S. Grand.
  - DHHS continues to request changes after the communicated deadlines putting the CAR schedule/budget at risk. I have reached out to Tim/Kurt? (FM Guy) for their support with their Team in keeping us on schedule and budget. I asked Tim if we needed to meet in person and he has not yet confirmed. Things are very tight now after the approval of the office space and requests continue to be raised.
  - SEOC Move: Although not considered part of CAR, we will have a representation of yellow shirts/DTMB move crew Monday, February 1, 2016. Balloons and refreshments will also be available. There will not be a survey for this move as it is not officially CAR related and handled differently.

- ✓ CAR Phase 2 Bob Burns providing drawings of Farnum. Want to include? What other, if any, attachments do you want to include?
    - The only option to move DOC to the Secondary Complex would be the Operations Center. This would require DTMB (IT staff) to move to swing space.
        - DOC would need to vacate Grandview to allow for DHHS to move in.
        - There are approximately 315 DTMB (IT staff) in Ops Center. Need to determine if an RFP for swing space (in leased space) is needed or if staff could fit into Farnum. (Farnum to be vacant January, 2017).
            - Would need to determine if legally DTMB can keep the Farnum Building. This could avoid swing space costs.
            - Bob Burns is working to schedule a walkthrough of the Farnum Building for FBSA staff.
        - Current cost for DHHS in Capitol Commons Center (leased space): $27 sq. ft. Moving DHHS out of CCC would allow for the potential to cancel that lease and/or move the remaining staff (OSE and CS) into a smaller/cheaper lease.
        - Approximate BOA cost for Farnum: $16 max per sq. ft.
    - Continuing the review of the budget and ability to assist any/all that we can with move costs.

- ✓ LTA/SOM Warehouse Location – FBSA Move
    - FBSA continues to finalize workspace plans/layout.
    - FBSA move to the 2nd Floor – GOB went well.
    - Current target date for move to LTA early May, 2016.
    - Since we must move to 2nd floor GOB first, some of the urgency is removed and we can accommodate more cost efficient schedule including self-performance to lower cost.
    - Met with Joyce/Kristi to review potential for swapping building locations with our FBSA Carpenter Team. Reviewing storage agreements with Agencies as well. This would be a very positive action for both logistics and safety reasons.
        - FBSA staff met with Joyce and Kristi on Friday, January 22, 2016 and walked through Building 600. The walkthrough went well. Tim Hall from our staff is working on a cost estimate based off the discussions and the work needs of the program area.

Secondary Complex and Outstates:

- ✓ Cadillac Place
    - Continuing conversation/review with Wayne County. We have provided all information necessary and they are completing their planning/programming.
    - Wayne County Deputy Chief Executive – Richard Kaufman toured location and likes and supports Cadillac Place move very much.
    - Keeping in contact with Eric Larson on City of Detroit activity which may impact Wayne County decision making.
    - Tour held on 1/6/16 with Court Administrators for the 3rd Circuit Court and the Juvenile Court Administrators (approximately 6 attended the tour).
    - Wayne County interested in proceeding with their entire Court System which could include up to 650,000 sf over the next couple of years.
    - Wayne County to provide detail on programming needs and timing.
    - Need to determine project cost and funding options for SOM. Wayne County desire to have us complete turn-key for them. Our ability to fund.

- This could generate +- $9 million dollars annual rent revenue to the State.

✓ SEOC
- Tour (coordinated by MSP) was held on 1/8/16.
- Those in attendance: David Behen, Chris Kelenske, Dennis Muchmore, Jarrod Agen.
- As communicated in the 1/11/16 report, staff moves have been delayed to 1/29/16.
  - The permanent power installation took additional time and that in turn impacted the completion of the HVAC, building back-up systems and architectural system within the hardened building addition.
  - The Project Manager has met with the stake holders: MSP, MPSCS, DTMB IT and the Daniels/Christman Team and have reviewed/discussed in detail the new revised schedule. All parties are in agreement with the changes.
- Project remains on budget.
- Plumbing inspection did not occur on Friday due to the inspector not working, therefore the Certificate of Occupancy was not issued on Friday. It is expected to be issued no later than today.
- Determine when Director Behen would like walkthrough - on or around February 2, 2016 is suggested (MSP moving in on Monday, February 1st). Dave Sproul is on vacation this week, however we could accommodate a walkthrough this week if preferred.

✓ MSP Gun Range
- Met with Shawn Sible and MSP on 1/7/2016 to discuss MSP Gun Range needs.
- Primary concerns shared by MSP and BOD are related to the air handling system which is responsible for removing the hazardous lead dust from the area that users shoot from.
- MSP is required to monitor and test each user for blood lead levels and they have experienced situations of levels for individuals above the required limits.
- BOD recently completed an interim fix that has the system operating satisfactorily now, but it is only a temporary fix.
- Cost to complete is estimated in the $3M range with approximately 1/3 of that dedicated to demolition and remediation of the lead contaminated/regulated structure of the range.
- In the meeting with MSP on 1/7/2016, Shawn indicated a potential option for obtaining funds through a DEQ program that is targeted for remediation of lead contaminated sites. This could potentially offset some of the project costs.
- Lisa Shoemaker has indicated in an email from 1/8/2016 that the tentative plan from the Budget Office is that the project would be funded out of the FY17 Enterprise wide Special Maintenance pot which would be available on 10/1/2016.
  - Legislative approvals will be needed through the appropriations process and not finalized until June/July.
  - Because of the health/safety needs of this project, regardless of funding levels, it will likely be a priority for the funding.
  - The Budget Office has had discussions about the DEQ funds and very much encourages their use to potentially offset the costs of the project.

Real Estate and Leasing:

✓ Kalamazoo – DHHS Options
- On 12/3/15 Kurt Warner, DHHS communicated to FBSA that DHHS administration no longer is in support of locating MDHHS offices to a State-owned building in Kalamazoo and therefore, were requesting that FBSA re-bid the lease for the Kalamazoo property.

- On 12/10/15 Bob, Mike, Matt and DHHS participated in conference call with Senator O'Brien and Calhoun County about the future of the sight.
- DTMB provided a status update. If not State-owned, would look at bidding out for lease again.
- Will have to be bid out regardless due to problems with the proposal from the lessor (Plaza Corp) who was bidding the co-location sight on Alcott St. This is the sight that would be next to the county building on property owned by the city.
- After bidding, the sight was determined to be too small for the State's needs.
- Discuss ways to combine the county building (being built by the county) with the State's building or building on other city property.
- The city and county are going to explore different ways of financing a State-owned or leased building with county bonds.
- The new RFP for DHHS posted on December 22 and all proposals are due January 25, 2016. Although the Q&A period had eclipsed, RED (Will Doxie and Jen Lascari) hosted a conference call with Kalamazoo County this past Friday to answer any questions Kalamazoo County might have.
    - We will not have any further communication with the County during this response period.
- There is some concern regarding the parking requirement, and if the site is large enough to meet the requirements of DHHS and the County.
- A portion of the site is located in a flood zone.
- The County must determine if it is adequate with the setback requirements. Other issues include: the County must mitigate the environmental issues that exist of the site as the property has been deemed a facility.
- Kalamazoo County's timeline to complete this project is approximately 2 years.

✓ Detroit Public Schools email – Fisher Building

- Jim Clark and Jamie Phillippo had discussions with DPS on Friday, January 22, 2016.
    - Density: We do not have the square footage of the floors to be able to calculate sq. footage per person. Here at the State we use a general number of 250 sq. ft. per person but are shifting to 200 sq. ft. per person.
    - Workstation sizes: In looking at the written Office Space Standards, the square footage amounts for supervisors, technical/clerical staff, consultant/interns and hoteling are all comparable to ours. Directors are shown in much larger stations. Also, our square footage range for floor to ceiling offices are 120 to 225 square feet. Detroit Public Schools indicates the Chief of Department Superintendent would be in 240 square feet.
    - With an overall glance at the floor plans provided, if the majority of stations are 8x8s, they are pretty well condensed though there are a few small pockets of open space that could be reconfigured to possibly gain additional occupants.
    - Some floor plans show workstations off the windows with others are on the windows. If all stations were on the windows, occupancy may be increased.
    - Here are some general ideas on ways to conserve space:
        - Eliminate the suites to create a more open floor plan
        - Reduce or eliminate private offices
        - Share conference rooms
        - Reduce or eliminate file cabinets
        - The offices in the Executive area are VERY large
- Detroit Public Schools is interested to know how much their current space at the Fischer Building is worth. Bob Burns let DPS know that we currently do not have a licensed appraiser on staff and we use an outside 3rd party for neutrality. We recommend they

find a licensed appraiser to assess their current space. They also indicated that they recently decreased their staff by 90 and moved 70 to 80 staff out of the central office so they are hoping to significantly condense space and wondering if we could help them. We recommend they use one of our ISID contracts, which DPS would have access to through MiDeal, to hire a professional to help them evaluate the amount of space needed as well as formulate a plan of execution to condense space which may involve construction or furniture modification. Bob is going to follow up via email with information on MiDeal.

- ✓ Grand Rapids – One Division Is an update needed on this?
  - GSA/Federal Courts pushing back wanting rent lowered below our costs.
  - Bob Burns putting together a summary for review/discussion.
  - Meeting/phone with Bob, Brom and I scheduled on Friday, January 15th to discuss in detail.

Agency Collaboration/Projects:

- ✓ Generator Installation at VTS
  - Discussed with Captain Kelenske during the SEOC tour on 1/8/16 that we are adding a natural gas option to the generator review.
  - BOD waiting on information relating to natural gas. Update to be available by end of week 1/29/16.

- ✓ OIP Organizational Updates
  - FBSA staff met with Chris Christensen on 1/7/16 to discuss both Life Safety and AED Programs. Jeanette Doll was not able to attend due to the activation of the SEOC for the Flint water situation.
  - Chris planned to update Jeanette on the discussion, and BOD will be scheduling another meeting in a few weeks.
  - Next organizational structure meeting is scheduled with Chris Christensen, Christian Kopacis and I on Tuesday, January 26, 2016.

- ✓ MiMove Process Update
  - Demo with FM Systems and MiMove group scheduled for Thursday, February 4, 2016.

- ✓ Op Ex Meetings – Discussion

- ✓ Space/Treasury
  - Seeking space that may or may not be vacated as part of a project for David Bates (staff) in Ops Center.
  - David is seeking to consolidate some of his teams currently within OPS and other locations.
  - Following programming, David will have to decide whether David wants to consolidate in OPS or find another location for his team.
  - David will also have to seek funding.
  - This may not result in extra space for Treasury.
  - Troy Spitzley (RED) is waiting for programming documents from David.

- ✓ Snow Removal Chain of Events – Attachment
  - Staff met with Charles Menefee on Wednesday, January 20, 2016.

- Dwight Thomas (HR), Larry Scates and Chris Rankin attended the meeting where a one day suspension was given.
- Charlie served the one day suspension on Thursday, January 21, 2016.
- The meeting was positive and Charlie accepted the suspension without debate.

✓ DHHS Parking Meeting
- Meeting was held with DHHS, OIP and DTMB on Friday, January 15th.
- Options including a potential existing CATA route are being pursued by OIP/Parking.
- Group reconvening on Tuesday, February 9th to evaluate information gathered per the options that were discussed.

✓ Renaming of MSP Headquarters (past and present)
- DHHS has provided the following suggestions:
- We have searched extensively for an act or regulation that gives or restricts authority to name buildings to the Legislature or sets any parameters for naming buildings.
- Historically, based on precedence, only those buildings that were named after a person, went through the Legislature, or Executive Office.
- Because the request to rename 333 S. Grand and the General Office Building do not involve naming the buildings after a person, we would suggest following the same method that has been used by Building Operations in the past. For example, the LTA was changed to the State of Michigan Warehouse and the MDOT Phot Lab was renamed the MSP Annex using no official process. These changes were simply done by request from the agency through BOD.
- FBSA will support the building name changes on the building web pages and will also discuss with the Caleb, the possibility and coordination of a formal announcement.
- FBSA keeps a history on each DTMB owned/managed facility. As part of this history, we would keep a repository of building names that have changed so as not to rely only on a person's memory of the change.

Current Building Name	Proposed Building Name	Name Change Effective Date
MSP Headquarters/333 S. Grand	Michigan Department of Health and Human Services – Grand Tower South	June 13, 2016
Grand Tower Building	Michigan Department of Health and Human Services – Grand Tower Central	June 13, 2016* *Occupants are DHHS currently. Name change could occur at anytime
General Office Building	Michigan State Police Headquarters	April 18, 2016

- Possible current Grand View Plaza – rename too: Michigan Department of Health and Human Services – Grand Tower North
  - Leased building currently houses MDOC as well. Would have to review name change to DHHS while they still occupy space. Have not vetted that yet.

✓ MDOT/Stairs Initiative – Email from Caleb
- Discussed with BOD regarding any potential building concerns. Romney, because the stairwells are closed for security reasons, is the only building we suggest not promoting this in.

- Since this is just promoting the use of stairs and not making any requirements to comply or follow-up on, we have the authority we need to place signs and even email to promote.
- Suggest, at a minimum, including, if not deferring to, the DTMB Fitness Team that is working on DTMB's wellness plan for the DTMB Strategic Plan.
- Kerri updated Caleb on 1/20/16 on our efforts to date which include discussions with Building Operations management and Health and Safety.
- Only concern to date, is access to some stairwells is restricted. (Romney for example).
- BOD managers to discuss with Facilities Supervisors and Building Trades Supervisors at the next Joint Focus meeting on Tuesday, February 2, 2016.
- Dan Morgan has been asked to join the DTMB Wellness Committee (DTMB Strategic Plan). Dan and the Committee could be a good starting point for this suggestion.

✓ Detroit Summer Jobs Email
- No opportunity within BOD, but our staff in Cadillac Place is reaching out to the agencies regarding need/interest. Information will be available this week.
  - Per Brom's request, on January 19, 2016, provided the names/agencies that we distributed the information to. Any further action required on our part?

✓ IPM - FBSA
- FBSA 100% complete.

✓ QDV
- Front Office asking if we have the administrative authority/ability to determine whether bidders are shell companies and to reject them.
  - In the past, the AG said we do not.
- Bob Hall has provided Matt with the requested information and is waiting on an update.

Personal:

✓ Contract/Salary Discussion

Other Items:

1X1 BROM/MIKE

January 26, 2016

Discussion Items:

Action Items/Follow Up From January 13, 2016

1) Confirm with QOL Agencies that they are ready to move ahead with Con Hall move/funding. (Jim/Bob) Update from Jim Clark 11/17: MDARD, DEQ, DNR do not think they should have to pay for anything – funding is yet to be determined. Design is complete and RED staff are sourcing product now (will be doing some refurbishing). 12/10: Jim Clark provided talking points and budget for Brom's meeting. Complete Numbers updated. Questions remain on funding. Waiting from QOL on what if anything they will pay. Brom mentioned a potential to stage the timing of the moves into segments. (See attachments)
    a. This project affects 4 agencies outside of Agency Services and OPM:
        i. DNR
        ii. DTMB-Enterprise Architecture
        iii. DTMB-Financial Services
        iv. DTMB-HR
    b. Con Hall was re-stacked less than 5 years ago, to use product that does not match the building and office standards will negate the time, labor, planning and finances put into creating consistency within that building.
    c. In effort to reduce cost, Agency Services has agreed to use less desk phones.
    d. Agency Services has requested special items, like wardrobes, which would be considered non-essential to perform work tasks that add greatly to the cost.
    e. Diagram attached showing the amount of product that is new, refurbished and existing.
        i. Of what is purchases as new, a small percentage is essential to perform work tasks. About 90% of new are for non-essential items, such as wardrobes and mini shelves.
    f. James Hogan requested an updated spreadsheet for the final costs for the move (looking at used furniture, Cisco phones, etc.) that may be helpful for them in identifying available funds.
2) Look for an opportunity for a tour of SEOC once it is completed and before MSP takes ownership. Dave Sproul is out of the office this week, however Director Behen could walk through at any time if he wants to see the SEOC prior to move in. Dave Sproul will be available to walk Director Behen through anytime the first week of February (avoiding Monday, February 1st due to the move).
3) DTMB/IT Section: Mike had indicated that we could connect with James McFarlane on this. I would ask that Troy/Jim C review options and connect with him. Troy Spitzley compiling all information and will connect with James McFarlane. Troy would like determination on funding to move DOC out of Hannah prior to talking to James. See update below.
4) Detroit Public Schools: RED staff and DPS had discussion on Friday, January 22nd regarding the Fisher Building space. See update below.
5) Naming DHHS/MSP: Brom said we have verbal approval from Front Office on the name change and said yes, he is looking for someone on our team to put together the official process and request. Who should that be? See update below.

6) Internal Building Signage: Brom asked about internal signage to help people find conference rooms in buildings. He mentioned Con Hall as a tough one to find rooms. I told him that we would/are providing that info on our new web pages but would also review building by building whether directional signage? Or adding the conference rooms to a map like we have on the walls already for evacuation routes would make sense. We should connect with BOD for some feedback. FBSA keeping this on radar.

Standing Agenda Item(s):

- ✓ Upcoming RFP's:
  - FM Systems
    - On November 30th, received word from Procurement that the State of Michigan could buy off the North Carolina contract.
    - FBSA is finalizing contract language with our DTMB Agency Services Project Manager and will be submitting all information requested by DTMB Procurement. DTMB Procurement will vet the material and work with the AG's Office for Terms and Conditions. The goal is still to make it to the State Administrative Board in March 2016. All information will be submitted to Procurement this week.
    - Implementation plan to be complete by mid-February, 2016.
    - Costs document will be completed after all FM Systems costs are available (sometime between February 19, – March 8, 2016).
    - Goal to include on the April 5, 2016 Ad Board.
    - Goal: FM Systems to begin the implementation April 2016 within FBSA.
    - Met with MDOT on January 21, 2016 to discuss timing of implementation and whether MDOT should utilize x3 or not in the interim. Laurie Westfall also in attendance and supportive of change to FM and the benefits of having a single system for SOM if possible.

  - Furniture
    - RFP was posted on Buy4Michigan on Thursday, October 1st.
    - Tentative Bid Timeline (Contingent upon Plante Moran's availability, dates may change.)
      - Bid Posting 10-1-15
      - Pre-Proposal Bidder Phone Conference 10-9-15
      - Bidder Questions Due 10-30-15
      - Answers to Questions Published 12-18-15
      - Bids Due 1-8-16
      - Submit to Ad Board for Approval 6-7-16
      - Transition Period 6-10-16 to 8-31-16
      - New Contract Start Date 9-1-16
    - Some sections require feedback/response from Plante Moran and have been sent to them by Procurement for updating.
    - Dates/topics/touchpoints being identified for Plante Moran to provide new proposal on additional services.
    - Currently working through to re-engage Plante Moran.
    - Contracts extensions have been requested through iTRAC for Haworth, DBI and Kentwood.

  - Carpet:

- The RFP will be assembled by Enterprise Procurement with possible help from future JEC members across State Government.
- At this point/first step is the group is educating themselves on the actual specifications that they want to see in the end product.
- Two meetings were held on Thursday, January 21, 2016 and representatives from seven State departments, including DTMB, attended.
    - FBSA representatives are Curt Myers and Bob Ruff.
- There are no future meetings scheduled at this point.

Capitol Complex:

- ✓ CEPI Move
    - Next steps: Curt and FBSA team working to clarify budget (internally).
        - FBSA Staff have requested an estimate from the Contractor for the restrooms.
        - To expedite the schedule, FBSA will procure the necessary file cabinets – archive filing through the CAR contractor – validating quantity and type with Library Team.
        - FBSA needs CEPI signoff so schedule can be created. Curt is following up with CEPI as they have had the draft plan for a couple of weeks.
        - Met with Nancy Duncan on 1/6/16 as a meet and greet. Committed to a
        - DTMB/IT (in support of schedule for review by her and John Roberts by 1/20/16.
        - Schedule submitted for review by Nancy Duncan and John Roberts on 1/20/2016.
    - Department of Corrections -Kirt Berwald's group) currently in Hannah Building:
        - Had agreed to move out of Hannah to Victor Building to make room for Education staff.
        - Education staff wants to move to Hannah from space on South Washington (and some Education staff already in Hannah were going to move within the building) to backfill the DTMB/IT space.
        - Kirt's group no longer wants to move and the space in Victor is no longer available. Other options can be presented to Kirt, but they are no longer agreeing to move. Several attempts have been made to further discuss this with Kirt, however he has been unresponsive. Next step is to elevate to James McFarlane.
            - Troy made another attempt at contacting Kirt Berwald and his call has not been returned.
            - Troy is compiling all of the information in preparation for a discussion with James McFarlane. Troy anticipates James will want to know who is paying for DOC to move out of Hannah. Determination needs to be made on who/how this move will be funded.

- ✓ DTMB H/R, IT, OPM, EA Moves
    - HR: Move to Con Hall - Design is complete. Funding is available for either H/R or OPM but not both. Due to timelines already in place for CAR, estimated move date is July 2016.
    - HR: Furniture has been confirmed. Move date confirmed for Wednesday, February 17, 2016.
    - IT: Waiting on funding decision.
    - OPM: Met with Kelly Manning to review plan. She is in agreement. Funding decision is needed. Is this move still a go given the change/Kelly Acting Director of OPM?
    - EA: Moving to Mason February 4, 2016.

- ✓ CAR Project
  - MSP CIJC moved (December 11th) to the first floor B wing, which opens up the second floor of headquarters for the start of the Vital Records Vault.
  - Twelve additional MSP FOIA staff, moved to the second floor GOB temporarily until permanent space on the third floor is available.
  - Overall Mean Score: 4.52.
    - The following was received from Jennifer Poirier (DTMB Infrastructure Specialist for MSP). Note this was initially communicated as a firewall issue.
      - There were no firewall issues.
      - When the phone system was purchased, DTMB had informed MSP that there was functionality that would have to be figured out after implementation. Therefore the phones were programed to ring at all desks while DTMB monitored the call traffic to determine what firewall rules needed to be implemented. This was discussed with MSP management and approved.
      - DTMB telecom submitted the Firewall rules once they determined what ports needed to be opened to allow the phone traffic.
      - DTMB telecom escalated the approval of the firewall rules with DTMB MCS approval. MCS approval is required before telecom can implement firewall rules.
      - Once Telecom had MCS approval, the firewall rules were implemented.
      - Once the firewall rules were implemented, the system was reconfigured with the call tree configuration requested by MSP.
  - Schedule

MSP CIJC from HQ to 1st Floor B wing GOB	December 11,2015
DTMB FBSA from GOB 3rd to GOB 2nd	January 11-13, 2016
MSP SEOC moves	January 29, 2016
MSP 2nd Floor A & B wings GOB	March 11, 2016
MSP 3rd Floor A wing GOB	April 8, 2016
MSP 3rd Floor B wing GOB	April 15, 2016
DTMB FBSA from GOB 2nd to LTA	May, 2016
DHHS 2nd & 1st Floors 333 Grand	May 20, 2016
DHHS 5th Floor 333 Grand	June 3, 2016
DHHS 3rd Floor 333 Grand	June 10, 2016

  - Resources (IT, Mail and Delivery, etc.) continue to be a concern. With an already tight schedule, working additional moves into the mix including Jim Hogan's group, HR, OPM, CEPI, etc. may become an issue.
  - Move Management/300 Decisions has been working the agencies on newsletters, (MSP prefers their Public Affairs office handle all move communications). Meetings are now underway with DHHS as well and information is being added to the website for 333 S. Grand.
  - DHHS continues to request changes after the communicated deadlines putting the CAR schedule/budget at risk. I have reached out to Tim/Kurt? (FM Guy) for their support with their Team in keeping us on schedule and budget. I asked Tim if we needed to meet in person and he has not yet confirmed. Things are very tight now after the approval of the office space and requests continue to be raised.
  - SEOC Move: Although not considered part of CAR, we will have a representation of yellow shirts/DTMB move crew Monday, February 1, 2016. Balloons and refreshments will also be available. There will not be a survey for this move as it is not officially CAR related and handled differently.

- ✓ CAR Phase 2 (See Attachment)
    - The only option to move DOC to the Secondary Complex would be the Operations Center. This would require DTMB (IT staff) to move to swing space.
        - DOC would need to vacate Grandview to allow for DHHS to move in.
        - There are approximately 315 DTMB (IT staff) in Ops Center. Need to determine if an RFP for swing space (in leased space) is needed or if staff could fit into Farnum. (Farnum to be vacant January, 2017).
            - Would need to determine if legally DTMB can keep the Farnum Building. This could avoid swing space costs.
            - Bob Burns is working to schedule a walkthrough of the Farnum Building for FBSA staff.
        - Current cost for DHHS in Capitol Commons Center (leased space): $26.01 sq. ft. Moving DHHS out of CCC would allow for the potential to cancel that lease and/or move the remaining staff (OSE and CS) into a smaller/cheaper lease.
        - Approximate BOA cost for Farnum: $16 max per sq. ft.
        - Jim Clark provided an analysis of the number of workstations, floor to ceiling offices and conference rooms from the plans provided by DBI.
            - With our last count of 315 DTMB IT staff in Ops Center, they would likely fit into the Farnum Building.
            - Estimated count of DOC in Grand View is 422 employees. This number has not been verified. There could be some challenges fitting all of these staff into the Operations Center.
    - Continuing the review of the budget and ability to assist any/all that we can with move costs.

- ✓ LTA/SOM Warehouse Location – FBSA Move
    - FBSA continues to finalize workspace plans/layout.
    - FBSA move to the 2nd Floor – GOB went well.
    - Current target date for move to LTA early May, 2016.
    - Since we must move to 2nd floor GOB first, some of the urgency is removed and we can accommodate more cost efficient schedule including self-performance to lower cost.
    - Met with Joyce/Kristi to review potential for swapping building locations with our FBSA Carpenter Team. Reviewing storage agreements with Agencies as well. This would be a very positive action for both logistics and safety reasons.
        - FBSA staff met with Joyce and Kristi on Friday, January 22, 2016 and walked through Building 600. The walkthrough went well. Tim Hall from our staff is working on a cost estimate based off the discussions and the work needs of the program area.

Secondary Complex and Outstates:

- ✓ Cadillac Place
    - Continuing conversation/review with Wayne County. We have provided all information necessary and they are completing their planning/programming.
    - Wayne County Deputy Chief Executive – Richard Kaufman toured location and likes and supports Cadillac Place move very much.
    - Keeping in contact with Eric Larson on City of Detroit activity which may impact Wayne County decision making.

- Tour held on 1/6/16 with Court Administrators for the 3rd Circuit Court and the Juvenile Court Administrators (approximately 6 attended the tour).
- Wayne County interested in proceeding with their entire Court System which could include up to 650,000 sf over the next couple of years.
- Wayne County to provide detail on programming needs and timing.
- Need to determine project cost and funding options for SOM. Wayne County desire to have us complete turn-key for them. Our ability to fund.
- This could generate +- $9 million dollars annual rent revenue to the State.
- Reached out to Phil Jeffery to review options for funding the project.
- Waiting on narrative from Wayne County providing detail on scope/timing.

✓ SEOC
- Tour (coordinated by MSP) was held on 1/8/16.
- Those in attendance: David Behen, Chris Kelenske, Dennis Muchmore, Jarrod Agen.
- As communicated in the 1/11/16 report, staff moves have been delayed to 1/29/16.
  - The permanent power installation took additional time and that in turn impacted the completion of the HVAC, building back-up systems and architectural system within the hardened building addition.
  - The Project Manager has met with the stake holders: MSP, MPSCS, DTMB IT and the Daniels/Christman Team and have reviewed/discussed in detail the new revised schedule. All parties are in agreement with the changes.
- Project remains on budget.
- Plumbing inspection did not occur on Friday due to the inspector not working, therefore the Certificate of Occupancy was not issued on Friday. The electrical inspections are being done by zone. The electrical inspector will return on Wednesday, January 27th. The earliest date for the Temporary C of O is Wednesday, January 27th.
- Determine when Director Behen would like walkthrough - on or around February 2, 2016 is suggested (MSP moving in on Monday, February 1st). Dave Sproul is on vacation this week, however we could accommodate a walkthrough this week if preferred.

✓ MSP Gun Range
- Met with Shawn Sible and MSP on 1/7/2016 to discuss MSP Gun Range needs.
- Primary concerns shared by MSP and BOD are related to the air handling system which is responsible for removing the hazardous lead dust from the area that users shoot from.
- MSP is required to monitor and test each user for blood lead levels and they have experienced situations of levels for individuals above the required limits.
- BOD recently completed an interim fix that has the system operating satisfactorily now, but it is only a temporary fix.
- Cost to complete is estimated in the $3M range with approximately 1/3 of that dedicated to demolition and remediation of the lead contaminated/regulated structure of the range.
- In the meeting with MSP on 1/7/2016, Shawn indicated a potential option for obtaining funds through a DEQ program that is targeted for remediation of lead contaminated sites. This could potentially offset some of the project costs.
- Lisa Shoemaker has indicated in an email from 1/8/2016 that the tentative plan from the Budget Office is that the project would be funded out of the FY17 Enterprise wide Special Maintenance pot which would be available on 10/1/2016.
  - Legislative approvals will be needed through the appropriations process and not finalized until June/July.

- Because of the health/safety needs of this project, regardless of funding levels, it will likely be a priority for the funding.
- The Budget Office has had discussions about the DEQ funds and very much encourages their use to potentially offset the costs of the project.

✓ General Services Building – Consolidated Print Center
- Water leak from a water line inside the wall occurred late Sunday night causing significant flooding.
- Our staff along with Peckham emergency response crews had 95% of the area clean and dry by 5a.m. Monday morning.
- Working with Joyce and team to determine what if any damage to equipment occurred.

Real Estate and Leasing:

✓ Kalamazoo – DHHS Options
- On 12/3/15 Kurt Warner, DHHS communicated to FBSA that DHHS administration no longer is in support of locating MDHHS offices to a State-owned building in Kalamazoo and therefore, were requesting that FBSA re-bid the lease for the Kalamazoo property.
- On 12/10/15 Bob, Mike, Matt and DHHS participated in conference call with Senator O'Brien and Calhoun County about the future of the sight.
- DTMB provided a status update. If not State-owned, would look at bidding out for lease again.
- Will have to be bid out regardless due to problems with the proposal from the lessor (Plaza Corp) who was bidding the co-location sight on Alcott St. This is the sight that would be next to the county building on property owned by the city.
- After bidding, the sight was determined to be too small for the State's needs.
- Discuss ways to combine the county building (being built by the county) with the State's building or building on other city property.
- The city and county are going to explore different ways of financing a State-owned or leased building with county bonds.
- The new RFP for DHHS posted on December 22 and all proposals were due at 5p.m. yesterday, January 25, 2016.
  - Proposals are in the process of being logged and provided to our analyst Jennifer Lascari for review and verification that all proposal are complete.
  - Jennifer will then provide DHHS with a list of the proposals received with the location of each. This will take approximately one week.
  - Next step: To schedule site visits for those locations DHHS would like to consider further.
- There is some concern regarding the parking requirement, and if the site is large enough to meet the requirements of DHHS and the County.
- A portion of the site is located in a flood zone.
- The County must determine if it is adequate with the setback requirements. Other issues include: the County must mitigate the environmental issues that exist of the site as the property has been deemed a facility.
- Kalamazoo County's timeline to complete this project is approximately 2 years.

✓ Detroit Public Schools email – Fisher Building
- Jim Clark and Jamie Phillippo had discussions with DPS on Friday, January 22, 2016.
  - Density: We do not have the square footage of the floors to be able to calculate sq. footage per person. Here at the State we use a general number of 250 sq. ft. per person but are shifting to 200 sq. ft. per person.

- Workstation sizes: In looking at the written Office Space Standards, the square footage amounts for supervisors, technical/clerical staff, consultant/interns and hoteling are all comparable to ours. Directors are shown in much larger stations. Also, our square footage range for floor to ceiling offices are 120 to 225 square feet. Detroit Public Schools indicates the Chief of Department Superintendent would be in 240 square feet.
- With an overall glance at the floor plans provided, if the majority of stations are 8x8s, they are pretty well condensed though there are a few small pockets of open space that could be reconfigured to possibly gain additional occupants.
- Some floor plans show workstations off the windows with others are on the windows. If all stations were on the windows, occupancy may be increased.
- Here are some general ideas on ways to conserve space:
    - Eliminate the suites to create a more open floor plan
    - Reduce or eliminate private offices
    - Share conference rooms
    - Reduce or eliminate file cabinets
    - The offices in the Executive area are VERY large

o Detroit Public Schools is interested to know how much their current space at the Fischer Building is worth. Bob Burns let DPS know that we currently do not have a licensed appraiser on staff and we use an outside 3rd party for neutrality. We recommend they find a licensed appraiser to assess their current space. They also indicated that they recently decreased their staff by 90 and moved 70 to 80 staff out of the central office so they are hoping to significantly condense space and wondering if we could help them. We recommend they use one of our ISID contracts, which DPS would have access to through MiDeal, to hire a professional to help them evaluate the amount of space needed as well as formulate a plan of execution to condense space which may involve construction or furniture modification. Bob is going to follow up via email with information on MiDeal.

✓ Grand Rapids – One Division
- o GSA/Federal Courts pushing back wanting rent lowered below our costs.
- o Bob Burns putting together a summary for review/discussion.
- o Meeting/phone with Bob, Brom and I scheduled on Friday, January 15th to discuss in detail.
- o Bob looking at value of building in the event we decide to sell.
- o Follow up discussion with GSA, Bob informed them we could not lose that amount of money.
- o Informed the GSA we are looking at re-negotiating master lease with the city to reduce our costs/loss.

Agency Collaboration/Projects:

✓ Generator Installation at VTS
- o Discussed with Captain Kelenske during the SEOC tour on 1/8/16 that we are adding a natural gas option to the generator review.
- o BOD waiting on information relating to natural gas. Update to be available by end of week 1/29/16.

✓ OIP Organizational Updates

- FBSA staff met with Chris Christensen on 1/7/16 to discuss both Life Safety and AED Programs. Jeanette Doll was not able to attend due to the activation of the SEOC for the Flint water situation.
- Chris planned to update Jeanette on the discussion, and BOD will be scheduling another meeting in a few weeks.
- Next organizational structure meeting is scheduled with Chris Christensen, Christian Kopacis and I on Tuesday, January 26, 2016.

✓ MiMove Process Update
- Demo with FM Systems and MiMove group scheduled for Thursday, February 4, 2016.

✓ Op Ex Meetings – Discussion

✓ Space/Treasury
- Seeking space that may or may not be vacated as part of a project for David Bates (staff) in Ops Center.
- David is seeking to consolidate some of his teams currently within OPS and other locations.
- Following programming, David will have to decide whether David wants to consolidate in OPS or find another location for his team.
- David will also have to seek funding.
- This may not result in extra space for Treasury.
- Troy Spitzley (RED) is waiting for programming documents from David.

✓ Snow Removal Chain of Events – Attachment
- Staff met with Charles Menefee on Wednesday, January 20, 2016.
- Dwight Thomas (HR), Larry Scates and Chris Rankin attended the meeting where a one day suspension was given.
- Charlie served the one day suspension on Thursday, January 21, 2016.
- The meeting was positive and Charlie accepted the suspension without debate.

✓ DHHS Parking Meeting
- Meeting was held with DHHS, OIP and DTMB on Friday, January 15th.
- Options including a potential existing CATA route are being pursued by OIP/Parking.
- Group reconvening on Tuesday, February 9th to evaluate information gathered per the options that were discussed.

✓ Renaming of MSP Headquarters (past and present)
- DHHS has provided the following suggestions:
- We have searched extensively for an act or regulation that gives or restricts authority to name buildings to the Legislature or sets any parameters for naming buildings.
- Historically, based on precedence, only those buildings that were named after a person, went through the Legislature, or Executive Office.
- Because the request to rename 333 S. Grand and the General Office Building do not involve naming the buildings after a person, we would suggest following the same method that has been used by Building Operations in the past. For example, the LTA was changed to the State of Michigan Warehouse and the MDOT Phot Lab was renamed the MSP Annex using no official process. These changes were simply done by request from the agency through BOD.
- FBSA will support the building name changes on the building web pages and will also discuss with the Caleb, the possibility and coordination of a formal announcement.

- FBSA keeps a history on each DTMB owned/managed facility. As part of this history, we would keep a repository of building names that have changed so as not to rely only on a person's memory of the change.

Current Building Name	Proposed Building Name	Name Change Effective Date
MSP Headquarters/333 S. Grand	Michigan Department of Health and Human Services – Grand Tower South	June 13, 2016
Grand Tower Building	Michigan Department of Health and Human Services – Grand Tower Central	June 13, 2016* *Occupants are DHHS currently. Name change could occur at anytime
General Office Building	Michigan State Police Headquarters	April 18, 2016

- Possible current Grand View Plaza – rename too: Michigan Department of Health and Human Services – Grand Tower North
  - Leased building currently houses MDOC as well. Would have to review name change to DHHS while they still occupy space. Have not vetted that yet.

✓ MDOT/Stairs Initiative – Email from Caleb
- Discussed with BOD regarding any potential building concerns. Romney, because the stairwells are closed for security reasons, is the only building we suggest not promoting this in.
- Since this is just promoting the use of stairs and not making any requirements to comply or follow-up on, we have the authority we need to place signs and even email to promote.
- Suggest, at a minimum, including, if not deferring to, the DTMB Fitness Team that is working on DTMB's wellness plan for the DTMB Strategic Plan.
- Kerri updated Caleb on 1/20/16 on our efforts to date which include discussions with Building Operations management and Health and Safety.
- Only concern to date, is access to some stairwells is restricted. (Romney for example).
- BOD managers to discuss with Facilities Supervisors and Building Trades Supervisors at the next Joint Focus meeting on Tuesday, February 2, 2016.
- Dan Morgan has been asked to join the DTMB Wellness Committee (DTMB Strategic Plan). Dan and the Committee could be a good starting point for this suggestion.

✓ Detroit Summer Jobs Email
- No opportunity within BOD, but our staff in Cadillac Place is reaching out to the agencies regarding need/interest. Information will be available this week.
  - Per Brom's request, on January 19, 2016, provided the names/agencies that we distributed the information to. Any further action required on our part?

✓ IPM - FBSA
- FBSA 100% complete.

✓ QDV
- Front Office asking if we have the administrative authority/ability to determine whether bidders are shell companies and to reject them.
  - In the past, the AG said we do not.

- Bob Hall has provided Matt with the requested information and is waiting on an update.

✓ P3:

- Bob left concerns in Matt's voicemail.
- Overall the bill is not fixable due to the numerous constitution issues, conflicts with the DMB Act and concerns by multiple agencies.
- If a bill is necessary, RED recommends a minor change to the DMB Act.

✓ Meet and Greet

- Meet and greet with Sharon Ellis scheduled for Friday, January 22, 2016 was again rescheduled. Sharon was running late. The meeting has been rescheduled for Wednesday, February 3, 2016 with Sharon, Joel Hoffman, Judy Ferrigan, Dan Morgan and I.

Personal:

✓ Contract/Salary Discussion

1X1 BROM/MIKE

February 8, 2016

Discussion Items:

Action Items/Follow Up From January 13, 2016

~~1)~~ Confirm with QOL Agencies that they are ready to move ahead with Con Hall move/funding. (Jim/Bob) Update from Jim Clark 11/17: MDARD, DEQ, DNR do not think they should have to pay for anything – funding is yet to be determined. Design is complete and RED staff are sourcing product now (will be doing some refurbishing). 12/10: Jim Clark provided talking points and budget for Brom's meeting. Complete Numbers updated. Questions remain on funding. Waiting from QOL on what if anything they will pay. ~~Brom mentioned a potential to stage the timing of the moves into segments. (See attachments)~~

~~a. This project affects 4 agencies outside of Agency Services and OPM:~~

~~i. DNR~~

~~ii. DTMB Enterprise Architecture~~

~~iii. DTMB Financial Services~~

~~iv. DTMB HR~~

~~b. Con Hall was re-stacked less than 5 years ago, to use product that does not match the building and office standards will negate the time, labor, planning and finances put into creating consistency within that building.~~

~~c. In effort to reduce cost, Agency Services has agreed to use less desk phones.~~

~~d. Agency Services has requested special items, like wardrobes, which would be considered non-essential to perform work tasks that add greatly to the cost.~~

~~e. Diagram attached showing the amount of product that is new, refurbished and existing.~~

~~i. Of what is purchases as new, a small percentage is essential to perform work tasks. About 90% of new are for non-essential items, such as wardrobes and mini-shelves.~~

~~f.~~1) ~~James Hogan requested an updated spreadsheet for the final costs for the move (looking at used furniture, Cisco phones, etc.) that may be helpful for them in identifying available funds.~~

~~g.~~a. Jim Hogan approved the revised cost estimates on Wednesday, January 27th.

~~h.~~b. Jim Clark and crew are working to develop the product order and coordinate schedules with Operations staff.

~~i.~~c. Tentatively looking at moves April/May.

~~2) Look for an opportunity for a tour of SEOC once it is completed and before MSP takes ownership. Dave Sproul is out of the office this week, however Director Behen could walk through at any time if he wants to see the SEOC prior to move in. Dave Sproul will be available to walk Director Behen through anytime the first week of February (avoiding Monday, February 1st due to the move).~~

~~3)~~2) DTMB/IT Section: Mike had indicated that we could connect with James McFarlane on this. I would ask that Troy/Jim C review options and connect with him. Troy Spitzley compiling all information and will connect with James McFarlane. Troy would like determination on funding to move DOC out of Hannah prior to talking to James. See update below. Troy is looking for some direction from Brom and you on this.

~~4)~~3) Detroit Public Schools: RED staff and DPS had discussion on Friday, January 22nd regarding the Fisher Building space. See update below.

Formatted

5)4) Naming DHHS/MSP: Brom said we have verbal approval from Front Office on the name change and said yes, he is looking for someone on our team to put together the official process and request. Who should that be? See update below. Kerri provided information summary via email to Brom and Matt on Thursday, January 28th. Waiting for direction.

6)5) Internal Building Signage: Brom asked about internal signage to help people find conference rooms in buildings. He mentioned Con Hall as a tough one to find rooms. I told him that we would/are providing that info on our new web pages but would also review building by building whether directional signage? Or adding the conference rooms to a map like we have on the walls already for evacuation routes would make sense. We should connect with BOD for some feedback. FBSA keeping this on radar.

Standing Agenda Item(s):

- ✓ Upcoming RFP's:
  - FM Systems
    - On November 30th, received word from Procurement the State of Michigan could buy off the North Carolina contract.
    - Procurement submitted the drafted contract to FM Systems on January 25, 2016 for review and comment.
    - Procurement, FBSA, and Agency Services, will have a finalized contract document by February 5, 2016.
    - Procurement will submit for AG review / Terms and Conditions on February 4, 2016.
    - Internal FBSA implementation plan to be complete by mid-February, 2016.
    - Costs document will be completed after all FM Systems costs are available (sometime between February 19, – March 8, 2016).
    - Goal to include on the April 5, 2016 Ad Board.
    - Goal: FM Systems to begin the implementation April/May 2016 within FBSA.
    - Met with MDOT on January 21, 2016 to discuss timing of implementation and whether MDOT should utilize x3 or not in the interim. Laurie Westfall also in attendance and supportive of change to FM and the benefits of having a single system for SOM if possible.
    - FM Systems demo for MiMove group was scheduled for Thursday, February 4, 2016. All but one attendee either declined the appointment or canceled. We are working to reschedule for the third time.

  - Furniture Update requested from Jim/Jamie
    - RFP was posted on Buy4Michigan on Thursday, October 1st.
    - Tentative Bid Timeline (Contingent upon Plante Moran's availability, dates may change.)

• Bid Posting	10-1-15
• Pre-Proposal Bidder Phone Conference	10-9-15
• Bidder Questions Due	10-30-15
• Answers to Questions Published	12-18-15
• Bids Due	1-8-16
• Submit to Ad Board for Approval	6-7-16
• Transition Period	6-10-16 to 8-31-16
• New Contract Start Date	9-1-16

- Some sections require feedback/response from Plante Moran and have been sent to them by Procurement for updating.
- Dates/topics/touchpoints being identified for Plante Moran to provide new proposal on additional services.
- Currently working through to re-engage Plante Moran.
- Contracts extensions have been requested through iTRAC for Haworth, DBI and Kentwood.
- Jamie attended two meetings as part of the JEC on Monday, February 1st and Tuesday, February 2nd.

- Carpet: No updates on this. Still no meeting scheduled.
  - The RFP will be assembled by Enterprise Procurement with possible help from future JEC members across State Government.
  - At this point/first step is the group is educating themselves on the actual specifications that they want to see in the end product.
  - Two meetings were held on Thursday, January 21, 2016 and representatives from seven State departments, including DTMB, attended.
    - FBSA representatives are Curt Myers and Bob Ruff.
  - There are no future meetings scheduled at this point.

Capitol Complex:

- ✓ CEPI Move
  - Next steps: Curt and FBSA team working to clarify budget (internally).
    - FBSA Staff have requested an estimate from the Contractor for the restrooms.
    - To expedite the schedule, FBSA will procure the necessary file cabinets – archive filing through the CAR contractor – validating quantity and type with Library Team.
    - FBSA needs CEPI signoff so schedule can be created. Curt is following up with CEPI as they have had the draft plan for a couple of weeks.
    - Met with Nancy Duncan on 1/6/16 as a meet and greet.
    - Schedule submitted for review by Nancy Duncan and John Roberts on 1/20/2016.
    - RED met with the MDE Library staff to discuss the overall time line that was submitted, but more importantly to focus on their individual tasks in preparation for the CEPI expansion.
      - Library staff have the schedule but have not yet signed off.
      - The hiring of temporary staff and overall logistics of the collection move were the key topic items.
      - There is still concern over security of the 3rd floor space and the traffic that will be generated from the new conference rooms.
    - RED met with a CEPI representative to address some questions they had regarding the timeline. Discussed the two options for station layouts and made note of a couple minor changes to the floor plan.
    - RED met with LARA's Braille and Talking Book Library staff to discuss using extra space in the high density area they have to transition materials, making way for the new Lake Michigan Room. This deal could possibly move up the completion of the new LMR, which is a win for all agencies.
    - RED coordinated discussions with the Facilities team and Carpenters. Staff carefully went through the plan and Gantt chart looking for possible problems, concerns or delays. They will begin the process of ordering materials.

- RED will continue with bi-weekly meetings from this point forward.

- Department of Corrections -Kirt Berwald's group) currently in Hannah Building:
  - Had agreed to move out of Hannah to Victor Building to make room for Education staff.
  - Education staff wants to move to Hannah from space on South Washington (and some Education staff already in Hannah were going to move within the building) to backfill the DTMB/IT space.
  - Kirt's group no longer wants to move and the space in Victor is no longer available. Other options can be presented to Kirt, but they are no longer agreeing to move. Several attempts have been made to further discuss this with Kirt, however he has been unresponsive. Next step is to elevate to James McFarlane.
    - Troy made another attempt at contacting Kirt Berwald and his call has not been returned.
    - Troy is compiling all of the information in preparation for a discussion with James McFarlane. Troy anticipates James will want to know who is paying for DOC to move out of Hannah. **Determination needs to be made on who/how this move will be funded.**

✓ DTMB H/R, IT, OPM, EA Moves Update requested from Jim/Jamie on OPM and IT
- ~~HR: Move to Con Hall - Design is complete. Funding is available for either H/R or OPM but not both. Due to timelines already in place for CAR, estimated move date is July 2016.~~
- HR: Furniture has been confirmed. Move date confirmed for Wednesday, February 17, 2016.
- IT: Waiting on funding decision.
- OPM: Met with Kelly Manning to review plan. She is in agreement. Funding decision is needed. Is this move still a go given the change/Kelly Acting Director of OPM?
- EA: ~~Moving~~ Moved to Mason February 4, 2016.

✓ CAR Project How much do you want left on here?
- MSP CIJC moved (December 11th) to the first floor B wing, which opens up the second floor of headquarters for the start of the Vital Records Vault.
- Twelve additional MSP FOIA staff, moved to the second floor GOB temporarily until permanent space on the third floor is available.
- Overall Mean Score: 4.52.
  - The following was received from Jennifer Poirier (DTMB Infrastructure Specialist for MSP). Note this was initially communicated as a firewall issue.
    - There were no firewall issues.
    - When the phone system was purchased, DTMB had informed MSP that there was functionality that would have to be figured out after implementation. Therefore the phones were programed to ring at all desks while DTMB monitored the call traffic to determine what firewall rules needed to be implemented. This was discussed with MSP management and approved.
    - DTMB telecom submitted the Firewall rules once they determined what ports needed to be opened to allow the phone traffic.
    - DTMB telecom escalated the approval of the firewall rules with DTMB MCS approval. MCS approval is required before telecom can implement firewall rules.

- Once Telecom had MCS approval, the firewall rules were implemented.
- Once the firewall rules were implemented, the system was reconfigured with the call tree configuration requested by MSP.

- Schedule
  - MSP CIJC from HQ to 1st Floor B wing GOB — December 11,2015
  - DTMB FBSA from GOB 3rd to GOB 2nd — January 11-13, 2016
  - MSP SEOC moves — January 29, 2016
  - MSP 2nd Floor A & B wings GOB — March 11, 2016
  - MSP 3rd Floor A wing GOB — April 8, 2016
  - MSP 3rd Floor B wing GOB — April 15, 2016
  - DTMB FBSA from GOB 2nd to LTA — May, 2016
  - DHHS 2nd & 1st Floors 333 Grand — May 20, 2016
  - DHHS 4th & 5th Floor 333 Grand — June 3, 2016
  - DHHS 3rd Floor 333 Grand — June 10, 2016
- Resources (IT, Mail and Delivery, etc.) continue to be a concern. With an already tight schedule, working additional moves into the mix including Jim Hogan's group, HR, OPM, CEPI, etc. may become an issue.
- Move Management/300 Decisions has been working the agencies on newsletters, (MSP prefers their Public Affairs office handle all move communications). Meetings are now underway with DHHS as well and information is being added to the website for 333 S. Grand.
- DHHS continues to request changes after the communicated deadlines putting the CAR schedule/budget at risk. I have reached out to Tim/Kurt? (FM Guy) for their support with their Team in keeping us on schedule and budget. I asked Tim if we needed to meet in person and he has not yet confirmed. Things are very tight now after the approval of the office space and requests continue to be raised.
- SEOC Move: Although not considered part of CAR, we will have a representation of yellow shirts/DTMB move crew Monday, February 1, 2016. Balloons and refreshments will also be available. There will not be a survey for this move as it is not officially CAR related and handled differently. SEOC move update is below under SEOC

✓ CAR Phase 2 (See Attachment) Do you want this kept on here?

- The only option to move DOC to the Secondary Complex would be the Operations Center. This would require DTMB (IT staff) to move to swing space.
  - DOC would need to vacate Grandview to allow for DHHS to move in.
  - There are approximately 315 DTMB (IT staff) in Ops Center. Need to determine if an RFP for swing space (in leased space) is needed or if staff could fit into Farnum. (Farnum to be vacant January, 2017).
    - Would need to determine if legally DTMB can keep the Farnum Building. This could avoid swing space costs.
    - Bob Burns is working to schedule a walkthrough of the Farnum Building for FBSA staff.
  - Current cost for DHHS in Capitol Commons Center (leased space): $26.01 sq. ft. Moving DHHS out of CCC would allow for the potential to cancel that lease and/or move the remaining staff (OSE and CS) into a smaller/cheaper lease.
  - Approximate BOA cost for Farnum: $16 max per sq. ft.
  - Jim Clark provided an analysis of the number of workstations, floor to ceiling offices and conference rooms from the plans provided by DBI.

- With our last count of 315 DTMB IT staff in Ops Center, they would likely fit into the Farnum Building.
- Estimated count of DOC in Grand View is 422 employees. This number has not been verified. There could be some challenges fitting all of these staff into the Operations Center.

- Continuing the review of the budget and ability to assist any/all that we can with move costs.

✓ LTA/SOM Warehouse Location – FBSA Move

- ~~FBSA continues to finalize workspace plans/layout.~~
- ~~FBSA move to the 2nd Floor – GOB went well.~~
- Demolition is nearly complete, metal stud framing in the front portion is nearly complete, mechanical/electrical rough in work is underway, new window openings are being completed and the exterior walls, entry vestibule construction has started.
- Current target date for move to LTA early May, 2016.
- ~~Since we must move to 2nd floor GOB first, some of the urgency is removed and we can accommodate more cost efficient schedule including self-performance to lower cost.~~
- Met with Joyce/Kristi to review potential for swapping building locations with our FBSA Carpenter Team. Reviewing storage agreements with Agencies as well. This would be a very positive action for both logistics and safety reasons.
  - FBSA staff met with Joyce and Kristi on Friday, January 22, 2016 and walked through Building 600. The walkthrough went well. Tim Hall from our staff is working on a cost estimate based off the discussions and the work needs of the program area.
  - Expecting a modification proposal to provide programming confirmation and design/engineering to support expected in-house renovation efforts (this will include and allow for better cost estimate projections and will be required for permitting ultimately to perform the renovations). It is planned that the Mod for the PSC efforts will be placed on agenda next week.

✓ Downtown/Space

- Overall downtown space discussion taking place Wednesday, February 10, 2016 with internal staff to discuss upcoming occupancy strategy/needs.
- Cass Space – DHHS Bob Burns on email from Brom
  - 4th floor space currently occupied by DHHS – plans to renovate and then use as swing space while they complete renovations at Capitol Commons.
  - Once all renovations are complete, DHHS plans to use the Cass space for 95 staff.
  - DHHS is making attempts to vacate the 3rd floor of Cass – intent is to move staff to other locations (Capitol Commons and 333 S. Grand).
  - Tentative move out date end of 2016 – pending renovations in Capitol Commons.
  - Could this space be an option for Jeff Bankowski's group?
- OIAS Space Needs
  - Need to consolidate approximately 60 staff from various buildings including Romney, Grand Tower, Con Hall and Grandview Plaza.
  - Leased space (Capital Tower) has been suggested and will meet the needs.

Secondary Complex and Outstates:

✓ Cadillac Place Update requested from jim/Jamie

- Continuing conversation/review with Wayne County. We have provided all information necessary and they are completing their planning/programming.
- Wayne County Deputy Chief Executive – Richard Kaufman toured location and likes and supports Cadillac Place move very much.
- Keeping in contact with Eric Larson on City of Detroit activity which may impact Wayne County decision making.
- Tour held on 1/6/16 with Court Administrators for the 3rd Circuit Court and the Juvenile Court Administrators (approximately 6 attended the tour).
- Wayne County interested in proceeding with their entire Court System which could include up to 650,000 sf over the next couple of years.
- Wayne County to provide detail on programming needs and timing.
- Need to determine project cost and funding options for SOM. Wayne County desire to have us complete turn-key for them. Our ability to fund.
- This could generate +- $9 million dollars annual rent revenue to the State.
- Reached out to Phil Jeffery to review options for funding the project.
- Waiting on narrative from Wayne County providing detail on scope/timing.
- Staff are discussing and working towards a very high level estimate based on what we know right now.

✓ SEOC

- ~~Tour (coordinated by MSP) was held on 1/8/16.~~
- ~~Those in attendance: David Behen, Chris Kelenske, Dennis Muchmore, Jarrod Agen.~~
- ~~As communicated in the 1/11/16 report, staff moves have been delayed to 1/29/16.~~
  - ~~The permanent power installation took additional time and that in turn impacted the completion of the HVAC, building back-up systems and architectural system within the hardened building addition.~~
  - ~~The Project Manager has met with the stake holders: MSP, MPSCS, DTMB IT and the Daniels/Christman Team and have reviewed/discussed in detail the new revised schedule. All parties are in agreement with the changes.~~
- Approximately 40 staff moved into the harden facility of the SEOC, reporting to work on Friday, January 29th.
- Approximately 125 staff were moved to GOB 1st and 2nd floors/A-wing over the weekend of Friday, January 29th.
- Telecom issue involving voice mail lights not working was resolved on Wednesday, February 3rd.
- Telecom issues were prevalent during both MSP moves to date –recommend a deeper dive into phones and how the systems interact.
- Project remains on budget.
- These moves were not part of the CAR project. MSP took the lead.
- ~~Plumbing inspection did not occur on Friday due to the inspector not working, therefore the Certificate of Occupancy was not issued on Friday. The electrical inspections are being done by zone. The electrical inspector will return on Wednesday, January 27th. The earliest date for the Temporary C of O is Wednesday, January 27th.~~
- ~~Determine when Director Behen would like walkthrough - on or around February 2, 2016 is suggested (MSP moving in on Monday, February 1st). Dave Sproul is on vacation this week, however we could accommodate a walkthrough this week if preferred.~~

✓ MSP Gun Range Does this need to stay?

- Met with Shawn Sible and MSP on 1/7/2016 to discuss MSP Gun Range needs.

- Primary concerns shared by MSP and BOD are related to the air handling system which is responsible for removing the hazardous lead dust from the area that users shoot from.
- MSP is required to monitor and test each user for blood lead levels and they have experienced situations of levels for individuals above the required limits.
- BOD recently completed an interim fix that has the system operating satisfactorily now, but it is only a temporary fix.
- Cost to complete is estimated in the $3M range with approximately 1/3 of that dedicated to demolition and remediation of the lead contaminated/regulated structure of the range.
- In the meeting with MSP on 1/7/2016, Shawn indicated a potential option for obtaining funds through a DEQ program that is targeted for remediation of lead contaminated sites. This could potentially offset some of the project costs.
- Lisa Shoemaker has indicated in an email from 1/8/2016 that the tentative plan from the Budget Office is that the project would be funded out of the FY17 Enterprise wide Special Maintenance pot which would be available on 10/1/2016.
    - Legislative approvals will be needed through the appropriations process and not finalized until June/July.
    - Because of the health/safety needs of this project, regardless of funding levels, it will likely be a priority for the funding.
    - The Budget Office has had discussions about the DEQ funds and very much encourages their use to potentially offset the costs of the project.

~~✓ General Services Building – Consolidated Print Center~~
- ~~Water leak from a water line inside the wall occurred late Sunday night causing significant flooding.~~
- ~~Our staff along with Peckham emergency response crews had 95% of the area clean and dry by 5a.m. Monday morning.~~
- ~~Working with Joyce and team to determine what if any damage to equipment occurred.~~

Real Estate and Leasing:

✓ Kalamazoo – DHHS Options
- On 12/3/15 Kurt Warner, DHHS communicated to FBSA that DHHS administration no longer is in support of locating MDHHS offices to a State-owned building in Kalamazoo and therefore, were requesting that FBSA re-bid the lease for the Kalamazoo property.
- On 12/10/15 Bob, Mike, Matt and DHHS participated in conference call with Senator O'Brien and Calhoun County about the future of the sight.
- DTMB provided a status update. If not State-owned, would look at bidding out for lease again.
- Will have to be bid out regardless due to problems with the proposal from the lessor (Plaza Corp) who was bidding the co-location sight on Alcott St. This is the sight that would be next to the county building on property owned by the city.
- After bidding, the sight was determined to be too small for the State's needs.
- Discuss ways to combine the county building (being built by the county) with the State's building or building on other city property.
- The city and county are going to explore different ways of financing a State-owned or leased building with county bonds.
- The new RFP for DHHS posted on December 22 and all proposals were due January 25, 2016.

- ~~Proposals are in the process of being logged and provided to our analyst Jennifer Lascari for review and verification that all proposal are complete.~~
- ~~Jennifer will then provide DHHS with a list of the proposals received with the location of each. This will take approximately one week.~~
- ~~Next step: To schedule site visits for those locations DHHS would like to consider further.~~
- Bids were received on the second round RFP. The County did not bid. They only indicated that they would soon be seeking proposals from developers. The remaining proposals were for the same locations as the first RFP, plus one new site near the proposed County building.
  - The next step is to undergo a Best and Final Offer (BAFO) process. In that process the County will be given a chance to fully submit an RFP.
  - The local State Rep. called on the project. We sent that inquiry to Matt Sweeney.

- There is some concern regarding the parking requirement, and if the site is large enough to meet the requirements of DHHS and the County.
- A portion of the site is located in a flood zone.
- The County must determine if it is adequate with the setback requirements. Other issues include: the County must mitigate the environmental issues that exist of the site as the property has been deemed a facility.
- Kalamazoo County's timeline to complete this project is approximately 2 years.

✓ Detroit Public Schools email – Fisher Building Update requested from Jim/Jamie

- Jim Clark and Jamie Phillippo had discussions with DPS on Friday, January 22, 2016.
  - Density: We do not have the square footage of the floors to be able to calculate sq. footage per person. Here at the State we use a general number of 250 sq. ft. per person but are shifting to 200 sq. ft. per person.
  - Workstation sizes: In looking at the written Office Space Standards, the square footage amounts for supervisors, technical/clerical staff, consultant/interns and hoteling are all comparable to ours. Directors are shown in much larger stations. Also, our square footage range for floor to ceiling offices are 120 to 225 square feet. Detroit Public Schools indicates the Chief of Department Superintendent would be in 240 square feet.
  - With an overall glance at the floor plans provided, if the majority of stations are 8x8s, they are pretty well condensed though there are a few small pockets of open space that could be reconfigured to possibly gain additional occupants.
  - Some floor plans show workstations off the windows with others are on the windows. If all stations were on the windows, occupancy may be increased.
  - Here are some general ideas on ways to conserve space:
    - Eliminate the suites to create a more open floor plan
    - Reduce or eliminate private offices
    - Share conference rooms
    - Reduce or eliminate file cabinets
    - The offices in the Executive area are VERY large
- Detroit Public Schools is interested to know how much their current space at the Fischer Building is worth. Bob Burns let DPS know that we currently do not have a licensed appraiser on staff and we use an outside 3rd party for neutrality. We recommend they find a licensed appraiser to assess their current space. They also indicated that they recently decreased their staff by 90 and moved 70 to 80 staff out of the central office so they are hoping to significantly condense space and wondering if we could help them. We recommend they use one of our ISID contracts, which DPS would have access to

through MiDeal, to hire a professional to help them evaluate the amount of space needed as well as formulate a plan of execution to condense space which may involve construction or furniture modification. Bob is going to follow up via email with information on MiDeal.

- ✓ Grand Rapids – One Division
  - GSA/Federal Courts pushing back wanting rent lowered below our costs.
  - Bob Burns putting together a summary for review/discussion.
  - Meeting/phone with Bob, Brom and I scheduled on Friday, January 15th to discuss in detail.
  - Bob looking at value of building in the event we decide to sell.
  - Follow up discussion with GSA, Bob informed them we could not lose that amount of money.
  - Informed the GSA we are looking at re-negotiating master lease with the city to reduce our costs/loss.
  - Discussions with the GSA are ongoing to keep the bankruptcy court in One Division as a sub-lessee. DTMB-RED has let them know that the State cannot meet their rental rate demands because the State would lose $500,000 annually on the space. We have asked for more time in order to see if our costs can be reduced and therefore passed on to the GSA. We have also disputed their claim that our rental rate is substantially over market. In the mean time we have begun an analysis on the value of the building and the needs of our remaining tenants should GSA decide to vacate.

- ✓ LARA Michigan Liquor Control Commission
  - Real Estate advised LARA how to address their MLCC MIOSHA Complaint in Southfield.
  - MLCC and Landlord Boji Group Response, along with Indoor Air Quality Test, were submitted to MIOSHA on February 2, 2016 addressing each complaint.
    - Building Flooding – Plumbing was re-routed when flooding was occurring.
    - Wet & Moldy Conditions – All previously damaged carpet and drywall were replaced immediately.
    - Building Causes Employee Sickness – Indoor Air Quality Testing indicates no issues.
    - Asbestos – Build-out began when the facility was a shell & the Landlord states there is no Asbestos present.

Agency Collaboration/Projects:

- ✓ Generator Installation at VTS
  - Discussed with Captain Kelenske during the SEOC tour on 1/8/16 that we are adding a natural gas option to the generator review.
  - BOD waiting on information relating to natural gas. Update to be available by Tuesday, February 9th. ~~end of week 1/29/16.~~

- ✓ OIP Organizational Updates
  - ~~FBSA staff met with Chris Christensen on 1/7/16 to discuss both Life Safety and AED Programs. Jeanette Doll was not able to attend due to the activation of the SEOC for the Flint water situation.~~
  - ~~Chris planned to update Jeanette on the discussion, and BOD will be scheduling another meeting in a few weeks.~~
  - ~~Next organizational structure meeting is scheduled with Chris Christensen, Christian Kopacis and I on Tuesday, January 26, 2016.~~

- I did not attend the meeting on Monday regarding AED discussion. Is there an update that should be included here?
- Organizational discussion meeting was scheduled for Tuesday, January 26th but was canceled due to the issues in Flint.
- Need for some 'controls and/or cross checks' for funding and/or filling positions in OIP.
- ~~Requested OIP add FBSA into routing in NEOGOV requisitions prior to Financial Services receiving.~~

✓ MiMove Process Update
- Demo with FM Systems and MiMove group scheduled for Thursday, February 4, 2016 was canceled and is being rescheduled for the third time.

✓ Op Ex Meetings – Discussion

✓ Space/Treasury what more do you need on this?
- Seeking space that may or may not be vacated as part of a project for David Bates (DTMB/IT staff) in Ops Center.
- David is seeking to consolidate some of his teams currently within OPS and other locations.
- Following programming, David will have to decide whether David wants to consolidate in OPS or find another location for his team.
- David will also have to seek funding.
- If David decides not to move or consolidate, this will not result in extra space for Treasury.
- Troy Spitzley (RED) is waiting for programming documents from David.

~~✓ Snow Removal Chain of Events – Attachment~~
- ~~Staff met with Charles Menefee on Wednesday, January 20, 2016.~~
- ~~Dwight Thomas (HR), Larry Scates and Chris Rankin attended the meeting where a one day suspension was given.~~
- ~~Charlie served the one day suspension on Thursday, January 21, 2016.~~
- ~~The meeting was positive and Charlie accepted the suspension without debate.~~

✓ DHHS Parking Meeting
- Meeting was held with DHHS, OIP and DTMB on Friday, January 15th.
- Options including a potential existing CATA route are being pursued by OIP/Parking.
- Group reconvening on Tuesday, February 9th to evaluate information gathered per the options that were discussed.

✓ Renaming of MSP Headquarters (past and present) Kerri provided information summary via email to Brom and Matt on Thursday, January 28th. Waiting for direction. Keep or leave info below?
- DHHS has provided the following suggestions:
- We have searched extensively for an act or regulation that gives or restricts authority to name buildings to the Legislature or sets any parameters for naming buildings.
- Historically, based on precedence, only those buildings that were named after a person, went through the Legislature, or Executive Office.
- Because the request to rename 333 S. Grand and the General Office Building do not involve naming the buildings after a person, we would suggest following the same method that has been used by Building Operations in the past. For example, the LTA was changed to the State of Michigan Warehouse and the MDOT Phot Lab was

renamed the MSP Annex using no official process. These changes were simply done by request from the agency through BOD.
- FBSA will support the building name changes on the building web pages and will also discuss with the Caleb, the possibility and coordination of a formal announcement.
- FBSA keeps a history on each DTMB owned/managed facility. As part of this history, we would keep a repository of building names that have changed so as not to rely only on a person's memory of the change.

Current Building Name	Proposed Building Name	Name Change Effective Date
MSP Headquarters / 333 S. Grand	Michigan Department of Health and Human Services – Grand Tower South	June 13, 2016
Grand Tower Building	Michigan Department of Health and Human Services – Grand Tower Central	June 13, 2016* *Occupants are DHHS currently. Name change could occur at anytime
General Office Building	Michigan State Police Headquarters	April 18, 2016

- Possible current Grand View Plaza – rename too: Michigan Department of Health and Human Services – Grand Tower North
  - Leased building currently houses MDOC as well. Would have to review name change to DHHS while they still occupy space. Have not vetted that yet.

✓ MDOT/Stairs Initiative – Email from Caleb
- Discussed with BOD regarding any potential building concerns. Romney, because the stairwells are closed for security reasons, is the only building we suggest not promoting this in.
- Since this is just promoting the use of stairs and not making any requirements to comply or follow-up on, we have the authority we need to place signs and even email to promote.
- Suggest, at a minimum, including, if not deferring to, the DTMB Fitness Team that is working on DTMB's wellness plan for the DTMB Strategic Plan.
- Kerri updated Caleb on 1/20/16 and again on 2/3/16 on our efforts to date which include discussions with Building Operations management and Health and Safety.
- Only concern to date, is access to some stairwells is restricted. (Romney for example).
- ~~BOD managers to discuss with Facilities Supervisors and Building Trades Supervisors at the next Joint Focus meeting on Tuesday, February 2, 2016.~~
- Dan Morgan has been asked to join the DTMB Wellness Committee (DTMB Strategic Plan). Dan and the Committee could be a good starting point for this suggestion.

✓ Detroit Summer Jobs Email
- No opportunity within BOD, but our staff in Cadillac Place is reaching out to the agencies regarding need/interest. Information will be available this week.
  - Per Brom's request, on January 19, 2016, provided the names/agencies that we distributed the information to. Any further action required on our part?
  - Kerri provided a list of preferred skillsets for two student assistants on Thursday, February 4th.

✓ IPM – FBSA can this be removed?

- FBSA 100% complete.

✓ QDV keep or remove?
- Front Office asking if we have the administrative authority/ability to determine whether bidders are shell companies and to reject them.
  - In the past, the AG said we do not.
- Bob Hall has provided Matt with the requested information and is waiting on an update.

✓ P3:
- Bob left concerns in Matt's voicemail.
- Overall the bill is not fixable due to the numerous constitution issues, conflicts with the DMB Act and concerns by multiple agencies.
- If a bill is necessary, RED recommends a minor change to the DMB Act.
- 2/4/16 Update: Real Estate has not heard from anyone since we discussed the proposed legislation with Matt Sweeney.

✓ Meet and Greet
- ~~Meet and greet with Sharon Ellis scheduled for Friday, January 22, 2016 was again rescheduled. Sharon was running late. The meeting has been rescheduled for Wednesday, February 3, 2016 with Sharon, Joel Hoffman, Judy Ferrigan, Dan Morgan and I.~~
- Meeting scheduled for February 3, 2016 was also canceled. This is the fourth time the meeting has been canceled/rescheduled per their request.

✓ FBSA Customer Roundtable
- Being held tomorrow, Tuesday, February 9th, 9:00 – 11:00, Hannah/Ottawa – Conference Room 3.
- Agenda Includes:
  - DTMB Customer Service Survey Results
  - FBSA Building Web Pages
  - CAR
  - Energy/Benchmarking
  - NASFA

✓ NASFA
- Conference: Portland, Oregon – June 12 – 15, 2016
- More information will be shared when available.

Human Resources:

✓ Retirement: Jim Clark – March 11, 2016. Preparing to post/fill as soon as possible.
✓ Retirement: Irene Henry (Manager DCD): Looking at some options/possible restructure.

Personal:

✓ Contract/Salary Discussion Still needed?

DRAFT

DTMB
HELP. CONNECT. SOLVE.

Facilities and Business Services Administration

Enterprise Wide Plan

December 14, 2015

Michael Turnquist
Director, FBSA

Table of Contents

Introduction/Background – Overview of:

- Estimated number of Owned locations – SF
  - 6,200 – office to outhouse
  - 29 millions square feet
- How many acres of land Owned
  - Approximately 4.5 million acres (2012) – more than 3.5 million acres is timberland
- Amount of Leases and Leased space and SF
  - Amount of Leases ($$)
    - Total Monthly Rate: $6,809,422.09 / Total Annual Rent: $81,719,846.37
  - Number of Leases - 477
  - SF total of all leases – 5,349,415
- Number of Agencies/Divisions – # of SOM Employees
  - Three branches of government:
    - Executive Branch of State Government: 17 State Departments.
    - The Legislative Branch
    - Judicial Branch
  - Approximately 50,000 employees

Current Statutory/Laws/Executive Orders/etc.

- List of all current laws, orders, provisions that support the current DTMB and other Agencies for supporting locations/space/leases, etc.
  - Public Act 431 of 1984 – Management and Budget Act
  - Executive Order 2002-20 – consolidation of most real estate lease and surplus property functions
- Current Budget/Appropriations process for support same – Both day to day Operating Expenses and Capital Outlay

Current Organizational Structure

- DTMB Overview – What we currently manage
  - FBSA currently is responsible for providing efficient and functional workspaces for most State of Michigan employees by:
    - Maintaining the facilities and improving the occupancy of 41 State-owned, DTMB-managed buildings, including 27 office buildings.
      - Managing approximately 9.8 million square feet of State-owned, DTMB-managed space in 26 locations.
    - Leasing approximately 5.2 million square feet of office space over 432 locations

- Providing for the efficient operation of the above DTMB facilities in order to charge rent below the cost of similar, privately-owned leased facilities.
- Tracking each agency's space usage and Building Occupancy Agreements (BOA) to charge necessary rents for those DTMB facilities.
- Providing some interior design, furniture design, carpentry and other services in the above DTMB buildings.
- Procuring and maintaining less than 480 leases for all Executive Branch agencies, where State-owned facilities are unavailable, thereby reducing leased costs and monitoring the ongoing charges and services for these facilities.
- Providing move management services for a small portion of the State's move needs.

- High level Summary of other Divisions and estimates/guesses on how they support day to day facilities
- Overview of Facilities Management Practices

Opportunity – Consolidation of all State of Michigan Real Estate, Facilities Management, etc.

-

Building Operations

The Building Operations program is administered by DTMB, Facilities and Business Services Administration, to maintain and operate facilities owned and managed by the Department of Technology, Management and Budget. This responsibility includes support of state government operations by providing and maintaining an environment that enhances productivity and prolongs infrastructure life at a competitive cost.

Building Operations staff maintains and service the full range of building systems, including heating, ventilation, air conditioning, plumbing, electrical and air quality control. In addition, a crew of experienced groundskeepers and laborers landscape and maintain grounds.

Staff continues to put preventive and predictive maintenance programs in place to ensure that DTMB's facilities meet Michigan's needs far into the future. They are installing modern equipment designed to reduce energy use and are working with the public and private sectors to identify green, clean methods to use in DTMB facilities.

Building Operations, in conjunction with Office of Infrastructure Protection, work jointly to protect the critical infrastructure of DTMB-operated facilities and assure the safety and security of employees and visitors. They establish and carry out plans that assure continuity of government services during emergencies and serve as a communications hub. Central control functions around the clock, monitoring building environments and systems that control HVAC, electrical, life safety, energy management and building security and control systems. Parking staff assign employee parking and provide temporary parking for visitors and contractors.

FUND SOURCE(S)

Interdepartmental Grant (IDG) funding from Building Occupancy and Parking Charges
(IDGs are funds received by one state department from another state department – usually for service(s) provided).

LEGAL BASIS

PA 431 of 1984, as amended

NOTEABLE PROJECTS

- Capital Area Reconfiguration Project
- New SEOC (State Emergency Operations Center)
- Mason Building Renovation
- Flint State Office Building Renovation
- Remotely-accessible Building Controls
- Expansion of State-wide Recycling Program

- Thermal Storage at Energy Center
- LED Lighting Retrofit
- Co-Generation Plant

Design and Construction

The Design and Construction Division administers the State of Michigan's capital outlay, special maintenance, and miscellaneous operating project program. It is responsible for completing client agency projects for the State of Michigan's built environment, in accordance with statute, codes, standards, budget, and schedule. Providing services for all state agencies, Design and Construction provides professional management and direction of new facility construction, additions, renovations, and environmental cleanup projects. Facilities served range from offices through prisons, state parks, campgrounds, trails, bridges, health facilities, fish hatcheries, and harbors. Services in support of projects and facilities include contract procurement, project management, direction of contractors and consultants, complete construction oversight, environmental project management, land surveying, cost and budget analysis, problem solving, and technical consultation. Design and Construction provides evaluation of existing facilities and assists with long term planning. For state-supported university and community colleges, Design and Construction provides project and financial review and oversight for the Office of the Budget and the State Building Authority.

Services include:

- Master planning, including review of agencies' five-year master plans
- Consultation with client agencies on facility needs
- Site evaluation and selection
- Land and construction surveys
- Physical plant assessment for special maintenance, remodeling, and fire safety
- Life cycle cost analysis
- Environmental review and assessment
- Soil Erosion and Sedimentation Control program implementation and review
- Evaluation and testing of potential environmental health hazards
- Liaison with local government, regulatory agencies, and public utilities
- Liaison with client agencies and state and outside stakeholders
- Managing total project budgets and schedules
- Procurement and management of professional services contracts
- Schematic, preliminary, and final design direction and approval
- Review designs for completion, accuracy, and conformance with client agency needs and state standards
- Procurement and management of construction contracts
- Assessment of construction in progress

- Resolution of contract disputes
- Post-construction evaluation
- Budget documentation
- Real Estate assistance
- Oversight of state-funded University and Community College projects
- Managing work order accounts for capital outlay projects on DTMB-managed facilities
- Advertising and bidding of construction work
- Creating and obtaining State Administrative Board approval of contracts, contract orders, and change orders
- Reviewing, approving, and processing payment requests
- Maintaining document archives and physical plant inventory

FUND SOURCE(S)

Interdepartmental Grant (IDG) funding from User Fees
(IDGs are funds received by one state department from another state department – usually for service(s) provided).

LEGAL BASIS

PA 431 of 1984, as amended, and boilerplate of annual appropriation acts for capital outlay
PA 230 of 1972 – Stille-DeRossett Single State Construction Code Act
PA 213 of 1963 – Contractor's Bond for Public Buildings or Works Act
PA 290 of 1965 – Boiler Act of 1965
PA 299 of 1980 – Occupational Code
PA 279 of 1984 – Payments to Private Enterprises
PA 259 of 1931 – Building Contract Fund
PA 91 of 2005 – Qualified Disabled Veterans Preference
PA 2 of 1921 – State Administrative Board Act

NOTEABLE PROJECTS

- State Emergency Operations Center (SEOC)
- Belle Isle Conservatory, Aquarium & Casino Boilers
- Various Correctional Facility Fencing/Perimeter Security/Sally Ports/Personal Emergency Locator
- Energy Performance Contracts – Over $40,000,000
- Redevelopment of Wilderness State Park

Real Estate

The Department of Technology, Management and Budget - Real Estate Division (DTMB-RED) supports operations of state government by providing: facility lease procurement and administration; interior design and space programming; furniture installation, carpentry and construction; real property sales and acquisitions; and move management services. The Division has also recently taken on the responsibility for warehousing DTMB-owned modular furniture.

Under the DMB Act and Executive Order 2002-20, DTMB is solely responsible for procuring facilities for the use of state agencies through lease. The Leasing Section strategically manages the State's portfolio of 480 leases and 5.2 million square feet of space for 18 departments and agencies. Real estate lease procurement is augmented through a contract for real estate brokerage services. DTMB-RED's Land Management Section provides surplus property sale functions for all agencies with the exception of the Departments of: Transportation; Natural Resources; Military and Veterans Affairs; and the Michigan Land Bank Fast Track Authority. This Section is responsible for property acquisition; disposition of surplus real property; easements, and 29 State-as-Landlord leases. The Space Coordination staff has a design team, made up of interior designers and architects to provide interior design, furniture layout, and interior space programming. The Section also manages minor construction projects with private companies to design and construct projects for state facilities. The staff also works closely with state system furniture and carpet contract holders to provide agency clients with design and installation of these products. This Section also has a team of carpenters who work with state employees on their modular furniture needs; custom furniture construction; cabinetry construction and other services. DTMB-RED recently began offering Move Management services for DTMB-projects and on a fee basis for other agency initiatives.

The State Administrative Board (SAB), and the Building Committee approves all sales, jurisdictional transfers, easements and leases. By law, the Department of Attorney General approves all leases as to legal form prior to action by the SAB. By law, all leases exceeding $500,000 annual base rent must be approved by the Joint Capital Outlay Subcommittee.

Services include:

- Real estate lease acquisition, negotiations, approvals and amendments
- Ensuring compliance with state laws, executive directives and other requirements
- Oversight and verification of construction for leased facilities
- Development and implementation of a strategic facilities plan
- Site evaluation
- Lease compliance and problem resolution
- Lease adjustment verification

- Authorization of payments related to leases
- Processing easements for State Administrative Board approval.
- Property conveyances and jurisdictional transfers and the drafting of proposed legislation to enable such transactions
- Construction and renovation of interior office space
- Modular furniture design and assembly
- Planning and programming of agency needs
- Evaluating outside leases that could be eliminated by moving agency personnel into state-owned facilities
- Procurement of professional architectural services for minor projects
- Schematic, preliminary, and final planning
- Construction management of minor projects
- Post-construction troubleshooting for leases and minor projects
- Project budget documentation
- Review and approved all state purchases for systems furniture, seating and carpeting
- Modular furniture, carpet and seating contract compliance review and control
- DTMB-managed, State-owned occupancy tracking
- Real Estate construction change order review for outside leases
- Approving payment requests and submitting for processing
- Coordinating the DTMB modular construction crews daily activities
- Fine carpentry and custom cabinetry
- DTMB-owned furniture warehouse and inventory management
- Department contact for requesting new space of any type

FUND SOURCE(S)

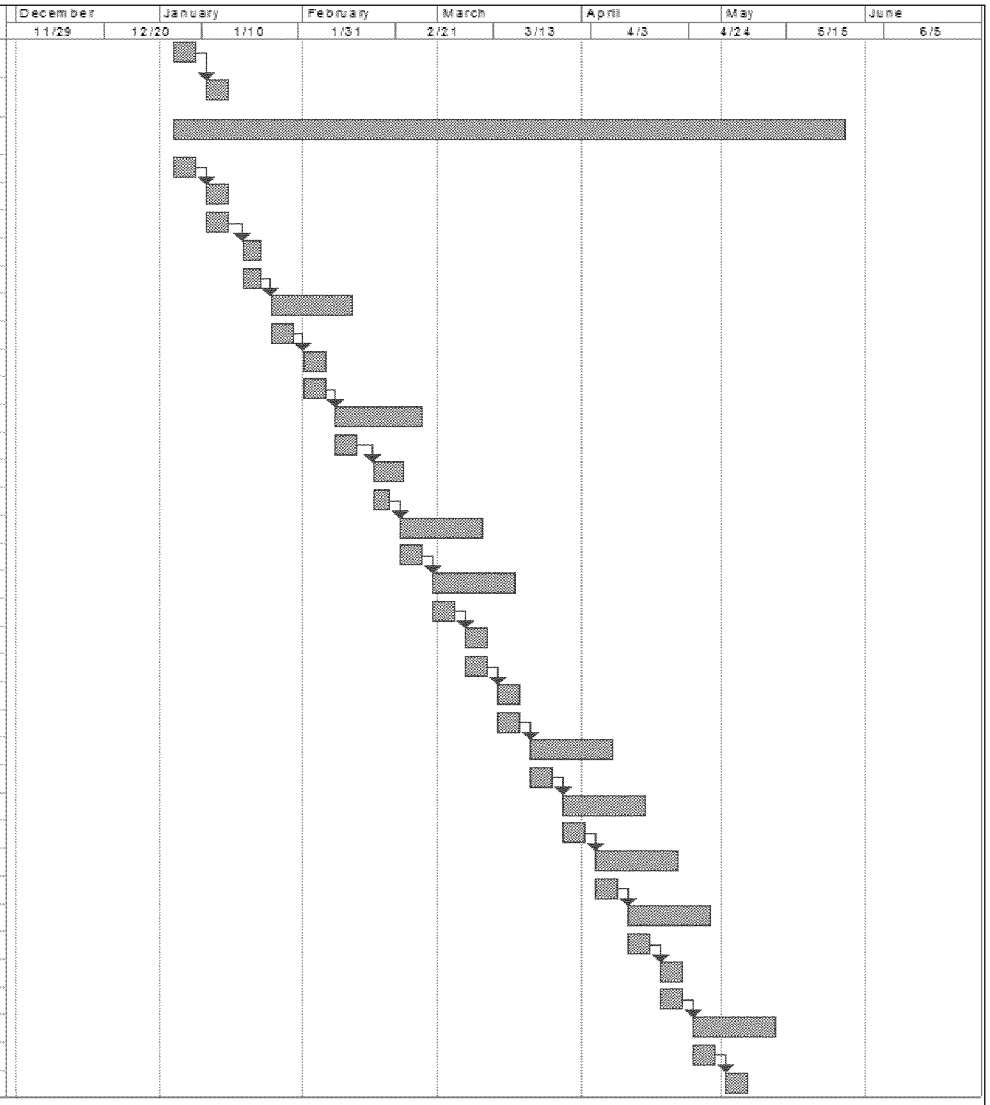
Various state restricted funds based on the Statewide Cost Allocation Plan (SWCAP)
General Fund
Building Occupancy Charges
Interdepartmental Grant (IDG) funding from user fees (Space Coordination)
(IDGs are funds received by one state department from another state department – usually for service(s) provided).

LEGAL BASIS

Public Act 431 of 1984
Executive Order 2002-20
The Real Estate Division complies with administrative rules, which govern the lease procurement process and real property sales and acquisitions.

NOTABLE PROJECTS

- Notable Lease Projects: (Approx. 170 Lease projects ongoing at any time.)
- Marshall MSP Post: Co-location w/ local units of government: leased facilitate under construction
- Ron Boji Leases:
- DHS W. Wayne (Inkster) Lease – Under Construction
- Highland Park – Proposal to replace 2 City-owned buildings. Proposal has legal and other issues.
- Hollister Building
- 3 rental agreements in place for swing space.
- Boji wants them turned into leases with 30-day cancels.
- Cannot enter into leases when we know we will leave.
- Flint, Hamtramck and Inkster reimbursements – dispute with timeliness and market justification for reimbursable expenses.
- Notable Land Sale Projects: (Approx. 34 Land projects ongoing at any time.)
- REIS-Northville holds a land contract for the former Psychiatric facility in Northville. They are requesting an extension on their land contract.
- Scott Correctional Facility Northville Property
- Northville bought property for $1, now wants to remove public purpose restriction.
- Northville must rebuy the property at Fair Market Value to resell without restriction. Awaiting their offer.
- John Roberts involved with project.
- 16 upcoming Conveyance and Jurisdictional Transfer bills needed.
- Potential Sale of the Farnum Building.
- Cadillac Place occupancy/Detroit leases study ongoing.
- Space Coordination Projects: (Approx. 45 design/construction projects and dozens of carpentry projects ongoing at any time.)
- DHHS vacating Capitol View Building to make room for the Senate
- Capitol Area Reconfiguration
- Dependent on Appropriation, could include up to 3,000 personnel and 9 facilities.
- Substantial details, cost estimates and timelines available for review.
- Requires enforcement of space standards and minimal modifications to existing furniture/offices to meet budget and required timelines.



STATE OF MICHIGAN

RICK SNYDER
GOVERNOR

DEPARTMENT OF TECHNOLOGY, MANAGEMENT & BUDGET
LANSING

DAVID B. BEHEN
DIRECTOR

ID	Task Name	Duration	Start	Finish
1	Preliminary discussions with DTMB H/R	5 days	Mon 1/4/16	Fri 1/8/16
2	Preliminary discussions with State Budget Office	5 days	Mon 1/11/16	Fri 1/15/16
3	Phase 1: Research and Inventory w/State Agencies	103 days	Mon 1/4/16	Fri 5/27/16

Project Summary
External Tasks
External Milestone
Deadline

WR Ending April 10, 2015
All staff attended two days of meeting/training.

Section Manager: Irene Henry, Project Management Section 'A'
Working with the State Land Bank to develop RFP documents for tax-reverted property demolition in Hamtramck, Highland Park, Inkster, and Pontiac.

Bob Adams:
Design:
MDOC Hiawatha CF Perimeter Fence Security System Replacement – Conducted 50% phase 500 design review.
Bidding:
MDOC Hiawatha CF Fire Alarm System Upgrades – Participated in pre-bid conference.

DNR Muskallonge Lake SP New Headquarters Facility Phase 1 – Bids were received and the recommended Best Value bid is within the available budget.

MDOC Camp Baraga Demolition – Conducted pre-bid walk-through.

Scott DeKorte:
New Projects:
Thumb CF Security Upgrades – Conducted pre-bid walk-through meeting.
Project Closeout:
Lakeland CF Fire Alarm Upgrade – Conducted substantial completion meeting.

Joel Gordon:
New Projects:
DNR Marquette Fish Hatchery Raceway End Closures – The design team conducted the 90% design review meeting on 4/23. The project is scheduled to be issued for bids 5/11.

DNR Thompson Fish Hatchery Raceway End Closures – The design team conducted the 90% design review meeting on 4/23. The project is scheduled to be issued for bids on 5/11.

Gerald Gregorski:
New Projects:
DNR Lincoln Hills Bridge Engineering Design for Replacement or Rehabilitation – Held the PPP meeting at the bridge site. DNR requested an ISID assignment due to the relatively small scope of work and the specialized nature of the required PSC services. They suggested firms with extensive experience on DNR trails and that have offices in the general geographical area.

DNR Petoskey SP Trail Development – The Threatened and Endangered Species permit application was submitted to the DNR Wildlife Division by the PSC. It primarily presents plans for dealing with the pitchers thistle identified in the area. The 70% design review meeting was also held with phase-1a construction targeted for Fall-2015.

MDOC Woodland Center Correctional Facility - Perimeter Fence Security System Upgrades – After the 50% design review meeting, MDOC expanded the scope of the project and requested accelerating the bid schedule to meet target dates required to receive additional funding for the increased scope of work. The bid advertisement was posted with the bid due date moved up to 5/13.

MDOC Gus Harrison Perimeter Enhancements – The pre-bid meeting was attended by several fencing contractors. A pre-bid addendum was posted a few days later addressing the bidder's submitted questions and adding work scope requested by MDOC for replacing the exterior perimeter fence shaker sensing system which was identified during the pre-bid walk-through. Bids are still due 4/29.

Construction Starts:
DNR Below Ground Sewer and Water Study at Eight Parks – The county drain commission completed installation of a new sanitary sewer lift station at the WJ Hayes SP Dump Station. The State's contractor is now proceeding with rebuild of the dump station and tie-in to the new lift station. The existing paving of the dump station access road was found to be in very poor condition because of the very thin asphalt layer originally applied. The contractor provided pricing to replace the entire road paving. The cost was reasonable and funds are available in the project budget so a change order will be issued to have this work completed before camping season.

DTMB Grand Tower AHU Replacement – Laux Construction submitted a cost quote to provide booster pumps on the chilled water supply to increase system pressure. This includes an expansion of the mechanical room to house the pumps. The delivery of the selected pumps will coordinate with the completion time extension to mid-summer already approved for the energy recovery unit pre-heat addition. Work is proceeding well with AHU replacement on floors 13 through15 nearly complete with work on the final floors 7 through 9 starting soon. The first design meeting was held for the projects phase-2 for replacing the VAV boxes, perimeter heat system, and controls.

Jan Miller:
Accomplishments:
Capital Area Reconfiguration Project – Facilitated a tour of the MSP Headquarters Building (333 Grand) with DHHS and Hobbs + Black on 4/24.

DNR Silver Lake SP Day Use & BAS Improvements – Held pre-bid meeting at the site on 4/20. Seven general contractors attended. Bids are due 5/6.

Dave Sproul:
Accomplishments:
MDOC Ionia Energy Project – ESG received five construction proposals for the electrical scope and is currently evaluating the proposals for their award recommendation. We are continuing to review the heating/energy conservation design, specifically the construction details for the new MTU heating plant building. Soil borings are indicating that the proposed location may not be the best location due to poor soil conditions. We will continue to evaluate this building design. We are also investigating the extent and cost associated with the required asbestos abatement to support the overall project. A majority of the known asbestos is located within MTU and the Reformatory Power Plant.

Capital Area Reconfiguration Project, State Police – PARTNERS In Architecture has developed the proposed block space plans for the entire GOB and provided them to MSP for their review/comment and acceptance. We are scheduled to meet with State Police on 5/1 to obtain acceptance and approval.

Jackson College, Bert Walker Hall Renovations – Completed review and transmitted my approval of the Jackson College 90% construction bid documents. Jackson College will be proceeding with the bidding process and construction proposals will be due the end of April.

DCH, Caro Center, Utility Service Backup Generator – Conducted the pre-construction meeting and the contractor is submitting his schedule of values, project schedule, and initiating shop drawings to our design professional. The project is set to be completed within nine months.
Potential Issues/Solutions:
State Police, SEOC – Results of the air sampling and additional bulk material samples have indicated that there is no asbestos materials found in the SEOC work area. Separate reports are on file documenting these findings and copies are being transmitted to our contractor for their files and records. We will continue to investigate and monitor the continuing construction area to maintain a safe working environment.

Attended an all-day Construction Owners Association of America spring workshop concerning project collaboration, Michigan's economic outlook, and payment auditing practices.

Steve Urban:

Accomplishments:

DTMB OPS Center Parking Lot Repairs – Bids received for parking lot repairs. There were a total of 4 bidders. Apparent low bid was within the project budget of $70,000.

New Projects:

DTMB Austin Building, Traverse Bay Hosting Center Study – Held kick-off meeting with IT management and project professional EAI to clarify project scope. The first phase of this project (phase 100) will look at options and costs to provide a new dedicated generator for TBHC, new 650W UPS system, and new power distribution units. These upgrades will support NGDI (Next Generation Digital Information) technology that may be required to be on line in the next 2-5 years.

Construction Starts:

MDOC Saginaw, Roof Restorations – Held construction kick-off meeting with contractor, design professional and MDOC staff. Due to an early set-in of winter weather last fall, construction that was scheduled to start up last fall never occurred. Roof work is now under way.

Potential Issues/Solutions:

DTMB Austin Building, Treasury Executive Area Renovations – Additional office areas will require that abatement take place to remove old carpet mastic that was tested positive for asbestos. This area was previously abated several years back when the area was re-carpeted; however, new test results came back mixed so the entire area must be treated as containing asbestos mastic. The abatement process with associated tenant relocations will be handled separate from this renovation project.

Section Manager: Harold Belcher, Project Management B

DCD Spring Training; HAL (2013 push); DEQ Wastewater Webinar.

Chris Bahjet

Accomplishments:

DNR – Grant House Relocation – Met with SME, DNR and my section manager to clarify project scope and establish DNR's priorities. DNR asked to hold off on any more design work until the MOU is established between the DNR and the Detroit Edison School to insure the school's agreement to move the house into their property.

DTMB – DTMB – Sidewalks Phase 2 – Completed negotiating with the general contractor and the PSC on the terms and conditions to add the snow melt equipment. The work is planned to start and complete this summer.

Tim Hall

Accomplishments:

MDOC Women's HVCF Utility Tunnel Upgrades – Bids were received and within budget, PSC conducted evaluations and justification prepared for Ad Board to expedite this important project for WHVCF.

Potential Issues/Solutions:

MDOT Blue Water Bridge HVAC Replacement – Conducted meeting with contractor to review closeout requirements/progress. Commissioning and adjustments with BWB staff now have most everything running effectively. Implementation of electrical upgrades to north booths is complete and the tunnel HVAC upgrades are in progress toward as-planned completion.

Bruce Hassen

Accomplishments:

A bid walk-through was held at Camp Baraga, an abandoned level 1 detention facility near L'Anse. This is a demolition and restoration project. It was well attended.

Chris Kulhanek

Non-Project Related Activities:

Met with contracts group to discuss SIGMA.

Rashmi Patel

Accomplishments:

Ionia, MTU, St. Louis Correctional Facilities - PSC reviewed bulletin and provided recommendation letter.

Cooper Street, Ionia, MTU, Carson City and St. Louis Correctional Facilities, Phase II Video Management Systems - Received bids and PSC recommendation. Submitted to next ad board for approval. MDOC will revise MOP to fund all work included in contract.

Marquette Correctional Facility - Video Management Systems - Received bond, insurance and section 500 documents for contract. Pre-construction meeting is scheduled next week at the site.

Sadi Rayyan

Accomplishments:

DEQ Alcott St. Dam Removal Portage Creek – Met with agency and PSC to discuss design bid specifications and develop a cost effective path forward for dam removal.

MDOC Various Correctional Facilities – Received 3 bids for paint/repairs of water tower at Marquette Branch Prison and 7 bids for paint/repairs of water tower at Jackson Complex Facility.

Former Flint State Police Post Site – An enhanced vacuum extraction pilot test was conducted to evaluate the technology for remediating the contamination at the site. Discussed with the PSC adjusting the test procedure for better results.

Non-Project Related Activities:

Attended "Hazardous Waste Operations (HAZWOPER) 8-Hour Refresher" training.

Attended "Wastewater Treatment Technology" Webinar.

Met with DEQ and DTMB procurement to discuss contract for hazardous wastes.

Jud Sorensen

Accomplishments:

On 4/21, Dan Morgan and I provided a presentation on roof fall protection at the MDOC Physical Plant Division Conference held at Kettunen Center in Tustin Michigan. The MDOC is currently commencing projects at a number of their correctional facilities to complete roof replacements and repairs. As a part of these projects, MDOC is looking at how fall protection can be incorporated into the roof replacement work scope. Unfortunately, MDOC already has more roof repair and replacement issues than they have funds to address. In further conversation with MDOC Physical Plant staff, they are looking to DTMB and DTMB's fall protection program to see how fall protection can be incorporated in high roof maintenance and traffic areas and how other control measures may be instituted (administrative controls), where funding is not currently available to incorporate guardrail or fall arrest/restraint systems.

Potential Issues/Solutions:

DTMB Operations has requested, if possible, that the professional services contract and construction contract for the Pine Street pedestrian bridge repairs be modified to address deterioration of a number of columns in the Hall of Justice west parking structure. A meeting was held at the Hall of Justice with Steve Doty, the DTMB Operations Facility Supervisor, Don Heck with Wolverine Engineering and Surveying and Casey Collings with Great Lakes Engineering Group on 4/20 to look at the extent of deterioration. Wolverine Engineering and Surveying in conjunction with Great Lakes Engineering Group is now preparing a proposal in the form of a contract modification request to further investigate and provide engineering recommendations for column repairs.

John Spencer

Accomplishments:

MDOC - Completed CAD and square footage of new area ties at HVCF, Dennis requested additional information to be completed, Matt will assist Dennis with this next week..

SBA - Muskegon CC & Southwestern College - Delivered survey and legal descriptions.

Non-Project Related Activities:
PIMS completed for survey charges through this pay period.

John Spencer wishes you all well and sends a Big Thank You to FBSA for all the fond memories and the Tuesday send off as this is the last weekly report he will do as he heads into an enjoyable retirement.

Terry O'Brien
Accomplishments:
SESC authorization DNR Indian Lake State Park.

DNR Dodge #4 State Park - MDEQ NPDES storm water permit applied for.

Bruce Watkins
Nothing significant to report.

Section Manager: Dennis Stamm, Project Supervision
Nothing significant to report.

Section Manager: Pat Mullen, Contract Services
Nothing significant to report.

WR Ending May 1, 2015

Section Manager: Irene Henry, Project Management Section 'A'

Completed and posted the environmental engineering RFP and the contractor RFP for Land Bank Demolitions.

Bob Adams:

New Projects:

MSP Calumet Post – Received MOP and ISID approval. Issued project statement to OHM.

Design:

MDOC Hiawatha Perimeter Security – Conducted 90% phase 500 review.

MDOT Ironwood Welcome Center Roof Replacement – Conducted 90% phase 500 review meeting.

Bidding:

Escanaba River Bridge – Posted project on Buy4Michigan.

Construction:

MDOC Newberry – Conducted pre-construction meeting for boiler abatement.

DMVA Jacobetti Veterans Home - Conducted kick-off meeting for F wing roof.

Projects Complete:

MSP Negaunee Roof – Contractor completed work and demobilized.

DMVA Ishpeming Armory Paving – Met with agency and contractor regarding completion of minor site work warranty items.

Scott DeKorte:

New Projects:

Holland SP Channel Accessibility and Amenities – Conducted pre-construction meeting.

Joel Gordon:

New Projects:

DNR Wilderness SP Phase 2 Lakeshore Campground Redevelopment – The project pre-bid meeting was conducted on site on 4/27. The meeting was well attended. Bids are due 5/6.

DNR Warren Dunes SP Day Use Area Redevelopment – The project team conducted the 50% phase 400 design review meeting on 4/30.

Gerald Gregorski:

New Projects:

MDOC Gus Harrison Perimeter Enhancements – Received three bids. Additional funding is being added to cover the costs as they came in higher than originally anticipated due to scope increases requested by MDOC during design.

DMVA/Grand Rapids Home for Veterans Kitchen Exhaust Replacement – Tower-Pinkster submitted their phase 100 study report on the kitchen exhaust system. They provided a recommended scope of work with a budget estimate of $180k.

DTMB Energy Star Certification of DTMB Owned Buildings – Matrix Engineers has completed site investigations at Jackson, Saginaw, Flint, Lottery, and Constitution Hall.

Construction Starts:

DNR Below Ground Sewer and Water Study at Eight Parks – Mitchell SP storm sewer work is proceeding well. The next project meeting on 5/15 will be the substantial completion. Work on the Hayes SP sewer and water system is also proceeding on schedule. A change order was approved to repave the access road to the rebuilt sanitary dump station due to its poor condition and substandard original thickness. The next project meeting on 5/13 will be the substantial completion. The construction contract for the Pontiac Lake RA water system renovation was approved on the Ad Board with work starting in October.

DMVA Grand Rapids Home for Veterans – Networked Door Access Control and Video Surveillance System – A contract change order was approved for Parkway Electric which extends the completion date to 7/8. This is due to changes in the patient wandering system required to correct operational concerns identified by the nursing staff during pre-construction review. The video surveillance and door access control systems are proceeding according to the original schedule.

DTMB Grand Tower AHU Replacement – New AHUs on floors 13 through15 were started up. Work on the final floors 7 through 9 will be starting 5/4 with work being done on the night shift to avoid interference with tenant operations on the 7th floor. The crane lift for the old cooling tower removal from and energy recovery unit placement on the roof is still scheduled for 6/20, a Saturday, so the building can be vacated. Early budget quotes from the phase-2 design meeting estimate a cost of $2.5M for replacement of the perimeter heat, VAV boxes, and VAV controls.

Jan Miller:
Nothing significant to report.

Dave Sproul:
Accomplishments:
MDOC Ionia Energy Project – Met to review with ESG their cost estimate for the heating/energy conservation measures throughout the complex. ESG's cost evaluation has them concerned the proposed construction bids may be above the construction budget of their design/build energy performance project. We instructed ESG that they will need to incorporate all required measures as required and we will work with them to provide any value engineering items to keep costs within their budget.

Capital Area Reconfiguration (State Police) – Met with State Police leadership to review and discuss the proposed block plans for the entire GOB. PARTNERS In Architecture will assemble some minor changes and issue the revised block space plans for State Police approval. The overall block plan was found to be acceptable.

DCH Hawthorn Center Various Maintenance Project & Outdoor Sports Fields – Met to review the construction progress. The various maintenance project is on track to be completed by mid-May and we are waiting for favorable weather to complete the new basketball court and playground area fence.

State Police SEOC – Met to review in more detail the IT requirements, network, and server room and telecommunications for the SEOC. This meeting was attended by DTMB IT Staff, MSP, our design professional, and user agencies. The purpose of the meeting was to discuss and confirm the detailed IT needs for both State Police and MPSCS groups.
Potential Issues/Solutions:
MDOC, DeAlkalizer and Water Softener System Replacement – Met for our regularly scheduled construction progress meeting and the contractor is struggling to complete all the required installation. The new salt brine tank requires steam cleaning and additional filter gravel to provide a complete system. We continue to monitor the progress and the new water softeners are installed and operating.

Steve Urban:
Nothing significant to report.

Section Manager: Harold Belcher, Project Management B
HAL; DCD financial meeting.

Chris Bahjet
Accomplishments:
DNR – Pointe Mouillee – Pump Replacement & Causeway Repairs - Held the design kick-off meeting and toured the site. Aim is to accelerate the design basics in order to get cost estimates for DNR.

MSP – Livonia – Re-roofing of Facility - Held the pre-bid meeting, collected questions and answers and issued an addendum. Since the number of existing roofing layers was not known, one of the roofers

volunteered and cored and then sealed holes at several locations to find out. This will help in eliminating uncertainties regarding demolition volume.

Tim Hall

Accomplishments:

DCH Center for Forensic Psychiatry Parking Improvements – Conducted pre-construction meeting and issued notice to proceed to Belden USA to begin project; mobilization not expected for several weeks.

DCH Center for Forensic Psychiatry Warehouse Addition – Conducted pre-construction meeting and issued notice to proceed to Antler to begin project; mobilization expected next week.

MDOC Women's HVCF ADA Walks & Paving II – Contract awarded, distributed and preconstruction meeting scheduled for next week to expedite construction start for this crucial project for WHVCF.

New Projects:

DMVA Fort Custer Vehicle Storage Addition CST - Received MOP funding construction for this project which had been designed and pending for several months; notified C2AE to release final bid document preparation for posting to Buy4Michigan next week.

Bruce Hassen

Accomplishments:

The underground storage tank and gasoline dispensing system at the Dept. of Corrections Special Alternative Incarceration Facility (a.k.a. Camp Cassidy Lake) was removed. No fuel release was noticeable.

Potential Issues/Solutions:

An addendum was issued for the Nokomis Crisis Center demolition project to define the roles for contractor for obtaining the soil erosion and sedimentation control permit and to finalize the seed mix for restoration.

Chris Kulhanek

Accomplishments:

Bolles Harbor - Received approval to proceed from DNR on issuing a post-bid addendum, so a contract can still be awarded for this construction season.

Potential Issues/Solutions:

Mason Building Exterior Repairs – Window repairs are behind schedule. Delays are due to lead time on new trim extrusions.

Solution – Contractors will have all equipment and supplies removed from north side of the building two days before the Open House. Window contractor will be working after hours to catch up on schedule. Masonry and window contractors are coordinating efforts to combine use of scaffolding and swing staging wherever possible.

Rashmi Patel

Nothing significant to report.

Sadi Rayyan

Accomplishments:

MDOC Various Correctional Facilities – Reviewed and recommended the award of two construction contracts to Seven Brothers Painting, Inc. to paint/repair the water towers at Marquette and Jackson Facilities.

MSP Various Posts – Received and reviewed summary reports for addressing the contamination at the Bridgeport and Houghton Lake State Police Posts. Discussed with the PSC issues and concerns with regard to requesting closures from DEQ.

DNR Lead Reclamation at Shooting Ranges – Met with agency to discuss options to move forward and re-bid the work as no bids received for the design build RFP. Contacted potential contractors to discuss their interest in performing the work next year.

DEQ Graham Oil Bulk Plant Site – Reviewed and recommended an award of construction contract to Environmental Excavating and Contracting to remove a UST/contaminated soils and restore the site.

DEQ Village of Douglas Site – Reviewed and recommended changes to the contract with Weston Solutions to provide conceptual site model, ecological assessment, private well survey, surface water and groundwater monitoring, vapor intrusion evaluation and reporting.

New Projects:

DEQ Various Sites – Assigned to Superior Environmental under their Expanded Triage ISID contract to screen, investigate and assess the current risks at 18 LUST sites.

DEQ Various Sites – Assigned to Soils and Materials Engineers under their Expanded Triage ISID contract to screen, investigate and assess the current risks at 22 LUST sites.

DEQ Various Sites – Assigned to PM Environmental under their Expanded Triage ISID contract to screen, investigate and assess the current risks at 12 LUST sites.

Projects Complete:

DEQ P.T. Plus Site – Activities for investigation and remediation services completed under budget. Decreased the assignment amount ~$5K and closed out the assignment with Fleis & VandenBrink.

DEQ Village of Ravenna Site – Activities for investigation and remediation services completed under budget. Decreased the assignment amount ~$6K and closed out the assignment with Superior.

DEQ Ravenna Sunoco Site – Activities for investigation and remediation services completed under budget. Decreased the assignment amount ~$4K and closed out the assignment with Superior.

Jud Sorensen

Construction Starts:

A pre-bid meeting was held for the Women's Huron Valley Correctional Facility Primary Electrical Distribution Replacement project on 4/27, a project estimated at approximately $4 million. Although there were 11 contractors and suppliers that attended, there was a definite lack of what would normally be considered general or prime contractors, with only three attending and two likely bidding as Qualified Disabled Veteran Owned Companies.

Projects Complete:

Final record drawings and closeout documentation were received from the professional and the contractor for the HVAC renovations within the administration building at the Cotton Correctional Facility. Once final payment requests have been made, the project will be closed.

Terry O'Brien

Accomplishments:

MDOC Women's Huron Valley NPDES permit termination submitted to DEQ.

Bruce Watkins

Nothing significant to report.

Section Manager: Dennis Stamm, Project Supervision

Nothing significant to report.

Section Manager: Pat Mullen, Contract Services

Nothing significant to report.

WR Ending May 8, 2015
Section Manager: Irene Henry, Project Management Section 'A'
Editing Land Bank Demolitions demo contract.

Bob Adams:
New Projects:
MDOC Kinross CF K-Unit Roof System Renovation – Contacted agency to setup PPP meeting.
Michigan Land Bank – Visit site in Iron River to document conditions and send report.
Design:
DMVA Jacobetti Boiler Replacement – Conduct 50% phase 500 design review meeting.
DNR – Hancock to Calumet Rail Trail – Process PSC mod #3 and attend 90% phase 100 study presentation.
Bidding:
DNR Cusino Wildlife Research Station Storage Building – Participated in mandatory pre-bid meeting and walk-through.
Construction:
DNR Straits SP Lower Campground Toilet/Shower Building Replacement – Participated in pre-construction conference.
MDOC Newberry CF Boiler 2&3 Abatement and Demolition – Participated in pre-construction conference.

Lake Superior State University School of Business Renovation – Attended pre-construction conference.

MDOC Pugsley CF Fire Alarm System Upgrades – Participated in pre-construction conference.

DNR Indian Lake SP Shoreline Restoration – Participated in pre-construction conference.
Projects Complete:
Completed Hazwop training in Escanaba.

Scott DeKorte:
New Projects:
Belle Isle SP Casino HVAC Upgrades – Conducted substantial completion meeting for the new boilers and water heaters portion of the work.

Various Correctional Facility Fencing/Security Upgrade Projects – Conducted 90% design reviews with MDOC personnel.

Joel Gordon:
Nothing significant to report.

Gerald Gregorski:
New Projects:
MDOC Woodland Center CF Perimeter Fence Security System Upgrades – The on-site pre-bid meeting and walk-through was attended by several security system installers. Questions were submitted and a bid addendum was posted later in the week. Bids are due 5/13.

MDOC Personal Emergency Location Systems Phase 2 at Six Locations – The final design review and planning meeting was held and the schedule for pre-bid meetings and bidding was set. A central pre-bid meeting, including SenStar bidder certification training, will be held at the GOB on 5/13. Individual site walk-throughs will be held the following week. Bids are due 6/10.

DNR Petoskey SP Trail Development – The 90% design review meeting was held and a bidding schedule was setup for phase 1a. The bid advertisement will be posted 6/1, the pre-bid meeting will be 6/15, and bids due 6/24 with construction targeted for Fall-2015.

Construction Starts:
DMVA Grand Rapids Home for Veterans Backup Generators – A schedule of partial facility shutdowns is underway to tie-in the new generators and transfer switches. Systems startup and checkout will take place before the end of May.
Projects Complete:
DNR Below Ground Sewer and Water Study at Eight Parks – The substantial completion meeting was held on site for the Petoskey State Park lift station and electrical service replacement.

Jan Miller:
Accomplishments:
Capital Area Reconfiguration Project – Held a meeting and tour of the Vital Records with DHHS, Hobbs + Black, and Christman on 5/6. Added the State Warehouse Facility Building 100 to the program statement for Christman before their contract was executed.
Potential Issues/Solutions:
Flint State Office Building Interior Renovations – Operations staff had been monitoring T&M fireproofing work. Conflicts between the contractor and Operations staff arose over actual time being spent. I met the professional on site 5/4 to review the work and decided to have the PSC monitor the work instead of Operations staff.

DNR Silver Lake State Park Day Use & BAS Improvements – Although seven general contractors attended the pre-bid meeting, only 1 bid was received 5/6. The bid was over budget. A meeting is scheduled for 5/18 to discuss options.

Dave Sproul:
Accomplishments
MDOC Ionia Energy Project – Met with Consumers Energy and ESG to review and discuss the required gas service changes to support the project. Consumers Energy has indicated a preliminary estimate of $1.2 to $1.4M in potential gas line changes within the Ionia Complex. This estimate is above the anticipated budget costs from ESG. Consumers Energy will continue to review their estimate and investigate areas to reduce the cost accordingly.

Capital Area Reconfiguration, State Police – Met with State Police to review the programing requirements of the Communications Division. The Communications Division is currently located within the existing MDOT Photo Lab building; however, MSP has requested this group be evaluated for relocation into the GOB. PARTNERS In Architecture is evaluating this request for MSP's approval.

MDOC, Thumb Correctional Facility, Water and Sewer Improvements – Conducted the mandatory pre-proposal meeting, bids are due on 5/13. We had a good turn out and there were some minor items to be clarified within an addendum. The cost estimate for this project is approximately $600,000.

DTMB, Energy Center, Access Platforms – Met with Century A/E to finalize bid documents to provide some miscellaneous access platforms within the Energy Center. These requested platforms will provide a safer access to perform needed maintenance and repairs on plant equipment and systems. The estimate for this project is approximately $80,000. The project advertisement will be released the end of May.
Potential Issues/Solutions:
State Police, SEOC – Met with DMVA to review the progress of the overall National Guard modules. DMVA is continuing to work through their purchasing requirements to secure and release the PO for the module construction. We are working to have all six modules built and delivered by November/December this year.

Steve Urban:
Preparing for Mason Building moves.

Section Manager: Harold Belcher, Project Management B

Nothing significant to report.

Chris Bahjet

Accomplishments:

DNR – Belle Isle – Lake Musocday Canoe/Kayak – Held the pre-proposal meeting for this design bid project.

Tim Hall

Nothing significant to report.

Bruce Hassen

Construction Starts:

The demolition of the Camp Lehman site at Hartwick Pines was restarted after a break for winter.

Potential Issues/Solutions:

The demolition and redevelopment package for the Nokomis Crisis Center was bid, but all 8 bids were over the budget. We plan to issue a post-bid addendum to delete asphalt paving and some other items from the scope and see if we can award after we receive the re-submittals.

Chris Kulhanek

Nothing significant to report.

Rashmi Patel

Accomplishments:

Egeler Correctional Facility - VMS System – Attended the pre-construction meeting at the site.

Various Correctional Facilities – Rounding System - Mandatory walk-through meeting at the GOB. Reviewed project scope and contractor questions and answers. Addendum will be issued next week.

Sadi Rayyan

Accomplishments:

DNR Otsego Township Dam – Met with agency to discuss proposed schedule for design services and options to stabilize the dam and mitigate the risk of failure.

DEQ Countywide Landfill – Met with agency to discuss funding and schedule for the leachate hauling contract with ARR and options to keep the landfill in compliance with the environmental regulations.

DEQ 405 Bridge Street Site – Reviewed and recommended an award of construction contract to MacKenzie to excavate, remove and dispose of contaminated soils and restore the site.

DEQ Donald Johnson Site – Reviewed and recommended changes to the contract with Fleis & VandenBrink Engineering to prepare specifications, provide construction oversight and conduct verification sampling.

DEQ 1801 South Fort Site – Reviewed and recommended changes to the contract with AECOM Technical Services to install and sample soil vapor pins and sample groundwater monitoring wells.

New Projects:

DEQ Jack's Auto Repair Site – Assigned to Fleis & VandenBrink Engineering under their ISID contract to perform remedial investigation, develop feasibility study/conceptual corrective action plan and prepare specifications for the implementation of interim response activities.

Non-Project Related Activities:

Attended “Issues and Options in Human Health Risk Assessment” webinar.

Jud Sorensen

Construction Starts:

A pre-bid meeting was held on 5/4 for the Geagley Laboratory Exterior Curtain Wall Insulation and Elevator Upgrade project. This project has been estimated by the professional to be approximately $140,000 with a 90 day duration after authorization to proceed. Although there were eight contractors and suppliers that attended, there were only three that would normally be considered general or prime contractors with the rest being specialty contractors or suppliers.

Potential Issues/Solutions:

At the request of DTMB Operations, I had Wolverine Engineers & Surveyors and their consultant, Great Lakes Engineering Group look at an issue with cracked and spalled columns within the west ramp at the Hall of Justice. Wolverine Engineers is already under contract with the State of Michigan providing design and construction administration services for repairs to the Pine Street Bridge. In meeting with them on Friday, it was their opinion that the columns of concern may have been under designed. Further review of the issue with the previous DTMB Operations Facility Supervisor showed very similar distress back in 2007 and 2008 that was repaired by RAM Construction with design of repairs being provided by Carl Walker, Inc. Carl Walker, Inc. had indicated in correspondence at that time a potential design problem with the columns being too rigid and not allowing sufficient flexibility for expansion and contraction of the deck. I have now set up a meeting for 5/18 with Albert Kahn and with the Christman Company to review this issue further. Albert Kahn and Christman are involved with the Hall of Justice original construction.

Terry O'Brien

Accomplishments:

SESC authorization for MDOC Women's Huron Valley Correctional Facility and DNR Holland State Park and DNR Wilderness State Park.

Bruce Watkins

Accomplishments:

Cass City Field Office – Cold Storage Building – The design professional (Mayotte Group) held a siting meeting with DNR field staff for this work. Mayotte is moving this forward fairly quickly. We are expecting a budget estimate soon, so that I may request additional funds from DNR to construct the work. The project is underfunded, we just don't know how much yet.

Harbor Design Manual – Continue to meet with DNR and Prein & Newhof to finalize the upgrade to the Harbors Design Guide. This process seems to be dragging on as each item is reviewed in significant detail. I have a meeting with DNR next week and will identify this issue and let them know P&N may request additional hours.

New Projects:

Shiawassee State Game Area – B2 Pump Station – Held pre-proposal meeting for the design of the pump station. There were five recognized design firms in attendance.

Roscommon Customer Service Center – Cold Storage Building – Exterior Re-grading – Held pre-bid meeting for re-grading the exterior of the building to eliminate water problems. Plans and specifications were prepared by DCD for this work. Three good contractors were present for the pre-bid meeting.

Projects Complete:

Highland Trail – Held final inspection meeting for the construction of the trail. The trail finished four months (construction months) late, with approximately $35,000 in liquidated damages, but the finished product looks good and DNR is happy with the work.

Roscommon Storage Building – This project may finally be coming to a close, with it being completed this week. There are only a few items remaining to repair on the roof, then this one can be closed.

Peshawbetown Marina – Finished review of the DNR Grants-in-Aid plans and specifications and submitted to DNR.

MCTI – Tridium/Solidyne Conversion – Work completed, held completion meeting and held meeting to discuss extras incorporated into the work. It appears local staff may have committed to covering extra work and contractor did not contact this office for approval. In light of the way this occurred, I offered to the contractor to cover only their out of pocket costs without overhead and profit and they agreed along with MCTI. Their quotation dropped by 25%, so I have no need for further discussion. We will execute a contract change order for the additional work.

Section Manager: Dennis Stamm, Project Supervision
Nothing significant to report.

Section Manager: Pat Mullen, Contract Services
Nothing significant to report.

WR Ending May 29, 2015

Section Manager: Irene Henry, Project Management Section 'A'

Completed draft bid packages for MLB demolitions and sent for review. Reviewing a PSC claim. Assisted the MLB with a Section 106 Review submittal for the Highland Park HS demolition. Posted several projects on Buy4Michigan.

Bob Adams:

Design:

MDOC Chippewa CF Perimeter Security Upgrades – Participated in phase 500 50% design review meeting.

MDOC Chippewa CF Video Management and Perimeter Surveillance Enhancements – Participated in PSC kickoff meeting.

DNR Mackinac Island SP Road Repairs – Forwarded agency request to utilize ISID PSC and it was approved.

MDOC Kinross CF Housing Unit K Roof System Upgrades – Submitted justification for PSC assignment on Director's Agenda.

DMVA Jacobetti – Received ISID approval and forwarded justification to Lansing for processing design contract.

Construction:

MDOC Newberry CF Boiler 2&3 Abatement and Demo – Construction started.

MDOC Camp Cusino Site Redevelopment – Participated in pre-construction startup meeting for construction start next week.

MDOC Hiawatha CF Video Management and Perimeter Surveillance Enhancements – Participated in pre-construction startup meeting.

MDOC Hiawatha CF Perimeter Security Upgrades – Received PSC's best value bid evaluation and recommendation for award, obtained agency approval, solicited and received MOP funding revision, and submitted for inclusion on special SAB Agenda.

MDOC Marquette Water Heater Circulation Pump Replacement – Gathered data for RFP.

DNR Eagle Harbor Boathouse Roof – Authorize additional work under allowance.

Projects Complete:

DNR Mackinac Island SP Pier Repair – Conducted site visit and meeting with agency for closeout verification.

DNR Cheboygan Dam Seepage Repair – Conducted pre-warranty expiration site visit and met with agency representative to discuss.

MSP Negaunee Post Re-roof – Reviewed and processed final contractor invoice.

Scott DeKorte:

Nothing significant to report.

Joel Gordon:

New Projects:

DNR Wildlife Division – Repair Various Existing Dams – A 50% design review meeting was conducted for Stoney Creek Impoundment Dam and the gathering of field data for Dog Lake and Cannon #1 Dams was completed.

DNR Fisheries Division – Repair Various Existing Dams – A 50% design review meeting was conducted for the Foch Lake Dam Repair project and a project kickoff meeting was conducted for the Big Creek Dam Repair project.

DTMB – Capital Complex Master Plan – Governor's Residence Retaining Wall Reconstruction – Contract documents have been issued for bidding, bids are due on 6/10.

Gerald Gregorski:

New Projects:

MDOC / Perimeter Security Improvements at Four Locations – Received four new project assignments for replacement of the I-Flex detector cable system with Shaker Box cable systems at the following sites: St. Louis CF, Ionia CF, Detroit Re-Entry Center, and the Special Alternative Incarceration Center in Chelsea. Discussed the projects' scope and delivery method with the MDOC physical plant representative. Decided to proceed with an ISID assignment to Straub Pettit Yates which is currently doing a very similar type project at the Thumb Correctional Facility.

MDOC / Gus Harrison CF Asphalt Reconstruction - Received new project assignment for replacement of the asphalt paving of several roads and parking areas around the facility. Discussed the project's scope and delivery method with the MDOC physical plant representative. Decided to proceed with an ISID contract assignment to Beckett & Raeder which is currently doing perimeter fencing and security enhancement projects at the facility.

Construction Starts:

DTMB Energy Star Certification of DTMB Owned Buildings – Matrix Engineers has completed site investigations at the Traverse City State Office Building, the last of the buildings to be Energy Star certified.

Jan Miller:

Accomplishments:

DTMB Flint State Office Building Interior Renovations – Project team met on site 5/29 to punch out the 4th floor at the request of the contractor. The PSC determined that the floor was not ready to conduct a punch list and rescheduled for 6/2. The PSC did issue a brief general list of work that needs to be completed before 6/2.

DTMB Capital Area Reconfiguration Project – Met DHHS key personnel team 5/27 since Suzanne Brownell retired. H+B will be meeting separately with each group to complete the programming.

Dave Sproul:

Nothing significant to report.

Steve Urban:

Accomplishments:

DTMB Mason Building, DIFS build-out and move – 8th floor is complete with DIFS move scheduled for this weekend (5/30 & 5/31). Everything looks good. This is the last group of DIFS that will be relocating into the Mason Building.

Construction Starts:

DTMB OPS Center Parking Lot Repairs – East parking lot area (largest section) underwent repair work and sealing on the weekend of 5/23. 2 remaining sections are scheduled for repair and resealing the weekend of 5/30 and 6/6 weather permitting.

Projects Complete:

Austin Building, Treasury Executive Area Renovations

Section Manager: Harold Belcher, Project Management B

Teleconference regarding Alanson to Mackinaw City Trail bridges; teleconference regarding DMVA Wind Funnels.

Chris Bahjet

Accomplishments:

DNR – Selfridge BAS – Met at site to look into areas that need deeper cuts in preparation of the asphalt placement. In negotiating with the contractor, they agreed to place portion of the added fill at transportation cost only. It yet remains to be seen if this partial fill replacement will be sufficient to give the required compaction; SME will continue to monitor.

DTMB – Cadillac Place – Façade Study & Emergency Repairs – Resumed the inspection after a brief stoppage to survey safety measures.

Tim Hall

New Projects:

MDOC Women's HVCF W. Admin & Field House Roof Replacement – Conducted PPP meeting with MDOC and developed preliminary procurement/design plan to respond to MDOC request for ISID and prompt project implementation to address emergent issues recently discovered.

DCH Center for Forensic Psychiatry Perimeter Lighting Upgrade – Prepared and posted RFP for PSC to provide services for this project and potentially several smaller related project elements.

DTMB State Warehouse Facility Building 100 Renovation – Participated in design team kickoff meeting, scheduled initial programming meetings and coordinating with BOD to establish team to evaluate overall site planning for St. Joseph Street complex.

DMVA Fort Custer Vehicle Storage Addition CST - Conducted pre-bid meeting for approximately 7 prime bidders for scheduled 6/3 bids.

Potential Issues/Solutions:

MDOC Women's HVCF Prisoner Service Building – Project is being delayed while pricing of solutions for numerous concealed existing conditions is completed for change order evaluation and recommendation. Agency/facility leadership have been advised of rough magnitude of issue costs and completion impact.

DCH Center for Forensic Psychiatry On-Site Warehouse – Unforeseen conflicts with underground duct bank and electrical service conduit which were not identified by preliminary ground penetrating radar studies have delayed the project; however, after reviewing several alternatives, the project team has determined a solution which offsets a small area of the new addition and eliminates conflicts while limiting the delay to 2 weeks and reducing the overall project cost.

MDOT Blue Water Bridge HVAC Replacement – Conducted meeting with contractor to review commissioning and closeout issues/progress. Booth system operations have been very troublesome and there have been some operational issues with several areas as cooling requirements have increased. Not unexpected during initial season but frustrating for agency/users. Emphasized and received commitment from contractor to respond quickly and maintain effort to resolve all areas of concern.

Bruce Hassen

Accomplishments:

The demolition of the Camp Lehman site at Hartwick Pines has reached the demobilization stage. Only closure documentation remains for contractor. There are some minor environmental concerns to be addressed before MDOC can return the site to DNR Parks & Recreation, but we should get those concerns addressed and reach closure with DEQ this calendar year.

Construction Starts:

A kickoff teleconference for the demolition and restoration of the Camp Cusino prison camp site was held on 6/27. The contractor will be on site setting his trailer on 6/1 and the work begins. This work will involve the main part of site which is defined as all of it north of M-28 & M-94.

Potential Issues/Solutions:

The demolition and redevelopment of the Nokomis Crisis Center should proceed to the award stage since the contractor's price was acceptable if we accepted all of the deductive alternates and reduced the provisional allowance by 25%.

Chris Kulhanek
Nothing significant to report.

Rashmi Patel
Accomplishments:
Carson City Correctional Facility - Upgrade Perimeter Security Systems - Reviewed ninety percent design documents with the agency. Advertised project for competitive bidding.

Various Correctional Facilities - Rounding Systems - Reviewed and posted addendum to answer contractor question and answers.

Sadi Rayyan
Accomplishments:
MDOC Jackson Correctional Facility – Pre-construction meeting held with agency, PSC and construction contractor at the site to paint/repair the water tower.

DEQ Clare's County Corner Site – Bids received on 3/18 rejected. A post bid addendum issued to all companies submitted bids with a modified scope of work.

DEQ Ott Story Site – Discussed agency concerns with the current PSC and options to continue O&M activities.
Construction Starts:
DEQ Graham Oil Bulk Plant Site – Field activities for UST removal and site restoration begin 5/19 with substantial completion by 8/17.

DEQ Residential Wells Holly Road Site – Field activities for remediation system rehabilitation begin 5/27 with substantial completion by 8/9.

Jud Sorensen
New Projects:
A kickoff meeting was held with Tower Pinkster, Cochrane Supply and a committee from the DTMB Operations Division Control staff for the development of building automation system (BAS) standards including technical specifications to be used in future construction and renovation projects. This is being completed jointly with Cochrane Supply as DTMB Operations has contracted with Cochrane Supply to create standard tridium template files. These standard template files would be used in house by the DTMB Controls staff, but would also be used by contractors in the installation and programming of BAS control systems. Tower Pinkster, in their development of standard technical specifications for BAS controls will incorporate the tridium template files through reference to make these files available to both professionals and contractors under contract to work on DTMB's buildings including the various BAS controls.

Terry O'Brien
Accomplishments:
SESC authorization for DNR Conely Point BAS.

Bruce Watkins
Accomplishments:
Ionia Recreation Area – Entrance Road Paving – Reviewed plans at 90% complete for bidding out the work. The engineers estimate suggests the majority of the remaining roads will be able to be repaved and the guardrail along the dam will be able to be reinstalled with new support posts.

Sharonville Shooting Range Improvements – Reviewed the preliminary design plans. DNR is please that 4 stations at 10 yards will be able to be constructed.

Kawkawlin Dam Study – Reviewed study recommendations by the design professional with DNR WLD staff and DEQ Dam Safety.

Section Manager: Dennis Stamm, Project Supervision

Projects:

MDOC - Marquette Branch Prison – New Hot Water Booster Pump System – Currently developing the Design Build documents.

MDOC - Carson City Corrections – Underground Electrical Cable Replacement – New assignment.

MDOC – Bellamy Creek Corrections – Propane Conversion – Expect closeout and final payment within the next two weeks.

DTMB – GSB Painting the Exterior of Building – Have scheduled a pre-construction meeting for the first week of June.

Accomplishments:

Site Visits:

Flint State of Michigan Office Building – Reviewed the renovation with staff members.

Kalamazoo DHHS Office – Completed an evaluation of the existing lease facility.

Kalamazoo DHHS New Lease Proposals – Visited four proposed RFP sites and completed a rating of the four sites.

Other Accomplishments:

Highland Park High School Demolition – Completed a demolition estimate.

Chaired meetings with the DCD Closeout Committee & Safety Committee.

Section Manager: Pat Mullen, Contract Services

Nothing significant to report.

WR Ending June 5, 2015
Section Manager: Irene Henry, Project Management Section 'A'
Nothing significant to report.

Bob Adams:
New Projects:
MDOC – Baraga Correctional – Perimeter fence upgrades.

MSP – Calumet Post – Roof Replacement – Forward executed PSC contract to OHM and request design schedule.
Design:
DNR Mackinac Island SP Road Repairs – Submitted ISID PSC proposal for agenda approval.

DNR – Union Bay Toilet Shower Building – Conduct 90% plan review meeting.
Bidding:
MDOT – Ironwood Welcome Center – Roof Replacement – Conducted pre-bid walk-thru.

DMVA - Jacobetti Veterans Home – Boiler and Water Heater Replacement – Conduct pre-bid walk-thru.
Construction:
MDOC Hiawatha CF Perimeter Security Improvements – Scheduling pre-construction conference.

MDOC Hiawatha CF Fire Alarm System Upgrades – Scheduling pre-construction conference.

DNR Muskallonge Lake SP – HQ Relocation – Scheduling pre-construction conference.

MDOC Newberry CF Boiler 2&3 Abatement and Demo – Participated in progress meeting.

MDOC Hiawatha CF Video Management and Perimeter Surveillance Enhancements – Participated in meeting to coordinate construction with the personal emergency locator system (PELS) and perimeter security improvement projects with respect to the termination of fiber optic cable.

MDOC Newberry CF Fire Alarm System Upgrades – Participated in progress meeting.

MDOC Chippewa CF Fire Alarm System Upgrades – Participated in progress meeting.

DNR Conely Pt BAS – Participated in progress meeting.

DNR – Eagle Harbor Roof Replacement – Conducted progress meeting #2.

DNR – Presque Isle Dam Repair – Conduct meeting with contractor and PSC – Process CCO for replacement of deteriorated structural steel channels concealed during design.

Scott DeKorte:
Nothing significant to report.

Joel Gordon:
Nothing significant to report.

Gerald Gregorski:
Nothing significant to report.

Jan Miller:
Accomplishments:
Flint State Office Building, Interior Renovations – 4th floor was successfully punched out 6/2. The overall schedule was updated showing the final completion date as 12/31. Met with BOD 6/1 to review schedule and budget for solar panels, ice storage and re-roof which will all be bid out as a separate contract. Met

with DHHS 6/4 to discuss occupying the 6th and 7th floors. In order to meet the schedule DBI stated they needed the design layout signed off by 6/18. DHHS agreed.

Capital Area Reconfiguration Project – Programming continues; met with Epidemiology and Vital Records 6/5.

DNR Silver Lake State Park Day Use & BAS Improvements – Recommended the award of a construction contract to Hallack Contracting after the post-bid addendum bid came in within budget. Recommendation is on the 7/7 Ad Board Agenda.

Dave Sproul:

Accomplishments:

Capital Area Reconfiguration, State Police – Facilitated a meeting between PARTNERS In Architecture and The Christman Company to begin the coordination of developing the schematic design cost estimate for the MSP move into GOB. Our discussion topics included a review of the current programing layouts, potential move schedules, and overall strategy for the construction estimate. We are working to the conceptual construction estimate submitted by the mid to end of July.

MDOC, Michigan Reformatory Power Plant, Water Softeners and DeAlkalizer System Replacement – Continuing to work through the refinements and modifications to the new brine system storage tank installation and place all new systems in proper operating condition. Sterling Water Treatment has been on site providing checkout and startup inspections.

Jackson Community College, Bert Walker Hall Renovations – Received for review and approval two additional bid packages concerning this project. These packages include Structural Steel and Hydraulic Elevators.

Potential Issues/Solutions:

State Police, SEOC – Attended our regularly scheduled construction progress meeting and the Daniels Building Company JV continues to make progress on exterior construction scope including structural steel and major block installation. State Police and I personally met with State Representative Phil Potvin to provide him with an update on the project construction and schedule. We informed Representative Potvin that we are scheduled to be complete by the end of December and construction is progressing more effectively with the warmer weather conditions.

Steve Urban:

Accomplishments:

Mason Building, DIFS Build-out and Move - Move by DIFS onto the 8th floor took place over the weekend of 5/30. This was the last DIFS group to move into the Mason Building.

Met with DEQ Water Resources Division to provide a lessons learned presentation to 15 DEQ specialists regarding the green initiatives that were installed as part of the Pine Street Parking Lot Renovations. The rain garden as well as pervious pavement installation were the main topics of conversation.

MDOC St. Louis, Door Replacement Project - Construction bid documents were posted on Buy4Michigan on 6/5.

Construction Starts:

OPS Center Parking Lot Repairs - 3 additional parking lot sections will be repaired and resealed this weekend (6/6, 6/7) leaving 1 parking lot area to be addressed. This would mean that of the 6 parking lot sections there will be only 1 section that will not be completed in time for the Oldsmobile Car show taking place the weekend of 6/13 and 6/14.

Section Manager: Harold Belcher, Project Management B

HAL meeting with new IT personnel; FM Systems demo.

Chris Bahjet

Accomplishments:

DMVA – Detroit Light Guard – Phase 4 Renovations - Met for substantial completion. Although substantial was declared, the agency would like to replace major parts of the boiler and install furniture. This work will be in a future bulletin. The agency agreed the building and the project as planned is ready for occupancy.

Potential Issues/Solution:

DNR – Selfridge BAS – The issue is the potential of uncovering unsuitable soils during the removal and repaving of Rosso Hwy at the portion of where the storm line was replaced. Since the budget is limited to cover all possibilities, we were looking for ways to reduce risk. We invited the county representative asking him to consider reducing the permit's work scope. The solution was the county representative agreed to look into this request after the removal of one entrance and examine the subgrade and make a decision then.

Tim Hall

Accomplishments:

DMVA Fort Custer Vehicle Storage Addition CST – Bids received slightly above PSC estimate and DMVA Federal funding limits; DMVA evaluating funding options to release project for award.

DCH Center for Forensic Psychiatry Parking Lot Upgrades – Contractor mobilized and began upgrades in phase I; conducted team progress meeting.

New Projects:

DTMB State Warehouse Facility Building 100 Renovation – Design team held initial programming meetings and completed field data visits; coordinating with BOD to establish team to evaluate overall site planning for St. Joseph Street complex.

DNR Wolf Lake Fish Hatchery Fishing & Viewing Access – Conducted 50% design review meeting with Abonmarche (PSC) and Wolf Lake staff. Design on track with DNR direction and minor comments will be integrated into ongoing design completion.

Potential Issues/Solutions:

MDOC Women's HVCF Prisoner Service Building – Project is being delayed while pricing of solutions for numerous concealed existing conditions is completed for change order evaluation and recommendation. Agency/facility leadership have been advised of rough magnitude of issue costs and completion impact.

MDOT Blue Water Bridge HVAC Replacement – Design/build contractor continuing adjustments to troublesome booth system operations, but still have not achieved consistent/reliable operation meeting contract requirements. Other commissioning "issues" continue to arise in the main buildings and contractor response and resolution is under careful watch.

Bruce Hassen

Accomplishments:

A pre-bid walk-thru for painting the tankage, vessels, and piping at the Ott-Story-Cordova Superfund site was conducted and at least two attending bidders are known to be well qualified to perform the work.

New Projects:

The Cole Tire site in Lakeview, a closed tire recycling facility, was inspected so that the scope of work for redeveloping the site could be defined.

Chris Kulhanek

New Projects:

Rose Lake Shooting Range – Education Center - Project has been re-assigned from Steve Urban to Chris Kulhanek. PPP meeting set for 6/9. The plan is to approve a contract mod for the PSC that did the initial study, so the project can still start construction this year.

Potential Issues/Solutions:

MLHC Rotunda Window Replacement – Pre-con meeting was held on 6/3. GC submitted a schedule that extends about two months beyond the original completion date due to long lead times on several materials.

Solution – BOD is working with the events coordinator to make sure planned events are either able to proceed with the temporary construction barrier in place, or can be re-scheduled after completion. Additionally the GC is looking for ways to expedite the installation time.

Mason Building – Exterior Façade Repairs – The masonry repairs are expected to be completed within the next week or two, but the window trim repairs are now scheduled to extend into August due to longer than anticipated fabrication time and the degree of difficulty meeting the specifications with the installation, along with numerous weather delays.
Solution – The contractor will provide a price quote to work two shifts which will essentially cut the installation time in half.

Rashmi Patel
Nothing significant to report.

Sadi Rayyan
Nothing significant to report.

Jud Sorensen
New Projects:
The Department of Corrections requested that Engineering Applications, as a part of their on-going work at Cotton Correctional Facility and their recently completed project at Copper Street Correctional Facility, look at an issue with a chiller for the school building at the Cassidy Lake SAI Facility. This facility is under the Cooper Street warden and physical plant supervisor. The chiller, approximately 40 years old, broke down at the end of the 2014 cooling season. An evaluation by the Agency's refrigeration mechanic showed that to repair this chiller would cost approximately $80,000 in parts only using in-house labor. DTMB has set up a meeting at the Cassidy Lake SAI Facility with Engineering Applications for 6/9.
Construction Starts:
A pre-construction meeting was held on 6/2 with the general contractor, AnLaan Corporation, the professional, Wolverine Engineering and Surveying, and DTMB Operations Division. Work is anticipated to commence on or about 7/6 with the contract requiring work to be completed by no later than 9/30.

Matt Miles
Accomplishments:
Caro Center - Performed fieldwork on water main location project.

SEOC SBA Survey - Performed fieldwork and started drafting the survey. I also made contact with Eaton County Road Commission engineer in order to define Billwood Highway alignment for this project.
Other:
Assisted Dave Sproul over questions on Ionia Department of Correction steam line concerns.

Terry O'Brien
Annual leave.

Bruce Watkins
Accomplishments:
Kawkawlin Dam – Held conference call with the owner, PSC (Wade Trim) and the dam safety unit to discuss minimum requirements for work to repair the temporary plug and final solution to the inadequate flood flows.
New Projects:
North & South Higgins Lake State Parks – Trail Connectors – Held design kickoff meeting with PSC (C2AE) and the owners to get the project design started. Walked the North Higgins Lake State Park and RAM Center portions of the trail to re-iterate the project scope of work for the team.
Projects Complete:
Lakeland Correctional – Above Ground Storage Tanks Removal – The project is substantially complete as of 6/2.

Section Manager: Dennis Stamm, Project Supervision

Projects:

MDOC - Carson City Corrections – Underground Electrical Cable Replacement – Scheduled a planning partnering meeting for 6/12.

DTMB – GSB Painting the Exterior of Building – A preconstruction meeting was held on 6/3. I have not given a notice to proceed as the executed contract is expected the week of 6/8.

Accomplishments:

Completed a renovation estimate for the Hamilton DHHS lease in Detroit.

Completed a renovation estimate for the Kalamazoo DHHS lease in Kalamazoo.

Wrote draft copies of 2 staff yearly IPM performance reviews.

Section Manager: Pat Mullen, Contract Services

Nothing significant to report.

WR Ending June 12, 2015
Section Manager: Irene Henry, Project Management Section 'A'
Annual leave.

Bob Adams:
New Projects:
MDOC – Baraga Max – Perimeter Fence Security Enhancement (shaker wire) - Made verbal and e-mail contact with MDOC to determine options for design.
Design:
DNR – Union Bay Campground – Toilet/Shower Building D.B. – Processed change request #1.

DNR Union Bay BAS - Finalize documents, provide NIGP codes, received DEQ permit and requested permit status from USACOE.

DNR – Pioneer Trail Phase 100 Study – Processed PSC mod for scope change to add 3 miles of trail to the study.
Bidding:
DMVA Jacobetti Veterans Home – Boiler Replacement – Received bids and conducted contractor interviews. Project is within budget. Processing recommendation for next week's agenda.

MDOT – Ironwood Welcome Center Roof Replacement - Received bids and conducted contractor interviews. Project is within budget. Processing recommendation for next week's agenda.

Scott DeKorte:
New Projects:
MDOC – RMI – Sally Port Security Upgrades – Conducted pre-bid meeting.

Reviewing bids on four MDOC security upgrade projects.

Joel Gordon:
Nothing significant to report.

Gerald Gregorski:
Nothing significant to report.

Jan Miller:
Accomplishments:
Flint State Office Building, Interior Renovations – Started installing carpet tiles on the 4th floor 6/8. DHHS approved the 6th floor layout 6/12, 6 days ahead of schedule. Only 1 floor to ceiling office will be added which should not impact the schedule.

Capital Area Reconfiguration Project – Programming continues; met with administration and epidemiology for the second time. Held a team kick-off meeting 6/12 with Helen Dennis of 300 Decisions, the move manager for MSP, DHHS and FBSA.

Dave Sproul:
Nothing significant to report.

Steve Urban:
Accomplishments:
Mason Building, ORS Move - First move of ORS to 4th and 5th floors to take place this weekend.

Met with representative with BWL to review the status of the job and determine as-built information to submit to them for SOM to receive cost rebates due to electrical and HVAC upgrades.

OPS Center Parking Lot Repairs - Paving contractor was able to crack-fill and seal coat the remaining 4 lots over the weekend of 6/6 ahead of schedule. Contractor took advantage of ideal weather conditions. Patching of road surfaces took place during the course of the week. All work is complete for the Oldsmobile Car show on 6/13 and 6/14.

Potential Issues/Solutions:

MDOC Gus Harrison Roofing Restorations Project - Roofing contractor violated MDOC construction security protocol which lead to the contractor's project superintendent being removed from the job. A number of roofing insulation screws (8 inches long) were inadvertently dropped on site. It could not be determined if all screws were accounted for.

Section Manager: Harold Belcher, Project Management B

Shiawassee State Game Area Siphon Tube meeting with Spicer; MadDog Energy Solutions vendor visit; HAL.

Chris Bahjet

Accomplishments:

DCH - WRPH – Showers Renovations – Held the substantial completion meeting and reviewed closing requirements.

DCH – Walter Reuther Hospital – New Activity Center – Held a meeting to coordinate between the agency and the contractor to review the new system at the demarcation point. When the project was in design the phone conversion plans were not clear, now that the existing has converted the planning will be simple.

Tim Hall

Nothing significant to report.

Bruce Hassen

Nothing significant to report.

Chris Kulhanek

Accomplishments:

Forest Fire Experiment Station – Close-out meeting held on 6/10. A few punch list items need to be completed and the rest of the close-out documents submitted, but the project is otherwise complete. A final no-cost change order was negotiated with the contractor to take care of outstanding issues and resolve unused balances. The project was completed within the overall budget.

Potential Issues/Solutions:

Washtenaw Armory – The project missed the substantial completion date. A walk-through on 6/12 revealed that there were too many items to complete for the project to be substantially complete.
Solution – DMVA has agreed to extend the substantial completion date by two weeks due to the large number of changes that have been requested. The facility personnel has agreed to stay out of areas that have had final cleaning done.

Matt Miles

Nothing significant to report.

Rashmi Patel

Nothing significant to report.

Sadi Rayyan

Accomplishments:

MDOC Marquette Branch Prison – Pre-construction meeting held at the site with agency, PSC and construction contractor to paint/repair the water tower.

DEQ Market 103 Site – Reviewed and recommended an award of construction contract to TSP Construction to excavate, remove and dispose contaminated soils and restore the site.

DMVA Climate Preparedness Planning Project – Reviewed and recommended changes to the agreement with LIAA to provide adaptation planning for Selfridge Guard Base.

Construction Starts:

DEQ State Road Service Site – Field activities for petroleum impacted soil removal and site restoration begin 6/8 with substantial completion by 9/6.

Non-Project Related Activities:

Attended a meeting with the vendor MadDog Energy.

Attended "IKEA Taps Geothermal" Webinar.

Jud Sorensen

Construction Starts:

A pre-bid meeting was held for the installation of primary disconnect switches at the Romney Building. Five potential bidders along with the Lansing Board of Water and Light were in attendance. This project was specified to be complete by 10/30, but due to an issue with lead time on disconnect switches, an addendum has been issued extending project completion to 12/18.

A pre-construction meeting was held for the Geagley Laboratory elevator upgrades and curtain wall insulation on 6/11 with the general contractor, Laux Construction Company, the professional, Byce and Associates, and MDARD representatives. Work is anticipated to commence in early July and be complete by September.

Terry O'Brien

Accomplishments:

Survey at Caro.

Bruce Watkins

Accomplishments:

Kawkawlin Dam – Held conference call with the owner, PSC (Wade Trim) and the dam safety unit to discuss minimum requirements for work to repair the temporary plug and final solution to the inadequate flood flows.

New Projects:

North & South Higgins Lake State Parks – Trail Connectors – Held design kickoff meeting with PSC (C2AE) and the owners to get the project design started. Walked the North Higgins Lake State Park and RAM Center portions of the trail to re-iterate the project scope of work for the team.

Projects Complete:

Lakeland Correctional – Above Ground Storage Tanks Removal – The project is substantially complete, as of 6/2.

Section Manager: Dennis Stamm, Project Supervision

Nothing significant to report.

Section Manager: Pat Mullen, Contract Services

Nothing significant to report.

WR Ending June 19, 2015

Section Manager: Irene Henry, Project Management Section 'A'

Started environmental surveys for Hardest Hit Fund Demolitions; issued Addendum 1 for demo bids; and created/populated the MLB's spreadsheet. Met with AG to review the first section of MICHSpec revisions.

Bob Adams:

New Projects:

MDOC - Baraga Correctional – Perimeter Security Fence B Upgrades – Provide draft ISID project statement to MDOC for review and comment.

Design:

MDOC Kinross CF Housing Unit K Roof System Upgrades – Received and initiated review of phase 500 50% design documents, schedule and cost estimate.

MSP – Calumet Post – Roof Replacement - Conduct design kickoff meeting with agency and PSC.

Bidding:

MDOT – Ironwood W.C. Roof Replacement – PSC provided contractor interviews and recommendation for award. Submitted construction contract justification for Red Jacket to Lansing.

DMVA - Jacobetti Boiler Replacement - PSC provided contractor interviews and recommendation for award. Submitted construction contract justification for United Contractors to Lansing.

Construction:

DNR Pigeon River SF Footbridge and Streambank Restoration – Participated in substantial completion site visit.

LSSU School of Business Renovation – Participated in progress meeting and site visit.

DNR Muskallonge Lake SP HQ Relocation – Submitted justification for SAB approval of owner-added scope.

DNR – Presque Isle Dam Repair – Visit site and report on progress. Project is ahead of schedule and weather permitting should be complete 6/26. A substantial completion meeting is pending.

Projects Complete:

Otter Lake Dam Repair – DNR Fisheries indicates the project has been put on hold and requests the MOP be closed out.

MSP – Negaunee Roof Replacement – Sent PSC and contractor evaluations to Anne.

Scott DeKorte:

New Projects:

Nothing significant to report.

Joel Gordon:

New Projects:

DNR – Warren Dunes State Park – Day Use Area Redevelopment – The project team conducted the 50% design review meeting. The project is scheduled to be issued for bidding the second full week of July.

DTMB – Michigan Law Enforcement Officers Memorial – Construct a New Monument – I attended the monthly MLEOM Commission meeting to review project status with the full commission.

Construction Starts:

DNR – Wilderness State Park – Lakeshore Campground Redevelopment, Phase 2 Bluffs Campground – The pre-construction meeting was conducted on site with the PSC, contractor, DNR and DTMB.

Gerald Gregorski:

New Projects:

DNR/Parks & Recreation Div. - Lincoln Hills Bridge – Engineering Design for Replacement or Rehabilitation – An on-site scope review meeting was held with DNR staff and a structural engineer from Northwest

Design Group. It was decided from the obviously poor condition and age of the bridge that an engineering study was not required and rehabilitation was not practical. NDG will provide an ISID assignment request to provide design and construction administration services for total bridge replacement.

MDOC – Woodland Center Correctional Facility - Perimeter Fence Security System Upgrades – The contract award recommendation for the low bidder, Midstate Security, was approved by the State Administrative Board.

MDOC – Gus Harrison Perimeter Enhancements – The contract award recommendation for the low bidder, American Fence, was approved by the State Administrative Board.

DNR/Parks & Recreation Div. – Petoskey State Park Trail Development – The pre-bid meeting for the first phase of the trail was well attended by ten contracting firms. Bids are due 6/24 with construction targeted for Fall-2015.

MDOC – Personal Emergency Location Systems Phase-2 at Six Locations – Bids were received for the three separate bid packages which combined sites according to geographic location. Three bids were received for both the Chippewa site and the combined Brooks and Central Michigan sites. Contract award recommendations for the low bidder, Master Electric in both cases, were submitted to the 7/21 State Administrative Board Agenda. Only a single bid was received for the third bid package combining the Cooper Street, Parnall, and Gus Harrison sites. The bid amount was significantly above budget and the contract will not be awarded at this time.

Construction Starts:

DTMB/BOD – Grand Tower AHU Replacement – AHU replacement on all 16 floors is completed and the units are in operation. The crane lift for the old cooling tower removal and new energy recovery unit placement on the roof was successfully completed without incident on Saturday while the building was vacated. This required partial closure of Grand Avenue and the sidewalk around the building. Approval was received for the chilled water supply booster pumps CCO and work is underway. The PSC contract modification for phase two design and construction, replacement of the VAV boxes, controls, and perimeter hot water heating, was approved by the Ad Board.

DMVA/Grand Rapids Home for Veterans – Backup Generators – Full systems startup testing and checkout was performed on all three new generators and transfer switches. Proper transfer switch sequencing from the utility, to new generators, to existing life safety systems generator, was successfully verified. Testing was performed by both Cummins, the equipment supplier, and a required third party independent testing firm.

DMVA - Grand Rapids Home for Veterans – Networked Door Access Control and Video Surveillance System – Work on the video surveillance system, door access control, and new security office is nearly complete. The patient wandering system installation is in progress with completion expected by July. The substantial completion meeting is tentatively planned for 7/2.

DMVA - Grand Rapids Home for Veterans – Chiller Replacement – Carriers factory rep was not able to start chiller-1 after being shut down all winter, which was installed last spring in the first phase, because of a suspected freon leak. After some discussions, Carrier finally agreed to perform the repairs under warranty.

Jan Miller:

Accomplishments:

Flint State Office Building, Interior Renovations – Worked with WTA and DHHS on laying out the 7th floor build out. We anticipate a sign off the week of 6/22 so a bulletin can be issued for pricing and DBI can layout the cubicles.

Capital Area Reconfiguration Project – Attended a programming session for the DTMB relocation to the LTA. Furniture options and images were presented.

DNR Silver Lake State Park Day Use & BAS Improvements – ISID contract was awarded to PSI for material testing. Pre-construction meeting is scheduled for 6/30.

Dave Sproul:

Accomplishments:

Capital Area Reconfiguration, State Police – Met with PARTNERS In Architecture and The Christman Company to review the schematic design cost estimate. PARTNERS In Architecture presented the final programing layouts for the GOB and Christman has begun their detailed take-offs and estimating. We are scheduled to meet periodically within the next several weeks to continue reviewing and completion of the schematic cost estimate. In addition, we met with the DTMB cyber group to begin the programing process for their space within the GOB. We have previously held space within the 2nd floor GOB in anticipation of their inclusion with the project.

MDOC, Michigan Reformatory Power Plant, Water Softeners and DeAlkalizer System Replacement – The new brine system silo tank has been professionally cleaned and we are working to be substantially complete by the end of June. Sterling Water Treatment has been on site providing checkout and startup inspections.

Jackson College, Bert Walker Hall Renovations – Completed and approved the release of construction subcontracts for the structural steel and hydraulic elevators.

Potential Issues/Solutions:

MDOC, Ionia Energy Project – Met with ESG and MDOC staff to review and discuss the final construction documents for the mechanical retrofit and heating system conservation measures. Major discussion points included the new heating building for MTU and boiler floor design within the Michigan Reformatory power plant. We are working to have the final construction bid package ready for release within July. Construction activities may begin tentatively by September.

Steve Urban:

Accomplishments:

Mason Building Renovations - Met with ORS management to discuss their need for a main lobby toilet room. It was agreed that a uni-sex toilet room will be provided at the main lobby in the MIOSHA waiting area. MIOSHA has agreed to give up this area for the toilet room. MIOSHA's waiting area will now be located in the 1st floor east wing. CSM was given authorization to proceed with the design and cost estimates.

Food Concessions Area - Met with LARA to confirm that a new food concessions area was/was not to be provided. LARA has decided that even a downsized food concessions area is not economically justifiable. Vending machines only will be provided in the building.

ORS – Accessibility Issues - Met with parking office, BOD, and ORS to discuss accessibility issue to the ORS Retirement Outreach Center located on Mason 1st floor. Signage/way finding is to be provided along Allegan St. as well as other feeder streets to the Capital Complex ORS Outreach Center. Nowak & Fraus will be providing signage and way finding options based upon their Capital Complex signage/way finding study.

DNR, Porter Ranch Barn Re-roofing - Posted design/build proposal on Buy4Michigan. This project involves re-roofing of an historically significant barn structure.

Projects Complete:

OPS Center Parking Lot Repairs - Conducted construction punch list inspection. Contractor completed all parking lot repairs in time for the car show which is to take place the weekend of 6/18-6/19.

Potential Issues/Solutions:

MDOC St. Louis Door Replacement Project - Conducted construction pre-bid meeting; only one bidder attended. It was decided that the bid period will be extended and another mandatory pre-bid meeting is to occur. St. Louis personnel have notified potential bidders to attend.

Section Manager: Harold Belcher, Project Management B
DCD/DNR quarterly meeting (met with Janice Hebekeuser and Pat Avendt); HAL.

Chris Bahjet
Nothing significant to report.

Tim Hall
New Projects:
DTMB State Warehouse Facility Building 100 Renovation – Design team meetings to advance programming and review prior "Purposeful Facilities" workshop visions for new workplace designs completed in 2014 by DCD, RED and BOD staff. Conducted preliminary programming estimate workshop with Christman and Hobbs+Black to kick off initial cost estimate preparations.

DCH Center for Forensic Psychiatry Perimeter Lighting Upgrades – Conducted pre-proposal meeting for PSC selection, received proposals and distributed to evaluation committee to prepare for selection and contract recommendation.

DCH Center for Forensic Psychiatry Shower/Toilet Upgrades – Conducted 90% construction document review meeting with WTA and agency. Established schedule for bid document completion, advertisement and bidding.
Bidding/Construction:
DMVA Fort Custer Vehicle Storage Addition CST – DMVA provided MOP revision adjusting funding to support bids received; C2AE proceeding with bidder evaluations and will forward contract award recommendation.

MDOC Women's HVCF ADA Walks & Paving – Contractor mobilized and began work on initial sequences of phase 2 walk and paving work; minor detail coordination with facility during first few days, contractor worked weekend to complete first segment of east ring road and will begin segment 2 next week.
Potential Issues/Solutions:
DCH Center for Forensic Psychiatry On-site Warehouse – Contractor re-mobilized after resolution of unforeseen underground interferences were resolved with no additional costs; foundation installation completed and block wall installation is now underway.

MDOC Women's HVCF Prisoner Service Building – Multiple pricing of solutions for numerous concealed existing conditions is under review for change order evaluation and recommendation. Agency/facility leadership have been advised of preliminary costs and funding needs as well as completion impact. Expect recommendations next week with projected time extension of roughly 115 calendar days.

Bruce Hassen
Accomplishments:
The successful contractor for the Camp Baraga demolition and redevelopment contract was selected; MD Contracting, Inc. of Baraga.

Chris Kulhanek
Nothing significant to report.

Matt Miles
Nothing significant to report.

Rashmi Patel
Accomplishments:
Saginaw, Oaks and Chippewa Correctional Facility - Video Management Systems - Initial meeting with PSC at the Saginaw Correctional Facility. MDOC met at Oak and Chippewa Correctional Facility. Reviewed

scope for the project and MDOC master plan to cover all existing cameras, perimeters and lighting improvements. PSC will provide contract modification.

Macomb Correctional Facility - Video Management Systems – Attended progress meeting. Contractor is ahead of schedule. PSC has received cost estimate for bulletin #1.

Thumb Correctional Facility - Video Management Systems – Attended progress meeting. Contractor is on schedule. PSC has received cost estimate for bulletin #1.

Carson Correctional Facility - Security Fence Upgrade - Received bids and received PSC recommendation to award contract.

Ionia Correctional Facility - Restore Roofing, Housing Units 1-7 – Attended mandatory walk-through meeting at site for roofing contractors.

Parnall Correctional Facility - Food Service Roof Replacement - Received bidding documents.

Sadi Rayyan
Accomplishments:
DEQ Ott Story Site – Met with agency and Bruce Hassen to discuss contracting terms and options for operating the system if and when staff employment issues within the current O&M contractor escalate.

DEQ Memphis Shell Site – Reviewed specifications for free product removal utilizing chemical injection and vacuum extraction. Discussed with agency scope of work and recommended putting the construction activities on hold. The PSC to conduct a pilot test before implementing the designed system.

DEQ Generic Exposure Assumption Values Project – Reviewed and recommended an agreement with SRC to compile, evaluate, select, document and tabulate the best available generic exposure assumption values used to derive the Part 201 generic residential and nonresidential cleanup criteria.

DMVA Fort Custer Training Center – Reviewed and recommended an agreement with KNC to conduct research activities on Cerulean Warbler and other migratory birds.

DMVA Fort Custer Training Center – Reviewed and recommended changes to the agreement with Potawatomi RC&D to provide erosion and sediment control activities for the repair of eroded maneuver trails in training areas 6 and 8.
Non-Project Related Activities:
Met with DEQ to discuss new ISID contracts for the environmental expanded triage.

Attended "Cut Costs with Cool Roofs" Webinar.

Jud Sorensen
Nothing significant to report.

Terry O'Brien
Accomplishments:
Survey at Gaylord. SESC plan and spec review for DNR Petoskey State Park.

Bruce Watkins
Nothing significant to report.

Section Manager: Dennis Stamm, Project Supervision
Projects:
MDOC - Carson City Corrections – Underground Electrical Cable Replacement – Draft copy of the Design Build bid documents completed. Design meeting scheduled for 6/26.

DTMB – GSB Painting the Exterior of Building – Performance bond received, so a notice to proceed will be issued to the contractor the week of 6/22.

DMTB – ISID Insulation of Pipe and Duct Insulation Project – Completed final draft of bid proposal documents to be posted on Buy4Michigan.

Section Manager: Pat Mullen, Contract Services

Nothing significant to report.

WR Ending June 26, 2015

Section Manager: Irene Henry, Project Management Section 'A'

Took bids for MLB demolitions. Attended DTMB All-Manager's Meeting. Pulled stored records from the US Bankruptcy Court for Real Estate, reviewed them and uploaded the as-builts into TRIM. Met with Byce and Jerry Gregorski to discuss a request for additional fee.

Bob Adams:

New Projects:

MDOC Marquette CF Generator – Held PPP and issued ISID project statement to Matrix Consulting.

MDOC AMF Fence B Upgrade – Held PPP and issued ISID project statement to Tower Pinkster.

Design:

MDOC Kinross CF Housing Unit K Roof System – Participated in phase 500 50% design meeting.

DNR Mackinac Island SP Road Repairs – Participated in PSC kickoff design meeting.

DNR Fayette Historic SP Snail Shell Harbor Dock Replacement – Prepared draft project statement based on new direction from agency.

MSP Calumet Post Roof Replacement – Conducted 50% design review meeting with PSC and agency.

Bidding:

DNR Mackinac Island SP Visitors Center and British Landing Roof Upgrades – Advertised on Buy4Michigan.

Construction:

DNR Indian Lake SP Shoreline Restoration – Participated in substantial completion meeting.

DNR Palms Book SP Toilet Building Replacement – Participated in progress meeting and review for substantial completion.

Projects Complete:

DNR Presque Isle Dam Repair – Conducted substantial completion meeting.

Scott DeKorte:

Nothing significant to report.

Joel Gordon:

Nothing significant to report.

Jerry Gregorski:

Nothing significant to report.

Jan Miller:

Accomplishments:

Flint State Office Building, Interior Renovations – The 5th floor was punched out 6/25. DHHS signed off on the 7th floor build out 6/24, WTA is working on the bulletin for the change.

Potential issues/Solutions:

DNR Maybury State Park Trail Improvements – The contractor is behind schedule. The PSC notified Pavex, the contractor, that liquidated damages would be assessed starting 6/29.

New Projects:

DNR Island Lake Recreation Area Connector Trail – Held the project planning partnering (PPP) meeting 6/22 with DNR regional planner and park manager.

Dave Sproul:

Nothing significant to report.

Steve Urban:

Nothing significant to report.

Section Manager: Harold Belcher, Project Management B

Annual leave.

Chris Bahjet

Nothing significant to report.

Tim Hall

New Projects:

DTMB State Warehouse Facility Building 100 Renovation – Conducted design meeting for campus site planning with all tenant users of the warehouse complex to begin development of master campus plan for integration of FBSA offices on the campus with all other on-going activities.

DMVA Jackson Armory Maintenance Bay Addition – PSC has performed a site evaluation and is completing expedited 90% design for final review and release for bidding as per DMVA requested schedule.

Potential Issues/Solutions:

MDOC Women's HVCF Prisoner Service Building – Initial reviews completed for various significant field conditions and recommendation from PSC in final review. Agency/facility leadership have been advised of probable costs and funding needs as well as completion impact and are preparing necessary revisions. Expect time extension of roughly 115 calendar days due to unforeseen conditions.

MDOT Blue Water Bridge HVAC Replacement – Design/build contractor continuing adjustments to troublesome booth system operations and have made significant progress resolving the operational concerns. Building systems are operating consistently and coordinating with BWB team to adjust booth approach for final operation.

Bruce Hassen

Construction Starts:

The demolition of Camp Cusino has been delayed because LARA – Bureau of Construction Codes has demanded that we get a permit from them and pay an estimated $4,676 in fees. We will comply.

Potential Issues/Solutions:

Three professionals were invited to provide price proposals for preparing bid package and overseeing the demolition of a structure in Iron River. The pricing was unaffordable so D&C will have to work with the agency to scale down the scope of work definition and try again.

The effort to renew all the air permits for the many MDOC central heating plants have been underway for half of a year. There are paperwork deficiencies associated with the current permits and these have been discussed during this period. At the most recent high-level meeting between DEQ-AQD, MDOC, and MDOC's professional (FTCH), the penalty phase was discussed and the schedule for the formal meetings pursuant to this phase will be scheduled soon. MDOC needs to know all options before selecting the path to compliance and AQD agreed to supply the information.

Chris Kulhanek

New Projects:

Ham Creek Trail Bridge Replacement – Set up PPP meeting at site in early July. Most likely will be considering an ISID assignment due to urgency of project.

Potential Issues/Solutions:

MSP Training Academy – Window Replacement – Existing frames at cafeteria windows have been cut out to accommodate supply lines to fin tube radiators.

Solution – Rather than move the lines, which would be quite costly, the window frames are going to be shifted to avoid the supply lines altogether.

Matt Miles

Accomplishments:

Completed field work for DNR Gaylord Railroad project.

Attended All Manager's Meeting.

Completed SEOC State Building Authority drawing.

Rashmi Patel
Nothing significant to report.

Sadi Rayyan
Accomplishments:
DEQ Crystal Refinery Site – Reviewed and recommended an award of construction contract to Clean Harbors Environmental Services to provide 2 years of system O&M of the ozone/airsparge and bioreactor treatment system.

DEQ Torch Lake Superfund Site – Reviewed specifications for removing contaminated soils for posting on Buy4Michigan website. Discussed with agency scope of work and provided comments.

DEQ Fort Gratiot Sanitary Landfill Site – Reviewed specifications to repair erosional issues, modify/add structures to improve water flow/drainage and plant trees/grass for posting on Buy4Michigan website. Discussed with agency scope of work and provided comments.

DEQ Helmer I-94 Site – Reviewed specifications for installing AS/SVE remediation system and providing O&M services for posting on Buy4Michigan website. Discussed with agency scope of work and provided comments.

DEQ Americhem Site – Reviewed and recommended changes to the contract with Environmental Consulting & Technology to perform multi-phase extraction (MPE) event and provide additional maintenance/monitoring/sampling.

DEQ Tiel Oil Bulk Site – Reviewed and recommended changes to the contract with Mannik & Smith Group to install monitoring wells, conduct vapor intrusion assessment and complete the remediation design.

DEQ Slagg's Auto Service Site – Reviewed and recommended changes to the contract with Global Remediation Technologies to install 3 monitoring wells for soil/groundwater sampling to complete the contaminant boundry.
New Projects:
DEQ Various Sites – Assigned to Sagasser & Associates under their expanded triage ISID contract to screen, investigate and assess the current risks at 10 LUST sites.
Non-Project Related Activities:
Attended “New Building Delivery: Constructed, Commissioned, Warrantied and Inefficient” webinar.

Jud Sorensen
Construction Starts:
A pre-bid meeting was held for the installation of roof top HVAC units for the Jackson State Office Building. To expedite this project, these roof top units had been purchased under a separate contract. It is anticipated that this contract will be awarded in August 2015 with work to be completed by January 2016. The project is being expedited due to an existing chiller that is in poor condition and subject to failure. Due to the age of this unit, repair is not an option.
Potential Issues/Solutions:
Materials Testing Consultants, Inc. was contacted and requested to provide a proposal for an assignment to their ISID contract to perform an inspection of those portions of the building that will be disturbed by the proposed installation, including demolition of the existing chiller and cooling tower, demolition of existing air handling units and modification of existing duct work. A walk-through of the facility with Materials Testing Consultants was completed on 6/17. Although this building was constructed in 1982 at a time when asbestos containing building materials were being regulated and banned, inspection, sampling and testing is being performed to assure that asbestos will not be disturbed during the execution of this project.

Terry O'Brien
Accomplishments:
SESC authorization for DNR Muskallonge Lake State Park and DNR Ionia State Recreation Area.

Bruce Watkins
Accomplishments:
Harrisville State Park – Restroom/Shower Building – Held an 11 month warrantee review meeting. The meeting was well received by the DNR staff in attendance and lessons learned portion of the discussion was helpful to new DNR staff to hear and for the design professional to provide input on how design decisions were made.
New Projects:
Portland State Game Area – Trail Repairs – Met on site with the contractor and DNR to review erosion of work completed last year. Contractor will prepare cost quotation to make the repairs and to construct culverts.

Sharonville SGA – 10 Yard Shooting Stations – Held 90% review meeting.
Potential Issues/Solutions:
Marquette Branch Prison – AST Replacement – Contractor provided excessive cost quotation for asbestos removal. We removed abatement from their contract and had the design professional contract separately for the work. We only saved about $2,000, but we are hoping the contractor will use a sharper pencil for any future change orders. Thanks to Dave Sproul for the idea.

Section Manager: Dennis Stamm, Project Supervision
Projects:
MDOC - Carson City Corrections – Underground Electrical Cable Replacement – Design meeting held on 6/26. Discussed alternates to keep the cost of the project in line with the budget.

DTMB – GSB Painting the Exterior of Building – Notice to proceed issued to the contractor. Work will likely start within 2-3 weeks on site.

DMTB – ISID Insulation of Pipe and Duct Insulation project – RFP posted on Buy4Michigan.
Accomplishments:
Continued with staff yearly IPM reviews.

Attended DTMB All Managers Meeting.

Section Manager: Pat Mullen, Contract Services
Nothing significant to report.

WR Ending July 3, 2015

Section Manager: Irene Henry, Project Management Section 'A'

Revised the bidding documents and re-bid the MLB demolitions, reviewed proposed demolition properties.

Bob Adams:

Nothing significant to report.

Scott DeKorte:

New Projects:

Belle Isle Building Assessments – Conducted pre-proposal meeting and subsequent tour of the six buildings.

Handlon CF Security Upgrades – Attended meeting to strategize possible reduction of the total scope of work to re-bid the project.

Joel Gordon:

Nothing significant to report.

Jerry Gregorski:

New Projects:

DNR Petoskey State Park Trail Development – Received bids from five construction contractors for phase-1a trail development. Unfortunately all five bids were significantly above the funded amount, even if all five deductive alternates were accepted. The DNR is looking into the possibility of additional funding, but that does not seem likely. The PSC is investigating strategies to reduce the scope of work and/or lowering bid costs.

DMVA Grand Rapids Home for Veterans Kitchen Exhaust Replacement – Held the 95% design review. The bid advertisement will be posted the week of 7/6 with bids due 7/29. This work will require a five day shutdown with around the clock work to minimize kitchen down time.

MDOC Ionia CF Perimeter Fence Security System Upgrades – The project planning and partnering meeting was held on site along with the PSC to develop the scope of work for their ISID assignment request.

Construction Starts:

DNR Below-Ground Sewer and Water Study at Eight Parks – A contract modification was approved for the PSC to perform sewage effluent and soil testing on the existing lagoon while in operation this summer. This will allow them to categorize the waste stream and develop plans with the DEQ for lagoon closure in the fall after connecting to the municipal sewer system.

DTMB Grand Tower AHU Replacement – Received bulletin pricing for upgrading VAV box controllers on each floor to integrate with perimeter heat zone controls, along with a new communications network to integrate the controllers with the building automation system. This new network cable will be routed so that it can accommodate future replacement of VAV boxes with controller upgrades in phase two. This work will be done completely after hours to avoid tenant disruption from the overhead work. The proposal is being evaluated by the PSC and BOD.

DMVA Grand Rapids Home for Veterans Backup Generators – Substantial completion has been delayed until 7/9. The powerhouse generators automatic transfer switch requires field repairs and then additional testing. The other two generator and transfer switch pairs have been commissioned and are in operation.

DMVA Grand Rapids Home for Veterans Networked Door Access Control and Video Surveillance System – Substantial completion has been delayed until 7/23 for the contractor to meet all requirements, including training and final system turnovers to the facility.

Potential Issues/Solutions:
DMVA Grand Rapids Home for Veterans Chiller Replacement – Carrier's factory service were on site to complete warranty repairs to chiller #1. The repairs were completed at no charge and the unit was successfully put back into operation.

Jan Miller:
Accomplishments:
DNR Island Lake Recreation Area Connector Trail – Posted the request for proposal on Buy4Michigan. Pre-proposal meeting is scheduled for 7/20 with proposals due 7/30.

DNR Silver Lake State Park Day Use & BAS Improvements – Held pre-construction meeting on site 6/30.
Potential issues/Solutions:
Flint State Office Building, Interior Renovations – Concerned about the contractor meeting the 6th floor completion date due to lack of manpower. Scheduled a meeting for 7/9 with B&B to discuss.

Dave Sproul:
Accomplishments:
Capital Area Reconfiguration, State Police – Continuing to develop the schematic design cost estimate. We are meeting with PARTNERS In Architecture and The Christman Company to review the final programming layouts and Christman has begun initial detailed take-offs.

Attended the 24 hour, 3-day, Hazwoper training program. The course included regulatory overview, chemical hazard identifications, handling procedures, personnel requirements, levels of protection, and actual demonstrations with protective suits.

MDOC, Michigan Reformatory Power Plant, Water Softeners and DeAlkalizer System Replacement – Continuing to complete the overall installation of the new systems. Sterling Water Treatment is required to provide some additional onsite training and inspections.

SEOC – Exterior construction continues to make good progress and there is notable structural steel and CMU block throughout the building site. Interior drywall and finishes is progressing in both the first and second floors of the GOB. DMVA is completing the contract award for the National Guard modules, we may need to make some minor adjustment to coordinate the delivery and installation.

DCH, State Laboratory, New Waste Incinerator – UL has completed their required inspection of the new incinerator and we are now beginning to schedule the actual on-site installation effort. The on-site activities may begin by late July.
Potential Issues/Solutions:
MDOC, Ionia Energy Project – ESG is incorporating comments and revisions to the proposed heating building to serve MTU. We are continuing to work to have the final construction bid package ready for release within the month of July. The water construction activities and pre-construction meeting is scheduled to begin in July as well.

Steve Urban:
Nothing significant to report.

Section Manager: Harold Belcher, Project Management B
DCD Budget meeting.

Chris Bahjet:
Accomplishments:
DCH - WRPH – Activity Building – Held a conference call with the PSC to address delay issues that are current with the contractor, Daniels Building Co.

DNR – Selfridge BAS – Substantial completion was declared, site was turned over to DNR. Remaining issue is the handrail. Currently being galvanized in Ohio.

DMVA – Selfridge Building 1416 – Attempting to collect as-built after the PSC changed their business. Contacting same engineers and architects who used to work at the firm in an effort to collect any as-builts. PSC has not responded to registered letters and they still have a $20,000 balance to be paid.

Tim Hall

New Projects:

DTMB State Warehouse Facility Building 100 Renovation – Conducted preliminary estimating workshop meeting with Christman and Hobbs+Black to confirm scope and intent upon which Christman is basing their estimate preparation. Preliminary estimate will be reviewed over the next few weeks and ready to present to DTMB team later in July.

DCH Center for Forensic Psychiatry Perimeter Lighting Upgrades – Conducted proposal evaluation, made recommendation and PSC contract to Peter Basso Associates was approved on this week's agenda.

Bidding/Construction:

DNR Yankee Springs Shop/Garage Replacement – Contractor mobilized, laid out and installed foundations and prepared to begin wall construction.

MDOT Southwest Region Laboratory – Participated in bi-weekly progress meeting and site review. Construction is progressing very well and nearing completion on schedule for early August move in. MDOT has recently authorized additional scope to incorporate bid alternates due to very limited changes impacting the budget as the project has advanced.

Bruce Hassen

Construction Starts:

A notice to proceed was issued for the Nokomis Challenge Center demolition. A kickoff meeting will be held at 10:00 a.m. on 7/6.

Chris Kulhanek

Potential Issues/Solutions:

Rose Lake Shooting Range – New Education Building - Pre-design meeting held after contract mod was expedited to get a PSC on board. The PSC expressed concerns that even if the project were to be bid for fall construction, it is unlikely materials with long lead times such as roof trusses would be delivered before winter. He also cautioned about the costs and pitfalls of cold-weather construction. Solution – PSC will review their schedule for preparing documents, design review time will be minimized and the bidding/contract delivery will be shortened as much as possible. Despite these actions, the DNR project manager will inform his division leadership that a spring start of construction is a more likely scenario.

Matt Miles

Nothing significant to report.

Rashmi Patel

Accomplishments:

Cooper Street Correctional Facility - Phase II Video Management System – Attended pre-construction meeting for phase II construction.

Charles Egeler Reception and Guidance Center - Video Management System – Attended progress meeting. Contractor is on schedule, installing foundation for lighting and camera poles and control cabinet.

MDOT C and T Building Masonry and Window Repair - Met with agency and PSC to discuss scope for the design and construction phase. PSC will provide contract modification based on previously prepared phase 100 study and recommendation under option 4.

Sadi Rayyan

Accomplishments:

DNR Otsego Township Dam Project – Reviewed request for qualifications (RFQ) to construct water control structure, construct a new spillway and stabilize the existing spillway. Discussed with agency and PCS contracting issues and provided comments. Posted on Buy4Michigan website.

DMVA Fort Custer Training Center Site – Reviewed and recommended changes to the contract with DLZ to perform forest inventory/evaluation, clearing and removing invasive/exotic plants.

DEQ Sunshine Foods #119 Site – Reviewed and recommended changes to the contract with Mannik & Smith Group to conduct annual groundwater sampling events for two years.

New Projects:

DEQ Howard Jameson A & H Racing Site – Assigned to AKT Peerless under their ISID contract to prepare design/bid specifications for the removal of the contaminated soils and provide construction oversight services.

Jud Sorensen

Potential Issues/Solutions:

In a 7/2 progress meeting with J. Ranck Electric for the primary cable replacement between housing units 3 and 5 at the Women's Huron Valley Correctional Facility, the project superintendent indicated that he was approximately 10 to 14 calendar days behind schedule with only 17 calendar days remaining in his contract. Failure to complete this project on time will delay the start of the utility tunnel steam piping replacement project which could leave housing units without heat during the upcoming heating season. A notice requiring assurance of due performance has been issued by Tower Pinkster to J. Ranck Electric on 7/6 and a meeting with J. Ranck to review their plan to correct the issue is scheduled for 7/8.

Terry O'Brien

Bruce Watkins

Accomplishments:

Ionia Recreation Area – Sessions Creek Bridge Replacement – Contactor has prepared forms for installation of bridge footings. Area was wet for most of the past two weeks so installation was delayed for the area to dry out and be accessible for concrete delivery. Project is on time and no budget changes or other unforeseen conditions were encountered.

Construction Starts:

Hayes State Park – Lake Hudson Dam Improvements – Established bid schedule for this work. Budget is in place to move forward.

Section Manager: Dennis Stamm, Project Supervision

Nothing significant to report.

Section Manager: Pat Mullen, Contract Services

Nothing significant to report.

WR Ending July 10, 2015

Section Manager: Irene Henry, Project Management Section 'A'

Reviewing inspection reports on demolition properties. Working on updating procedures. Investigating the IT standard for sizes of telecom closets; 8 x 10 is stated as the minimum size and this seems large for small leased offices of a couple thousand square feet.

Bob Adams:

New Projects:

MSP St. Ignace Cold Storage Design – Received work order. PPP meeting setup for 7/20.

DNR Spring Dam Demo – Held PPP, wrote project statement for ISID proposal from Ohm and distributed.

MDOC Baraga Fence B Security – Held PPP on site and processed an ISID assignment with Tower Pinkster.

MDOC MBP Circulating Pumps – Held PPP and processed an ISID assignment with Matrix Consulting.

MDOC MBP Generator Upgrade – Held PPP and processed an ISID assignment with Matrix Consulting.

Design:

DNR Mackinac Island SP Road Repairs – 50% phase 500 design meeting.

DNR Union Bay BAS – Held the 100% review meeting and posted project for bidding.

DNR Snail Shell Harbor – Provided draft project statement to DNR for comment.

Bidding:

DNR Mackinac Island SP Visitors Center Roof Upgrades – Conducted mandatory pre-bid meeting.

Scott DeKorte:

New Projects:

Riverside/Deerfield CF Storm Water Cross Connection - Conducted 90% design review meeting.

Huron Valley CF East Sally Port Security Upgrades – Conducted 90% design review meeting.

Lakeland CF Perimeter Security Upgrades – Conducted pre-bid meeting.

Construction Starts:

Thumb CF - Perimeter Security Upgrades – Conducted pre-con meeting.

Joel Gordon:

New Projects:

DNR Thompson State Fish Hatchery Raceway End Closures – Bids were received on 7/8. The letter of recommendation is forthcoming from the PSC.

DNR Hoffmaster SP Construct New Dune Stairs – Bids were received 7/8. The letter of recommendation is expected from the contractor this week.

DNR Stoney Creek Flooding Reconstruct Existing Dam – The pre-bid meeting was conducted at the project site. Bids are due 7/22.

DTMB Michigan Law Enforcement Officers Memorial – I attended the monthly MLEOM Commission meeting to review project status with the full Commission.

Construction Starts:

DNR Wolf Lake Fish Hatchery Erosion Control – A preconstruction meeting was conducted at the project site. On site work is expected to begin the week of 7/13.

Jerry Gregorski:
New Projects:
DNR Harrietta Fish Hatchery Wells #2 & 4 Generator Backups and VFD Controls – The pre-bid meeting was held on-site and the bids are due 7/15.

MDOC St. Louis CF Perimeter Fence Security System Upgrades – Held the PPP with the prospective ISID PSC to develop the scope of work for their ISID assignment proposal.

DMVA Grand Rapids Home for Veterans Kitchen Exhaust Replacement – Advertised for bids with the pre-bid meeting scheduled for 7/20 and the bids are due 7/29. This work will require a five day shutdown with around the clock work to minimize kitchen down time.

MDOC Woodland Center CF Perimeter Fence Security System Upgrades – The construction contract with Midstate Security was executed and the preconstruction kickoff meeting was setup for 7/22.

MDOC Gus Harrison CF Perimeter Security Enhancements – The construction contract with American Fence was executed and the pre-construction kickoff meeting was setup for 7/22.
Construction Starts:
DTMB Grand Tower AHU Replacement – Submitted a contract change order request to the 8/4 State Administration Board Agenda for upgrading VAV box controllers on each floor to integrate with perimeter heat zone controls, along with a new communications network to integrate the controllers with the building automation system. The base scope of work is currently targeted for substantial completion on 7/23. The change order will extend the additional work approximately three months past this date.

DMVA Grand Rapids Home for Veterans Backup Generators – Substantial completion is still delayed pending successful field repairs and additional testing of the powerhouse generators automatic transfer switch. The other two generator and transfer switch pairs have been commissioned and are in operation.

Jan Miller:
Annual leave.

Dave Sproul:
Annual leave.

Steve Urban:
Accomplishments:
DNR Porter Ranch Barn Re-roofing – Construction bids received on 7/8; only 1 bid submitted.

MDOC St. Louis Door Replacement Project – Construction bids received on 7/8; 2 bids submitted.

DTMB Mason Building Renovations – Final ORS move took place the weekend of 7/11.
New Projects:
Lake Superior Hosting Center, Electrical Upgrades – IT upper management has authorized DTMB to proceed with design phases 400 and 500.

Section Manager: Harold Belcher, Project Management B
Meeting with Financial Services regarding performance contracting fees.

Chris Bahjet
Nothing significant to report.

Tim Hall
New Projects:
DMVA Jackson Armory Maintenance Bay – Conducted 90%+ final design review with C2AE and DMVA, minor modifications will be implemented and release for bidding is expected within 2 weeks.

DTMB State Warehouse Facility Building 100 Renovation – Conducted preliminary estimating and programming reviews in preparation for team evaluations and preliminary budget/scope package for presentation to DTMB team.

Potential Issues/Solutions:

MDOC Women's HVCF ADA Walks & Paving – Contractor has struggled to meet the contract requirements for phasing and continuous access for the facility during initial weeks and has submitted several requests for additional compensation. Conducted review of requests with Nowak Fraus and Dave Woods to discuss prompt response; all of the issues were deemed clear contract requirements or very minor in nature.

Bruce Hassen

New Projects:

The DEQ staff is going through their files looking for idle projects that are not completed or formally closed. This resulted in their Southeast Michigan office (Warren) calling about the heating oil release at Camp Pontiac (Brownfield #101) and the Flint office sending a form letter to Tracy Clark at Real Estate essentially saying get back to work on the Flint School for the Deaf LUST Site (Brownfield #195). DTMB has no funding to do either (at least not for fiscal year 2015). More of these are expected from DEQ.

Construction Starts:

The demolition work at the Nokomis Challenge Center began on the morning of 7/6 after the local TV station conducted a photo-op for one of the local politicians who took a few ceremonial sledgehammer swings at the building.

Potential Issues/Solutions:

The funding available for the demolition of Highland Park High School is not adequate per DTMB – D&C. The idea put forward at last meeting is to get the bid package out and find out for sure. We are in agreement that the firm that did the environmental evaluation, and who has an ISID contract besides, would be the best choice to produce the bid package.

Chris Kulhanek

Nothing significant to report.

Matt Miles

Non-Project Related Activities:

I attended the DTMB New Supervisor Training administered by the DTMB HR.

Arranged interview appointments for the candidates who wish to fill the Land Surveyor 9, 10 and 11 position.

Rashmi Patel

Nothing significant to report.

Sadi Rayyan

Accomplishments:

DEQ Ott/Story/Cordova Superfund Site – Reviewed and recommended an award of construction contract to Quality Maintenance Contractors to paint/repair the components of the existing groundwater remediation system.

DEQ U.S. Aviex Superfund Site – Reviewed and recommended changes to the contract with Weston to provide vapor intrusion risk evaluation and technical support.

DEQ Utica Landfill Site – Reviewed and recommended an award of construction contract to E. T. MacKenzie to excavate, remove and dispose of soil/waste and restore the site.

DEQ Riverside Park-Parcels Site – Reviewed and recommended changes to the contract with Global Remediation Technologies to conduct pilot tests and install seven monitoring wells for soil/groundwater sampling to complete the contaminant boundry.

DMVA Fort Custer Training Center Site – Reviewed and recommended changes to the contract with DLZ for conducting archeology/bat/butterfly/wetland hydrology surveys as part of the EIS activities.

DEQ Cal's Car Care Site – Reviewed and recommended changes to the contract with AMEC to provide evaluation of vapor intrusion risks in off-site areas.

DEQ Logan's Gas & Deli Site – Reviewed and recommended changes to the contract with AECOM to conduct one year of quarterly monitoring and subsequently abandon the site monitoring wells.

DEQ Coe's Cleaner's Site – Reviewed and recommended changes to the contract with Weston to provide O&M contractor oversight, sampling, bulletin preparation and technical support.

New Projects:

DEQ Former Wickes TCE Plume Site – Assigned to AMEC Engineering under their ISID contract for expanded pressure transducer testing, semi-annual groundwater monitoring, well network expansion and technical support.

Construction Starts:

MDOC Oaks Correctional Facility Site – Field activities for elevated tank painting and repairs begin 7/6 with substantial completion by 8/31.

Met with MSP and RED on proposed St. Ignace MSP Storage Building; the building would be on Bridge Authority Land and can be done as part of the MSP lease with the Bridge Authority. Meeting with staff for IPMs and workload reviews. Debriefed prospective ISID PSC. Met with AGs on MICHSPEC revision.

Bob Adams:
New Projects:
MDOC Baraga Max Roof Coating – Received MOP and conducted PPP.

MDOC Marquette CF Fence Upgrades – Reviewed contract status - Matrix and Commtech.
Design:
MDOC Kinross CF Housing Unit K Roof Improvements – Participated in phase 500 90% design meeting.

DNR Mackinac Island SP Road Repairs – Reviewed phase 500 100% design documents.

DNR Hancock to Calumet Rail Trail Lake Linden Washout – Received contract modification draft and forwarded to DNR for review.
Bidding:
MSP Calumet Roof Replacement – Received bids and directed PSC to conduct interview.
Construction:
DNR Pigeon River Footbridge Stabilization and Stream Bank Restoration – Participated in a meeting to review a request for equitable adjustment regarding helical pier work.

DNR Union Bay Toilet/Shower – Conducted progress meeting at site.
Projects Complete:
DNR Eagle Harbor Boathouse Roof – Final inspection.

MSP Negaunee Roof – Processed final contract modification to PSC.

Scott DeKorte:
Construction Starts:
DOE Camp Tuhsmeheta Miscellaneous Repair Projects – Conducted pre-construction meeting.

Joel Gordon:
Nothing significant to report.

Jerry Gregorski:
New Projects:
DNR Campground Electrical System Study Statewide at Eight Locations – A request for proposals for professional services was posted on Buy4Michigan. The pre-proposal meeting will be held at Petoskey State Park on 8/3 and the proposals are due 8/12.

DMVA Grand Rapids Home for Veterans Kitchen Exhaust Replacement – The pre-bid meeting and site walk-through was attended by only a single prospective bidder. The bidder is a well-qualified reputable mechanical contractor and so a single bid may be acceptable if the pricing is reasonable. The bids are due 7/29 and this work will require a five day shutdown with around the clock work to minimize kitchen down time.

MDOC Personal Emergency Location Systems Phase-2 at Six Locations – Contract awards to Master Electric were approved by the Ad Bd for both the Chippewa site and the combined Brooks & Central Michigan sites. Plans are underway to re-package and re-bid the Cooper Street, Parnall, and Gus Harrison sites individually with a staggered release schedule to increase bidder response.

DNR Petoskey SP Trail Development – All five bids for the phase-1a trail development were significantly above the funded amount. The PSC has provided cost estimates for construction of the full phase-1 trail,

both phase-1a and 1b, for requesting additional FY16 funding. Plans are to re-bid the entire phase-1 during the fall/winter with construction scheduled for spring and/or fall 2016. It is hoped that the better bidding schedule and economy of scale of the full phase-1 will improve the bid results.

Construction Starts:

MDOC Gus Harrison CF Perimeter Security Enhancements – Held the pre-construction meeting with American Fence. The 120 day contract time was started with substantial completion set for 9/18. MDOC is currently evaluating a technology upgrade to change the replacement shaker box cable perimeter security system to the new SenStar Flex-Zone system. If this decision comes within the next two to three weeks the project schedule should not be impacted.

MDOC Woodland Center CF Perimeter Fence Security System Upgrades – Held the pre-construction meeting with Midstate Security. The 120 day contract time was started with substantial completion set for 11/18. MDOC is currently evaluating a technology upgrade to change the replacement shaker box cable perimeter security system to the new SenStar Flex-Zone system. If this decision comes within the next two to three weeks the project schedule should not be impacted.

DTMB Grand Tower AHU Replacement – The contractor was not quite ready for substantial completion at the regular project meeting this week. A punch-list walk-through and substantial completion meeting for the base scope of work was scheduled for 7/31. The added VAV controller and communication network will not begin until after approval of the contract change order on the 8/4 Ad Bd Agenda.

DMVA Grand Rapids Home for Veterans Networked Door Access Control and Video Surveillance System – Substantial completion has again been delayed until 8/20. Internally creating and distributing the photo ID door access cards to all facility staff has been a bottle neck. The final door access control tie-ins cannot be made until all staff have been issued their door access cards.

Jan Miller:

Accomplishments:

Flint State Office Building, Interior Renovations – Received an updated schedule from B&B showing the 6th floor completion date of 9/1, as agreed upon. We'll have to closely monitor progress relative to the schedule in order to meet the critical deadline set by DHHS.

DNR Dodge #4 SP Boat Access Site and Park Improvements – The contractor, Blue Spader, has completed 2 of the 4 phases of the project on schedule. Phase 3 is underway without issue.

DNR Island Lake Recreation Area Connector Trail – Held the pre-proposal meeting 7/20, 13 professional firms attended. Proposals are due 7/30.

Dave Sproul:

Accomplishments:

Capital Area Reconfiguration, State Police – The Christman Company has completed their initial take-offs and released the construction estimate of $7.2M total to move MSP into the GOB. This initial construction estimate includes the base building scope with the proposed fitness and locker room estimated at $1.4M. Overall professional fees, furniture and IT costs are being assembled as well.

MDOC, Michigan Reformatory Power Plant, Water Softeners and DeAlkalizer System Replacement – All construction activities have been completed and we are scheduling some additional onsite training and inspections by the water treatment manufacture.

MSP/DMVA SEOC – Exterior construction continues with better weather conditions and the roof panels are scheduled to begin installation the last week of July. The site has very little standing water remaining. DMVA has completed the award of the final secure modules and they are now in the manufacturing stage; however, the delivery schedule for the secure units is now projected for next March, 2016. We are working to have the SEOC substantially complete by the end of December.

DCH, State Laboratory, New Waste Incinerator – The contractor is tentatively scheduled to begin installation of the new incinerator the week of 8/17. Complete installation shall be provided within 45 days.

Wayne State University, Multidisciplinary Biomedical Research Building – We have received from WSU the Certificate of Tenantability for the project.

MDOC, Ionia Energy Project – ESG is incorporating comments and revisions to construct a new separate heating building to serve MTU. This design is being incorporated within the bidding documents and we are working to have the final construction bid package ready for release within August. The water and electrical construction activities have begun with the pre-construction meetings as well.

Potential Issues/Solutions:

MDOC, Thumb Correctional Facility, Water & Sewer System Improvements – Conducted the pre-construction meeting for this project. However, DTE has now indicated they will not provide a new primary power feed as originally planned. We are working with DTE to develop a new plan that will result in a bulletin and change order to our contractor.

Steve Urban:

New Projects:

DNR Shiawassee State Game Area Bridge – DNR management would like to pursue the design and construction of a pre-engineered/pre-fabricated pedestrian bridge in lieu of a more robust vehicular bridge to save cost. I instructed the professional (Williams & Works) to provide a preliminary construction cost estimate.

Potential Issues/Solutions:

DNR Porter Ranch Barn Re-roofing – The only construction bid submitted exceeded the MOP amount. Waiting for DNR to provide additional funding before proceeding with the contract approval process.

Section Manager: Harold Belcher, Project Management B

Surveying position interviews; review Bruce Watkins project status preparatory to his going on annual leave; DCD Financial Report meeting.

Chris Bahjet

Nothing significant to report.

Tim Hall

Nothing significant to report.

Bruce Hassen

Nothing significant to report.

Chris Kulhanek

Accomplishments

Au Sable River Foot Bridge Replacement – Pre-design meeting held on 7/22. Design is finally underway after long delays that resulted from revising work scope to fit limited budget. Contract was executed before grant funds expired.

Potential Issues/Solutions:

Alma Armory Modifications – DMVA sent letter to contractor warning of liquidated damages due to incomplete project.

Solution – By working with DMVA, the PSC and the contractor, it appears an agreement is in place to waive damages if the contractor completes punch list and change order work as expected.

Matt Miles

Nothing significant to report.

Rashmi Patel

Accomplishments:

E.C. Brooks, Correctional Facility - Video Management System – Attended mandatory walk-through meeting at the site with contractors.

West Shoreline Correctional Facility - Video Management System – Attended mandatory walk-through meeting at the site with contractors.

Parnall Correctional Facility - Food Service Building Roof Replacement - Received bids, recommended low bidder.

Ionia Correctional Facility - Food Service Building Roof Replacement - Received recommendation letter and recommended 2nd bidder per PSC best value evaluation.

Sadi Rayyan

Accomplishments:

DNR Otsego Township Dam Project – Received 7 SOQs to construct water control structure and stabilize the existing spillway.

DNR Lead Reclamation at Shooting Ranges – Received an estimate from the PSC to implement lead recovery at the Pontiac Lake & Sharonville Shooting Ranges. Discussed options and available funding with agency.

DEQ Commercial Steel Industrial Area Site – Reviewed and recommended changes to the contract with Nova Consultants to provide 1 year of O&M services of the existing groundwater treatment system.

DEQ Marshall Iron & Metal Site – Reviewed revised specifications for monitoring well abandonment and excavation, transportation, and disposal of waste oil and impacted soils for posting on Buy4Michigan website.

DMVA Fort Custer Training Center Site – Reviewed and recommended changes to the contract with DLZ for soil/sediment/surface water/groundwater sampling activities associated with the wetlands.

New Projects:

DEQ Kihn's Superette Site – Assigned to Sagasser & Associates under their ISID contract to provide environmental investigation, conduct environmental risk assessment/contamination pathway evaluation and reporting.

DEQ Van Stolen Shell Site – Assigned to Sagasser & Associates under their ISID contract to provide focused feasibility study, bid specifications for interim response, construction oversight and reporting.

Construction Starts:

DEQ Spartan Chemical Site – Field activities for contamination source removal and AS/SVE system installation begin 7/21/15 with substantial completion by 2/24/17.

Potential Issues/Solutions:

DOE Flint School for the Deaf & Blind Site – DEQ sent RED a letter requesting that DTMB must comply with the environmental regulations with regard to a confirmed release from the USTs. The site was sold "As Is" back in 2011 and it appears that the release was confirmed/reported to DEQ in 2014. RED is waiting for a legal advice from the attorney general about the purchase agreement & liability issue. DEQ agreed to meet with us to discuss our options after we hear back from the AG.

Non-Project Related Activities:

Attended "Presenting 5 Critical Roofing Performance Considerations" Webinar.

Jud Sorensen

Sick leave.

Terry O'Brien

WR Ending July 31, 2015

Section Manager: Irene Henry, Project Management Section 'A'

Starting to prepare IPMs in HRMN. Working on the IT telecom closet/infrastructure design/construction standard. Prepared and issued a bid set for demolitions of four residences for the Land Bank. Reviewing proposals for Belle Isle Historic Buildings Evaluations. Attended a design workshop for the new FBSA office space.

Bob Adams:

Design:

DNR Hancock to Calumet Rail Trail – Processed PSC mod #5 for additional DNR requested design services to address a washout at Hammel Creek.

DNR Spring Dam Removal – Requested approval from DNR for the OHM ISID proposal.

Bidding:

DNR Mackinac Island SP Visitors Center and British Landing Roof Improvements – Conducted Best Value Evaluation of bids.

Construction:

MDOC Alger CF Roof Restoration – Submitted CCO justification for SAB Agenda approval.

Palms Book SP Toilet Building Replacement – Submitted CCO justification for Director's Agenda approval.

DMVA Jacobetti Boiler Replacement – Processing CCO #1.

MDOT Ironwood Welcome Center - Processing CCO #1.

Projects Complete:

DNR Eagle Harbor Boathouse – Conducted final inspection to verify punch list is complete.

Potential Issues/Solutions:

DNR must close accounting for Detour State Harbor; however, the PSC has not invoiced in approximately 4 years and is unresponsive. Will research and prepare a settlement invoice in order to close out this project, retrieve the contractor's markup as-builts, and close the project.

Scott DeKorte:

Nothing significant to report.

Joel Gordon:

New Projects:

DNR Marquette State Fish Hatchery Raceway End Closure – The pre-bid meeting was conducted on site on 7/27. Bids are due 8/5.

DNR Foch Lake Flooding Reconstruct Existing Dam and Outlet Structure – The pre-bid meeting was conducted on site on 7/28. Bids are due 8/5.

Jerry Gregorski:

New Projects:

DMVA/Grand Rapids Home for Veterans Kitchen Exhaust Replacement – Only a single bid was received for this work. Unfortunately the bid price was much higher than expected and the bidder was unable to meet the five day shutdown requirement, proposing a fifteen day window instead. A meeting with the PSC and bidder is scheduled for 8/4 at the facility to discuss recommendations for reducing the price and shutdown window.

MDOC Pugsley Correctional Facility Waste Water Treatment Plant Engineering Study – Additional funding was added to the project to cover the full scope of the proposed engineering study. An ISID assignment for Gosling-Czubak to perform the study was approved on the DCD Directors Agenda.

DNR Harrietta Fish Hatchery Wells #2&4 Generator Backups and VFD Controls – The construction contract award recommendation for the low bidder, Top Line Electric from Traverse City, was approved on the DCD Directors Agenda.

Construction Starts:

MDOC Personal Emergency Location Systems Phase-2 at Six Locations – A PSC contract modification request was submitted to the 8/18 Ad Board Agenda. This modification will add design and construction administration for another seven facilities to the overall project. The Cooper Street Facility will be posted for re-bidding individually next week with Gus Harrison and Parnall to follow with one being released each month.

DTMB Grand Tower AHU Replacement – The punch-list walk-through and substantial completion meeting for the base scope of work was held on-site. The added VAV controller and communication network work will begin after approval of the contract change order on the 8/4 Ad Board Agenda. Design work for phase two, for full replacement of all VAV boxes and the heating hot water distribution system, is underway.

Jan Miller:

Accomplishments:

DTMB FBSA Relocation to the LTA – Attended the design workshop 7/31 that was facilitated by Karen DeShon.

DNR Island Lake Recreation Area Connector Trail – Received 8 proposals. Evaluation committee is scheduled to meet 8/12 to select a professional.

Potential Issues/Solutions:

Flint State Office Building, Interior Renovations – The 6th floor construction is progressing somewhat per the critical schedule; however, the contractor stated that little has progressed in the lobby due to lack of manpower. Alternate options are being discussed internally.

DNR Maybury State Park Trail Improvements – Held substantial completion meeting 8/31; however, at the meeting it was determined that the contractor was not substantially complete. The contractor was again notified that liquidated damages continue to be assessed, which began 6/29 at $500/day.

Carp River Bridge Go To Meeting; HAL.

Chris Bahjet

Nothing significant to report.

Tim Hall

Nothing significant to report.

Bruce Hassen

Potential Issues/Solutions:

At the Nokomis Center demolition site, a bulletin was issued to enable the completion of the demolition of one part of the building having vermiculite inside of block walls. This will enable the contractor to keep working while funding is arranged to cover the vermiculite inside the gymnasium block walls.

The recent recommendation by USEPA that vermiculite insulation be treated as asbestos-containing material, no matter what lab results indicate, will cost the state an extra $26.4K in demolition costs at the Nokomis site and twice to five times that at the Camp Cusino Site.

Chris Kulhanek
Construction Starts:
Camp Grayling – Light Demo Range – Pre-con meeting held on 7/27. DMVA has completed access road so project can move ahead.

Bolles Harbor – BAS Re-Paving – Pre-con meeting held on 7/31. It was decided in the meeting that it would be best to close the park during the construction of the drive due to the tight working area and to avoid liability issues with the public trying to pass through the construction area.

Matt Miles
Nothing significant to report.

Rashmi Patel
Nothing significant to report.

Sadi Rayyan
Accomplishments:
DNR Otsego Township Dam Project – Bid specs to construct water control structure and stabilize the existing spillway distributed to 4 preselected contractors. Walk-through conducted at the site. Bids are due on 8/12.

DEQ Memphis Shell Site – Reviewed and recommended changes to the contract with Environmental Resources Group to conduct two pilot tests and six quarterly groundwater monitoring.

DEQ Clare's Country Corners Site – Reviewed and recommended an award of construction contract to Ripman Construction Company to demolish the existing on-site building, remove/dispose of contaminated soils and restore the site.
New Projects:
DEQ Former MDOC Optical Property Site – Assigned to Hamp, Mathews & Associates under their ISID contract to conduct environmental investigation/vapor intrusion and reporting.

DEQ 216 Millbrook Site – Assigned to compliance under their ISID contract to remove and dispose of the two USTs, abate contaminated soil and restore the site.

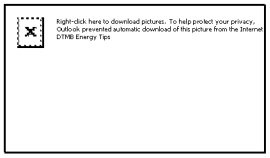
Flint Alternate Water Resource

Date/Time:

Monday, October 5, 2015 at 6:00 a.m. until further notice



Details:

Beginning Monday, October 5, 2015, water coolers will be available in common areas on floors 1-6 of the Flint State Office Building. Although the drinking water has been tested and falls within all DEQ and EPA regulation standards, alternate water sources will be offered to accommodate all tenants due to recent concerns regarding the water supply. Water testing will continue and the alternate water source will be available until all quality concerns are addressed.

Thank you for you cooperation.

Protest Activity

Date/Time:

Wednesday, October 28, 2015 from 12:00pm to 4:00pm

Details:

Please be aware that there is a protest event planned for today, October 28, outside of the Constitution Hall from 12:00pm to 4:00pm. The event is being held in response to the water condition in Flint. Please plan your daily activities with this in mind as a large turnout for this event is anticipated. DTMB and MSP will be working together to monitor the situation.

Team,

I made contact with the City of Flint to get an update on the potable water issue and found that on the re-test the water met the violated MCL from the test in January. Mr. Wright with the City Water Department told me they have made several changes to their operation and are planning to add charcoal filters to the system late this summer. The department still has to meet the MCL guidelines in their quarterly sample May 16th before reporting the water is all clear but it does look like they are making progress. I thought you guys might like the information to help keep up on the issue.

Thank you,
Brian

FYI --
The address given is the Flint State Office Building. Have learned the press is there as well. Larry reminded all staff to basically support the DHHS operation, but stay in the background -- Caleb is to be our voice. Larry said everything seems to be under control.

This was announced late yesterday...

Glad we share information with everyone. Dhhs has the filters on the third floor and they are taking care of it.

DTMB Customer Service (517) 373-6227

Flint Drinking Water

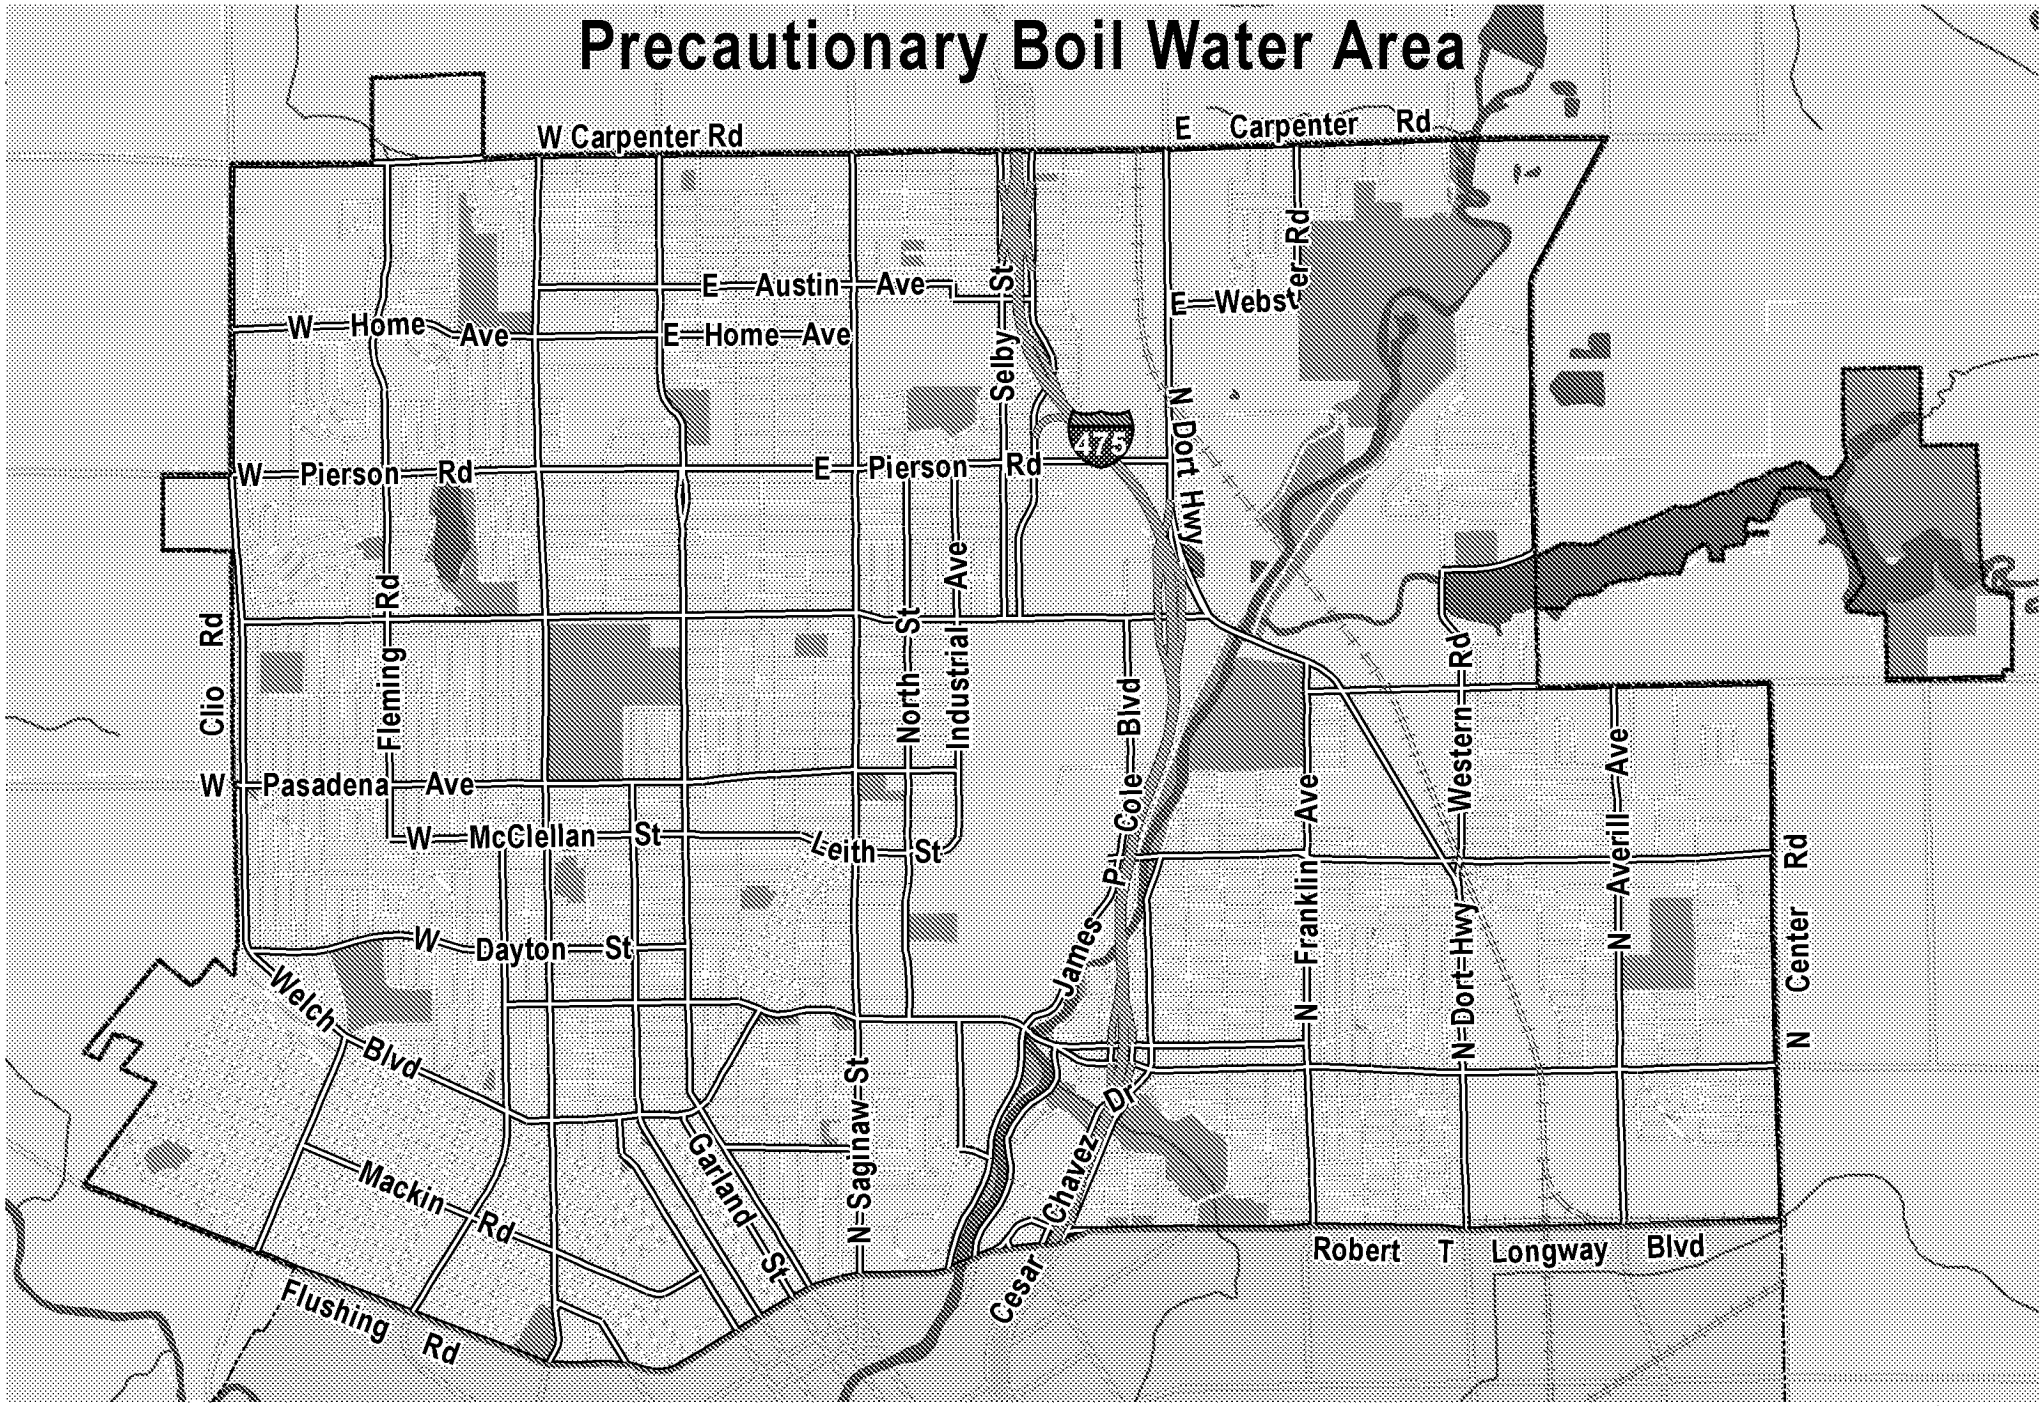
Details:

DTMB will continue to offer tap and bottled water as options in the Flint State Office Building. An advisory has been sent asking residents and businesses within a defined area (see attached notice and map) to boil water before using it. However, the Flint State Office Building does fall within the Area of Interest on the map. Additionally, the results of testing we commissioned in October 2015 showed no signs of threats in the water supply to our building.

We will continue to monitor the water crisis and if at any time we have evidence that our water supply poses a threat to the health of our employees and visitors, we will take

immediate action. Either way, we will continue to provide bottled water as an option for those who are still concerned.

Contact:



DTMB Customer Service Center, DTMB-Customerservice@michigan.gov or (517) 373-6227

GIS City of Flint

2/9/2016

DRINKING WATER WARNING

The City of Flint water system lost pressure and contamination may have occurred
BOIL YOUR FILTERED WATER BEFORE USING

Due to a drop in pressure in the City of Flint water supply, bacterial contamination may have occurred in the water system. Bacteria are generally not harmful and are common throughout our environment. Corrective measures are currently being undertaken to correct the situation.

What should I do?

AS A PRECAUTIONARY MEASURE, DO NOT DRINK THE WATER WITHOUT BOILING IT FIRST. Bring all FILTERED water to a boil, let it boil for one minute, and let it cool before using, or use bottled water. If you are currently NOT using a filter to remove lead from drinking water, FLUSH your water for AT LEAST 7 minutes before collecting any to boil. Boiled FILTERED, boiled FLUSHED, or bottled water should be used for drinking, making ice, brushing teeth, washing dishes, and preparing food. Boiling kills bacteria and other organisms in the water. Continue using boiled or bottled water until further notice.

Due to the pressure loss, there may be trapped air and loose sediment in your water lines. The air and sediment may be removed by flushing you water system. DO NOT FLUSH YOUR SYSTEM THROUGH THE FILTER. The resulting air and sediment may affect the performance of your filter and the filter cartridge should be replaced.

What happened? What is being done?

These precautionary actions are being taken due to the loss of water pressure in the water distribution system caused by a water transmission main break on February 9, 2016. Whenever a water system loses pressure for any significant length of time, precautionary measures are recommended.

The City of Flint Water Department is working to get pressure restored, and water staff will be taking other remedial actions such as flushing and collecting bacteriological samples from around the system. The samples will be collected to determine that the water quality meets the state drinking water standards. We will inform you when tests show no bacteria and you no longer need to boil your water. We anticipate resolving the problem later today. This precautionary boil water notice shall remain in effect until results from the sampling verify the water is safe to drink. **Customers will be advised when the boil water advisory has been lifted.**

For more information, please contact The City of Flint Water Department at (810) 766-7202. General guidelines on ways to lessen the risk of infection by microbes are available from the EPA Safe Drinking Water Hotline at 1(800) 426-4791.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

CERTIFICATION: WSSN: 2310

I certify that this water supply has fully complied with the public notification requirements in the Michigan Safe Drinking Water Act, 1976 PA 399, as amended, and the administrative rules.

Michael Glasgow	UTILITIES ADMINISTRATOR	2/9/16

Wednesday, October 14, 2015, 08:43 PM

House Approves Flint Water Fix

The House unanimously voted this evening to approve $9. 35 million of state funds to return Flint to the Detroit water system and pay for additional state staff in the city's schools to gauge exposure to lead, handle evaluation and protocols on drinking water and to assist with plumbing engineers.

Governor Rick Snyder last week called for state funds to return the city to drawing water from the Detroit system and ending a disastrous move to pull water from the Flint River, as well as funds to pay for additional state staffers from the Department of Health and Human Services, the Department of Environmental Quality and the Department of Licensing and Regulatory Affairs working in the city.

The supplemental (HB 4102) allocates $6 million to get the city back on Detroit's water system; $300,000 for DEQ's drinking water and environmental health services; $1 million for DEQ's laboratory services; $1 million for DHHS emergency services to purchase and distribute water to Flint residents; $850,000 for follow up services for children, including testing lead levels and care for those with abnormal levels; and $200,000 for plumbing inspections.

Insufficient corrosion controls for water drawn from the river – which is inherently more corrosive than water drawn from Lake Huron, where the Detroit system draws its water – caused lead from the city's old service lines to leach into the water, leading to lead levels in the water exceeding the federal standard to trigger remediation and to elevated lead levels in the blood of some Flint children.

Gongwer News Service will have more on this story in Wednesday's Michigan report.

We are prepared to deliver chairs from Lansing if necessary and have them on site by 9:00am Monday.

Marsha-

We have one of the offices originally designed for the Governor's staff in Flint available for your use. It has furniture in it minus a chair and is ready to use starting today. I am sure that we can find an extra chair onsite. There is data in the wall, but I did not see a patch cord on the desk.

I have attached a furniture plan noting the location on the 5th floor and this room's relative location to where another group of individuals related to the water situation are stationed.

This space is currently vacant and in DTMB's control. I have cc'd Mike Noonan and Brian Walts onto this email and they are both aware of your request and in agreement that this room is open for your use. Mike is the Facility Manager and Brian the Building Trades Supervisor.

Please let us know if you need anything else.
Thanks,

Subject: RE: Flint assistance

Bob –
I'm going to put this in my quarterly employee recognition folder as possible staff we will recognize at our next event. I do not currently have the next event scheduled as I'm waiting on conference room options (hopefully) downstairs, but regardless, will be planning something soon.

Thank you!! And go TEAM!!!!

Subject: Flint assistance

Mike-

As we discussed, our teams have been busy supporting the Governor's Office, OIP and the SEOC on the Flint water situation.

Late last week we were asked to set up a conference room for media relations and an office for Mr. Hollins who will be working out of Flint. Jamie Phillippo was in Flint so she located the needed spaces and responded quickly to the Governors' office needs. Mike Noonan also stepped up and made sure there were chairs and other equipment delivered for the space.

Over the weekend, Jeanette Doll from OIP called Will Doxie requesting help identify space to accept water deliveries. Through her knowledge of the market and contacts in Flint, Maureen Bailey got to work on Sunday to identify an affordable distribution center. Water deliveries are beginning this morning to that center.

Yesterday OIP also needed some lab equipment and testing kits delivered to Flint. Mail and Delivery was booked, so Keith Hawes reassigned Tom Taylor to take our truck to Flint and get the equipment delivered.

Hi David,

DynGlobal manufactures units to remove heavy metals including lead from drinking water. Our technology is scalable from under sink units to large municipal scale facilities.

Please let me know how we can assist Flint to remove lead or other metals or bacteria from drinking water. DynGlobal's technology can be rapidly deployed within less than two months to resolve the current emergency situation.

Thank you and best regards,

We also have test done and another one on the way . Are levels were very low they are available on the shared file .

We also have been providing Culligan drinking water in the common areas .
I was also just informed that FEMA will reimburse us for the water bills since April

To make sure that all spending is accurately accounted for and properly approved, I want to remind you that all purchases and staff overtime for the Flint emergency must first be approved by DTMB SEOC Coordinators Chris Christensen or Jeanette Doll.

If this process is not followed, it is highly likely that expenditures will not be eligible for reimbursement.

Please be sure to share this message with any relevant staff.

Thanks.

Mike –

Certainly. I have the CSC team pulling together a list of the Flint Water Responders (FEMA, PIOs, Gov Office) and verifying their access. If they don't have Flint Ramp 24x7 (FLTRAMPTP1) access, they will have it shortly. I will send a copy of the full list to you, Brian, Jeanette and Ryan just so we're all on the same page.

Thanks.

Brandon,

Can you make sure that our new guest have the parking activated. I did check two badges just before lunch and they are not working yet.
This is a big issue with DHHS and the limited parking they have for they're clients. So if we can have them directed to park there as soon as they can would be a great help to us.

I will assign one of my staff up there tomorrow morning to make sure they can get in.

Team,

We have reached out to Our Tenants DHHS Sandi Mose and talked about them giving up the 5 work station across from where FEMA is now.
DHHS has said there is no way that they could allow to lose that space. We were thinking that this space could be rebuilt to allow them to have multiple workers for FEMA to coordinate the operations.

However,

Sandi did mention that maybe the MCcree facility that they just moved out of is wide open and could house 180 staff as a possibility.

Please let us know if there is anything else we can do.

Mike-

Keith Paasch, Bob Burns, Larry Scates, Jim Clark and I met to discuss the request for additional space in Flint. The building is considered full, as in the office space as designed is assigned. We determined that the best way to serve our current clients and the additional resources needed to deal with this crisis may be to find additional space close by. We came up with several ideas (U of M Flint, School for the Deaf in Flint, City of Flint or FEMA bringing in trailers onsite). Maureen Bailey has confirmed 7,000 sq ft is available on Bristol Road at $12/sq. ft. plus utilities.

Please see the attached prints in reference to space. There is one group of 12 stations that was occupied by Civil Rights plus two offices originally designed for the Governor that the Governor no longer needed on the 5th floor that is highlighted in green. DHHS is taking over the space and has a reconfigure planned starting in March. DHHS is temporarily using the majority of this space until 7th floor is complete. The area reference below is highlighted in yellow within the green space. As stated below, DHHS staff are already in these station and in order for it to accommodate we would need to relocate the staff and tear down the furniture. The other rooms highlighted in orange within the green box have already been occupied by the Governor's staff as well as FEMA personnel. Two open areas are left in the building-the 5th and 6th floor lobbies. The 6th floor is already over occupancy and therefore we cannot add people here. As for adding people in the 5th floor lobby, I'm not sure how our tenants of the floor would be with that as this floor was not supposed to be accessed by the public.

Please let us know how you would like to proceed.

Subject: Flint Office Space Issue

Chris,

MSP has requested that we find additional space in the Flint State Office Building for additional Federal personnel that will need space in the next few days. DTMB had a meeting this morning in regards to this and after the meeting, BOD/Real Estate determined that we are at "max" in the Flint State Office Building. I asked if that meant we filled all the cubicles or if we are at building occupancy limits. The response was that we filled the cubicles and not at occupancy limits.

Can you assist in getting traction? If we can get these Federal partners in the same area as the State personnel, they can better coordinate response efforts. I spoke with Brian Waits (Flint BTS) and he indicated that if we move 3 DHHS staff members on the 5th floor, they could setup tables capable of housing 30-40 individuals. Brian confirmed that he has space on other floors that they could sit temporarily.

To: The Kettering Community of Parents of our Students and our Alumni

Subject: Kettering Campus Water Update[1]

I know that you value the excellence of the education we provide, but I expect as alumni or parents of students currently enrolled at our great University that you are concerned about the barrage of news about Flint's water supply. I am a proud parent of a Kettering student, and my family and I reside in Flint, so I understand deeply and very personally how you might be feeling about the situation as reported in the media.

Last week, I sent a detailed Kettering Water Update letter to our campus and to our students. Because I know (from direct experience!) that students may not always communicate promptly with their parents on even important issues, I thought I would take a moment to update you and our alumni directly on this issue, because I know it is a subject of concern.

Unfortunately, as is often the case in public crises, a great deal of misinformation about the water supply in Flint is being reported as fact. Just as distressingly, though, a great deal of important information that we do have about the situation is also *not* being reported.

Kettering campus water is safe, and our faculty, staff, students, and campus residents are **not** being exposed to contaminated water on campus. We are, and have been even before the current crisis emerged, committed to ongoing testing of our water to ensure the safety of the campus water supply. Moreover, the entire water supply of Flint has not been contaminated with lead; although some sections of the city have experienced problems, some severe, other sections have not.

All of us deplore that any single person has been exposed to unsafe levels of lead in the water; however, many people living in Flint have not been exposed to water containing elevated levels of lead in their residences or places of business.

I also want to clarify that *the water from the Flint River that was used as the city's water source from April 2014 through October 2015 was not contaminated with lead.* The contamination, where it occurred, was due primarily to interactions between treated river water and lead supply lines in the distribution system, particularly in lead lines connecting individual houses to local water mains. This is not a global problem with the water, but a problem with how that water - after treatment - interacted with some pipes and other elements of the city's distribution system. This interaction was often (considerably) different - even house-by-house on a single block.

In this letter I want to outline for you what we know about the nature of the contamination of the Flint system, how the university has responded to it, what we have done and are doing on an ongoing basis to ensure the integrity and safety of drinking water on the campus, and how we are working to ensure that those in the campus community who live off-campus in private housing

[1] This memo is a revision of an earlier memo dated Monday, January 18, 2016. In this revision, any references and citations to measured blood levels in children or numbers of children impacted in Flint have been removed, because the original data cited and as supplied by the State of Michigan has been significantly revised since the publication of the original memo.

have access to appropriate information, tests, and filters to ensure and monitor the safety of their private supplies.

Because I want to document what I write, I am also including footnotes that will lead you, if you are interested, to the sources of my information, something I learned to do as a faculty member and still highly value. We are committed to deploying every resource at our disposal to continue to ensure the safety of our entire campus community and our visitors. We value your input, and I hope that as members of the Kettering Community and of this great University that the information presented in this letter is helpful to you. If you have questions, comments, or thoughts on this issue we welcome you to send them to us at water@kettering.edu.

Introduction

Elevated lead levels have been detected in the water supply in a number of areas in the city of Flint, and these have received significant medical, political, and media attention over the last three months. The State of Michigan officially declared a state of emergency in Flint on January 6, 2016,[2] and the Federal Government followed on January 16, 2016.[3] Federal, state and local officials have now engaged and are taking more aggressive corrective action to address this situation and the public health crisis that has resulted from it. Proudly, many in the Kettering Community have taken a very active role in helping those families and children in Flint impacted by this health crisis since its beginning last year.

The levels of lead found in some areas of Flint are gravely upsetting, but I want again to stress that the problem of lead contamination in public and private drinking water supplies is not present in all of Flint. Unfortunately, this distinction has been absent from much of the reporting on this subject in the media. Reports often imply that the water was tainted at the source (i.e. the Flint River), or that contamination of the water is uniform across the entire distribution system and that every house and business has been equally affected.

I also think it important for us to recognize that this problem is widespread and in fact is not isolated to Flint.[4] For example, I am sad to report, drinking water supply contamination, in some cases at levels far worse than have been found in Flint, has been found in Washington D.C., Seattle, Baltimore, Philadelphia, and Los Angeles among other cities and areas of the country.[5] In Michigan, elevated blood-lead levels have been found in an even higher percentage of children than Flint is experiencing in sections of Jackson, Detroit, Grand Rapids, Saginaw, Holland, and a number of other cities.[6]

The Nature of the Problem

First, the nature and cause of the contamination are reasonably well understood at this point. In brief:

[6] http://www.crainsdetroit.com/article/20151210/NEWS/151219980/interactive-map-places-with-higher-lead-rates-than-flint

- Historically, the Flint water system used and distributed treated water from Detroit Water Authority. It did so until April 2014, when it switched to treating water from the Flint River in an existing Flint water treatment plant.
- The "raw" river water to which the city switched in April 2014 was not contaminated with lead.
- The water within *some* sections of the distribution network was, however, contaminated *after* the water left the treatment plant by the leaching of metals such as lead, iron, and copper from lead service lines and lines containing lead solder.

After the switch to river water, the City failed to treat the water for corrosivity by managing its chemistry,[7] which lead to the erosion (and release) of lead-bearing pipe scale in supply lines[8] and lead/copper galvanic corrosion of lead solder and lead copper joints in the distribution system.[9] Because raw water quality varies across the US, federal law requires all municipal water systems to have a corrosion control plan to address this possibility; this regulation is known as the Lead and Copper Rule.[10] Flint unfortunately did not have such a plan in place when it switched the water source to the River.

Here I want to stress that the lack of corrosion control did not, in and of itself, make the water unsafe. What it did do, however, is increase the potential for the water to react chemically with certain types of plumbing systems, and in doing so leach lead and other metals (if they were present) from those systems.

And if this isn't enough complexity, the City (out of what I'm sure were benign motives) used a relatively high level of chlorine to treat the river water to prevent bacterial growth in the supply. The unanticipated consequence of this choice, combined with a lack of activated charcoal filtration in the treatment process, led to the subsequent production of elevated levels of trihalomethanes (which are disinfection by-products of water chlorination) in the water, but these were present primarily in areas of the system where the water pooled or moved through the system slowly.

In October of last year, Flint switched its water source back to Detroit Water Authority. It took approximately 3-4 weeks for the Detroit source water to replace fully all of the water in the distribution system. In December, Flint also began introducing additional corrosion control additives to the water supply.[11] It did this expecting that the addition of these additives will, over time, help to rebuild the protective scale on the inside of the parts of the distribution system where it has been damaged.

Not All Areas of Flint were Impacted Equally

The specific mechanisms that gave rise to the contamination of the system mean that **not all areas of the system were equally impacted**. Portions of the system that do not contain lead service lines or lead solder were not as greatly impacted as those that do. Older parts of the

[7] Specifically the chloride-to-sulfate mass ratio in the treated water, which can be influenced by salt entering the source river from runoff or changes in the way that organics are removed in the treatment process. It can also be affected by the use of Ferric Chloride ($FeCl_3$) as a coagulant in the water treatment process. This ratio is typically adjusted by adding lime or orthophosphates in the treatment process, see http://www.waterrf.org/publicreportlibrary/4088.pdf

[11] https://www.cityofflint.com/2016/01/10/flint-city-leaders-county-state-officials-announce-relief-effort-expansion/

system, especially sections built in the 1940's through the 1960's[12] that have not been upgraded since their construction are disproportionately vulnerable.[13] Other areas are far less so.

As a consequence, **the presence of lead contamination in the water supply was not uniform across the entire municipal water system, and not all areas of the city or all resident supplies were equally affected by it**.[14]

- The amount of lead that leached into a given part of the system depended upon a variety of factors, including the age of the system in the area, the specifics of its construction (e.g. are lead service lines present), and the time that water typically spends in that part of the system between treatment and use.
    - The levels of lead contamination measured in the water drawn from a particular source point depends upon the characteristics of the infrastructure through which the water passed, and how long it took to do so. **This is why water drawn in some houses on a single block might show measurable lead contamination, while others did not.**[15]
- For the same reason, as I noted earlier, only a percentage of Flint residents have been exposed to water containing elevated levels of lead in their residences or places of business (for information on how lead levels in water are specified and interpreted, see the discussion beginning on page 5).
    - Of the 853 samples of water from Flint homes tested by the Michigan Department of Environmental Quality between September 29, 2015 and January 15, 2016, approximately 92% of the samples had measured lead levels below 15 ppb, 79% registered below 5 ppb.[16]

Kettering's Campus Water Supply and Our Approach to Ensuring its Safety

The municipal water infrastructure that supplies Kettering is relatively modern, the flow-rates of water through the system are high, and we do not have lead-copper transitions in the main supply lines, as do many residences in some areas of the city. All of these factors reduce the chance of contamination in our supply. Even so, the University has taken a number of proactive steps to ensure that the campus drinking and cooking water supplies are free from contamination, a number of which have been described in previous communications to the campus on this issue. These include:

- Since early 2015 (after the switch to river water but before lead contamination was suspected), the University has been engaged in recurring testing of all drinking and food service water distribution points on campus using an independent, certified laboratory (Brighton Analytical, LLC). We will continue to test all drinking and food service water distribution points (and there are almost 100 of these) indefinitely.

[12] In the early part of the last century, many municipal codes *required* the use of lead pipes when connecting homes and businesses to municipal water mains but most codes banned the use of lead pipes by the early 1970's. Chicago, for example, continued to require them as recently as 1986, see: *EPA warns modernizing water system may boost levels of lead*, Chicago Tribune, September 25, 2013. Some major U.S. cities still have 100% piping bringing water from the utilities to homes and businesses, see: https://www.safeplumbing.org/health-safety/lead-in-plumbing.

[13] http://nepis.epa.gov/Exe/ZyPDF.cgi?Dockey=20001R4V.txt

[14] For an example see: https://web.archive.org/web/20160120012739/https://michigan.gov/documents/deq/Copy_of_deq-fw-Flint-Home-Owner-Data-Sept-3-thru_Nov-5-15_505529_7_505579_7.pdf

[15] ibid.

[16] http://www.freep.com/story/news/local/michigan/flint-water-crisis/2016/01/23/flint-lead-levels/79178786/

- We also similarly test incoming water from our (six) Flint Municipal Water system input supply lines.
- All food service water source lines are flushed for a minimum of five minutes prior to use each morning, and only cold water is used, consistent with EPA guidelines.[17]
- We use NSF/ANSI 53 certified filters on all drinking water supplies on campus; these filters are certified to remove lead and trihalomethanes in addition to a wide variety of other contaminants and suspended solids. You may find details on the NSF/ANSI 53 certification standard at nsf.org and on the websites of manufacturers that produce filters conforming to this standard. There are 31 specific performance criteria that fall under Standard 53.
- All of our filters are maintained and replaced at the intervals recommended by their respective manufacturers.
- To be conservative, we shut off all water fountains on campus where the filters for that fountain were located at a significant physical distance from the fountain itself (usually because of space restrictions in the fountain cabinet).

  We did this as a precautionary measure, since it is possible for lead (if, for example lead solder was used in its supply line) to be produced through the interaction of water with plumbing in the supply line *after* it has been filtered *if* that water is allowed to sit undisturbed for a protracted time in the supply line (such as when a water fountain is used very rarely).

We do not test the water used in toilets, bathroom vanities, or showers, **but we do test the sources from which they draw water** (i.e. the input supply lines to campus). **Human skin does not absorb lead in water**, so bathing, washing, or showering is safe even using water containing lead over the EPA's action level.[18] [19] Adults may safely use unfiltered water for brushing their teeth.[20]

In addition, we continue to make improvements to our local system to improve convenience and ensure safety. One of the most visible of these is the replacement of many of our water fountains across campus with hydration stations; this project in fact began a number of years ago. All of our hydration stations are monitored and contain integral NSF/ANSI 53 water filtration systems.

How are Lead Levels in Water Specified and Interpreted?

The concentration of a metal, like lead, in water is often measured in parts per billion, usually denoted **ppb**. A concentration in water of 1 ppb represents one gram, or three one-hundredths of an ounce (3/100 ounce), of a substance in 260,000 *gallons* of water. One ppb is also three seconds out of 100 years. Ten parts per billion (10 ppb) is the equivalent of approximately one teaspoon of water in an Olympic-sized swimming pool.

The EPA has set an action level for lead in drinking water supplies at 15 ppb, and a goal of 0 ppb given its health

[17] EPA 810-F-93-001
[18] http://www.cdc.gov/nceh/lead/tips/water.htm
[19] http://www.michigan.gov/deq/0,4561,7-135-3313_3675_73946-372051--,00.html
[20] http://www.michigan.gov/documents/deq/2015-10-21_-_Lead_-_Flint_Water_FINAL_504265_7.pdf

effects on children.[21] In other words, if drinking water contains lead below the 15 pbb level, EPA regulations state that no action is required.[22]

For reference, the EPA permits faucets to be sold in the U.S. that leach 10 ppb or less of lead into water during a 19-day test.[23] Studies conducted by the EPA have found that the geometric mean of lead levels in drinking water systems in the US is 2.8 ppb.[24]

Results of Our Ongoing Testing

- As of the date of our last test series and over the past many months, we have tested the water drawn from the six input lines to campus a total of 15 times and all tests have resulted in a measured level of "ND" (for "None Detected"), with only three, single-test exceptions. In these three exceptions:
    - One detection was at 1 ppb, one was at 5 ppb, and the other was at 7 ppb. All of these are significantly lower than the EPA's action limit for lead of 15 ppb.[25]
    - These were single point-in-time detections; **later repeat testing of the same distribution points detected no lead**.
- **No lead has ever been detected in any water source used for food preparation.**
- As of the date of our last test series and over the past many months, all drinking water distribution points (e.g. water fountains) on campus have consistently tested "ND" (for "None Detected") for lead, with only six, single-test exceptions in well over one-hundred tests conducted. In these six exceptions:
    - All detections were at levels of less than 5 ppb (1,4,5,2,3 and 2 ppb respectively); all are significantly under the EPA's action limit for lead of 15 ppb.[26]
    - These were single point-in-time detections; **later repeat testing of the same distribution points detected no lead**.

Access to Test Data

We make all results of these tests public. You may always find our latest test results along with other information related to the state of water in Flint at http://www.kettering.edu/water. We will continue to update the test reports on this site as we receive them.

On this same webpage, you will also find a link to PDF copies of the certified assay reports provided to us by our independent laboratory.

We have encouraged our students to speak with their parents or guardians about this issue, and to share with them all communications they receive from us. Copies of all of our communications to students on this matter may also always be found at http://www.kettering.edu/water.

[26] ibid.

More Information

If you have further concerns, I encourage you to read the Centers for Disease Control website on lead contamination of water at http://www.cdc.gov/nceh/lead/leadinwater/ and http://www.cdc.gov/nceh/lead/tips/water.htm as well as the citations in this letter. Additional information is also available on our website at http://www.kettering.edu/water.

If you have technical questions about the campus water supply, they may be directed to Nadine Thor, Director of Auxiliary Services, at nthor@kettering.edu. Questions from students or their families of a more general nature should be directed to Dean Betsy Homsher, Dean of Students, at bhomsher@kettering.edu.

We will of course continue to update the campus as this situation evolves.

Members of the Kettering Community that Live off Campus in Impacted Areas

We have encouraged our students, faculty and staff who live off campus within Flint city limits to use bottled water, to test their water (which also supports the city's data collection and analysis efforts), and to use appropriate water filtration in drinking water sources until notified otherwise by civil authorities.[27]

In the interim, **free bottles of water, water filters, replacement cartridges, and home water testing kits are widely available to all Flint residents.**[28] There are multiple distribution points for these around the city, and the University maintains a supply of filters as well as bottled water in the Office of Student Life for students otherwise unable to obtain them.

Information on the city's distribution of all of these items to residents may be found at www.michigan.gov/deq. Students residing off campus needing assistance in acquiring water, test kits, and/or faucet filters have been encouraged to contact the Office of Student Life at (810) 762-9871.

A Note on Water Clarity

You may see pictures of bottles of rusty or cloudy water in articles on water safety; the same has been true of the reporting surrounding the water crisis in Flint.

The presence of suspended rust in water can turn it orange, red, brown or yellow. The presence of rust in water is not necessarily an indication of the presence of lead or other contaminants in the water, nor does it necessarily indicate that the water is unsafe to drink,[29] but water corrosivity does accelerate the erosion of iron elements in the water system which may discolor the water.[30] In water, lead is colorless, odorless, and tasteless,[31] and the presence of rust in water does not indicate the presence of lead, bacteria, or other substances. Conversely, water may also be clear and yet contaminated with lead or bacteria.

> *On its own, rust in water is not a sign of harmful bacteria or lead. In fact, the limits set by the Environmental Protection Agency (EPA) for iron in drinking*

[30] Iron erosion can also negatively affect the level of free chlorine in the water.
[31] http://extension.psu.edu/natural-resources/water/drinking-water/water-testing/pollutants/lead-in-drinking-water

water are based on aesthetics (taste, odor, color), not safety concerns.[32]

Trapped air (in the form of small bubbles) in the water can also turn it cloudy or milky. Water pipelines are pressurized systems, so any air introduced into the system can remain trapped until the water leaves a faucet. This cloudiness is not indicator of water quality.

The NSF/ANSI 53 water filtration systems we use on campus for all drinking water remove suspended particulates including the iron that can discolor water (known as "turbidity reduction").

Legionella

It has very recently been reported[33] that there were an unusually high number of cases of Legionnaire's Disease seen in Genesee County in 2014-2015.[34] It has also been suggested in the media that this increase related in some way to the switch in the Flint water supply. Roughly half of the cases identified are in individuals who live outside of the city and the Flint municipal water service zone,[35] and a possible causal link between the two has not been established.

We have no evidence of any member of the University community having contracted Legionnaire's Disease.

Legionnaire's Disease is not contracted by drinking water containing *Legionella* nor is it transmitted between individuals. It is not contagious.

Legionnaire's Disease is a form of pneumonia caused by the bacteria *Legionella pneumophila*, and it is treatable with several classes of antibiotics.[36] It has an incubation period of two to ten days. *Legionella* do not survive in water above 140 °F (60 °C). *Legionella* are normally found in rivers, lakes, and streams,[37] and they are normally present in the water systems of large buildings and even in a percentage of residential water systems.[38]

Legionnaire's Disease is primarily contracted by heavy smokers, immunocompromised individuals, and individuals with chronic lung disease[39] through the aspiration of water or the inhalation of water mist contaminated with the *Legionella* bacteria.[40] Even after exposure to *Legionella* most people do not become sick.

Cooling towers for large buildings are frequently cited as potential breeding ground for *Legionella* bacteria if they are not regularly maintained and disinfected.[41] **The University has for many years routinely monitored and disinfected all cooling towers on campus.**

As part of a proactive effort, though, we have also begun ongoing and recurring testing of our water for the presence of *Legionella.* We will take appropriate action (which we will report) if elevated levels of the bacteria are detected in campus water supplies in the future. We will of course publish the results of these tests on http://www.kettering.edu/water when they become available.

Federal Emergency Declaration

On January 16, 2016 and at the request of the state of Michigan, President Obama signed an emergency declaration the purpose of which is to make Federal aid available to the city in support of current filter and water distribution efforts to impacted persons in the city.[42] Substantively, this declaration simply mobilizes the Federal Emergency Management Agency (FEMA) to assist in these efforts and also makes certain federal funds available to the city for the purpose of supporting these activities. As stated in the order, it "is to provide water, water filters, water filter cartridges, water test kits, and other necessary related items for a period of no more than 90 days."[43]

A Kettering Professor (from the Beginning) and Our Students have been and will continue to be Part of the Solution

Last year, Kettering's Mechanical Engineering Professor Laura Sullivan was asked to co-chair Flint's Technical Water Advisory Board and was recently appointed by Mayor Karen Weaver to the Karegnondi Water Authority. This is important work, and through it she makes all of us in the greater Kettering family a key part of the solution. I want to take this opportunity to recognize her and to thank her for her service to Flint and the University.

Our students are some of the most creative in the world, and so we have been and are continuing to organize ways for our students, often in teams, to solve some of the challenging and unforeseen problems that have arisen in the distribution and installation of filters in affected areas of Flint. These efforts not only take advantage of the expertise and ingenuity of our students but they are also consistent with Kettering's ongoing commitment to Flint. We will make information on these efforts available on http://www.kettering.edu/water as it becomes available.

Please know that we are deploying every resource at our disposal to ensure the safety of our entire campus community and our visitors, and we will continue to work with federal, state, and local officials to help create long-term solutions to these problems. We value your input, and I hope that as valued members of the Kettering Community and of this great University that this letter has been helpful to you. If you have questions, comments, or thoughts on this issue or the University's response to it please send them to us at water@kettering.edu.

Thank you.

Warmest Regards,

Dr. Robert K. McMahan
President

Subject: Information

Caleb –
We are pulling the rest of the info, but here is what we have so far:

Departments in the Flint State Office Building: Treasury; LARA, DTMB; Civil Rights (they moved out two months ago); DHHS

Our initial count for the number of staff is approximately 350, but I'm working to confirm this number.

There are approximately 500 visitors that sign in on average per day – not including kids.

Pulling the water cost/usage. Should have shortly.

When do you need this by? Will of course have to you as soon as we can.

Caleb -
Please see the attached account info. The water coolers are in the common areas and were/are available to the public as well. As I mentioned, they receive an average of 500 visitors per day (not counting children) in the Flint State Office Building.

Here are the number of people by floor:

1st Floor: DTMB Facilities (15 employees) 2nd Floor: DHHS (54 employees) 3rd Floor: DHHS (83 employees) 4th Floor: DHHS (86 employees) 5th Floor: LARA/BSBP (8 employees), Treasury (21 employees), DTMB – Vacant (8 employees), MDCR-Civil Rights (13 employees), Office of the Governor (2) Offices.
6th Floor: DHHS (127 employees)
7th Floor: DHHS (71 stations + 32 Customer Kiosk stations proposed)

Approximately 480 staff (not counting the 8 vacant spaces on 5th floor or the 32 proposed kiosk stations on 7th floor).

Departments in the Flint State Office Building: Treasury; LARA, DTMB; Civil Rights (they moved out two months ago); DHHS.

Let us know if you need anything further.

Thanks -

Caleb -
Please see the attached account info. The water coolers are in the common areas and were/are available to the public as well. As I mentioned, they receive an average of 500 visitors per day (not counting children) in the Flint State Office Building.

Here are the number of people by floor:

1st Floor: DTMB Facilities (15 employees) 2nd Floor: DHHS (54 employees) 3rd Floor: DHHS (83 employees) 4th Floor: DHHS (86 employees) 5th Floor: LARA/BSBP (8 employees), Treasury (21 employees), DTMB – Vacant (8 employees), MDCR-Civil Rights (13 employees), Office of the Governor (2) Offices.

6th Floor: DHHS (127 employees)
7th Floor: DHHS (71 stations + 32 Customer Kiosk stations proposed)

Approximately 480 staff (not counting the 8 vacant spaces on 5th floor or the 32 proposed kiosk stations on 7th floor).

Departments in the Flint State Office Building: Treasury; LARA, DTMB; Civil Rights (they moved out two months ago); DHHS.

Let us know if you need anything further.

Thanks -

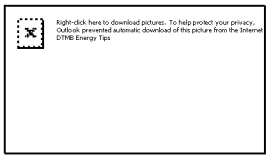
Flint Water Quality

Details:



DTMB commissioned testing of the water in the Flint State Office Building and the results show our water poses no health threats. Although the water is safe to drink,

we will continue to provide water coolers in common areas on floors 1-6 of the Flint State Office Building until we are connected to the Detroit water system.

If you have any questions, please contact the Flint Building Trades Supervisor, Brian Walts, at WaltsB@michigan.gov or 810-760-2044.

Contact:

DTMB Customer Service Center, DTMB-Customerservice@michigan.gov or 517-373-6227

	According to the Clean Air Council, the average American throws away enough paper each year to build a 12-foot wall from Los Angeles to New York City. Consider going paperless by saving documents and manuals on a common server instead of handing them out in hard-copy form. If you must print a multi-page document, be sure to use the double-sided printing feature.

DRINKING WATER WARNING

The City of Flint water system lost pressure and contamination may have occurred
BOIL YOUR FILTERED WATER BEFORE USING

Due to a drop in pressure in the City of Flint water supply, bacterial contamination may have occurred in the water system. Bacteria are generally not harmful and are common throughout our environment. Corrective measures are currently being undertaken to correct the situation.

What should I do?

AS A PRECAUTIONARY MEASURE, DO NOT DRINK THE WATER WITHOUT BOILING IT FIRST. Bring all FILTERED water to a boil, let it boil for one minute, and let it cool before using, or use bottled water. If you are currently NOT using a filter to remove lead from drinking water, FLUSH your water for AT LEAST 7 minutes before collecting any to boil. Boiled FILTERED, boiled FLUSHED, or bottled water should be used for drinking, making ice, brushing teeth, washing dishes, and preparing food. Boiling kills bacteria and other organisms in the water. Continue using boiled or bottled water until further notice.

Due to the pressure loss, there may be trapped air and loose sediment in your water lines. The air and sediment may be removed by flushing you water system. DO NOT FLUSH YOUR SYSTEM THROUGH THE FILTER. The resulting air and sediment may affect the performance of your filter and the filter cartridge should be replaced.

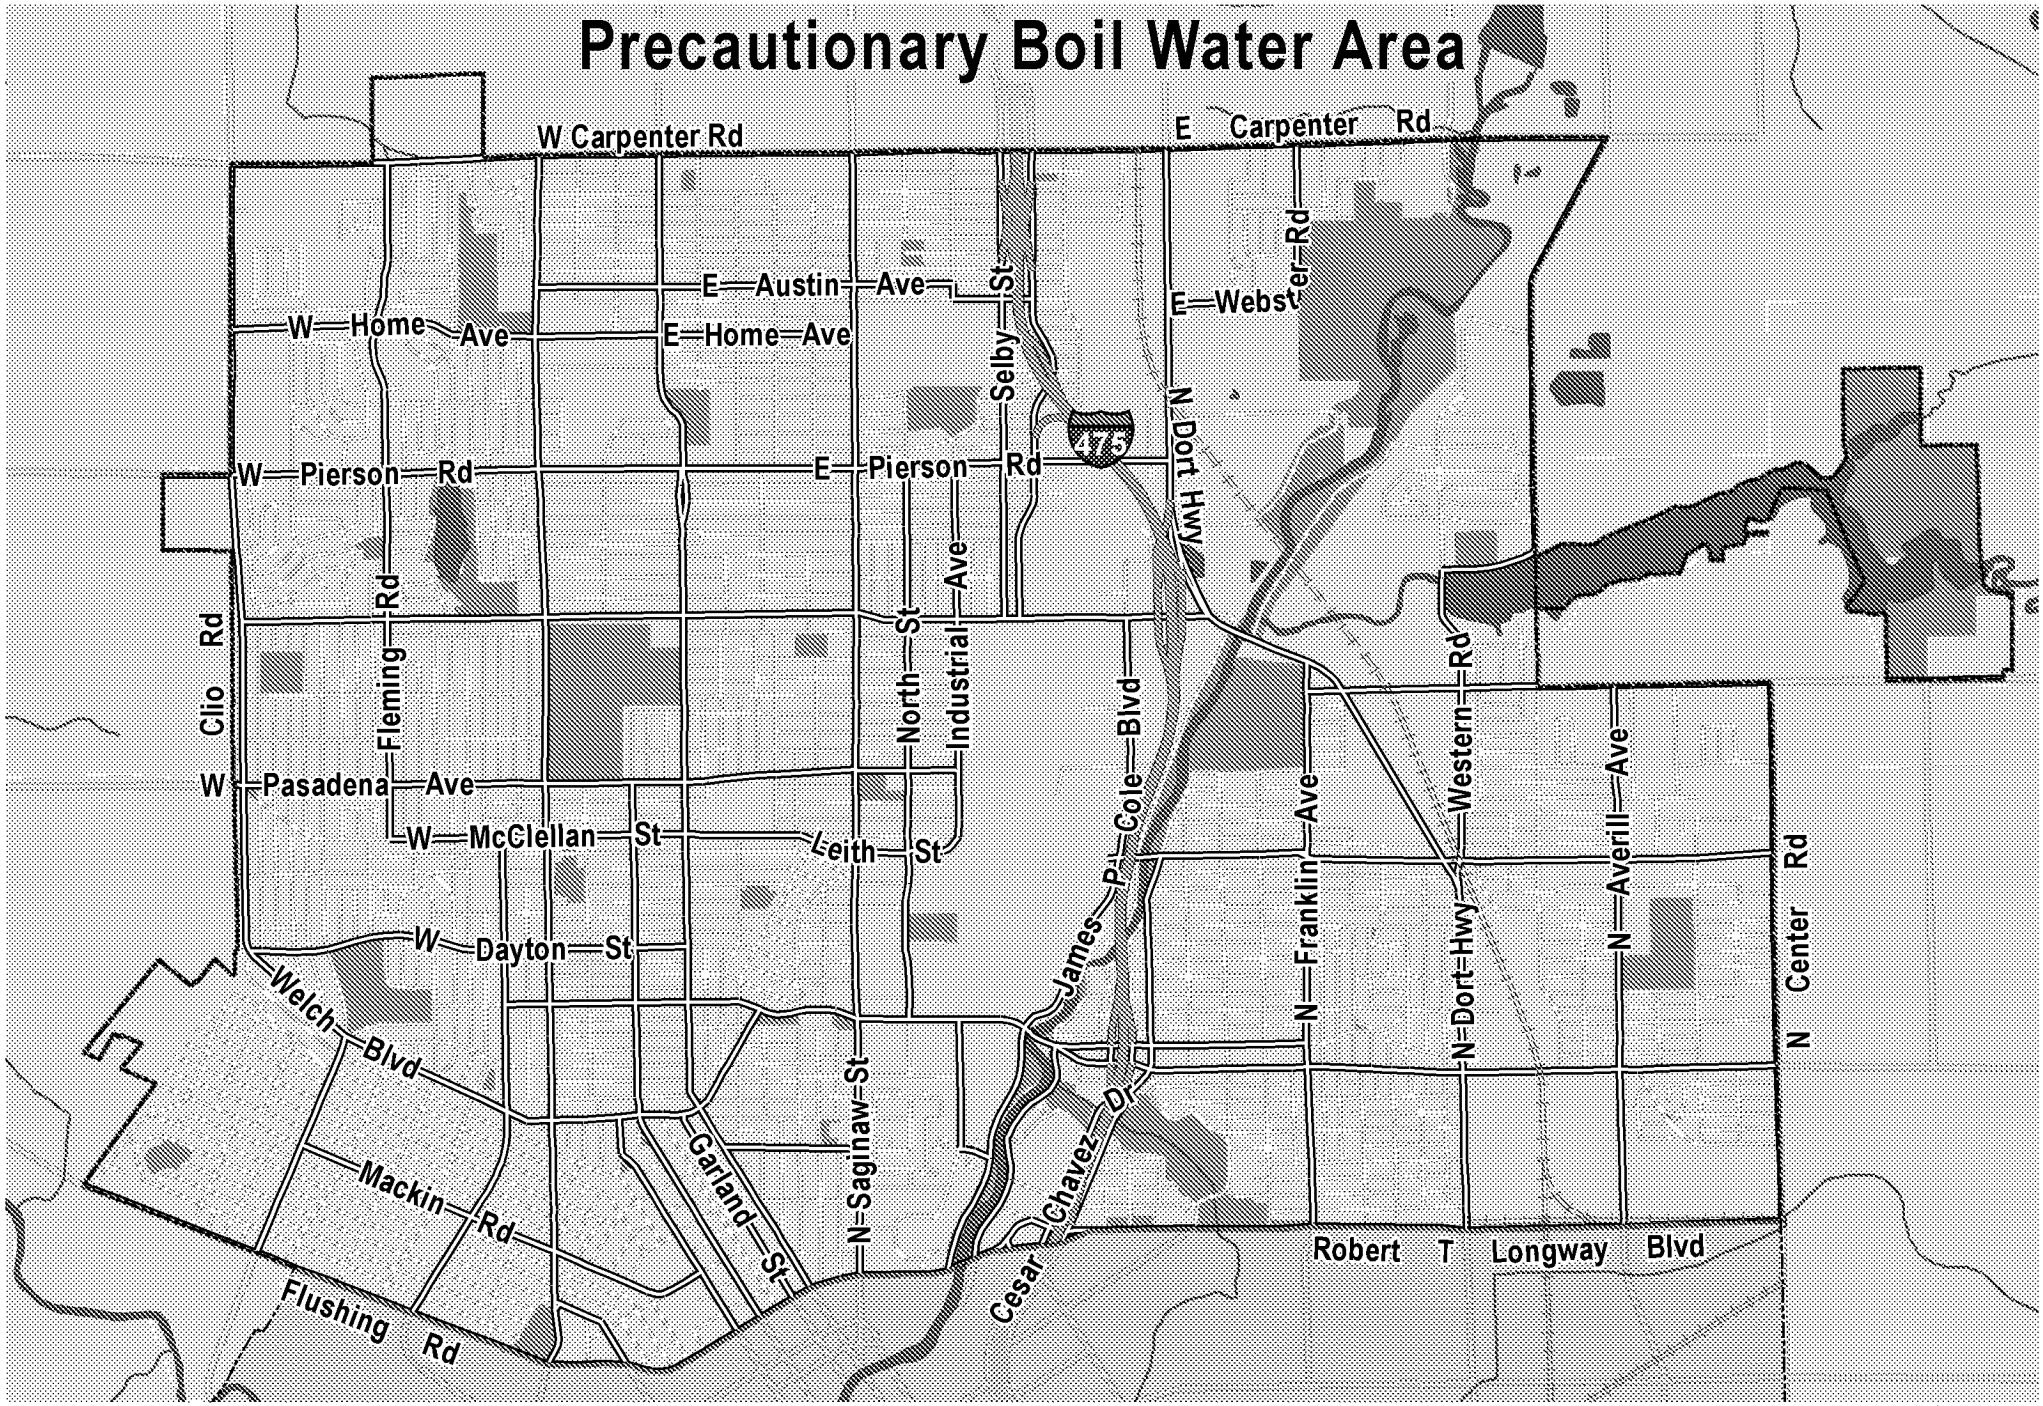
What happened? What is being done?

These precautionary actions are being taken due to the loss of water pressure in the water distribution system caused by a water transmission main break on February 9, 2016. Whenever a water system loses pressure for any significant length of time, precautionary measures are recommended.

The City of Flint Water Department is working to get pressure restored, and water staff will be taking other remedial actions such as flushing and collecting bacteriological samples from around the system. The samples will be collected to determine that the water quality meets the state drinking water standards. We will inform you when tests show no bacteria and you no longer need to boil your water. We anticipate resolving the problem later today. This precautionary boil water notice shall remain in effect until results from the sampling verify the water is safe to drink. **Customers will be advised when the boil water advisory has been lifted.**

For more information, please contact The City of Flint Water Department at (810) 766-7202. General guidelines on ways to lessen the risk of infection by microbes are available from the EPA Safe Drinking Water Hotline at 1(800) 426-4791.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.



CERTIFICATION: WSSN: 2310

I certify that this water supply has fully complied with the public notification requirements in the Michigan Safe Drinking Water Act, 1976 PA 399, as amended, and the administrative rules.

Michael Glasgow	UTILITIES ADMINISTRATOR	2/9/16
Signature	Title	Date Distributed

Reminder to water supplier: This notice / certification must be sent to the DEQ.

Hey, Mike,

That was a typo that wasn't caught. I made the change.

Flint Drinking Water

Details:

An advisory has been sent asking residents and businesses within a defined area (see attached notice and map) to boil water before using it. However, the Flint State Office Building does not fall within the Area of Interest on the map. DTMB will continue to offer tap and bottled water in public areas on each floor as options in the Flint State Office Building.

Contact:

DTMB Customer Service Center, DTMB-Customerservice@michigan.gov or (517) 373-6227

<image006.png>	Unplug electronics such as cell phones and laptops once they're charged. Adapters plugged into outlets use energy even if they're not charging.

Subject: Flint FOIA - DTMB Systems

SMT Members:
In response to the Flint FOIA Project we have compiled a list of DTMB-owned systems that may need to be searched depending on *whether or not the systems listed would reasonably contain any of the search terms* sent on Friday (see search terms below). We are not asking you to perform any searches at this time, additional instructions are forthcoming.

What I need from you is to:

1) review the list and tell me whether the systems listed may contain the search terms (center column);
2) notify me if there are DTMB systems that are not listed that may contain the search terms;
3) tell me who is the individual responsible for performing the search in the system on behalf of the custodians (right column);

This information is due back to me close of business (5:00pm) today, Wednesday.

Electronic/DTMB Systems	E-Mich	Pauley (Swanson) (Already public facing?)

KERRI/TONYIA/MIKE UPDATE MEETING

November 10, 2015

Action Items/Follow Up From October 15, 2015

I. **Mike**: Send a couple recommendations for a new MSP building name as well as the naming process document to Brom/David. Tim Becker suggested "DHHS Central Office"
II. **Mike**: Reach out to Nancy (cc Brom) after meeting with Tom. See if FBSA can assist with discussions with the Library staff on the use of conference rooms (talk to Tom about this). (Status update below)
III. **Brom**: Will touch base with DEQ/DNR/MDARD executives on Hollister moves and have them to work with Mike to move it forward.
IV. **Mike**: Schedule meeting with Mike/Bob/Brom/Randy on parking. Talk with the AG first, circle back with Brom Friday morning. (Met with AG and city on Friday 11/5)
V. **Mike**: Have one pager/memo on FM Systems on file (functionality, cost savings). (Document prepared)
VI. **Mike**: Will send MiMove questions, copy Brom/Rod. (Response from Pam Kenney and team received on 11/2/15. OPM is working on scheduling the MiMove meeting for early December. See below).
VII. **Mike**: Any update since the summer on the Hamtramck/Flint/Inkster? Will Doxie from RED following up on this.
VIII. **Mike**: Pass along lessons learned, who makes the calls, etc. on Cass closure to Brom. (Update below).
IX. **Mike**: Have Dan compile his needs for health and safety assistance.
X. **Kelly**: Talk to Janelle: when is the meeting about business continuity (appointment sent yesterday)? Brom needs to talk to Mike and Chris before the meeting.

- Follow Up/Updates
    - O.T./O.C. Exemptions BOD
        - Anything further needed?
    - Mike/Keith 1x1
        - Mike to reach out on bike policy
    - Boji Leases/Hamtramck/Flint/Inkster – did Mike get what he needed from Bob B. on this? Have inquired to Bob but no response.
    - Fuel Pumps (email)
    - Kalamazoo response (email)
    - Arbaugh Building/OSE
    - Skype

- Analyst
    - Identify which office
    - Desk phone?

- Communication to direct reports? All staff?
- Training focus

- Funding for Move Manager position in RED.
  - Update on Phil discussion

- Brom Meeting Prep- November 13th
  - Tuesday p.m. to submit Thursday before 8:30

- Op Ex Meetings:
  - My role?
  - Take notes?

- Assignment Log/Calendar Items
  - Tonyia out Thursday and Friday
  - Kerri out Friday

1X1 BROM/MIKE

November 13, 2015

Discussion Items:

Action Items/Follow Up From October 15, 2015

I. **Mike**: Send a couple recommendations for a new MSP building name as well as the naming process document to Brom/David. Tim Becker suggested "DHHS Central Office"
II. **Mike**: Reach out to Nancy (cc Brom) after meeting with Tom. See if FBSA can assist with discussions with the Library staff on the use of conference rooms (talk to Tom about this). (Status update below)

V. **Mike**: Have one pager/memo on FM Systems on file (functionality, cost savings). (Document prepared)
VI. **Mike**: Will send MiMove questions, copy Brom/Rod. (Response from Pam Kenney and team received on 11/2/15. OPM is working on scheduling the MiMove meeting for early December. See below).
VII. **Mike**: Any update since the summer on the Hamtramck/Flint/Inkster? Will Doxie from RED following up on this.
VIII. **Mike**: Pass along lessons learned, who makes the calls, etc. on Cass closure to Brom. (Update below).
IX. **Mike**: Have Dan compile his needs for health and safety assistance.
X. **Kelly**: Talk to Janelle: when is the meeting about business continuity (appointment sent yesterday)? Brom needs to talk to Mike and Chris before the meeting.

Standing Agenda Item:

- ✓ Upcoming RFP's:

Capitol Complex:

- ✓ CEPI Move
  - ~~RED met with Tom Howell 2 weeks ago. There have been email correspondences since, addressing CEPI's questions relating to options provided.~~
    - ~~Tom indicated he was o.k. staying in the Library. CEPI had some concerns which they have communicated to Brom.~~
    - ~~RED responded back to Brom on those concerns.~~
  - ~~Meeting with Tom and Mike– rescheduled for Tuesday, October 20th due to emergency appendectomy.~~
  - ~~Head Librarian expressed concern about the future of the building – library versus office space.~~

- ~~BOD shares same concern regarding future of the building as restrooms, HVAC, building controls, etc. would need to be modified and there is an expense to these types of changes.~~

- ~~In addition, preliminary discussions/request from Education to move staff from leased space (1033 S. Washington) to Hannah. May move some IT staff out of Hannah (to where is to be determined).~~
- Notified on Friday, October 30, 2015 that partial approval of FY 2016 enterprise wide special maintenance allocations to accommodate DTMB's timing sensitivity related to Ad Board approval for the CAR project was approved.
- CEPI is to provide $100,000 for its permanent accommodations at the Library.
- FBSA staff have been meeting with Tom Howell and Trina Anderson to finalize request.
- FBSA staff pursing options regarding restrooms. Sensitivity around the architecture of the building would increase costs substantially.
- Mike and RED team met with CEPI (Tom Howell and Trina Anderson) and MDE/Library on November 4th.
- CEPI feels they have given enough over the past years and is sticking up for CEPI needs.
- CEPI's first choice: Hannah 1st Floor; Second choice: L shape on 3 at Library; Third choice: rectangle on 3 and dedicated conference space on 5 for them.
- Library will look into what effort it would be to move items to accommodate L shape and will look for financial support from us to do so.
- FBSA left it positive and communicated that we are doing our best and will further review all options.
- FBSA will review further and will circle back with each group to validate.
- AS-MDOC has indicated to RED that they no longer want to move out of the Hannah Building to the Victor Building. When originally presented with this, AS-MDOC was onboard with it. This move needs to occur in order to keep CEPI in the Library (Education was happy with this agreement).

✓ DTMB H/R, IT, OPM, EA Moves (no update per Troy Spitzley)

- Overall concern is the availability of DTMB Mail and Delivery, Telecom and IT. Adding in additional moves along with CAR poses a concern to the availability of these resources.
- DTMB H/R: The design for space to move HR to Con Hall South Tower/Southwest Corner from the Hollister Building is complete.
  - Budget is also complete, but funding has not been identified.
  - FBSA received an email from H/R regarding a homeless man lying in front of the elevator at the Hollister Building. According to H/R, this was the second time this has occurred.
  - RED has contacted the Landlord regarding the issue and HR has been informed to contact the police.
  - The Landlord will also have someone check the lobby daily after the building opens at 5:45a.m.
  - FBSA has requested that HR keep us apprised of the situation and report any further issues to us. HR responded with appreciation of the action taken.
- DTMB OPM: The design for space to move OPM to Cass Building from Con Hall is complete.
  - OPM is requesting approval to veer from the typical office layout design.
  - Budget is also complete (using typical workstations), but funding has not been identified.
- DTMB IT: The design for space to move IT to Con Hall from Hollister is still pending due to the variation in the number of employees to be moved.

        - Budget is pending verification of the number of people to be moved.
        - The original number of staff to be moved started out at 50 and has moved up to as many as 108 with 24 vacant workstations.
        - The space an only accommodate a maximum of 96 employees (per code –HVAC, restrooms, egress, etc.).
    - DTMB EA: The design for space to move EA to Mason is complete.
        - Budget is also complete and EA is covering their costs to move.

✓ Governor's Residence Project – Elliptical Garden Wall - Arch Wall – Brick Planters Project
- A final design sketch and cost estimate was provided to the Governor's Office on Friday, October 30th.
- Discussions have begun with BOD Grounds crew to do demolition in the next two weeks once the design and estimate has been approved.
- ~~BOD met with Marsha and Sarah Tuesday, October 13~~
- ~~Close to agreeing on a design – a few tweaks are needed~~
- ~~Marsha requested a cost estimate to review estimate and design with the First Lady.~~
- ~~May have approval for demolition work yet this fall. Likely use BOD Grounds Crew for demolition and removal work.~~
- ~~Remainder of work would be under contract and scheduled for the spring.~~

✓ CAR Project
- Notified on Friday, October 30, 2015 that partial approval of FY 2016 enterprise wide special maintenance allocations to accommodate DTMB's timing sensitivity related to Ad Board approval for the CAR project was approved.
-
- Programming for DHHS and MSP is complete
- Funding yet to be determined for:
    - ~~CEPI~~
    - DTMB HR
    - OPM
    - Agency Services/Hogan's Group
    - DNR/DEQ/AG: Jim met with them and discussed budget. Discussions ongoing with agencies and DTMB regarding funding. Hogan currently pays for all space in Hollister.
        - Agencies are looking into what they can contribute towards the moves.
- ~~Budget Review: FBSA worked with Greg DeCamp to finalize CAR Budget.~~
    - ~~Lisa Shoemaker passed the information on to Nancy Duncan on Tuesday, October 13th. Expect a decision from SBO soon.~~
- MSP CIJC will be moving the weekend of December 11th to the first floor B wing, which opens up the second floor of headquarters for the start of the Vital Records Vault.
- Schedule – (Preliminary):

DTMB FBSA from GOB to LTA	TBD
MSP CIJC from HQ to 1st Floor B wing GOB	December 11,2015
MSP SEOC moves	TBD
MSP 2nd Floor A & B wings GOB	February 5, 2016
MSP 3rd Floor A wing GOB	March 11, 2016
MSP 3rd Floor B wing GOB	March 25, 2016
DHHS 5th Floor 333 Grand	May 20, 2016
DHHS 3rd Floor 333 Grand	June 24, 2016
DHHS 2nd & 1st Floors 333 Grand	August 12, 2016

- ~~The Construction Manager contract was pulled off the October 13th Ad Board Agenda. A member is requesting additional information which DCD is providing.~~
  - ~~It is expected that this will be approved on a Special Agenda through Ad Board on Tuesday, October 20th.~~
  - ~~This one week delay will make an already very tight timeframe even tighter.~~
  - ~~Further delays at Ad Board will cause project delays.~~
- Resources (IT, Mail and Delivery, etc.) continue to be a concern. With an already tight schedule, working additional moves into the mix including Jim Hogan's group, HR, OPM, CEPI, etc. may become an issue.
- Move Management/300 Decisions has been working the agencies on newsletters, (MSP prefers their Public Affairs office handle all move communications. ~~Mike to meet with them on 10/21 to discuss their concerns); parking concerns, moving a substantial number of files, retention schedules, etc.~~
- Mike and FBSA staff met with MSP, Shanon Banner, Tim Bolles, Kathleen Fay and Elain Keilen to discussion communications. MSP insistent they maintain control of communications with their staff.

Secondary Complex and Outstates:

- ✓ Cadillac Place
  - Mike discussed with Eric Larson on October 26th and touched base with Wayne County.
  - Wayne County is doing their programming.
  - Eric indicated that the Wayne County sale of the Guardian Building to Dan Gilbert hit a bit of a lull. Gilbert purchase is contingent on a level of occupancy to make sense. Including wanting Wayne County to stay which keeps them from moving out to Cadillac Place. Eric is keeping tabs on progress.
  - Potential related item. We are going to assist DPS with a review of their current Fisher Building space. They have 120,000 sf and may not need that much but stuck in a bad deal there. New owners would like to get them out. We are going to try and perhaps help move them to Guardian which could allow Wayne County to leave and help the sale to Gilbert. We are waiting on a contact name for DPS.
  - Mike staying in contact with Wayne County. We also heard from the new owner of the Fisher today indicating he has a retail contact that needs 30,000 sf of street facing retail space and is connecting them with us.
  - Mike following up with Wayne County again this week and Eric is staying plugged in.
  - ~~Have connected with both Mike and Mary Anna from Wayne County and they are still working on their programming.~~
  - ~~They currently have all of the info needed from us.~~
  - ~~The finance team has been looking into the option of being able to expend the up-front costs and then have Wayne County pay it off over a couple of years.~~
  - ~~Finance has found prior precedence where DTMB was able to expend funds through the land sale account and then recover the costs in future years.~~
  - ~~This precedence was allowed by OFM so we believe it would be possible to do so again for this project.~~
  - ~~If we want to pursue, OFM needs from us, an estimated dollar amount and the proposed payoff timeline so Phil can take a proposal forward for support.~~
  - ~~NOTE: Provided Terri Fitzpatrick – Boji Group the requested Occupancy/Lease Information.~~

- ✓ Cadillac Place Parking Update
  - Rental Agreement became effective on October 1, 2015. (Rental Agreement 10/1/15 through 9/30/2016).

- DTMB Parking Office sent out a notice on October 7, 2015, to Cadillac Place tenants to fill these spaces.
- DTMB RED will bid out these spaces and will work toward establishing these 100 spaces long term.

✓ Cadillac Place – Star Snack and Overall Vending/Food Service

- Mike met with Ed Rodgers, Mike Pemble, James Hull, Tamela Meek, Joe Pelle and Nick Rose on November 3, 2015.
- Bureau of Services for Blind Persons (BSBP) standing behind the rule/law as non-negotiable.
- Star Snack will have to cease operations 12/31/15 as will Subway when the lease comes due.
- BSBP indicated that they are very interested in taking over the existing Star Snack space with another vendor to continue to provide the "Dollar Store" type products being sold. Out staff will work with them to set this up after Star Snack exits the end of December.
- DTMB RED communicated this decision to Sam Jawad on November 5th. Sam voiced he would be calling BSBP to discuss. RED staff provided BSBP that they may be receiving a call from Mr. Jawad.
- DTMB is charging BSBP the sf rate for the space that their vending machines are in.
  - We are doing an inventory on what those amounts are and will meet with BSBP to review.
  - This has been an issue for their placing additional machines in buildings.
  - Mike offered to waive that leasing of space if it means we will be able to have more vending machines on more floors and make the occupants happy.
  - DTMB is going to establish regular cadence meetings to see what we can do to increase the level of service and offerings in our buildings.
  - DTMB will support their efforts on our new Facility Web Pages, promoting their menus, specials and encouraging catering service and locations.
- Overall a very positive meeting. Mike Pemble in particular was extremely pleased with the support we provided. History with DTMB had not been good and he didn't even know that we provided support on these items and said it was one of the best meetings he has ever had.
- ~~Date Range: October 1, 1985 through December 31, 2015 – (30 years in this location).~~
- ~~August 10, 2009 – Tenant (Mr. Issam Jwad) requested an additional fourth and fifth five-year extension be added to the original lease.~~
- ~~December 22, 2010- Assistant Attorney General sent a letter on behalf of the State of Michigan denying the extension request and stated Star Snack's lease will expire December 31, 2015. (Five year cancellation notice).~~
- ~~September 29, 2015 – Real Estate reached out to the Services for Blind Persons to discuss a possibility of this Convenience store being permitted to stay in the building. They understood our concerns, but informed RED, since the Services for Blind Persons has been sued by an Operator at Cadillac Place due to Star Snack's presence, they would be reluctant to permit any exception to the Act, but would be willing to look at a proposal.~~
- ~~November 3, 2015 – FBSA representatives will be meeting with Ed Rodgers from the Services for Blind Persons management team.~~

✓ SEOC

- Striving for substantial completion by mid-January, 2016.

        - Numerous weather delays and some construction material delivery issues are effecting the final completion schedule from end of December 2015 to mid-January 2016.
    - Project remains on budget.
    - The renovated areas of the GOB are ahead of schedule and are anticipating furniture installation to begin by late November.
    - The steam shutdown was conducted on Saturday, October 24th, with the new steam piping connection being completed and connected.
    - Chilled water connection took place on Saturday, November 7th.
    - ~~SEOC Tour scheduled for David, Christian, Chad Laidlaw/CTO, Matt Bolger/MSP and Tony Katarsky/EMHSD on Tuesday 10/20 at 3:00 pm. I am attending.~~ Conducted multiple tours of the overall construction progress to both DTMB Leadership and Representative Potvin. Tours were held on October 20th and October 27th and were very positive. MSP was also in attendance at these tours and provided MSP operational information.

Real Estate and Leasing:

- ✓ CCC Lease –
    - Brom spoke to John Pirich and informed him we will not be extending.
    - ~~Had a phone call with John Pirich and he is still hoping for an extension and removal of the cancellation clause. This all started when they had heard feedback that SOM was going to exit the lease. This jump started their taking care of improvements that had been delinquent.~~
    - ~~Option 1: Leave current lease in place:~~
        - ~~The Lessor has been providing improvements to the facility required under the current Lease, so additional improvements may not be necessary to improve satisfaction of tenants.~~
        - ~~Under the current agreement, the Lease will terminate naturally in 2029 or can be cancelled through a simple cancellation provision in 2024.~~
        - ~~The State likely will not need 185,000 square feet of space over the next ten years so the cancelation option should be preserved.~~
    - ~~Option 2: Extend lease and request additional improvements to the building:~~
        - ~~Based on our analysis, it is not in the State's interest to extend this Lease beyond the current term, considering the age of the building, recent space reductions and market conditions.~~
        - ~~Under the Lessors proposal the State will add five years to the term, but the last ten years will be at a Legislative Cancellation clause, making it difficult to leave until 2034.~~
        - ~~Under the Lessors proposal, the State will avoid $15 million in rent, but it will cost the State $30.9 million over the following ten years of a lease extension. The net cost of the extension is $15.9 million.~~
        - ~~The intent of a Lease extension is typically to lock in a rate to hedge against future rent increases. In this case, the extension rate exceeds the predicted market, especially considering the building will approach 50 years old by the end of the lease.~~
        - ~~The State will not likely need the entire 185,000 square feet in 10 years, let alone 20. The current lease is unusual in that the State leases the entire building instead of one lease per agency/program.~~
        - ~~If implemented, the proposed extension will exceed recent precedent.~~

- ✓ Kalamazoo – DHHS Options –

- Mike and Bob Burns meeting with Kurt Warner on November 19th.
- ~~Met with potential Alcott Street Lessor which is a private lessor (not the county/city).~~
- ~~They revised their site plan to push DHHS farther away from county services than planned and increase their rate slightly.~~
- ~~Evaluating with DHHS to determine if programmatically beneficial to move to this site.~~
- ~~State owned option still preferred but if state owned not viable a second lease site may be next best alternative.~~
- ~~Bob discussing with Kurt Warner.~~
- ~~Scheduling a meeting with Tim Becker/DHHS to gain his feedback/wishes for whether it is worth approximately an extra $10/SF cost to be adjacent to the other County/City Health Services targeted for the Alcott site.~~

✓ Emergent/Bio Solutions Property: (Bob reported no change on this. Do you still want to include?)
- Rental agreement for land signed.
- Longer term lease in progress.
- Conveyance bill being discussed with Matt Sweeney.
- RED continuing to work through the process.

Agency Collaboration/Projects:

✓ Furniture RFP
- RFP was posted on Buy4Michigan on Thursday, October 1st.
- Tentative Bid Timeline (Contingent upon Plante Moran's availability, dates may change.)

Bid Posting	10-1-15
Pre-Proposal Bidder Phone Conference	10-9-15
Bidder Questions Due	10-30-15
Answers to Questions Published	11-9-15
Bids Due	11-30-15
Submit to Ad Board for Approval	5-17-16
Transition Period	5-20-16 to 7-29-16
New Contract Start Date	8-1-2016

- FBSA and Procurement met to finalize responses to the vendor questions on Friday, November 6th.
- Some sections require feedback/response from Plant Moran and have been sent to them by Procurement for updating. Our staff is also finalizing responses on a few others.

✓ LTA Location – Potential FBSA Move (Requested an update from Tim Hall on Fridays meeting)
- Floorplan essentially complete with agreements from all three divisions.
- FBSA staff met with Krisi Thompson on November 9th to discuss and coordinate solution that addresses needs and goals for work area.
- ~~Floorplan options/needs continue to be reviewed.~~
- ~~FBSA met with Joyce and Kristi to discuss needs. Input provided from Kristi on October 1st. FBSA staff are following up to discuss further and determine financial responsibility for items that are specific to her program needs not covered in the BOA.~~
- ~~Team completed review of any and all options for space to determine if LTA is the best option. There are pockets of space in State owned buildings, but nothing that will accommodate the entire FBSA team of approximately 80 staff.~~
- ~~FBSA team worked with Phil/Greg/Lisa on validation of funding available. Budget information was passed on to Nancy Duncan on Tuesday, October 13th.~~

- Per email from Lisa Shoemaker on Friday, October 30th, funding for move has been approved.
- LTA estimate down to $5.7 with more work being done to sharpen that number. Looking for improvements on items that are not necessarily needed to move in.
  - Reviewing potential work items such as exterior patio, landscaping as well as cabinetry and millwork interior items and furniture installation that may be able to be provided using internal DTMB resources.
  - Funding delays created a substantial challenge to the timeline and FBSA may have to move twice however, with funding resolved and approval of construction contracts expected soon we will be analyzing in detail all options available to avoid the time, expense and inconvenience of a double move.
  - This process will continue over the next 4-6 weeks as construction is released, material & equipment deliveries are confirmed, etc.
  - Construction contact work has been released for bidding and bids are expected to be received and under review within the next 2-3 weeks.
  - Real Estate design staff is finalizing office furniture designs and details.
- ~~Timeline is getting very tight. FBSA will likely have to move twice.~~
- ~~Upon confirmation of CAR Funds available, what is the process for approval for FBSA to move forward with plans to occupy/renovate LTA for permanent use?~~

✓ FM Systems (You mentioned you had connected with Troy on this – are you able to update or do you need me to connect with Troy?

- 9/21/2015 – Jarrod Barron, DTMB Buyer, asked FBSA to review the various proposals received from the various Governmental agencies whom utilize FM Systems.
- 9/22-25/2015 - Anne Brys, Julie Proux and Troy Bos all separately reviewed the proposals and selected the North Carolina State University proposal as the agreement to utilize for the State of Michigan. An e-mail recommendation was sent to DTMB Procurement to proceed on 9/25/2015.
- 10/2/2015 – Additional meeting scheduled between FM Systems and BOD's Maintenance Engineering personnel to find a solution to the inventory aspect on work orders and determine how we can use the system to roll up these needed costs. A meeting is scheduled for October 26, 2015 with BOD and FM Systems.
- 10/8/2015 – Procurement connected the legal documents from NCSU to UNC to the State of North Carolina and is researching the laws of North Carolina's procurement rules and it is looking hopeful. In the interim, Procurement sent samples of several Statement of Work (SOW) documents for Troy to write a new FBSA SOW to ensure our needs will be addressed by the software contract.
- 10/29/2015 – FM Systems meeting with MDOT at the Van Wagoner building for demo.

✓ OIP Organizational Updates (Anything new here…? I don't know that there is other than talking to Keith about the justification for other parts of OIP)

- Met with Chris and Christian on 10/7.
- Mutual agreement to move the Parking and Customer service center over to FBSA.
- OIP would like to keep all things related to Security Systems and reviewing Repair.
  - Would still need some support from us for badging in some cases.
- Still reviewing Safety training, disaster recovery role held by Jeanette and synergy with Joel/Judy positions with Dan.
- OIP in the process of providing Mike names/responsibilities of each individual in OIP and suggested transfer to FBSA by individual programs. Planning to meet again in a few weeks.

- ✓ State Christmas Tree Search (Can we remove?)
  - Tree selected ~~is coming~~ from Wakefield – 10 miles east of Ironwood and the Wisconsin border and successfully made the trip to Lansing on Saturday, October 31st. ~~.~~
  - ~~Tree will arrive at the Capitol the morning of Saturday, October 31st.~~
  - ~~Press Release: Yesterday, Wednesday, October 14th.~~
  - Tree lighting will take place on Friday, November 20th as part of Silver Bells.

- ✓ MiMove Process Update
  - Drafted a note for MiMove team from sponsors. ~~Rod and Brom's review to send to Pam and Team.~~
  - Response was received on Monday, November 2, 2015.
  - Currently reviewing the information.
  - Meeting was originally scheduled for Tuesday, November 3rd however was postponed to allow for time to review information sent by team in response to sponsor inquiry. Expected to be rescheduled in early December.
  - ~~Would like to send from all three as project sponsors if in agreement.~~
  - ~~Meeting scheduled for Monday, October 26th. Attendees include Mike, Fran, Pam Kenney, Eric Swanson, Troy Spitzley, Jennifer Poirier, Kerri Droste.~~

- ✓ House Committee Appropriations Meeting (Can we remove this since Brom was in attendance?)
  - Scheduled for Wednesday, October 28th.
  - Bob Burns will be attending to provide the update on the CAR project.
  - I am scheduled to attend the Off-Site Tower Rescue Drill that David is attending. I indicated to Matt that I can attend to support Bob if critical. Reviewing needs with Matt, Greg DeCamp and Bob.

- ✓ DTMB Web Pages – External/Internal - Customer Service Liaison Position (12) (Can we remove?
  - ~~32 applicants – H/R screened down to 4 for internal review~~
  - Rachel Brim being selected as the qualified candidate. Start date ~~to be determined~~set for pay period beginning 11/22/15.
  - ~~MSP and GOB sites will be a priority.~~
  - ~~Meeting with MSP Public Affairs Manager and Key Contact to work out details on adding our link to their page. Caleb offering assistance as well to connect with MSP.~~

- ✓ Building Closures
  - At approximately 3:30 p.m. on Monday, October 12th, the Cass building was closed due to a plumbing issue.
  - The Building Closure process was followed (Building Closure Procedures Quick Reference attached).
  - I was on-site and made some observations relating to notification process/approval, use of PA, Email Notifications, etc. A lessons learned meeting will be held with the key players to validate process and roles.
  - Additional meetings will be held with OIP to ensure building closure documents, policies and procedures are up to date and current.
  - Further training and communication on building closures will be communicated with staff.
  - The meeting to discuss Business Continuity was held on Wednesday 11/4.
  - Jeanette, Chris Christiansen (via phone) and Jeff Pratt from OIP participated in addition to our FBSA staff.

- Action items include updating all policies including the Ad Guide, BOD will be holding refresher training with Facilities Supervisors and Building Trades Supervisors on building closures including use of the PA system.
- Also discussed the need for a 'scripted announcement' to be kept near the PA systems in the buildings.
- The group discussed new monitor vests and monitor flags for volunteers work stations. Jeanette will look into options.

✓ DTMB – "Ten Commandments" Discussion (Can we remove?) Developed and have been sent to Kelly)

- Have met with Team and requested 1 – 3 good examples from each Division.

✓ DHHS New Lab Review (Kerri has printed email – will discuss with Mike)

- DHHS Lab tour feedback. DHHS Lobbying hard for a new facility. DEQ content.
- Option to expand, double the size of existing facility.
- P3 review document. Feedback from FBSA and Deb Roberts. (Attached)
- Next steps.

✓ Tower Rescue Scenario – Wednesday, October 28th (Can this be removed. I believe you said you had been in contact with David in Brom on the day's events but can update here if needed)

- David confirmed he can attend morning portion.
- Brom's availability for any/all?
- Agenda attached for review/reference. Highlighted sections are desirable for Executive attendance.

✓ DTMB Health and Safety

- ~~Sharon Ellis requested a meeting with Dan Morgan – Meeting was held on September 22nd. Placed Dan in an awkward position.~~
- ~~Sharon offered assistance from Judy and Joel.~~
- ~~Dan discussed a couple of ongoing program needs.~~
- ~~Sharon requested a written memo from Dan regarding the assistance Joel and Judy could provide.~~
- ~~Dan responded to Sharon via voicemail that we were looking at other options including utilizing BOD staff.~~
- Mike met with Sharon on Friday, October 23rd.
- Sharon was going to be scheduling a meeting (a meet and greet) for Mike to meet Joel and Judy. That meeting has not been scheduled at this point.

Additional Items you may want to include?

- On Call/O.T. Exception Requests and/or Henry email?
- Anything regarding Op Ex?
- State Veterans Home request from Lisa?
- KPMG/HOK
- Do you want to talk to Brom about changing FBSA's name?

- Update on Crucial Conversations? We believe all staff have taken or are scheduled however the next report to confirm will not be available from OPM until December 2nd.

- Do you want to talk to Brom about NASFA?

DTMB
Facilities and Business Services Administration

Customer Roundtable

MICHIGAN DEPARTMENT OF TECHNOLOGY, MANAGEMENT AND BUDGET

Welcome and Introduction

Michael A. Turnquist, Senior Deputy Director,
Facilities and Business Services Administration

DTMB

Customer Roundtable Agenda

- Introduction- Mike Turnquist
- DTMB Customer Satisfaction Survey- Mike Turnquist
- Building Web Pages/Monitors- Mike Turnquist
- Capital Area Reconfiguration (CAR)- Bob Burns
- Energy Star/Statewide Benchmarking - Keith Paasch
- National Association of State Facilities Administrators – Mike Turnquist
- DTMB Video - ???Christyn Herman will let me know Wednesday

Customer Satisfaction Survey - Results

- Based upon areas with the highest negative ratings, FBSA is targeting the following areas to focus on improving customer satisfaction:
  - Communication
  - Timeliness/Urgency
  - Education – SLA's
  - Follow-up
  - Achieving a "Wow"

Action Items

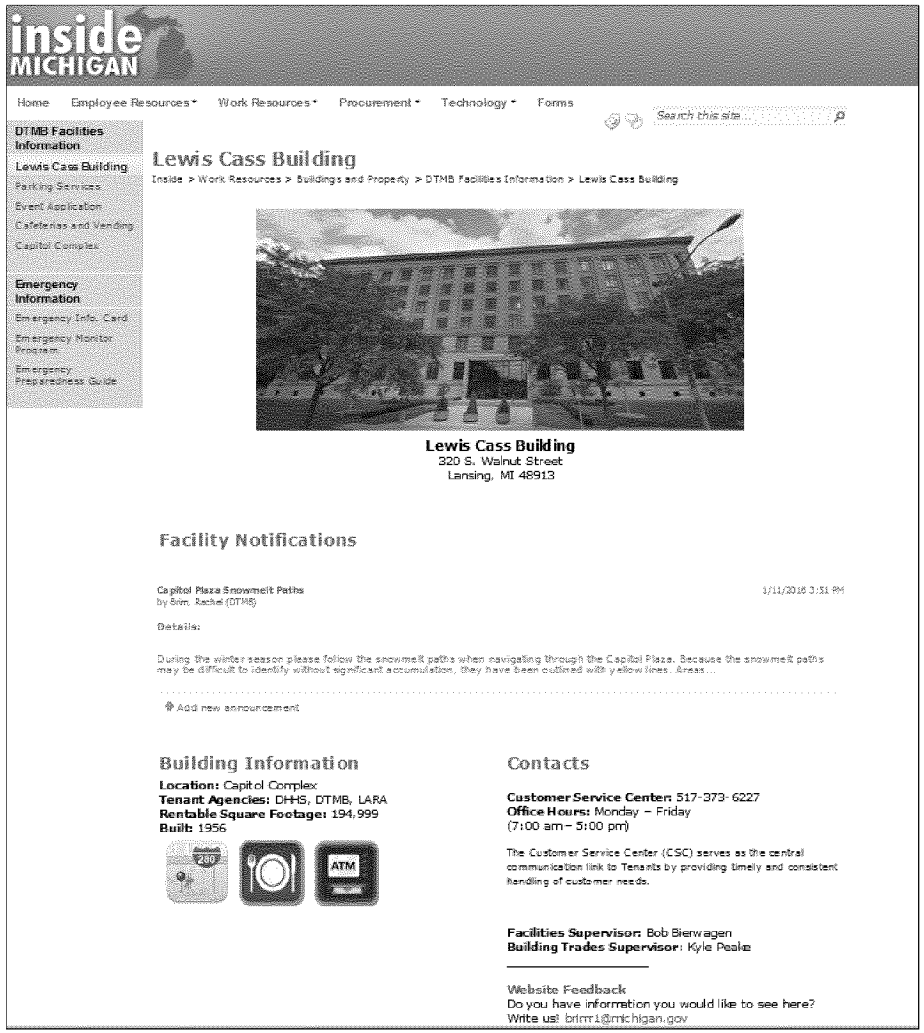
- Communication:
  - Develop survey/comment box function using the **Facility Building Intranet** pages – Implement an "Ask FBSA" function
  - Hold regular "Engagement Meetings" with all agencies
    - Document and memorialize success stories and agency feedback – Validate Customer expectations and Deliver
  - Implement common software applications that would allow Agencies to monitor project status and support move requests
  - Establish and communicate/document SLA's, timelines and clear scope of service with our Customers that they can rely on
  - ALWAYS reach out to the Customer before they have to reach out to us for status

Action Items

- Timeliness/Urgency:
  - Evaluate project loads to determine staffing needs
  - Recommend changing some approval processes and seek amendments to Administrative Rules to improve turnaround times
  - Improve timelines on SAB approvals on smaller CCO/Construction items in leased facilities
  - Simplify leasing regulations, statutes and requirements to improve efficiency

Action Items

- Voice of the Customer – Engage & Report:
  - Timely and effective planning and status reporting. Reach out to Customer **before** they have to reach out to us
  - Investigate job performance survey options
    - Acknowledge/review each survey
    - Formulate action/responses and let them know that we heard from and appreciate the feedback



Next Steps

- Make effective communication with our Customers the normal culture
- Establish regular cadence “Customer Engagement Meetings” to validate providing what our Customers need
- Continue to build on the success we have established with the CAR Project (4.61 Satisfaction Score) for Project Planning, Communication and Execution
- Implementation of new Facilities/Occupancy Planning/Project Management platform – Including other Agencies
- “Achieving the Wow”

opportunity

Building Web Pages and Monitors

New building webpages will roll out this year, with opportunity to include:

- **Quick links to the Service Catalog, building agencies, emergency monitor training**
- **Cafeteria hours/menu/locations**
- **Evacuation plans/AED location map**
- **Conference room information and maps**
- **Building policies and procedures**
- **Link to Customer Satisfaction survey**
- **Building amenities**
- **Energy Star information**
- **Local events, weather, traffic info.**

Questions/Follow up

Capital Area Reconfiguration (CAR) Update

Bob Burns, Director, Real Estate Division

DTMB

Purpose

- Approximately 2,000 employees from multiple agencies will be relocated in several phases to:
  - Align related Michigan State Police (MSP) functions in the same or adjacent buildings.
  - Align related Department of Health and Human Services (DHHS) functions in the same or adjacent buildings.
  - Vacate Capitol View Building for Senate ownership.

[Speaker Notes For Slide: 13]

…is one of the largest relocation projects in recent years, which will relocate approximately 2,000 employees in the Lansing area.

I have include d some slides for your review in the packet, which I will reference in my discussion.

This project has three major goals:
Align most Michigan State Police functions in the same or adjacent buildings.
Align many Department of Health and Human Services functions in the same or adjacent buildings.
Vacate Capitol View Building for Senate ownership.

Purpose

- Public Safety Campus
  - Located at the State's Secondary Complex in Dimondale:
  - General Office Building (GOB)
- Program adjacencies include:
  - MSP Headquarters
  - State Emergency Operations Center (SEOC)
  - Other Lansing-area MSP-related functions
  - Joins the State Police Training Academy, Laboratory, 1st District Post and warehouse functions already located at the Secondary Complex.

[Speaker Notes For Slide: 15]

More specifically…

Begins the creation of a Public Safety Campus at the Secondary Complex, adding most major functions of the Michigan State Police to the General Office Building, which will soon include the State Emergency Operations Center, which is under construction as an addition to the GOB.

Plus:
Michigan Public Safety Communications System (MPSCS)
DTMB-IT Cyber Security
And other functions related to MSP will moving into the Building.

By moving MSP to Secondary Complex,. They will join the State Police Training Academy, Laboratory, 1st District Post and warehouse functions.

Purpose

- Supports the creation of a Health and Human Services Campus
  - Two adjacent buildings on Grand Avenue in Lansing
    - Grand Tower Building (235 S. Grand Ave.)
    - Current Michigan State Police (MSP) Headquarters Building (333 S. Grand Ave.)

[Speaker Notes For Slide: 17]

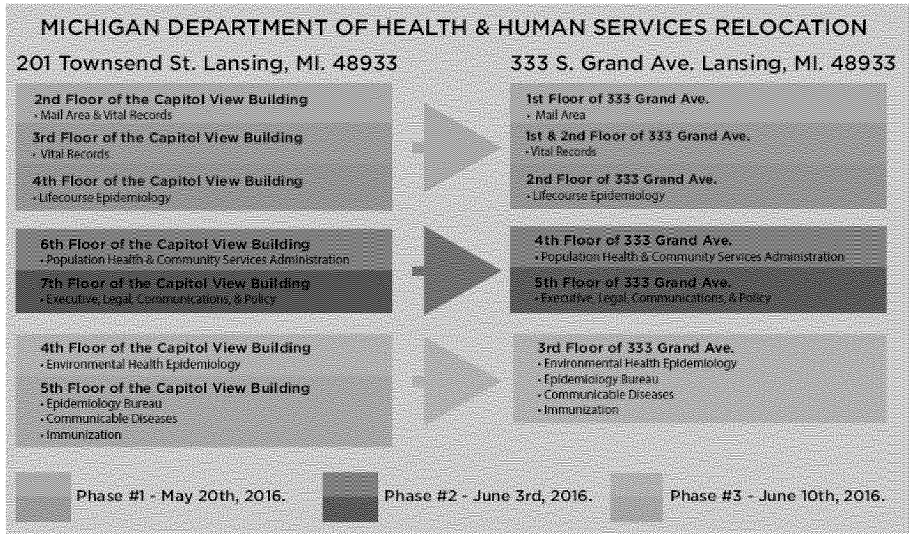
This project also…

…Begins the creation of a Health and Human Services Campus for the newly created DHHS within two adjacent buildings on Grand Avenue.
Grand Tower Building (235 S. Grand Ave.) which formerly housed the DHS executive offices and other functions.
Current MSP Headquarters Building (333 S. Grand Ave.)

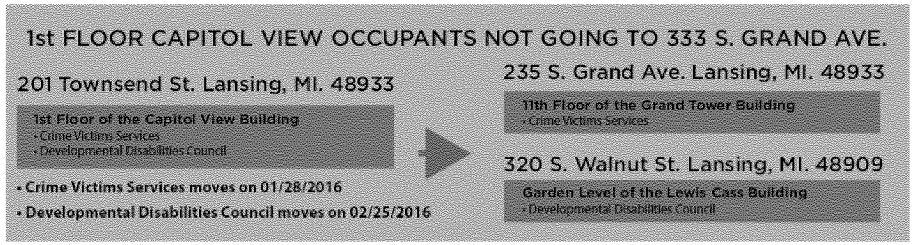
Completed Moves

- Project Began in May, 2015
- Approximately XXX + staff already moved:
  - DTMB-ORS – To Mason
  - Multiple Licensing and Regulatory Affairs (LARA) programs out of GOB: MIOSHA, Wage and Hour Program, Liquor Control Commission vacated to the Mason Building, Constitution Hall and other locations.
  - Several other related moves align similar functions of LARA, including Department of Insurance and Financial Services (DIFS).
  - Some MSP functions out of 333. S. Grand Avenue and Collins Road have moved to GOB.

[Speaker Notes For Slide: 19]



So far, significant progress made. xxxx staff have already moved.



The General Office Building is nearly empty.
Moving out included Office of Retirement Systems, and several LARA functions including:
MIOSA, Wage and Hour Program and Liquor Control

The Mason Building, having completed the renovation is nearly full. One small group will be moving in shortly.

Remaining Moves Timeline

Capital Area Reconfiguration
Move Timeline updated on 01/26/16

*Details about **Aging & Adult Services Agency** and the **Business Integration Center** are being developed and will be posted soon.

[Speaker Notes For Slide: 21]

moves dates listed, and I won't go into that detail here, so in short:

1200 xxxx personnel have yet to move…

xxxxxxxx

Other misc. moves are being scheduled by both the agencies impacted, to further align functions, or this project.

-FBSA has also been caugt up in this. Currently remodeling the State W arehouse complex, Bldg 100 to house all of FBSA.

This move will happen in the spring,

Senate will be handling their own move.

Efficiencies

- To meet deadlines:
  - Tenant agencies will move into existing floor layouts wherever possible.
  - Accommodations/alterations are being made to existing workspace only if:
    - there is no impact to the completion schedule.
    - workstations are being added to a floor.
    - can be accomplished within budget and standards.

[Speaker Notes For Slide: 23]

To meet deadlines and save money, we have been forced to do things a little differently, which has been hard on some clients.

Tenant agencies will move into existing floor layouts wherever possible.

Drop into existing furniture without alterations – which is not typical.

Accommodations/alterations are being made to existing workspace only if:
there is no impact to the completion schedule.
workstations are being added to a floor.
can be accomplished within workstation size limits.
DTMB working closely with DHHS, MSP, the Senate Business Office and all contractors.

Customer Service

- To support an efficient process with minimal disruption on personnel:
  - Move management contractor.
  - Single move.
  - Weekend moves whenever possible.

[Speaker Notes For Slide: 25]

To Ease Burden on Personnel impacted by these moves..

Move management contractor aids in communication and planning.

Reduces downtime, aids in packing, provide “change management” program to maintain morale.

Few groups moving more than once.

Weekend end moves: employees return on Monday to their new location.

We survey all staff after every move to make sure we are serving the client.

Customer Service

- Post Move Survey:
  - Packing/moving
  - Communication/timely information
  - Parking
  - Badge/access
  - Printer/telephone/computer functional
  - Workplace ready for use
  - All belongings/crates delivered

[Speaker Notes For Slide: 27]

The most import things we as a client service agency can do is learn from this experience, so we can serve the customers better as CASR moves forward and in future projects.

We are doing post move surveys, whose scores are reported upward to DTMB leadership.

After every move we ask every person about the follow items, to make sure my team, the furniture team, telecom and all others have provide a solid customer experience.

Customer Service

- Survey Results:
  - DIFS 7th Floor Move - Monday, May 11, 2015:
    - Overall Mean Score: 4.69/5.00
  - DIFS 6th Floor Move - Monday, May 18, 2015:
    - Overall Mean Score: 4.74/5.00
  - DIFS 8th Floor Move - Monday, June 1, 2015:
    - Overall Mean Score: 4.58/5.00
  - ORS 4th Floor S&W and 5W - Monday, June 15, 2015:
    - Overall Mean Score: 4.53/5.00
  - ORS 3rd Floor & 5th S - Monday, June 29, 2015:
    - Overall Mean Score: 4.54/5.00
  - ORS 4th Floor E & 5th E - Monday, July 13, 2015:
    - Overall Mean Score: 4.59/5.00
  - MSP to GOB 1st B wing and 2 connector area-Monday December 14, 2015:
    - Overall Mean Score: 4.52/5.00

[Speaker Notes For Slide: 29]

These items are averaged into a 5 pt scale. So far we done well on average, but have identified areas of weaknesses that we have addressed throughout the process.

For one, we continue to work on our telecom communication and performance issues.

Customer Service – Lessons Learned

- Survey results
- Project Management
- Challenged to way we do things: “As-Is” model
- Applying lessons to all future moves

[Speaker Notes For Slide: 31]

Applying the procedures for behind the scenes communications with our other DTMB partners and contractors to furniture moves. – Telecom, Field Services , Furniture contractor
Project has challenged the typical way of doing a move and space reconfiguration. – Can we do is “As-Is”?
Manage leadership expectations for “As-is” space delivery.
Better integrate Design and Construction and Real Estate projects

Questions/Follow up

Energy Star and Statewide Benchmarking

Keith Paasch, Director, Building Operations Division

DTMB

Energy Star and Statewide Benchmarking

- DTMB partnered with the Department of Energy to benchmark state facilities for energy consumption in EPA ENERGY STAR Portfolio Manager
- This initiative targets all state-owned facilities with 20,000 square feet and are occupied by at least 80 full-time employees
- DTMB, DHHS, DMVA, MDOC, MDOT and MSP have 1,029 facilities benchmarked

Energy Star and Statewide Benchmarking

- Top performing buildings that score 75 or better may be eligible to receive an ENERGY STAR Certification
- Buildings that score 75 or higher consume 35% less energy on average
- Facilities that don't qualify for an ENERGY STAR score are rated based on their source Energy Use Intensity (EUI)
  - EUI is calculated by dividing the total annual energy consumed, by the total gross floor area

Energy Star and Statewide Benchmarking

25% of DTMB facilities were awarded the ENERGY STAR Certification in 2015

- Lewis Cass Building
- Constitution Hall
- Ellis Lottery Building
- Flint State Office Building
- Jerome T. Hart Building
- Traverse City State Office Building

Energy Star and Statewide Benchmarking

MI Energy Star is a mobile application integrated with ENERGY STAR Portfolio Manager

- High-level snapshot of the State's energy performance

www.mienergystar.com

Login: som

Password: 0@Michigan

Energy Star and Statewide Benchmarking

- DTMB installing utility sub-meters to monitor energy use
- Create an interface between ENERGY STAR and sub-meters
- Working with the Department of Energy to encourage cities and other local governments, to benchmark public buildings

Questions/Follow up

National Association of State Facilities Administrators

National Association of State Facilities Administrators

- To be added to the NASFA directory, please go to the website at www.NASFA.net and click “Join NASFA” which is located in the top right corner of the page.

- Membership is held by the State, which means any State employee that works with state facilities is welcome to participate, including those from different agencies and departments.

Questions/Follow up

DTMB Video

- Will know after Tuesday if we can show the video

Questions/Follow up

Facilities and Business Services Administration

Customer Roundtable

MICHIGAN DEPARTMENT OF TECHNOLOGY, MANAGEMENT AND BUDGET

Welcome and Introduction

Michael A. Turnquist, Senior Deputy Director
Facilities and Business Services Administration

DTMB

Customer Roundtable Agenda

- Introduction - Mike Turnquist
- DTMB Customer Satisfaction Survey - Mike Turnquist
- Building Web Pages/Monitors - Mike Turnquist
- Capital Area Reconfiguration (CAR) - Bob Burns
- Energy Star/Statewide Benchmarking - Keith Paasch
- National Association of State Facilities Administrators - Mike Turnquist

Customer Satisfaction Survey - Results

- FBSA is targeting the following areas to improve customer satisfaction:
  - Communication
  - Timeliness/Urgency
  - Education – SLA's
  - Follow-up
  - Achieving a "Wow"

Action Items

- Communication:
  - Implement an “Ask FBSA” function using the Facility Building Intranet pages.
  - Hold regular “Engagement Meetings” with all agencies to validate customer expectations and delivery.
  - Implement common software applications that would allow Agencies to monitor project status and support move requests.
  - Establish and communicate to our customers, dependable timelines and clear scope of services.
  - Proactively provide status updates to our customers.

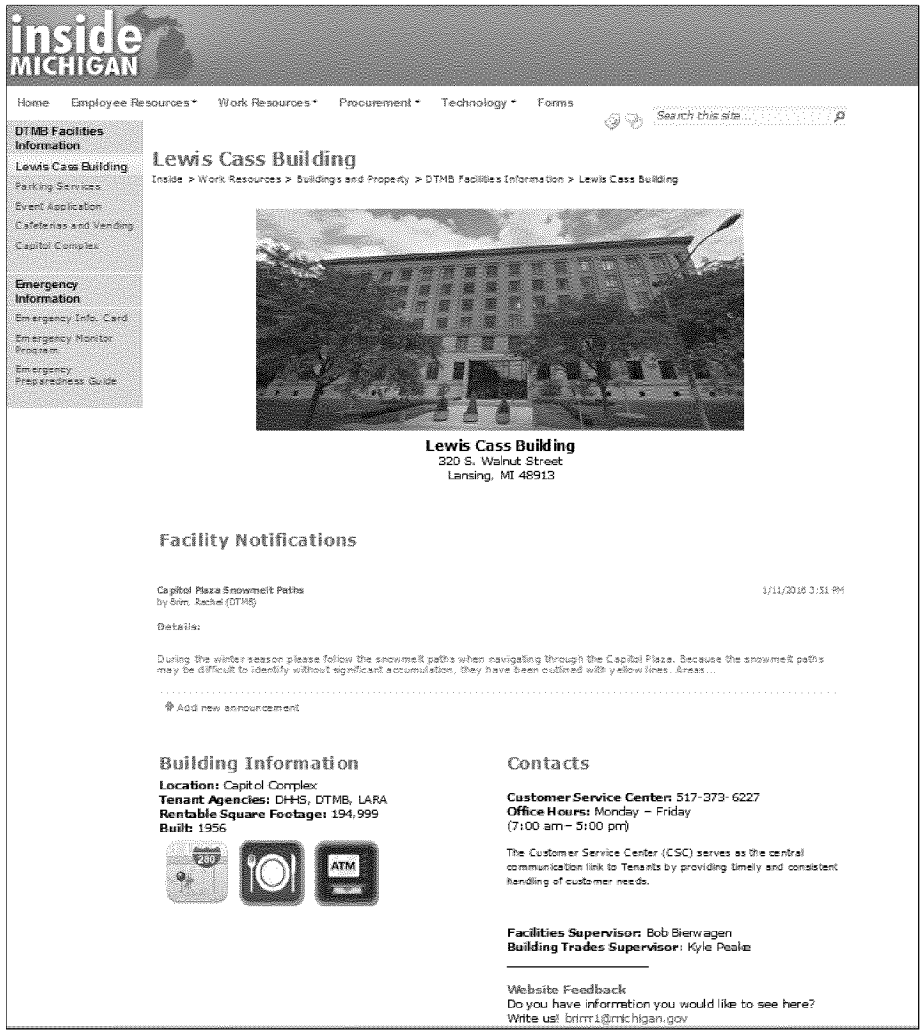
Action Items

- Timeliness/Urgency:
  - Evaluate project workloads to determine staffing needs.
  - Improve turnaround times by recommending approval. process changes and amendments to Administrative Rules.
  - Condense timelines on SAB approvals on smaller CCO/Construction items in leased facilities.
  - Simplify leasing regulations, statutes and requirements to improve efficiency.

Action Items

- Voice of the Customer – Engage & Report:
  - Timely and effective planning and status reporting. Reach out to our Customers **before** they reach out to us.
  - Investigate job performance survey options
    - Evaluate, acknowledge and take action on all surveys received.

Next Steps



- Make effective communication with our Customers the normal culture.
- Schedule regular cadence “Customer Engagement Meetings” to validate the needs of our Customers.
- Continue to build on the success we have established with the CAR Project (4.61 Satisfaction Score) for Project Planning, Communication and Execution.
- Implementation of new Facilities/Occupancy Planning/Project Management platform – Including other Agencies.
- “Achieving the Wow”.

Capital Area Reconfiguration (CAR) Update

Bob Burns, Director, Real Estate Division

DTMB

Purpose

- Approximately 2,000 employees from multiple agencies will be relocated in several phases to:
  - Align Michigan State Police (MSP) functions in the same or adjacent buildings.
  - Align Department of Health and Human Services (DHHS) functions in the same or adjacent buildings.
  - Vacate Capitol View Building for Senate ownership.

[Speaker Notes For Slide: 14]

…is one of the largest relocation projects in recent years, which will relocate approximately 2,000 employees in the Lansing area.

I have include d some slides for your review in the packet, which I will reference in my discussion.

This project has three major goals:
Align most Michigan State Police functions in the same or adjacent buildings.
Align many Department of Health and Human Services functions in the same or adjacent buildings.
Vacate Capitol View Building for Senate ownership.

Purpose

- Public Safety Campus
  - Located at the State's Secondary Complex in Dimondale
  - General Office Building (GOB)
- Program adjacencies include:
  - MSP Headquarters
  - State Emergency Operations Center (SEOC)
  - Other Lansing area MSP-related functions
  - Joins the State Police Training Academy, Laboratory, 1st District Post and warehouse functions already located at the Secondary Complex.

[Speaker Notes For Slide: 16]

More specifically…

Begins the creation of a Public Safety Campus at the Secondary Complex, adding most major functions of the Michigan State Police to the General Office Building, which will soon include the State Emergency Operations Center, which is under construction as an addition to the GOB.

Plus:
Michigan Public Safety Communications System (MPSCS)
DTMB-IT Cyber Security
And other functions related to MSP will moving into the Building.

By moving MSP to Secondary Complex,. They will join the State Police Training Academy, Laboratory, 1st District Post and warehouse functions.

Purpose

- Supports the creation of a Health and Human Services Campus
  - Two adjacent buildings on Grand Avenue in Lansing
    - Grand Tower Building (235 S. Grand Ave.)
    - Current Michigan State Police (MSP) Headquarters Building (333 S. Grand Ave.)

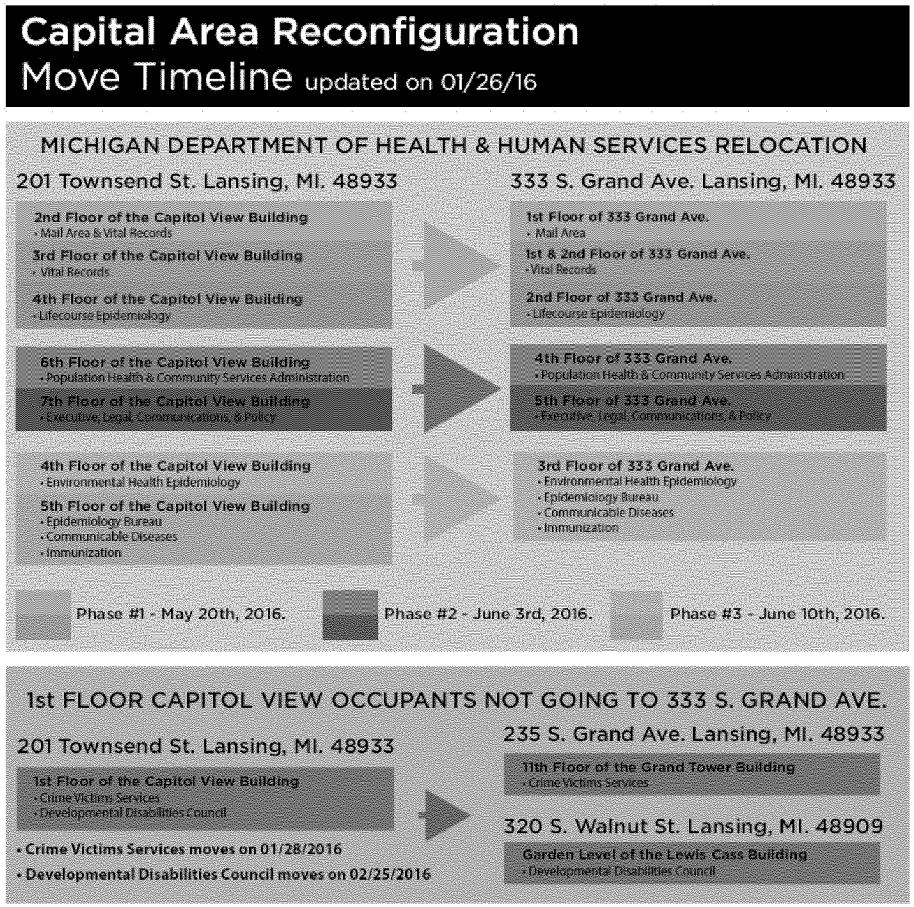
[Speaker Notes For Slide: 18]

This project also…

…Begins the creation of a Health and Human Services Campus for the newly created DHHS within two adjacent buildings on Grand Avenue.
Grand Tower Building (235 S. Grand Ave.) which formerly housed the DHS executive offices and other functions.
Current MSP Headquarters Building (333 S. Grand Ave.)

Completed Moves

- Project Began in May, 2015
- Approximately XXX + staff already moved:
  - DTMB-ORS – To Mason
  - Multiple Licensing and Regulatory Affairs (LARA) programs out of GOB: MIOSHA, Wage and Hour Program, Liquor Control Commission vacated to the Mason Building, Constitution Hall and other locations.
  - Several other related moves align similar functions of LARA, including Department of Insurance and Financial Services (DIFS).
  - Some MSP functions out of 333. S. Grand Avenue and Collins Road have moved to GOB.



[Speaker Notes For Slide: 20]

So far, significant progress made. xxxx staff have already moved.

The General Office Building is nearly empty.
Moving out included Office of Retirement Systems, and several LARA functions including:
MIOSA, Wage and Hour Program and Liquor Control

The Mason Building, having completed the renovation is nearly full. One small group will be moving in shortly.

Remaining Moves Timeline

*Details about **Aging & Adult Services Agency** and the **Business Integration Center** are being developed and will be posted soon.

[Speaker Notes For Slide: 22]

moves dates listed, and I won't go into that detail here, so in short:

1200 xxxx personnel have yet to move…

xxxxxxxx

Other misc. moves are being scheduled by both the agencies impacted, to further align functions, or this project.

-FBSA has also been caugt up in this. Currently remodeling the State W arehouse complex, Bldg 100 to house all of FBSA.

This move will happen in the spring,

Senate will be handling their own move.

Efficiencies

- To meet deadlines:
  - Tenant agencies will move into existing floor layouts wherever possible.
  - Accommodations/alterations will be made to existing workspace only if:
    - there is no impact to the completion schedule
    - workstations are being added to a floor
    - accomplished within budget and standards

[Speaker Notes For Slide: 24]

To meet deadlines and save money, we have been forced to do things a little differently, which has been hard on some clients.

Tenant agencies will move into existing floor layouts wherever possible.

Drop into existing furniture without alterations – which is not typical.

Accommodations/alterations are being made to existing workspace only if:
there is no impact to the completion schedule.
workstations are being added to a floor.
can be accomplished within workstation size limits.
DTMB working closely with DHHS, MSP, the Senate Business Office and all contractors.

Customer Service

- To support an efficient process with minimal disruption on personnel:
  - Move management contractor
  - Single move
  - Weekend moves whenever possible

[Speaker Notes For Slide: 26]

To Ease Burden on Personnel impacted by these moves..

Move management contractor aids in communication and planning.

Reduces downtime, aids in packing, provide “change management” program to maintain morale.

Few groups moving more than once.

Weekend end moves: employees return on Monday to their new location.

We survey all staff after every move to make sure we are serving the client.

Customer Service

- Post Move Survey:
  - Packing/moving
  - Communication/timely information
  - Parking
  - Badge/building access/parking
  - Printer/telephone/computer functional
  - Workplace ready for use
  - All belongings/crates delivered

[Speaker Notes For Slide: 28]

The most import things we as a client service agency can do is learn from this experience, so we can serve the customers better as CASR moves forward and in future projects.

We are doing post move surveys, whose scores are reported upward to DTMB leadership.

After every move we ask every person about the follow items, to make sure my team, the furniture team, telecom and all others have provide a solid customer experience.

Customer Service

- Survey Results:
  - DIFS 7th Floor Move - Monday, May 11, 2015:
    - Overall Mean Score: 4.69/5.00
  - DIFS 6th Floor Move - Monday, May 18, 2015:
    - Overall Mean Score: 4.74/5.00
  - DIFS 8th Floor Move - Monday, June 1, 2015:
    - Overall Mean Score: 4.58/5.00
  - ORS 4th Floor S&W and 5W - Monday, June 15, 2015:
    - Overall Mean Score: 4.53/5.00
  - ORS 3rd Floor & 5th S - Monday, June 29, 2015:
    - Overall Mean Score: 4.54/5.00
  - ORS 4th Floor E & 5th E - Monday, July 13, 2015:
    - Overall Mean Score: 4.59/5.00
  - MSP to GOB 1st B wing and 2 connector area-Monday December 14, 2015:
    - Overall Mean Score: 4.52/5.00

[Speaker Notes For Slide: 30]

These items are averaged into a 5 pt scale. So far we done well on average, but have identified areas of weaknesses that we have addressed throughout the process.

For one, we continue to work on our telecom communication and performance issues.

Customer Service – Lessons Learned

- Survey results
- Project Management
- Challenged the way we do things: “As-Is” model
- Applying lessons to all future moves

DTMB

HELP. CONNECT. SOLVE.

[Speaker Notes For Slide: 32]

Applying the procedures for behind the scenes communications with our other DTMB partners and contractors to furniture moves. – Telecom, Field Services , Furniture contractor
Project has challenged the typical way of doing a move and space reconfiguration. – Can we do is "As-Is"?
Manage leadership expectations for "As-is" space delivery.
Better integrate Design and Construction and Real Estate projects

Questions/Follow up

Energy Star and Statewide Benchmarking

Keith Paasch, Director, Building Operations Division

DTMB

Energy Star and Statewide Benchmarking

- DTMB partnered with the Department of Energy to benchmark state facilities for energy consumption in EPA ENERGY STAR Portfolio Manager.
- This initiative targets all state-owned facilities with 20,000 square feet and are occupied by at least 80 full-time employees.
- DTMB, DHHS, DMVA, MDOC, MDOT and MSP have 1,029 facilities benchmarked.

Energy Star and Statewide Benchmarking

- Top performing buildings that score 75 or better may be eligible to receive an ENERGY STAR Certification.
- Buildings that score 75 or higher consume 35% less energy on average.
- Facilities that don't qualify for an ENERGY STAR score are rated based on their source Energy Use Intensity (EUI).
  - EUI is calculated by dividing the total annual energy consumed, by the total gross floor area.

Energy Star and Statewide Benchmarking

25% of DTMB facilities were awarded the ENERGY STAR Certification in 2015:

- Lewis Cass Building
- Constitution Hall
- Ellis Lottery Building
- Flint State Office Building
- Jerome T. Hart Building
- Traverse City State Office Building

Energy Star and Statewide Benchmarking

MI Energy Star is a mobile application integrated with ENERGY STAR Portfolio Manager.

- High-level snapshot of the State's energy performance

www.mienergystar.com

Login: som

Password: 0@Michigan

Energy Star and Statewide Benchmarking

- DTMB installing utility sub-meters to monitor energy usage.
- Create an interface between ENERGY STAR and sub-meters.
- Working with the Department of Energy to encourage cities and other local governments to benchmark public buildings.

Questions/Follow up

National Association of State Facilities Administrators

National Association of State Facilities Administrators

- To be added to the NASFA directory, please go to the website at www.NASFA.net and click “Join NASFA” which is located in the top right corner of the page.

- Membership is held by the State, which means any State employee that works with state facilities is welcome to participate, including those from different agencies and departments.

Questions/Follow up

Facilities and Business Services Administration
2015 Accomplishments

Real Estate Division

- **Lease Savings and Portfolio**
  - In FY 2015, DTMB Real Estate Division has eliminated 10 leased facilities, totaling 159,080 square feet of space. This totals $2.1 million worth of annual base rent eliminated through the maximization of state-owned buildings, moving personnel into other existing leases, and reducing workstations sizes.

- **Real Estate Successful Audit**
  - The DTMB-Real Estate Division (RED) recently underwent an external audit, performed by the Legislature's Office of the Auditor General (OAG). Real Estate was rated as "Effective" the OAG's highest rating. The audit only made only one recommendation, noting only a reportable (minor) condition (of which RED agrees).

- **High-Profile Projects**
  - *Marshal Regional Law Enforcement Center:* Completed lease and construction of the new Marshal Regional law Enforcement Center. This project collocates the Calhoun County Sheriff's Office, City of Marshal and the Michigan State Police in a regional law enforcement center, combining the three agencies into a single location.
  - *Public Service Commission:* Finalized relocation of the Public Service Commission into an energy efficient, cost-effective location in the Lansing area after being forced to relocate after a flood.
  - *Gaylord Service Center Expansion:* The State once maintained more than 12 State of Michigan leased facilities throughout the City of Gaylord. In 2013 eight were combined into a single building. This year, the Michigan State Police consolidated an additional three leased locations into the facility, bringing the total consolidation of eleven facilities into one. The center not includes the MSP, DOS, DMVA, LARA and DHHS.

- **State as Lessor – income year-to-date**
  - 33 State as Landlord Leases totaling $2.6 million in annual rent to the State.

- **Capitol Area Reconfiguration (CAR)**
  - Moved over 730 of staff from May 2015 to the present.
  - In post-move customer surveys, personnel moving to Mason rated gave DTMB a 4.61 out of 5 score for move satisfaction.
  - Project is 50% complete and is on time and on budget.

- **Land Sales**
  - Camp Manistique, DOC Property in Manistique, MI. Private sale for $150,000, exceeding appraised value and allowing for the creation of a new business in the area.

- **Projects Completed**
  - So far in 2015, has completed 88 interior design and minor construction projects.
  - So far in 2015 have processed 321 leasing and land-related transactions ranging from lease acquisitions, land sales, easements, lease adjustments, lease cancellations and more.

Design and Construction Division

- Complete renovation of the Stevens T. Mason Building. This $28M project included all new mechanical, electrical, along with interior finishes.

- DOC Hiawatha Video Management and Perimeter Surveillance Enhancement Project. This $3.75M project also included perimeter security and sally port improvements, and fire alarm system upgrades, which allowed the department to reopen the closed Kinross/Hiawatha correctional facility. The initial work which was intended to transfer 1,200 inmates was initially planned to take 22 months but then shorten to 10. The work was completed as requested by DOC.

- Worked with DNR in managing the Wilderness State Park Lakeshore Redevelopment Master Plan, which was awarded the 2015 Planning Excellence Award from the Michigan Chapter of the American Planning Association.

Building Operations Division

- Recycling: DTMB increased recycling efforts and was able to make money for the state by recycling old materials in FY 2015:

Metal:	$6,691.55
Wood Palettes:	$290.25
Lighting:	$25,085.43
Paper:	$81,818.97
TOTAL:	$114.606.20

- ENERGY STAR: DTMB has six building receive the ENERGY STAR award in 2015 for the first time.
  Constitution Hall
  Flint State Office Building
  Jerome T. Hart Building/Saginaw State Office Building
  Lewis Cass Building
  Lottery Building
  Traverse City State Office Building

  ENERGY STAR designation are given for top performing buildings in energy efficiency. DTMB anticipates more of its building qualifying as new energy metering is installed.

- Frank Kelley Walkway Fountain: The fountain on the Frank Kelley Walkway was decommissioned in the early 2000's because of budget restraints. Lack of use contributed to deterioration and made the fountain inoperable. Previously bids were received to fix the fountain that would have cost the state up to $150,000. In 2015 a team of DTMB employees under-took the challenge of restoring the fountain to its former glory and were able to get the fountain working again for only $5,000 in parts and materials.

Health and Safety

- Tower Rescue Scenario/Training Exercise was held on Wednesday, October 28, 2015 in Perry, Michigan which was a joint effort from Department of Technology Management and Budget Michigan Public Safety Communication Systems (MPSCS) Steeplejacks, Region 1 Urban Search and Rescue (USAR) Team, Shiawassee County Emergency Management, Shiawassee County Central Dispatch (911), Perry Area Fire Department, DTMB–MPSCS Network Communication Center (NCC), Michigan State Police (MSP) Aviation Unit, and DTMB Health and Safety.

Hi David,

DynGlobal manufactures units to remove heavy metals including lead from drinking water. Our technology is scalable from under sink units to large municipal scale facilities.

Please let me know how we can assist Flint to remove lead or other metals or bacteria from drinking water. DynGlobal's technology can be rapidly deployed within less than two months to resolve the current emergency situation.

Thank you and best regards,

Vern

Subject: Re: Lead in Drinking Water

Hi - I would send this out to Mike T and Chris Christensen and they can share it with the teams at the SEOC. I would make sure all of them get forwarded as you never know which one might be the right one!

Thanks,
David

Subject: Lead in Drinking Water

Hi David,

DynGlobal manufactures units to remove heavy metals including lead from drinking water. Our technology is scalable from under sink units to large municipal scale facilities.

Please let me know how we can assist Flint to remove lead or other metals or bacteria from drinking water. DynGlobal's technology can be rapidly deployed within less than two months to resolve the current emergency situation.

Thank you and best regards,

Vern

35. This includes Federal partners from FEMA, HHS, CDC and EPA.

The ideal space would be an open space that can accommodate the entire amount and also include a break-out area for meetings of about 12-15 people. I talked directly to the FEMA representative requesting the space. They will make whatever we give them work. They do not want to incur any additional costs.

Chris, we can work out the details on providing the 12 spaces to FEMA tomorrow. The concern is that we are told there could be a total of 40 FEMA spaces needed? Can you confirm? Will need to solution another option to meet those needs if valid? Plan for taking the 12 tomorrow for short term, we will need to communicate with DHHS. Please advise, thanks

On Jan 25, 2016, at 4:24 PM, Phillippo, Jamie (DTMB) <Phillippoj@michigan.gov> wrote:

Mike-

Keith Paasch, Bob Burns, Larry Scates, Jim Clark and I met to discuss the request for additional space in Flint. The building is considered full, as in the office space as designed is assigned. We determined that the best way to serve our current clients and the additional resources needed to deal with this crisis may be to find additional space close by. We came up with several ideas (U of M Flint, School for the Deaf in Flint, City of Flint or FEMA bringing in trailers onsite). Maureen Bailey has confirmed 7,000 sq ft is available on Bristol Road at $12/sq. ft. plus utilities.

Please see the attached prints in reference to space. There is one group of 12 stations that was occupied by Civil Rights plus two offices originally designed for the Governor that the Governor no longer needed on the 5th floor that is highlighted in green. DHHS is taking over the space and has a reconfigure planned starting in March. DHHS is temporarily using the majority of this space until 7th floor is complete. The area reference below is highlighted in yellow within the green space. As stated below, DHHS staff are already in these station and in order for it to accommodate we would need to relocate the staff and tear down the furniture. The other rooms highlighted in orange within the green box have already been occupied by the Governor's staff as well as FEMA personnel. Two open areas are left in the building-the 5th and 6th floor lobbies. The 6th floor is already over occupancy and therefore we cannot add people here.

As for adding people in the 5th floor lobby, I'm not sure how our tenants of the floor would be with that as this floor was not supposed to be accessed by the public.

Please let us know how you would like to proceed.

Subject: Flint SOB drinking water notice action

Team,

We have the notices posted and the new water dispensers have been installed at all the drinking fountain locations at the Flint State Office Building in reaction to the City of Flints notice of a violation in the drinking water standard for the water they supply to our Flint Facility. Please see photo attached. The potable water vendor couldn't deliver till Friday so we pick up the equipment and installed to avoid any extra disruption this issue may cause our tenants and visitors to the building. We worked the vendor for a new customer price so the first month rent on the dispensers was free and will only be $7.00 per month after that with a price of $4.00 per 5 gallon container of water. I have made contact with the City of Flint Water Department to gain more information on the corrective action plan and possibly the time line to correct the issue but they were unable to provide any

more information at this time. Please let me know if more action is necessary and I will keep everyone posted if I hear any new information on this issue.

Thank you,
Brian

Chris,

A few of the most recent web links to your question about Flint's drinking water, most of the articles mention those with "severely compromised immune systems" infants and the elderly may face an "increased risk" and should seek advice regarding drinking water from their healthcare providers. Also says there currently is no "Boil Order"

Introduction

The use of an Automated External Defibrillator (AED) increases the rate of survival of personnel that may have sudden cardiac arrests. AEDs make it possible for responders to administer defibrillation prior to the arrival of professional emergency medical responders.

Sudden cardiac arrest is unpredictable and most often fatal. A person's chance of survival can be increased by establishing a chain of survival that includes cardiopulmonary resuscitation and defibrillation by responders equipped with an AED.

Scope

This document describes the policies and procedures relating to an early defibrillation program utilized in State-owned, Department of Technology, Management and Budget (DTMB)-managed facilities in the event of a medical emergency.

Purpose

The purpose of this document is to establish a consistent guideline for application, location, maintenance and other components described involving the early defibrillation program. The goal is to provide the appropriate defibrillator coverage with a response time of three to five minutes from time of incident to first shock to increase the chance of survival.

The Department of Technology, Management and Budget is committed to the safety of its building occupants. This AED program has been developed to ensure the availability, maintenance and proper use of the AEDs that are located in DTMB-managed state-owned facilities throughout the State of Michigan.

Assumptions and Constraints

The Project Implementation Plan describes the assumptions made regarding the development and execution of this document as well as the applicable constraints.

Identified assumptions and constraints are:

a) Schedule of project implementation
b) Funding allotted for purchase of AEDs and maintenance
c) Placement of one AED in the lobby of each DTMB-managed state-owned facility not already equipped with a DTMB device
d) Training of department responders
e) AED replacement pads
f) Inventory checks
g) Device back into service after use

Definitions

Automated External Defibrillator (AED): An automated computerized medical device that analyzes heart rhythm to detect cardiac arrest and delivers an electric shock to the heart (defibrillation) if necessary. It is used to restore normal heart rhythm to patients in cardiac arrest.

AED Program Coordinator: The Department of Technology, Management & Budget will provide the overall coordination of the DTMB AED program in DTMB-managed state-owned facilities.

AED Program Manager: DTMB personnel assigned to coordinate and responsible for maintaining the department's program.

Cardiopulmonary Resuscitation (CPR): Rescue breathing and external cardiac compression applied to an individual in respiratory and or sudden cardiac arrest.

Cardiac Chain of Survival: Optimizing a patient's chance for survival of sudden cardiac arrest. There are four links in the chain: early recognition, early CPR, early defibrillation, and early access to advanced cardiac life support.

Emergency Medical System (EMS): Professional community responder agency for emergency incidents, who provide medical assistance and / or ambulance transport.

Sudden Cardiac Arrest (SAC): A significant life-threatening event when a person's heart does not produce a pulse.

Training Coordinator: DTMB's Health and Safety Office is the contact for all training requirements associated with the devices.

Facility Location

Using the American Red Cross's recommendations, the devices are placed in areas that are easily accessible within the facilities. Monthly inspections of the AEDs will be facilitated.

Liability and Good Samaritan Act

Liability of Certain Persons for Emergency Care, MCL 691.1501 to 691.1507 – is commonly referred to as *The Good Samaritan Act*.

An individual who having no duty to do so in good faith voluntarily renders emergency services to another individual using an automated external defibrillator is not liable in a civil action for damages resulting from an act or omission in rendering the emergency services using the automated external defibrillator, except an act or omission that constitutes gross negligence or willful and wanton misconduct.

House Bill 4420 (1999)
An individual who having no duty to do so in good faith voluntarily renders CPR to another individual is not liable in a civil action for damages resulting from an act or omission in rendering the CPR, except an act or omission that constitutes gross negligence or willful and wanton misconduct.

The following persons are not liable in a civil action for damages resulting from an act or omission of an individual rendering emergency services using an AED, except if the person's actions constitute gross negligence or willful and wanton misconduct:

a) A physician who provides medical authorization for use of an automated external defibrillator.
b) An individual who instructs others in the use of an automated external defibrillator.
c) An individual or entity that owns, occupies, or manages the premises where an AED is located or used.

Equipment

The HeartStart FRx Defbrillator is the device approved for this program and conforms to all state and local standards. Each AED has:

a) One set of defibrillation electrodes connected to the device
b) One fast response kit containing a pair of gloves, one razor, one pair of trauma shears, one towel and one facemask barrier device
c) One infant / child key
d) Alarmed cabinet
e) AED wall sign posted above wall cabinet

Equipment Maintenance

All AED equipment and accessories shall be maintained in a state of readiness and per manufacturer guidelines:

a) The AED program manager shall be informed of changes in availability of an AED (i.e.; taken out of or returned to services);
b) The program manager shall ensure all monthly maintenance tasks are performed to include inspecting ready kit for all accessories, checking device status (green light, or beeping for service), verify pads are installed and expiration dates for the pads and battery.

c) Following use of an AED, all equipment shall be cleaned. After use, the AED will be cleaned with a soft cloth dampened with an ammonia-based cleaner, isopropyl alcohol or hydrogen peroxide.

System Verification and Review

Annual AED Program Review: The AED project manager shall conduct, document and verify system readiness, to include the following:

a) Training records for department responders
b) Equipment operation
c) Maintenance records

Periodic Systems Check: Each month, the AED project manager shall conduct and document a system check to include the following elements:

a) Fast response check
b) AED battery
c) AED operation and status

Authorized Users

Trained responders:

a) Any state employee who has successfully completed an approved CPR and AED training program through the American Red Cross or other nationally recognized CPR course.
b) Trained volunteer responder who has successfully completed an approved CPR and AED training program through the American Red Cross or other nationally recognized CPR course.
c) Anyone can, at their discretion, provide voluntary assistance to someone in a medical emergency. The extent of their response will be appropriate to training received, experience and to the extent that they are comfortable. The response may include CPR, AED or first aid.

Training

Certification Training:

a) Training on the HeartStart FRx Defibrillator is offered to DTMB responders through the department's Health and Safety Office in accordance with the American Heart Association or American Red Cross guidelines. Training will also include basic first-aid and CPR.

b) Volunteer responders will possess training that is supplied by sources outside of the DTMB. DTMB will not maintain training records for any volunteer responders.

APPENDIX

APPENDIX A

Maintenance

Philips Medical Systems HEARTSTART FRx

Periodic Checks
Other than the checks recommended after each use of the FRx, maintenance is limited to periodically checking the following:

- Check the green ready light. If the green ready light is not blinking, see Troubleshooting Tips below.
- Replace any used, damaged or expired supplies and accessories.
- Check the outside of the defibrillator. If you see cracks or other signs of damage, contact Philips for technical support.

Cleaning the FRx
The outside of the HeartStart FRx can be cleaned with a soft cloth dampened in soapy water, chlorine bleach (2 tablespoons per quart or liter of water), ammonia-based cleaners, or 70% isopropyl (rubbing) alcohol. It is recommended that the carry case be cleaned with a soft cloth dampened in soapy water. Reminders:

- Do not use strong solvents such as acetone or acetone-based cleaners, abrasive materials, or enzymatic cleaners to clean the FRx and accessories.
- Do not immerse the FRx in fluids. Do not sterilize the FRx or its accessories.

AED Troubleshooting Instructions

- If the ready light is flashing, the AED is operational.
- If the ready light is solid, the AED is in use or running a self-test. The FRx performs a daily self-test.
- If the ready light is off, the AED is chirping and the i-button is flashing: A self-test error has occurred. There is a problem with the pads, the infant/child key has been left installed or the battery power is low. Press the i-button for instructions.
  If the ready light is off, but the FRx is not chirping and the i-button is not flashing: There is no battery inserted, the battery is depleted, or the defibrillator needs repair. Insert or replace the battery and run the self-test.

As long as the FRx passes the self-test, you can be assured it is ready for use. Tests can be conducted by removing the battery for five seconds and then reinstalling it. This method will take about one minute and is only recommend when:

- The defibrillator is first put into service
- After each use
- When the battery is replaced
- When the defibrillator may have been damaged

Disposing of the FRx
The FRx and its accessories should be disposed of in accordance with local regulations.

Dear State Agency Emergency Management Coordinators:

As you may have already learned, the State Emergency Operation Center (SEOC) will be relocating from 4000 Collins Road, Lansing to 7150 Harris Drive, Dimondale (known as the General Office Building – GOB) on Friday, January 29, 2016.

While the new facility may not be 100% ready for us, we are ready for it! Moving of files has already begun and staff offices will be moved over this upcoming weekend.

The SEOC will be completed sufficiently to begin operations as of Friday, January 29. Those currently working the Flint Water Emergency in the SEOC, should report to the Harris Drive SEOC on Friday, January 29 at 8 a.m. You will enter at the SW corner of the GOB (see attached map). Staff members of EMHSD will be on hand by 7:45 a.m.to greet and escort you to the new SEOC.

This has been a major project to undertake while at the same time, the SEOC has been in full activation. We ask for your patience as we all learn our way around and with new equipment. It will be different, and may take a little time to adjust. The design team has done an amazing job in providing us with a state of the art facility. As completion of the project continues, you will realize many improvements.

It may be necessary for us to "temporarily" place computers in the SEOC; therefore, you may not be placed in your permanent sitting position until early next week.

As I have mentioned to those within the SEOC throughout the week, it is important that you secure any documents or files you may have stored on the PC's or desktops at Collins Rd. by saving to a memory stick. You may also talk to the IT support within the SEOC (Rich or Jaclyn) about saving information to the S Drive. You will most likely be working on a different PC, and we want to ensure you have what you need to continue operations with as little interruption as possible. If you have books specific to your discipline, please take those with you by Thursday (if you are not working in the SEOC at this time, you should stop by before Thursday) and bring to the Harris Rd SEOC. Any materials left behind will be discarded.

New phone numbers will be established in the SEOC and will be given to you as soon as permanent locations have been placed. Until then, we recommend if someone needs to contact you, please have them contact you by your cell.

We plan to open an official "SEOC orientation" very soon, and look forward to sharing all the great upgrades to the Michigan SEOC at that time.

Think I copied you on my follow up to Kirk and Larry?? (I meant to anyway ;0)

Kirk and Larry seemed quite concerned yesterday when they told me about this. Helen seems to have everything under control. I checked in with Jim this morning and he does not seem concerned (although the number of people appear to be more than he had thought).

Certificate of Occupancy will be huge today. For now – at the moment, I think we are good. Will see once Larry and Kirk get in to get specifics on what concerns they have. And then….whether we get C of O.

∟**Pick- up:** Please contact me with an acceptable contact, time, and date when I may pick up the documents.

Auditor or Attorney: _____ Contact: _____

Media Specification: Paper Copies or Email attachment less than 20 MB, CD-ROM or DVD, unless certain records are not available in computer format, in which case response by fax or in-person viewing is preferred

Records requested: The records and documents I am requesting are all those relating to:

Copies of the documents, including but not limited to emails already requested by and provided to Progress Michigan or those associated with the organization related to any and all discussion of Flint's water supply, including but not limited to contaminant such as lead and copper in the water as well as any and all discussion of Legionnaire's disease in Genesee County, Mich.

For the purposes of this request, the term "**you**" or "**your**" refers to public body generating or maintaining the public records requested in this request, and to which this request is directed, whether that be an agency, municipality, office, county, or any other entity subject to disclosure under this act; the term "**records**" refers to all documents, regardless of physical form (including without limitation papers, reports, notes of telephone conversations, telephone call messages, studies, proposals, indices, letters, messages, faxes, minutes, logs, journal entries, calendars, and computer-based or computer-generated materials including e-mail, or any other documentation of any kind of any and all kind) of or belonging to any department, agency, service area, board or other subdivision of the public body. "Records" shall include drafts of records to the extent permitted by law; The term "**email**" includes any electronic message and any attachment to any such message, and specifically includes emails sent or received by an officer, agent, or employee using an email address other than that person's official government issued email address if sent or received while on duty, using a government computer, in a government building, sent or received using a government contact list, or other using any other government resource.

Michigan law requires you to respond to this request not more than five (5) days from your receipt of this request, but you are asked to expedite this request if possible. If this request is sent by fax or email, the time to comply begins the day after the faxed request is sent to you. If your agency does not maintain these public records, please let my designated auditor know who does, and include the proper custodian's name and address. If this fax request does not go directly to the office of the FOIA coordinator, you must deliver it there immediately. If you deny any part of this request, please indicate the name and position of the person too who an appeal should be directed prior to instituting suit, so that needless litigation in which costs, damages, and attorney fee may be taxed against you might be avoided.

Take notice of the penalties and consequences for failure to comply with this request: Willful violation of FOIA by refusing to disclose or delaying in disclosing or providing copies of a public record, may result in the court awarding in addition to any actual or compensatory damages, award punitive damages in the amount of $500 to the person seeking the right to inspect or receive a copy of a public record. Reasonable attorneys' fees, costs, and disbursements" will be awarded to any person who prevails in an action to compel disclosure under MCLA § 15.240. If the requesting person only prevails in part, "the court may, in its discretion, award all or an appropriate portion of reasonable attorneys' fees, costs, and disbursements.

Because of the civic educational purpose of this request, I request a fee waiver and ask that you determine that a waiver or reduction of the fee is in the public interest because furnishing copies of the public record can be considered as primarily benefiting the general public." MCLA § 15.234(l)

I agree to pay any reasonable search, copying, and postage fees of not more than $2.00. If the cost would be greater than this amount, Please immediately contact me by telephone or email if you anticipate that the costs will exceed this amount, so as not to cause delay in the prompt disclosure of the records requested. I may appear in person to inspect the documents on scan them using my portable equipment. Please provide a receipt indicating the charges for each document. The Michigan FOIA law provides that, "A fee shall not be charged for the cost of search, examination, review, and the deletion and separation of exempt from nonexempt information as provided in section 14 unless failure to charge a fee would result in unreasonably high costs to the public body because of the nature of the request in the particular instance, and the public body specifically identifies the nature of these unreasonably high costs. MCLA § 15.234(3).

If the documents I have requested are not subject to disclosure in their entirety, I request that you release all nonexempt portions of the documents that may be segregated and all parts of the documents that can be rendered disclosable by redaction without fee. If you determine that any of the requested documents fall within a statutory exemption, I request that you exercise your discretion to disclose those materials because of the overriding public concern about the improper use of government email systems and resources to further political agendas. As to any portion of the documents that you withhold, please state with specificity the legal and factual basis for withholding such portion. To the extent that you are unable to produce copies of or otherwise make available all records requested within the time frame provided, please notify my auditor in writing and

provide me with those records that are available within the prescribed time frame and the remainder of the records on a "rolling" basis as they become available for production.

I appreciate your anticipated prompt cooperation and will expect your response within 5 days, as required by the act. If you need further explanation of the details or the nature or scope of this request, please feel free to call me or my designated auditor or attorney specified above using the contact information provided.

Thanks Mike, I appreciate the information! In March the discussion will be in regards to water safety and specifically dealing with concerns of Legionella. If that's a topic of interest, I'll make sure to share the invitation with you. I met with this company who will be presenting in March (Hydro Corp) and they work with a lot of older buildings where plumbing is an unknown … they create blue prints and solutions for water safety.

Thanks again and have a great day!

Not at this time, I just joined NASFA which is structured toward State and National Government and provides me with some connection to individuals like me that do this for other States. Thanks for reaching out, the link for NASFA is:

http://www.nasfa.net/

I will attend some BOMA events as able though, thank you.

Tim,

Happy Monday! I'm on the Mid Michigan BOMA Board and we're working to recruit new members from the area and I thought of Mike Turnquist since he's new to the area. We would love to have some involvement from the State of Michigan and its facilities organization. I don't have his email address so would you mind sharing this with him?

Thanks,
Jamie

Subject: Mid-Michigan BOMA - Thursday, January 21st

Greetings Mid-Michigan BOMA Members or Perspective Members,

I hope you all had a wonderful holiday! We are kicking-off 2016 with our meeting on Thursday, Jan. 21st. It will be at Mitchell's Fish Market and we will have Michael Thompson speaking on Security.

See the attached invitation with the details. Please RSVP to me by Friday, January 15th. If you are not able to attend, but would like to send someone from your organization as a substitute, please feel free to do so and just let me know.

Debra will be sending out the invoice for 2016 dues soon, so please watch your email for those.

Thanks,
Nicki

From: DTMB Director and CIO David Behen <dtmb@govsubscriptions.michigan.gov>
Sent: Wednesday, February 17, 2016 10:10 AM
To: Turnquist, Michael (DTMB)
Subject: The Gov. Snyder's Budget Proposal

Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

***This attachment was updated 2/18/16**

*See agenda below

Requested By:
DTMB Executive Staff

Location:
Ottawa Building
Upper Level – Conference Room 4
611 W. Ottawa Street
Lansing, MI 48933

Call-in: 866-390-1828
Access code: 1842654

Security:
Please have your State Employee ID showing at all times.

Parking:
Metered parking is available along Ottawa and Pine street.

Briefing:
In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to produce, by a certain date, any documents containing certain search terms. In this meeting we will review instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Agenda

1) Kickoff – Brom Stibitz, Chief Deputy Director
2) Why you are here – Jean Ingersoll, Interim Chief of Staff
3) What you need to do (February 22, 2016 deadline) – Jean
4) What will be done for you – Jean
5) What's next – Jean
6) Public Information Reminder – Caleb Buhs, Public Information Officer
7) Questions and Answers - Group

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

Subject: Flint Volunteer Efforts

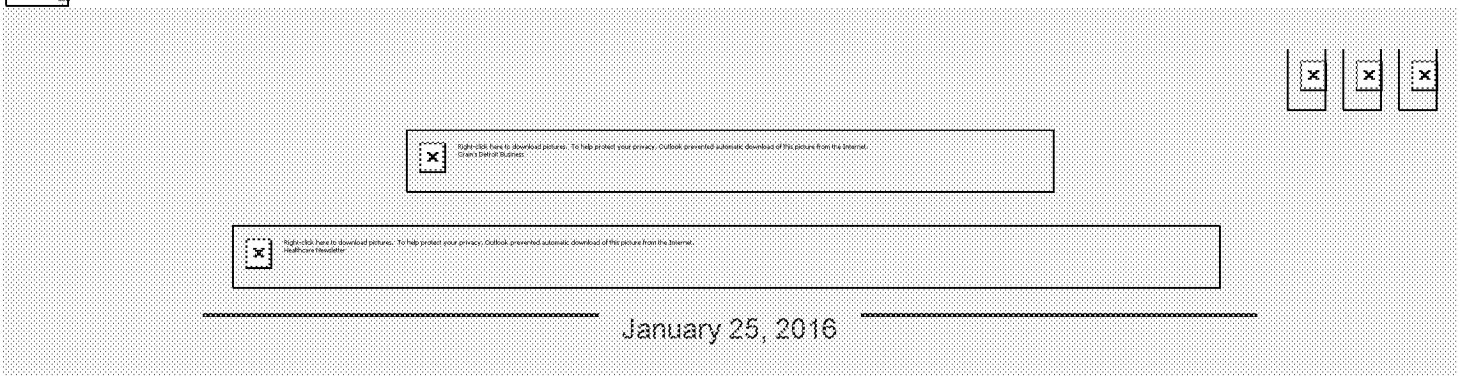
Dear State Employees,

Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.

For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.



Sincerely, Mike Zimmer

On Jan 25, 2016, at 9:20 PM, Phillippo, Jamie (DTMB) <PhillippoJ@michigan.gov> wrote:

Hey guys-

I just read through the email chain. To give FEMA all 12 stations, we may need to relocate 12 people (I heard anywhere from 8-12 depending on who I talked to). The idea of moving three people this morning also involved removing one cluster of furniture to set up tables in that space to accommodate additional people. DHHS has two different groups in this area. When I reached out to Patty Curtis this morning, DHHS is claiming they are out of space an have no where to house these staff on other floors. I believe Mike and Brian talked to managers on site and they were unwilling to give up the space. Just a hurdle we'll have to work through when contacting DHHS. I'll be in at 8 and can help with the DHHS piece.

Should we plan that this will impact DHHS's plans for the space in March?

Are there any other non-traditional areas in the building that can be re-purposes? The request submitted is for this building due to the synergy of working with others in the building. What are the uses on the other floors in the building?

Sent from my iPhone

On Jan 25, 2016, at 4:24 PM, Phillippo, Jamie (DTMB) <PhillippoJ@michigan.gov> wrote:

Mike-

Keith Paasch, Bob Burns, Larry Scates, Jim Clark and I met to discuss the request for additional space in Flint. The building is considered full, as in the office space as designed is assigned. We determined that the best way to serve our current clients and the additional resources needed to deal with this crisis may be to find additional space close by. We came up with several ideas (U of M Flint, School for the Deaf in Flint, City of Flint or FEMA bringing in trailers onsite). Maureen Bailey has confirmed 7,000 sq ft is available on Bristol Road at $12/sq. ft. plus utilities.

Please see the attached prints in reference to space. There is one group of 12 stations that was occupied by Civil Rights plus two offices originally designed for the Governor that the Governor no longer needed on the 5th floor that is highlighted in green. DHHS is taking over the space and has a reconfigure planned starting in March. DHHS is temporarily using the majority of this space until 7th floor is complete. The area reference below is highlighted in yellow within the green space. As stated below, DHHS staff are already in these station and in order for it to accommodate we

would need to relocate the staff and tear down the furniture. The other rooms highlighted in orange within the green box have already been occupied by the Governor's staff as well as FEMA personnel. Two open areas are left in the building-the 5th and 6th floor lobbies. The 6th floor is already over occupancy and therefore we cannot add people here. As for adding people in the 5th floor lobby, I'm not sure how our tenants of the floor would be with that as this floor was not supposed to be accessed by the public.

Please let us know how you would like to proceed.
Thanks,

Subject: Flint Office Space Issue

Chris,

MSP has requested that we find additional space in the Flint State Office Building for additional Federal personnel that will need space in the next few days. DTMB had a meeting this morning in regards to this and after the meeting,

BOD/Real Estate determined that we are at "max" in the Flint State Office Building. I asked if that meant we filled all the cubicles or if we are at building occupancy limits. The response was that we filled the cubicles and not at occupancy limits.

Can you assist in getting traction? If we can get these Federal partners in the same area as the State personnel, they can better coordinate response efforts. I spoke with Brian Walts (Flint BTS) and he indicated that if we move 3 DHHS staff members on the 5th floor, they could setup tables capable of housing 30-40 individuals. Brian confirmed that he has space on other floors that they could sit temporarily.

Thank you,

Subject: Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.

Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,

David

Subject: SEOC Move

A little fix (my error)

Revised

Dear State Agency Emergency Management Coordinators:

As you may have already learned, the State Emergency Operation Center (SEOC) will be relocating from 4000 Collins Road, Lansing to 7150 Harris Drive, Dimondale (known as the General Office Building – GOB) on Friday, January 29, 2016.

While the new facility may not be 100% ready for us, we are ready for it! Moving of files has already begun and staff offices will be moved over this upcoming weekend.

The SEOC will be completed sufficiently to begin operations as of Friday, January 29. Those currently working the Flint Water Emergency in the SEOC, should report to the Harris Drive SEOC on Friday, January 29 at 8 a.m. You will enter at the SW corner of the GOB (see attached map). Staff members of EMHSD will be on hand by 7:45 a.m.to greet and escort you to the new SEOC.

This has been a major project to undertake while at the same time, the SEOC has been in full activation. We ask for your patience as we all learn our way around and with new equipment. It will be different, and may take a little time to adjust. The design team has done an amazing job in providing us with a state of the art facility. As completion of the project continues, you will realize many improvements.

It may be necessary for us to "temporarily" place computers in the SEOC; therefore, you may not be placed in your permanent sitting position until early next week.

As I have mentioned to those within the SEOC throughout the week, it is important that you secure any documents or files you may have stored on the PC's or desktops at Collins Rd. by saving to a memory stick. You may also talk to the IT support within the SEOC (Rich or Jaclyn) about saving information to the S Drive. You will most likely be working on a different PC, and we want to ensure you have what you need to continue operations with as little interruption as possible. If you have books specific to your discipline, please take those with you by Thursday (if you are not working in the SEOC at this time, you should stop by before Thursday) and bring to the Harris Rd SEOC. Any materials left behind will be discarded.

New phone numbers will be established in the SEOC and will be given to you as soon as permanent locations have been placed. Until then, we recommend if someone needs to contact you, please have them contact you by your cell.

We plan to open an official "SEOC orientation" very soon, and look forward to sharing all the great upgrades to the Michigan SEOC at that time.

Jackie Hampton, Manager

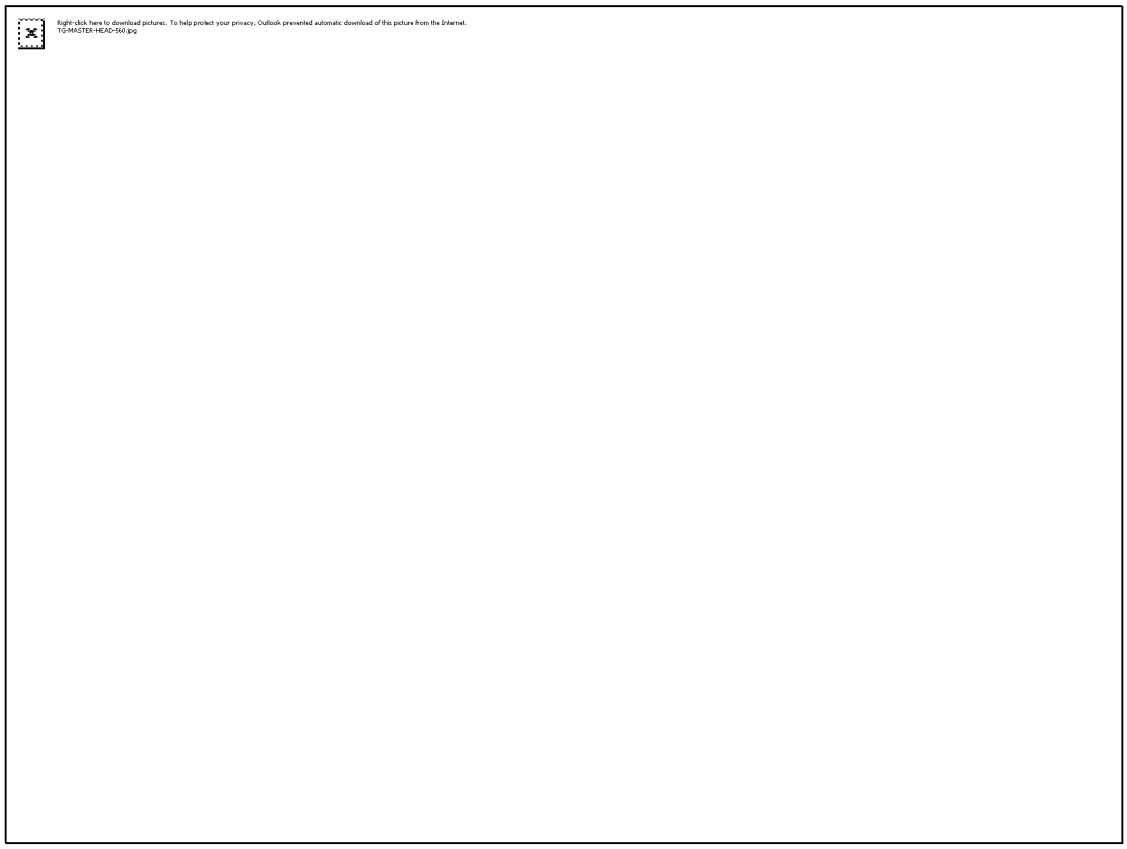
JANUARY 2016 NEWSLETTER



JUST OFF THE PRESS

New Issue and Travel Guide, Out Now

Our February/March issue has arrived, and we think it's a beauty. Many subscribers have already received their copies; it'll be on many regional newsstands by next week. Inside, we track our drinking water from Lake to faucet and back again, examine the legacy of the SS *America* and announce the winners of the annual Lake Superior Photo Contest (see the link below for more).

This month we also completed the **2016 edition of the *Lake Superior Travel Guide***. Included with every subscription to *Lake Superior Magazine* or available to purchase on its own, the guide has been fully updated (and expanded to 160 pages) with new pull-out maps, itineraries, editors' recommendations and readers' Best of the Lake picks.

It also has the lowdown on the return of **Tall Ships Duluth**, the hugely popular summer festival of historic sailing ships, August 18-21 this year. The ships will be joined by another iconic maritime figure: the 61-foot-tall "World's Largest Rubber Duck" (seen here at 2014's Los Angeles Tall Ships Festival in a photo by Mayor Eric Garcetti).

+ **Enter our Tall Ships Sweepstakes** for a chance to win an overnight stay in Duluth, a ride on a tall ship, tickets to the festival and more.

THE TOP SHOTS

Photo Contest Winners Revealed

Our judges sifted through more than 1,220 images, from photographers in 18 states or provinces, to find the winners of our **21st annual Lake Superior Photo Contest**.

See the winning images, along with finalist photos only available online, in all five categories: Artsy/Altered, Lake/Landscape, Maritime, Nature and People/Humor.

EDITOR'S BLOG

Cherishing Our Drinkable Sea

As we researched and wrote the new issue's **State of the Lake report** about our drinking water, we were hearing about the horrible situation in Flint, Michigan. There is no denying that the glaciers gifted our northern neighborhood with a 3-quadrillion-gallon miracle called Lake Superior, but we are not immune from aging pipes and water contaminants. Our "drinkable" sea remains so only as long as we remain diligent, writes Editor Konnie LeMay.

THE OFF-SEASON

Inside Fraser Shipyards

Seven lakers will spend the winter in the Twin Ports this year after a grueling 9 to 10 months on the freshwater seas. Last to arrive was the *Paul R. Tregurtha* on January 18, three days after the Soo Locks at Sault Ste. Marie closed for

winter maintenance.

While in port, some go to the sole U.S. site on the Lake that can handle repairs, maintenance and modifications to the giant vessels – Fraser Shipyards in Superior. In this 2013 story, we took readers inside.

TAKE THE CIRCLE TOUR WITH US

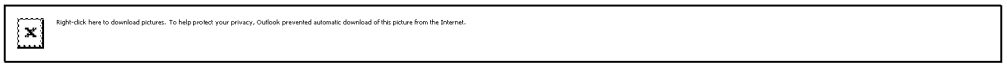
The Bus Tour Returns

Last year's inaugural ***Lake Superior Magazine*** **bus tour of the Lake** was such a hit that we're offering it again in 2016 – this year with an additional day to soak up the sights. The 11-day Circle Tour is **September 25 to October 5**, right in the middle of the spectacular fall color season. It starts and ends in Duluth. For complete trip details, including comments from last year's travelers, go to www.LakeSuperior.com/BusTour.

+ You'll be joined on the tour by a very special guest: **Konnie LeMay**, editor of the magazine!

Vote for the Best of the Lake

Choose your favorites around the Lake in 12 categories, from Best Festival to Best Romantic Getaway. Local residents, regular visitors and far-flung lakegoers – anyone who loves the Lake and its environs can vote. Submit your ballot by June 1. Winners will be announced in the August/September issue.



Outlet Store

The *Lake Superior Magazine* Outlet Store in Duluth is open 8 a.m. to 5:30 p.m. on weekdays. (Saturday hours will resume Memorial Day weekend.) You can also order our puzzles, calendars, apparel, books and other Big Lake products online.

Webcams

See what the Lake looks like today via the webcams at LakeSuperior.com.

Subject: CMS Water Drive for Flint and Smash Bash - from Student Council

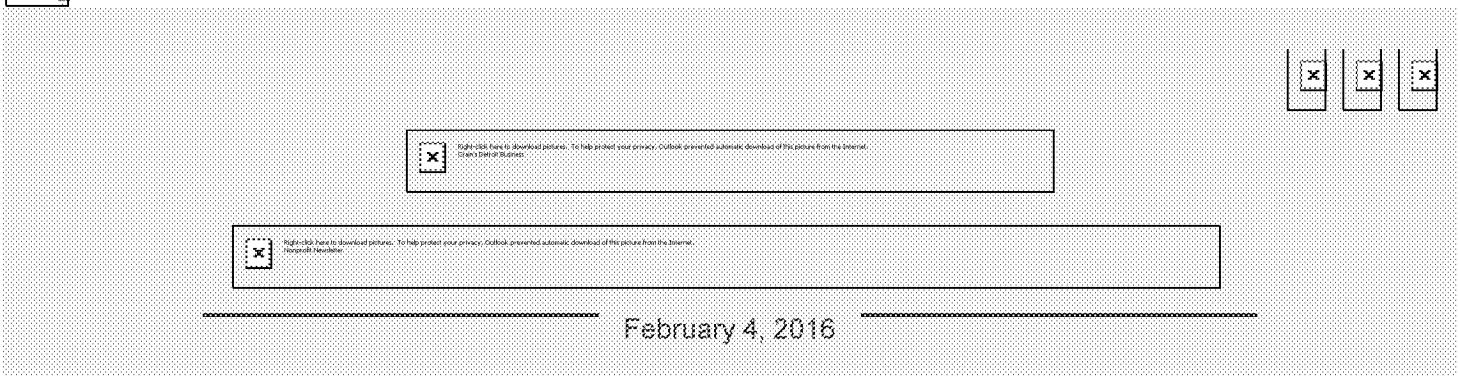
Please help us help Flint, MI:

CMS and the entire FHPS District hope to help Flint by collecting bottled water, water filters or cash donations to help the Flint community as they deal with the lead that contaminates their water. From now until Tuesday, February 9th you can drop off bottled water in sealed cases or gallons, water filters or cash at the CMS office. They'll be picked up after Tuesday and delivered to organizations in Flint who are coordinating relief efforts. Thank you for your generosity. Let's Ranger Up!

Smash Bash on Friday:

The Semester Smash Bash is happening this Friday from 3:00 - 5:00pm. It's a chance to celebrate the half-way point of the year. Join us for good food, laser tag, a DJ, and basketball and ping pongs tournaments! Tickets are on sale during both lunches and at the door Friday - $10. Can't wait to see you there!

From your 2015/16 Student Council



Forest Hills Public Schools would like to continue connecting with you via email. If you prefer to be removed from our list, please contact Forest Hills Public Schools directly. Subject: Businesses fret in Flint | Changes in store for Ford Field | Unfortunate twist of timing for Reclaim Detroit

Having trouble viewing this email? See the online version.

February 7, 2016

Flint biz treads water through crisis

City business owners and officials are hoping the uncertainty over potentially dangerous levels of lead in the water supply doesn't wash away Flint's downtown resurgence.

Lions to consider improvements at Ford Field

New President Rod Wood said the team has asked the Detroit office of M. Arthur Gensler Jr. & Associates Inc. to re-examine a Ford Field improvements master plan created last year.

Reclaim Detroit, burned out of Highland Park warehouse, was seeking new home in Midtown

Months before a massive fire engulfed the nonprofit's space in a Highland Park warehouse last week, the company had been working with the city of Detroit and a local developer to secure new space in Midtown.

Will robots zap the job market? Knowledge-based automation could make machines the new workforce

Rapid innovation, largely originating in manufacturing operations, is expanding into new industries, such as the financial sector, and will challenge our concept of the labor force — more quickly than you think, according to experts.

State seeks to end tax credit for auto insurers

State lawmakers say they want to fix what they're calling an unintended consequence of a 3-year-old policy change that shifted oversight of Michigan's assigned claims plan that covers medical expenses for people injured in crashes in which no party has insurance.

Lansing power brokers: Law firms, others strengthen their lobbying corps

Increasingly, lobbying isn't just the work of traditional multi-client firms in state capitals.

Northern Michigan winery tailors tastings to younger drinkers

SPECIAL REPORT: SECOND STAGE

With changing job climate, employers need to break with tradition to find new hires

Demand is outpacing the supply of talent as baby boomers hit retirement age and the economy improves, putting pressure on companies to try new angles. Here are five less-obvious pools of talent that also can be the source of fresh ideas to give companies an edge.

STAGE 2 STRATEGIES

Ad agency gains clients without salespeople

Advertising agencies usually are split into two worlds: accounts and creative. To forgo accounts altogether is to disregard an ingrained industry practice, but Hook Studios in Ann Arbor has found this to be a formula for success.

SPECIAL REPORT: EMPLOYMENT LAW

Whistle blowback: Proposed rule could have unplanned pitfalls

A federal amendment proposed Jan. 22 would forbid the government from spending money on companies that require employees or subcontractors to sign certain types of confidentiality agreements. Businesses are expected to protect.

Flint water suits flood in

Wherever plenty of outrage and blame are going around, plenty of litigation is likely to follow — and so far the Flint water crisis is no exception.

Building Operations Division

Joint Focus Meeting Agenda - Notes
Tuesday, February 2, 2016
DMB-Conf. Room-Ottawa 5
9:30 a.m. – 11:00 a.m.

Leading the Meeting: Larry Scates

- ❖ Special Topic (*30 Mins*)

- Health and Safety – "Monthly Videos" Dan Morgan and Olivia Feldpausch

  MIOSHA, Video Streaming, please do not download the videos on your desktop or flash drive. Get sing-in sheets to Olivia, ASAP return old ones to Olivia/Dan. Building audits will start with Zone 6, first.

- ❖ Director's Input – Keith Paasch

  Keith, mention providing a list of which type of lighting that is located in each building a list will be available soon, see Sarah Goodrich for additional information. Each zone will need to provide a list of building appliances within their buildings and a maintenance schedule should be kept on those appliances along with purchased items for moves that have taken place in DTMB, managed buildings.

- ❖ Discussion Topics:

  - Remind Key Contacts to call Central Control

  - Please remind all key contacts to notify Central Control, for all emergencies at (517) 373-0190, and for NON –Emergencies call Central Control at (517) 373-0196. For Cadillac Place, please call the Command Center, for all emergencies at (313) – 456-1100, for non –emergencies call (313) - 456-111

  Wellness Objective – Take the Stairs

Next Meeting: Tuesday, February 16, 2016, 9:30 a.m. - 11:00 a.m., Operation Center Conference Room A, B, C

COLLABORATION, COMMUNICATION, COOPERATION, CUSTOMER SERVICE

The Wellness objective, is for State of Michigan, employees to take the stairs to promote better health initiatives. The question that arose is are our building stairwell adequate enough to promote stairwell use? The Romney Bldg. stairs some of the floors are locked out. In the Mason Bldg. there are floors that one will need card access (Badge In) for question related to this objective please give Rodney Ross/Dan Morgan, a call. Rodney is on the Wellness committee. Rodney, should be able to answer most of your questions.

- Alternate 15 Input – Jamie Uphaus

- Cross Training Plans for On-Call Staff

  Cross training for on call staffing to familiarize themselves with other buildings in the Downtown and Secondary Complexes, we are looking at having a sheet with the list of areas within all buildings. This training will probably consist of three (3) days out of the week. Cross training for those who are not on the on-call list will take place after the on-call staff training sometime before vacations starts later this spring. See Bethanie, for list and more information.

  Cadillac Place training for the electrician will continue as is.

- **OIP/Brandon Phillips**

  Niki Tefft, is now the acting Customer Service Center Supervisor, until that position is filled. Capitol Security Post, is now located within the Joint Operations Center.

- **Todd Perry** – Appliance notice PM's schedule please see Todd, for this information.

Zone Updates *(2 Mins 54.99 Seconds Each)*

- **Frank Broderick – West Zone**

Escanaba- business as usual

Traverse City- continuing work on LED lighting project, held first meeting with D&C on building exterior project, keeping up with the snow and ice

Grand Rapids - working on replacing one of our two sump pumps in the parking ramp. New pumps has been ordered hope to have it onsite in four weeks, working

on installing new chemical treatment station for the cooling tower, 50% of staff off work right now due to injury or illness no time frame for their return as of yet.

- **Mike Noonan – East Zone**

Sorry we could not attend… Rick is on vacation and Brian is dealing with Saginaw control issue and has to take photos for New DHHS staff ID's
Flint I am waiting for the Head of the EPA to arrive on sight. Security Detail arrived yesterday with late notice that she would be here.

Saginaw: Painting and door handle replacement

State Fair: Dumars was Denied use of the Parking lot off of 8 mile for an event in May

Jackson: New Air handler project is just about complete. There has been some Variable speed drive questions as related to pumps and horse power. Brian Knox has clarified the questions.

Flint: The short…..

This past few weeks the East Zone staff has shown exceptional intestinal fortitude. They have made space for the for 40+ federal employees who are here to help the State of Michigan, the City of Flint and most importantly the residents of this city. It has been days and nights of quick thinking and problem solving. It has involved making many unpopular decisions and thinking out of box to get these groups together. This group is working long after the close of business and all weekend. Staff in the East zone has been on the front line going above and beyond any position description we have.

Richard Baird the governor's appointed flint man has been here working with both city and federal officials. He has been doing meet and greets and doing media interviews. Last week LT Governor and appointed staff had a meeting on sight for the flint water crisis and will continue to meet here.

I want to thank my staff for going above and beyond, they have been doing ID's, Parking assisting the SEOC in all the needs such as : Installing TV's, helping with Direct TV, IT, Governor's office needs and the list goes on and on. The complaints on parking are flying in daily and the staff here is the ones that have to handle it and here about it again and again.

Construction: Still not done and the schedule still continues to change.

Ice storage and Solar: Kick off meeting was last week. They will start February 15th and Chiller tie in's and Structural support welds on 7th floor.

- **Elios Vettese – Cadillac Place**

1) Century A@E, DTMB Electricians at Cadillac Place , and from Lansing and outstates, these, Supervisors attended 8 hours Arch Flash training class , at Cadillac Place to review current procedures and proper PEP equipment, another class might be held for Maintenance Techs at a later date.

2) Had staff meeting along with Kurt King and Jim Geyer, Larry Scates, Alex Cousineau, to review procedures regarding X-3 program, to make sure that all procedures are being followed.
3) Painting is continuing in the 2-100 Treasury wing offices and conference rooms.
4) Plumbing Professors, plumbing contractor, repaired rotted drain lines and also installation of drain and supply lines for new break room for tenants at Cadillac Place.
5) Had air testing done for the 14th, 15th and 12th floor areas, complaints, 14 and 15 we had a minor roof leak in one area.
6) Boynton conducting the quarterly pm's on the fire system.

- Steve Doty – Zone 1

Hannah Building -

- Normal operation
- Working with MDE on several small modular projects
- Working on various issues in the restrooms i.e. piping, plumbing fixtures, dividers

- Staff/Key Contact meetings and Zone tour has been scheduled for March 7th

Veterans Memorial –

- Ready for winter

SOM Warehouse Complex –

- Working with tenants and contractors for 100 building remodel and complex improvement.
- Telecom is scheduled on February 4th to come in a 6pm-12am to cut out the AT&T phone lines and run new fiber. They will also move Kristy's existing server switch to the new location.
- Main sewer line was scoped and a blockage was found at the fence line that has been part of the sewage drain issues in the 100 and 400 building. The contractor will make recommendations to Tim Hall as part of the FBSA project to repair.
- Coordinating some door changes and installations to eliminate water intrusion, *Material Ordered*
- The new restroom door has been installed to allow the 100 tenants access to the restroom
- A new card reader was installed on the South door since the front NE door has been turned over to the Contractor.

Staffing –

- Cross Training and Zone coverage: Jerry and Brandon Pattison have coordinated that Paul Charles, will work in Zone 2 every Monday until Brandon is able to backfill his vacant Mechanic position.
- Jerry Keeder and Andy Gewirtz is enrolled in the BOC Level I class.

- **Bob Ruff – Zone 2**

Con Hall snowmelt/side walk project is under way and they are done running the needed piping to the south entrance and they are currently working on the piping to the north entrance.

DEQ has requested a guard to be station at both the North and South Entrances in Con Hall temporality.

The carpet is being installed in the New HR Suite in Con Hall this week, then furniture build out, and they move in on Feb. 15th.

Thanks to Kelly Love and Kenya Court for helping out Denny with the paint work in the New HR Suite due to the time frame in the schedule that needed to be met.

The IT support staffs move into Con Hall was approved last week, so we are awaiting an appointment to discuss the timeline and what needs to be remodeled in the building before they can move in. Around 95 to 100 more tenants.

In the Williams and VanWagoner Buildings we really have nothing serious going on so it is business as usual.

We had to have the VanWagoner Loading Dock entrance gate fixed last Friday as one of the hinges let loose and broke.

- **Church – Zone 3**

MLHC - 1ST floor rest rooms project is moving along

JOC – Remodel project on the 2nd floor, MSP Capital Post has relocated into the building. Painting is done and Central has been relocated. Completed

Austin – My staff are working on the heat on the 1st floor and trying to get the snow melt system working with help from Zone #2. As of right now everything is working as it should.

Mason – We are still working with CSM about the issues with the lighting and HVAC systems and they are working on the list now.

Commissioning is still on going.

1st floor east wing construction is done and DTMB will be moving in on Feb. 4th. We are meeting with the tenants today.

- Bob Bierwagen – Zone 4

- Cass

The DHHS Ground Floor office remodel project is moving right along. The walled office and new conference room have been built so Keyna along with Denny Sisson from Zone 2 are working on getting the area painted by the end of this week. We are also working on a couple minor mechanical changes, installing power and changing lighting to fit the new layout this week as well. Carpet work will start next Monday and barring any unforeseen issues we should have this project completed by 2/24/16 as requested by DHHS so employees can be moved from the Capitol View building as part of the CAR project.

- **Governor's Residence**

- We have Dewitt Fence coming out this week to remove an old abandoned and worn out gate along Moores River Drive and replace it with fencing. This secured and sensored gate has been alarming to DTMB Central Control for about a week now and based on its condition and the installation of a new gate for the Grounds Project it has been agreed upon by DTMB Facilities, OIP and the Governor's office that repairing it is not cost effective.

- Romney

The Primary Switch Gear project was completed last week and we have a Punch List walk through meeting schedule next Tuesday afternoon 2/9/16 to wrap things up.

- Lottery

We received the approval on the background checks for a couple of Pleune employees late yesterday. We will now get with Pleune to schedule the fire/smoke damper installation work in both stairways hopefully this week.

- Roosevelt Ramp
  - Business as usual.

- Miscellaneous
  - Business as usual.

- **Neal Droste – Zone 5**
-

State Laboratory:

1: Installing a new water sampling machine for DEQ. Adjacent pole barn will hold 50 pallets. Real-estate is looking for more space. Chiller #1 is punched out.

This Sunday:

- **Sunday morning | Current sermon series: Giving Up: A 40-Day Adventure Through the Book of Mark.** Prepare to be challenged as the Lord calls us to give up everything to follow him on the journey to Easter morning. For themes, scriptures, speakers, discussion questions and audios of messages: click here.
- **Adult Sunday School |** Sunday mornings during the 10:30 service. The theme for 2015-16 is *Learn Jesus*; we will focus our attention on Jesus in the effort of patterning our lives after his. The current session, "Jesus and Poverty" is led by Steve and Jacquie Johnson. Learn more about sessions here.

Church/Ministry News:

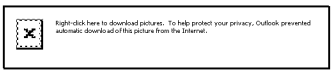
- **Flint Water Crisis Response |** Covenant Ministries join efforts to help Flint.
- **Prime Timers Soup and Study |** Meets this Friday, Feb. 19 at 10:30am with speaker Dave Perry. All are welcome and please consider bringing a friend!
- **Young Adult Small Group |** All young adults are invited to participate in a new

study of the book of Mark starting ***Feb. 15 at 7:30pm***. We meet at 7619 Candlewood Dr. SE in Ada. There's no need to RSVP. Just come and join us! If you have questions, contact Caroline Fild.

- **Spring Choir Rehearsals |** Choir rehearsals resume ***Wednesday, Feb. 17 from 6:30-8:30pm***.
- **Nepali-Speaking Ministry Volunteer Meeting |** ***Thursday, Feb. 18 at 7:00pm*** for both current volunteers and those who might be interested in learning more about NSM at Thornapple. Contact Patty Dekker with questions.
- **Annual Meeting |** Save the date for ***Sunday, Feb. 28 at Noon***. All members should plan to attend. Non-members are welcome, too. To prepare for the Annual Meeting there will be ***Town Meetings, Sunday, Feb. 21*** during both morning services. *The Annual Report, absentee and proxy ballots will be available on Feb. 14 both online and at the Welcome Center.*
- **New to the Covenant denomination and/or to Thornapple?** We offer a three-part series (***May 4, 11 and 18; 6:30-8pm***) called "What is a Covenant Church?" This is a great way to learn about the denomination and church membership (it is also a prerequisite for church membership. Following the series, we will have a membership class on ***May 22 from 4-6pm***. For more details and sign up, click here.

Special Events:

- Thornapple Student Ministry (TSM) Brunch | Everyone is invited ***Sunday, Feb. 14*** to show your love for TSM by attending a brunch and making a donation to help support our upcoming mission trips to the Dominican Republic, the Bronx and Detroit along with the Colorado Adventure Trip. Brunch will start after the second service (about 11:35am) in the Community Room.
- **Marriage Matters |** An event for couples on ***Feb. 27 from 6:30-8pm*** with speakers Peter and Marty Everts, marriage therapists who will be speaking on the topic of The Art of a Good Apology. Childcare will be available and the evening will include dessert. Learn more and register here.
- **Breathe Retreat for Mothers | March 11-13** at Portage Lake Covenant Bible Camp. Learn more and register online here. *Save $20 if you register by Feb. 15!*
- **Prime Timers and the Symphony |** All Prime Timers (60+) are invited to go to the symphony (orchestra and choir) 1:00pm performance on Saturday, Mar. 5 at



St. Andrews Cathedral. The cost is $15. If you are interested please sign up at the Welcome Center by this Sunday, Feb. 14. You do not need to pay until the day of the event. Contact Marny Danz with questions.

- **SAVE THE DATE: Urban Plunge 2016 |** Spend a morning serving and learning about ministry in urban Grand Rapids with the whole Thornapple community on ***Saturday, April 16***. Learn more here; registration will begin in early March.

For this Lenten season, Pastor Rob and Pastor Karen have created a 6-week small group study guide to take you through the Gospel of Mark. It is our hope that groups will organically come together for this purpose just during Lent or that existing small groups will take up this 40-day discipleship adventure for the Lenten season. Go here to learn more.

Small group guides and daily reading guides are available at the Welcome Center.

Hi, Caleb and Mike,

Can you please review the notification below before we send it out?

Thanks,

Ric

<image001.png>

Flint Drinking Water

Details:

DTMB will continue to offer tap and bottled water as options in the Flint State Office Building. An advisory has been sent asking residents and businesses within a defined area (see attached notice and map) to boil water before using it. However, the Flint State Office Building does not fall within the Area of Interest on the map. Additionally, the results of testing we commissioned in October 2015 showed no signs of threats in the water supply to our building.

We will continue to monitor the water crisis and if at any time we have evidence that our water supply poses a threat to the health of our employees and visitors, we will take immediate action. Either way, we will continue to provide bottled water as an option for those who are still concerned.

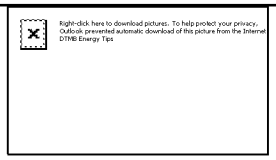
Flint Drinking Water

Details:



An advisory has been issued by the City of Flint asking water customers within a defined area (see attached notice and map) to boil water before using it. However, the Flint State Office Building does not fall within the identified area. DTMB continues to offer tap and bottled water in public areas on each floor as options in the Flint State Office Building.

Subject: Mandatory Meeting - DTMB Custodians of Correspondence Related to Flint
When: Thursday, February 18, 2016 2:00 PM-3:00 PM (UTC-05:00) Eastern Time (US & Canada).
Where: Ottawa Builidng - Upper Level – Conference Room 4 OR Call-in: 866-390-1828 access code: 1842654

Please note this meeting can be attended in person or via conference call-in. Location and Dial in information are provided below.

Requested By:
DTMB Executive Staff

Location:
Ottawa Building
Upper Level – Conference Room 4
611 W. Ottawa Street
Lansing, MI 48933

Call-in: 866-390-1828
Access code: 1842654

Security:
Please have your State Employee ID showing at all times.

Parking:
Metered parking is available along Ottawa and Pine street.

Briefing:
In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to produce, by a certain date, any documents containing certain search terms. In this meeting we will review instructions for the process of identifying, compiling, scanning, and copying the necessary information.

Subject: Re: Flint Office Space Issue

Think we need a field trip. Can discuss in the morning. What other configurations can be accomplished? More hotel space? Conference rooms, other non traditional space. As noted by Chris, taking down additional space and cost not requested, rather try our best to make do within the existing 4 walls.

Sent from my iPhone

On Jan 25, 2016, at 9:20 PM, Phillippo, Jamie (DTMB) <PhillippoJ@michigan.gov> wrote:

Hey guys-

I just read through the email chain. To give FEMA all 12 stations, we may need to relocate 12 people (I heard anywhere from 8-12 depending on who I talked to). The idea of moving three people this morning also involved removing one cluster of furniture to set up tables in that space to accommodate additional people. DHHS has two different groups in this area. When I reached out to Patty Curtis this morning, DHHS is claiming they are out of space an have no where to house these staff on other floors. I believe Mike and Brian talked to managers on site and they were unwilling to give up the space. Just a hurdle we'll have to work through when contacting DHHS. I'll be in at 8 and can help with the DHHS piece.

Should we plan that this will impact DHHS's plans for the space in March?

In our meeting I asked Jamie to set up a call with FEMA, Jeannette Doll and Maureen Bailey. Because we had received several contradictory requests for space for FEMA, I felt it would be best to discuss it with them directly and determine their true space counts and figure out likely growth. We could also determine who could be offsite if possible.

If Chris could get this going with FEMA we will create a plan.

Is this possible?

In our meeting we discussed the loading dock and conference rooms. The conference rooms are filling up and the dock is not going to fit many due to its shape. Keith suggested an office trailer place onsite next to the building.

We are also being asked to prepare for additional Governor's staff and additional DHHS staff as a possibility.

Bob

Mike-

Keith Paasch, Bob Burns, Larry Scates, Jim Clark and I met to discuss the request for additional space in Flint. The building is considered full, as in the office space as designed is assigned. We determined that the best way to serve our current clients and the additional resources needed to deal with this crisis may be to find additional space close by. We came up with several ideas (U of M Flint, School for the Deaf in Flint, City of Flint or FEMA bringing in trailers onsite). Maureen Bailey has confirmed 7,000 sq ft is available on Bristol Road at $12/sq. ft. plus utilities.

Please see the attached prints in reference to space. There is one group of 12 stations that was occupied by Civil Rights plus two offices originally designed for the Governor that the Governor no longer needed on the 5th floor that is highlighted in green. DHHS is taking over the space and has a reconfigure planned starting in March. DHHS is temporarily using the majority of this space until 7th floor is complete. The area reference below is highlighted in yellow within the green space. As stated below, DHHS staff are already in these station and in order for it to accommodate we would need to relocate the staff and tear down the furniture. The other rooms highlighted in orange within the green box have already been occupied by the Governor's staff as well as FEMA personnel. Two open areas are left in the building-the 5th and 6th floor lobbies. The 6th floor is already over occupancy and therefore we cannot add people here. As for adding people in the 5th floor lobby, I'm not sure how our tenants of the floor would be with that as this floor was not supposed to be accessed by the public.

Please let us know how you would like to proceed.
Thanks,

Subject: Flint Office Space Issue
Chris,

MSP has requested that we find additional space in the Flint State Office Building for additional Federal personnel that will need space in the next few days. DTMB had a meeting this morning in regards to this and after the meeting, BOD/Real Estate determined that we are at “max” in the Flint State Office Building. I asked if that meant we filled all the cubicles or if we are at building occupancy limits. The response was that we filled the cubicles and not at occupancy limits.

Can you assist in getting traction? If we can get these Federal partners in the same area as the State personnel, they can better coordinate response efforts. I spoke with Brian Walts (Flint BTS) and he indicated that if we move 3 DHHS staff members on the 5th floor, they could setup tables capable of housing 30-40 individuals. Brian confirmed that he has space on other floors that they could sit temporarily.

Thank you,

Ryan McKee,

Flint Water Advisory

Date/Time:
Effective Wednesday, January 7, 2015
Details:
The City of Flint recently sent out the attached notice regarding violations to the drinking water standards. While the City of Flint states that corrective actions are not necessary, DTMB is in the process of providing a water cooler on each occupied floor, positioned near the water fountain, so you can choose which water to drink. The coolers will arrive today

and will be provided as long as the public water does not meet treatment requirements.

Since we spend about 40 hours a week at our workplaces, isn't the office the best place to try out some new energy-saving tricks? The Energy Information Administration estimates that if commercial and industrial buildings improved their energy efficiency by 10 percent, our economy could see yearly savings of nearly $20 billion.

Subject: Flint SOB drinking water notice action

Team,

We have the notices posted and the new water dispensers have been installed at all the drinking fountain locations at the Flint State Office Building in reaction to the City of Flints notice of a violation in the drinking water standard for the water they supply to our Flint Facility. Please see photo attached. The potable water vendor couldn't deliver till Friday so we pick up the equipment and installed to avoid any extra disruption this issue may cause our tenants and visitors to the building. We worked the vendor for a new customer price so the first month rent on the dispensers was free and will only be $7.00 per month after that with a price of $4.00 per 5 gallon container of water. I have made contact with the City of Flint Water Department to gain more information on the corrective action plan and possibly the time line to correct the issue but they were unable to provide any more information at this time. Please let me know if more action is necessary and I will keep everyone posted if I hear any new information on this issue.

Thank you,
Brian

Flint Drinking Water

Details:

DTMB will continue to offer tap and bottled water as options in the Flint State Office Building. An advisory has been sent asking residents and businesses within a defined area (see attached notice and map) to boil water before using it. However, the Flint State Office Building does not fall within the Area of Interest on the map. Additionally, the results of testing we commissioned in October 2015 showed no signs of threats in the water supply to our building.

We will continue to monitor the water crisis and if at any time we have evidence that our water supply poses a threat to the health of our employees and visitors, we will take immediate action. Either way, we will continue to provide bottled water as an option for those who are still concerned.

Subject: Time Sensitive Request

SMT,

Jean Ingersoll is leading DTMB's effort to comply with document production requests related to freedom of information requests and certain lawsuits against the state.

At some point during the day tomorrow, Jean will share with you a list of standard “search terms” which we will use to compile documents related to this lawsuit.

Within 2 hours of receiving this email from Jean, you need to respond with a list of likely custodians from your work area. Jean may have more information on this tomorrow, but generally speaking a custodian will be a staff member who might reasonably be expected to have documents (electronic or otherwise) that correspond to the issues identified in the search terms.

If you have any questions, please call me or Jean. This is an important issue and I thank you in advance for your attention to this matter.

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

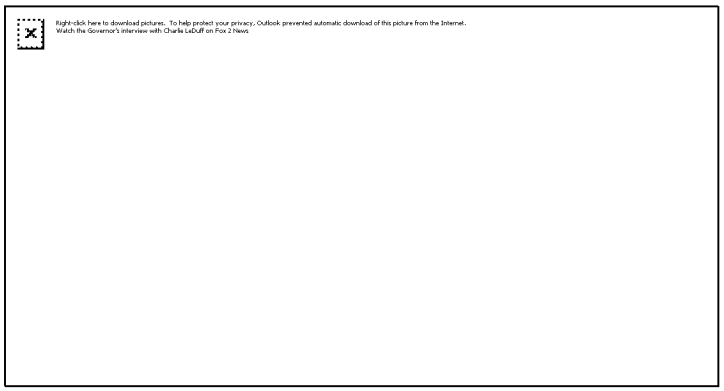
How we are fixing the Flint water crsis

Governor Rick Snyder has committed to spending the rest of his time as Governor to fixing the Flint water crisis. Over the last few days, he has sat down to explain what happened and how we're fixing the Flint water crisis. Watch the interviews below and be sure to read the Governor's Op-Ed in the USA Today.

Governor Snyder on Morning Joe

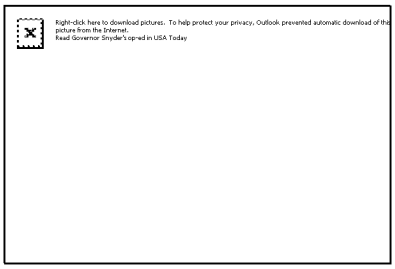


"What is so frustrating and what makes you so angry is you have a handful of experts who were career civil servants that made terrible decisions, in my view. We have to live with the consequences, and they worked for me, so I accept that responsibility. We are going to fix this problem." Watch Governor Snyder address how we are fixing the Flint water crisis on Morning Joe.

Governor Snyder with Charlie LeDuff on Fox 2 Detroit

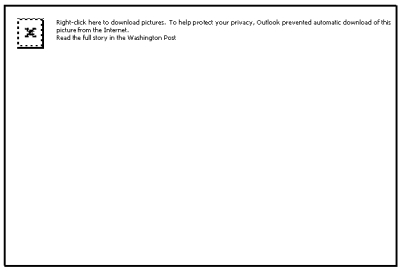
"I feel awful about this. These are people. They've been harmed. You can't feel good about that. The people of Flint have been harmed and a major influence of that harm

came from people who worked for me, and I feel responsible for that. But I am committed to solving the problem and addressing the damage as much as possible for the rest of the time I'm Governor." Watch Governor Snyder address the Flint water crisis with Charlie LeDuff on Fox 2 News.



Governor Snyder's 2016 State of the State

"Michiganders don't quit, we don't give up, instead we will work with even more passion and commitment to truly improve our state. For everyone who's chosen to make Michigan their home, this is more than a promise, this is my commitment." Watch Governor Snyder's full closing statement from his 2016 State of the State address.



Governor in USA Today: "I will fix this, and I mean it."

"Residents in one of Michigan's proud cities cannot drink their water. That's unacceptable. The crisis in Flint arose from missteps at all levels of government — local, state and federal. But as governor, I take responsibility for what these families are going through, and I'm holding people in my administration accountable for their failures." Click here to read the Governor's full op-ed.

Washington Post: "Michigan Gov. Rick Snyder is in a tough spot, but he's his own best spokesman"

Snyder has born the brunt of criticism in the local health crisis that has turned into a national scandal. But unlike many other politicians facing crises of leadership, Snyder may also be his own best counter-programming. Click here to read the full story in the Washington Post.

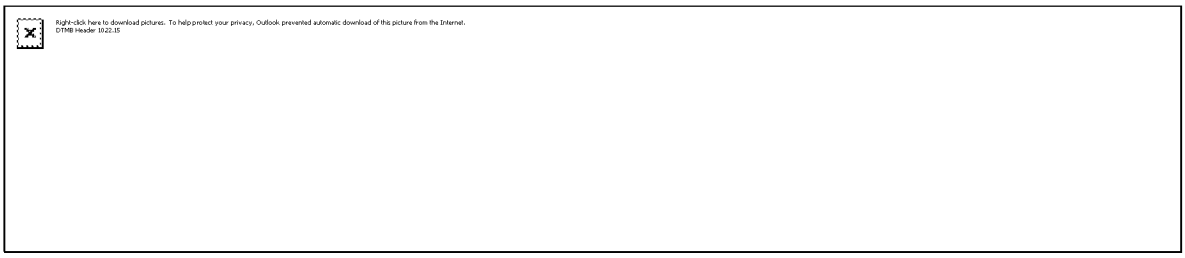
Subject: Flint Volunteer Efforts

Dear State Employees,

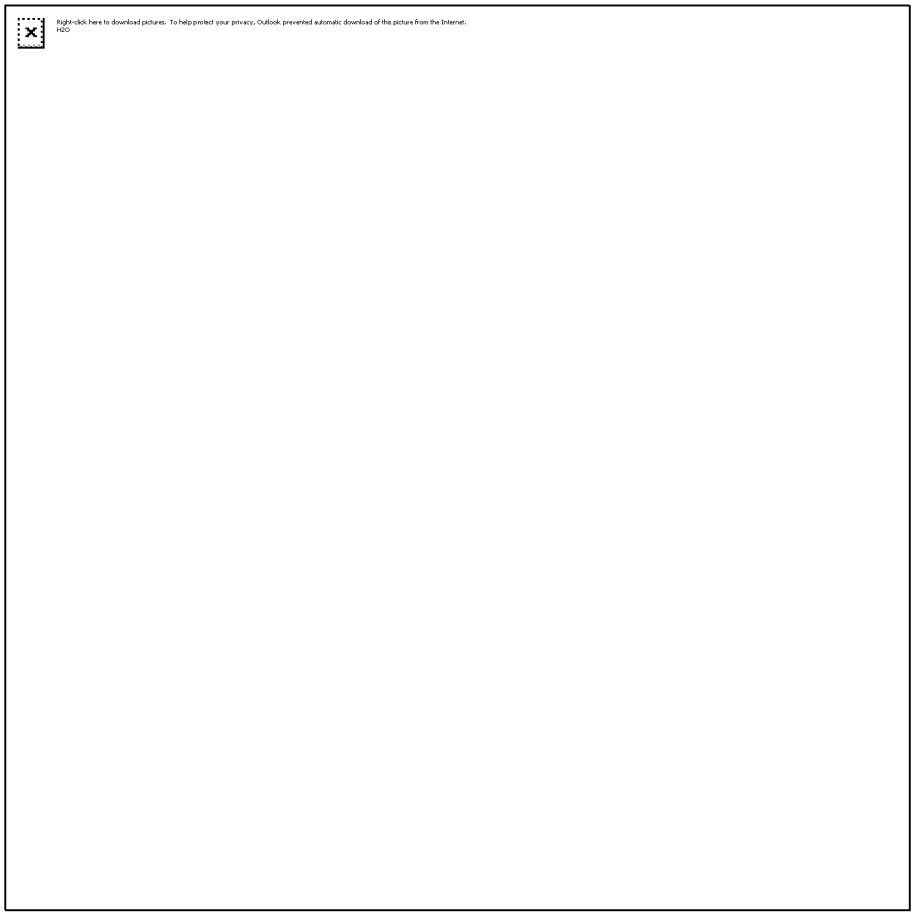
Gov. Rick Snyder and I want to thank everyone who donated their time during the holiday weekend to deliver bottled water, water filters, replacement cartridges and water testing kits to families in the city of Flint. We are working hard to ensure all residents are provided with the safe water resources they need, and each donation and hour of your time volunteered goes a long way.

For employees who would like to help the residents of Flint, there are several opportunities to do so. Please visit www.helpforflint.com to learn how you can help.



For additional information and updates, visit www.michigan.gov/flintwater.

Again, thank you for all your support.



Sincerely, Mike Zimmer

Subject: Contributing time, muscle and money

During this month's Martin Luther King Jr. holiday weekend, some state employees turned their "day off" into a "day on" in Flint. There, they delivered bottled water, water filters, replacement cartridges and water testing kits to families. The volunteers joined other Michiganders, turning Dr. King's birthday observance into a day of service.

Mike Zimmer, director of the Office of Good Government and the Department of Licensing and Regulatory Affairs, has shared a link – www.helpforflint.com – that offers other opportunities to contribute time, muscle and money to bring clean drinking water to the community.Here in DTMB, some of our employees didn't wait for an invitation to lend a hand. Office of Retirement Services staff contributed funds that were used to buy 31 cases and 23 gallons of water, which a local organization transported to Flint.

Autumn Hubbard, Ambrea Mack and Sarah Esquivel, who are in the photo at the left, nearly emptied the shelves at their local grocery store. Thanks for your efforts.

everyone.

Now work.

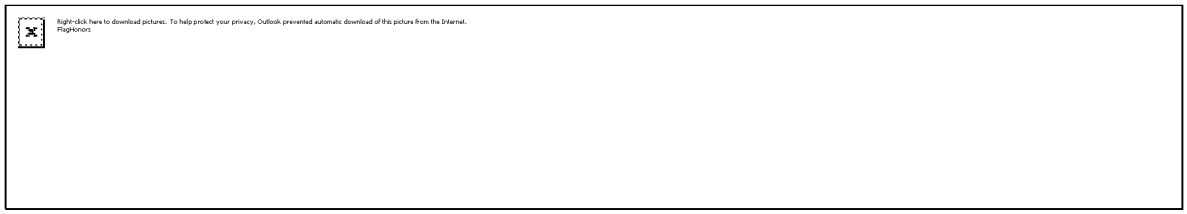
Last week, I signed a new policy that formalizes the annual employee review process and sets expectations for employees and managers. Administrative Policy 200.37 establishes consistent standards for implementing performance plans and reviews. Some of the standards are practices we have followed for years. Others are new. Some of particular note include:

- The mandatory use of HRMN
- A standard Feb. 1-Jan. 31 rating period for all employees
- An Individual Development Plan that specifies training or development programs for each employee
- Competencies and objectives that align to DTMB goals or scorecard metrics
- Consequences for managers and supervisors who do not complete the review process as required

A fundamental role of each DTMB manager or supervisor is to provide employees with direction and feedback on their performance. Employees also are expected to take an active role in pursuing professional development opportunities and achieving their competencies and objectives. I encourage you to review the new policy and talk with your manager or supervisor if you have questions. Of course, I welcome your questions and input as well. Please send your comments and ideas to me at behend@michigan.gov.

I know these have been busy weeks for many of you as you take on additional responsibilities and work hard to provide resources and services for our customers and citizens across the state. Please know that your hard work has not gone unnoticed. Thank you for everything you do, every day.

Have a great week,



David

Subject: Thank you for your service

THANK YOU!

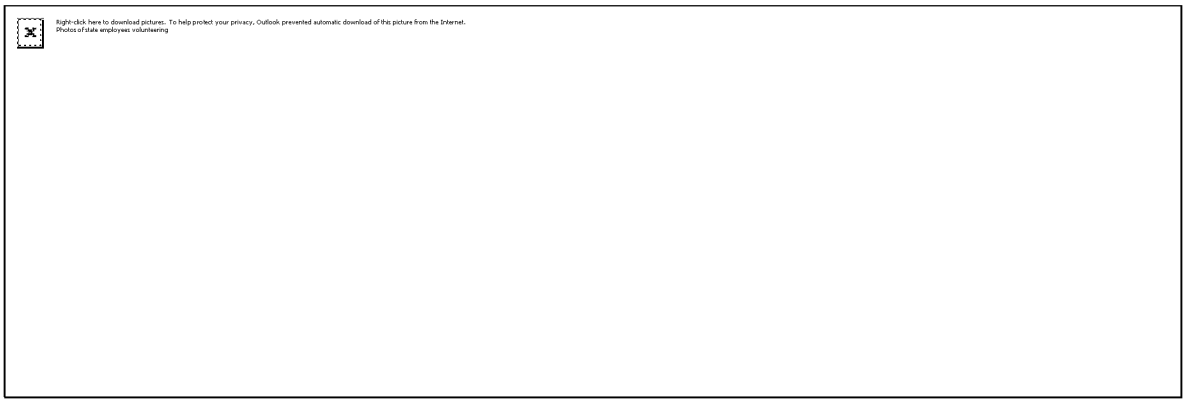
Fellow employees,

Each day, more than 46,000 state of Michigan employees come to work with the confidence and commitment to make Michigan a better place to live, work and play. I appreciate the way you care about the citizens we serve, and how it is reflected in the work that you do.

As you have heard from me and the media, our reputation and trust can be severely impacted when people do not make good decisions, or use good judgment in solving problems. That principle is universal, but never more so than when public health is at stake. What happened in Flint can never be allowed to happen again anywhere in our state.

I know that you want to work in a place where employee input is valued, efforts are recognized, and teams are always striving for continuous improvement. That's why we introduced employee surveys, Bureaucracy Busters and other reinvention initiatives. We want and deserve a culture of innovation, continuous improvement and employee engagement at every level. We can never take for granted how important the people are who depend on us to do our jobs, and I am asking you not to let the situation in Flint negatively impact your motivation to excel every day.

Many of you have taken an interest in helping the citizens of Flint on your own time, and I'd like to take this opportunity to recognize and thank those who have volunteered over the last couple of weekends. You have worked tirelessly to deliver cases of bottled water, water filters, replacement cartridges and water testing kits to the families in need. I appreciate you donating your time to help our fellow Michiganders. To date, more than 37,000 homes have been visited by one of our water resource teams.



For employees who would like to further help the people of Flint, please visit www.HelpForFlint.com to learn how you can do so. For additional information and to sign up for daily updates, please visit www.mi.gov/FlintWater. I am committed to ensuring that all residents have access to safe and clean water.

Again, I'd like to express my gratitude for the work you do every day to continuously improve our state and earn the trust of those you serve. You make a real difference.

Thanks,

Governor Rick Snyder

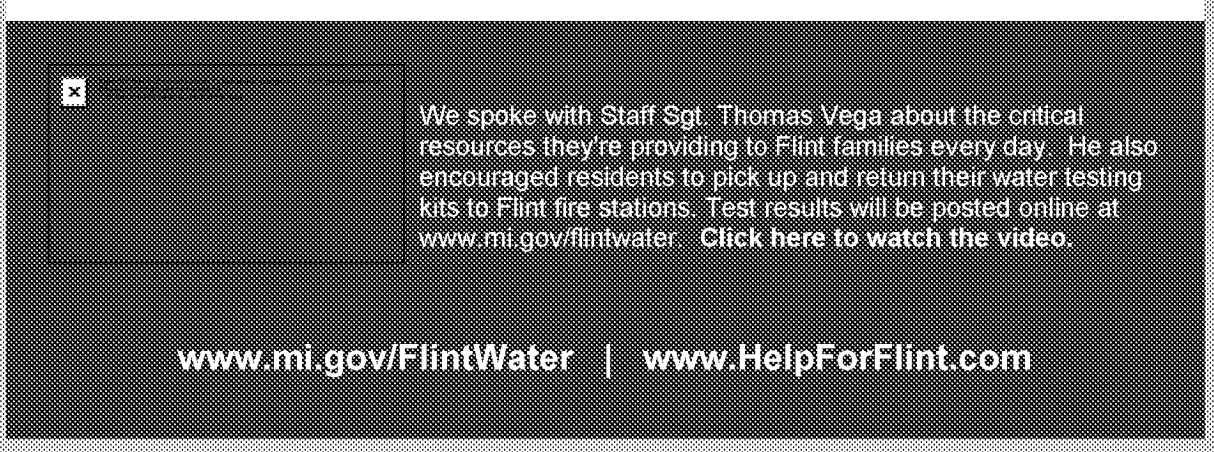
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.



Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going."

Click here to learn more about the budget request.

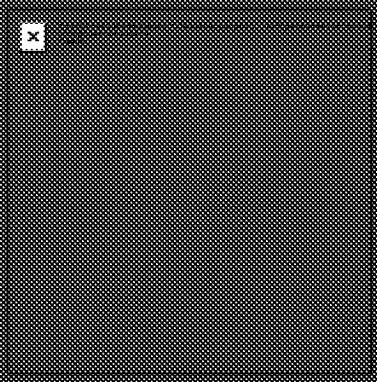
VIDEO: What Governor Snyder's FY17 budget means for Michigan

Gov. Rick Snyder's FY 2017 budget calls for critical investments for the Flint water crisis, statewide infrastructure and the Detroit Public Schools. The governor's recommendation also addresses the skyrocketing costs of specialty medications that Michigan residents depend on for better health outcomes.



This budget also stays committed to the Governor's core statewide priorities of education, talent and economic development, health and human services, and public safety.

The proposed FY 2017 budget makes key investments to strengthen the state for all of

Michigan's families. Click here to learn more about the top 6 takeaways from the Governor's FY 2017 state budget.

Click a tweet to tweet it out:

The #MIBudget @OneToughNerd proposed yesterday makes key investments to strengthen Michigan for all families --> www.mi.gov/MIBudget

--> @OneToughNerd's #MIBudget includes $72 million a year for Detroit Public Schools. It is time to act now -- > www.mi.gov/MIBudget

Sent: Wednesday, February 17, 2016 10:10 AM
To: Waltersdorf, Rex (DTMB)
Subject: The Gov. Snyder's Budget Proposal

Good morning everyone. I hope everyone had a great holiday weekend.

I had the good fortune to travel to Marquette on Monday with Chad Laidlaw, DTMB's policy and planning analyst, to meet with city, business and university leaders and to address the Economic Club of Marquette. I told them about the many things DTMB does, placing special emphasis on our work in mobility and cybersecurity. Marquette is really developing and making its mark as an innovative and entrepreneurial community.

Now work.

The executive budget Gov. Snyder presented last week outlined his investment plan for Michigan. Yes, the proposal for fiscal year 2017-18 outlined a strategy to address the critical challenges of addressing the Flint water crisis and turning around Detroit's Public Schools, but the $54.9 billion plan also includes investment in four key areas:

- **Education.** The budget increases investment to K-12 schools, community colleges and the state's public universities. Additional funds are proposed to expand career, technical, science, technology, engineering and math programs.
- **Protecting the Public.** The governor's plan expands the Secure Cities program, which has reduced violent crime in four major Michigan cities. Funds also would support an additional trooper recruit school and an academy to train corrections officers, among other initiatives.
- **Putting People First.** The governor recommends continued expansion of the Healthy Kids Dental Program and funding efforts to ensure residents have access to affordable health care. His proposal boosts funds to help cover new higher cost specialty medications to treat conditions such as hepatitis C and cystic fibrosis, among others.
- **Investing in Infrastructure.** The proposal allocates $1.2 billion to maintain and repair Michigan roads, bridges and other critical infrastructure.

The budget proposal also includes FY 2017-18 funding recommendations for DTMB. Gov. Snyder recommends ongoing funding of $1.3 billion for department operations and a one-time allocation of $32.4 million.

A few highlights include:

- $502 million for information technology support for all state agencies and $132.8 million for 14 high-priority IT projects in seven agencies. He recommends increasing the Information Technology Investment Fund by $7 million, from $65 million to $72 million. This fund supports several major multiyear IT projects and upgrades, including the replacement of outdated legacy systems.
- An additional $5 million to support cybersecurity improvements to safeguard citizens' personal information and protect critical infrastructure and government services.
- IT support of $6.5 million to modernize the Office of Retirement Services' systems and enhance customer service for more than 530,000 current and future retirees.

You can see the full executive budget recommendations, which are posted on the Budget Office website. Details of DTMB's proposed budget begin on page B-75.

We can expect to see many changes before the budgets are signed and become effective Oct. 1. The executive budget will be used by the House and Senate Appropriations Committees as they work on their own budgets and hold committee hearings on the proposals. I'll keep you posted as the process moves ahead.

As always, I welcome your notes, whether about the budget process or any other topic. Please send them to me at behend@michigan.gov.

Thank you again for all the good work you do. I hope you have a great week ahead.

David

Required Attendees: Wonn, Michael (DTMB); Thompson, Kristi (DTMB); Goodine, Tom (DTMB); Armstrong, Mike (DTMB); Doyle, James (DTMB); Hampton, Kristen (DTMB); Miller, Mark (DTMB); Cooley, Tom (DTMB); Waltersdorf, Rex (DTMB); Monroe, Jerry (DTMB); Bergan, Kristin (DTMB); Banks, William (DTMB); Dyson, Mike (DTMB); Stiles, Dan (DTMB); Chipman, Dan (DTMB); Hodgman, Steve (DTMB); Martin, Todd (DTMB); Weston, Jessica (DTMB); Fitton, Scott (DTMB); Sample, Brice (DTMB); Vanden Bosch, Kerrie (DTMB); Wellman, Jeff (DTMB); Brownlee, Jeff (DTMB); Maynard, Sharon (DTMB); Calahan, Heather (DTMB); Cook, Rebecca (DTMB); Hayes, Genevieve (DTMB); Riehle, Jenni (DTMB); Falik, Tom A. (DTMB); Pemble, William (DTMB); Sambiagio, Melissa (DTMB); Cieciwa, Sue (DTMB); Hunter, Lymon (DTMB); Dufour, Yvon (DTMB); Camp, William (DTMB); Hatch, David (DTMB); Troub, Shelby (DTMB); Epps, Stephanie (DTMB); Herman, Christyn (DTMB); Bliss, Mike (DTMB); Guardiola, Jamie (DTMB); jfoley@us.ibm.com

Please note this meeting can be attended in person or via conference call-in. Location and Dial in information are provided below.

Requested By:
DTMB Executive Staff

Location:
Ottawa Building
Upper Level – Conference Room 4
611 W. Ottawa Street
Lansing, MI 48933

Call-in: 866-390-1828
Access code: 1842654

Security:
Please have your State Employee ID showing at all times.

Parking:
Metered parking is available along Ottawa and Pine street.

Briefing:
In recent months, the State of Michigan has received a number of requests to produce documents related to the water emergency in Flint. You have been identified as a potential custodian of relevant/responsive correspondence and/or documents related to these requests. As a custodian, you are required to produce, by a certain date, any documents containing certain search terms. In this meeting we will review instructions for the process of identifying, compiling, scanning, and copying the necessary information.
